Bring your garden to life with Bosch garden tools.

People use and enjoy their gardens in different ways. Some people just want to recuperate from their busy day-to-day lives and appreciate every minute they get to relax. Others take great care in looking after their plants and outdoor space.

Whether it's alfresco dining, kicking a ball around with the kids, or taking pride in a well-maintained garden, Bosch garden tools ensure effortless gardening that will help you enjoy your outdoor living area.

Nothing beats cordless freedom:

Bosch has a complete range of cordless garden tools to make gardening as easy and enjoyable as possible. Cordless tools eliminate the need for a cable thereby offering unrestricted movement without the hassle of untangling and with no risk of cutting the cable. In addition, cordless tools are lightweight compared to conventional petrol tools, are easy to start and produce no petrol fumes.

The latest cordless technology using lithium-ion batteries offers many advantages

- ▶ tools are more compact and lightweight than conventional cordless tools
- ▶ lithium-ion batteries have no memory effect or self-discharge so tools are always ready to use
- ▶ short charge times

Bosch offers the flexibility of combining tools, batteries and chargers within the 36 V and 18 V tool ranges.

Unbeatable Bosch technology delivers house-to-garden solutions.

Bosch goes one step further. The Bosch lithium-ion technology offers long battery life, Electronic Cell Protection and intelligent power management. In addition to this, our garden tools are designed and engineered to get the most out of the lithium-ion batteries. This ensures that you get maximum performance, power and reach out of your tools. A good example of this is the innovative 'Efficient Energy Management' found on our cordless Rotak mowers, which gives increased run time.

Another example is the increased cutting performance on our shrub shears thanks to the groundbreaking 'Anti-Blocking System'. With Bosch garden tools, rest assured that you are always at the forefront of technology.

You'll find Bosch Tools are easier than ever to handle, use and manoeuvre, making your home and garden jobs easier and even more enjoyable.

Experience Bosch with multimedia!

This Bosch catalogue not only provides you with printed information. The small code squares – known as QR codes – can be scanned using a web-enabled smartphone. This will deliver moving pictures from the Bosch catalogue directly to your mobile. With interesting product information and application examples. Give it a try!

A lush garden scene with a wooden table in the foreground and various flowers in the background. The background is filled with green foliage and colorful flowers, including red and white ones. The foreground shows a wooden table with a slatted top.

The gardening season.

A time for satisfaction.

Simply take a moment to sit down, take a deep breath and replenish your energy. The short breaks you take from your day-to-day stress are always the best, especially in a garden that is easy to maintain. And even more so when you use garden tools that are handy, powerful and quiet. In addition to a full range of corded tools, Bosch also offers you new products with lithium-ion technology for cordless freedom, enormous time saving due to powerful batteries, and more convenience because they weigh so little. All of this is to ensure that you can put your feet up sooner and make the most of spring and summer. After all, what is the point of having a garden? To enjoy yourself, have a barbecue, meet up with friends and relax.

Lawn care

Cordless Rotak mowers	8
Corded Rotak mowers	9
Cylinder mowers	10
Lawn raker	11
Verticutter	11
Range overview	12-13

A beautiful lawn.

And everything you need to maintain it.

The type of lawnmower you require depends on the size of your lawn and what you use it for. We've got all the tools to help you keep your lawn in tip-top condition.

If your lawn is a space for playtime and leisure, you'll want to spend as little time as possible keeping it in shape. The **Rotak rotary mower** from Bosch comes with a 'Powerdrive Motor', which effortlessly cuts through all kinds of grass, even when it's long. The range of Rotak mowers also benefits from the 'Ergoflex System', offering ergonomically designed and adjustable handles to improve body posture and reduce muscle strain whilst mowing the lawn. And its innovative grass combs – which come as standard even on our smallest model, the Rotak 32 – let you cut right up to the edge. Which means you get more time to relax as your lawn does not require additional finishing touches.

If you find extension cords or petrol a hassle, our new **Rotak cordless mowers** could be just the thing for you. They give you power, freedom

and energy efficiency – plus all the benefits of our Bosch lithium-ion technology. With a cutting width of 43 cm and two batteries, the Rotak 43 LI is perfect for larger lawns.

And if you love keeping decorative lawns beautifully trim, a **cylinder mower** is just right for the job. The hand mower is perfect for precise, small lawns.

We've also got tools to help you keep your lawn healthy and lush. A **lawn raker** will efficiently and gently remove moss in its earliest stages of growth, without damaging grass. And if moss has already taken hold, a **verticutter** will help you remove the growth and prepare the lawn for reseedling.

You'll find a handy overview of all Bosch lawn care products on pages 12–13.

Rotak 43 LI cordless lawnmower.

Effortless handling, cordless freedom.

Part of a range of cordless mowers with various cutting widths, the Rotak 43 LI is a fantastic choice for larger gardens. It has a 43 cm cutting blade and two of our innovative lithium-ion technology batteries. Just as powerful as traditional electric and petrol mowers, the Rotak 43 LI has no trailing cable, is always ready to use and is much quieter. It's 40% lighter than traditional mowers too. What's more, it doesn't smell of petrol and because it runs on such small amounts of energy, it produces ten times less CO₂ emissions than petrol mowers. It's also very easy to manoeuvre due to the Rotak's clever 'Ergoflex System', offering ergonomically designed and adjustable handles. So no matter what your height or build, you'll keep complete control and maintain perfect posture. **Also available with 37 and 34 cm cutting widths.**

Effortless handling, cordless freedom
Find out more about the Rotak LI Lawnmower range, scan the QR code and learn more. For instructions on how to use QR codes turn to page 3.

'Ergoflex System'
Ergonomically designed and adjustable handles to improve body posture and reduce muscle strain while mowing

Foldable handles
For compact storage

Lightweight
For easy manoeuvring

Innovative grass combs
Cut close to the edge of walls, flower beds and lawns

Cordless power
Thanks to the powerful 36 V / 2.6 Ah High Power lithium-ion battery

More power
'Efficient Energy Management' increases run time by up to 15%

Effortless control
The 'Ergoflex System' offers improved steering and better body posture.

Cordless freedom
Lightweight for optimum manoeuvrability. No messy cables to tangle you up, no smelly petrol fumes to choke on.

