FOR ASHES. It is not safe to keep furnace ashes in the cellar or kitchen ashes near the house, unless put in Witt's Can, which is fire-proof. Indispensable to a neat yard, contents kept out of sight—can't scatter.

FOR GARBAGE. Dogs can't nose off lid and scatter contents. Witt's Can keeps the garbage where neither eye nor nose can detect it.

CORRUGATED—That's another word for triple strength. The All-Steel Witt Cans and Pails have their strength tripled along the lines of strain. That's because they're corrugated. Last for years.

Investment Value of Bonds.

Bonds are "promises to pay" in full at a specified time. The payment of both interest and principal is secured by the properties and income of the corporation issuing them.

Stock represents part-ownership in the value of the properties **after** the bonds have been paid. Its price fluctuates widely with changing business conditions and is subject to manipulation.

The investment surplus of **National** and **Savings Banks, Insurance** and **Trust Companies** is placed largely in :

Municipal Bonds

issued by states, counties and cities, to secure money for public buildings, bridges, streets, sewerage systems, water-works, etc. The payment of both interest and principal is *guaranteed* by the *power of taxation*.

Railroad Bonds.

Railroads are public carriers with the right of eminent domain. The volume of their traffic fluctuates with changing business conditions, but the minimum amount necessary to pay *fixed charges* (including interest on bonds) is *practically assured at all times*.

Public Service Corporation Bonds.

These corporations operate under public franchise, in most cases under a grant of monopoly for a given time. They perform public needs, which are *affected but little by general business depressions*.

These bonds command a general market and can be realized upon at any time.

We own and offer for sale in small or large amounts (\$100 and up), to suit purchaser, bonds of the above classes, yielding from $3\frac{1}{2}$ to 5 per cent.

NELSON'S BUSINESS COLLEGE.

Occupying seven rooms.

We occupy the entire 4th floor of the Odd Fellows' Temple, fronting on 7th and Elm.

Advantages Peculiar to Nelson's Business College.

In it originated the method of teaching by thoroughly organized business communities.

From the first day until the last, students in the business department are engaged in actual business transactions.

It leads in every wise step towards thorough equipment of young people to fill positions of responsibility in the business world.

The perfect order and discipline during school hours make a quiet place, where students may study without annoyance or interruption.

The Nelson College employs only first-class teachers in all departments. Each member of the faculty is especially educated and trained for the branches he teaches.

The students are drilled daily in business arithmetic, penmanship and bill making. After engaging in business on his own account, each student is permitted to keep the books in two or three of the large offices connected with the business department of the school.

If you are looking for a first-class stenographer, bookkeeper or general office clerk, 'phone Canal 29.

This demonstrates that not only has the Company paid* to, and now holds for its insured, more than **\$24,903,532.16** above what it has received from them, but that it has also paid the entire expense of management during its long and successful career without entrenching whatever upon the income received from Policy Holders.

Insurance in force.....	\$167,489,576
Assets	55,464,790

A low expense rate and a low mortality rate constantly maintained, and safe, conservative business methods, are better guides than results which are merely spectacular. Rapid increase in size, unless producing a reduction in cost, avails nothing to improve the policy-holders' condition. The adoption of business methods which verge upon the perilous, it is too obvious, do not constitute a ground for preference. • The true objective in the management of a Life Insurance Company is twofold: First, to maintain perfect security, and second, while respecting the rights of every policy-holder, to reduce the cost of insurance. Judged by this standard, the PROVIDENT claims to be unexcelled. • • • • •

THE SUPREME COURT

Has decided Sections 3821c and 3821f, Revised Statutes of Ohio, giving to Trust Companies the right to act as Trustee, Executor, Administrator, Receiver, Assignee, etc., to be unconstitutional and void. To successfully handle fiduciary trusts they should be looked after personally by experienced business or professional men, who will see that the interests of the estate in question are conserved.

TRUST DEPARTMENT.

Our Trust Department, managed by members of our firm, who are experienced men of affairs and trained accountants, and prepared to give bond for faithful performance of duties, is prepared to act as Receiver, Assignee, Executor, Administrator, Trustee, Guardian, etc., or in any fiduciary capacity, and solicits your patronage.

COLLECTING RENTS.

We also collect rents and keep property rented and attend to repairs needed for five per cent. of the income. This work is looked after by us personally.

