# PREFACE

## To our Fourteenth Volume.

---

WE have bestowed more labor and expended a much larger amount of money on this than on any one of the former volumes of our DIRECTORY, and trust that the public will find the present issue, not only improved in its general appearance, but also more accurate and reliable than any of its predecessors. The Work will be found to contain upwards of *sixty-two thousand three hundred* names of inhabitants of our City, which number exceeds, by *five thousand*, that of any Directory ever published for the City of Cincinnati. This great addition of names, although arising partly from the natural increase of the population, indicates, that our assistants have honestly performed the duties assigned to them, and that a careful and thorough canvass of every portion of the City has been made for our Work. We feel, notwithstanding, that we cannot claim that the name of every inhabitant of the City is contained in our book: experience teaches us that errors and omissions in works of this character must inevitably occur, and that that "consummation so devoutly wished for" by compilers of Directories, as well as the public,—a *perfect* Directory—has never been attained. Indeed, whilst the minds of the people are excited to the extent they now are, it is a most difficult task to approximate to it as nearly as heretofore. In the present canvass of the city our canvassers were repeatedly refused the necessary information for our Work: in a large majority of these cases, by persistent effort, the names of parties refusing were obtained—in a few, the utmost endeavors of our canvassers were foiled, and the "Directory" was compelled to succumb to the "Draft." We have, however, the satisfaction of knowing that the names of these persons are of but little importance to our business community, and that their omission from our Work will but very slightly deteriorate the value of our Directory. The great body of our citizens having aided us in our enterprise, and cheerfully granted us the necessary information for our Volume, the public will find the Cincinnati Directory for 1864 a reliable "guide" to the Residences, Business Houses, Offices, Halls, Institutions, and Public Places of our City.

For *names omitted* in our "Alphabetical List," see list of "Alterations, Omissions, Removals, &c.," in the back part of the Directory.

We return our thanks to the business men and citizens for the patronage given the Work, and to the Press of the City for the many flattering notices given during the canvass.

**THE LANE & BODLEY PORTABLE CIRCULAR SAW MILL**, has attained a wide celebrity from its superior design and excellent construction. The wrought iron I shaped beam now used as the base of the head block, is infinitely **Stronger** than the cast iron base formerly used, and **at least Two Hundred Pounds Lighter**, whilst the simultaneous and independent features have been materially improved.

The Friction Feed and Backing arrangement remains unchanged, seven years' experience having suggested no improvement. Each succeeding year renders more popular our practice of furnishing the engine detached from the boiler; the former complete with its pumps and heater, on an iron bed, and the latter mounted on running gear.

☞ Descriptive pamphlets and cuts furnished to all applicants.

# Street Directory.

The STREET DIRECTORY is simply an ALPHABETICAL arrangement of Streets, Alleys, etc., with a sufficient portion of corner numbers attached to such as are of any considerable importance, for the purpose of aiding those who refer to it, in becoming familiar with the system of numbering. It will be found by citizens as well as strangers to be a practical guide to the different parts of the City, as far as it has yet been numbered.

EXPLANATIONS.—On streets commencing at and running directly from the River, or others running in the same direction, the ODD numbers are on the West, and the EVEN on the East side of the street, commencing at the River or such other point as the street may commence. On streets crossing Main, the ODD numbers are on the South, and the EVEN on the North side of the street, commencing at and running East and West from Main, thus dividing each into two distinct streets, distinguished by prefixing East or West to the name. All others running in a similar direction are numbered in the same manner, commencing at the point nearest to Main and running East or West, according to the direction of the same. In a very few instances two streets will be found to have the same name, one of them generally in the suburbs, not numbered and of but little consequence—to such a \* is prefixed.

In designating the CORNER numbers we have used ODD numbers entirely, except where streets commence at or end upon the side where the EVEN numbers belong.

# ÆTNA

## Insurance Company OF HARTFORD, CONN.

INCORPORATED 1819.

CHARTER PERPETUAL.

CASH CAPITAL, - - \$2,250,000

Net Surplus, Jan'y, 1864, \$752,556.92

Losses Paid in 45 Years over \$16,000,000

Nearly a half century of unexampled success, service and experience, has placed this sterling old Company at the head of the Fire Underwriters of America.

### Three Millions of Cash Assets

ABSOLUTE AND UNIMPAIRED, WITH A CURRENT INCOME OF

### TWO MILLIONS PER ANNUM,

Indicate the ÆTNA'S strength, while ninety thousand policy holders annually attest their faith in its protection.

#### A NATIONAL SYSTEM OF AGENCIES,

With representatives in all the principal towns and cities, present facilities for the transaction of business heretofore unapproached in the history of any similar organization.