Cutting edge precision
Unique grass combs mow your lawn right up to the edge, while the lithium-ion battery powered motor cuts even in long and damp grass conditions.

Rotak 37 electric rotary lawnmower.

Effortless handling right up to the edge.

The Rotak 37 electric lawnmower with innovative grass combs cuts the lawn right up to the edge. The 'Powerdrive Motor' delivers powerful cutting and it can even tackle grass up to 25 cm long thanks to its high torque. **Our full range of corded mowers can be found on pages 12–13.**

The AGR-quality cachet

The 'Ergoflex System' is approved by the renowned German institution AGR which promotes research into the prevention of back problems.

Effortless control

New 'Ergoflex System' offers improved manoeuvrability and better body posture.

Lightweight

With integrated handles for effortless carrying.

'Ergoflex System'
For effortless control

Foldable handles
For compact storage

Lightweight
Easy to move and transport

'Powerdrive Motor'
Ensures a reliable powerful cut

40 L grass box
High performance grass collection and easy to empty

Height adjustment
For convenient use

POWERDRIVE MOTOR

Rotak 32 electric rotary lawnmower.

A lawnmower that cuts right up to the edge.

This is the smallest Rotak but like the rest of the range it has grass combs that take cutting up to the edge. At only 6.8 kg, the Rotak 32 doesn't skimp on power with the acclaimed 'Powerdrive Motor'.

Lightweight
For easy manoeuvrability and carrying

31 L grass box
For improved collecting performance and less walks to empty the grass box

Grass combs
Cuts up to the edge

Integrated carry handle
For easy and balanced lifting

'Powerdrive Motor'
Ensures a reliable cut, even under difficult circumstances

POWERDRIVE MOTOR

ASM 32 cylinder mower.

Precise cutting for a neat lawn.

If you love decorative lawns that are cut very short and mowed regularly, then you should choose the Bosch cylinder mower. Its 'Quattro-Cut' System cuts grass with the same precision as a pair of scissors. The smooth cut ensures a healthy lawn, enables cutting heights from 12 to 32 mm and an aesthetic appearance.

Smooth
With cutting heights of 12 to 32 mm and a cutting width of 32 cm.

Accurate
Precise cutting thanks to 'Quattro-Cut' System.

AHM 38 C hand mower.

A perfect cut for small lawn areas.

The classic hand mower also meets the high standards that you have come to expect from Bosch. The result is an accurate, healthy lawn at a cutting height of 15 to 43 mm. Simple, smooth and quiet. Ideal for maintaining a small front garden.

Efficient
Scissor-like cut for a neat finish.

Refined
Click 'on-cut' mechanism for tool-free setting of the bottom blade.

ALR 900 lawn raker.

Thorough moss removal and aeration.

Your lawn will only flourish if you regularly free it from moss and leaves. You can remove both of these using the Bosch lawn raker by setting its 20 spring steel tines to the corresponding height from -5 mm to gently comb out thatch without damaging the grass to +10 mm to collect leaves. The 'Jet-Collect System' creates an airflow to blast everything into the collection box, therefore preventing annoying blockages.

Efficient

The combination of the 900 W 'Powerdrive Motor' and the 'Jet-Collect System' provides fast and clog-free raking at a working width of 32 cm.

POWERDRIVE MOTOR

Compact storage

Double folding handle, stackable collection box

Large 50 L collection box

For less stopping and time to empty it

'Jet-Collect System'

Innovative drum with spring carbon steel tines and airflow inlets quickly and completely removes thatch and moss

Practical

Large 50 L collection box means less stopping and time to empty it. And both machines are only 40 cm high when stored due to stackable collection box and folding handles.

AVR 1100 verticutter.

Deep cutting for moss removal and reseeding.

Is your lawn more than two years old? Has your lawn been regularly maintained? Is your lawn infested with moss or thatch? Or is it waterlogged in places? If so, then you need the AVR 1100 verticutter to provide efficient, intensive care for your lawn. The carbon steel blades slit from -10 to +5 mm into the ground, therefore preparing it quickly for reseeding.

POWERDRIVE MOTOR

Compact storage

Double folding handle, stackable collection box

Large 50 L collection box

For less stopping and time to empty it

'Jet-Collect System'

Innovative drum with boron steel blades and airflow inlets quickly and completely removes the layer of thatch consisting of plant debris, moss and weeds from the lawn

Performance

The AVR 1100 with 1100 W 'Powerdrive Motor' and 'Jet-Collect System' slits across its working width of 32 cm and blasts the waste material into the collection box without clogging. You can then reseed the lawn.

Cutting lawn edges

Cordless grass shears	16-17
Cordless grass trimmers	18
Corded grass trimmers	19
Range overview	20-21

Neat lawn edges.

A made-to-measure tool range.

To put the finishing touches to your lawn, you will need to trim the areas that your lawnmower cannot reach.

If you only need to cut small corners or sections of the lawn, then all you need is a pair of grass shears. The compact, handy **Bosch Isio** with cordless lithium-ion technology is very lightweight and cuts the edges of your lawn precisely. A telescopic handle is available to enable you to cut without having to bend down.

The **AGS cordless grass shears** are designed to make cutting lawn edges quick and convenient. Compact and lightweight with a particularly slim grip circumference and balanced weight distribution as well as long battery run time, give the range a real advantage.

The bigger and more complex your garden is, the more you have to work to maintain the lawn edges along paths, walls, fences, corners and around stones, shrubs, trees, flower beds. Bosch offers **cordless and corded grass trimmers** to help you with this.

Corded grass trimmers provide high power and cutting diameters of up to 30 cm. They give good results in little time. Then there are **cordless grass trimmers** that offer the greatest freedom of movement, are not dependent on a plug socket and are low in weight.

Whether cordless or corded, this comprehensive selection of tools ranges from standard models to more sophisticated **grass trimmers** with 90° rotating cutter head, height-adjustable telescopic handle and plant protector.

An overview of the complete range of Bosch products for cutting lawn edges can be found on pages 20–21.

Isio cordless grass shear.

The original: still lightweight but now even more powerful.

