

**A PROVISIONAL CHECKLIST OF THE
COLEOPTERA
OF
HAMPSHIRE
AND THE ISLE OF WIGHT**

Dr.Jonty Denton

2013

ALBION ECOLOGY

Symbols

+ = present in Vice-county * pre 1980 record only

Sf= sub-fossil

R= Roman

Gyrinidae (Whirlygigs)	Vc10	Vc11	Vc12	Notes
Gyrinus aeratus Stephens, 1832		+		(Nb)
Gyrinus caspius Menetries, 1832		+		Round Hill 2003 (JSD) Lymington Titchfield Haven (JSD)
Gyrinus marinus Gyllenhal, 1808		+	+	Local, on open water esp. on large water bodies such as lakes and canal margins.
Gyrinus paykulli Ochs, 1927	*	*		Alverstoke and Portsea
Gyrinus substriatus Stephens, 1828		+	+	Widespread and often abundant on ponds, canals, ditches and lakes.
Gyrinus urinator Illiger, 1807 The Artist	*	+	+	(Nb) Local, frequent in River Wey Wrecclesham
Orectochilus villosus (Mueller, 1776) Hairy whirlygig.	*	+	+	Local, on streams often in deep shade. Largely nocturnal and easily overlooked.

Haliplidae (Crawling water beetles)	Vc10	Vc11	Vc12	Notes
Brychius elevatus (Panzer, 1793)		+	+	V. Local in flowing water esp. in submerged gravel and near weirs.
Peltodytes caesus (Duftschmid, 1805)	+	+	+	(Nb) Rare but increasing? Weedy ponds,
Haliplus apicalis Thomson, 1868		*		Portsea (Moncreaff)
Haliplus confinis Stephens, 1828	+	+	+	Local in ponds, lakes and canals with Charophytes
Haliplus flavicollis Sturm, 1834		+	+	V. local in large ponds, canals.
Haliplus fluviatilis Aube, 1836		+	+	Widespread in ponds, lakes, canals etc.
Haliplus fulvus (F., 1801)		+	+	V. local in large ponds, Woolmer. (JSD)
Haliplus heydeni Wehncke, 1875	+	+	+	(Nb) V. local in small detritus ponds.
Haliplus immaculatus Gerhardt, 1877	+	+	+	Widespread in weedy ponds
Haliplus laminatus (Schaller, 1783)	+	+	+	(Nb) Weedy streams and ponds.
Haliplus lineatocollis (Marshall, 1802)	+	+	+	Widespread in streams, ditches and weedy ponds.
Haliplus lineolatus Mannerheim, 1844		+		Rare? [canals, ponds, flooded gravel pits]
Haliplus mucronatus Stephens, 1828		*		Alverstoke see Balfour-Browne 1952
Haliplus obliquus (F., 1787)	+	+	+	Local, but can be a rapid coloniser of new ponds with <i>Chara</i>
Haliplus ruficollis (Degeer, 1774)	+	+	+	Widespread in detritus ponds.
Haliplus sibiricus Motsch., 1860		+	+	Local in standing water
Haliplus variegatus Sturm, 1834		+		RDB

Noteridae				
Noterus clavicornis (Degeer, 1774)		+	+	Widespread and common in ponds, canals, and lakes +30 post 1980 records
Noterus crassicornis (Muller, 1776)	*			

Hygrobiidae				
Hygrobia hermanni (F., 1775) Screech Beetle	+	+	+	Widespread but local in ponds esp. with silty substrates +20 post 1980 records

Dytiscidae (Diving Beetles)	Vc10	Vc11	Vc12	Notes
Laccophilus hyalinus (Degeer, 1774)	+	+	+	Local, in slow flowing water, frequent in Basingstoke Canal, occasionally in ponds
Laccophilus minutus (L., 1758)	+	+	+	Widespread and common in ponds, canals, and lakes
Laccophilus poecilus		*		Portsea (Moncreaff)
Hyphyrus ovatus (L., 1761)	+	+	+	Widespread and common in ponds, canals, and lakes
Hydrovatus clypealis Sharp, 1876	*	+		(Nb) Lake Common IoW 1926 (JLH)
Bidessus unistriatus (Schrank, 1781)		+		
Hydroglyphus pusillus (F., 1781)	+	+	+	(Nb) Widespread, a rapid coloniser of new ponds with silty substrates.
Hygrotus confluens (F., 1787)	+	+	+	Widespread a rapid coloniser of new ponds with silty substrates.
Hygrotus decoratus (Gyllenhal, 1810)		*	+	(Nb) Rare in well vegetated marshy wetland and pond margins. Woolmer Pond (JSD) Portsea (Moncreaff)
Hygrotus inaequalis (F., 1777)	+	+	+	Widespread and common in ponds, canals, and lakes
Hygrotus impressopunctatus (Schaller, 1783)	+	+	+	Widespread in ponds, esp. on heathland.
Hygrotus nigrolineatus (von Steven, 1808)			+	(Na) Recent immigrant increasing in new ponds. Castle Bottom (JSD)
Hygrotus novemlineatus (Stephens, 1829)			*	Woolmer P
Hygrotus parallelogrammus (Ahrens, 1812)	+	+		
Hygrotus quinquelineatus (Zetterstedt, 1828)		*		New Forest A.Thornley det FBB
Hygrotus versicolor (Schaller, 1783)	+	+	+	(Nb) Rare formerly in Basingstoke canal, no post 1980 records.
Hydroporus angustatus Sturm, 1835	+	+	+	Widespread and common in ponds, canals, and lakes, avoiding acidic heath ponds.
Hydroporus discretus Fairmaire, 1859	+	+	+	V.local in spring fed puddles and pools
Hydroporus erythrocephalus (L., 1758)	+	+	+	Widespread and common in ponds and lakes, esp. in acidic heath ponds.
Hydroporus ferrugineus Stephens, 1829		?	+	(Nb) Rare. Confined to small springhead areas on the Gault? slopes of
Hydroporus gyllenhalii Schioedte, 1841	+	+	+	Widespread and common in ponds and lakes, esp. in acidic heath ponds.
Hydroporus incognitus Sharp, 1869	+	+	+	Local in shaded pools and marshy pools beside streams.
Hydroporus longicornis Sharp, 1871		+		(Nb)
Hydroporus longulus Mulsant, 1860			+	(Nb) Rare in spring fed streams. Liss Forest (JSD)
Hydroporus marginatus (Duftschmid, 1805)		+	+	
Hydroporus melanarius Sturm, 1835		+	+	Local in small pools on heathland
Hydroporus memnonius Nicolai, 1822		+	+	Widespread in woodland pools in flooded leaf litter
Hydroporus neglectus Schaum, 1845			+	(Nb) V.Local in shaded acid pools. 6 post 1980 records
Hydroporus nigrita (F., 1792)	+	+	+	Local in a variety of small water bodies including small seasonal pools.
Hydroporus obscurus Sturm, 1835	*	+	+	Local in flooded <i>Sphagnum</i> on heaths and in bogs.
Hydroporus palustris (L., 1761)	+	+	+	Widespread in detritus ponds and marshy areas by lakes and flowing water
Hydroporus planus (F., 1781)	+	+	+	Widespread rapid coloniser of new and recently cleared ponds also in water troughs
Hydroporus pubescens (Gyllenhal, 1808)	+	+	+	Widespread in acid standing water
Hydroporus scalesianus Stephens, 1828		*		Portsea <1880 (Moncreaff)
Hydroporus striola (Gyllenhal, 1827)		+	+	Local in standing water
Hydroporus tessellatus Drapiez, 1819	+	+	+	Widespread rapid coloniser of new and recently cleared ponds also in water troughs, isolated puddles
Hydroporus tristis (Paykull, 1798)		+	+	Local in small pools esp. <i>Sphagnum</i> pools on heathland
Hydroporus umbrosus (Gyllenhal, 1808)		+	+	Local in small pools esp. <i>Sphagnum</i> pools on heathland
Stictonectes lepidus (Olivier, 1795)		+	*	
Suphrodytes dorsalis (F., 1784)		+	+	Local in shaded detritus ponds.
Deronectes latus (Stephens, 1829)	+	+	+	Rare River Rother, Liss 1994 (JSD)

Porhydrus lineatus (F., 1775)	+	+		
Graptodytes flavipes (Olivier, 1795)	*	+		(RDB2) Extinct?
Graptodytes granularis (L., 1767)		+		(Nb) Extinct?? No modern records, ought to still occur some where!
Graptodytes pictus (F., 1787)	+	+		
Nebrioporus depressus (F.) ssp. elegans (Panzer)	+	+	+	Local in rivers and permanent streams occasionally in deep ponds in pits etc.
Stictotarsus duodecimpustulatus (F., 1792)		+	+	Local
Oreodytes sanmarki (Sahlberg, 1826)	+	+	+	Local in streams esp. in root tangles, shade tolerant.
Copelatus haemorrhoidalis (F., 1787)	+	+	+	Local. In weedy detritus ponds and bog pools.
Platambus maculatus (L., 1758)		+	+	Local in flowing water, streams, and rivers. Tolerant of shade.
Agabus affinis (Paykull, 1798)		+	+	V.local in acid ponds typically in flooded <i>Sphagnum</i> .
Agabus biguttatus (Olivier, 1795)		+		Nb Rare [calcareous ground fed waters, spring heads] Rudd Kimpton
Agabus bipustulatus (L., 1767)	+	+	R+	Ubiquitous in stagnant water including horse troughs etc. a strong flyer.
Agabus brunneus (F., 1798)		+		
Agabus congener (Thunberg, 1794)		+		Emer Bog 2002 (JSD)
Agabus conspersus (Marsham, 1802)	*	+		(Nb) Freshwater 1922 (JLH) Titchfield haven 1996 (JSD)
Agabus didymus (Olivier, 1795)	+	+	+	Local in flowing water amongst marginal vegetation.
Agabus guttatus (Paykull, 1798)	+	+	+	Local in spring fed streams and well heads also outfalls of man made drains
Agabus labiatus (Brahm, 1790)		+	+	(Nb) Rare. In shallow heath pools.
Agabus melanarius Aube, 1837			+	(Nb) Rare. Seepages in woodlands, amongst flooded <i>Sphagnum</i> and leaf litter
Agabus nebulosus (Forster, 1771)	+	+	+	Widespread. In silt ponds esp. new or recently cleared sites , a strong flier also frequent in troughs etc.
Agabus paludosus (F., 1801)	*	+	+	Local, in weedy margins of flowing water, also around small seepages and springheads in flooded litter and moss.
Agabus sturmii (Gyllenhal, 1808)	+	+	+	Widespread in detritus ponds.
Agabus uliginosus (L., 1761)		*		Alverstoke (Adams)
Agabus unguicularis (Thomson, 1867)			+	
Agabus undulatus (Schrank, 1776)	*	*		Portsea (Moncreaff)
Ilybius aenescens Thomson, 1870		+	+	(Nb) Rare. In acid ponds typically in flooded <i>Sphagnum</i>
Ilybius ater (Degeer, 1774)		+	+	Widespread in all kinds of standing waters. Also comes to light
Ilybius chalconatus (Panzer, 1796)		+	+	Local. In ponds and rut pools in wooded areas, in VC17 commoner than <i>I. montanus</i> .
Ilybius fenestratus (F., 1781)		*	+	(Nb) V.local. In large ponds, lakes esp. in heathland areas. Frequent along Basingstoke canal. Tolerant of heavy fish stocking
Ilybius fuliginosus (F., 1792)	+	+	+	Widespread in ponds and weedy margins of flowing water. Also comes to light.
Ilybius guttiger (Gyllenhal, 1808)		+	+	(Nb) V.local. In pools on heathland
Ilybius montanus Zimmermann, 1915		+	+	Local in acid ponds esp. on heathland
Ilybius quadriguttatus (Lacordaire, 1835)	*	+	+	Local in detritus ponds
Ilybius subaeneus Erichson, 1837 ?				(Nb) Extinct Woolmer Pond
Rhantus exsoletus (Forster, 1771)		?	+	Local in detritus ponds and marshy areas
Rhantus frontalis (Marsham, 1802)	*	*		Portsea (Moncreaff)
Rhantus grapii (Gyllenhal, 1808)		+	+	(Nb) Local in richly vegetated (usually old) ponds and in <i>Sphagnum</i> in richer bog pools
Rhantus suturalis (MacLeay, 1825)	+	+	+	(Nb) Widespread good coloniser of new and recently cleared silt pools. Freshwater 1989 (S.K-J)
Rhantus suturellus (Harris, 1828)		+	+	Local. In peat pools on heathland.
Colymbetes fuscus (L., 1758)		+	+	Frequent species of ponds of all kinds
Hydaticus seminiger (Degeer, 1774)		+	+	(Nb) Local, but increasing. In mossy margins of pools esp. on heaths. Tolerant of shading.

Graphoderus zonatus (Hoppe, 1795)			+	RDB1 Woolmer Forest only UK site.
Acilius sulcatus (L., 1758)	+	+	+	Rare in a wide variety of still waters, but intolerant of fish stocking
Dytiscus circumflexus F., 1801	*	*	+	(Nb) Scarce, increasing? In ponds with open silty substrates
Dytiscus circumcinctus Ahrens, 1811		+		
Dytiscus dimidiatus Bergstraesser, 1778 ?		*		New Forest (Beck) 1890
Dytiscus marginalis L., 1758 Great Diving beetle	+	+	+	Ubiquitous in standing water of all kinds, esp. where amphibians are breeding, as larvae specialise in tadpoles.
Dytiscus semisulcatus Mueller, 1776	*	+	+	Local, most records from stagnant water in heath ponds and peat pools

Carabidae (Ground beetles)	Vc10	Vc11	Vc12	Notes
<i>Cicindela campestris</i> L., 1758 Green Tiger beetle	+	+	+	Locally common on heaths, scattered in woodlands and disturbed ground.
<i>Cicindela germanica</i> L., 1758 Cliff Tiger beetle	+			
<i>Cicindela sylvatica</i> L., 1758 Heath Tiger beetle		+	+	(Na) V.local, declining on open dry heathland with short heather and open sandy areas. Woolmer 1994 (JSD)
<i>Cychrus caraboides</i> (L., 1758)	+	+	+	Widespread in wooded districts. A flightless snail predator
<i>Carabus arvensis</i> Herbst, 1784		+	+	Rare on heathland. Woolmer 2003 (JSD)
<i>Carabus granulatus</i> L., 1758		+	+	Local in damp meadows and heaths. Woolmer
<i>Carabus nitens</i> L., 1758		+		
<i>Carabus monilis</i> F., 1792		+	+	Nb Rare, declining?
<i>Carabus nemoralis</i> Mueller, 1764	+	+	+	Widespread in open habitats
<i>Carabus problematicus</i> Herbst, 1786	+	+	+	Local in dry areas esp. on heaths and commons.
<i>Carabus violaceus</i> L., 1758 Violet ground-beetle	+	+		Widespread and common occurring in woods, parks, gardens, and more open habitats.
<i>Calosoma inquisitor</i> (L., 1758)	*	*		(Na) arboreal on oaks etc. two old recs
<i>Calosoma sycophanta</i> (L., 1758)	*	*		Migrant NF (JJW) IoW (Fowler, 1888)
<i>Leistus ferrugineus</i> (L., 1758)	+	+	+	Local in wooded country and heaths
<i>Leistus fulvibarbis</i> Dejean, 1826	+	+	R+	Local in leaf litter etc. in woods and hedgerows, and disturbed ruderal sites
<i>Leistus rufescens</i> (F., 1775)	+	+	+	Local in damp shady places in leaf litter.
<i>Leistus rufomarginatus</i> (Duftschmid, 1812)	+	+	+	20 th C colonist (first noted in the 1940s) now widespread especially in woods in litter under trees esp. beech.
<i>Leistus spinibarbis</i> (F., 1775)	+	+	+	Frequent in woods, gardens etc.
<i>Nebria brevicollis</i> (F., 1792)	+	+	R+	Widespread and common
<i>Nebria salina</i> Fairmaire et Laboul., 1854	+	+	+	Rare on open heathland.
<i>Notiophilus aquaticus</i> (L., 1758)		+	+	Local in dry habitats esp. heathland
<i>Notiophilus biguttatus</i> (F., 1779)	+	+	+	Frequent in all kinds of open situations including gardens
<i>Notiophilus germinyi</i> Fauvel, 1863	+	+		Rare [dry areas] Gilkicker Point 2000 (PJH)
<i>Notiophilus palustris</i> (Duftschmid, 1812)	+	+	+	Frequent in leaf litter in woods etc.
<i>Notiophilus quadripunctatus</i> Dejean, 1826	+	+	+	Rare
<i>Notiophilus rufipes</i> Curtis, 1829		+	+	Local in leaf litter in moist often shady places, including gardens
<i>Notiophilus substriatus</i> Waterhouse, 1833	+	+	+	Frequent in open dry country including gardens
<i>Blethisa multipunctata</i> (L., 1758)		+		
<i>Elaphrus cupreus</i> Duftschmid, 1812	+	+	+	Local at margins of water and in marshy ground.
<i>Elaphrus riparius</i> (L., 1758)	+	+	+	Local at margins of water and in marshy ground.
<i>Elaphrus uliginosus</i> F., 1792	+	+		Lower test valley 1994 (DIBH)
<i>Loricera pilicornis</i> (F., 1775)	+	+	+	Frequent in damp litter esp in woods, also in large gardens.
<i>Dyschirius aeneus</i> (Dejean, 1825)	+	+	+	Local on open bare ground in sandpits, heaths etc.
<i>Dyschirius angustatus</i> (Ahrens, 1830)		*		RDB3 Hayling Island (E.Saunders)
<i>Dyschirius globosus</i> (Herbst, 1784)	+	+	+	Local on moist open ground, esp. on heaths where it often shelters under mats of <i>Zygonium</i> algae on bare sand
<i>Dyschirius impunctipennis</i> Dawson, 1854	+			
<i>Dyschirius luedersi</i> Wagner, 1915	+	+		
<i>Dyschirius politus</i> (Dejean, 1825)	+	+	+	
<i>Dyschirius salinus</i> Schaum, 1843	+	+		
<i>Dyschirius thoracicus</i> Rossi, 1790		+		

Clivina collaris (Herbst, 1784)	+	+	R+	Local, partly subterranean in gardens, and esp. on sandy banks of rivers such as the Wey.
Clivina fossor (L., 1758)	+	+	+	Local, partly subterranean in wetlands, sandy river banks etc.
Brosicus cephalotes (L., 1758)	+	+		
Patrobus atrorufus (Stroem, 1768)		+	+	Rare [wet woods]
Perileptus aereolatus (Creutzer, 1799)	?			(Na)
Aepus marinus (Stroem, 1783)	+			Nb
Aepus robini (Laboulbene, 1849)	+			Nb
Lasiotrechus (Trechus) discus (F., 1792)		+		
Trechus fulvus Dejean, 1831		+		Nb Browndown foreshore 2002 (JSD)
Trechus obtusus Erichson, 1837		+	R+	Local in open habitats including gardens, and cultivated land.
Trechus quadristriatus (Schränk, 1781)	+	+	R+	Frequent in open country including gardens
Trechus rubens (F., 1792)		*		Nb
Trechus secalis (Paykull, 1790)		+	?	Rare in wet grassland.
Trechoblemus (Trechus) micros (Herbst, 1784)		+	+	Rare? [in mammal runs or burrows]
Asaphidion curtum (Heyden, 1870)	+	+	+	Local on bare usually clayey soils in woods
Asaphidion stierlini (Heyden, 1880)		+	+	Local. Recently split species, widespread especially on chalky and clayey soils, and also in ruderal sites.
Bembidion aeneum Germar, 1824	+	+		SU86?
Bembidion biguttatum (F., 1779)	+	+	+	Local in marshland
Bembidion guttula (F., 1792)	+	+	+	Local in wetlands, margins of rivers and large ponds, lakes, also in waterlogged pasture and arable land.
Bembidion iricolor Bedel, 1879	+	+		
Bembidion lunulatum (Fourcroy, 1785)	+	+	+	
Bembidion mannerheimi Sahlberg, 1827	+	+	+	
Bembidion pallidipenne (Illiger, 1802)	+	+		
Bembidion nigricorne Gyllenhal, 1827		+	+	Nb Rare. In heather litter on open heathland.
Bembidion lampros (Herbst, 1784)	+	+	R+	Widespread on various open habitats including fields
Bembidion properans Stephens, 1828	+	+	+	Local in open habitats
Bembidion dentellum (Thunberg, 1787)	+	+	+	Widespread in marshy places near ponds, also on bare drawdown zones of drying water bodies.
Bembidion obliquum Sturm, 1825	+	+	+	
Bembidion varium (Olivier, 1795)	+	+		
Bembidion ephippium (Marsham, 1802)				
Bembidion tibiale (Duftschmid, 1812)		+	+	Rare, on shingle Empshott by shady stream JSD
Bembidion andreae (F., 1787)	+	+		
Bembidion bruxellense Wesmael, 1835		+	+	Rare in damp places in litter.
Bembidion decorum (Zenker in Panz., 1800)		+		
Bembidion femoratum Sturm, 1825		+	+	Local in open sandy places, including sandpits and disturbed areas on heathlands.
Bembidion maritimum Stephens, 1835	+	+		
Bembidion monticola Sturm, 1825		+	+	Nb Titchfield Haven (DA)
Bembidion nitidulum (Marsham, 1802)	+	+	+	Rare near water [on exposed sediments]
Bembidion saxatile Gyllenhal, 1827	+	+		
Bembidion stephensi Crotch, 1871	+	+		Rare [shady bare ground]
Bembidion tetracolum Say, 1823	+	+	+	Widespread on bare ground near water, often on open shingle, and sand by rivers and streams.
Bembidion calosum laterale (Samouelle, 1819)				

Bembidion genei Kuester, 1847	+	+	+	Local on open barish ground in pits and quarries
Bembidion nigropiceum (Marsham, 1802)	+			(Na)
Bembidion gilvipes Sturm, 1825		+		Titchfield Haven (DA)
Bembidion assimile Gyllenhal, 1810	+	+	+?	Rare in marshes, litter at margins of ponds.
Bembidion clarki Dawson, 1849			?	Nb
Bembidion fumigatum (Duftschmid, 1812)	+	+		Titchfield Haven (DA)
Bembidion mimimum (Fab, 1792)	+	+		Titchfield Haven (DA)
Bembidion normannum Dejean, 1831	+	+		
Bembidion quadrimaculatum (L., 1761)	+	+	+	Local in open sparsely vegetated areas on a variety of soils.
Bembidion quadripustulatum Serville, 1821		+?	+	Nb Rare at margins of water on bare silt and sand. Kings Pond Alton
Bembidion doris (Panzer, 1796)	+	+	+	Rare in marshes, wet woodland.
Bembidion articulatum (Panzer, 1795)	+	+	+	Local on damp bare ground near water
Bembidion obtusum Serville, 1821	+	+	+	Local on open dry, often cultivated land, including arable land
Ocys (Bembidion) harpaloides Serville, 1821	+	+	+	Widespread in woods on trees, under bark and in suspended debris including old nests
Ocys (Bembidion) quinquestriatum Gyll., 1810	*			IoW (Fowler, 1888)
Tachys bistriatus (Duftschmid, 1812)	+	+		
Tachys edmondsi Moore, 1956		+		
Tachys micros (Fischer von Waldheim, 1828)		+		
Tachys scutellaris Stephens, 1828	*	+		
Elaphropus (Tachys) parvulus (Dejean, 1831)			+	Medstead 2004 (JSD) on my patio!
Elaphropus (Tachys) walkerianus Sharp, 1913				
Pogonus chalceus (Marsham, 1802)	+	+		
Pogonus littoralis (Duftschmid, 1812)	+	+		
Pogonus luridipennis (Germar, 1822)	=	=		Bembridge Ellis
Stomis pumicatus (Panzer, 1795)		+	+	Local in grasslands, gardens [on rich soils?]
Pterostichus angustatus (Duftschmid, 1812)		+	?	Nb Rare on recently burnt areas on heath/pinewoods.
Pterostichus anthracinus (Panzer, 1795)	+	+		Nb Rare, in carr woodland a Little Wooton 1999 (DAL)
Pterostichus aterrimus (Herbst, 1784)		+		
Pterostichus cupreus (L., 1758)	+	+	+	Widespread in open habitats including ruderal areas
Pterostichus diligens (Sturm, 1824)	+	+	+	Local. Most frequent in wet heath/boggy areas, and other wetlands
Pterostichus gracilis (Dejean, 1828)		+		Nb
Pterostichus kugelanni (Panzer, 1797)	*	+		RDB1
Pterostichus lepidus (Leske, 1785)		+	+	Nb Local, but can belocally abundant on dry heathland areas. Woolmer etc (JSD)
Pterostichus longicollis (Duftschmid, 1812)	+	+		Nb SU85
Pterostichus macer (Marsham, 1802)	+	+		Rare , though partly subterranean.
Pterostichus madidus (F., 1775) The Black-clock	+	+	+	Ubiquitous in open habitats including gardens, one of the commonest beetles
Pterostichus melanarius (Illiger, 1798)	+	+	+	Local in a wide variety of damp habitats from woodland , marshes, bogs etc.
Pterostichus minor (Gyllenhal, 1827)	+	+	+	Local in marsh and carr.
Pterostichus niger (Schaller, 1783)	+	+	R+	Widepread in parkland and other partly woded habitats.
Pterostichus nigrita (Paykull, 1790)		+	R+	Local in marsh and wet woodlands
Pterostichus oblongopunctataus (Fab., 1787)		+	+?	
Pterostichus rhaeticus Heer,		+	+	Local in wetlands especially carr woodland and wooded heaths.