REAL ESTATE.

Because of the large volume of business in all kinds of Real Estate in this city and county we are doing, we are prepared to give results and those quickly. We act as Auctioneers, Appraisers, Experts on values in Real Estate litigation, etc.

Best of references and bond furnished in any amount.

Call and see us so we may explain our system and advantages.

Want to Sell

*Your House? Your Farm?
Your Lot? Any Real Estate?*

Let us advertise it in "Brown's Bulletin." This breezy little Real Estate sheet is not wasted on the "DESERT AIR," but is mailed to a carefully selected list of "POSITIVE BUYERS," and is the best advertising medium for real estate in this territory.

This is Why the People

A firm once rich and famous fails, and the whisper is heard, "Dry Rot." What does this mean? It means that method did not improve apace with changed commercial conditions. A flint lock musket that was good enough at riddling a birch bark canoe is *not* good enough to sink an armed cruiser.

Protect... Your Business

When you fall seriously ill

do you send out to a lot of physicians and employ the cheapest?

No, you do not

for sickness is an important matter, and you take no chances.

When you have a case at law

do you send to different "attorneys" and get bids and accept the lowest?

Naturally not

for this is too important.

Is not business important?

Let us be consistent, engage the services of a well-known concern with a valuable reputation and a long list of pleased clients.

A System which produces

the maximum in results, with the minimum clerical labor, is a valuable asset.

A complete Factory Cost System is the best tool for cutting down the cost of production. Floating soap has saving qualities, in that the waste is seen and stopped. Spreading the diffused expense (or burden) over product, when done scientifically, brings many weaknesses to view

Ask for our Chart A 38, and ask also for our booklet on "Business Ailments." Consult us on any points of Business Economy or Accounting Systems. We have devised systems for every line, and are fully equipped to serve you.

We can Supply Your Needs in the **VALVE** Line

For High & Super-Heated Steam Use
Powell "White Star" Valve.

For Medium Pressure Steam and
Hot Water Heating Use
Powell "Union Composite Disk" Valve.

WHITE STAR VALVE is the only valve of the kind in which the disk is not only regrinding, but also reversible and renewable—a combination not found in any other make. The disk is of **White metal** bronze, hard close grained, tough and wearable. Will stand 2,000 degrees of heat. Made to a gauge, and can be replaced by any one.

UNION COMPOSITE DISK VALVE is a radical departure in the construction, bonnet and rigging being attached to the body by a ground union joint easily removed without injury to the Hexagon Nut. It is a pleasure to take the **Powell Union Disk** apart to get at the disk and seat.

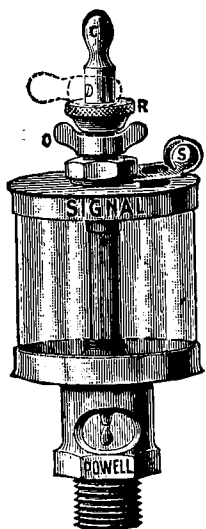

Send for circulars of these Valves, fully describing their peculiar merits, or send for sample Valve for trial.

POWELL

OIL AND GREASE CUPS

FOR THE STEAM ENGINE,
 the "**SIGNAL**" OILERS are the best on the market for use on all kinds of journals and especially engines—giving excellent service. They don't wear out, are practically everlasting.

The Original { Lever up, oil dropping; Lever down, oil stopped } OILER

Is convenient to fill, easy to regulate. When once the required feed is obtained, it need never be disturbed. A first-class, reliable Oiler, in every sense of the word.

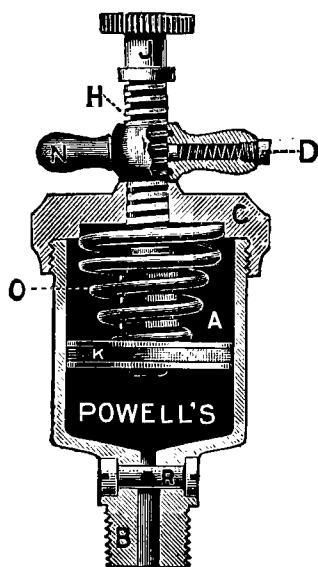

FOR THE GAS OR GASOLINE ENGINE

Use the "**VIKING.**"

It lubricates the cylinder perfectly—is thoroughly reliable. Has an explosive tube into the glass chamber, thus feeding under pressure; also a ball Valve in shank to ease the shock of the explosion.