Sheer excellence is the only way to describe the Isio. Compact and lightweight, it's fantastically easy to handle. And with high-quality Swiss blades and lithium-ion technology, the Isio gives you up to 50 minutes run time on a single battery charge. Its 'Anti-Blocking System' means there's virtually no stalling, so you'll sail through the task in hand. And its telescopic handle accessory makes the Isio even more convenient to use.

Compact and lightweight
Only 500 g for comfortable use. For extra convenience, use with the telescopic handle accessory that is height-adjustable.

Powerful
Ensure continuous cutting through dense grass thanks to the electronic anti-stall device 'Anti-Blocking System'.

Lithium-ion technology
Allows faster charging times, no self-discharge, no memory effect and always ready to use. Delivers up to 50 min run time.

AGS 10,8 LI cordless grass shear.

Keep going with high manoeuvrability.

Our cordless grass shear will keep you trimming for a long time, while the LED display shows how much power is left. The AGS 10,8 LI's Swiss-made 100 mm blades give you a superior cutting performance too, and they're extremely easy to change. It handles brilliantly, with a soft, comfortable grip. It's highly manoeuvrable and absolutely perfect for reaching all those hard-to-get-at areas of grass.

Compact

775 g with comfortable softgrip for continuous use.

Long running time

Lithium-ion batteries give high power and deliver up to 100 min run time.

Always ready to use

Lithium-ion powered tool with integrated battery status indicator and 3.5 h charge time.

ART 26 LI cordless grass trimmer.

Cordless power up to 1000 metres.

With a Bosch cordless grass trimmer, you'll be able to edge for up to a kilometre on a single charge, with no need for cables. Its blade system gives you a 26 cm cutting diameter, while its plant protector ensures precision trimming around fragile plants. The telescopic handle lets you adjust the trimmer to a perfect height, and the softgrip and large safety switch make this piece of equipment really easy to handle.

BATTERY SYSTEM

Durable

Very powerful tool, trims up to 1000 metres with one battery charge.

Versatile and lightweight

Adjustable telescopic shaft and handle, edging function and rotating cutter head.

Power4All

All 18 V lithium-ion batteries in the Power4All family can also be used in other 18 V Bosch Power4All garden and DIY tools. Please see pages 65–67 for more information.

ART 30 Combitrim grass trimmer.

Made for overgrown areas.

Stubborn, overgrown areas are no match for a Bosch Combitrim. Its 500 W 'High-Power' motor and changeable cutting system let you storm through wild and unruly patches of undergrowth just as easily as normal grass. The ART 30 Combitrim has a 90 degree rotating cutter head to let you tackle trimming and edging with ease. And the easy grip and height adjustable telescopic handle mean you'll do it with perfect posture too.

Powerful

Ideal for edging and use in medium and large gardens including overgrown areas. The powerful 500 W motor and 30 cm cutting width deliver good all-round performance.

Convenient

Maintaining optimum line length is easy – simply tap on the ground to control line feed. Spool replacement is convenient and sealed spools prevent tangling.

Versatile

Two spools, one for normal grass and one with extra-strong line for more stubborn growth.

The gardening season.

A time for living.

What is better than enjoying nature in an idyllic garden full of peace, quiet and tranquillity? Here there is always something to change or add because you may develop new preferences and higher expectations as the years go by. This is why good tools also become increasingly important for gardening. Whether mowing the lawn or cutting hedges – the innovative Bosch Garden Tools make all types of gardening work easier for you. Many of the new products are equipped with lithium-ion batteries, which makes them extremely powerful and lightweight. They turn the wildest of gardens into a haven of tranquillity without the need for a plug socket.

Shrub and hedge care

Cordless shrub shears	26-27
Corded and cordless hedgecutters	28-31
Range overview	32-33

In good shape.

The best tools for cutting.

Shrubs and hedges are normally very easy to maintain. Regular cutting is by far the most important way of looking after them.

It is essential that you choose the right tools to do this. The **Isio** is a great choice for creative shaping of evergreen, small leafed plants such as box trees, yew trees and privets.

The **ASB** shrub shear is our strongest ever, while still compact and light-weight for ultimate agility. You'll find the ASB shrub shear the perfect tool for shaping your shrubs just the way you want them.

Both the **Isio** and **ASB** benefit from the innovative 'Anti-Blocking System' which prevents virtually all chance of stalling.

A complete range of **cordless and corded hedgecutters** are available for maintaining your hedges. Our new **corded electric hedgecutters** offer more power and a tooth opening of up to 34 mm.

Cordless hedgecutters offer more freedom of movement and remove the risk of cutting through a cable.

Choose the required tooth opening based on the branch thickness of your hedge. When doing so, remember that a hedge will grow. If in doubt, it is best to choose the next tooth opening up. The height and depth of the hedge determine the optimum blade length.

An overview of the complete range of Bosch shrub and hedge care products can be found on pages 32–33.

Isio cordless shrub shear.

The original: still lightweight but now even more powerful.

The most compact and lightweight lithium-ion shrub shear offers even more power and performance. Its precision ground quality blades with 120 mm blade length and 8 mm tooth spacing are perfect for shaping shrubs and small hedges without stalling. And its outstanding ergonomics also make it easier to work in hard-to-reach areas.

Compact and lightweight
For effortless cutting of bushes and small leafed hedges.

Powerful
Ensure continuous cutting through harder branches thanks to the electronic anti-stall device 'Anti-Blocking System'.

Lithium-ion technology
Allows faster charging times, no self-discharge, no memory effect and always ready to use. Delivers up to 50 min run time.

ASB 10,8 LI cordless shrub shear.

Our strongest ever shrub shear for ultimate agility.

Shrub shearing has never been easier. Our ASB 10,8 LI shrub shear weighs in at just 900 g, giving you complete control to shape your shrubs and young hedges in exactly the way you want them. Its balanced design makes it highly manoeuvrable, and our 'Anti-Blocking System' lets you cut continuously without annoying jams.

Long running time
Weight of only 900 g for effortless cutting of bushes and small leafed hedges. Delivers up to 100 min run time.

ANTI-BLOCKING SYSTEM

Manageable power
Compact and manoeuvrable tool with 'Anti-Blocking System' for extra cutting and virtually no stalling.

Always ready to use
Lithium-ion powered tool with integrated battery status indicator and only 3.5 h charge time.

