# HENRY FRANK, SEWER TAPPER,

And Original and only Inventor and Builder of

## FRANK'S PATENT CATCH BASIN.

Patent Right Secured Sept. 5, 1876;

Reissued May 14, 1878.

**A** represents the basin proper.

**B** represents an opening in the basin-floor by which, whenever the plunger **C** is lifted, the contents escape into the discharge pipe **D**.

**J** is a cage or grated stand-pipe to guide the plunger.

Grated opening **E** in the basin wall, or near its bottom, communicates with an inverted syphon or stink trap, **F**, which discharges into the pipe **D** at **f**.

**A** tube, **G**, which rises from the elbow of syphon **F** is ordinarily closed, by cap **E**, but is capable of receiving a plunger, **I**, by means of which any sediment that may collect in the lowest part of the syphon may be removed.

**K** shows a common gutter sink or grating.

**L** are house-pipes.

**M**, main hole.

**N**, urinal.

**O**, seat.

# Cisterns Dug and Built.

207 Western Avenue,

BRANCH OFFICE, 207 West Ninth Street,

CINCINNATI, O.

See the Star Drying Closet for Drying Clothes.

Blaney's Improved Star Furnace the simplest and the best. Can be regulated in any part of the house; is the most durable; is lined with tile or iron. It has to be seen to be appreciated.

Registers and Ventilators U. GRANT BLANEY, 380 W. Sixth Street, Cincinnati, O.  
constantly on hand.

Manufacturer of the Star Smoke-Preventing Laundry Stove & Drying Apparatus.

**T. GALLAT,**  
 LICENSED  
 SEWER BUILDER AND TAPPER.

Inventor of T. Gallat's Patent  
**CATCH BASIN,**

Which is Noted for Reducing to Small Fragments Intractable Matters, to Enable their more Ready Removal.

**TWENTY-FIFTH WARD**—Comprises all the territory heretofore known as the incorporated village of Cummins ville.

# STREET DIRECTORY.

The **STREET DIRECTORY** is simply an **ALPHABETICAL** arrangement of Streets, Alleys, etc., with a sufficient portion of corner numbers attached to such as are of any considerable importance, for the purpose of aiding those who refer to it, in becoming familiar with the system of numbering. It will be found by citizens as well as strangers to be a practical guide to the different parts of the City.

**EXPLANATION.**—On streets commencing at and running directly from the Ohio River, or others running in the same direction, the **ODD** numbers are on the West, and the **EVEN** on the East side of the street, commencing at the River or such other point as the street may commence. On streets crossing Main, the **ODD** numbers are on the South, and the **EVEN** on the North side of the street, commencing at and running East and West from Main, thus dividing each into two distinct streets, distinguished by prefixing East or West to the name. All others running in a similar direction are numbered in the same manner, commencing at the point nearest to Main and running East or West, according to the direction of the same.

In designating the **CORNER** numbers we have used **ODD** numbers entirely, except where streets commence at or end upon the side where the **EVEN** numbers belong.

The Platting Commission have suggested that the streets marked with a \* should be vacated.

- AARON** al. b. Wood and C., I., St. L. & C. R. R., from Webb to Avery.
- ABBOTT**, from Spring w. of Grand to Judson, Fairmount.
