PREFACE

This volume comprises the results obtained from the Third Botanical Expedition to Eastern Himalaya (Bhutan, Nepal) in 1967 and the Fourth Expedition (Nepal, Sikkim) in 1969 organized by the University of Tokyo. It also includes supplementary remarks to an earlier volume of "The Flora of Eastern Himalaya" published by the university in 1966 and which was based on the data from the botanical expeditions by the University of Tokyo between 1960 and 1964.

Not only was a large number of botanical specimens and seeds collected, but also many photographs and records on plants in their habitats were prepared. Some of the photographs have already been published in a book titled "Photo-Album of Plants of Eastern Himalaya" in 1968. Some plants brought back from Himalaya have flowered in Japan, and critical comparative studies on corresponding taxa in Japan and Himalaya are in progress.

We are much indebted to the Government of India, the Government of Nepal, the Government of Bhutan, and the Government of Sikkim for providing us with facilities during our trips. Thanks are especially due to His Majesty J. D. Wangchuck, the Maharaja of Bhutan, and His Majesty Thondup Namgyal, the Maharaja of Sikkim, without whose help our expeditions could not have been carried out successfully. We wish to express our hearty thanks to Mr. Martam Topden, Dr. K. Narashinham, and Mr. K. C. Pradhan of the Government of Sikkim, and Dr. P. R. Pandey and Dr. P. N. Suwal of the Department of Medicinal Plants of the Government of Nepal for their kindness in aiding us in our studies.

We acknowledge the extensive assistance of Mr. Naotomo Sasaki of the National Garden Shinjuku Gyoen, Mr. Atuhiko Aoyama of the Department of Botany, University of Tokyo, and Mr. Kunio Sato of Karuizawa who assisted us greatly in cultivating the Himalayan plants for our studies.

The cost of our expedition in 1967 was partly defrayed by a Grant-in-Aid for Fundamental Scientific Research from the Ministry of Education of Japan.

Finally we wish to take this opportunity to express our warm thanks to all the institutions, banks, companies, and persons that have extended support, financial and otherwise, to our botanical expeditions.

January 1971

Hiroshi Hara
Leader, Botanical Expedition
to Eastern Himalaya

EXPLANATION OF PLATES

- Plate 1. A stream at Nyatoka above Wangdu Phodrang, Bhutan, alt. 1500 m (Apr. 10, 1967). *Desmodium elegans* DC. in full bloom on the left bank.
- Plate 2. a. *Aruncus dioicus* Fernald subsp. *triternatus* Hara at the edge of the forest of *Rhododendron campanulatum*. Sandakphu, the Singalila Range, 3900 m (Jul. 14, 1969).
 b. *Meconopsis napaulensis* DC. f. *fusco-purpurea* Hara. *Rhododendron lepidotum* Wall. with red-purple flowers on the right side. Mt. Singalila, 3900 m (Jul. 17, 1969). $\times 1/10$.
 c. The same species with white flowers. Sandakphu, the Singalila Range, 3950 m (Jul. 15, 1969). $\times 1/12$.
- Plate 3. a. *Primula sikkimensis* Hooker. Sandakphu, the Singalila Range, 3850 m (Jul. 15, 1969). $\times 1/12$.
 b. *Begonia flaviflora* Hara. Senchal, Darjeeling, 2350 m (Jul. 6, 1969). $\times 1/3$.
 c. *Lonicera adenophora* Franchet. Barshong—Nala, Bhutan, 3500 m (May 25, 1967). $\times 1$.
- Plate 4. a. *Benthamidia capitata* Hara. Below Dhunche, Gosainkund, C. Nepal, 2000 m (Jun. 3, 1969). $\times 1/6$.
 b. *Ceropegia pubescens* Wallich. East Birch Hill Road, Darjeeling, 2100 m (Jul. 5, 1969). $\times 3/5$.
 c. *Chirita macrophylla* Wallich. Senchal, Darjeeling, 2350 m (Jul. 6, 1969). $\times 2/5$.
 d. *Didymocarpus Andersoni* C. B. Clarke. Martam—Gangtok, Sikkim, 1700 m (Jun. 27, 1969). $\times 1$.
- Plate 5. a. *Iris Clarkei* Baker. Sandakphu, the Singalila Range, 3900 m (Jul. 15, 1969).
 b. *Iris decora* Wallich. Gosainkund, C. Nepal, 2900 m (Jun. 4, 1969). $\times 2/3$.
- Plate 6. a. *Arisaema erubescens* Schott. Phulchauki, Kathmandu, 2700 m (May 29, 1969). $\times 1/2$.
 b. *Arisaema Griffithii* Schott var. *verrucosum* Hara. Garibas—Tonglu, the Singalila Range, 3000 m (May 2, 1970). $\times 1/2$.
 c. *Arisaema costatum* Martius. Thare, Gosainkund, C. Nepal, 2200 m (Jun. 3, 1969). $\times 1/2$.
 d. *Arisaema ostiolatum* Hara. Phalut—Sabargan, the Singalila Range, 3400 m (Jul. 19, 1969). $\times 3/4$.
- Plate 7. a. *Galeola Lindleyana* Reichb. Below Damthang, Sikkim, 2000 m (Jun. 29, 1969). $\times 1/2$.
 b. *Cardiocrinum giganteum* Makino. Thare—Dhunche, Gosainkund, C. Nepal, 2000 m (Jun. 2, 1969). $\times 1/10$.
- Plate 8. a. *Calanthe tricarinata* Lindley, one flower. $\times 1$.
 b. *Calanthe tricarinata* Lindley. Phulchauki, Kathmandu, 2700 m (May 29, 1969). $\times 1/2$.
 c. *Cephalanthera ensifolia* Richard. Gosainkund, C. Nepal, 2700 m (Jun. 4, 1969). $\times 2/3$.