AHS 54-20 LI cordless hedgecutter.

Cordless mobility and maximum power.

Cordless hedgecutting.

This cordless hedgecutter makes work easier for you. Thanks to its lithium-ion technology, it's durable and is not dependent on a plug socket. It weighs only 3.5 kg and is ergonomically balanced. This means you can cut in any position without getting tired. Its 'Anti-Blocking System' and diamond ground steel blade guarantee a powerful cut.

Cordless freedom

No more having to untangle the cable or risking cutting through it.

ANTI-BLOCKING SYSTEM

Powerful

Combination of 540 mm blade length, 20 mm tooth opening and the electronic 'Anti-Blocking System' ensures powerful cutting to get the job done.

Always ready to use

36 V lithium-ion battery, interchangeable with other Bosch tools. Fully charged in only 45 min (80% in 25 min).

AHS 52 LI cordless hedgecutter.

Lightweight, maximum performance.

This cordless hedgecutter ends the hassle of untangling and the risk of cutting the cable. Ergonomically balanced and weighing only 2.3 kg, it enables you to cut in any position with minimum effort. Its 'Anti-Blocking System' ensures a continuous cutting performance.

Also available with different blade lengths – see page 32–33.

ANTI-BLOCKING SYSTEM

Powerful

Where other hedgecutters stop working, 'Anti-Blocking System' ensures a continuous cutting performance.

Cordless freedom

No more having to untangle the cable or risking cutting through it.

BATTERY SYSTEM

Power4All

All 18 V lithium-ion batteries in the Power4All family can also be used in other 18 V Bosch Power4All garden and DIY tools. Please see pages 65–67 for more information.

New! AHS 70-34 hedgecutter.

Lightweight and extremely powerful for the toughest jobs.

The AHS 70-34 is lightweight and extremely powerful. Nimble, yet effective, it lets you storm through big jobs with minimal strain on your back and arms. It's up to 15% lighter than any of our previous models, and its multi-position softgrip handle and smaller dimensions allow you to work easily in different positions. **See pages 32–33.**

Optimum handling

Well-balanced design makes it up to 15% lighter than predecessors.

Easy-to-use

See-through hand guard, soft grip handles and multiple switching positions ensure safer and more comfortable cutting.

Maximum performance

700 W motor and a newly-designed blade with sawing function and 34 mm tooth opening.

New! AHS 60-26 hedgecutter.

Less weight and more power, ideal for mid-sized hedges.

This nifty hedgecutter weighs up to 10% less than previous models – so it takes the strain off your arms and back. With its softgrip multi-position handle and compact size, the AHS 60-26 takes the sweat out of handling medium-sized hedges.

See pages 32–33.

Blade tip protector

For easy cutting along the edges of walls and the ground.

AHS 60-16 hedgecutter.

Lightweight and powerful for convenient hedgecutting.

This compact, lightweight hedgecutter is a true gem that's perfect for small to medium hedges. It's over 10% lighter than its predecessor, and is ergonomically designed to be comfortable to use in any position. Its high speed motor and powerful 16 mm tooth opening give you outstanding cutting performance. Which all means that tidying up your hedge takes a lot less effort. **Also available with different blade lengths – see page 32–33.**

Convenience

A well-balanced tool with ergonomic handles to ensure a more comfortable working position.

Effortless handling

Lightweight hedgecutter, designed to put less strain on your arms and back.

The gardening season.

A time for relaxation.

The garden is the ideal place to clear your head. Let the kids play around while you take care of your plants. Shrubs and trees grow old and rose bushes need to be pruned every now and then. There is a lot to do, and every task you perform in the garden takes your mind off other things. The sooner you achieve good results and the easier it is to do, the better. This is best accomplished with garden tools that are constantly improved and enhanced, providing you with useful innovations to help you be efficient. After all you aim to achieve the highest standards not only in your job. Quality and service should live up to those standards in all walks of life. It is good to know that you can access information about new products and technologies 24 hours a day on the internet at www.bosch-garden.com.

Tree care

Cordless secateurs	38
Cordless garden saw	39
Cordless and corded chainsaws	40-42
Shredders	43-45
Range overview	46-47

Neat and tidy.

With Bosch garden tools for tree care.

For you to be able to enjoy a tidy garden, having the right secateurs, saws and shredders is essential.

For pruning branches and twigs use the **Ciso cordless secateurs**. This lithium-ion powered product is conveniently lightweight and enables comfortable cutting with minimal effort.

The new **Keo cordless garden saw** is immensely versatile and packs a real punch. It can be used to cut anything from livewood and deadwood, through to metal and plasterboard.

For the more demanding cutting jobs, Bosch offers a range of **chainsaws**. The selection of a chainsaw should be based on power, chain speed and frequency of use.

If you use your **chainsaw** often, you should choose the **Bosch Pro** model. If you only use it occasionally, choose one of the smaller **S** models. **Electric chainsaws** have the advantage of being easy to use.

They are maintenance-free and also extremely powerful. The epitome of this is the **cordless AKE 30 LI**, one of the most efficient, powerful and easy-to-use chainsaws on the market.

The **Rapid shredders** are ideal for small gardens mainly consisting of shrubs, foliage plants and smaller branches.

Quiet shredders with cutting drum mechanisms are highly recommended for medium-sized gardens with larger trees, old hedges and a lot of wooden garden material.

Quiet shredders with the 'Turbine-Cut System' are perfectly suited to large gardens with all types of plant material.

An overview of the complete range of Bosch tree care products can be found on pages 46–47.

Ciso cordless secateurs.

Pruning made easier.

The world's first cordless secateurs with integrated lithium-ion battery. The Ciso makes clean cuts 'at the squeeze of a trigger': more than 500 cuts with one battery charge. Soft wood up to 14 mm and hard wood up to 9 mm in diameter, the Ciso gives a clean cut due to the bypass cutting system. The ergonomically designed Ciso weighs only 590 g and does not tire you out, even if used for lengthy periods of time.

Effortless
World's first battery integrated lithium-ion secateurs replacing the straining manual cutting action.

Strong performance
'Power-Blade System' for powerful pruning with a cutting diameter of up to 14 mm.