Pterostichus strenuus (Panzer, 1796)	+	+	+	Local in woods and shaded places.
Pterostichus vernalis (Panzer, 1795)	+	+	+	Local in open habitats on heaths and in marshes
Pterostichus versicolor (Sturm, 1824)	+	+	+	Widespread in open habitats including ruderal areas
Abax parallelepipedus (Piller & Mitter.,	+	+	R+	Widespread and common especially in wooded areas, under logs etc.
Calathus ambiguus (Paykull, 1790)		+		
Calathus cinctus Motschulsky, 1850		+	+	Rare in open sandy places
Calathus erratus (Sahlberg, 1827)		+	+	Local on dry sandy ground esp. on heaths.
Calathus fuscipes (Goeze, 1777)	+	+	+	Widespread and common in open areas including farmland and gardens.
Calathus melanocephalus s. str. (L.,1758)	+	+	+	Widespread in dry areas including ruderal sites.
Calathus mollis (Marsham, 1802)	+	+		
Calathus rotundicollis Dejean, 1828 piceus (Marsh.	+	+	+	Widespread esp. in wooded areas, under logs etc. also occurs in gardens
Laemostenus complanatus (Dejean, 1828)	+	+		Calbourne (Fowler)
Laemostenus terricola (Herbst, 1784)		+	+	Local. Most records come from near rabbit warrens, also occurs under bark. Woolmer 1998 (JSD)
Platyderus ruficollis (Marsham, 1802)		+	+	Nb Local in gardens and waste ground Fleet 1994 (DIBH)
Synuchus vivalis (Illiger, 1798) nivalis (Panzer)	+	+	+	Local in open dry areas including disturbed sites.
Olisthopus rotundatus (Paykull, 1790)	+	+	+	Widespread in open habitats including ruderal areas
Anchomenus (Agonum) dorsale (Pontoppidan, 1763)	+	+	+	Widespread in grassland, woods etc.
Paranchus (Agonum) albipes (F., 1796)	+	+	+	Widespread in wetlands esp. carr areas and woodland pools.
Oxypselaphus (Agonum) obscurum (Herbst, 1784)		+	+	Local in damp litter in wet woodland and marsh
Agonum ericeti (Panzer, 1809)		+	+	Woolmer
Agonum fuliginosum (Panzer, 1809)	+	+	+	Local in marshland in litter and tussocks.
Agonum gracile Sturm, 1824		+	+	Rare in marshes and richer bogs
Agonum livens (Gyll., 1810)		+		
Agonum marginatum (L., 1758)	+	+	+	Local at margins of standing water in bare areas under stones etc.
Agonum micans Nicolai, 1822		?	?	Rare [wetlands]
Agonum moestum (Duftschmid, 1812)	+	+	+	Local in marshy areas
Agonum muelleri (Herbst, 1784)	+	+	+	Local in dry areas including cultivated land
Agonum nigrum Dejean, 1828		+		
Agonum obscurum (Herbst, 1784)	+	+	+	Local in damp litter in wet woodland and marsh
Agonum piceum (L., 1758)		*		
Agonum sexpunctatum (L., 1758)		+	+	(Na) Local, on open wet heathland (Woolmer Bartley Heath (JSD)
Agonum scitulum Dejean, 1828 ??		+?		
Agonum thoreyi Dejean, 1828	+	+	+	Local in marshes and boggy areas esp. on heathy commons
Agonum versutum Sturm, 1824			?	Nb Rare in marshy wetlands.
Agonum viduum (Panzer, 1796)	+	+	+	Rare in marshy areas.
Platynus (Agonum) assimile (Paykull, 1790)		+	+	Widespread in woods etc.under bark in moss.
Perigona nigriceps (Dejean, 1831)		+	+	Recent immigrant. Increasing in compost/manure heaps Beech (JSD)
Amara aenea (Degeer, 1774)	+	+	+	Widespread in open habitats including ruderal areas
Amara anthobia Villa, 1833		?	+	Local on open dry soils.
Amara apricaria (Paykull, 1790)	+	+	+	Local in disturbed areas including ruderal sites and gardens.

Amara bifrons (Gyllenhal, 1810)		+	+	Local in open dry sites
Amara communis (Panzer, 1797)		+	+	Rare on downland.
Amara consularis (Duftschmid, 1812)		+		Nb Rare on heathland, [downland]
Amara convexior Stephens, 1828		+	+	
Amara curta Dejean, 1828		+		Nb Rare in open sandy places.
Amara equestris (Duftschmid, 1812)		+	+	Nb Rare on heaths and downland. Whitehouse Meadow (JSD)
Amara eurynota (Panzer, 1796)		+	R+	Local in open disturbed areas with ruderal vegetation.
Amara famelica Zimmerman, 1832			?	RDB3 V.rare open heathy places. Netley (JJW)
Amara familiaris (Duftschmid, 1812)	+	+	+	Widespread in open habitats including ruderal areas
Amara fulva (Mueller, 1776)	+		+	Nb Rare on disturbed sandy ground including cultivated sites. Shortheath Common (PJH, JSD 1998)
Amara infima (Duftschmid, 1812) ??			?	(Na) Rare on heathland, amongst heather litter etc.
Amara lucida (Duftschmid, 1812)	+	+	?	Nb Bournemouth IoW (Fowler, 1888)
Amara lunicollis Schioedte, 1837	+	+	+	Local in open areas including gardens
Amara montivaga Sturm, 1825		+		
Amara nitida Sturm, 1825		+		
Amara ovata (F., 1792)	+	+	+	Widespread in open disturbed areas
Amara plebeja (Gyllenhal, 1810)		+	+	Local in damp clayey areas. es
Amara praetermissa (Sahlberg, 1827)		+	+	Nb Local primarily on heathland, but also on downland
Amara similata (Gyllenhal, 1810)	+	+	+	Widespread in dry open areas with crucifers.
Amara strenua Zimmermann, 1832	*			RDB3 IoW (Fowler, 1888)
Amara tibialis (Paykull, 1798)	+	+	+	Widespread in open habitats including ruderal areas
Curtonotus (Amara) aulica (Panzer, 1796)	+	+	+	Widespread esp.in disturbed areas with abundant composites.
Curtonotus (Amara) convexiuscula (Marsham, 1802)	+	+	+	Local on open disturbed dry sites esp. ruderal sites
Zabrus tenebrioides (Goeze, 1777)	+	+	+	Rare Abbotstone Down 1992 (DIBH)
Harpalus affinis (Schränk, 1781)	+	+	+	Widespread and common.
Harpalus anxius (Duftschmid, 1812)	+	+	+	Rare?
Harpalus attenuatus Stephens, 1828	*	+	?	? [primarily coastal] Ryde, Sandown (Fowler, 1888)
Harpalus cupreus Dejean, 1829	*			Extinct? Last recorded at Sandwon in 1914
Harpalus dimidiatus (Rossi, 1790)	*	+	?	Na Ventnor Bonchurch Bournemouth (Fowler, 1888)
Harpalus griseus		?		
Harpalus latus (L., 1758)		+	+	Widespread on open ground of many kinds.
Harpalus melancholicus Dejean, 1829				
Harpalus neglectus Serville, 1821		*		Bournemouth (Fowler, 1888)
Harpalus pumilus Sturm, 1818 =vernalis (Duftschmid, 1812)				
Harpalus rubripes (Duftschmid, 1812)	*	+	+	Local on dry open soils especially on sandy heaths. Sandown (Fowler, 1888)
Harpalus rufipalpis Sturm, 1818 = rufitarsis (Duftschmid, 1812)	*	+	+	Local though abundant on some sandy heaths.
Harpalus rufipes (Degeer, 1774)	+	+	+	Widespread and common, frequent at MV light traps
Harpalus serripes (Quensel, 1806)	+	*		Nb Portsmouth (Moncreaff)
Harpalus servus (Duftschmid, 1812)		*		Nb Portsmouth (Moncreaff)
Harpalus smaragdinus (Duftschmid, 1812)	+	+	+	Nb Rare on disturbed sandy soils. Woolmer (JSD)
Harpalus tardus (Panzer, 1796)	+	+	+	Local on dry sand and gravelly soils, frequent on heathland

Harpalus tenebrosus Dejean, 1829	*			(Na) IoW WG Blatch
Ophonus (Harpalus) ardosiacus Lutschnik, 1922	+	+	+	Nb Local, increasing? Grassland, ruderal sites, gardens etc, frequent at MV light traps. Alton 2003 (JSD)
Ophonus (Harpalus) azureus (F., 1775)	+	*		Nb Bournemouth IoW (Fowler, 1888)
Ophonus (Harpalus) cordatus (Duft., 1812)	+	+		RDB
Ophonus (Harpalus) parallelus Dejean, 1829	+	*		RDB3 Sandown (Fowler, 1888)
Ophonus (Harpalus) punctatulus (Duftschmid, 1812)		*		Na Bournemouth, Ventnor, Sandown (Fowler, 1888)
Ophonus (Harpalus) puncticeps (Stephens, 1828)	+	+	+	Local in open dry sites, including ruderal areas, also frequent at MV light traps
Ophonus (harpalus) puncticollis (Paykull, 1798)			sf	(RDB3) Roman Silchester (Amsden & Boon)
Ophonus (Harpalus) quadripunctatus Dejean, 1829				
Ophonus (Harpalus) rufibarbis (F., 1792)	+	+	+	Local in a variety of habitats esp on sandy soils. Freshwater 1985 (S.K-J)
Ophonus (Harpalus) rupicola Sturm, 1818	*	*		IoW Bournemouth (Fowler, 1888)
Ophonus (Harpalus) sabulicola (Panzer, 1796)		+		RDB3 [open dry sandy and chalky areas]
Ophonus (Harpalus) schaubergerianus Puel, 1937	+	+		Portsdown, Oxenbourne 1972 (DMA)
Anisodactylus binotatus (F., 1787)	+	+	+	Rare in marshy areas
Anisodactylus nemorivagus (Dufts. 1812)		+		
Anisodactylus poeciloides (Stephens, 1828)	*	*		RDB3 Christchurch Lymington IoW (Fowler, 1888)
Dicheirotrichus gustavi Crotch, 1871	*	+		
Dicheirotrichus obsoletus (Dejean, 1829)	+	+		
Trichocellus placidus (Gyllenhal, 1827)		+	?	Rare? in marshy areas.
Bradycellus distinctus (Dejean, 1829)	+	?		
Bradycellus harpalinus (Serville, 1821)	+	+	+	Local on sandy soils esp on heathland often under heather.
Bradycellus ruficollis (Stephens, 1828)		+	+	Local on sandy soils esp on heathland.
Bradycellus sharpi Joy, 1912	+	+	+	Local in damp shady places.
Bradycellus verbasci (Duftschmid, 1812)	+	+	+	Local on sandy soils. Also frequent at light traps.
Stenolophus mixtus (Herbst., 1784)	+	+	+	Local in wetlands, pond margins in litter and under stones.
Stenolophus skrimshiranus Stephens, 1828	+	+	+	(Nb). Recent arrival? Wetland species in marsh litter. Woolmer Lakeside (JSD)
Stenolophus teutonus (Schränk, 1781)	+	+	+	(Nb) Rare in wetlands esp. heathy pond margins, Milford on sea 1994 (DIBH) Woolmer
Acupalpus brunnipes (Sturm, 1825)		+		Woolston Bournemouth (Fowler, 1888)
Acupalpus consputus (Duftschmid, 1812)	+	+	?	Nb Rare in marshy areas.
Acupalpus dorsalis (F., 1787)		+	+	Local in boggy wetlands
Acupalpus dubius Schilsky, 1888	+	+	+	Local in marsh and wet heath areas.
Acupalpus exiguus Dejean, 1829		*	+	(Nb) Rare in marshes Beaulieu River 1999 (DAL)
Acupalpus flavicollis (Sturm, 1825)	+	+	+	Luccombe Lymington (Fowler, 1888)
Acupalpus meridianus (L., 1761)	+	+	+	Rare? [open areas on clay and sand including cultivated ground]
Licinus depressus (Paykull, 1790)	+	+	*	Winton (Fowler, 1888)
Licinus punctatulus (F., 1792)	=			Blackgang Chine (HSD)
Badister bullatus (Schränk, 1798)	+	+	+	Widespread and common including waste ground and large gardens
Badister dilatatus Chaudoir, 1837		+		Little Wooton 1999 (DAL)
Badister peltatus (Panzer, 1797)	*	*		(Na) IoW (Gorham)
Badister sodalis (Duftschmid, 1812)	+	+	+	Rare in wet woodland.

Badister unipustulatus Bonelli, 1813		*		
Panagaeus bipustulatus (F., 1775)	+	+	?	
Panagaeus cruxmajor (L., 1758)	=			Extinct? Totland (Butler) Newport (Morey)
Chlaenius nigricornis (F., 1787)		+	+	(Nb) Rare wetlands, pond margins. Woolmer 2002 (JSD)
Chlaenius nitidulus (Schrank, 1781)	*			RDB1 Luccombe Chine (G.Lewis)
Chlaenius vestitus (Paykull, 1790)	+	+	+	Local at margins of water in old pits under stones etc. avoiding well vegetated ground.
Oodes helopioides (F., 1792)		+		(Nb) Rare in wetlands. Emer Bog 1994 (DIBH)
Odacantha melanura (L., 1767)		+		(Nb) Rare. Amongst tall pondside vegetation wintering in <i>Typha</i> . <Lower Test 1995 (DIBH)
Lebia chlorocephala (Hoffmannsegg, 1803)		+	+	(Nb) Rare. Grassland with <i>Hypericum</i> .
Lebia cruxminor (L., 1758)		*	*	RDB1 Basingstoke (Fowler, 1888)
Lebia cyanocephala (L., 1758)		*		
Demetrius atricapillus (L., 1758)	+	+	+	Widespread amongst litter in rough grassy areas.
Demetrius imperialis (Germar, 1824)	+	+	+	(Nb) V.local in wetlands amongst tall emergent vegetation.
Demetrius monostigma Samouelle, 1819	+	+	+	(Nb) Little Wooton ponds 1999 (DAL) Greywell fen 1999 (JSD)
Dromius agilis (F., 1787)	+	+	+	Widespread on trees, including conifers. (JSD)
Dromius angustus Brulle, 1834		+	+	Rare on Pines.
Dromius linearis (Olivier, 1795)	+	+	+	Widespread in grass tussocks etc.
Dromius melanocephalus Dejean, 1825	+	+	+	Widespread and common on the ground or in tussocks.
Dromius meridionalis Dejean, 1825	+	+	+	Local. Arboreal on hardwoods and conifers.
Dromius notatus Stephens, 1827		+		Coastal Gilkicker, Browndown 2002 (JSD)
Dromius quadrimaculatus (L., 1758)	+	+	+	Widespread on deciduous trees and pine on dead and moribund boughs and branches, often under bark
Dromius quadrinotatus (Zenker, 1800)	+	+	+	Widespread on deciduous trees on dead and moribund boughs and branches, often under bark
Dromius sigma (Rossi, 1790)		*		Na
Dromius vectensis Rye, 1872	+			RDB3 PJH
Microlestes maurus (Sturm, 1827)	+	+	+	Local on the ground in dry open areas, including open downland.
Microlestes minutulus (Goeze, 1777)	+			MGT 2004
Metabletus foveatus (Fourcroy, 1785)	+	+	+	Widespread in open dry areas on heaths and disturbed sandy areas.
Metabletus obscuroguttatus (Dufts., 1812)		+	+	Local in damp areas.
Metabletus truncatellus (L., 1761)			+	Local in open sparsely vegetated areas
Lionychus quadrillum (Duftschmid, 1812)		*		RDB3 Lymington (Fowler, 1888)
Cymindis axillaris (F., 1794)	*	*		Na Portsmouth, IoW (Fowler, 1888)
Polistichus connexus (Fourcroy, 1785)		*		
Drypta dentata (Rossi, 1790)	+	*		RDB1 Alverstoke, Portsmouth (Fowler, 1888)
Brachinus crepitans (L., 1758)		*		(Nb) Rare on chalky soils, no post 1980 records, possibly extinct?
Bombadier beetle				

Helophoridae	Vc10	Vc11	Vc12	notes
Helophorus aequalis Thomson, 1868	+	+	+	Common in ponds, pools and puddles. A strong flier and rapid coloniser of new and ephemeral pools.
Helophorus alternans Gene, 1836	*	+		
Helophorus arvernensis Mulsant, 1846		+	+	(Nb) Rare. In mud and silt at margins of rivers.
Helophorus brevipalpis Bedel, 1881	+	+	+	Common in ponds and pools. Strong flier often landing on cars remote from water.
Helophorus dorsalis (Marsham, 1802)	*		+	(Nb) Rare in muddy woodland ponds and rut pools.
Helophorus flavipes (F., 1792)	*	+	+	Local. Frequent in acid pools and peat pools on heathland.
Helophorus fulgidicollis Motschulsky, 1860		?		
Helophorus grandis Illiger, 1798	+	+	+	Common in ponds, pools and puddles. A Strong flier
Helophorus granularis (L., 1761)	*	+	+	(Nb) Rare, but under-recorded as winter active in shallow pools in woods, and commons,
Helophorus griseus Herbst, 1793	+	+	+	(Nb) V.local in new ponds with little vegetation
Helophorus laticollis Thomson, 1853		+		
Helophorus longitarsis Wollaston, 1864		+		RDB
Helophorus minutus F., 1775	+	+	+	Common in ponds, pools and puddles. A Strong flier
Helophorus nanus Sturm, 1836			+	(Nb) Rare in marshy pools [and fen areas] Woolmer Pond (JSD)
Helophorus nubilus F., 1777	*	+		[open, often cultivated ground, at roots of plants] Alverstoke and Portsea
Helophorus obscurus Mulsant, 1844		+	+	Widespread in pools and ponds, esp common in small leaf filled puddles in woodland, avoiding very acid water.
Helophorus porculus	*			
Helophorus rufipes (Bosc d'Antic, 1791)	*	+	+	[on dry ground at roots of plants] Alton (JSD) Portsea
Helophorus strigifrons Thomson, 1868		+	+	(Nb) Rare in marshy pools. Broxhead C. (JSD)

Georissidae (Mud-coater beetles)	Vc10	Vc11	Vc12	Notes
Georissus crenulatus (Rossi, 1794)	+		+	(Nb)

Hydrochidae	Vc10	Vc11	Vc12	Notes
Hydrochus angustatus Germar, 1824	*	+	+	(Nb) Local in weedy detritus ponds esp. on heaths
Hydrochus elongatus (Schaller, 1783)		*	+	(RDB3) Rare in weedy detritus ponds Lakeside 1998 (JSD)

Hydrophilidae (Water scavenger beetles)				
Anacaena bipustulata (Marsham, 1802)	+	+	+	(Nb) Local in mud and litter at margins of ponds, lakes, and canals
Anacaena globulus (Paykull, 1798)	+	+	+	Common in ponds and pools, larvae in leaf litter esp. in woods.
Anacaena limbata s. str. (F., 1792)		+	+	Widespread in ponds and pools
Anacaena lutescens (Stephens, 1829)		+	+	Common in standing acid waters.
Paracymus aeneus (Germar)	+			
Paracymus scutellaris (Rosenhauer, 1856)		+	+	(Nb) Seepage fed pools on heathland. Fowler
Berosus affinis Brulle, 1835	+	+	+	(Nb) Local, increasing in new ponds with little vegetation, esp. in sand, gravel and clay pits.
Berosus fulvus Kuwert	+	*		Lymington
Berosus luridus (L., 1761)	+	+	+	(Nb) Rare in marshy pools esp. on heathland.
Berosus signaticollis (Charpentier, 1825)	+	+	+	(Nb) Local increasing in weedy ponds esp. on heaths
Chaetarthria seminulum (Herbst, 1797)	+	+	R+	(Nb) Local in mud and moss in richer bogs and fen areas
Cymbiodyta marginellus (F., 1792)	+	+	+	Local in detritus ponds and marshy lake margins
Enochrus affinis (Thunberg, 1794)		+	+	(Nb) Local in <i>Sphagnum</i> and other mossy litter in acid pools on heaths.
Enochrus coarctatus (Gredler, 1863)	+	+	+	Local in weedy margins of detritus rich ponds.
Enochrus bicolor (Fab., 1792)?		*		Southsea 1868 Alverstoke
Enochrus fuscipennis		+		NF
Enochrus halophilus (Bedel, 1878)	+	+		Lymington Yarmouth FBB
Enochrus nigritus Sharp isotae Hebauer, 1981		+	+	RDB3Rare in weedy mesotrophic and base rich-fen areas and weedy ponds.
Enochrus melanocephalus (Olivier, 1792)		+	+	(Nb) local but increasingly frequent in new silty ponds.
Enochrus ochropterus (Marsham, 1802)		+	+	(Nb) Local in weedy mesotrophic areas of bogs and marshy ponds avoiding very acidic conditions.
Enochrus quadripunctatus s. str.(Herbst, 1797)			+	(Nb) Rare in litter iand <i>Sphagnum</i> Ancells farm (JSD)
Enochrus testaceus (F., 1801)		+	+	Local in detritus ponds
Helochares lividus (Forster, 1771)	+	+	+	Widespread and increasing in new ponds with little vegetation
Helochares punctatus Sharp, 1869		+	+	(Nb) Local but common in peat pools on the heaths, occasionally in mossy margins of richer ponds on the clays.
Hydrophilus piceus (L.)	+			Freshwater 1961 (S.K-J)
Limnoxenus niger (Zschach)	*	*		
Laccobius atratus (Rottenberg, 1874)		+	+	(Nb) V.local in flowing water in bogs and seepages.
Laccobius atratus (Rottenberg, 1874)		+	+	(Nb) V.local in flowing water in bogs and seepages.
Laccobius biguttatus Gerhardt, 1877	*	+	+	Rare in ponds.
Laccobius bipunctatus (F., 1775)		+	+	Frequent in a variety of ponds and weedy flowing water
Laccobius minutus (L., 1758)		+	+	Local and scarce
Laccobius sinuatus Motschulsky, 1849	+	+	+	(Nb) Local in new ponds etc.
Laccobius striatulus (F., 1801)		+	+	Local in silt at margins of ponds and flowing water.
Laccobius ytenensis Sharp 1910	*	+	+	(Nb) V.local in flowing water in bogs and seepages.
Coelostoma orbiculare (F., 1775)		+	+	Local in detritus at margins of ponds and canals
Cercyon analis (Paykull, 1798)	+	+	+	Widespread in dung, compost heaps, and other rotting vegetation
Cercyon atomarius (F., 1775)			+	Widespread in herbivore dung
Cercyon atricapillus (Marsham, 1802)			+	
Cercyon bifenstratus Kuester, 1851			+	
Cercyon convexiusculus Stephens, 1829		+	+	Local in detritus at margins of all kinds of water bodies
Cercyon depressus Stephens, 1829	*	+		Ryde, Ventnor (Fowler) Farlington Marshes 1998 (JSD)