- d. *Orchis Chusua* D. Don.
Phalut, the Singalila Range, 3800 m (Jul. 16, 1969). $\times 5/4$.
- Plate 9. a. *Parnassia mysorensis* Heyne.
Sandakphu, the Singalila Range, 3900 m (Jul. 15, 1969). $\times 3/4$.
b. *Parnassia Wightiana* Wallich.
Phalut, the Singalila Range, 3800 m (Jul. 16, 1969). $\times 2/3$.
c. *Chrysosplenium singalilense* Hara in fruit.
Phalut, the Singalila Range, 3870 m (Jul. 18, 1969). $\times 3/2$.
d. *Stilbanthus scandens* Hooker f. in flower.
Phyang La, Sikkim, 1700 m (Jul. 1, 1969).
e. *Acomastylus sikkimensis* F. Bolle with white nodding flowers.
Sabargan—Phalut, the Singalila Range, 3700 m (Jul. 16, 1969). $\times 1/3$.
- Plate 10. a. *Rubus lineatus* Reinwardt.
Ghum, Darjeeling, 2300 m (Jul. 7, 1969). $\times 4/5$.
b. *Rubus splendidissimus* Hara.
Meghma—Chitrey, the Singalila Range, 2800 m (Jul. 22, 1969). $\times 1$.
c. *Rubus gigantiflorus* Hara.
Tonglu, the Singalila Range, 3000 m (Jul. 12, 1968). $\times 3/4$.
d. *Rubus fragarioides* Bertoloni.
Sandakphu, the Singalila Range, 3800 m (Jul. 15, 1969). $\times 1$.
e. *Rubus Fockeanus* S. Kurz.
Above Sabargan, the Singalila Range, 3500 m (Jul. 16, 1969). $\times 1$.
- Plate 11. a. *Streptopus simplex* D. Don.
Sandakphu, the Singalila Range, 3900 m (Jul. 20, 1969). $\times 3/4$.
b. *Cardiocrinum giganteum* Makino.
Phulchauki, Kathmandu, 2700 m (Jun. 10, 1969). $\times 1/2$.
c. The same. $\times 1/4$.
d. *Ophiopogon parviflorus* Hara.
Darjeeling, 2200 m (Jul. 24, 1969). $\times 1$.
- Plate 12. a. *Polygonatum verticillatum* Allioni, a broad-leaved form.
Phalut, the Singalila Range, 3900 m (Jul. 18, 1969). $\times 1/5$.
b. The same, a common Himalayan form with narrower leaves from the same locality. $\times 1/4$.
c. *Polygonatum singalilense* Hara.
Phalut, the Singalila Range, 3900 m (Jul. 18, 1969). $\times 1/2$.
d. *Polygonatum verticillatum* with alternate or opposite leaves.
Sandakphu, the Singalila Range, 3850 m (Jul. 14, 1969). $\times 5/7$.
- Plate 13. Pollen grains of the section Dollinera of *Desmodium*. $\times 1000$. a–d: *D. amethystinum* (Garrett 53), e–h: *D. multiflorum* (Kingdon-Ward 22545).
- Plate 14. Pollen grains of the sections Dollinera, Kingianae and Sequax of *Desmodium*. $\times 1000$. a–d: *D. sequax* (Sasaki 849), e–h: *D. khasianum* (Hook. f. & Thoms. s.n.), i–k: *D. Kingianum* (Kerr 9086), l–n: *D. elegans* (subsp. *elegans* var. *Handelii*: Rock 8517), o–q: *D. megaphyllum* (o–q: Sørensen et al. 927; r: Iwatsuki & Fukuoka T.3210).
- Plate 15. a. *Arisaema intermedium* Blume.
Phulchauki, Kathmandu, 2900 m (May 29, 1969). $\times 5/12$.
b. The same, a female spadix with an appendage. $\times 4/5$.
c. *Arisaema speciosum* Martius.
Tiger Hill, Darjeeling, 2450 m (Jul. 26, 1969). $\times 1/6$.