### ARE YOU INSURED?

If not, why not? The cost is trifling; the duty is manifest; the result may be your escape from ruin, while delay and neglect invite disaster and bankruptcy.

### FIRE AND INLAND NAVIGATION POLICIES,

ISSUED at as FAVORABLE RATES and RULES AS ARE CONSISTENT with RELIABLE INDEMNITY.

The ÆTNA has the strongest and best claims upon the attention of property holders in Ohio. The Cincinnati Agency and several others were established in 1825, and have never been withdrawn, standing by their policy holders through all the fluctuations of 40 years.

The State Deposits now actually in the hands of the Auditor at Columbus, and held for the security of Ohio policy-holders, and real estate owned by the Company in Cincinnati, is an item of Seventy-Five Thousand Dollars.

Heavy mercantile values need strong underwriters. Merchants will appreciate the advantages of Insurance with the Ætina.

# Well's Cincinnati Type Foundry

Where we Manufacture not only the

## TYPES,

— BUT THE —

## PRESSES, CASES, GALLIES,

Stands, Chases,

## COMPOSING STICKS, RULES, CUTS,

&c.,

&c.,

&c.,

---

## STEREOTYPING, ELECTROTYPING

WOOD TYPE, PRINTER'S INKS, &c.

INSURE WITH THE

CASH ASSETS, (JANUARY, 1864,) \$656.818.03

**THE PHOENIX**

Presents the following digest of its system, organization and general management, to the attentive perusal of the public, basing its claim to continued patronage on

**Merit of Past Service Faithfully Performed;  
Present Efficiency, and the  
Vitality, Experience and Means**

Requisite, to afford standard indemnity for the future.

**FIRST.**

A complete mercantile system of local offices in the several States and Territories of the Union, under the conduct of intelligent and experienced underwriters of known integrity, well qualified by reason thereof, to not only protect the Company from fraud, but form correct and business-like contracts for the insured, that will be lived up to in good faith by the Company.

**SECOND.**

Devoted to the business of Fire Insurance exclusively—being free from the dangers and losses incident to the Marine and Inland Navigation Insurance. With an unimpaired Cash Capital of Four Hundred Thousand Dollars, and Assets amounting to over Half a Million Dollars, pledged for the payment of Fire Losses solely.

**THIRD.**

Equitable Adjustments, with prompt cash payments of all fair claims for loss; subjecting claimants to no inconvenience or vexatious delay, nor resorting to technicalities or arbitrary rules to avoid the payment of an honest loss.

**FOURTH.**

A number of gentlemanly and experienced Loss Adjusters, located at central points, subject to call, who will at all times give early attention to the duties of their profession, and in a manner in harmony with the "gracious rule of compensation."

**FIFTH.**

An Executive Management at Hartford, of first-class rank and experience—gentlemen who commenced their insurance career when the business of underwriting was in its infancy, and the agency system almost unknown; with a Board of Directors from among the most substantial business men in Connecticut.

FIRE INSURANCE IS A POSITIVE BUSINESS NECESSITY,

AND THE BEST IS ALWAYS THE CHEAPEST.

Cincinnati Agency, No. 33 West Third Street.

BURIAL CASES AND CASKETS, AND HEARSEES,**

OFFICE AND MANUFACTORY,  
Eighth Street, West of Freeman Street, Cincinnati, Ohio.

Under their present Improvements these Burial Cases are entirely free from those revolting suggestions which have heretofore been connected with their name.

## THE METALLIC BURIAL CASKET

Is entirely devoid of those unpleasant associations which usually accompany the form of a Coffin. Heavy Polished Plate Glass extends nearly its whole length. With the elaborate Silver-plated Mountings, as represented in the above Engraving, it surpasses in elegance anything of the kind which has ever before been offered to the Public.

These Burial Cases and Caskets are beautifully finished in imitation of the finest rosewood. Their invaluable qualities for ordinary interment, for transportation, and for preservation, are now universally acknowledged. They protect the remains of the departed from water, vermin, or other intrusion. Future removal, should it ever be desired, may be accomplished without inconvenience. A delay of days or weeks, awaiting the arrival of absent friends, is entirely practicable. When due attention is given to sealing, which may, with care, be accomplished by any one, (printed instructions accompanying each Case and Casket,) bodies may be carried to any part of the Globe at any season of the year, with perfect safety. They are moreover, a sure safeguard against contagious diseases. These advantages render them unequalled by anything which either in ancient or modern times has been invented for the reception of the human body after death.

Our facilities for the Manufacture of HEARSEES, of every style, and of the best qualities, are unequalled by any establishment in the country.