<i>Cercyon haemorrhoidalis</i> (F., 1775)		+	+	Widespread in dung
<i>Cercyon laminatus</i> Sharp, 1873			+	Naturalised, probably widespread in compost heaps etc. comes readily to light. Alton 2003 (JSD)
<i>Cercyon lateralis</i> (Marsham, 1802)		+	+	Widespread in dung, and carrion.
<i>Cercyon littoralis</i> (Gyll., 1808)	+	+		Under Seaweed Farlington Marshes 1998 (JSD)
<i>Cercyon lugubris</i> (Olivier, 1790)			+	Widespread in dung, and carrion.
<i>Cercyon marinus</i> Thomson, 1853		+	+	Local in wet litter, dung, carrion etc. often near water.
<i>Cercyon melanocephalus</i> (L., 1758)		+	+	Widespread in herbivore dung
<i>Cercyon pygmaeus</i> (Illiger, 1801)		+	+	Widespread in herbivore dung
<i>Cercyon quisquilius</i> (L., 1761)		+	+	Widespread in dung
<i>Cercyon sternalis</i> Sharp, 1918		+	+	(Nb) V.local in marsh litter at margins of ponds.
<i>Cercyon terminatus</i> (Marsham, 1802)			+	(Nb) Rare? in dung and compost heaps.
<i>Cercyon tristis</i> (Illiger, 1801)		+	+	(Nb) Local in marsh litter around ponds avoiding acid heath pools
<i>Cercyon unipunctatus</i> (L., 1758)		+	+	Widespread in herbivore dung esp cow, and occasionally in carrion.
<i>Cercyon ustulatus</i> (Preyssler, 1790)		+	+	(Nb) Local in detritus at margins of staning water. Also in sewage filter beds
<i>Megasternum concinnum</i> (Marsham, 1802)		+	+	Widespread and common in all kinds of decaying vegetation, dung, and fungi.
<i>Cryptopleurum crenatum</i> (Kugelann, 1794)			+	(N) Rare [in dung, and other decaying organic matter]
<i>Cryptopleurum minutum</i> (F., 1775)		+	+	Widespread in dung and compost.
<i>Cryptopleurum subtile</i> Sharp, 1884			+	Rare in dung and rotting fungi
<i>Sphaeridium marginatum</i> Fab.		+	+	Local in herbivore dung esp. that of cattle
<i>Sphaeridium scarabaeoides</i> (L., 1758)	+	+	+	Local in herbivore dung esp. that of cattle
<i>Sphaeridium bipustulatum</i> F., 1781	+	+	+	Local in herbivore dung esp. that of cattle
<i>Sphaeridium lunatum</i> F., 1792	+	+	+	Local in herbivore dung esp. that of cattle

Histeridae (Hister beetles)	Vc10	Vc11	Vc12	
Plegaderus dissectus Erichson, 1839		+	+	(Nb) Local under bark esp. beech.
Plegaderus vulneratus (Panzer, 1796)			+	Naturalised. Rare, under pine bark Woolmer??
Abraeus globosus (Hoffmann, 1803)		+	+	Local under bark and fungoid wood esp. beech.
Abraeus granulum Erichson, 1839		+		(Na)
Aeletes atomarius (Aube, 1842)		+		RDB3Rare. In frass of wood borings of [Lucanids] and longhorns. Pre 1970 record
Acritus homoeopathicus Wollaston, 1857		+		
Acritus nigricornis (Hoffmann, 1803)		+	+	Local in rotting vegetation, haystacks etc.
Halicritus punctum (Aube, 1842)		*		(RDBK) Bembridge Ellis
Saprinus aeneus (F., 1775)		+	+	Widespread in dung and carrion
Saprinus immundus (Gyllenhal, 1827)		*		(Nb) Hayling Is. 1924 (JLH)
Saprinus semistriatus (Scriba, 1790)		+	+	Local on dung and carrion
Saprinus virescens (Paykull, 1798)	+		+	(RDBK) [parasitic on <i>Phaedon</i> esp. on water cress <i>Nasturtium</i> . increasing?] Pamber HSD
Hypocaccus maritimus (Illiger, 1807) ssp. maritimus (Stephens, 1830)	*			Sandown (GCC)
Gnathoncus buyssoni Auzat, 1917		+		
Gnathoncus nannetensis (Marseul, 1862)				
Gnathoncus nanus (Scriba, 1790)		+		Frame Wood 1998 (JAO)
Myrmetes piceus (Paykull, 1809)		+	+	(Nb) Local in nests of <i>Formica rufa</i> on heaths, woods and conifer plantations. Harewood Parkhurst
Dendrophilus punctatus (Herbst, 1792)		+	+	Local in hollow trees in old nests etc. Also with ant <i>L.fuliginosus</i> .
Dendrophilus pygmaeus (L., 1758)		+	+	Local in nests of <i>Formica rufa</i> .
Kissister minimus (Aube, 1850)	+	+	+	Local at roots of plants in dry grassland. Often under <i>Rumex acetosella</i> .
Carcinops pumilio (Erichson, 1834)		+	+	Local Synanthropic in gardens etc. around compost heaps. Often enters hot kitchens !
Paromalus flavicornis (Herbst, 1792)		+	+	Widespread under bark and in decaying timber esp. beech
Paromalus parallelepipedus (Herbst, 1792)		+		Brockenhurst O.E.Janson
Onthophilus punctatus (Müller, 1776)	*			
Onthophilus striatus (Forster, 1771)		+	R+	Local on dung esp. horse.
Hister bissexstriatus Fabricius		+		JAO
Hister quadrimaculatus L., 1758		+		IoW
Epiurus comptus Erichson, 1834		+		
Margarinotus brunneus (Fab., 1775) = impressus		*		Titchfield Haven 1969 (DA)
Margarinotus marginatus (Er., 1834)				
Margarinotus merdarius Hoffmann, 1803		+	+	Rare? in rotting vegetation and bird's nests.
M (Paralister neglectus (Germar, 1813)				? [in carrion, moss]
Paralister obscurus (Kugelann, 1792)		+		D.Hance
Paralister purpurascens (Herbst, 1792)		+	+	Rare on ground esp. on sandy soils
Hister striola Sahlberg, 1819		+	+	Widespread in herbivore dung and rotting fungi, carrion .
Paralister ventralis carbonarius (Hoffmann, 1803)		+	R+	Widespread in dung, rotting vegetation and carrion
Atholus duodecimstriatus (Schrank, 1781)		+	R+	Widespread on dung
Peranus bimaculatus (L., 1758)		+	+	Local, in dung and compost heaps.

Hetaerius ferrugineus (Olivier, 1789)

Bythinus ?				
Bryaxis bulbifer (Reichenbach, 1816)		+	+	Local in wetlands including carr areas.
Trichonyx sulcicollis (Reichenbach, 1816)		*		NF JJW
Amauronyx maerkeli (Aube, 1844)	*			Freshwater IoW
Tychus niger (Paykull, 1800)		+	+	Local in compost heaps, grass tussocks etc.
Rybaxis longicornis (Leach, 1817)		+	+	Local in wetlands
Brachygluta fossulata (Reichenbach, 1816)		+	+	Local in litter and moss in wetlands including bogs and marshes

Brachygluta helferi (Schmidt-Gobel	+	+		Titchfield Haven 1978 (DMA)
Brachygluta simplex (Waterhouse		+		
Brachygluta waterhousei (Rye, 1869)	*	*		Lymington (Bouskell
Reichenbachia juncoarum (Leach, 1817)		+	+	Local in litter and moss in wetlands including bogs and marshes
Trissemus impressus (Panzer, 1803)		+	+	Widespread in marsh litter and moss by water.
Pselaphaulax dresdensis (Herbst, 1792)		+	*	Alice Holt JAP Denny 1971 (DMA)
Pselaphus heisei Herbst, 1792		+	+	Local in moss in wetlands. Bartley Heath (JSD)
Claviger longicornis Mueller, 1818	*	*		(RDB1) in nests of <i>Lasius flavus</i> .
Claviger testaceus Preysslner, 1790	+	+	+	(N) Rare in nests of <i>Lasius flavus</i> . . Tennyson Dwon 1973 (DMA) Blackgang HSD Oxenbourne 1973 (DMA)
Phloeocharinae				
Phloeocharis subtilissima Mannerheim, 1830	+	+	+	Widespread under bark and in bracket fungi esp. <i>Daedaleopsis</i> on <i>Salix</i> ..
Tachyporinae				
Sepedophilus bipunctatus (Graven., 1802)			+	(Nb) Local in damp rotten wood including pine. Ash Lock (JSD)
Sepedophilus immaculatus (Stephens, 1832)	+	+	+	Local in decaying vegetation and litter occasionally in dead wood. Frame Wood 1998 (JAO)
Sepedophilus littoreus (L., 1758)	+	+	+	Local in dead and decaying wood. Blackwater valley. Swanpond Copse 2002 (JSD)
Sepedophilus lusitanicus Hammond, 1973			+	Rare in woodlands [esp. in pine] Woolmer (JSD)
Sepedophilus marshami (Stephens, 1832)	+	+	+	Widespread in litter in many habitats.
Sepedophilus nigripennis (Stephens, 1832)	+	+	+	Local in litter etc in a wide variety of habitats.
Sepedophilus testaceus (Fabricius)		+		(N) Frame Wood 1998 (JAO)
Tachyporus atriceps Stephens, 1832				
Tachyporus chrysomelinus (L., 1758)		+	+	Widespread and often abundant in many habitats including gardens
Tachyporus dispar (Paykull, 1789)		+	+	Widespread but confused with above species until recently.
Tachyporus formosus Matthews, 1838	+	+		
Tachyporus hypnorum (F., 1775)	+	+	+	Widespread and abundant in most habitats
Tachyporus nitidulus (F., 1781)		+	+	Widespread and abundant in most habitats
Tachyporus obtusus (L., 1767)		+	+	Widespread in most habitats especially damp areas.
Tachyporus pallidus Sharp, 1871			+	Local in litter in wetlands, river flood refuse etc.
Tachyporus pusillus Gravenhorst, 1806			+	Widespread in moss and litter
Tachyporus solutus Erichson, 1839		+	+	Local in litter and moss in a variety of open habitats.
Tachyporus tersus Erichson, 1839		+	+	? [moss and litter in wetlands]
Tachyporus transversalis Gravenhorst, 1806		+	+	Rare in boggy wetlands. Woolmer Forest 2003 (JSD)
Lamprinodes saginatus (Gravenhorst, 1806)		+	+	Rare myrmecophilous. Firestone Copse IoW (DMA) Oxenbourne Down 1973 (DMA) Micheldever NR 1984 (DA)
Tachinus bipustulatus (F., 1792)	*	*		(RDB1) Ryde (HSD) NF
Tachinus corticinus Gravenhorst, 1802				?
Tachinus elongatus Gyllenhal, 1810		*		New Forest 1887 (Gorham)
Tachinus humeralis Gravenhorst, 1802		+	+	Local in dung and rotting fungi etc.
Tachinus laticollis Gravenhorst, 1802		+	+	? [in rotting grass, fungi, dung,]
Tachinus marginellus (F., 1781)		+	+	Local in decaying grass, dung and carrion]
Tachinus pallipes (Grav., 1806)	*	*		Niton (Mitford) NF (HSD)
Tachinus proximus Kraatz, 1855				
Tachinus scapularis Stephens, 1832		*		(RDB1)
Tachinus signatus Gravenhorst, 1802		+	R+	Common species in most habitats esp. grasslands in dung and rotting vegetation and fungi.

Tachinus subterraneus (L., 1758)		+	+	Widespread in leaf litter and other debris, also in fungi.
Cilea siphoides (L., 1767)		+	+	Local, associated with fermenting compost, and dung heaps.

Tachyporinae (Cont.)	Vc10	Vc11	Vc12	Notes
Mycetoporus angularis Mulsant & Rey, 1853	*	+	+	? in litter and moss in woods? Sandown (J.Taylor))
Mycetoporus clavicornis (Stephens, 1832)	*	+	+	? local in leaf litter etc. Parkhurst Luccombe (HSD) NF (HSD)
Mycetoporus lepidus (Gravenhorst, 1802)		+	+	Widespread in litter in woods and grassland.
Mycetoporus longulus Mannerheim, 1830		+	+	
Mycetoporus nigricollis Stephens, 1835		+	+	Rare? in moss and litter in woods.
Mycetoporus rufescens (Stephens, 1832)				
Ischnosoma (Mycetoporus) splendidum (Grav., 1806)		+	+	Local.
Bryoporus cernuus (Gravenhorst, 1806)		*		(RDBK)
Lordithon exoletus (Erichson, 1839)		+	+	Widespread in rotting fungi
Lordithon lunulatus (L., 1761)		+	+	Widespread in rotting fungi
Lordithon thoracicus (F., 1777)		+	+	Widespread in rotting fungi
Lordithon trinotatus (Erichson, 1839)		+	+	Widespread in rotting fungi
Bolitobius analis (F., 1787)		*	+	Local ? Titchfield Haven (DMA)
Bolitobius cingulatus (Mannerheim, 1830)	*	+	+	Calbourne IoW(Pool) Frame Wood 1998 (JAO) Titchfield Haven (DMA)
Bolitobius formosus (Gravenhorst, 1806)				
Parabolitobius inclinans (Gravenhorst, 1806)		*		Rare in leaf litter in woods etc. NF (HSD)
Habrocerinae Habrocerus capillaricornis (Grav., 1806)	+	+	+	Widespread in leaf litter and moss in woodlands
Aleocharinae				
Gymnusa brevicollis (Paykull, 1800)		+	+	Rare in <i>Sphagnum</i> and other wetland mosses beside bog pools and weedy ponds.
Deinopsis erosa (Stephens, 1832)		+	+	Local in litter beside streams ditche and ponds. Tolerant of heavy shading
Myllaena brevicornis (Matthews, 1838)		+	+	Local in wetlands Titchfield Haven (DMA)
Myllaena dubia (Gravenhorst, 1806)		+	+	Local in litter in wetlands
Myllaena elongata (Matthews, 1838)	+	+	+	(N) Local on exposed sediments beside streams and rivers. Shade tolerant Empshott etc
Myllaena gracilicornis Fairmaire & Brisout, 1	*			Extinct Ventnor 1882 the only British example
Myllaena gracilis (Matthews, 1838)			+	Rare in wetlands.
Myllaena infuscata Kraatz, 1853	*	+	+	Local in litter in wetlands IoW (HSD Titchfield Haven (DMA)
Myllaena intermedia Erichson, 1837		+	+	Local in litter in wetlands
Myllaena kraatzi Sharp, 1871		+		(N) Rare in <i>Sphagnum</i> mires.

Myllaena minuta (Gravenhorst, 1806)				Local in wetlands in marsh litter and moss
Hygropora cunctans (Erichson, 1837)		*		(RDBK)
Oxypoda alternans (Gravenhorst, 1802)		+	+	Widespread on rotting fungi in wooded areas.
Oxypoda annularis Mannerheim, 1830		+		Frame Wood 1998 (JAO)
Oxypoda elongatula Aube, 1850		+	+	Widespread in litter in marshes and wet woodland areas.
Oxypoda ferruginea Erichson, 1839				
Oxypoda formiceticola Maerkel, 1841		+	+	Local in wood ant <i>Formica rufa</i> nests
Oxypoda haemorrhoea (Mannerheim, 1830)				Rare in nests of wood ants <i>Formica rufa</i>
Oxypoda lentula Erichson, 1837				Rare in wet moss.
Oxypoda lividipennis Mannerheim, 1830		+		Local in carrion and decaying litter. Frame Wood 1998 (JAO)
Oxypoda longipes Mulsant & Rey, 1861		+		Frame Wood 1998 (JAO)
Oxypoda opaca (Gravenhorst, 1802)		+		Frame Wood 1998 (JAO)
Oxypoda recondita Kraatz, 1856		+		N Mallard Wood 1070 (DMA)
Oxypoda sericea Heer, 1839			*	Alice Holt (JAP)
Oxypoda spectabilis Maerkel, 1844		+		Brockenhurst 1971-4 (DMA)
Oxypoda vittata Maerkel, 1842			+	Rare with the ant <i>Lasius fuliginosus</i> .
Ocyusa maura (Erichson, 1837)		+	+	Local in wetlands, adults often winter in <i>Typha</i> stems
Ocyusa (Deubelia) picina (Aube, 1850)		+	+	Local in wetlands
Calodera aethiops (Gravenhorst, 1802)		+	+	Rare in wetlands. Titchfield Haven (DMA) Greywell Fen 1998 (JSD) Shirley (Fowler, 1888)
Calodera riparia ER., 1837	+	+		Yarmouth 1974 (DMA) Bramble Hill 1999 (DAL)
Calodera rufescens Kraatz, 1856				(RDBK)
Parocyusa (Chiloporata) longitarsis (Erichson, 1837)		+		Local in wetlands
Stichoglossa semirufa (Erichson, 1839)				(RDBI) Brockenhurst 1969 DAM det AAA
Ischnoglossa prolixa (Gravenhorst, 1802)		*		Rare, NF (Fowler, 1888)
Ischnoglossa turcica Wunderle, 1992				Rare, in rotting wood and under bark.
Dexiogyia corticina (Erichson, 1837)		*		(N) Rare under bark in old woodlands. New Forest, Bournemouth (Fowler, 1888)
Thiasophila angulata (Erichson, 1837)				Rare with wood ant <i>Formica rufa</i> and <i>Lasius fuliginosus</i> etc.
Crataraea suturalis (Mannerheim, 1830)				Local in decaying vegetation esp. grass heaps.
Haploglossa gentilis (Maerkel, 1844)				Rare? in nests of <i>Lasius fuliginosus</i> .
Haploglossa pulla (Gyllenhal, 1827)	*	*	*	Rare? in ant and bird's nests. Titchfield Haven (DMA) The Holt (JAP) NF, IoW Sandown, Ventnor (Fowler, 1888)
Mniusa incrassata (Mulsant & Rey, 1852)		*		In VCH
Ityocara rubens (Erichson, 1837)			*	(RDBI) Yateley 1941
Ocalea latipennis Sharp, 1870???				Rare at margins of water.
Ocalea picata (Stephens, 1832)		+	+	Local in moss and litter in damp areas. woodland. Frame Wood 1998 (JAO)
Ocalea rivularis Miller, 1851			+	Rare. Sandy river banks.
Ilyobates benneti Donisthorpe	*	+	+	
Ilyobates nigricollis (Paykull, 1800)		+		(RDBK) Parkhurst (Fowler, 1888) Frame Wood 1998 (JAO)
Ilyobates propinquus (Aube, 1850)		*		

Amarochara bonnairei (Fauvel, 1865)		*		(RDBI) NF
Amarochara forticornis (Bois & Lacord, 1835)	*	+		(RDBK) Titchfield Haven 1971 (DMA)
Phloeopora bernhaueri Lohse, 1984			*	Alice Holt (JAP)
Phloeopora testacea (Mannerheim, 1830)		+	+	Local under bark of hardwoods.
Dinarda dentata (Gravenhorst, 1806)		+	+	(N) V.local, but present in most nests of the Slave-Making Ant <i>Formica sanguinea</i> on heaths and commons.
Dinarda hagensi Wasmann, 1889	*			Parkhurst 1909(HSD)
Dinarda maerkeli Kiesenwetter, 1843		+	+	Rare. In nests of Wood Ants <i>Formica rufa</i> . Parkhurst (HSD)

Meotica apicalis Benick, 1954			+	
Meotica exilis (Gravenhorst, 1806)		+	+	? [eurytopic in litter and moss] Frame Wood 1998 (JAO)
Meotica exillima Sharp, 1915		+	+	V.local in <i>Sphagnum</i> in mires and mossy carr. Highland Water 1999 (DAL) Bartley Heath Shortheath (JSD)
Ischnopoda (Tachyusa) atra (Gravenhorst, 1806)		+		[bare margins of water] Titchfield Haven (DMA)
Ischnopoda (T.) coarctata Erichson, 1837		+	+	(N) Local on bare ground near water.
Ischnopoda (T.) constricta Erichson, 1837		+	+	Local on bare sand and silt at margins of rivers and streams. Frequent along R.Wey (JSD)
Ischnopoda (T.) leucopus (Marsham, 1802)		+	+	Local on bare sand and silt at margins of rivers. Frequent along R.Wey (JSD)
Ischnopoda (T.) scitula Erichson, 1837	+			(RDBK) [on bare sand and silt at margins of rivers] Luccombe 1971-3 (DMA)
Ischnopoda (T.) umbratica Erichson, 1837		+	+	Local on bare sand and silt at margins of rivers. R.Wey, 1999 (JSD)
Gnypeta carbonaria (Mannerheim, 1830)		+	+	Rare on bare ground at margins of water Titchfield Haven (DMA)
Gnypeta ripicola (Kiesenwetter, 1844)	+		+	(N) V.local on exposed sediments by flowing water. R.Wey etc. Swanponds NR 2002 (JSD)
Gnypeta rubrior Tottenham, 1939		+	+	V.local on exposed sediments by flowing water. R.Wey etc.
Dasygnypeta (Gnypeta) velata (Erichson, 1837)			+	(N) Recent immigrant, now locally common at margins of ponds etc.Kings Pond Alton 1999 (JSD)
Dacryla fallax (Kraatz, 1855)		+		Titchfield Haven 1971(DMA)
Dacryla pruinosa (Kraatz, 1856)		+	+	Titchfield haven 1971 Hool Lake 1983 Bouldnor 1973 ((DMA))
Callicerus rigidicornis (Erichson, 1839)		+	+	Rare in damp woods.
Callicerus obscurus Gravenhorst, 1802		+	+	Rare? in damp woods often near streams. Titchfield Haven (DMA)
Schistoglossa curtippennis (Sharp, 1869)		+		
Schistoglossa gemina (Er)		+		Titchfield Haven (DMA) The Moors BW 1975 (DMA)
Boreophilia eremita (Rye, 1866)			+	Rare. [mainly an upland moorland species, see <i>Stenus geniculatus</i>]

Hydrosnecta thinobioides (Kraatz, 1854)		*		New Forest (Fowler, 1888)
Aloconota gregaria (Erichson, 1839)		+	+	Widespread, eurytopic in litter and moss
Aloconota coulsoni (Last, 1952)		+		(RDBK)
Aloconota insecta (Thomson, 1856)			+	Streamsides
Aloconota longicollis (Mulsant & Rey, 1852)		+		N as languida Luccombe (GCC)
Aloconota planifrons Waterhouse, 1864	+	+		(RDBK) Hayling Island (Fowler, 1888)
Aloconota sulcifrons (Stephens, 1832)	+			Swanponds NR 2002 (JSD)
Pycnota paradoxa (Mulsant & Rey, 1861)				Woolton Hill (HSD)
Brachyusa concolor (Erichson, 1839)		+		Hook Lake 1977 fareham 1971 (DMA)
Amischa analis (Gravenhorst, 1802)		+	+	Widespread and often abundant in litter and moss including compost heaps
Amischa decipiens (Sharp, 1869)		+	+	Widespread in litter and moss including compost heaps
Amischa nigrofusca (Stephens, 1829) =soror (Kraatz)		*		Titchfield Haven (DMA)
Nehemitropia lividipennis (Mannerheim, 1830) sordida (Marsham, 1802)		+	+	Local in grass heaps Titchfield Haven 1977 (DMA)
Notothecta confusa (Markel, 1844)		+		(N) ? hollow trees and with the ant <i>Lasius fuliginosus</i> .
Notothecta flavipes (Gravenhorst, 1806)		+	+	Local in nests of wood ants <i>Formica rufa</i> .
Lyprocorrhe anceps (Erichson, 1837)			+	Local in nests of wood ants <i>Formica rufa</i> .
Alaobia (Atheta) hybrida (Sharp, 1869)			+	(RDBK) Rotherfield Park 1997 (JSD)
Alaobia (Atheta) gagatina (Baudi, 1848)		+	+	?
Alaobia (Atheta) pallidicornis (Thomson, 1856)		+	+	? woodland? Winton (Fowler, 1888)
Alaobia (Atheta) sodalis (Erichson, 1837)		+	+	Local in litter in woods etc. Titchfield Haven (DMA) Frame Wood 1998 (JAO)
Alaobia (Atheta) scapularis (Sahlberg, 1831)		+	*	Alic eholt (JAP) Botley Wood 1973 Cherque 1971 (DMA) det AAA
Alaobia (Atheta) trinotata (Kraatz, 1856)		+		Frame Wood 1998 (JAO)
Brundinia marina (Mulsant & Rey, 1853)				
Brundinia meridionalis (Mulsant & Rey, 1853)		*		Lymington, Portsmouth (Fowler)
Ousipalia caesula (Erichson, 1839)		*		Hayling Island (Fowler, 1888)
Geostiba circellaris (Gravenhorst, 1806)		+	+	Widespread in litter and debris in a variety of habitats including gardens.
Dinaraea aequata (Erichson, 1837)		+	+	Widespread on dead wood and under bark esp. on moribund attached boughs of hardwoods esp. oak
Dinaraea angustula (Gyllenhal, 1810)	*	+	+	Rare under bark, and at tree roots as at IoW (Fowler, 1888)
Dinaraea linearis (Gravenhorst, 1802)		+		[under bark] NF (Fowler, 1888)
Dadobia immersa (Erichson, 1837)			*	Alice Holt (JAP)
Plataraea brunnea (F., 1798)		+	+	Widespread in litter esp. in woodlands
Liogluta microptera Thomson, G.C., 1867 = oblongiuscula (Sharp, 1869)		*		Titchfield haven (DMA)
Philhygra (Atheta) elongatula (Gravenhorst, 1802)		+	+	Local in wetlands in litter and moss. Titchfield Haven (DMA)
Philhygra (Atheta) hygrobia (Thomson, 1856)		+		Warwick Slade SU2706 1999 (RGB)
Philhygra (Atheta) luridipennis (Mannerheim, 1830)		+	+	Rare [exposed sediments near water]
Philhygra (Atheta) malleus Joy, 1913		+	+	Local in litter in marshes and river banks. R.Wey
Philhygra (Atheta) nannion Joy, 1931		+		(RDBK)
Philhygra (Atheta) scotica (Elliman, 1909)		+		N
Philhygra (Atheta) terminalis (Gravenhorst,		+		(RDBK)

