Introduction

This catalogue, published in the 11 official languages of the European Union, contains all publications brought out by the European institutions since 1985 which are still available. It is an updated version and replaces all previous editions (⁽¹⁾).

Structure of the catalogue

Each publication is described in one language only. If the French version is not used, another language version is used according to the following order of preference:

French	Portuguese	Finnish
German	Dutch	Greek
Italian	Danish	Other languages
Spanish	Swedish	

The existence of other language versions is indicated by a code:

For example:

FR: 98-19

FR: the French version is described in the French catalogue

98: for 1998

19: entry 19 in the systematic catalogue

The catalogue comprised five parts:

1. **Systematic catalogue:** Lists all the publications laid out according to the classification plan on page 10. Under each heading, free publications and those for which a charge is made are shown separately.

Full bibliographical information is preceded, on the left, by a sequential number in the catalogue and appears only once under the main heading. If the publication appears under a secondary heading, only the title appears, followed on the right by a reference to the sequential number of the main entry.

For periodicals, only the title is given plus, on the right preceded by the letter P, the entry number in the catalogue of periodicals.

2. **Catalogue of periodicals:** contains bibliographical information on periodicals, preceded by a sequential entry number.

3. **Subject index:** presents the various descriptors of the Eurovoc (⁽²⁾) thesaurus used to index the publications, except for EUR documents.

4. **Title index:** gives an alphabetical list of available titles published during the reference period.

5. **Series index:** contains an alphabetical list of series with their monographs.

The subject, title and series indexes give a reference to the entry number in the systematic catalogue.

Abbreviations and conventional signs

The language version of a publication is identified by the following abbreviations:

ES	Spanish	EN	English	NL	Dutch
DA	Danish	FR	French	PT	Portuguese
DE	German	GA	Irish	FI	Finnish
GR	Greek	IT	Italian	SV	Swedish

A sequence of these symbols separated by obliques indicates that a number of language versions of the same text are contained in the same volume.

Prices are net of VAT and are expressed in euro (abbreviation: EUR). The approximate value of 1 euro is GBP 0.6928 and IEP 0.787564.

(⁽¹⁾) **COM documents and CES opinions** are listed in the **Documents** catalogue published monthly and annually in each of the 11 official languages. **The consolidated texts of Community legislation** also appear in all the languages in monthly cumulative publications.

(⁽²⁾) **Eurovoc thesaurus:** a leaflet describing the Eurovoc thesaurus may be obtained on request from the Publications Office, OP/4.