# J. J. BUTLER'S Excelsior Fluid Inks,

MERCANTILE, for general purposes,  
RECORD, for Ledgers and Records,

COPYING, for Letter Press,  
CARMINE, of Brilliant Hue.

CELEBRATED FOR—1st, Intense Black Color, (at first of a greenish hue.) 2d, Easy flow from the pen. 3d, Permanency, (will never fade by exposure.) 4th, Economy.

EXPLANATION.—These Inks can be satisfactorily used to the last drop. Other domestic inks in a brief time grow too thick for use, and are only fit to be thrown away before half consumed. The Carmine may be exposed to the action of the air without injury.

## FACTS CONFIRMING THE ABOVE QUALITIES.

First, These Writing Fluids are now in general use throughout the United States, with an increased demand.  
Second, They have been analyzed by Dr. Chilton, the celebrated Chemist of N. York City, and pronounced "Equal in quality and durability to the best imported English Fluids."

Manufactured by J. J. BUTLER, Agent,

NO. 39 VINE STREET, CINCINNATI, O.

REGULATIONS OF THE BOARD OF EXAMINERS OF COMMON SCHOOLS.

The Board consists of seven members, four of whom constitute a quorum at any regular and called meetings. The regular meetings are held at the office of Public Schools, City Buildings, on the 2d Friday of each month, except July and August, at 2 o'clock, P. M.\* Extra meetings may be called by any three members of the Board, who, insinuating the call for such meeting, are understood as pledging themselves to attend it.

The Board grants four grades of Certificates, denominated respectively "Male Principal's Certificate," "Male Assistant's Certificate," "Female Assistant's Certificate, No. 1," and "Female Assistant's Certificate, No. 2."

Candidates for "Male Principal's Certificate" are examined in Natural Philosophy, Constitution of the United States, Ancient and Modern History, Anatomy and Physiology, Chemistry, Astronomy, Geometry, Plane Trigonometry and Mensuration, and Penmanship.

Candidates for a "Male Assistant's Certificate" are examined in Spelling and Definitions, Reading, English Grammar, Geography, American History, Mental Arithmetic, Written Arithmetic, Algebra, Theory and Practice of Teaching, Natural Philosophy, Constitution of the United States, and Penmanship.

Candidates for a "Female Principal's Certificate" are examined in Spelling and Definitions, Reading, English Grammar, Geography, American History, Mental Arithmetic, Written Arithmetic, Algebra, Theory and Practice of Teaching, Natural Philosophy, Constitution of the United States, Ancient and Modern History, Anatomy and Physiology, Chemistry, Astronomy and Penmanship.

Candidates for "Female Assistant's Certificate" are examined in Spelling and Definitions, Reading, English Grammar, Geography, American History, Mental Arithmetic, Written Arithmetic, Theory and Practice of Teaching, and Penmanship.

amined in Spelling and Definitions, Reading, English Grammar, Geography, American History, Mental Arithmetic, Written Arithmetic, Theory and Practice of Teaching, and Penmanship.

The number opposite to each branch, in the column on the right of the list of studies on the Certificate issued, measures the result of the examination, ten being the maximum. Less than seven in either English Grammar, Geography, Mental Arithmetic or Written Arithmetic, is a failure.

The Board has discontinued the Primary Certificate.

A specimen of the hand writing, with a record of the character of the examination of each individual, is preserved in a volume for the use of the Board of Trustees and Visitors.

Candidates must leave with the Clerk of the Board, at least three days before the monthly meeting, a certificate of good moral character, and a written statement of the grade of certificate sought, together with a declaration that they are eighteen years of age, (or seventeen, if graduates from the High School, or with similar attainments), and that they design teaching in the Public Schools of Cincinnati, if found qualified. Candidates are requested to leave their address and a statement of any experience they may have had in teaching.

Candidates shall be examined in the absence of all spectators, save the Trustees and Visitors of the Public Schools.

Candidates shall not be examined who are not present punctually at the appointed hour. None shall be admitted to a second examination for the same grade of Certificate, or have one already granted improved, till after the expiration of six months.

Communications to the Board to be left with the Clerk, at the Office of Public Schools, in the City Buildings, north side of Eighth street, between Plum and Central Avenue, between the hours of 9 A. M. and 12 M., and between the hours of 1 P. M. and 4 P. M.

No Assistant's Certificate shall be issued without an aggregate average of two-thirds of the full number of marks, and no Principal's Certificate shall be issued without an aggregate average of two-thirds of the full number of marks of the additional branches.—Adopted June 2d, 1859.