1806)				
Anopleta (Atheta) corvina (Thomson, 1856)		*		NF (Fowler, 1888)
Dilacra (Atheta) luteipes (Erichson, 1837)		*		Winchester (Fowler, 1888)
Parameotica (Atheta) difficilis (Brisout, 1860)		+		Titchfield haven (DMA)
Enaladroma hepatica (Er., 1839)			+	Pamber (HSD)

Adota immigrans (Easton, 1971)		?		
Anopleta (Atheta) puberula (Sharp, 1869)		*		(RDBK)
Bessobia (Atheta) occulta (Erichson, 1837)		*		Titchfield Hven (DMA)
Microdota (Atheta) atomaria (Kraatz, 1856)		*		NF 1936
Microdota (Atheta) glabricula (Thomson, 1867)		+		NF (Fowler) as atomaria Kraatz 1999 (RGB)
Ceritaxa (Atheta) testaceipes (Heer, 1839)	*	*		(RDBK)
Mocyta (Atheta) amplicollis (Mulsant & Rey, 1873)		+	+	?
Mocyta (Atheta) fungi (Gravenhorst, 1806)		+	+	Very common in most habitats.
Mocyta (Atheta) orbata (Erichson, 1837)	*	*		Ryde Titchfield Haven (DMA)
Mocyta (Atheta) orphana (Er., 1837)		*		(N) (Fowler, 1888)
Datomicra canescens (Sharp, 1869)		*	*	NF Winchester (Fowler, 1888)
Datomicra nigra (Kraatz, 1856)		+	+	Widespread in litter, grassheaps etc.
Datomicra sordidula (Erichson, 1837)		*		NF (Fowler, 1888)
Atheta aquatica (Thomson, 1852)		*		Titchfield Haven (DMA)
Atheta autumnalis (Erichson, 1839)		*		NF (Fowler, 1888) ? Brit cat??
Atheta basicornis (Mulsant & Rey, 1852)		*		Titchfield Haven (DMA)
Atheta castanoptera (Mannerheim, 1830)		+	+	Local in fungi.
Atheta fungicola (Thomson, 1852)		+	+	Common
Atheta graminicola (Gravenhorst, 1806)		+	+	Widespread in marshland in litter and tussocks. Titchfield Haven (DMA)
Atheta hypnorum (Kiesenwetter, 1850)		+	+	Local in litter esp. in woods.
Atheta intermedia (Thomson, 1852)		*	*	Winchester (Fowler, 1888) Titchfield Haven (DMA)
Atheta triangulum (Kraatz, 1856)		+	+	? [in damp litter] Titchfield Haven (DMA)
Atheta xanthopus (Thomson, 1856)	*	+	+	? in litter IoW (Fowler, 1888)
Atheta coriaria (Kraatz, 1856)	*	*		Sandown HSD Winchester (Fowler, 1888)
Atheta crassicornis (F., 1792)		+	+	Local in litter. Frame Wood 1998 (JAO)
Atheta (type III) divisa (Maerkel, 1844)		*		Winchester (Fowler, 1888)
Atheta liturata (Stephens, 1832)		+	+	Local on fungi on wood.
Atheta marina (Mulsant & Rey, 1853)		*		Lymington (Fowler)
Atheta nigricornis (Thomson, 1852)		+	+	Local, in old bird nests and squirrel dreys. Usually present when looked for!!
Atheta oblita (Erichson, 1839)		+	+	Titchfield Haven (DMA)
Atheta pertyi (Heer, 1839)		+	+	Rare in rotting fungi.
Atheta ravilla (Erichson, 1839)		*		NF (Fowler, 1888)
Mycetota (Atheta) laticollis (Stephens, 1832)		+		Titchfield Haven (DMA)
Dimetrota atramentaria (Gyllenhal, 1810)		+	+	Common in dung etc Titchfield Haven (DMA)
Dimetrota cauta (Erichson, 1837)		+	+	
Dimetrota ischnocera Thomson, 1870		*		Titchfield Haven (DMA) 1960s
Dimetrota marcida (Erichson, 1837)		?		
Dimetrota nigripes (Thomson, 1856)		+		Titchfield Haven 1974 (DMA)
Dimetrota setigera (Sharp, 1869)		*		NF (Fowler, 1888)
Chaetida longicornis (Gravenhorst, 1802)		+	+	Titchfield Haven (DMA)
Thinobaena (Atheta) vestita (Grav., 1806)	+	+		Coastal Freshwater 1922 (JLH)
Coprothassa melanaria (Mannerheim, 1830)		*		NF (Fowler, 1888)

Acrotona aterrima (Gravenhorst, 1802)		+		
Acrotona muscorum (Brisout, 1860)		+		
Acrotona parens (Mulsant & Rey, 1852)		+		NF 1999 (RGB)
Acrotona parvula (Mannerheim, 1830)		*		NF (Fowler, 1888)
Acrotona pygmaea (Gravenhorst, 1802)			*	Alic Holt (JAP)
Alevonota aurantiaca Fauvel, 1895		+		(RDBI) Portsdown 1973 (DMA)
Alevonota egregia (Rye, 1876)				(RDBI)
Alevonota gracilentia (Erichson, 1839)				(RDBK)
Alevonota rufotestacea (Kraatz, 1856)		+		Botley Wood 1976 Titchfield haven 1969 (DMA)
Halobrecta princeps (Sharp, 1869)	+	*		(RDBI) Ventnor Hayling, Southsea (Fowler, 1888)
Alianta incana (Erichson, 1837)		+	+	Widespread in wetlands and pond margins in litter, winters in <i>Typha</i> stems.
Pachnida nigella (Erichson, 1837)		+	+	Rare in wetland in marsh litter. Titchfield Haven (DMA)
Trichiusa immigrata Lohse, 1984			+	Recent immigrant increasing,
Thamiaraea hospita (Maerkel, 1844)		+		New Forest (Fowler, 1888) Frame Wood 1998 (JAO)
Aleochara obscurella Grav., 1806 = algarum Fauvel, 1862	*	*		IoW (Fowler, 1888) Freshwater (Colwill Bay0 1922 (JLH)
Aleochara bipustulata (L., 1761)		+	+	Local in dung, carrion and rotting vegetable matter
Aleochara binotata Kraatz, 1857				Boscombe 1948 CET
Aleochara brevipennis Gravenhorst, 1806		+	+	(Nb) Rare in wetland areas. Taken in interception trap at
Aleochara cuniculorum Kraatz, 1858	*	*		Freshwater (HSD) Hayling Island (Fowler, 1888)
Aleochara curtula (Goeze, 1777)		+	+	Widespread in carrion and in rotting fungi.
Aleochara fumata Gravenhorst, 1802			*	(N) in VCH
Aleochara grisea Kraatz, 1856	*	+		Ventnor, Southsea (Fowler, 1888) Hayling I. 1923 (JLH)
Aleochara intricata Mannerheim, 1830			*	Titchfield haven (DMA)
Aleochara lanuginosa Gravenhorst, 1802		+	+	Widespread in herbivore dung esp. cow, and carrion and on fungi.
Aleochara lata Gravenhorst, 1802			*	Deadbrook farm 1941 (EAD)
Aleochara moerens Gyllenhal, 1827				NF (HSD)
Aleochara obscurella Gravenhorst	*	*		IoW (Fowler, 1888)
Aleochara punctatella Motschulsky, 1858		?		In VCH
Aleochara ruficornis Gravenhorst, 1802		+		Brockenhurst 1971 (DMA)
Aleochara tristis Gravenhorst, 1806			*	In VCH
Aleochara sparsa Heer, 1839		+		Frame Wood 1998 (JAO)
Aleochara verna Say, 1839			+	(RDBK) Local. Recently separated species. 5 post 1980 sites
Aleochara villosa mannerhem, 1830			*	(RDBK)
Tinotus morion (Gravenhorst, 1802)		+	+	Local in dung and carrion
Drusilla canaliculata (F., 1787)		+	+	Common in open habitats usually near to nests of <i>Myrmica</i>
Zyras cognatus (Maerkel, 1842)		+		(RDBK) Mallard Wood 1970 (DMA)
Zyras collaris (Paykull, 1789)		+	+	
Zyras funestus (Gravenhorst, 1806)		+		
Zyras haworthi Stephens, 1835		+	*	(Na) Lower Test 1985 (DMA) Wes tWood Netley 1998 (RJH) Alice Holt (Fowler, 1888)
Zyras humeralis (Gravenhorst, 1802)		+	+	Local, overlooked as it can be frequent in pitfall samples.
Zyras laticollis (Maerkel, 1842)	*	+	+	Rare with the ant <i>Lasius fuliginosus</i> in runs and nests. Luccombe Chine (Fowler, 1888)
Zyras limbatus (Paykull, 1789)	*	+	+	Rare with the ant <i>Lasius fuliginosus</i> in runs and nests. Sandown, Ventnor (Fowler, 1888)

Zyras lugens (Gravenhorst, 1802)		+	+	(N) Rare with the ant <i>Lasius fuliginosus</i> in runs and nests. Mallard Wood 1970 (DMA)
Zyras plicatus (Erichson, 1837)		*		Extinct. With the ant <i>Tapinoma erraticum</i> . Bournemouth Dist 1865 possibly in Dorset VC and now in modern Dorset.
Lomechusa emarginata (Paykull, 1789)			+	(N) Castle Bottom 2001 (JSD)
Lomechusa paradoxa Gravenhorst, 1806	*	*		(RDBI) Ventnor Steephill 1967 (DMA) Bournemouth (E.Saunders)
Cordalai obscura ?				
Falagrioma (Falagria) thoracica Stephens, 1832				Blackgang Luccombe Sandown in WWF
Borboropora kraatzi Fuss, 1862			+	(RDBK) see Williams 1976
Falagria sulcatula (Gravenhorst, 1806)				
Myrmecopora brevipes Butler, 1909	+	+		(N) Steephill 1984 (DMA) de tAAA
Myrmecopora sulcata (Kiesenwetter, 1850)		+		
Myrmecopora uvida (Erichson, 1840)	*	?		Freshwater 1922 (JLH)
Autalia impressa (Olivier, 1795)		+	+	Widespread and frequent on rotting fungi.
Autalia longicornis Scheerpeltz, 1947		+	+	Local on rotting fungi
Autalia rivularis (Gravenhorst, 1802)		+	+	Local in decaying grass etc.
Encephalus complicans Stephens, 1832		+		Titchfield Haven (DMA)
Gyrophaena affinis Mannerheim, 1830		+	+	Local on bracket fungi on trees.
Gyrophaena angustata (Stephens, 1832)		+	+	(N) Rare on bracket fungi esp. <i>Polyporus squamosus</i>
Gyrophaena bihamata Thomson, 1867		+	+	Local on bracket fungi esp. <i>Polyporus squamosus</i> .
Gyrophaena congrua Erichson, 1837		+		(N) Rare on bracket fungi Botley Wood NF (DMA)
Gyrophaena fasciata (Marsham, 1802)		+	+	Local on bracket fungi
Gyrophaena gentilis Erichson, 1839		+	+	Local in bracket fungi. Titchfield Haven (DMA)
Gyrophaena hansenii Strand, 1946		+	+	Local on fungi esp. Sulphur tuft and other yellow gill fungi.

Gyrophæna joiyi Wendeler, 1924		+		Roydon Woods 1985 (DMA)
Gyrophæna joyioides Wuesthoff, 1937		+		(N) (on fungi in woods including <i>Polyporus squamosus</i>)
Gyrophæna minima Erichson, 1837		+	+	Widespread in yellow gill fungi esp. Sulphur tuft in woodlands
Gyrophæna munsteri Strand, 1935		+	+	(RDBK) NF 1999 (RGB) Beech Ackender Wood
Gyrophæna poweri Crotch, 1866		*		(RDBK)
Gyrophæna pulchella Heer, 1839		+	+	(RDBK) Roydon Woods West Walk 1985 Michekldever NR 1985 (DAM)
Gyrophæna strictula Erichson, 1839		+	+	(N) Rare on Maze-gill <i>Daedalea quercina</i> on oak & Sweet Chestnut. Rowhill LNR 1998 (JSD)
Agaricochara (G.) latissima (Stephens, 1832)		+	+	Local but widespread in fungi.
Homalota plana (Gyllenhal, 1810)		+	+	
Anomognathus cuspidatus (Erichson, 1839)		+	+	Local under fungoid bark
Silusa rubiginosa Erichson, 1837			*	Winchester (Fowler, 1888)
Leptusa fumida Kraatz, 1839		+	+	Widespread on dead and moribund hardwoods esp. oak boughs.
Leptusa norvegica Strand, 1941				
Leptusa pulchella (Mannerheim, 1830)		+	+	Rare under bark of trees.
Leptusa ruficollis (Erichson, 1839)		+	+	Widespread on dead and moribund hardwoods
Euryusa optabilis Heer, 1839		+		(RDBI)
Heterota plumbea (Waterhouse, 1858)	+			Whitecliff 1984 (DMA)
Bolitochara bella Maerkel, 1844		+	+	Widespread in fungi in woodlands
Bolitochara lucida (Gravenhorst, 1802)		+	+	Local on fleshy fungi on dead wood.
Bolitochara obliqua Erichson, 1837		+	+	Local under bark and in soft bracket fungi
Placusa pumilio (Gravenhorst, 1802)		+	+	Local under oak bark.
Placusa tachyporoides (Waltl, 1838)		+	+	(N) Rare at fresh sap of hardwoods.
Phytosus balticus Kraatz, 1859		+		
Phytosus nigriventris (Chevrolat, 1843)?		?		
Phytosus spinifer Curtis, 1838		+		
Arena tabida (Kiesenwetter, 1850)	*			(RDBK)
Pseudopasilia testacea (Brisout, 1863)	+			(RDBK) Ventnor (Fowler)
Diglotta mersa (Haliday, 1837)		+		
Hygronoma dimidiata (Gravenhorst, 1806)		+	+	Local amongst tall emergent vegetation in wetlands, +25 post 1980 records
Cypha discoidea (Erichson, 1839)			+	(Nb) Rare in dry litter 'suspended' off the ground in reed beds. Coleford Lake 1999 (JSD)
Cypha hanseni (Palm, 1949)			+	Local in woodlands. Bealeswood Common v.1997 (JSD)
Cypah imitator (Luze, 1902)	*			(RDBK)
Cypha longicornis (Paykull, 1800)		+	+	Widespread in litter, grass heaps etc. in wild and man made habitats.
Cypha nitida (Palm, 1935)				(RDBK)
Olobus (Oligota) apicata Erichson, 1837	*		+	Na I bracket fungi etc. Ryde (HSD)
Oligota inflata (Mannerheim, 1830)		+	+	Widespread in grass and compost heaps.
Oligota parva Kraatz, 1862		+	+	Local in compost heaps etc.
Manda mandibularis (Gyllenhal, 1827)		*		(RDBI)
Planeustomus flavicollis Fauvel, 1871		*		(RDBI) 1912 NF DS
Planeustomus palpalis (Erichson, 1839)		+		(RDBK) Botley Wood 1976 (DMA)
Scaphidiinae (shining fungus beetles)				

Scaphidium quadrimaculatum Olivier, 1790		+	+	Local in dead wood of many kinds, avery distinctive species
Scaphisoma agaricinum (L., 1758)		+	+	Local in dead wood of many kinds. Often found in between stacked slices of sawn up trunks
Scaphisoma boleti (Panzer, 1793)		+	+	(Nb) Rare, in dead wood of many kinds. Luccombe IoW THB
Piestinae Siagonum quadricorne Kirby, 1815		+	+	Local under bark.
Oxytelinae				
Deleaster dichrous (Gravenhorst, 1802)		+	+	(Nb) V.local on banks of streams and rivers. Comes to MV light Winchester R & Dhoare 1990
Syntomium aeneum (Muller, P.W.J., 1821)		*		NF (Fowler)
Coprophilus striatulus (F., 1792)		+	+	Local in rotting vegetation including compost heaps.
Bledius bicornis (Germar, 1822)	*	+		Na Luccombe Sandown (GCC) Browndown 1976 fareham 2000 (RJ Dickson det DMA
Bledius crassicolis Boisduval & Lacordaire,	+			RDBI Totland 1973 (DMA)
Bledius femoralis (Gyll., 1827)		+		Na
Bledius fergussoni Joy, 1912		+		
Bledius fuscipes Rye	?>	?		
Bledius gallicus (Gravenhorst, 1806)		+	+	Local on sandy margins of R.Wey, pond margins
Bledius limicola Tottenham, 1940 germanicus Wagner	+	+		
Bledius opacus (Block, 1799)	*	*		Hayling I IoW (Fowler, 1888)
Bledius pallipes (Gravenhorst, 1806)		+	+	Local on sandy margins of rivers . Frequent beside the R.Wey.
Bledius praetermissus Williams	+	+		
Bledius spectabilis Kraatz		?		
Bledius subniger Schneider	+	+		
Bledius subterraneus Erichson, 1839		+	+	Local on sandy margins of rivers esp.R.Wey
Bledius tricornis (Herbst)	+	*		Yarmouth (HSD) Lymington (Fowler, 1888)
Bledius unicornis (Germar, 1825)		+		Lymington (Fowler, 1888)
Ochtheophilus aureus (Fauvel, 1871)	*	+	+	Rare on stoney margins of streams, shingle bars etc. Luccombe GCC
Teropalpus unicolor (Sharp, 1900)	?	+		
Carpelimus bilineatus Stephens, 1834		+	+	Widespread on ground beside standing and flowing water
Carpelimus corticinus (Gravenhorst, 1806)		+	+	Local on ground beside standing and flowing water
Carpelimus elongatulus (Erichson, 1839)		+	+	Local in litter in marshy margins of water.
Carpelimus halophilus (Kiesenwetter, 1844)		+		Shanklin Sandown (Ford) Browndown 1975 (DMA)
Carpelimus pusillus (Gravenhorst, 1802)		+	+	Local esp. near water, but also taken in gardens.
Carpelimus rivularis (Motschulsky, 1860)		+	+	Local on silt and sand beside running water.
Carpelimus zealandicus (Sharp, 1900)			+	
Thinobius brevipennis Kiesenwetter, 1850	+	*		Totland 1988 (DMA)
Thinodromus arcuatus (Stephens, 1834)		+	+	Local on exposed sediments by streams, shingle bars etc.
Platystethus alutaceus Thomson, 1861	+	+	+	Local in damp silt and sand at margins of still and flowing water.
Platystethus arenarius (Fourcroy, 1785)		+	+	Widespread in dung and rotting vegetation
Platystethus capito Heer, 1839	+	+	+	Rare, on sparsely vegetated open chalk grassland. Sandowns (GCC)
Platystethus cornutus (Gravenhorst, 1802)	+	+	R+	Widespread. Burrowing in sediment near water, esp. in sand and clay pits.
Platystethus degener Mulsant & Rey, 1878			+	Local in organically enriched mud by water

Platystethus nitens (Sahlberg, 1832)	+	+	+	Local on damp sediment or litter on margins of ponds and rivers.
Platystethus nodifrons Mannerheim, 1830		+		S Cpast (PMH)
Anotylus clypeonitens (Pandell, 1867)	*			Luccombe
Anotylus complanatus (Erichson, 1839)		+	+	Local in rotting vegetation
Anotylus insecatus (Grav., 1806)	*	*		IoW Portsmouth (Fowler,)
Anotylus inustus (Gravenhorst, 1806)		+	+	Widespread in herbivore dung and rotting plant debris.
Anotylus maritimus Thomson, 1861	+	+		
Anotylus nitidulus (Gravenhorst, 1802)		+		? Rare? much declined in carrion dung etc.
Anotylus rugosus (F., 1775)		+	+	Common on ground in most habitats, and a strong flyer
Anotylus saulcyi (Pandelle, 1867)	*			Widley (Cameron)
Anotylus sculpturatus (Gravenhorst, 1806)		+	+	Widespread in dung and rotting vegetation
Anotylus tetracarينات (Block, 1799)		+	+	Common on dung and rotting vegetation. Extremely common in flight esp. on warm summer evenings: cyclists beware!
Oxytelus laqueatus (Marsham, 1802)		+	+	Local in herbivore dung
Oxytelus piceus (L., 1767)				((RDBK))
Oxytelus sculptus Gravenhorst, 1806		+	+	? In woods [also near water]
Oxyporinae Oxyporus rufus (L., 1758)		+	+	Rare and declining in rotting fungi.
Steninae (Camphor beetles)				
Stenus aceris Stephens, 1833		+	+	Local in litter in grasslands, not a wetland species.
Stenus argus Gravenhorst, 1806		+		NF
Stenus asphaltinus Erichson, 1840				RDBI
Stenus ater Mannerheim, 1830		+		(Nb!) [a dryland species of open habitats] Oxenbourne 1983 (DMA)
Stenus bifoveolatus Gyllenhal, 1827			+	Local in wetlands in moss and marsh litter
Stenus bimaculatus Gyllenhal, 1810		+	+	Local in shaded marshy ground amongst emergent vegetation
Stenus binotatus Ljungh, 1804	*		+	Local in wetlands amongst tall emergent vegetation
Stenus boops Ljungh, 1810		+	+	Local on exposed sediments by ponds and flowing water.
Stenus brevipennis Thomson, 1851		+		Rare, in mires and bogs.
Stenus brunnipes Stephens, 1833	+	+	+	Common in dry grasslands areas
Stenus butrintensis Smetana, 1959	+	+	+	(N) Local in tall emergent waterside vegetation. Winters in <i>Typha</i> stems.
Stenus canaliculatus Gyllenhal, 1827	*	+	+	Local. Margins of still and running water, often on exposed sediments.
Stenus canescens Rosenhauer, 1856	+	+		(Nb) [Marshy margins of ponds and streams]
Stenus carbonarius Gyllenhal, 1827		+		[rich wetlands]
Stenus cicindeloides (Schaller, 1783)		+	+	Common in richly vegetated wetlands, river margins etc. A strong flier.
Stenus circularis Gravenhorst, 1802		+		(Nb) Rare, most often found in flood refuse.
Stenus clavicornis (Scopoli, 1763)	+	+	+	Widespread in grassy habitats. A dry land species, and a strong flier
Stenus comma LeConte, 1863	+	+	+	Local on exposed sediments by water. Rapid coloniser of clay/sand pits.
Stenus crassus Stephens, 1833			+	Rare [wetlands and dry areas?] Greywell
Stenus europaeus Puthz, 1966		+		(Nb) [fens and marshes] Denny Lodge 1999 (DAL)
Stenus flavipes Stephens, 1833		+	+	Widespread but local in marshy wetlands including bogs
Stenus formicetorum Mannerheim, 1843			+	Rare in moss and litter in damp areas.
Stenus fornicatus Stephens, 1833	+	+	+	(Nb) Local, amongst richly vegetated marshy areas beside old ponds etc.
Stenus fulvicornis Stephens, 1833		+	+	Local in wetlands in marsh litter

Stenus fuscicornis Erichson, 1840		+	+	(Nb) Rare in dry sparsely vegetated places including gardens. [Chalky screes in old pits]
Stenus fuscipes Gravenhorst, 1802			+	Rare in dry places.
Stenus geniculatus Gravenhorst, 1806			+	Rare. In heather litter on open heaths. Woolmer Forest 2000 (JSD)
Stenus guttula Mueller, 1821	+	+	+	Local on exposed sediments by rivers and streams also in sand and clay pits.
Stenus impressus Germar, 1824	?	+	+	Widespread in woodlands in leaf litter
Stenus incrassatus Erichson, 1839		+		Local on margins of ponds etc.
Stenus juno (Paykull, 1789)	+	+	+	Widespread in wetlands on emergent vegetation
Stenus kiesenwetteri Rosenhauer, 1856		+	+	RDB2 Rare. In quaking bogs with <i>Carex rostrata</i> . Shorth Heath C. 1999 (JSD)
Stenus latifrons Erichson, 1839	*	+	+	Local in marshy wetlands and pond-margins
Stenus longitarsis Thomson, 1857		+		Ocknell Plain, Warwick Slade 1999 (DAL)
Stenus lustrator Erichson, 1839	*	*		Parkhurst (Fowler, 1888)
Stenus melanarius Stephens, 1833		+	+	Rare. In <i>Sphagnum</i> in bogs and mires.
Stenus melanopus (Marsham, 1802)		+		Local [in damp places such as manure heaps]
Stenus nanus Stephens, 1833		+	+	Local in moss and litter in open grassland, a dry land species.
Stenus nitens Stephens, 1833		+		[in bogs and mires]
Stenus nitidiusculus Stephens, 1833	*	+	+	Local in wetlands esp. in moss and marsh litter.
Stenus niveus Fauvel, 1865		+		(Nb) Rare in marshy wetland and bogs,
Stenus ochropus Kiesenwetter, 1858		+	+	Rare in moss on open grassland on the chalk. Oxenbourne Down 1973 Portsdown (DMA)
Stenus opticus Gravenhorst, 1806		+		Na
Stenus ossium Stephens, 1833		+	+	Widespread in moss and litter in grasslands
Stenus pallipes Gravenhorst, 1802		+	+	Rare in wetlands, bogs.
Stenus pallitarsis Stephens, 1833		+	+	Local on tall emergent waterside vegetation. Winters in <i>Typha</i> .
Stenus palustris Erichson, 1839		+		(Nb) ? [fens] Browndown N 1986 (DMA)
Stenus picipennis Erichson, 1840	*	+	+	Local in springfed wetlands, watercress beds etc.
Stenus picipes Stephens, 1830	*	+	+	Widespread in dry areas.
Stenus providus Erichson, 1839	*	+	+	Local in wetlands
Stenus pubescens Stephens, 1833	*	+	+	Local in wetlands
Stenus pusillus Stephens, 1833		+	+	Local in moss and litter mostly in wet areas.
Stenus similis (Herbst, 1784)	+	+	+	Widespread in rough grassland etc. but not a wetland species.
Stenus solutus Erichson, 1840		+	+	Widespread in wetlands
Stenus subaeneus Erichson, 1840		+	+	Local, usually in man made habitats, such as wet dung heaps.
Stenus subdepressus Mulsant & Rey, 1861		*		(RDBI) Rare in litter under heather.
Stenus tarsalis Ljungh, 1810		+	+	Local in wetlands, frequent in flood debris
Dianous coerulescens (Gyllenhal, 1810)	*		+	Rare mossy stream margins at Ventnor Hammer Bottom 2000 (JSD)
Euasthetinae				
Euaesthetus bipunctatus (Ljungh, 1804)				? [fens]
Euaesthetus laeviusculus Mannerheim, 1844				? [mires]
Euaesthetus ruficapillus Boisduval & Lacord		+	+	Local in moss esp. <i>Sphagnum</i> in marshes and bogs. Shade tolerant.