Always ready to use
Lithium-ion battery technology with no memory effect and no self-discharge. Delivers up to 500 cuts of 9 mm soft wood with one battery charge.

New! Keo cordless garden saw.

Cuts effort as well as branches.

The Keo garden saw can be effortlessly operated single-handedly thanks to the innovative 'A-Grip' feature, which supports branches so you don't have to use your second hand. With low vibration, low noise and variable speed trigger, the Keo garden saw offers optimal user comfort whilst always ensuring a powerful and fast cutting experience, thanks to its precision Swiss blade.

Effortless cutting

Versatile help around house and garden. Cuts branches up to 80 mm with the push of a trigger. Delivers from 30 to 190 cuts per battery charge.

Always ready to use

Lithium-ion battery technology with no memory effect and no self-discharge. ECP (electronic cell protection) protects against overloading or overheating of the battery cells.

Hassle free

Detachable 'A-Grip' that holds the unsupported branches while cutting – no second hand required.

AKE 30 LI cordless chainsaw.

No petrol, no cable, full power.

Choosing the AKE 30 LI cordless chainsaw will give you one of the most efficient, powerful and easy-to-use chainsaws on the market. There will be no cables, no extension leads and none of the hassle of petrol start up. The AKE 30 LI is always ready to use and will handle any cutting task around your garden.

Environmental label 'Blue Angel' awarded for low noise and low emission garden tools. RAL-UZ 129

Oil level indicator and automatic oiling

To avoid running the chainsaw dry

Ergonomic handles

Softgrip and ergonomic shape for increased manoeuvrability

Dual brake system

Rapid rundown brake for normal operation plus electronic kick back brake with audible warning for increased safety

Compact design

With 30 cm bar length

36 V / 2.6 Ah High Power lithium-ion battery

Provides high performance for all garden tasks

Tool-less SDS system

For a quick and easy start to work

No petrol, no cable, full power

Find out more about the AKE 30 LI, scan the QR code and learn more. For instructions on how to use QR codes turn to page 3.

Freedom

Cordless lithium-ion power delivers over 100 cuts in 10 x 10 cm pine wood with one battery charge.

Quick start

No untangling cables, no petrol start up hassle – always ready to use.

Powerful

Efficient high performance electric motor that copes with any task around your garden.

AKE 40-19 Pro chainsaw.

Powerful top performance.

This chainsaw has a high chain speed of up to 13 m/s, enabling it to cut the toughest wood with virtually zero resistance. It has a kick-back brake that stops the chain quickly and it is perfectly balanced for use in any position. It also has the practical Bosch SDS system and automatic oil lubrication to minimise wear and tear on the chain. It comes complete with a carrying case, which enables you to transport your chainsaw conveniently and safely to any location.

Top performance

1900 W with a chain speed of 13 m/s for outstanding cutting performance.

Easy to use

SDS system for tool-free changing and tensioning of the chain.

Sharper for longer

Three-layer chrome coated chain for a long service life.

AKE 40-19 S chainsaw.

Incredibly fast.

The AKE 40-19 S electric chainsaw features simple, tool-free chain assembly and tensioning. The kick-back brake operates in less than 0.1 second, disabling the chainsaws almost instantaneously. The large steel gripping teeth allow for good leverage, accurate cutting and reduced possibility of kick-back.

Bosch SDS
SDS system for tool-free changing and tensioning of the chain.

Extremely robust
Superior quality for frequent use and long life.

Top performance
The high torque 1900 W motor delivers assured power and a chain speed of 12 m/s.

AXT 25 TC quiet shredder.

Versatile, multi-purpose shredder.

Ideal for all types of wood and green material.

Do you want to shred your garden waste without having to separate green material from wood? Bosch has a quiet shredder with 'Turbine-Cut System' for all types of wood and green material. You also get your work finished more quickly due to the fast feed hopper and automatic feed for fast material throughput. And the removable hopper fits exactly in the collection box to ensure space-saving storage.

Environmental label 'Blue Angel' awarded for low noise and low emission garden tools. RAL-UZ 54

Automatic feed and low noise levels
For extremely convenient shredding

Cutting capacity
of up to 45 mm
for powerful shredding

Practical collection box
53 L capacity for
easier collection of the
shredded material

Removable hopper
For easy filling and safe release
of blockages

'Turbine-Cut System'
Innovative cutting system with
motor power of 2500 W

**Safety function
of the collection box**
The tool only works
when the collection box
is in position

TURBINE-CUT SYSTEM

'Turbine-Cut System'

The 'Turbine-Cut System' guarantees extremely fast material throughput from greenery to hard wood whilst avoiding blockages.

Top performance

Up to 230 kg/h material throughput and up to 45 mm branch diameter cutting capacity.

Convenient

Removable hopper is stored in the large collection box – only 67 cm height when stored, ideal for compact storage.

AXT 25 D quiet shredder.

Powerful shredding performance.

Ideal for shrubs and medium sized branches.

The AXT 25 D quiet shredder with a branch cutting capacity of up to 40 mm diameter is ideal for hard wood, old hedges and thorny shrubs. The drum cutting system cuts and crushes all in one go producing high quality biodegradable shredded material.

Environmental label 'Blue Angel' awarded for low noise and low emission garden tools. RAL-UZ 54

Automatic feed and low noise levels
For extremely convenient shredding

Cutting capacity of up to 40 mm
For powerful shredding

Practical collection box
53 L capacity for easier collection of the shredded material

Removable hopper
For easy filling and safe release of blockages

Drum cutter
With optimised drum design

Safety function of the collection box
The tool only works when the collection box is in position

DRUM-CUT SYSTEM

Drum cutter
With a powerful 2500 W 'High-Power' motor, the drum cutting system delivers an impressive material throughput of up to 175 kg/h.

Enhanced safety
The shredder only works when the collection box is in position for enhanced safety.

Convenient
Removable hopper is stored in the large collection box – only 67 cm height when stored, ideal for compact storage.

AXT Rapid 2200 blade shredder.

Razor sharp – for fast shredder performance.

Ideal for green material.

If you mainly have to shred green, soft material, then you should use the Rapid shredder. It has the impressive Bosch 'Powerdrive Motor' for high material throughput, a laser-cut precision blade made of specially hardened steel for high cutting performance, and approximately seven times better cutting power than its competitors. It really does its name justice.