## Rules and Regulations of the Ohio School Library of Cincinnati.

**ARTICLE 1.** The Reading Room shall be open from nine o'clock in the morning to nine o'clock in the evening, of all secular days throughout the year, except those days which by custom are regarded as holidays, and to these shall be added any special holidays which may, from time to time, be recognized as such by the Board of Trustees and Visitors of Common Schools of Cincinnati.

**ART. 2.** All the inhabitants of Cincinnati, above the age of sixteen years, of respectable character, and of such orderly conduct and condition as not to interfere with the occupation and comforts of others, shall have free access to the Reading Room during all its regular hours, first signing a promise that they will observe all the existing Rules and Regulations, and all that may be subsequently prescribed by due authority; provided, always, that Minors shall bring certificates from their parents and guardians, in a form furnished by the Librarian, setting forth that they are persons who ought to enjoy the privileges of the Public Reading Room, and for whose conduct, while there, such parents or guardians become responsible.

**ART. 3.** All books belonging to the Library may, at the discretion of the Librarian, be used in the Reading Room—a discretion he is required by the Trustees to exercise, especially in the case of minors.

**ART. 4.** Every person entitled to use in the Reading Room the books of the Library, shall be furnished by the Librarian with a printed card, on which such person shall designate the particular book asked for, by entering in blanks

left for that purpose, the number of the shelf on which it stands, the number of the book on the shelf, and if it be part of a set, the number of the particular volume—all which numbers can be easily ascertained from the printed copies of the catalogue, always on the table of the Reading Room; and this card, which must be presented to the Librarian whenever a book is asked for to be used in the Reading Room, will be retained by him so long as its owner retains the book; but no book, so received, shall, for any reason whatever, be removed from the Reading Room by the person receiving it.

**ART. 5.** Every person who may visit the Reading Room shall return each of the pamphlets and periodicals such person may have used, to its proper place, and any books to the Librarian.

**ART. 6.** Any person abusing the privileges of the Reading Room, by unbecoming conduct there, or by the violation of any of its regulations, shall be at once reported by the Librarian to the Library Committee, and by them excluded from its benefits for a time, or permanently, according to the nature and degree of the delinquency or default; but in case of any gross offense, the Librarian shall act summarily in the matter, and cause the offender to be at once excluded from the room, reporting the case to the Library Committee as soon as possible, in writing, for their future action, if any be required.

**ART. 7.** An alphabetical list of all the persons enjoying the Reading Room shall be kept by the Librarian, the residence of each person being noted in it.

## Rules and Regulations.

**ART. 1.** All the Companies of the Department shall be furnished with a copy of the Fire Ordinance and the Rules and Regulations, which shall be framed and placed in their respective houses. It shall be the duty of the officers and members of the Department to conform to all the requisitions, and perform all the duties herein required.

**ART. 2.** The Chief Engineer shall have command of the Fire Department, and at all of the fires, and direct the respective Assistant Engineers in any and all matters belonging to the same; he shall lay before the Board of Engineers, and the Board of Supervisors, respectively, all such business as may require their consideration; he shall direct the Assistant Engineers at fires, how to dispose of the respective Companies of their District.

**ART. 3.** The Assistant Engineers shall examine the condition of the different Companies in their District, and see that the Captain of each Company has the apparatus entrusted to their care kept in good working order, and that the Ordinances and Regulations of the Fire Department are strictly attended to. They shall, in the absence of the Chief Engineer, take the command at all fires in their respective Districts, and receive the report from the Captain of each Company, of any repairs that may be necessary, and report the same forthwith to the Chief Engineer. In the absence

of the Assistant Engineer of a District, the Assistant Engineer of the District succeeding shall have the command of the Co.'s of that District.

**ART. 4.** The Captain of each Company shall take command at all fires in their Districts, in the absence of the Chief Engineer or his Assistants, and when there is more than one Company in a District, the Captains of said Companies shall cast lots who shall have the command, in the absence of the Chief or Assistants. They shall see that the men composing the Companies under their command, comply with the Rules and Regulations of the Fire Department, and shall cause all the orders of the Chief or his Assistants to be strictly obeyed.

**ART. 5.** The Captain of a Company shall see that all the property in such Company is duly cared for; that the Pipemen, Drivers, Firemen, Watchman and Engineer attend to their respective duties, and see that they stand their respective watches; he shall direct the members of a Company at fires, call the roll, and report as often as directed, or as he may find necessary, to the Assistant Engineer of his District, or Secretary, respectively.

**ART. 6.** Alarms are not to be given at any Engine House, unless received from a responsible person or persons, or from another fire bell; the men on duty at the Engine House

shall be held answerable for all false alarms given by them.