Paederinae				
<i>Paederus caligatus</i> Erichson, 1840		+		
<i>Paederus fuscipes</i> Curtis, 1826	*	+		(Nb) wetlands, marshes, bogs and pond margins Luccombe (Fowler, 1888)
<i>Paederus littoralis</i> Gravenhorst, 1802	+	+	+	Widespread in wetlands, also in open grassland esp. on chalk downs.
<i>Paederus riparius</i> (L., 1758)		+	+	Local in marshy wetlands including bogs
Scopaeus minutus Erichson, 1840		+		NF (JJW) Pignal 3103 1997 (RGB)
Scopaeus sulcicollis (Stephens, 1833)	*	*		
<i>Astenus lyonessius</i> (Joy, 1908)	+	+	+	Local in rough grassy areas esp amongst ruderal vegetation Sandown (HSD)
<i>Astenus immaculatus</i> Stephens, 1833	*			N) Luccombe (Fowler, 1888)
Astenus procerus (Gravenhorst, 1806)		+		((RDBK))
<i>Astenus pulchellus</i> (Heer, 1839)		+	+	Rare? in decaying vegetation.
<i>Rugilus erichsoni</i> (Fauvel, 1867)		+	+	Local? In litter and decaying grass in damp grassland. Eashing Valley near R.Wey 1999 (JSD)
<i>Rugilus fragilis</i> (Gravenhorst, 1806)	*	+	+	(N) Rare. Sandown YTaylor Lymington 1969 (DMA) Lakeside Park 1999 (JSD)
<i>Rugilus geniculatus</i> (Erichson, 1839)				RDBI
<i>Rugilus orbiculatus</i> (Paykull, 1789)		+	+	Widespread in open areas esp.with ruderal vegetation
<i>Rugilus rufipes</i> Germar, 1835		s-f +	+	Local in many habitats at ground level
<i>Rugilus similis</i> (Erichson, 1839)		*	+	Shirley Southampton (Fowler, 1888) Harewood Forest 1974 (DMA)
<i>Medon apicalis</i> (Kraatz, 1857)		+		NF 1999 (RGB)
<i>Medon brunneus</i> (Erichson, 1839)	*			Parkhurst (Fowler, 1888)
<i>Medon castaneus</i> (Gravenhorst, 1802)	*	*		Sandown (J.Taylor) Neww Forest (Fowler, 1888)
<i>Medon dilutus</i> (Erichson, 1839)		+		NF
<i>Medon fuscus</i> (Mannerheim, 1830)				
<i>Medon piceus</i> (Kraatz, 1858)		*		RDBI Fareham 1968 (DMA)
<i>Medon pocoferus</i> (Peyron, 1857)	+	*		RDBI Steephill Cove 1972 (DMA) Portsmouth (Fowler, 1888)
<i>Medon ripicola</i> (Kraatz, 1854)	+			Bembridge 1972 (DMA)
<i>Sunius bicolor</i> (Olivier, 1795)	*			Sandown (HSD)
<i>Sunius melanocephalus</i> (F., 1792)			+	(N) [litter in open habitats]
<i>Sunius propinquus</i> (Brisout, 1867)		+	+	Local in grassland
<i>Pseudomedon obsoleta</i> (Nordmann, 1837)			*	Alice Holt
<i>Lithocharis nigriceps</i> Kraatz, 1859			+	Local Synanthropic in grass heaps esp. in gardens. An introduced Asian spp. First added to British list in 1962 by AAA
<i>Lithocharis ochracea</i> (Gravenhorst, 1802)		+	+	Widespread in compost and grass heaps
<i>Hypomedon debilicornis</i> (Wollaston)			+	Recent immigrant, increasing in dung and compost heaps. Beech 2000 (JSD)
<i>Lathrobium angustatum</i> Bois. & Lacord.,	+			Luccombe 1983 (DMA)
<i>Lathrobium brunnipes</i> (F., 1792)		+	R+	Local on ground in damp litter and debris in woods and marshy areas.
<i>Lathrobium elongatum</i> (L., 1767)		+	+	Rare in wetlands.
<i>Lathrobium fulvipenne</i> (Gravenhorst, 1806)			+	Rare in woods and grassland esp. near water.
<i>Lathrobium impressum</i> Heer, 1841		+		[in marshes and margins of fresh water] Titchfield Haven 1974 (DMA)
<i>Lathrobium multipunctum</i> Grav., 1802		+	+	Local in moss by flowing water also in manure heaps etc Oxenbourne Down 1972 (DMA)
<i>Lathrobium pallidum</i> von Nordmann, 1837	*			((RDBK)) IoW (Fowler, 1888)
<i>Lathrobium quadratum</i> (Paykull, 1789)		+	+	Rare in wetlands. Boggy pond margin Titchfield Haven 1974 (DMA)
<i>Lathrobium terminatum</i> Gravenhorst, 1802		+	+	Local in moss and litter in bogs and marshy areas.
<i>L.volgense</i> Hochhuth, 1851= <i>geminum</i> Kraatz		+	+	Local in marshes and margins of fresh water

Achenium depressum (Gravenhorst, 1802)	*	+	+	Local in litter in marshes and pond margins esp. on floodplains IoW Southsea (Fowler, 1888)
Ochthephilum fracticorne (Paykull, 1800)		+	+	Local in wet moss esp. <i>Sphagnum</i> in bogs and marshes.
Neobisnius procerulus (Gravenhorst, 1806)				((RDBK))
Neobisnius villosulus (Stephens, 1833)	*		?	Steramside silt etc. Luccombe IoW ((GCC))
Erichsonius cinerascens (Gravenhorst, 1802)		+	+	Local in marsh litter and moss in wetlands including <i>Sphagnum</i> bogs
Erichsonius signaticornis (Mulsant & Rey, 185)	*			(Nb) [exposed sediments by flowing water] Luccombe (Fowler, 1888)
Erichsonius ytenensis (Sharp, 1913)				RDBI 1933 NF
Philonthus addendus Sharp, 1867		+	+	Local in woodlands
Philonthus albipes (Gravenhorst, 1802)			+	Local in dung compost and grass heaps as at
Philonthus atratus (Grav., 1802)				Na
Philonthus cognatus Stephens, 1832		+	+	Frequent in a many habitats esp. grassland and woods
Philonthus concinnus (Gravenhorst, 1802)	+	+	+	? [in grass heaps] IoW (GCC)
Philonthus corruscus (Gravenhorst, 1802)	*		*	RDBI Vc12 Sandown (J.Taylor)
Philonthus cruentatus (Gmelin in L., 1790)		+	+	Local in moss and litter in woods ?
Philonthus decorus (Gravenhorst, 1802)		+	+	Widespread in moss and litter esp. in woodland including conifer plantations
Philonthus discoideus (Gravenhorst, 1802)			+	Local in grass and compost heaps.
Philonthus ebeninus (Gravenhorst, 1802)	*			(N) ? [wetlands] Sandown taylor
Philonthus fumarius (Gravenhorst, 1806)	*	+		(Nb) [wetlands] Sandown (Fowler, 1888) Titchfield Haven 1977 Brownich 1967 Cherque (DMA)
Philonthus intermedius (Lacordaire, 1835)		+	+	Local in dung and rotting vegetation
Philonthus laminatus (Creutzer, 1799)		+	R+	Widepread in dung and rotting vegetation
Philonthus marginatus (Stroem, 1768)		+	+	Widespread in dung and carrion
Philonthus micans (Gravenhorst, 1802)				[marshes]
Philonthus micantoides Benick & Lohse, 1956			+	Rare in wetlands.
Philonthus nigrita (Gravenhorst, 1806)		+	+	Local in <i>Sphagnum</i> in bogs and wet heath areas.
Philonthus nitidicollis (Boisduval & Lacordaire, 1835)		+		(Nb) Gilkicker 2002 (JSD)
Philonthus parvicornis (Grav., 1802) agilis(Grav, 1806)		+	+	Local in dung
Philonthus politus (L., 1758)		+	+	Widespread in rotting vegetation including compost heaps
Philonthus pullus von Nordmann, 1837		*		RDBI Portsea (Fowler, 1888)
Philonthus quisquiliarius (Gyllenhal, 1810)		+	+	Local in wetlands and pond margins in marsh litter.
Philonthus rectangulus Sharp, 1874			+	Naturalised, widespread in manure and compost heaps.
Philonthus rubripennis Stephens, 1832				?
Philonthus rufipes (Stephens, 1832) immundus(Gy)		+		Lymington (HSD) Titchfield Haven 1974 (DMA)
Philonthus sanguinolentus (Gravenhorst, 1802)	*	+	+	Local in dung and rotting grass cuttings IoW (Fowler, 1888)
Philonthus spinipes Sharp, 1874			+	Naturalised, recent immigrant. In dung heaps. First recorded at
Philonthus splendens (F., 1792)		+	+	Widespread in herbivore dung
Philonthus umbratilis (Gravenhorst, 1802)				? [marshes]

Philonthus varians (Paykull, 1789)		+	+	Widespread and frequent in dung etc. strong flyer esp. on warm summer evenings
Philonthus varius (Gyllenhal, 1810)		+	+	Widespread and frequent
Philonthus ventralis (Gravenhorst, 1802)				? [in dung and decaying vegetable matter]
Gabronthus thermarum (Aube, 1850)		+	+	Widespread in compost and dung heaps
Bisnius (Philonthus) cephalotes (Gravenhorst, 1802)		+	+	Widespread in compost heaps, and other rotting plant debris.
Bisnius (Philonthus) fimetarius (Gravenhorst, 1802)		+	+	Widespread in moss and litter esp. in woods
Bisnius (Philonthus) puella von Nordmann, 1837		*		[dung and rotting vegetation] New Forest (Fowler, 1888)
Bisnius (Philonthus) sordidus (Gravenhorst, 1802)		+	+	Local in rotting vegetation, including compost heaps.
Bisnius (Philonthus) subuliformis (Grav., 1802)		+	+	Rare ?
Gabrius bishopi Sharp, 1910		*		Titchfield Haven (DA) Christchurch (DS) 1912
Gabrius exiguus (von Nordmann, 1837)		*		NF
Gabrius keysianus Sharp, 1910	+	+		Brown loaf 1999 (DAL)
Gabrius nigrutilus (Gravenhorst, 1802)	+	+	+	Rare in open sandy areas near water. Swanspond Copse 2002 (JSD)
Gabrius pennatus Sharp, 1910		+	+	Local in litter and moss near water
Gabrius piliger Mulsant & Rey, 1876		+	+	? [litter and carrion] esp. on downs? Ryde (HSD)
Gabrius splendidulus (Gravenhorst, 1802)		+	+	Widespread in dead wood and under bark in woodland countywide
Gabrius subnigrutilus (Reitter, 1909)		+	+	Local in litter in marshes and weedy pond margins
Gabrius trossulus (von Nordmann, 1837)		+	+	Rare, in flood litter in marshy areas.
Gabrius velox Sharp, 1910		+		Lymington DS) NF 1999 (DAL)
Cafius cicatricosus (Erichson, 1840)	+	+		RDB1 Ryde (Ford)
Cafius fucicola Curtis, 1830	*	+		Ventnor (Fowler, 1888) Freshwater 1922 (JLH)
Cafius sericeus (Holme, 1837)	*	+		
Cafius xantholoma (Gravenhorst, 1806)	*	+		Ventnor (Fowler, 1888) Freshwater 1922 (JLH)
Dinothenarus (Platydracus) pubescens (Degeer, 1774)		*		NF (HSD)
Ontholestes murinus (L., 1758)		+	+	Widespread around mammal dung esp. cow and horse.

Ontholestes tessellatus (Fourcroy, 1758)		+	+	Local on dung and carrion
Emus hirtus (L., 1758) Pride of Kent				RDB1
Platydracus fulvipes (Scopoli, 1763)			*	Pamber (HSD)
Platydracus latebricola (Gravenhorst, 1806)		+	+	(Nb) Rare. Open ground with <i>Myrmica</i> ants esp. on heaths
Platydracus stercorarius (Olivier, 1795)	+	+	+	Widespread and frequent in most habitats incl. gardens
Staphylinus caesareus Cederhjelm, 1798		+		(RDBIn)
Staphylinus dimidiaticornis Gemminger, 1851	+	+	+	V.local in grasslands, heaths and parks.
Staphylinus erythropterus L., 1758		+	+	Local in grasslands.
Ocypus aeneocephalus (Degeer, 1774)		+	+	Local in open areas esp. on sandy soils, possibly associated with rabbit burrows. Primarily a winter species.
Ocypus brunnipes (F., 1781)		+	+	Local on ground in a variety of open grassy habitats
Ocypus fortunatorum Wollaston, 1871		+		(Nb) Butser 1974 Portsdown 1974 (DMA)
Ocypus fuscatus (Gravenhorst, 1802)		+		(Nb) ? In Mole hills Titchfield Haven 1986 (DMA)
Ocypus olens (Mueller, 1764) Devil's Coach Horse.		+	R+	Widespread under logs and stones etc. in most habitats including gardens
Tasgius (Ocypus) ater (Gravenhorst, 1802)	+	+	+	Local in disturbed habitats including gardens. Appears to have become much more frequent inland over past century or so.
Tasgius (Ocypus) globulifer (Fourcroy, 1785)		+	+	Local ground dwelling in a variety of habitats.
Tasgius (Ocypus) melanarius (Heer, 1839)		+	+	Rare?
Tasgius morsitans (Rossi, 1790) compressus (Marsh.)	+	+	+	Local on ground in a variety of habitats esp. on sandy heaths, but also in ruderal disturbed areas in suburbia.
Tasgius (Ocypus) pedator (Gravenhorst, 1802)				Sandown Freshater (HSD)
Tasgius (Ocypus) winkleri (Bernhauer, 1906)		+	+	local on ground in a variety of habitats including ruderal disturbed areas in suburbia.
Creophilus maxillosus (L., 1758)		+	+	Local in carrion.
Heterothops binotatus (Gravenhorst, 1802)	+	+		
Heterothops dissimilis (Grav., 1802)				
Heterothops minutus Wollaston			+	Local? in compost heaps
Heterothops niger Kraatz, 1868		+	+	Local, under-recorded?, in mole nests
Velleius dilatatus (F., 1787)		+		RDB1
Quedius aetolicus Kraatz			+	(Na) Rare Harewood Forest 1975 (DA)
Quedius boops (Gravenhorst, 1802)		+	+	Rare?
Quedius brevicornis (Thomson, 1860)		+	+	(Nb) Rare in hollow trees etc in birds nests. Micheldever NR (DA)
Quedius brevis Erichson, 1840	*	+	+	Local in wood ant <i>Formica rufa</i> nests. Parkhurst (Fowler, 1888)
Quedius cinctus (Paykull, 1790)		+	+	Widespread in grass heaps, leaf litter etc.
Quedius cruentus (Olivier, 1795)		+	+	Widespread in grass heaps, also under bark.
Quedius curtipennis Bernhauer, 1908		+	+	Local in wet areas
Quedius fulgidus (Fab., 1792)		+		New Forest 1999 in Honey Buzzard nest
Quedius fuliginosus (Gravenhorst, 1802)		+	+	Local in damp litter
Quedius fumatus (Stephens, 1833)		+	+	Local in woods and carr areas
Quedius hispanicus Bernhaeur	+	+		
Quedius humeralis Stephens, 1832		+	+	
Quedius invreae Gridelli, 1924		+	+	(Nb) Rare. In subterranean nests of mammals. Rotherfield Park 1997 (JSD)
Quedius lateralis (Gravenhorst, 1802)		+	+	Widespread in rotting fungi and carrion in woods.
Quedius levicollis (Brülle, 1832) = tristis (Grav. 1802)		+	+	Widespread on ground in open habitats including farmland

Quedius longicornis Kraatz, 1857	*	+		Sandown J.Taylor Brockenhurst 1970 (DMA)
Quedius maurorufus (Gravenhorst, 1806)		+	+	Local. In flooded moss esp. <i>Sphagnum</i> in bogs and fens, and marshy pond margins.
Quedius maurus (Sahlberg, 1830)		+	+	Local, saproxylic in hollow trees etc. Frame Wood 1998 (JAO)
Quedius mesomelinus (Marsham, 1802)		+	+	Widespread in carrion and compost and grass heaps
Quedius microps Gravenhorst			+	Micheldever 1985 (DA)
Quedius molochinus (Gravenhorst, 1806)		+	+	Local in damp grassland Frame Wood 1998 (JAO)
Quedius nemoralis Baudi, 1848		+	+	Rare under bark and in litter in woods
Quedius nigriceps Kraatz, 1857		+	+	Rare in litter. Frame Wood 1998 (JAO)
Quedius persimilis Muls & Rey, 1876 =aridulus Jansson		+	+	Local on ground in open areas esp. on sandy soils.
Quedius picipes (Mannerheim, 1830)		+	+	Widespread on ground in a variety of habitats
Quedius plancus Erichson, 1840		+		(Na) Brockenhurst 1985 (DMA) NF 1999 (DAL)
Quedius puncticollis (Thomson, 1867)		+		(Nb) [moles nests] Titchfield Haven 1969 (DMA)
Quedius schatzmayri Gridelli, 1922		+	+	Local on ground in a variety of habitats
Quedius scintillans (Gravenhorst, 1806)		*		Titchfield haven 1968 (DMA)
Quedius scitus (Gravenhorst, 1806)		+		Nb
Quedius semiobscurus (Marsham, 1802)		+	+	Local on ground in open habitats esp. on sandy soils?
Quedius truncicola Fairm & Lab	*	+		Freshwater (HSD)
Quedius xanthopus Erichson, 1839		+		Nb In dead wood etc Mark Ash JSD
Acylophorus glaberrimus (Herbst, 1784)		+		RDB1 Mires and marl pits in the New Forest Crockford (JSD) etc etc
Othius laeviusculus Stephens, 1833		+	+	Local in many habitats at ground level.
Othius punctulatus (Goeze, 1777)		+	+	Widespread in litter and moss in woodlands. Frame Wood 1998 (JAO)
O.subuliformis Stephens, 1833 = myrmecophilus Kies		+	+	Local in many habitats at ground level. Frame Wood 1998 (JAO)
Atrecus affinis (Paykull, 1789)		+	+	Widespread in dead wood and under bark in woodlands
Leptacinus batychrus (Gyllenhal, 1827)		+	+	Local in grass and compost heaps
Leptacinus formicetorum Maerkel, 1841		+	+	Local, but often abundant in the nests of the Wood Ant <i>Formica rufa</i> .