Large capacity hopper
For quick and easy feed

Cutting blade
Swiss-made,
hardened steel,
double sided
cutting blade

Practical plunger
For increased material
throughput

Cutting capacity of up to 40 mm
For powerful shredding

**High-speed Bosch
'Powerdrive Motor'**
With the highest torque
in its class

BLADE CUTTING SYSTEM

Sharp cutting blade

The 2200 W 'Powerdrive Motor' helps the laser-cut precision blade deliver a material throughput of up to 90 kg/h with up to 40 mm cutting capacity.

Convenient

Fast feed hopper and practical plunger for easy filling and fast material throughput.

Cutting capacity

Up to 40 mm for powerful shredding of green and soft material.

Aquatak 160 X	52
Aquatak Clic 135	52
Aquatak 115 Plus	53
Aquatak 100	53
Range overview	54-55

Cleaning made easy.

Keeping your garden neat and tidy.

If you like everything in the garden to be kept clean and tidy, then there is nothing better than Bosch outdoor cleaning tools.

Our leaf blowers and vacuums take the effort out of garden maintenance. Bosch's **ALB 18 LI leaf blower** uses concentrated jets of air to direct garden debris into neat piles – and our garden vacuums make short work of clearing it all up. The new Bosch **ALS 25 garden vacuum** shreds as it tidies into its 45 L bag – turning leaves and twigs into ideal compost material.

Bosch offers you a wide range of **high-pressure washers**, each with a variety of different features. They also differ from each other in terms of motor power and maximum water pressure from 100 to 160 bar. When choosing a high-pressure washer, you should base your decision on the type of cleaning work you intend to do, i.e. whether it is heavy or light, frequent or occasional.

The toughest tasks require the strongest water pressure of 150 to 160 bar. An **Aquatak 160 X** is ideal for this. To clean larger surfaces you will require a model with 125 to 135 bar, such as an **Aquatak Clic** which ensures a high level of flexibility due to its 'Torsion-Flex' high-pressure hose and 'Easy-Roll' rewind system. 110 to 125 bar are good for occasional use around the house and garden.

A selection of integrated and auxiliary accessories make your high-pressure washer even more versatile. You can then wash the car underbody or clean drainpipes.

New! ALB 18 LI leaf blower.

Tidy up wherever you want.

Our new ALB 18 LI leaf blower is perfect for patios and smaller gardens. It tidies with a 210 km/h concentrated jet of air, sweeping leaves and other debris into easy-to-pick-up heaps. Part of the 18 V Power4All family, it's cordless and lithium-ion powered, so you can work anywhere.

Maximum mobility
Cordless tool allows the freedom to work anywhere

Blowing speed
210 km/h airspeed – full power for patios and smaller gardens

Softgrip
For convenient working in any position

Small storage
Removable blower tube

Lightweight
Only 1.8 kg so no strain on arms while working

Run time
10 min uninterrupted running time, ideal for the vast majority of applications

Tidy up wherever you want

Find out more about the ALB 18 LI leaf blower, scan the QR code and learn more. For instructions on how to use QR codes turn to page 3.

BATTERY SYSTEM

Maximum mobility
Lightweight, cordless and lithium-ion powered for optimum mobility.

Full power
210 km/h jet of air banishes leaves from your garden and patio.

Power4All
All 18 V lithium-ion batteries in the Power4All family can also be used in other 18 V Bosch Power4All garden and DIY tools. Please see pages 65–67 for more information.

New! ALS 25 garden vacuum.

The only problem you'll have is running out of leaves.

Our corded garden vacuum lifts the most stubborn debris, allowing you to manoeuvre it easily into piles. Then you just disconnect the blower tube, attach the bag and vacuum them up. The leaves are finely shredded, turning them into ideal compost material. It's the most effortless way to collect garden leaves.

Effortless control

Ergonomic handles, and designed specifically for improved balance and comfort.

Longer working

10:1 shredding meaning fewer trips to the compost heap.

Easy-to-use collection bag

Easy-to-fit, easy-to-empty bag made of special moisture-wicking material.

Aquatak 160 X high-pressure washer.

The washer made for heavy cleaning.

If you want to do a proper spring clean, then the 160 X will clean boats, trailers, house walls, footpaths with a maximum high pressure of 160 bar and a water flow rate of up to 600 l/h. It is the ideal solution for large surfaces. Its powerful 3000 W induction motor offers sustained high performance.

Durable
Premium alloy pump for long lifetime. Easily visible manometer can be used to ensure the desired pressure is delivered.

Durable, reinforced 12 m rubber hose
Easy to store thanks to integrated hose reel

Stable, upright design
Makes cleaning work easier

High-quality brass lances and accessories
Long lifetime

Alloy pump head
With easily visible manometer that can be used to ensure the desired pressure is delivered

Including brass lances Vario-Jet-Fan lance, Roto-Power lance

Aquatak Clic 135 high-pressure washer.

Set up and packed away in seconds.

The 'Torsion-Flex' high-pressure hose, the 4-Jet lance and 'Easy-Roll', makes the Aquatak Clic 135 a high-pressure washer, easy to clean and tidy away. The powerful 2100 W induction motor and the water flow rate of up to 450 l/h at a water pressure of up to 135 bar provide impressive cleaning power.

Ergonomic
Easy to manoeuvre thanks to 5 m cable, fully integrated accessory storage and integrated detergent tank.

On/Off switch
Simply press the on/off switch with your foot to operate it in the 'lay-flat' position

'Easy-Roll'
Automatic rewind system for high-pressure hose and mains cable

Ergonomic spray gun
With practical swivel coupling

Self-priming function
Allows for use of water from sources other than a water tap (e.g. pond, water butt)

4-jet lance
Offers four different functions

Integrated detergent tank

Versatility
4-jet lance offers four functions: high pressure with fan spray, rotating or fixed pencil jet and low pressure for lathering and rinsing.

Aquatak 115 Plus high-pressure washer.

Practical and versatile way to get rid of the dirt.