The adjusting, regulating, starting and stopping are a convenience—not a task.

POWELL GREASE CUPS

Feed grease to bearings of all kinds without a hitch. Illustration shows our "**RENOWN.**" We make a variety of styles suitable for lubricating any and all bearings. Our name on these Cups is a guarantee that they will serve you well. We make a variety. Send for catalogue and select the cup that will best suit your purpose.

Grand Prize St. Louis -- 1904

Special Dispatch to the American Banker:—

St. Louis, Mo., Oct. 21.—The Victor Safe & Lock Co., of Cincinnati, received to-day the Highest Award—Grand Prize and Gold Medal—at the World's Fair, for their exhibit of solid Manganese Steel Bank Safes and general line of fire and burglar-proof safes and vaults; their magnificent display taking first prize over all competitors for modern improvements, construction, workmanship, design and finish.

So accurately is the door ground into the jamb of these safes with carborundum and oil that a metal to metal, air, water and steam tight joint is formed. No banker should purchase a safe without first investigating the Victor.

We carry a complete stock of fire-proof and burglar-proof safes at all times.

homeless and destitute who may be committed to it, in accordance with its charter, permanent country homes in Christian families, where they will be trained in habits of industry and receive a suitable English education. (2) To clothe, feed and instruct such children gratuitously, so long as they remain in the Children's Home. (3) To afford a temporary home to poor children, whose parents, thus aided, may be enabled in a short time to support them in homes of their own; and such other religious and charitable work as the trustees may at any time adopt.

Sebastian, Secretary; Jas. O. White, Superintendent. Chief object of the Union Bethel is to do constructive and preventive work among the poor. It has a Sunday-school every Sunday at 2:30 of poor children, averaging in attendance about 1,200; a sewing-school of about 250 girls; a cooking-school of 50 girls; a daily kindergarten, with mothers' meetings; a finely-equipped bath; a laundry for poor women; a gymnasium; a music school; a dentistry department; a district nurse; a social settlement of eight resident workers; boys' and girls' clubs; millinery and shirt waist clubs; home libraries; a splendidly arranged suite of men's club rooms, which any self-respecting man may join for 25 cents a month. OHIO HUMANE SOCIETY.

(For the Protection of Children and the Prevention of Cruelty to Animals.)

Office and Headquarters, 24 E. 9th; Telephone Canal 1792. Rev. Geo. A. Thayer, Vice President; O. A. Trounstone, Secretary and Treasurer. Animal Shelter House, Baltimore Av. north-west of Casper, N. Fairmount. All complaints of cruelty and neglect to children and animals should be sent to the office of the Society, 24 E. 9th street. The name of the informer will be held in confidence and not used in case prosecution becomes necessary. The Society is the only active out-door agency for the protection and rescue of children. In the care of these unfortunate children the Society co-operates with the numerous houses of refuge, children's homes, orphan and other asylums, hospitals, nurseries, charities, etc. Its agents seek out and investigate cases of abuse and neglect of children, hunt up truant and criminal parents, and compel them to care for their children, and gather up homeless and vagabond children. Offenders are prosecuted when necessary, and the little waifs are turned over to the permanent care of other organizations and institutions. In 1883 the Society secured the passage of a law providing a fine of \$200 and imprisonment for six months for parents failing to provide for their children. The enforcement of this law is having a most salutary effect. Hardly a day passes in which one or more cases are not reported of dissipated and licentious fathers who have deserted their families, leaving the wife to eke out a scanty existence as best she could at

the wash-tub or with the needle, or to live upon public charity. The courts have co-operated earnestly in the enforcement of this law. Whenever an offender of this kind is brought before them, a heavy sentence is put over his head, and he is allowed to go on his good behavior. It is seldom necessary to bring him in a second time. It is gratifying to be able to state that, with this law to aid their efforts, the agents of the Society are able, in many cases, to bring about a satisfactory reunion and re-establishment of families without an appearance in court. It is always desirable to avoid publicity in such cases if possible. During 1905 this Society collected \$45,000 from truant fathers and this entire amount was paid to their families. The Society bettered the condition of 5,001 children and 22,000 animals.