Leptacinus pusillus (Stephens, 1833)		s-f +	+	Local in grass and compost heaps
Phacophallus parumpunctatus (Gyllenhal, 1827)		+	R+	Local in grass and compost heaps.
P.tricolor (Kraatz, 1859) =pallidipennis (Motsch., 1858)		+		?
Gauropterus fulgidus (F., 1787)		+	+	Local. In dung and compost heaps.
Nudobius lentus (Gravenhorst, 1806)		+	+	Local. Under bark of Pines and firs. First recorded in 1949 at Friday St. (AEG)
Gyrohypnus angustatus Stephens, 1833		+	+	Local in many habitats at ground level
Gyrohypnus atratus (Heer, 1839)		+	+	(Nb) Rare in nests of the Wood Ant <i>Formica rufa</i> Lords Wood Soton (HSD) Harewood Forest 1989 (JAO)
Gyrohypnus fracticornis (Mueller, 1776)		+	R+	Local in dung and rotting vegetation
Gyrohypnus liebei Scheerpeltz, 1926 =punctulatus (Payk.		+	+	Frame Wood 1998 (JAO)
Megalinus (Xantholinus) glabratus (Grav., 1802)		+	+	Widespread in dung heaps
Xantholinus elegans (Olivier, 1795) =jarrigei Coiffait	+	+	+	Local in open habitats including ruderal areas.
Xantholinus gallicus Coiffait, 1956		+	+	Local in woods and open heathland on sandy soils. Frame Wood 1998 (JAO)
Xantholinus linearis (Olivier, 1795)		s-f +	R+	Common in many habitats at ground level
Xantholinus longiventris Heer, 1839		+	+	Common in many habitats at ground level

Lucanidae (Stag beetles)	Vc10	Vc11	Vc12	notes
Lucanus cervus (L., 1758) Stag beetle		+	+	(Nb) Local Petersfield area etc
Dorcus parallelipedus (L., 1758) Lesser stag	+	+	+	Widespread in hardwoods and occasionally in chipboard!
Sinodendron cylindricum (L., 1758)		+	+	Widespread in hardwoods esp. ash

Trogidae	Vc10	Vc11	Vc12	notes
Trox sabulosus (L., 1758)		*	*	Harewood Forest Botley Wood 1965 DMA
Trox scaber (L., 1767)		+	R+	Local in hollow trees in old bird nests, and also in compost heaps (AH). Chale Chine (HSD)

Bolboceratidae

Odonteus armiger (Scopoli, 1772)		+		(Na) Rare subterranean, comes to light. Portsdown 1970 DMA
----------------------------------	--	---	--	--

Geotrupidae (Dor Beetles)	Vc10	Vc11	Vc12	notes
<i>Typhaeus typhoeus</i> (L., 1758) Minotaur Beetle		+	+	Locally frequent on sandy heaths gathering dung esp.rabbit.
<i>Anoplotrupes stercorosus</i> (Scriba, 1791)?				
<i>Geotrupes mutator</i> (Marsham, 1802)		+	+	(Nb) on dung esp. cow. East Cholderton 1998 (JSD)
<i>Geotrupes pyrenaeus</i> (Charpentier, 1825) ??		+		(Na) Rare on sandy heaths late v-vi
<i>Geotrupes spiniger</i> (Marsham, 1802)		+	R+	Widespread but local in pastures and on heaths on a variety of dung
<i>Geotrupes stercorarius</i> (L., 1758) Dor beetle		+	+	Rare?
<i>Geotrupes vernalis</i> (L., 1758)		*		NF (Fowler, 1890)

Scarabaeidae (Dung Beetles & Chafers) (Vc10	Vc11	Vc12	notes
<i>Aphodius ater</i> (Degeer, 1774)		+	+	Widespread in dung
<i>Aphodius borealis</i> Gyllenhal, 1827		+	+	Local in dung esp. deer in parks. ??c.
<i>Aphodius coenosus</i> (Panzer, 1798)		+	+	(Nb) Local on sandy soils. Woolmer (JSD)

Aphodius conspurcatus (L., 1758)		*		White Moor 1965 Hollands Wood 1966 DMA
Aphodius constans Duftschmid, 1805	*			Ventnor (Fowler, 1890)
Aphodius contaminatus (Herbst, 1783)		+	+	Widespread in dung esp. cow.
Aphodius distinctus (Mueller, 1776)??				
Aphodius equestris (Panzer, 1798)		+	+	Local in dung esp. horse in shady places esp. on sandy heaths
Aphodius erraticus (L., 1758)		+	+	Widespread in dung esp. cow.
Aphodius fimetarius (L., 1758)		+	+	Widespread in dung, but see <i>pedellus</i> below!
Aphodius foetens (F., 1787)		+	+	Local on dung
Aphodius foetidus (Herbst, 1783)		+	+	Local in dung esp. cow on sandy soils
Aphodius fossor (L., 1758)		+	+	Widespread in dung esp. cow.
Aphodius granarius (L., 1767)	+	+	R+	Widespread in dung
Aphodius haemorrhoidalis (L., 1758)		+	+	Widespread in dung esp. cow.
Aphodius ictericus (Laicharting, 1781)	*	*		Blackgang NF (HSD)
Aphodius luridus (F., 1775)		+	+	Widespread in dung.
Aphodius merdarius (F., 1775)		+	+	Rare much declined in 20 th C.
Aphodius niger (Panzer, 1796) Beaulieu Beetle		+		RDB1 Balmer Lawn 2000 (JSD)
Aphodius oblitteratus Panzer, 1823	*	+	+	Local on dung esp. horse in the autumn. Chawton 2002 (JSD)
Aphodius paykulli Bedel, 1908			*	Nb NW hants (Robertson)
Aphodius pedellus (DeGeer,)		+	+	Local? recent 'split' comes too early to assess differences with <i>fimetarius</i>
Aphodius plagiatus (L., 1767)	*			(N) Bembridge (THB/HSD)
Aphodius porcus (F., 1792)	*	+	+	Nb Rare in dung on open grassland (parasitic on Geotrupes). East Cholderton 1998 (JSD) Sandown, Blackgang (HSD)
Aphodius prodromus (Brahm, 1790)		+	+	Widespread in dung
Aphodius pusillus (Herbst, 1789)		+	+	Widespread in dung
Aphodius rufipes (L., 1758)		+	+	Widespread in dung, comes readily to light, esp. MV light traps.
Aphodius rufus (Moll, 1782)		+	+	Widespread in dung
Aphodius sordidus (Fabricius, 1775)		*		(Na) NF
Aphodius sphacelatus (Panzer, 1798)	+	+	+	Common in dung and frequently taken on the wing and drowned in troughs puddles etc.
Aphodius subterraneus (L., 1758)		*		RDB1 Extinct? [in dung]once widespread,
Aphodius zenkeri Germar, 1813		+	+	Nb Rare? on deer dung locally abundant in deer parks but at very low density in woodland generally
Euheptaulacus villosus Gyllenhal, 1806	*	+		(Na) Portsdown 1971 DMA
Heptaulacus testudinarius (Fab., 1775)		+		RDB1 NF The Bench 1974 DMA
Oxyomus sylvestris (Scopoli, 1763)		+	R+	Local in compost heaps
Copris lunaris (L., 1758) Rhino Beetle		*		RDB1 Bournemouth (Fowler)
Onthophagus coenobita (Herbst, 1783)	+	+	+	Local in dung Freshwater 1984 (S.K-J)
Onthophagus fracticornis (Preyssler, 1790)		*		((RDBK)) Matley Bog a female taken in 1957
Onthophagus joannae Goljan, 1953		+	+	Local in sheep and rabbit dung on the downs, seems to avoid sandy soils in Surrey!
Onthophagus similis (Scriba, 1790)	+	+	+	Local on dung esp. on sandy soils
Onthophagus taurus		*		
Onthophagus vacca (L., 1767) ??	+	+		St.Catherines Point 1979 DMA
Serica brunnea (L., 1758)	+	+	+	Widespread esp. in sandy areas . Frequently comes to light Freshwater 1989 (S.K-J)
Omaloplia ruricola (F., 1775) Downland chafer		+	+	(Nb) Rare on open downland, but can be numerous when found.

Amphimallon solstitialis (L., 1758)	+	+	+	Summer or Fern Chafer. Local swarms around trees in high summer. Also comes to light as at Freshwater 1999 (SK-J)
Melolontha melolontha (L., 1758) Cock-chafer	+	+	+	Local, declining? Comes to light. Larvae develop at roots of grass etc.
Hoplia philanthus (Fuessly, 1775)	+	+	+	Local esp. on heathland and heathy commons, also on downland.
Phyllopertha horticola (L., 1758) Garden chafer	+	+	+	Local in many habitats including gardens and rough grassland
Anomala dubia (Scopoli, 1763) Dune chafer		+	+	V.local in open sandy areas. Woolmer Forest 1994-200 (JSD)
Gnorimus nobilis (L., 1758) Noble chafer		+		Mallard Wood 1986 (JAO)
Cetonia aurata (L., 1758) Rose Chafer		+	+	Very local not uncommon in Blackwater Valley Castle Bottom etc (JSD)
Oxythyrea funesta (Poda, 1761)		+		

Eucinetidae	Vc10	Vc11	Vc12	Notes
Eucinetus meridionalis (Laporte de Castelnau, 1836)			+	Recent immigrant? Rare. Under pine bark etc in plantations on heathland. Warren Heath 1997 (JSD)

Clambidae	Vc10	Vc11	Vc12	Notes
Calyptromerus dubius (Marshall, 1802)		+	+	Local in compost, grass heaps etc.
Clambus gibbula (LeConte, 1850)			+	Burgclere
Clambus pallidulus Reitter		+		
Clambus pubescens Redtenbacher, 1849				
Clambus punctulus Beck		+		

Scirtidae (Marsh Beetles)	Vc10	Vc11	Vc12	Notes
Odeles marginata (F., 1798)			+	Rare. Shaded streams South Hay 2000 (JSD)
Elodes elongate Tournier = koelleri		+	+	Local. Streams avoiding very acidic waters [Also in fens]
Elodes minuta (L., 1767)		+	+	Local. Acidic flowing water on heaths and Seepages in acid areas in woods.
Microcara testacea (L., 1767)	+	+	+	Widespread in wooded areas. Adults on foliage, larvae in leaf filled puddles and pools
Cyphon coarctatus Paykull, 1799	+	+	+	Widespread in wetlands and near streams and ponds of all kinds. Often abundant on foliage.
Cyphon hilaris Nyholm, 1944		+	+	Local. Frequent on wet heaths, also in fens on peaty soils.
Cyphon laevipennis Tournier, 1868		+	+	Local. In well vegetated wetlands esp. in reed beds. Adults winter in Typha stems. Darby Green 2004 (JSD)
Cyphon ochraceus Stephens, 1830	+	+	+	Local in poor fen areas, absent from very acid wetlands.
Cyphon padi (L., 1758)		+	+	Local. In wetlands especially in areas of acid water on peaty soils, with Sphagnum esp. in open carr woodland.
Cyphon palustris Thomson, 1855			+	Rare. Near streams
Cyphon pubescens (F., 1792)			+	(Nb) Rare in richer wetlands, poor fen areas and marshes.
Cyphon variabilis (Thunberg, 1787)			+	Local. In wetlands especially in areas of acid water
Prionocyphon serricornis (Mueller, 1821)	+	+	+	(Nb!) Widespread. Virtually ubiquitous in flooded rot holes in trees, commonest in areas with abundant large beech trees.
Scirtes hemisphaericus (L., 1758)		+	+	Local. Weedy pond margins, larvae in flooded moss and debris.
Scirtes orbicularis				

Dascillidae	Vc10	Vc11	Vc12	Notes
Dascillus cervinus (L., 1758)		+	+	Local in grassland esp.on the downs, on flowers esp. umbellifers.

Buprestidae (Jewel Beetles)	Vc10	Vc11	Vc12	Notes
Melanophila acuminata (Degeer, 1774)		+	+	Rare on burnt trees (conifers & birch) on heathland
Anthaxia nitidula (L., 1758)		*		RDB1 Extinct? Brockenhurst-Lyndhurst area of NF last recorded in 1954
Agrilus angustulus (Illiger, 1803)		+	+	(Nb) Saproxyllic. Local on oak, hazel etc.
Agrilus biguttatus (F., 1777) pannonicus (Pill. & Mit)		+	+	(Na) Saproxyllic. Much increased after 1987! Local on large oaks, where the D shaped emergence holes are characteristic.
Agrilus laticornis (Illiger, 1803)	+	+	+	(Nb) Saproxyllic. Local on oaks in woods and hedgerows. farley Mount M Henderson
Agrilus sinuatus (Olivier, 1790)	+	+	+	(Na!) Saproxyllic. Widespread on hawthorn, in hedgerows, parks, etc.
Agrilus viridis (L., 1758)		+		Denny Wood 1984 DMA
Aphanisticus emarginatus (Olivier, 1790)				Longmoor Camp 1951 Parkhurst (HSD)
Aphanisticus pusillus (Olivier, 1790)		+	+	(Nb) Local on the chalk on open downland turf.
Trachys minuta (L., 1758)		+	+	(RDB2) [on sallows, hazel etc.] Leckford Pamber (HSD)
Trachys scrobiculatus Kiesenwetter, 1857	+	+	+	(Na) Local on ground ivy <i>Glechoma hederacea</i> on chalk and clinkery waste ground.
Trachys troglodytes Gyllenhal, 1817	+	+	+	Rare. [on Devil's-Bit Scabious <i>Succisa pratensis</i>]

Byrrhidae (Pill Beetles)	Vc10	Vc11	Vc12	Notes
Simplocaria semistriata (F., 1794)		+	+	Local on ground in open sandy areas.
Cytilus sericeus (Forster, 1771)		+	+	Widespread in moss and often on umbellifers.
Byrrhus fasciatus (Forster, 1771)		+	+	Rare on heathland and sandy areas.
Byrrhus pilula (L., 1758)		+	+	Local at roots and in moss on open grassland and heaths
Byrrhus pustulatus (Forster, 1771)		+	+	Rare on heaths.
Porcinolus murinus (F., 1794)		+	+	(Nb)
Curimopsis maritima (Marsham, 1802)		+		? [bare places on sand and chalk] Oxenbourne Down, Portsdown (DMA)
Curimopsis setigera (Illiger, 1798)		+		(Na)
Chaetophora spinosa (Rossi, 1794)		+	+	Rare on bare places on the chalk [and sand] Oxenbourne Down 1973(DMA)

Elmidae (Riffle Beetles)	Vc10	Vc11	Vc12	Notes
Elmis aenea (Mueller, 1806)		+	+	Widespread on stones, logs and plant roots in streams
Limnius volckmari (Panzer, 1793)		+	+	Widespread on stones, logs and plant roots in streams
Normandia nitens (Mueller, 1817)		?		Christchurch in Stour Drayton hants
Riolus cupreus (Mueller, 1806)		+	+	(Nb) [in streams]
Riolus subviolaceus (Mueller, 1817)			+	(Nb) Rare in streams. Ventnor
Oulimnius troglodytes (Gyllenhal, 1827)				(Nb)
Oulimnius tuberculatus (Mueller, 1806)		+	+	Local in weedy margins of ponds canals and flowing water.

Dryopidae	Vc10	Vc11	Vc12	Notes
------------------	-------------	-------------	-------------	--------------

Dryops auriculatus (Fourcroy, 1785)		+		(Nb)
Dryops ernesti des Gozis, 1886		+	+	Local in sandy areas on river banks, damp fields etc.
Dryops luridus (Erichson, 1847)		+	+	Widespread at margins of water (ponds, seepages etc.)
Dryops nitidulus (Heer, 1841)				RDB
Dryops similaris Bollow, 1936				(Na)
Dryops striatellus (Fairmaire & Brisout, 1859)			+	RDB3Rare at margins of pools on sandy heaths. Woolmer Bramshill 1992-2003 (JSD)

Limnichidae	Vc10	Vc11	Vc12	Notes
Limnichus pygmaeus (Sturm, 1807)	+	+		N Muddy seepages on soft cliffs

Heteroceridae	Vc10	Vc11	Vc12	Notes
Heterocerus fenestratus (Thunberg, 1784)	+	+	+	Local on bare ground beside water in san and clay pits and banks of rivers (R.Wey etc), also frequent at light.
Heterocerus flexuosus Stephens, 1828		+		
Heterocerus fossor Kiesenwetter, 1843	*	*		
Heterocerus fuscus Kiesenwetter, 1843	+	+		(Nb)
Heterocerus marginatus (F., 1787)		+	+	Local on bare ground beside water in san and clay pits and banks of rivers (R.Wey etc), also frequent at light.
Heterocerus maritimus Guerin-Meneville,		+		Cowes Lyminhton Soton
Heterocerus obsoletus Curtis, 1828		+		

Psephenidae	Vc10	Vc11	Vc12	Notes
Eubria palustris Germar, 1818	+			RDB3Totland Bay 1978 DMA

Elateridae (Click Beetles)	Vc10	Vc11	Vc12	Notes
<i>Agrypnus murinus</i> (L., 1758)	+	+	+	Local on sandy soils
<i>Hypnoidus riparius</i> (F., 1792)		+	+	Rare at margins of water. Sleaford (JSD)
<i>Actenicerus sjaelandicus</i> (Mueller, 1764)	*	+	+	V.local in wetlands primarily on heaths.
<i>Anostirus castaneus</i> (L., 1758)	+			RDB1
<i>Ctenicera pectinicornis</i> (L., 1758)			+	
<i>Calambus bipustulatus</i> (L., 1767)	+	+	+	(Nb) Rare, saproxylic on a variety of hardwoods Binswood (PJH)
<i>Aplotarsus incanus</i> (Gyllenhal, 1827)		+	+	Local in wetlands, frequently swept from tussocks and other emergent vegetation.
<i>Parophotistus nigricornis</i> (Panzer, 1799)		+		RDB
<i>Prosternon tessellatum</i> (L., 1758)	+	+	+	
<i>Cidnopus aeruginosus</i> (Olivier, 1790)		+	+	Rare on sandy soils.
<i>Kibunea minuta</i> (L., 1758)	+	+	+	Local in a variety of habitats esp. near woods.
<i>Denticollis linearis</i> (L., 1758)	+	+	+	Widespread, larvae in dead wood
<i>Athous bicolor</i> (Goeze, 1777)	+	+	+	Local in a variety of habitats esp. grassland.
<i>Athous campyloides</i> Newman, 1833	+	+	+	(Nb) Local but on the increase. In disturbed areas including gardens
<i>Athous haemorrhoidalis</i> (F., 1801)	+	+	+	Common in grassy places countywide
<i>Athous hirtus</i> (Herbst, 1784)	+	+	+	Local in woodlands often under bark, but not saproxylic.
<i>Athous subfuscus</i> (Mueller, 1764)			+	RDB3Increasing recent colonist? Particularly frequent on high ground, Leith Hill, Hindhead, etc.
<i>Athous vittatus</i> (F., 1792)	+	+	R+	Widespread on vegetation in woods, commons.
<i>Stenagostus rhombeus</i> (Olivier, 1790)	+	+	+	Local in dead wood esp. beech. (JSD) Largely nocturnal and frequently comes to MV light.
<i>Adrastus pallens</i> (F., 1792)	+	+	+	Local in woodlands
<i>Agriotes acuminatus</i> (Stephens, 1830)	+	+	+	Widespread esp. in woodlands
<i>Agriotes lineatus</i> (L., 1767)	+	+	+	Widespread on ground in a variety of habitats
<i>Agriotes obscurus</i> (L., 1758)	+	+	+	Widespread on ground in a variety of habitats
<i>Agriotes pallidulus</i> (Illiger, 1807)	+	+	+	Widespread esp. in woodlands
<i>Agriotes sordidus</i> (Illiger, 1807)	+	+		RDB
<i>Agriotes sputator</i> (L., 1758)	+	+	+	Widespread on ground in a variety of habitats
<i>Dalopius marginatus</i> (L., 1758)	+	+	+	Widespread and frequent in most habitats
<i>Ampedus balteatus</i> (L., 1758)		+	+	Local on various rotten stumps esp. pine quite a frequent sight on the large heaths in the west of the county.
<i>Ampedus cinnabarinus</i> (Eschscholtz, 1829)		+		RDB3Whitley Wood 1990s
<i>Ampedus elongantulus</i> (F., 1787)	+	+	+	(Na) Rare in heathy areas on pine, and oak and beech. Thursley, Brentmoor etc.
<i>Ampedus quercicola</i> (du Buysson, 1887)		+		(Nb)
<i>Ampedus ruficeps</i> (Mulsant & Guillebeau, 1855)				(RDB3) Harewood Forest 2004 (MT det JSD)
<i>Ampedus sanguineus</i> (L., 1758)		*		New Fores t1830
<i>Ampedus sanguinolentus</i> (Schrank, 1776)		+	+	(Na) V.local on heathland amongst heather, and under birch and pine bark.
<i>Ischnodes sanguinicollis</i> (Panzer, 1793)		+		(Na)
<i>Megapenthes lugens</i> (Redtenbacher, 1842)		+		RDB1
<i>Procraerus tibialis</i> (Boisduval & Lacordaire, 1835)				RDB
<i>Sericus brunneus</i> (L., 1758)	+	+	+	Local esp. on sandy soils

Panspoeus guttatus Sharp, 1877			+	Naturalised Australasian spp., spreading on heaths and wooded commons. Bartley C (JSD)
Melanotus villosus (Geoffroy, 178	+	+	+	Widespread in dead wood, also comes to MV light traps.
Cardiophorus asellus Erichson, 1840		+	+	(Nb) Local on sandy heaths
Cardiophorus gramineus (Scopoli, 1763)		*		NF 19 th C

Throscidae	Vc10	Vc11	Vc12	Notes
Trixagus carinifrons (Bonvouloir, 1859)	+	+	+	Local in litter, moss etc.
Trixagus dermestoides (L., 1767)	+	+	+	Widespread in moss litter and in dead wood and hollow trees.
Trixagus obtusus (Curtis, 1827)	+	*		

Eucnemidae (False click beetles)	Vc10	Vc11	Vc12	Notes
Melasis buprestoides (L., 1761)	+	+	+	(Nb) Local. Saproxyllic, on oak etc. often on cut ends of fallen/felled trees. +8 Post 1980 sites
Epiphanus cornutus Eschscholtz, 1829			+	Harewood Forest 2004 (MT det JSD)
Microrhagus pygmaeus (F., 1792)	+	+	+	RDB3Saproxyllic in old oak, increasing? Mottisfont 1997 (KNAA) Micheldever Spoil heaps 2001 (JSD)
Hylis cariniceps (Reitter, 1902)		+		RDB1
Hylis olexai (Palm, 1955)		+	+	RDB3Saproxyllic in hardwoods esp. beech, increasing? Waggoners Welsls (JSD)
Eucnemis capucina Ahrens, 1812		+	+	RDB1 Harewood Forest 2004 (MT det JSD)

Drilidae	Vc10	Vc11	Vc12	Notes
Drilus flavescens (Fourcroy, 1785)	+	+	+	(Nb) Local. Chalk grassland Alton in garden 1997 (JSD)

Lycidae (Net-winged Beetles)				
Platycis minutus (F., 1787)		+	+	(Nb) Saproxyllic, on rotten hardwoods esp. beech, adult mostly in late summer/early autumn.

Lampyridae (Glow-worms)	Vc10	Vc11	Vc12	Notes
Phosphaenus hemipterus (Goeze, 1777)		+		(RDB1) ? [in old woodland in litter also on walls]
Lampyris noctiluca (L., 1758) Glow -worm	+	+	+	Local in many habitats from grassland to bogs, commonest in calcareous areas with abundant snails..

Cantharidae (Soldier Beetles)	Vc10	Vc11	Vc12	Notes
Podabrus alpinus (Paykull, 1798)		+	+	Local and p. Selborne 1995 (DIBH)
Cantharis cryptica Ashe, 1947	+	+	+	Widespread esp. on trees.
Cantharis decipiens Baudi, 1871	+	+	+	Widespread and eurytopic
Cantharis figurata Mannerheim, 1843		+	+	Rare, in damp grassland.
Cantharis fusca L., 1758	+	+		RDB3 ?
Cantharis lateralis L., 1758	+	+	+	Local in grassland, woods and parkland
Cantharis livida L., 1758	+	+	+	Widespread on tree and herbs esp. in woodlands and wooded commons.
Cantharis nigra (Degeer, 1774)	+	+	+	Widespread in grassland and on trees and herbs.
Cantharis nigricans (Mueller, 1776)	+	+	+	Widespread on trees and herbs in woods and commons
Cantharis pallida Goeze, 1777	+	+	+	Local on vegetation near water.
Cantharis pellucida F., 1792	+	+	+	Widespread in most habitats
Cantharis rufa L., 1758	+	+	+	Widespread in woods and parkland.
Cantharis rustica Fallen, 1807	+	+	+	Widespread in woods, heaths, and chalk grassland
Cantharis thoracica (Olivier, 1790)		+	+	Local in wetland areas, margins of lakes, ponds, canals and rivers
Rhagonycha fulva (Scopoli, 1763)	+	+	+	Ubiquitous on umbels etc. in high summer.
Rhagonycha lignosa (Mueller, 1764)	+	+	+	Widespread on trees and herbs.

Rhagonycha limbata Thomson, 1864	+	+	+	Widespread on trees and herbs. Eaglehead Copse 2002 (JSD)
Rhagonycha lutea (Mueller, 1764)		+	+	(Nb) Local on trees and hedgerows esp. in old woods and parklands
Rhagonycha testacea (L., 1758)	+	+	+	Local primarily on heaths and heathy commons, rare in the Weald?
Rhagonycha translucida (Krynicky, 1832)		+	+	(Nb) Rare in woodlands. Greywell
Silis ruficollis (Fabricius, 1775)	+	+	+	Rare on tall vegetation by water. Titchfield haven Leckford 1976 (DA)
Malthinus balteatus Suffrian, 1851		+	+	(Nb) Saproxyllic in damp woodland?
Malthinus flaveolus (Herbst, 1786)	+	+	+	Saproxyllic, local but widespread
Malthinus frontalis (Marsham, 1802)		+	+	(Nb) Saproxyllic, esp. on trees in open parkland.
Malthinus seriepunctatus Kiesenwetter, 1852	+	+	+	Saproxyllic, local but widespread
Malthodes dispar (Germar, 1824)	+	+	+	Rare? [Wet woodlands]
Malthodes fibulatus Kiesenwetter, 1852		+	+	(Nb) Rare in woods on calcareous soils
Malthodes fuscus (Waltl, 1838)		+	+	Saproxyllic in woodland.
Malthodes marginatus (Latreille, 1806)	+	+	+	Saproxyllic, local but widespread
Malthodes minimus (L., 1758)	+	+	+	Saproxyllic, local but widespread
Malthodes mysticus Kiesenwetter, 1852		+	+	Rare, woodlands.)
Malthodes pumilus (Brebisson, 1835)		+	+	Saproxyllic. Rare.

Derodontidae	Vc10	Vc11	Vc12	Notes
Laricobius erichsoni Rosenhauer, 1846			+	Introduced and spreading, on conifers,

Dermestidae (Larder beetles and allies)	Vc10	Vc11	Vc12	Notes
Dermestes frischii Kugelann, 1792		*	*	NF 1860 (Crotch) in dead Horse Deadbrook Farm (EAD)
Dermestes haemorrhoidalis		+		Rare Synanthropic . Marwell abundant in and outside arid habitats house in zoo park 3.6.05 (JSD)
Dermestes lardarius L., 1758 Larder or Bacon beetle		+	+	Local in carrion bird and wasp nests.
Dermestes maculatus Degeer, 1774 Hide beetle		+	*	Synanthropic . Holmesley 1994 (DIBH) Deadbrook Farm (EAD)
Dermestes murinus L., 1758		+	+	Rare on carrion
Dermestes peruvianus Castelnau, 1840 Peruvian Larder or hide beetle			?	. Local, increasing, synanthropic in accumulations of pigeon droppings and debris etc.
Dermestes undulatus Brahm, 1790	*	*		Hayling Island 1968 see Peacock)
Attagenus pellio (L., 1758) Two-spotted carpet beetle		+	+	Local, synanthropic in houses, warehouses etc.
Attagenus unicolor (Brahm, 1791) Black carpet beetle			+	Synanthropic breeding in shops and factories
Megatoma undata (L., 1758)		+	+	(Nb) V.local, under bark, in old bird nests, spiders webs etc.
Ctesias serra (F., 1792) Cob-web beetle		+	+	(Nb) Local under bark of trees in spider's webs etc.
Trinodes hirtus (F., 1781)		*		(RDB1) NF 1911 (DS)
Anthrenus fuscus Olivier, 1789				
Anthrenus museorum (L., 1761) Museum beetle		+	+	Widespread as above spp.