If you want to remove moss from paving slabs, clean garden furniture, or wash bikes and cars, the Bosch Aquatak 115 Plus with its powerful 1700 W motor and a water pressure of up to max. 115 bar will be a big help. The three different lances ensure that you are perfectly equipped. Its wide range of accessories are neatly stored on the tool.

Ergonomic

Easy to manoeuvre thanks to 5 m cable, fully integrated accessory storage and integrated detergent tank.

Integrated detergent tank

Easy to transport

With lightweight, upright design

Accessories supplied

Comes complete with a wide range of accessories, now with a free Flexi-Jet lance and brush

Best nozzle performance

Due to high-quality metal pump

Aquatak 100 high-pressure washer.

For the smaller jobs around the home.

For the smaller cleaning jobs around the house, such as cleaning garden furniture, garden tools or bicycles, the Bosch Aquatak 100 with its powerful 1400 watt motor and a water pressure of up to 100 bar will be a big help. Its wide range of accessories are neatly stored on the tool.

Comes complete with Flexi-Jet lance

Developed for maximum comfort when cleaning hard-to-reach areas.

Easy to transport

With lightweight, upright design

Accessories supplied

Comes complete with a wide range of accessories

Best nozzle performance

Due to high-quality metal pump

Mobile

Easy to manoeuvre thanks to low weight of 6 kg and hose length of 3.5 m.

Compact, durable and quickly charged.

The system batteries with lithium-ion technology.

Tools with lithium-ion technology are ready for use practically all of the time. Regardless of whether the battery is fully charged, half charged or empty – you can put it in the charging station without having to worry about it. When doing so, you can forget about self-discharge or memory effect.

Due to their short charge times, Bosch cordless tools with lithium-ion technology are not only quickly ready for use, they are also especially durable. Even after a period of 4 months on standby, a fully charged lithium-ion battery is still charged to approx. 92%. This means that Bosch Power is available to you for 6 times longer than that of conventional NiCd batteries. In short: small battery, big progress.

The advantages of lithium-ion technology at a glance:

Full power at all times

No self-discharge, no memory effect: constant battery capacity over the entire lifetime.

High power, low weight

Bosch cordless tools with lithium-ion technology impress with their very compact design, low weight and very good ease of use. This saves you a lot of effort when working.

Same power at half the size

The size and weight of the batteries are reduced by approx. 60% compared to conventional nickel cadmium batteries – although they offer the same amount of power.

Long lifetime

The intelligent electronic cell protection, Bosch ECP, protects the lithium-ion batteries against excessive temperatures and overload, therefore giving them a particularly long lifetime.

36 Volt.

For greater power.

Delivering greater power with zero emissions, the 36 V range provides a real battery alternative to petrol and electric garden tools. With longer run times between charges (compared to NiCd batteries), no extension leads, fumes, petrol or pull cords to worry about, Bosch's 36 V lithium-ion technology really delivers. Providing full power at all times without any gradual power loss, the range offers a level of performance not traditionally associated with products of a similar size and weight.

18 Volt.

Welcome to the family!

One battery fits all. Now there's a good idea ...

All the tools in the new Bosch Power4All system use exactly the same lithium-ion technology rechargeable battery. So no matter how many tools in the range you buy, you'll only ever need to invest in one battery and charger. Which is easier on your pocket, and means you won't have to find storage space for lots of chargers. The single, powerful, 18 V battery fits all cordless tools in the Power4All system, including grass trimmers, hedgecutters, drills/drivers, combi drills, rotary hammers, jigsaws and sanders.

18 V lithium-ion Bosch garden tools

All of the tools listed on this page are available with or without the battery and charger included

Specifications	ART 26 LI
Power source	Lithium-ion
Battery voltage	18 V / 1.3 Ah
Charge time	3 h
Cutting diameter	26 cm
Telescopic handle	✓
Height adjustment	80–114 cm
Cutting system	Plastic blade
90° rotating cutter head	✓
Set of wheels	–
Plant protector	✓
Weight (incl. battery)	2.4 kg

Specifications	AHS 52 LI	AHS 48 LI
Power source	Lithium-ion	Lithium-ion
Battery voltage	18 V / 1.3 Ah	18 V / 1.3 Ah
Charge time	3 h	3 h
Run time	Up to 50 min	Up to 50 min
'Anti-Blocking System'	✓	✓
Tooth opening	15 mm	15 mm
Blade length	520 mm	480 mm
No-load stroke rate	2200 spm	2200 spm
Weight (incl. battery)	2.3 kg	2.2 kg

Specifications	ALB 18 LI
Power source	Lithium-ion
Battery voltage	18 V / 1.5 Ah
Run time	10 min
Charge time	3.5 h
Max. blowing speed	210 km/h
Weight (incl. battery)	1.8 kg

18 V lithium-ion Bosch power tools

Uneco Maxx cordless rotary hammer

With maximum power and comfort simply for everything: hammering, drilling and screwdriving.

- ▶ Compact tool size, lightweight and handy: the 3-in-1 power pack for hammering, drilling and screwdriving with only one tool
- ▶ Maximum impact force due to pneumatic Bosch hammer mechanism

PSR 18 LI-2 cordless 2-speed drill/driver

Power and endurance in your hand.

- ▶ Most handy tool in its class due to particularly lightweight, compact design
- ▶ 2-speed high-performance planetary gearbox with superior lifetime and the best power transfer
- ▶ Drives up to 300 screws non-stop with one full battery charge

PSB 18 LI-2 cordless 2-speed combi drill

The versatile tool with lots of power.

- ▶ Most handy tool in its class due to particularly lightweight, compact design
- ▶ 2-speed high-performance planetary gearbox with superior lifetime and the best power transfer
- ▶ Setting ring with 30 pre-selectable torque settings, plus drill setting, plus impact drill setting

18 V lithium-ion Bosch power tools

PST 18 LI cordless jigsaw

Compact size, light weight and high precision for best sawing results.

- ▶ Maximum precision and control with the innovative Bosch CutControl and integrated PowerLight
- ▶ Bosch Electronic stroke rate control for easy sawing start and material-specific working
- ▶ 4-step orbital action for quick cuts with high sawing progress and high durability of the sawing blade

PSM 18 LI cordless multi-sander

The powerful, compact multi-talented sander.