ART. 7. Racing to or from fires is not allowed under any circumstances, under the penalty of dismissal; and if the apparatus of several Companies proceed on the same street to or from the fire, they shall do so in single file.

ART. 8. Any Driver of Steam Engine or Hand Apparatus, Hose Carriages or Hook and Ladder Companies, driving or running over hose, unless it can not be avoided, shall be subject to dismissal from the Department.

ART. 9. The Captain of any Steam or Hand Company shall be at the pipes when at fires, and see that the line of hose are well guarded.

ART. 10. When the Chief Engineer shall find the fire so far reduced that one or all the Companies may cease work, he shall dismiss them, or cause the same to be done.

ART. 11. No officer or member of the Department shall appear on duty, without such badge as may be prescribed by the Board of Engineers, under penalty of twenty-five cents, unless they can furnish a reasonable excuse.

ART. 12. Any officer or stationary member absent from a fire, shall be subject to a fine of two dollars; running members, for a like neglect, one dollar.

ART. 13. That if a charge of intoxication be preferred and proven against any officer or member of the Fire Department, oftener than once, he shall be discharged; and further, it shall be the duty of every officer or member of the Department to report such member violating this rule to the Chief Engineer or Board of Supervisors.

ART. 14. Members of Fire Companies, or other persons, are not permitted to frequent, meet, or loiter around the Engine Houses, without special permission from their respective officers. Men on duty at the Engine Houses who may allow the same, shall be subject to dismissal.

ART. 15. The Hook and Ladder Companies will take position, when practicable, within the lines, and as near the fire, as under all circumstances may be found convenient.

ART. 16. All charges for misconduct against officers or members must be presented to the Board of Supervisors, in writing, and for such charges he or they shall be immediately notified of the same, and stand suspended; and no charge will be recognized unless reported to the Board within thirty days after the misconduct.

ART. 17. Any officer or member of the Fire Department who have charges preferred against them, can or may have a trial within five (5) days from the time the charges have been preferred, and no officer or member shall receive any pay from the Fire Department, during the time he or they stand charged with any misdemeanor or suspension.

ART. 18. Any Company, returning from a fire, finding they have hose which does not belong to them, shall immediately return the same to the Company to which it belongs.

ART. 19. The Captain of each Company shall in no instance allow any person except the Captain, Pipeman, Engineer or Drivers, to ride on the apparatus, either in going to or from a fire.

# DIGEST OF UNITED STATES PATENT LAWS,

COMPILED BY GEO. H. KNIGHT, SOLICITOR OF PATENTS,  
CINCINNATI, OHIO.

1. **A PATENT** for seventeen years is granted to the first inventor of a new and useful Art, Machine, Manufacture, or Composition of Matter, not heretofore known in this country, nor published or patented in any foreign country. Application fee, \$15. Issue \$20. Act 1861, Sec. 10.

2. **A CAVEAT** is useful as a precautionary step, in cases where the inventor requires further time or means to mature his invention, and entitles the party (for a year) to notice of any interfering application subsequently filed. Gov. fee, \$10. Act 1861, Sec. 10.

3. **APPLICATION** for Letters patent, should be made within two years after the first sale, or public use of the invention, and must be accompanied by a Model, (where the case admits of one,) or a specimen of Ingredients and Composition; also, Petition, Oath, Duplicate Drawings, Specification, and Fee, (\$15.) It must be made by the inventor, or (if deceased) by his administrator, for the benefit of the heirs. Act 1836, Sec. 6 and 10; Act 1839, Sec. 7.

4. **MODELS** may be of any durable material, avoiding glue, must not exceed twelve inches in length, and should particularly represent the points of invention.

5. **DESIGN.**—A patent for 3½, 7 or 14 yrs. is allowed to any citizen of the United States, who originates a new carving or sculptural composition, or a new shape or configuration of any article of manufacture, or a new, ornamental, or useful design, pattern, or picture, to be worked into, or printed, or painted, or cast, or otherwise attached to any article of manufacture. Gov. Fee, \$10, \$15, or \$30. Act 1861.

Photographic Illustrations of Designs must be accompanied by the "negatives," to enable copies to be made in the Patent Office.—Holt, Commis'r of Patents, 1867.

An engraved or printed design issued as an object of art, having a value in itself, and intended for sale as such, properly comes within the provisions of the copyright law; but when, however artistically executed, it is not produced for sale as a work of art, but is designed to be affixed in the manner of a label to a manufactured article, it then plainly falls under the act relating to patents for designs, and consequently cannot be protected by copyright.—Bishop, Commis'r of Patents, Aug. 1859.

