

- Share your favorite photos in vibrant color and crisp detail on a 10.2" ¹ wide (15:9) LCD display with WSVGA (800 x 480) resolution.
- Plug-and-Play, PC-less image transfer is a snap with direct USB input⁵ from most digital cameras, as well as support for most memory cards⁶, including Memory Stick Duo™ media, Memory Stick PRO Duo™ media, Secure Digital (SD), Multi-Media Card (MMC), Compact Flash™ Type I and Type II, and xD-picture cards.
- 2GB² internal storage capacity with Auto Sizing adjustment lets you store up to 4,000 photos.
- Multiple playback options give you the flexibility to display your photos as single images, as thumbnails for easy searching, or as a slideshow with 10 built-in transitions.
- Auto Correction features use Sony's high-performance BIONZ™ image processor and Face Detection technology to improve photos through features such red-eye correction and under/over exposure correction.
- Set the Sony® Digital Photo Frame vertically or horizontally and the DPF-X1000's Auto Orientation sensor automatically rotates your photos into portrait or landscape format according to the placement of the frame.
- Bluetooth® capability⁴ lets you wirelessly transfer photos from compatible devices, including compatible mobile phones and PCs.
- An HDMI™ connection provides a direct connection to compatible HDTVs so you can share images and slideshows in Full HD 1080 quality³.
- A supplied remote control lets you navigate the Digital Photo Frame without leaving the comfort of your couch or office chair.
- Clock and calendar modes provide added convenience for your home or office.