- ▶ Bosch micro-filter system: the built-in dust extraction element sucks the dust directly into the micro-filter box
- ▶ SDS system for using various attachments
- ▶ Two-piece sanding plate: the delta tip of the sanding paper and the sanding plate can be effortlessly detached and rotated

PML 18 LI cordless multifunctional light

Brilliant light everywhere.

- ▶ High lighting power due to three high-quality LEDs
- ▶ Various applications due to a wide range of accessories for hobby & leisure

Specifications	PST 18 LI
Battery voltage	18 V / 1.5 Ah

10.8 V lithium-ion Bosch power tools

PMF 10,8 LI cordless multifunction tool

The most versatile of its kind.
Cordless sawing, cutting, milling, sanding and scraping for detail work.

- ▶ Multifunctional and precise due to oscillation function
- ▶ Bosch Electronic: infinitely variable control of the oscillation speed using the setting wheel – for material-specific working
- ▶ Bosch Eco Electronic: saves energy for up to 50% more run time

Specifications	PSR 10,8 LI	PSR 10,8 LI-2

Always one step ahead with Bosch.

Leading technology that helps with everyday gardening work.

Bosch is always developing new products that are tailored to better meet the needs of gardeners. We make everyday gardening tasks easier and more convenient.

This is just a small selection of our leading technologies. If you'd like to read about more, please visit www.bosch-garden.com.

Power4All – one battery fits all ...
We introduced the Power4All 18 V family of cordless tools that all use exactly the same lithium-ion technology rechargeable battery. So no matter how many tools in the range you buy, you'll only ever need to invest in one battery and charger.

'Powerdrive Motor'
The innovative reduction gear unit converts the high speed of the motor into enormous power. If it is slowed down by resistance, the torque automatically increases and the motor continues to work powerfully, even under difficult conditions and high load.

36 V – for greater power
Delivering greater power with zero emissions, the 36 V range provides a real battery alternative to petrol and electric garden tools.

Electronic 'Anti-Blocking System'
If a thick branch cannot be cut through immediately, the innovative micro-electronics detect this and instantly adjust the running direction of the blades to continue cutting powerfully through wood where other tools would stall.

'Efficient Energy Management'
This increases the run time of the lithium-ion batteries in the Rotak LI with up to 15% depending on the mowing conditions. The intelligent cutting electronics deliver exactly the required amount of energy to suit the length and density of the grass, and keep the blade rotation speed constant. And when the motor is switched off, the energy recovery system converts the energy generated by the blade run-down motion into electrical energy, which is fed back into the mower's battery.

Innovative Grass Combs
Wider than the front wheels of the lawnmower, the innovative grass combs enable cutting of grass growing close to the edge due to their special design.

'Ergoflex System'
Bosch strives to design garden tools that are easy-to-use with optimal ergonomics. The newest range of Rotak mowers benefits from the 'Ergoflex System', offering ergonomically designed and adjustable handles to improve body posture and reduce muscle strain whilst mowing the lawn. The 'Ergoflex System' is approved by the renowned German institution AGR which promotes research into the prevention of back problems.

'Power-Blade System'
The trigger system specially developed by Bosch combined with the bypass cutting system consists of a fixed guiding blade without sharp edges and an extra-sharp, moving blade positioned further back. It prevents unintentional cuts and allows for a safe, superbly smooth and fibre-free cutting result.

'Jet-Collect System'
The innovative drum with stainless steel blades or spring steel tines and airflow inlets completely removes thatch, moss and weeds. The shredded waste is pressed into the collection box by a powerful airflow that prevents clogging.

Effective 'Turbine-Cut System'
This newly developed turbine cutting mechanism makes it possible to shred greenery and hard wood together. 8 rotating blades in conjunction with the hopper design enable optimum automatic feed and extremely fast material throughput of up to 230 kg/h. This combination ensures efficient work with virtually no stalling, regardless of the garden material processed.

You can also visit Bosch on the Internet whenever you want to know more.

Are you looking for more tips and tricks on how to use garden tools? Are you not entirely sure which garden product exactly you need? Or do you want to find special accessories for your garden tools? You will find answers to all your questions on our website. Welcome to the gardening division of Bosch. You can find us 24 hours a day at: **www.bosch-garden.com**.

Here you will find not only a gardening advisor with basic knowledge about garden care, but also the latest products and information about how to use them.

From lawnmowers through to the practical Isio, from easy to challenging – you are bound to find something to inspire you! Our aim is to ensure that you enjoy the gardening season from start to end. There are also many other things to discover. So why not pay us a visit? The garden portal is always open for you.

If you are looking for information and study aids regarding the technology of Bosch garden tools and power tools, visit **www.powertool-portal.com**.

Bosch – Taking responsibility for the future. Because environmental protection begins in-house.

Environmental responsibility is a basic principle of our philosophy at Bosch. Bosch drafted its first binding directive concerning environmental protection thirty years ago. Environmental protection guidelines valid for the entire Bosch Group were formulated in 1996. In the same year, Bosch also began the gradual introduction of environmental management systems at all its manufacturing sites. Projects covering a wide variety of topics were launched, e.g. energy-saving products. For example, cordless mowers in the new Rotak LI generation are the first to be equipped with 'Efficient Energy Management'. This helps to save up to 20% energy in combination with the tried and tested Bosch lithium-ion technology. And it makes lawnmowing a real pleasure – quiet, odourless, climate friendly, environmentally friendly.

Other projects cover topics like environmentally friendly packaging, waste separation and recycling.

A complete overview of Bosch's commitment to the environment can be obtained on the Internet at **www.bosch-environment.com**.

Recycling service: You too can get involved in environmental protection. Old Bosch garden tools, cordless tools and battery packs can be returned to dealers, from where they are passed on for recycling. In this way, much more than 80% of a power tool is reused.

Bosch Garden Tools.

100% Quality, 100% Service.

Tested and guaranteed

Extensive, continuous endurance-testing and production line sampling ensure that only the best quality products leave the Bosch factory. Our comprehensive 2 year guarantees on all Bosch products are proof of our confidence in our quality control procedures. More detailed information can be found in the warranty declaration at www.bosch-pt.com.

We constantly seek to improve our products. For this reason, technical data and illustrations are non-binding. No liability can be accepted for printing errors.