6. **COPYRIGHT** may be obtained for, 1st, Printed reading matter, forming no part of any ornament or manufacturer's mark; 2d, Charts, musical compositions, and prints or engravings intended for sale as such. Act 1831, Sec. 1.

7. **REISSUE.**—Patents with defective specifications may be reissued in an amended form. Gov. fee, \$30. Act 1836, Sec. 13; Act 1861, Sec. 10.

Where, by inadvertence, accident, or mistake, the original patent is too broad, a disclaimer may be filed either by the original patentee, or by any of his assignees. Fee, \$10. Act 1837, Sec. 7.

8. **EXTENSION.**—Application for extension must be made at least three months prior to the expiration of a patent. The chief points to be established, are: 1st, ascertained value of the invention; 2d, amount of loss and profit which have accrued from the invention; 3d, efforts made and difficulties incurred in maturing and introducing the invention. Application fee, \$50. Issue \$50. Act 1861, Sec. 10; Act 1848, Sec. 1.

9. **FOREIGNERS** may obtain a patent on same terms as a citizen. Act 1861, Sec. 10.

10. **JOINT INVENTORS** are entitled to a joint patent, but neither can claim one separately.

11. **ASSIGNMENTS** may be made previous to application, and should be recorded in United States Patent-Office within three months.

12. **THE SPECIFICATION** must set forth the invention in such full, clear, and exact terms, as to enable one skilled in the art to which it appertains, to compound and use it without making any experiments of his own.—5 Howard, 4.

A construction of patents liberal for the patentees is proper. But the description of the patent must be so certain as to be understood by those acquainted with the subject-matter.—1 Wood, 53.

A deviation from the precise dimensions shown by the specification and model, so as to make different parts work together, is within the knowledge of any workman.—Webs. pat. cas. 178.

The omission to mention in the specification anything which the patentee knows to be necessary for the beneficial enjoyment of the invention, is a fatal defect; but the omission to mention something which contributes only to the degree of benefit, provided the apparatus would work beneficially and be worth adopting, is not a fatal defect.—Web. pat. cas. 317.

The language of the specification is necessarily that of the factory; the technical terms and expressions of the workshop must be used in order to a workman understanding the description of a patented invention, and these are often wholly incomprehensible to a judge and to other legal men until they are explained.—Carp. pat. cas.

13. **ABANDONMENT.**—If an inventor (before application for a patent) knowingly suffers his invention to go into public and general use without objection, it is a dedication of it to the public.—4 Mason, 108.

No patent is held to be invalid by reason of the purchase, sale, or use prior to the application for a patent, except on proof of abandonment of the invention to the public; or that such purchase, sale, or prior use, has been for more than two years prior to such application for a patent. Act 1839, Sec. 7.

14. **PRIOR DESCRIPTION** in a public work, if relied upon to void a patent, must be such as would be sufficient in a patent.—Parker v. Stiles, M'Lean, Nov. 1849.

15. **AN IMPROVER** upon an original patent has no right to use the original, nor has the original patentee a right to use the improvement without license.—1 Peters, C. C. 399.

16. **MERE COLORABLE DIFFERENCES**, or slight improvements, cannot shake the right of the original inventor.—2 Gall. 54.

17. **A COMBINATION CLAIM** is not infringed by the use of any number of parts less than the whole.—3 M'Lean, 454.

18. **LEGITIMATE COMBINATION**, is where two or more parts act together, in a new way, with a useful result.

19. **MECHANICAL EQUIVALENT** means a substitute known to the art.

20. **THE PRODUCT** of a patented machine is not patent property.—3 M'Lean, 296-7.

21. **LOCAL RIGHTS.**—Patented articles purchased under a local right cannot be sold or used outside of the territory of the vendor.

22. **PATENTEES** are required to mark each article made or vendued under their patent, (or where this is impracticable, to mark the package) with the word "patented," and the day and year; but infringers, who have been duly notified, are liable, notwithstanding the omission of such marking by the patentee. Act 1861, Sec. 13.

**PENALTY** of not less than \$100 and costs is incurred for each fraudulent marking of unpatented articles with the word "patent" or like phrase, or for unauthorized use of a patentee's mark. Act 1842, Sec. 5.

23. **THE INVENTION**, if new, and useful to the public, may be the result either of long experiment and profound research, or of a sudden and lucky thought or mere accidental discovery. \* \* \* Luck, labor, or inspiration gives an equal right.—Tindal, C. J.

The law, essentially practical in its judgments, looks only to the fruit of the invention, and if it finds there the indispensable features of novelty and utility, it will presume a sufficient amount of invention to support a patent.—Holt, Commis'r of Patents, Oct. 23, 1857.