Anthrenus verbasci (L., 1767) Varied carpet beetle		+	+	Widespread on flowers breeding in nests and in debris in habitations
---	--	---	---	--

Bostrichidae	Vc10	Vc11	Vc12	Notes
Stepahnopachys substriatus (Paykull, 1800)		*		? In imported timber. New Forest (JFS)

Lyctidae (Powder post beetles)	Vc10	Vc11	Vc12	Notes
Lyctus brunneus (Stephens, 1830)			+	Saproxyllic, breeds in imported timber and in the wild in hardwoods.

Anobiidae (Woodworms)	Vc10	Vc11	Vc12	Notes
Ptinomorphus imperialis (L., 1767)	+	+	+	(Nb) Local, breeds in dead stems of ivy, also on dead oak boughs
Grynobius planus (F., 1787)	+	+	+	Widespread in dead wood Eaglehead Copse 2002 (JSD)
Dryophilus anobioides Chevrolat, 1832		+	+	(RDB3) Rare on dead broom Netley Common 1998 (PJH) Shortheath C. Blackbushe Airfield (JSD)
Dryophilus pusillus (Gyllenhal, 1808)		+	+	Naturalised. Local in dead Pine and larch
Ochina ptinoides (Marsham, 1802)	+	+	+	Widespread on dead, thick stems of ivy.
Xestobium rufovillosum (Degeer, 1774) Death-watch beetle		+	+	Local in old timber in buildings and in the wild esp. red-rotten oak in parklands and old woods.
Ernobius gigas (Mulsant & Rey, 1863)			+	Naturalised on burnt Pine.
Ernobius mollis (L., 1758)		+	+	Local on pine and firs
Ernobius nigrinus (Sturm, 1837)			+	Local on pine and firs, native in Scotland, but introduced in Surrey?
Ernobius pini (Sturm, 1837)		+	+	Naturalised. Local on pine and firs.
Hadrobregmus denticollis (Creutzer in Panzer, 1796)		+		(Nb) Saproxyllic [in dead heartwood of various hardwoods] Hoe Stream, Woking 1992 (AJH)
Xyletinus longitarsis Jansson, 1942		+		
Hemicoelus fulvicornis (Sturm, 1837)	+	+	+	Widespread in small dead branches of hardwoods. Eaglehead Copse 2002 (JSD)
Anobium inexpectatum Lohse, 1954		+	+	(Nb) Local on old Ivy stems in woods and hedgerows. Emer Bog 195 (DIBH) Mint Road, Liss 1999 (JSD)
Anobium punctatum (Degeer, 1774) Woodworm or		R +	R+	Furniture beetle. Ubiquitous in timber of buildings, and frequent in the wild.
Stegobium paniceum (L., 1758) Bread beetle		+	+	Synanthropic, cosmopolitan, occasionally outdoors.
Ptilinus pectinicornis (L., 1758)	+	+	+	Fan-bearing wood-borer. Widespread in a variety of hardwoods Eaglehead Copse 2002 (JSD)
Dorcatoma chrysomelina Sturm, 1837		+	+	Rare in dead wood esp. red rotten oak
Dorcatoma dresdensis Herbst, 1792		+	+	(Na) Rare. In hard brackets on alder, beech etc. Mottisfont 1997 (KNAA)
Dorcatoma flavicornis (F., 1792)		+	+	(Nb) Rare. In red rotten oak.
Dorcatoma serra Panzer, 1795				(Na) Rare in bracket fungi esp. <i>Inonotus</i> .
Anitya rubens (Hoffmann, 1803)		+		(Nb) Rare. In red rotten oak. NF

Ptinidae (Spider beetles)				
Ptinus fur (L., 1758) White marked spider beetle		+	+	Widespread mainly synanthropic but also on birds nests (esp. feral pigeons) and in hollow trees.
Ptinus sexpunctatus Panzer, 1792		+	+	(Nb) Rare , in old nests, in dead wood, and indoors. Comes to light traps. Titchfield 1972 DMA
Ptinus subpilosus Sturm, 1837		+		(Nb) [in old hollow trees] Denny Wood 1974 DMA
Ptinus tectus Boieldieu, 1856		+	+	Naturalised.
Niptus hololeucus (Faldermann, 1835) Golden spider beetle				

Phloiophilidae	Vc10	Vc11	Vc12	Notes
Phloiophilus edwardsi Stephens, 1830		+	+	(Nb) V.local. In the fungi <i>Phlebia merismoides</i> on dead hardwood branches. Southwood 2004 (JSD)

Trogossitidae (Flat beetles)	Vc10	Vc11	Vc12	Notes
Tenebroides mauritanicus (L., 1758)		+	+	Synanthropic, cosmopolitan

Peltidae	Vc10	Vc11	Vc12	Notes
Thymalus limbatus (Fab., 1787)		+		(Nb) V.local. on dead hardwood branches. Widespread in New Forest (JSD etc)

Cleridae (Checker-beetles)	Vc10	Vc11	Vc12	Notes
Tillus elongatus (L., 1758)		+	+	(Nb) Local in dead wood in woods and hedgerows. Attacking Scolytids.
Paratillus carus (Newman, 1840)		+		S.Hants 1961 (BMNHcol)
Tilloidea unifasciatus (F., 1787)				'Hants'
Opilo mollis (L., 1758)		+	+	(Nb) Local. In hollow trees also in houses attaching Anobiids in timber.
Thanasimus formicarius (L., 1758) Ant beetle		+	+	Local. On trees attacking bark beetles, esp. on Scot's Pine on heaths.
Korynetes caeruleus (Degeer, 1775)		+		(Nb) Rare in wood attacking Anobiids. Also in Synanthropic sites.
Necrobia ruficollis (F., 1775)			*	Deadbrook farm viii.1941 (Duffy, 1945) in carrion
Necrobia violacea (L., 1758)		+	+	Cosmopolitan. Local in carrion, old bones Hayling Is. 1924 (JLH)

Melyridae	Vc10	Vc11	Vc12	Notes
Aplocnemus nigricornis (F., 1792)				Wes tWalk NF 1969 DMA
Aplocnemus pini (Redtenbacher, 1849)		+	+	(Nb) Denny Wood 1969 Matley 1974 Fleet Pond 1976 , Greywell Fen 1976 (DA)
Dasytes aeratus Stephens, 1830		+	+	Widespread and frequent esp. on blossoms (hawthorn etc.)
Dasytes plumbeus (Mueller, 1776)??		+	+	(Nb) Local in woods and hedgerows.
Dasytes niger (L., 1761)		+	+	(Na) Harewood Forest 1975 (DA)
Axinotarsus marginalis (Castelnau, 1840)			+	Widespread spreading rapidly in 20 th C on herbage though probably saproxylic breeding in dead wood esp. oak.
Axinotarsus ruficollis (Olivier, 1790)		+	+	V.local develops in dead wood
Psilothrix viridicoeruleus (Fourcroy, 1785)	*	+		Freshwater 1922 (JLH) Gilkicker (JSD)
Malachius aeneus (L., 1758)		+		Newport IoW (Morey)
Malachius bipustulatus (L., 1758)	+	+	+	Widespread on flowers and herbage. Saproxylic.
Clanoptilus marginellus (Olivier)		+		Gilkicker Steephill Cove IoW Guyon

Cordylepherus viridis (Fabricius)	+	+	+	Widespread on flowers and herbage.
Sphinginus lobatus (Olivier, 1790)		*		
Anthocomus fasciatus (L., 1758)		+	+	Local, in woods, parks and rural gardens. Saproxylic.
Anthocomus rufus (Herbst, 1784) Sailor beetle		+	+	Rare, locally abundant in tall vegetation near water esp. reed <i>Phragmites</i> beds.

Lymexylidae	Vc10	Vc11	Vc12	Notes
Lymexylon navale (L., 1758)		+		(RDB2)

Kateritidae	Vc10	Vc11	Vc12	Notes
Kateretes pusillus (Thunberg, 1794)		+	+	Local on sedges <i>Carex</i> in damp areas, marshes etc.
Kateretes pedicularius (L., 1758)	+	+	+	Local on sedges <i>Carex</i> in bogs, marshes etc. Also on flowers esp. Meadowsweet <i>Filipendula ulmaria</i>
Kateretes rufilabris (Latreille, 1807)	+	+	+	Local on sedges and rushes in damp areas, marshes etc.

Nitidulidae (Pollen beetles)	Vc10	Vc11	Vc12	Notes
Brachypterus glaber (Stephens, 1835)	+	+	+	Common on Nettles <i>Urtica</i> . Spp.
Brachypterus urticae (F., 1792)	+	+	+	Common on Nettles <i>Urtica</i> . Spp.
Brachypterolus linariae (Stephens, 1830)		+		Local on Toadflax <i>Linaria</i> spp. in grassy places including road verges
Brachypterolus pulicarius (L., 1758)			+	Rare on <i>Linaria</i> .
Brachypterolus villiger (Reitter, 1885)antirrhini		+		RDBI Portsdown 1974 DMA
Carpophilus marginellus Motschulsky, 1858		+	+	Widespread, synanthropic, in houses and gardens.
Carpophilus sexpustulatus (F., 1792)		+		Rare in sappy dead wood.
Pria dulcamarae (Scopoli, 1763)	+	+	+	Local on Bittersweet <i>Solanum dulcamarae</i>
Meligethes aeneus (F., 1775)	+	+	+	Ubiquitous on various yellow crucifers, also attracted to bright clothing
Meligethes atramentarius Foerster, 1849		+		(N) Rare on Yellow Archangel <i>Lamiastrum galeobdolon</i>
Meligethes atratus (Olivier, 1790)	+	+	+	Local on <i>Rosa</i> esp. Dog-rose <i>R.canina</i> .
Meligethes bidentatus Brisout, 1863	+	+		
Meligethes bidens Brisout, 1863				
Meligethes brunnicornis Sturm, 1845	+	+	+	Widespread on Hedge Woundwort <i>Stachys sylvatica</i>
Meligethes carinulatus Förster 1849	+	+	+	Widespread on Bird's-foot Trefoil <i>Lotus corniculatus</i>
Meligethes difficilis (Heer, 1841)	+	+	+	Widespread on White Dead-Nettle <i>Lamium album</i>
Meligethes erichsoni Brisout, 1863		+		(N) Rare on Horseshoe Vetch <i>Hippocrepis comosa</i> on the downs. Ranmore Common (AME etc)
Meligethes flavimanus Stephens, 1830	+	+	+	Widespread on Roses esp. Dog-rose. <i>Rosa canina</i>
Meligethes gagathinus Erichson, 1845		+		(N) Rare on Corn Mint <i>Mentha arvensis</i> .
Meligethes incanus Sturm, 1845	+			(N) Rare on Cat-Mint <i>Nepeta cataria</i> .
Meligethes kunzei Erichson, 1845		+	+	Local on Yellow Archangel <i>Lamiastrum galeobdolon</i>
Meligethes lugubris Sturm, 1845				
Meligethes morosus Erichson, 1845		+	+	Widespread on White dead-nettle <i>Lamium album</i>
Meligethes nigrescens Stephens, 1830	+	+	+	Widespread on White Clover <i>Trifolium repens</i>
Meligethes obscurus Erichson, 1845	+	+	+	Widespread on Wood-Sage <i>Teucrium scorodonia</i>
Meligethes ochropus Sturm, 1845		+		(N) Rare on Marsh Woundwort <i>Stachys palustris</i>
Meligethes ovatus Sturm, 1845	+	+	+	Local on Ground Ivy <i>Glechoma hederacea</i>
Meligethes pedicularius (Gyllenhal, 1808)		+	+	Local on Common Hemp-Nettle <i>Galeopsis tetrahit</i>
Meligethes persicus Falderman, 1837	+	+	+	Local on Betony <i>Stachys officinalis</i>
Meligethes planiusculus (Heer, 1841)	+	+	+	V.local on Viper's Bugloss <i>Echium vulgare</i> .
Meligethes rotundicollis Brisout 1863			+	
Meligethes ruficornis (Marsham, 1802)	+	+		Local on Black Horehound <i>Ballota nigra</i>
Meligethes serripes (Gyllenhal, 1827)		+		Rare [on Red Hemp-Nettle <i>Galeopsis angustifolia</i>]
Meligethes solidus (Kugelann, 1794)		+	+	(N) V.local on Rock-Rose <i>Helianthemum</i> on the downs
Meligethes subrugosus (Gyllenhal, 1808)		+		Hayling Island 1997 (JSD)
Meligethes umbrosus Sturm, 1845				
Meligethes viridescens (F., 1787)	+	+	+	Widespread on crucifers
Epuraea aestiva (L., 1758)		+	+	Widespread on flowers of trees and shrubs, esp. Rowan, hawthorn and Gorse.
Epuraea angustula Sturm, 1844		+		(Nb) [in borings of <i>Xyloterus</i> beetles in deadwood]
Epuraea biguttata (Thunberg, 1784)		+		Rare? [under bark and in fungi]
Epuraea distincta (Grimmer, 1841)		+	+	
Epuraea fuscicollis (Stephens, 1832)		+	+	(Nb) Local at sap. Frame Wood 1998 (JAO) at roots of old trees (Owen, 1999b)

Epuraea guttata (Olivier, 1811)		+	+	(Nb) [At sap, including <i>Cossus</i> trees] Frame Wood 1998 (JAO) NF 1985 DMA Southwood 2004 (JSD)
Epuraea limbata (F., 1787)				[in fungi]
Epuraea longula Erichson, 1845		+	+	(Nb) Rare in old woodlands.
Epuraea melanocephala (Marsham, 1802)		+	+	Widespread on blossoms
Epuraea melina Erichson, 1843		+	+	Widespread on blossoms
Epuraea neglecta (Heer, 1841)				(RDBI) [rare at sap and under bark]
Epuraea pallescens (Stephens, 1832) florea Er., 1845		+	+	Widespread? on flowers, at sap and in fungi
Epuraea pusilla (Illiger, 1798)		+	+	Local on blossoms [and under bark]
Epuraea rufomarginata (Stephens, 1830)		+		[Saproxylic]
Epuraea silacea (Herbst, 1784) deleta Sturm, 1844		+	+	(RDB3!!) Widespread. Saproxylic at sap, in fungi and under bark.
Epuraea terminalis (Mannerheim, 1843)		+	+	(RDBI) [under bark of sappy oak, birch and pine]
Epuraea thoracica Tournier, 1872			+	(N) as oblonga auct. [under bark of conifers]
Epuraea unicolor (Olivier, 1790)		+	+	Local at sap on hardwoods and in compost heaps.
Nitidula bipunctata (L., 1758)		+	+	Local in carrion
Nitidula carnaria (Schaller, 1783)				? [in carrion] Bembridge (GCC) Blackgang (HSD)
Nitidula rufipes (L., 1767)		+	+	Local in carrion NF
Omosita colon (L., 1758)		+	+	Local in carrion
Omosita depressa (L., 1758)		+	+	Local in carrion Eyeworth Wood NF 1978 (AJHalstead)
Omosita discoidea (F., 1775)		+	+	Local in carrion
Soronia grisea (L., 1758)			+	Under bark of ash.
Soronia punctatissima (Illiger, 1794)		+	+	Local at sap, also at trees attacked by Goat Moths <i>Cossus cossus</i>
Amphotis marginata (F., 1781)			+	((RDBK)) Rare in or near to nests of the ant <i>Lasius fuliginosus</i> .
Pocadius ferrugineus (F., 1775)		+	+	Local in fungi esp. puffballs <i>Lycoperdon</i> spp. Ryde (HSD)
Pocadius adustus Reitter, 1888 lanuginosus Franz		+	+	Local in rotting fungi
Thalycra fervida (Olivier, 1790)		+		(Nb) [at sap including <i>Cossus</i> trees] Woodhay (HSD)
Cychramus luteus (F., 1787)		+	+	Local on blossom and fungi
Cryptarcha strigata (F., 1787)		+	+	(Nb) Local at sap. Botley Wood 1987 DMA Southwood 2004 (JSD)
Cryptarcha undata (Olivier, 1790)		+		(Nb) Rare? at sap.
Pityophagus ferrugineus (L., 1761)			+	
Glischrochilus hortensis (Fourcroy, 1785)		+	+	Local at sap, in fungi, etc. Frame Wood 1998 (JAO)
Glischrochilus quadriguttatus (F., 1777)		+	+	Local at sap.

Rhizophagidae	Vc10	Vc11	Vc12	Notes
Cyanostolus aeneus (Richter, 1820)				
Rhizophagus bipustulatus (F., 1792)	+	+	+	Saproxylic. Frequent under bark of many kinds of tree. Also at roots (Owen, 1999b)
Rhizophagus cribratus Gyllenhal, 1827		+		Frame Wood 1998 (JAO)
Rhizophagus depressus (F., 1792)		+	+	Saproxylic. Local under bark of many kinds of tree
Rhizophagus dispar (Paykull, 1800)		+	+	Saproxylic. Local under bark of many kinds of tree
Rhizophagus ferrugineus (Paykull, 1800)		+	+	Saproxylic. Frequent under bark of many kinds of tree, also abundant at roots of old trees
Rhizophagus nitidulus (Fab.,)		+		West Walk NF 1974 DMA
Rhizophagus parallelocolis Gyll., 1827		+	+	Local under dead hardwood bark, in carrion and often subterranean.
Graveyard beetle				
Rhizophagus perforatus Erichson, 1845		+	+	Under dead hardwood bark, also in compost and in large numbers in subterranean traps in gardens and woodland
Rhizophagus picipes (Olivier, 1790)				
Monotoma angusticollis (Gyllenhal, 1827)		+	+	RDB3V.local in wood ant <i>Formica rufa</i> nests.
Monotoma bicolor Villa, 1835		+	+	? Compost heaps.
Monotoma brevicollis Aube, 1837		+		? [in grass and compost heaps]
Monotoma conicicollis Aube, 1837		+	+	V.local in wood ant nests.
Monotoma longicollis (Gyllenhal, 1827)		+	+	Widespread in compost heaps, and other decaying vegetable matter. Sandown (HSD)
Monotoma picipes Herbst, 1793		+	+	Widespread in compost heaps, and other decaying vegetable matter. Regularly comes to light.
Monotoma spinicollis Aube, 1837		+		
Monotoma testacea Motschulsky, 1845??				Widespread in compost & grass heaps etc.

Sphindidae	Vc10	Vc11	Vc12	Notes
Sphindus dubius (Gyllenhal, 1808)		+	+	(Nb) Local. In fungoid wood [feeding on slime fungus].
Aspidiphorus orbiculatus (Gyllenhal, 1808)	+	+	+	Local. Saproxylic. Frequent in summer swarms and in FITs, rarely encountered by other means.

Cucujidae (Flat bark beetles)	Vc10	Vc11	Vc12	Notes
Uleiota planata (L., 1761)		+	+	Na Increasing under bark of hardwoods and occasionally on Scot's Pine.. +15 post 1980 records
Pediacus depressus (Herbst, 1797)		+		Na Rare Sappy timber and Goat Moth <i>Cossus</i> workings] Park gate 1975 DMA Woolmer
Pediacus dermestoides (F., 1792)		+	+	Local, under hardwood bark, especially beech.

Laemophloidae	Vc10	Vc11	Vc12	Notes
Cryptolestes duplicatus (Waltl, 1839)		+	+	Local under bark of trees. Newchurch IoW Ellis
Cryptolestes ferrugineus (Stephens, 1831)		+	+	Local under bark of hard and softwoods
Cryptolestes pusillus (Schoenherr, 1817)		+		?
Cryptolestes spartii (Curtis, 1834)		+	+	Na Rare in dead broom bark, Yateley. (JSD). Shanklin (Pool)
Notolaemus unifasciatus (Latreille, 1804)		+		Na mallard Wood 1971 Kites Croft 1974 DMA

Silvanidae	Vc10	Vc11	Vc12	Notes
Ahasverus advena (Waltl, 1834)		+	+	Local in compost and manure heaps.
Oryzaephilus mercator (Fauvel, 1889)		+		Introduced in stored products.

<i>Oryzaephilus surinamensis</i> (L., 1758)				Synanthropic , cosmopolitan. Kingsclere in faggots remote from houses (HSD)
<i>Silvanoprus fagi</i> (Guerin-Meneville, 1844)				
<i>Silvanus bidentatus</i> (F., 1792)		+	+	(Nb) Local under bark, of hardwoods and pine. Denny Wood 1970 MatleyWood 1972 DMA
<i>Silvanus unidentatus</i> (Olivier, 1790)		+	+	Local. Under bark of hard and softwoods.
<i>Psammoecus bipunctatus</i> (F., 1792)		+	+	Local. In sedge and marsh litter in wetlands. Also in tussocks.

Cryptophagidae (Silken fungus beetles)	Vc10	Vc11	Vc12	Notes
<i>Telmatophilus brevicollis</i> Aube, 1862				RDB3
<i>Telmatophilus caricis</i> (Olivier, 1790)		+	+	Local on <i>Carex</i> in wetlands
<i>Telmatophilus schoenherri</i> (Gyllenhal, 1808)			+	((RDBK)) Rare? On Lesser Reedmace <i>Typha latifolia</i> on seed heads also wintering in stems.
<i>Telmatophilus typhae</i> (Fallen, 1802)		+	+	Local but frequent on <i>Typha</i> on flower heads and hiding in leaf sheaths.
<i>Paramecosoma melanocephalum</i> (Herbst, 1793)		+	+	Rare. In flood debris suspended in trees, bridgework wire fences etc.
<i>Henoticus californicus</i> (Mannerheim, 1843)			+	Synanthropic , cosmopolitan
<i>Henoticus serratus</i> (Gyllenhal, 1808)			+	Synanthropic , cosmopolitan
<i>Cryptophagus badius</i> Sturm, 1845				
<i>Cryptophagus dentatus</i> (Herbst, 1793)			+	Local on dead wood, fungi and in buildings
<i>Cryptophagus distinguendus</i> Sturm, 1845			+	Local in fungi and haystack and other mouldy vegetable matter.
<i>Cryptophagus lapponicus</i> Gyllenhal, 1827				Soton (Gorham)
<i>Cryptophagus laticollis</i> Lucas, 1846				?
<i>Cryptophagus lycoperdi</i> (Scopoli, 1763)			+	Local in <i>Scleroderma</i> fungi
<i>Cryptophagus micaeus</i> Rey, 1889		+		(RDBK) WhitleyWood 1985 with hornets
<i>Cryptophagus pallidus</i> Sturm, 1845			+	Local? In decaying organic matter including dead wood and fungi
<i>Cryptophagus pilosus</i> Gyllenhal, 1827		+	+	Local usually synanthropic in haystack refuse, grass clippings, and hotbeds. Frame Wood 1998 (JAO)
<i>Cryptophagus postpositus</i> Sahlberg, 1903				?
<i>Cryptophagus pubescens</i> Sturm, 1845			+	Local? In decaying organic matter.
<i>Cryptophagus ruficornis</i> Stephens, 1830		+	+	(N) Local on dead and fungoid wood especially in <i>Daldinia Ryde</i> (HSD)
<i>Cryptophagus scanicus</i> (L., 1758)			+	Local in decaying organic matter in haystacks, in wasp nests and in carrion. Also synanthropic in houses, warehouses etc.
<i>Cryptophagus scutellatus</i> Newman, 1834			+	Synanthropic in vegetable refuse. [also in birds nests, and haystacks] Kingscler (HSD)
<i>Cryptophagus subfumatus</i> Kraatz, 1856	*			Sandown Taylor
<i>Micrambe vini</i> (Panzer, 1797)		+	+	Widespread on flowers of gorse <i>Ulex</i> .
<i>Antherophagus canescens</i> Grouvelle, 1916		+		Matley Bog 3307 1996 (PJH)
<i>Antherophagus nigricornis</i> (F., 1787)		+	+	Local, breeds in nests of <i>Bombus</i> . NF (GCC)
<i>Antherophagus pallens</i> (L., 1758)		+	+	Local, breeds in nests of <i>Bombus</i> . Sandown (Dollman)
<i>Caenoscelis ferruginea</i> (Sahlberg, 1820)				
<i>Caenoscelis subdeplanata</i> Brisout, 1882		+	+	Rare Leckford (SAW)
<i>Atomaria apicalis</i> Erichson, 1846	+	+	+	Widespread and frequent in compost and other decaying vegetable matter
<i>Atomaria atra</i> (Herbst, 1793)				
<i>Atomaria atricapilla</i> Stephens, 1830	+	+	+	Widespread and frequent in compost and other decaying vegetable matter
<i>Atomaria basalis</i> Erichson, 1846		+	+	in wetlands in litter Leckford PJH
<i>Atomaria barani</i> Brisout, 1863		+		Lymington, New Forest (PH)
<i>Atomaria berolinensis</i> Kraatz, 1853 rubella		+	+	Local in decaying vegetable matter

Atomaria clavigera Ganglbauer, 1899		*		Hurn (PH)
Atomaria fimetarii (Fab., 1792)		+		Browndown 1972 DMA
Atomaria fuscata (Schoenherr, 1808)	+	+	+	Widespread in compost and other decaying vegetable matter
Atomaria fuscipes (Gyllenhal, 1808)		+	+	Rare [dung and decaying vegetable matter]
Atomaria gutta Stephens, 1835	+		+	Rare? in wetlands in marsh litter
Atomaria lewisi Reitter, 1877	+	+	+	Widespread in grass cuttings etc.
Atomaria lohsei Johnson & Strand, 1968		+		
Atomaria mesomela (Herbst, 1792)		+	+	Local in wetlands in marsh litter
Atomaria munda Erichson, 1846		+	+	? in straw and stable debris. Liss (SA)
Atomaria nigripennis (Kugelann, 1794)			+	(N) East Woodhay (PH)]
Atomaria nitidula (Marsham, 1802)	+	+	+	Widespread and frequent in most habitats.
Atomaria peltata Kraatz, 1853				
Atomaria pusilla (Paykull, 1798)		+		? [in compost and farmyard debris]
Atomaria rhenana Kraatz, 1853		+		
Atomaria rubella Heer, 1841	+	+		
Atomaria rubida Reitter, 1875		+		Rare [on dung esp. in or near woodlands] Woodhay (HSD)
Atomaria rubicollis Brisout, 1863		+	+	(RDBI)
Atomaria scutellaris Motschulsky, 1849			+	(RDBK) Increasing in grassy habitats.
Atomaria testacea Stephens, 1830 ruficornis (Marsh.	+	+	+	Widespread in litter, compost etc. frequent in gardens.
Atomaria turgida Erichson, 1846		+		Pinnick Wood, New Forest 1999 (RGB)
Atomaria punctithorax Reitter, 1887		+	+	(N) Leckford (SAW)
Atomaria nigrirostris Stephens 1830		+	+	Widespread in woodland in litter and moss
Atomaria linearis Stephens, 1830		+	+	Local in dung, compost etc.
Atomaria nigriventris Stephens, 1830		+	+	(N)Leckford (SAW)
Atomaria pulchra Erichson, 1846		+	+	Ball Hill (AEG)
Atomaria umbrina (Gyllenhal, 1827)				
Ootypus globosus (Waltl, 1838)			+	
Ephistemus globulus (Paykull, 1786)		+	+	Widespread in decaying vegetation including hay, and compost heaps.

