FACTS!!

ABOUT CITY DIRECTORY CIRCULATION

The true value of advertising circulation is circulation consulted—
"User Circulation."

To be exact by actual survey in twenty-four average American cities
by actual count each city Directory averaged three and one-half
consultations for each business day.

To be conservative we will eliminate the sixty Sundays and Holi-
days when no tests were made.

For every thousand Directories sold there is an average of three
and one-half daily consultations for each book for three hundred
and five days, therefore—

$$1000 \times 3\frac{1}{2} \times 305 = 1,067,500$$

Consultations or "User Circulation"

The City Directory offers the most Specific Point of Contact advertising known

CAUTION

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of Williams Directory Co. printed thereon. We do not ask payment until the work is delivered, and our solicitors have strict orders not to take payment for either advertising or subscriptions.

Stewart Fences Meet Every Requirement

Stewart manufactures Ornamental Iron and Chain Link Wire Fence and Entrance Gates to meet every industrial, residential, public and institutional property requirement. For more than 52 years Stewart Fences have safeguarded property, giving 24-hour a day continuous, unflinching protection against trespass and vandalism. And in addition, Stewart Fences enhance the beauty, distinction and value of property, insuring privacy and dignity as well.

Many outstanding, exclusive features are built into every Stewart Fence. Before buying be sure to investigate Stewart. Compare the many Stewart advantages with any other fence.

Hundreds of stock designs are immediately available, or special patterns will be created and fabricated to meet individual requirements.

Profusely illustrated catalog showing typical installations and giving complete specification data on all exclusive features will be sent on request. Stewart maintains sales and erection service in principal cities.

90 YEARS OF SERVICE to Cincinnati

AY BACK in February of 1849, the year of the Gold Rush, the original **GIBSON HOUSE** first opened its doors and bid the world "Welcome." From that time to the present day, the name **GIBSON** has been synonymous with hospitality and good living. Today, with the modern 1000-room hotel on Fountain Square, you'll hear Cincinnatians using the same phrase that was oft-repeated decades ago—"Let's Get Together at the Gibson."

Locating Missing Heirs Finding Lost Persons

**This is only one of the many offices that the
modern directory successfully fills**

The city directories of the United States form a perpetual inventory of the human element of the nation as well as the business activities.

Police Departments, the country over, rely upon directory information for the location of lost persons. Lawyers and executors of estates are likewise dependent on the information that these "city catalogs" contain.

Real Estate buyers and agents have multitude occasions to refer to the pages of directories of other cities in order that they may have detailed and authentic information on parcels of land and subdivisions in which they have a personal or business interest.

Credit managers have unlimited use for the pages of the modern directory, as have collection managers and agencies.

The uses of the city directory are legion; the information is authentic and the manufacturers and companies that are represented therein are reputable and dependable.

Make More Use of Your City Directory!

These Bank Buildings

protected by Ohio's oldest fire insurance company

Since 1826 this company has been protecting owners of office buildings, stores and residences in Hamilton County, against fire loss. Risks have been carefully selected, reserves conservatively invested, until today, this company's cash surplus actually exceeds all of its fire losses in 112 years.

A deposit is made when the building is first insured. That is all that the owner ever pays. The owner receives a cash dividend of 10% every seven years (about 1½% yearly), when the policy automatically renews itself.

We shall be glad to give further information concerning this unique form of insurance.

Suddenly insurance may become their sole defense. . . against **SEVEN VITAL NEEDS**

IF YOU WERE WEALTHY, your family's seven inescapable needs wouldn't have to concern you very greatly. You would leave so much life insurance that *all* their needs couldn't help being provided for.

But if your means are limited, you must plan ahead with extra care to make each dollar do all it possibly can . . . to extend your protection through the various phases of your family's changing life.

Unfortunately, few fathers are expert enough in insurance matters to do this vital planning. That's why The Union Central Life has developed the unique new "Family-needs Forecast."

This remarkable service makes it possible for you to see clearly into the future. It shows you every one

of the *seven* needs that may confront your family . . . and it shows you, almost to a dollar, how well your present life insurance could take care of each of those needs.

Now you can get maximum protection value from every insurance dollar

If you had this Forecast you could plainly see how to distribute the proceeds of your insurance so that every dollar will do the most good for your family. You could plainly see whether there are any dangerous gaps remaining in your program, and understand how they might be filled most economically.

There is not the slightest cost or obligation involved in your use of the Family-needs Forecast. There

is near you a Union Central Life representative, capable and understanding, who will be glad to show you how to use it . . . how you yourself can check your life insurance against the actual needs it might suddenly have to meet. Just mail the coupon.

AFTER 80 YEARS

Individual Craftsmanship

still dominates the
JOHN VAN RANGE CO.

ONE OF THE KEYS to the unwavering loyalty of the food service operators to John Van Range, has been the unusual stamina which has been inbuilt in its equipment. Artisans long skilled in their special calling, working under close technical supervision, assure users of John Van equipment of extra dividends of long life and satisfactory service.

- Further evidence of this special skill is illustrated by this photograph of one of the steps in the polishing of stainless equipment, for which John Van is famous. Without the polishing art as practiced by John Van, the gleaming stainless equipment could as well be made of baser metals. Not only does the polished surface create a wonderful appearance; it is this same polished surface which protects the metal.

Restaurants, Hotels, Hospitals, Schools, Colleges, Convents and Institutions generally have known since 1846, that this organization is headquarters for the finest of Heavy Duty Kitchen Equipment. Technically trained men are available to assist in laying out new kitchens, remodeling present quarters, or counselling on replacement of a single piece of equipment.

Names Appearing in Black Letters

IN THIS DIRECTORY are the names of those people who ACCOMPLISH THINGS and are entitled to favorable consideration, if for no other reason than their public-spirited support of measures, which make for progress. They represent that ENERGY AND PUSH so essential to the commercial prosperity of the City, and in dealing with them no mistake will be made. The publishers are honored in thus making them better known to the public.

THE KEYSTONE OF WEALTH -- LAND

Students of economics are all agreed that the fundamental basis of all wealth is land. Land plays a very important part in every phase of our life. We receive our sustenance from it, our transportation and industries are built upon it, and when life ends all of us return to it. There has been nothing more enduring throughout the ages nor a more motivating factor in the movement of people. History relates that the underlying cause of most wars has been due to the conquest of land.

When real estate is considered for investment then competent advice and judgment should be consulted. In the field of real estate investment there is no sounder advice than that offered by the REALTOR. He is a specialist in his field by reason of his business activity. He is thoroughly conversant with real estate conditions, the laws restricting its use and the trends and changes due to the shifting of population in the community.

A REALTOR is a member of a local Real Estate Board who in turn is a member of the National Association of Real Estate Boards, who licenses the individual member to use the term "REALTOR." The Cincinnati Real Estate Board has been organized since 1888 and has rendered fifty years of continued service in Cincinnati. The list of members below are those real estate brokers who are entitled to the use of the term REALTOR in this city. Whenever you invest in real estate, either through purchasing, leasing or renting, insist upon a REALTOR to represent you.

As a further public service the Cincinnati Real Estate Board has an established Valuation Committee for the purpose of appraising property. An appraisal made by this Committee embodies the opinion of five competent REALTORS. Schedule of fees and details can be secured by communicating with the undersigned.

MORE GOODS
ARE BOUGHT AND SOLD
THROUGH THE
CLASSIFIED BUSINESS LISTS
OF THE
DIRECTORY
THAN
ANY OTHER MEDIUM
ON EARTH

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and

social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.