The right to the patent belongs to him who is the first inventor, even before the patent is granted; and, therefore, any person, who, knowing that another is the first inventor, yet doubting whether that other will ever apply for a patent, proceeds to construct a machine, of which it may afterward appear he is not the first inventor, acts at his own peril, and with a full knowledge of the law, that by relation back to the first invention, a subsequent patent may cut him out of the machine which he has erected.—2 Wash., C. C. 945.

The first inventor has the prior right, if he had reduced the invention to a practical form by drawing or otherwise, and has used reasonable diligence in adapting and perfecting it.—1 Story, 550-556.

Reducing to practice differs from bringing into use. There is no law requiring the applicant to reduce his invention to actual use, before he can obtain a patent. An inventor has reduced his invention to practice, when he has so described it upon paper, with such drawings or model, as to enable any person skilled in the art to make and use the same. He must show that it is practicable, and the manner in which it may be used.—Crunch, July 7, 1847.

The invention itself is an intellectual process or operation, and like all other expressions of thought, can in many cases scarcely be made known except by speech. \* \* \* The conversations and declarations of a patentee merely affirming that at some former period he invented that particular machine, might well be objected to; but his conversations and declarations stating that he had made an invention, and describing its details and explaining its operations, are properly to be deemed an assertion of his right at that time, as an inventor, to the extent of the facts and details which he then makes known. \* \* \* The invention may be consummated and perfect, and susceptible of complete description in words, a month or even a year before it can be embodied in any visible form.—14 Peters, 462.

There is no doubt that he who has discovered some new element or property of matter, may secure to himself the ownership of his discovery, so soon as he has been able to illustrate its practicability and to demonstrate its value. His patent, in such a case, will be commensurate with the principle it announces to the world, and may be as broad as the mental conception itself. But the mental conception must have been susceptible of embodiment, and must, in fact, have been embodied in some mechanical device, or in some process or art. The abstract must be resolved into the concrete. The patent must be for a thing, not for an idea merely.—Kane, J. U. S. D. C. Pa.

24. **SECRET USE.**—The inventor, who, from selfishness, indifference, or caprice, wishes to withhold from the knowledge and enjoyment of his fellow-citizens a discovery which he has made, must see to it, that, in burying his "secret," he preserves proofs of its existence, ready to be produced, whenever the action of another and more generous inventor shall summon him to the issue.—Holt, Commis'r of Patents, Nov. 1858.

# BALTIMORE & OHIO RAILROAD, RE-OPENED!

This Great National Thoroughfare  
IS AGAIN OPEN FOR FREIGHTS & TRAVEL.

The Cars and Machinery destroyed are being replaced by

## NEW RUNNING STOCK.

With all recent improvements; and as the Bridges and Track are again in Substantial Condition, the well earned reputation of this Road for

## SPEED, SECURITY & COMFORT,

Will be more than sustained under the reorganization of its business. In addition to the unequalled attractions of Natural Scenery heretofore conceded to this Route, the recent troubles upon the border have associated numerous points on the Road between the Ohio River and Harper's Ferry, with painful but instructive interest.

### CONNECTIONS.

AT THE OHIO RIVER with Cleveland and Pittsburg, Central Ohio, and Marietta and Cincinnati Railroads; and through them with the whole Railway System of the Northwest, Central West and Southwest.  
AT HARPERS FERRY with the Winchester Road.  
AT WASHINGTON JUNCTION with the Washington Branch for Washington City and the Lower Potomac.  
AT BALTIMORE with six daily trains for Philadelphia and New York.

Two Dollars additional on Through Tickets to Baltimore or the Northern Cities, give the privilege of visiting Washington City en route—being \$3.00 lower than the cost by any other line, as recently charged; and the rate to Baltimore being \$1.50 lower than recently charged by way of Harrisburg.

This is the only route by which passengers can procure Through Tickets and Through Checks to Washington City.

The Pennsylvania Central Railroad also connects at Pittsburgh with Steamers, by which Goods can be forwarded to any port on the Ohio, Muskingum, Kentucky, Tennessee, Cumberland, Illinois, Mississippi, Wisconsin, Missouri, Kansas, Arkansas and Red Rivers; and at Cleveland, Sandusky and Chicago with steamers to all Ports on the North-western Lakes.

Merchants and shippers entrusting the transportation of their Freight to this Company, can rely with confidence on its speedy transit.

The Rates of Freight to and from any point in the West, by the Pennsylvania Central Railroad are at all times as favorable as are charged by other Railroad Companies. Be particular to mark packages "Via Pennsylvania Central Railroad."