- d. *A. speciosum* var. *mirabile* Engler, a spathe and an appendage of spadix. Tendong Peak, Sikkim, 2900 m (Jun. 29, 1969). $\times 2/3$.

Plate 16. a. *Arisaema ostiolatum* Hara.

Sabargan, the Singalila Range, 3400 m (Jul. 19, 1969). $\times 1/3$.

- b. The same, a longitudinally dissected spathe and a female spadix with an appendage. $\times 1$.

c. *Arisaema propinquum* Schott.

Sandakphu, the Singalila Range, 3900 m (Jul. 14, 1969). $\times 1$.

Plate 17. a. *Arisaema costatum* Wallich.

Shioupuri, Kathmandu, 2600 m (Jun. 15, 1969). $\times 5/12$.

- b. A female spadix with an appendage.

Phulchauki, Kathmandu, 2950 m (Jun. 10, 1969). $\times 1$.

- c. A part of the underside of leaf showing veins. Magnified.

- d. A spathe seen from the back. $\times 2/3$.

- e. A male spadix. $\times 3/2$. c-d, from Thare, Gosainkund, C. Nepal, 2200 m (Jun. 3, 1969).

Plate 18. a. *Arisaema Jacquemontii* Blume.

Tonglu, the Singalila Range, 3000 m (Jul. 12, 1969).

- b. *Arisaema nepenthoides* Martius.

Shioupuri, Kathmandu, 2600 m (Jun. 14, 1969). $\times 1$.

- c. *Arisaema utile* Hook. f.

Phulchauki, Kathmandu, 2700 m (May. 29, 1969). $\times 2/5$.

Plate 19. a. *Arisaema concinnum* Schott.

Shioupuri, Kathmandu, 2600 m (Jun. 14, 1969). $\times 1/3$.

- b. The same species.

Meghma—Chitrey, the Singalila Range, 2800 m (Jul. 22, 1969). $\times 1/4$.

- c. *Arisaema consanguineum* Schott, a narrow-leaved form.

Peshok Road—Ghum, Darjeeling, 2300 m (Jul. 7, 1969). $\times 1/3$.

- d. The same, showing a drooping fruiting peduncle. $\times 1/2$.

Plate 20. a. *Arisaema exappendiculatum* Hara.

E. Nepal, cult. in Tokyo (Jun. 21, 1964). $\times 1/5$.

- b. The same. $\times 1/2$.

MEMBERS AND ITINERARIES

BOTANICAL EXPEDITIONS TO EASTERN HIMALAYA 1967 AND 1969

Members of the March–June 1967 Expedition to Bhutan, Darjeeling and Central Nepal.

Hiroshi Hara	University of Tokyo
Takasi Yamazaki	University of Tokyo
Hiroo Kanai	University of Tokyo
Hiroyoshi Ohashi	University of Tokyo
Osamu Tanaka	University of Tokyo
Gen Murata	Kyoto University

Members of the May–July 1969 Expedition to Central Nepal, Sikkim, Darjeeling and Singalila Range.