### LIVE STOCK.

Drovers and Farmers will find this a most advantageous route for Live Stock. Capacious Yards, well watered and supplied with every convenience, have been opened on this line and its connections, and every attention is paid to their wants. From Harrisburg, where will be found every convenience for feeding and resting, a choice is offered of the Philadelphia, New York and Baltimore Markets. This will also be found the shortest, quickest and most direct route for Stock to New York, (via Allentown) and with fewer changes than any other.

### Testimonials from Distinguished Men of the Cabinet.

Hon. Edward Bates, Att'y. Gen. U. S., from the Hon. Gideon Welles, Sec. U. S. Navy.

ATTORNEY GENERAL'S OFFICE, Washington, D. C., Oct. 29, 1862.

Hon. Gideon Welles, Sec'y Navy, Dear Sir:

The bearer, Dr. Forsha, is the person of whom I spoke to you yesterday, as a man of wonderful powers in the practical relief of pain, and the cure of the worst wounds and diseases. One of his successes has been in my own house. My son, a Cadet of West Point, has been cured by Dr. Forsha, in less than a week, after having been without relief in charge of a physician (whom I knew to be a good one,) for more than eight weeks. I think that humanity and public interest require that the hard cases, i. e. badly wounded and obstinately sick, should have the opportunity, when they desire it, to avail themselves of Dr. Forsha's ability and of his medicine, which seems to have a wonderful efficiency.

Most Respectfully,

EDWARD BATES, Att'y Gen.

### Certificate of the Hon. Edward Bates, Attorney General.

ATTORNEY GENERAL'S OFFICE, Washington, April 8, 1863.

Dr. Forsha, Dear Sir: Before you start West, I can do no less than thank you again for your excellent and successful treatment of my son. He has been sick for many weeks under the care of a medical gentleman of whom I have a high opinion, for his learning, skill and experience, and yet he was not cured. His disease, I suppose, without certainly knowing, was brought on by overstraining in artillery exercise, in very hot weather, at West Point. When he came into your hands, his breast bone, one side at least, was protruded two inches beyond its proper position, attended with difficulty of breathing and frequent pains. By the application of your medicines and your personal practice, in less than a week the bones were reduced to their proper position, the pain ceased, the breathing became easy and regular, and as far as I can judge, he is restored to his accustomed robust health and activity. Besides this instance, within my own knowledge, I have heard of many instances of extraordinary cures effected by you in cases of very dangerous wounds.

Very respectfully your obedient servant,

EDWARD BATES.

### Certificate of the Hon. Gideon Welles.

Dr. Forsha, Dear Sir:

It gives me much pleasure to state that the use of your medicine has been of great service to my son, whose throat has been long and severely affected. I have also found it useful in other cases in my family, and have heard of its benefits in other quarters.

Truly yours,

WASHINGTON, April 8, 1863.

GIDEON WELLES.

WASHINGTON, April 7th, 1863.

Dr. S. W. Forsha, Dear Sir: As you are about leaving Washington, I take great pleasure in stating to you in this form that during the past two months I have been in daily use of your Alterative Balm, as a remedy for Asthma and Bronchitis of twenty-five years standing, and that I consider it by far the most effectual remedy which I have ever found for those diseases even in their severest form. I consider my own bronchial infirmity as being now in the process of rapid and thorough cure. I shall use no other remedy, and I shall make known among all my friends and acquaintances the eminent excellence and value of your medicine in cases like mine. I deem it proper also to state that your medicine has at the same time proved itself most efficacious and valuable in a case of whooping cough in my family, in greatly alleviating the disease and abridging its continuance. It only remains for me to add that I make use of your medicine in consequence of its being recommended to me by gentlemen of the highest official position here, who had seen its effects in their own families. I commenced its use, as you well know, with the strongest doubts of its success in my case, and I am now happy to assure you that those doubts have been altogether overcome by the best of all evidence, actual experience.

Very respectfully yours,

O. EAMES.

**J. C. DEXTER,**

MANUFACTURER OF

**CEMENT DRAIN PIPE,**

And Dealer in Chimney Tops, Drain Tiles,

AND

**LOUISVILLE CEMENT.**

This Cement Drain Pipe is being extensively used in Boston, New York, Albany, and other Eastern Cities, and always with entire satisfaction to the purchaser.

It is especially adapted to the draining of Cellars, Cisterns, Sinks, Privies, &c. As this pipe is composed of imperishable materials, time and water, instead of injuring, serve only to mature and harden it, until it finally becomes as hard as rock, and is as lasting as the earth in which it is laid.

It is cheaper than any other durable pipe; it is better than iron, as it will not rust or decay. The conical or bevel joint renders it easily laid, and insures an even interior and exterior surface, and there being no flange projections, a uniform bearing on the outside.