Biphyllidae	Vc10	Vc11	Vc12	Notes
Biphyllus lunatus (F., 1787)	+	+	+	Local in the fungi <i>Daldina concentrica</i> especially on ash.
Diplocoelus fagi Guerin-Meneville, 1844		+	+	(Nb) V.local under bark of hardwoods especially on beech.

Byturidae (Raspberry beetles)	Vc10	Vc11	Vc12	Notes
Byturus ochraceus (Scriba, 1790)		+	+	Local esp. on blossoms in the spring
Byturus tomentosus (Degeer, 1774)		+	+	Widespread on blossoms, larvae in fruits of <i>Rubus</i> and a pest of cultivated raspberry etc.
Raspberry beetle				

Erotylidae	Vc10	Vc11	Vc12	Notes
Triplax aenea (Schaller, 1783)		+	+	Local. Saproxylic. Under bark and on fungi.

Triplax lacordairii Crotch, 1870	+	+		Brading Dwon 1984 , Whitley Wood 1985 DMA
Triplax russica (L., 1758)				[Saproxylic on old brackets and other fungi on hardwoods]
Tritoma bipustulata Fab., 1775		+		Na Denn Botley etc DMA
Dacne bipustulata (Thunberg, 1781)		+	+	Local. Saproxylic. Under bark and on fungi.
Dacne rufifrons (F., 1775)		+	+	Local. Saproxylic. Under bark and on fungi.

Phalacridae (Shining mold beetles)	Vc10	Vc11	Vc12	Notes
Phalacrus brunnipes Brisout, 1863				Lymington salterns DS
Phalacrus caricis Sturm, 1807		+	+	Local on smutted <i>Carex</i>
Phalacrus corruscus (Panzer, 1796)				
Phalacrus fimetarius (F., 1775)	+	+	+	Local on smutted grasses Swanpond Copse NR 2002 (JSD)
Phalacrus substriatus Gyllenhal, 1813	+	+	+	
Olibrus aeneus (F., 1792)	+	+	+	Frequent on Mayweeds, Tansy and Mugwort in rough grassy places
Olibrus affinis (Sturm, 1807)	+	+	+	Rare [mainly coastal] on Goat's-Beard <i>Tragopogon</i> , & other yellow composites.
Olibrus corticalis (Panzer, 1796)				
Olibrus flavicornis (Sturm, 1807)				Sandown (GCC)
Olibrus liquidus Erichson, 1845				Rare ? [on <i>Matricaria</i>]
Olibrus millefolii (Paykull, 1800)			+	(Nb) [on Yarrow <i>Achillea</i>] Shortheath C. 1999 (JSD) Shirley vc11 Newbery
Olibrus pygmaeus (Sturm, 1807)				
Stilbus oblongus (Erichson, 1845)		+		Titchfield Haven 1972 (DMA)
Stilbus testaceus (Panzer, 1796)		+	+	Frequent in dry grassy debris

Cerylonidae	Vc10	Vc11	Vc12	Notes
Cerylon fagi Brisout, 1867		+		Na Rare under bark of hardwoods esp. beech and oak. Frame Wood 1998 (JAO)
Cerylon ferrugineum Stephens, 1830		+	+	Local under bark of hardwoods esp. beech and oak
Cerylon histeroides (F., 1792)		+	+	Local under bark of hardwoods esp. beech and oak
Anommatus duodecimstriatus (Mueller, 1821)		+		Titchfield Haven 1969 DMA

Corylophidae	Vc10	Vc11	Vc12	Notes
Sericoderus lateralis (Gyllenhal, 1827)		+	+	Widespread in compost heaps under bark etc.
Corylophus cassidoides (Marsham, 1802)	+	+	+	? [in rotting grass etc.]
Orthoperus atomus (Gyllenhal, 1808)		+	+	Rare on trees in ancient woodlands. Alice Holt JAP
Orthoperus brunnipes (Gyllenhal, 1808)		*		NF
Orthoperus corticalis (Redtenbacher, 1849)				
Orthoperus mundus Matthews, 1885		+	+	? Compost heaps. [Also comes to MV light] ? woodland.
Orthoperus nigrescens Stephens, 1829		*		Woodhay (HSD)

Coccinellidae (Ladybirds)	Vc10	Vc11	Vc12	Notes
<i>Henosepilachna argus</i> (Geoffroy, 1785)				Bryony ladybird. Recent colonist.
<i>Subcoccinella vigintiquatuorpunctata</i> (L., 1758)		+	+	24-spot ladybird. Ubiquitous
<i>Coccidula rufa</i> (Herbst, 1783)		+	+	Widespread in wetlands, on tall emergent waterside vegetation
<i>Coccidula scutellata</i> (Herbst, 1783)		+	+	V.local in wetlands, often amongst <i>Typha</i>
<i>Rhyzobius chrysomeloides</i> (Herbst)		+	+	Recent immigrant, Increasing on trees and bushes.
<i>Rhyzobius litura</i> (F., 1787)		+	+	Widespread and frequent, usually terrestrial
<i>Stethorus punctillum</i> (Weise, 1891)		+	+	V.local on trees and shrubs Pamber
<i>Scymnus auritus</i> Thunberg, 1795		+	+	Local on foliage of oak trees
<i>Scymnus femoralis</i> (Gyllenhal, 1827)		+	+	(Nb) Rare. Oxenbourne 1974 DMA
<i>Scymnus frontalis</i> (F., 1787)		+	+	Local on ground esp in sandy areas.
<i>Scymnus haemorrhoidalis</i> Herbst, 1797		+	+	Local in grassland Darby Grassland 2004 (JSD)
<i>Scymnus interruptus</i> (Goeze)		+		Bar End Winchester 2003 (JSD)
<i>Scymnus limbatus</i> Stephens, 1832			+	(Nb) Rare on sallows and willows. Alresford Pond 1975 (DA).
<i>Scymnus nigrinus</i> Kugelann, 1794		+	+	Very local on young pines Pamber
<i>Scymnus schmidti</i> Fuersch, 1958	+	+	+	(Nb) Woods, and open sites. West Wood Woolbury Ring 1977 Gilkicker JSD Bembridge 1984 DMA
<i>Scymnus suturalis</i> Thunberg, 1795		+	+	Local on pines
<i>Nephus quadrimaculatus</i> (Herbst, 1783)			+	(RDB2) Increasing. On ivy and conifers. Rowhill
<i>Nephus redtenbacheri</i> (Mulsant, 1846)		+	+	Local in grassland
<i>Hyperaspis pseudopustulata</i> Mulsant, 1853				Blackgang (Guyon NF)
<i>Platynaspis luteorubra</i> (Goeze, 1777)		+	+	Na Rare?overlooked? in open grassy places with the ant <i>Lasius niger</i> sens str. Gilkicker Point 2002 (JSD)
<i>Chilocorus bipustulatus</i> (L., 1758)		+	+	Local on heathland and junipers on the downs
Heather ladybird. <i>Chilocorus renipustulatus</i> (Scriba, 1791)		+	+	Widespread on various trees esp. ash, alder and willow.
Kidney-spot ladybird. <i>Exochomus quadripustulatus</i> (L., 1758)		+	+	Ubiquitous on trees including ash, sycamore and conifers.
Pine ladybird <i>Hippodamia tredecimpunctata</i> (L., 1758)		+		(RDBK) Hengistbury Head (modern Dorset) 2003 (SF)
13-spot ladybird <i>Hippodamia variegata</i> (Goeze, 1777)		+	+	(Nb) Local in ruderal areas.
Adonis ladybird <i>Anisosticta novemdecimpunctata</i> (L., 1758)		+	+	Local in wetlands
Water ladybird <i>Aphidecta oblitterata</i> (L., 1758)		+	+	Local on larch, firs and occasionally on pines.
Larch ladybird. <i>Tytthaspis sedecimpunctata</i> (L., 1758)		+	+	Widespread and abundant in grassland
16-spot ladybird <i>Adalia bipunctata</i> (L., 1758) 2-spot ladybird		+	R+	Widespread and common esp. in suburbia.
Adalia decempunctata (L., 1758) 10-spot ladybird		+	+	. Ubiquitous
<i>Coccinella magnifica</i> Redtenbacher, 1843 Scarce 7-spot ladybird		+	+	Na Local around the nests of the wood ant <i>Formica rufa</i> Pamber (HSD) Roydon Woods (DIBH)
<i>Coccinella hieroglyphica</i> L., 1758 Hieroglyphic ladybird		+	+	Local on heathland

Coccinella septempunctata L., 1758 7-spot ladybird		+	+	Ubiquitous
Coccinella undecimpunctata L., 1758 11-spot ladybird		+	+	Local, on low vegetation on sandy soils
Harmonia quadripunctata (Pontoppidan, 1763) Cream streaked ladybird			+	Local on pines <i>Pinus</i> ,
Myrrha octodecimguttata (L., 1758) 18-spot ladybird		+	+	Local on pines
Calvia quattuordecimguttata (L., 1758) Cream spot ladybird		+	+	Local on Ash, Lime and other broadleaved trees
Propylea quattuordecimpunctata (L., 1758) 14-spot ladybird		+	+	Ubiquitous
Myzia oblongoguttata (L., 1758) Striped ladybird		+	+	Local on Scot's pine on western heaths.
Anatis ocellata (Linnaeus, 1758) Eyed ladybird		+	+	Local on Scot's pine
Halyzia sedecimguttata (L., 1758) Orange ladybird		+	+	Widespread and increasing on mildewed leaves of hardwood trees.
Psyllobora vigintiduopunctata (L., 1758) 22-spot ladybird		+	+	Widespread and common

Sphaerosomatidae	Vc10	Vc11	Vc12	Notes
Sphaerosoma pilosum (Panzer)		+	+	Local. Synanthropic in compost heaps etc.

Endomychidae	Vc10	Vc11	Vc12	Notes
Mycetaea hirta (Marsham, 1802)			+	Local in fungoid wood, compost heaps rotting hay/straw
Symbiotes latus Redtenbacher, 1849		+	+	(Nb) Rare in fungoid wood. Titchfield Haven 1970s DMA
Lycoperdina bovistae (F., 1792)		+	+	RDB3 Newport (Jeffery) Hook Botley 1973 DMA Micheldever NR 1985 (DA) Winchester 1989 (DIBH)
Endomychus coccineus (L., 1758)		+	+	Local on fungoid wood esp. beech and birch.

Merophysidae	Vc10	Vc11	Vc12	Notes
Holopamecus caularum (Aube, 1843)			+	Local. Synanthropic in manure and compost heaps etc.

Lathriidae	Vc10	Vc11	Vc12	Notes
<i>Stephostethus angusticollis</i> (Gyllenhal, 1827)		+	+	Rare in decaying plant debris Sandown(HSD)
<i>Stephostethus lardarius</i> (Degeer, 1775)		+	+	Widespread and eurytopic, including gardens. [Also comes to MV light]
<i>Cartodere bifasciata</i> (Reitter, 1877)			+	Ubiquitous, since first appearance in 1950 as spread to become one the commonest species.
<i>Cartodere nodifer</i> (Westwood, 1839)		+	+	Frequent in fungi and litter
<i>Enicmus brevicornis</i> (Mannerheim, 1844)		+	+	(N) Local under bark esp. beech, and sycamore with sooty bark disease.
<i>Enicmus fungicola</i> Thomson, 1868				(N) [On fungoid wood]
<i>Enicmus histrio</i> Joy & Tomlin, 1910	+	+	+	Local ? Eaglehead Copse 2002 (JSD)
<i>Enicmus rugosus</i> (Herbst, 1793)		+	+	(N) Rare in old woodlands on slime moulds and fungi.
<i>Enicmus testaceus</i> (Stephens, 1830)		+	+	Local in woodlands
<i>Enicmus transversus</i> (Olivier, 1790)		+	+	Widespread in grasslands
<i>Dienerella ruficollis</i> (Marsham, 1802)		+	+	Widespread in grass heaps etc.
<i>Dienerella schueppeli</i> (Reitter, 1880)			=	Bramshill 1956 det AAA
<i>Dienerella separanda</i> (Reitter, 1887)		+		Frame Wood 1998 (JAO)
<i>Adistemia watsoni</i> (Wollaston, 1871)			+	Synanthropic. In fungoid materials
<i>Corticaria crenulata</i> (Gyllenhal, 1827)		+		?
<i>Corticaria elongata</i> (Gyllenhal, 1827)		+	+	In compost heaps etc.
<i>Corticaria ferruginea</i> Marsham, 1802		+		?
<i>Corticaria fulva</i> (Comolli, 1837)		+		
<i>Corticaria impressa</i> (Olivier, 1790)		+	+	Widespread and eurytopic in open habitats in moss , litter,
<i>Corticaria inconspicua</i> Wollaston, 1860				Alice Holt (JAP)
<i>Corticaria punctulata</i> Marsham, 1802				? [Riparian]
<i>Corticarina fuscula</i> (Gyllenhal, 1827)		+	+	Widespread and eurytopic in moss, litter etc.
<i>Corticarina lambiana</i> (Sharp, 1910)				(RDBI)
<i>Corticinara gibbosa</i> (Herbst, 1793)		+	+	Widespread and abundant in most habitats in moss, litter also on tree blossoms.

Ciidae (Minute tree fungus beetles)	Vc10	Vc11	Vc12	Notes
<i>Octotemnus glabriculus</i> (Gyllenhal, 1827)		+	+	Frequent in bracket fungi esp. <i>Trametes</i> esp. in beech woods.
<i>Sulcacis affinis</i> (Gyllenhal, 1827)		+	+	Local in fungi esp. <i>Trametes versicolor</i>
<i>Sulcacis bicornis</i> (Mellie, 1848)		+	+	(Nb) Rare in soft brackets <i>Trametes</i> etc.
<i>Cis alni</i> Gyllenhal, 1813	+	+	+	Local on fungi and in fungoid hardwood, esp. on Jew's Ear Fungus <i>Auricularia auricula-judae</i> esp. on Elder
<i>Cis coluber</i> Abeille, 1874				
<i>Cis festivus</i> (Panzer, 1793)		+	+	(Nb) Local in bracket fungi on Sallow, Aspen and birch.
<i>Cis pygmaeus</i> (Marsham, 1802)	*	+	+	Local on oak under bark and on fungoid wood Sandown
<i>Cis vestitus</i> Mellie, 1848			+	Local on dead oak branches [also in Polypore fungi on elm and beech]
<i>Cis bidentatus</i> (Olivier, 1790)		+	+	Rare.
<i>Cis bilamellatus</i> Wood, 1884		+	+	Naturalised, Australasian, appeared 20 th C. , local in Birch Polypore <i>Piptoporus betulinus</i> .
<i>Cis boleti</i> (Scopoli, 1763)		+	+	Frequent in fungi and fungoid wood esp in soft brackets.
<i>Cis fagi</i> Walth, 1839		+	+	Local in fungoid wood esp. red rotten oak.
<i>Cis hispidus</i> (Paykull, 1798)		+	+	Local on bracket fungi <i>Trametes</i> spp. on hardwoods.

<i>Cis lineatocribratus</i> Mellie, 1848		+		Mallard Wood 1974 DMA
<i>Cis micans</i> (F., 1792)		+	+	Local on fungi on hardwoods, esp. oak.
<i>Cis nitidus</i> (F., 1792)		+	+	Local on fungi on hardwoods
<i>Cis setiger</i> Mellie, 1848			+	Rare in bracket fungi and fungoid wood.
<i>Ennearthron cornutum</i> (Gyllenhal, 1827)		+	+	Widespread on fungi and fungoid wood.

Mycetophagidae (Hairy Fungus beetles)	Vc10	Vc11	Vc12	Notes
<i>Pseudotriphyllus suturalis</i> (F., 1801)		+	+	Local in fungi and fungoid hardwoods
<i>Triphyllus bicolor</i> (F., 1777)		+	+	Local in fungi and fungoid hardwoods Frame Wood 1998 (JAO)
<i>Litargus connexus</i> (Fourcroy, 1785)	+	+	+	Local in fungi and fungoid wood including gorse.
<i>Mycetophagus atomarius</i> (F., 1787)	+	+	+	Local in fungi on trees, and under bark. Eaglehead Copse 2002 (JSD)
<i>Mycetophagus multipunctatus</i> F., 1792		+	+	Local in fungi on trees, and under bark.
<i>Mycetophagus piceus</i> (F., 1777)		+	+	(Nb) Local in fungi on trees, and under bark.
<i>Mycetophagus populi</i> F., 1798				Local
<i>Mycetophagus quadriguttatus</i> Mueller, 1821		+	+	Na Rare in fungi on trees, and under bark. Rotherfield Park 2002 (JSD)
<i>Mycetophagus quadripustulatus</i> (L., 1761)		+	+	Local in fungi on trees, and under bark.
<i>Typhaea stercorea</i> (L., 1758)		s-f +	+	Widespread in haystack debris and occasionally under hardwood bark.

Colydidae (Cylindrical Bark beetles)	Vc10	Vc11	Vc12	Notes
<i>Endophloeus markovichianus</i> (Piller & Mitterpa)				(RDB!) 1862
<i>Aglenus brunneus</i> (Gyllenhal, 1813)			+	
<i>Orthocerus clavicornis</i> (L., 1758) ?				(Nb) [Sandy ground with <i>Peltigera</i> lichens]
<i>Synchita humeralis</i> (F., 1792)		+	+	(Nb) Local on fungoid wood.
<i>Cicones variegatus</i> (Hellwig, 1792)		+	+	Na Rare on fungi and dry deaying fungoid hardwoods Henwood
<i>Bitoma crenata</i> (F., 1775)		+	+	Widespread under bark of hardwoods and conifers.
<i>Colydium elongatum</i> (F., 1787)		+	+	RDB3Local but increasing? In dead under bark esp. beech, birch & oak etc. NF 1999 (RGB) Yateley C. Odiham C. (JSD)
<i>Pycnomerus fuliginosus</i> Erichson, 1842		+	+	Naturalised, Australasian species. Increasingly common under bark incl. pine. Spreading esp.in west of county
<i>Oxyaemus cylindricus</i> (Panzer, 1796)				
<i>Oxyaemus variolosus</i> (Dufour, 1843)		+		West Walk 1971 DMA Frame Wood 1998 (JAO)

Tenebrionidae (Darkling beetles)	Vc10	Vc11	Vc12	Notes
Eledona agricola (Herbst, 1783)		+	+	(Nb) Local in fungi, usually Chicken-of-the-woods <i>Laetiporus sulphureus</i> esp. on oak and cherry.
Diaperis boleti (L., 1758)				
Scaphidema metallicum (F., 1792)		+	+	(Nb) Local on fungoid wood esp. elder.
Platydemia violaceum (Fab., 1790)				NF 1901 (HSD)
Alphitophagus bifasciatus (Say, 1823) Two-banded Fungus beetle	*	+		[Synanthropic in stored grain etc., also in fungi, compost and haystack refuse]
Gnatocerus cornutus (Fabricius, 1798)				
Tribolium castaneum (Herbst, 1797) Rust-red flour beetle			+	[Synanthropic in stored grain etc.]
Tribolium confusum du Val, 1863 Confused flour beetle				[Synanthropic in stored grain etc.]
Palorus ratzeburgi (Wissmann, 1848) Small-eyed flour beetle			+	[Synanthropic in stored grain etc.]
Palorus subdepressus (Wollsatton)			+	Naturalised ?? Medstead 2004 (JSD)
Alphitobius diaperinus (Panzer, 1796) Lesser mealworm beetle			+	. Local, in Manure heaps also on fungi in wild, also comes readily to MV light.
Alphitobius laevigatus (F., 1781) Black fungus beetle		+	+	Local in manure heaps esp. deep litter debris from chicken farms
Corticeus bicolor (Olivier, 1790)		+	+	Rare under ash and elm bark with Scolytids esp. <i>Scolytus multistriatus</i> & <i>S.scolytus</i> in elm bark.
Corticeus fraxini (Kugelann, 1794)			+	Local under pine bark, with Scolytids esp. <i>Ips sexdentatus</i>
Corticeus linearis (F., 1790)		+	+	Rare under pine bark with <i>Pityogenes bidentatus</i> .
Corticeus unicolor Piller Mitterpacher, 1783		*		RDB3 NF
Myrmexenus subterraneus Chevrolat, 1835				New Forest
Myrmexenus vaporariorum Guer.-Menev,			+	RDB3 Rare in compost heaps and grass cuttings. Beech Ackender Wood 1998 (JSD)
Blaps lethifera Marsham, 1802		*		
Blaps mucronata Latreille, 1804 Churchyard or Cellar beetle		+	+	Synathropic in cellars and stables, declining? E.Cholderton Alton (JSD) etc
Tenebrio molitor L., 1758 Yellow mealworm beetle		+	+	Synanthropic in stored flour etc. Often attracted to light.
Tenebrio obscurus F., 1792 Dark mealworm beetle		+	+	Synanthropic in stored flour etc. also in stables
Helops caeruleus (L., 1758)		+	?	(Nb) ? Saprophytic in a variety of dead wood esp. oak Alver Valley 2003 (JSD) Sandown taylor Winchester 1983 (DIBH)
Nalassus (Cylindrinotus) laevioctostriatus (Goeze, 1777) False ground beetle		+	+	Frequent esp. under bark on trees esp. pine, also on heather on open heath. Grazes <i>Pleurococcus</i> algae.
Xanthomus (Cylindronotus) pallidus (Curtis, 1830)	*			St.Helens IoW (HSD)
Opatrum sabulosum (L., 1758)	*	+		Sandown. Gilkicker 2001 (JSD)
Phylan gibbus (F., 1775)				Sandown Portsmouth
Melanimon tibialis (F., 1781)		+	+	V.local in open disturbed sandy areas on heathland.
Phaleria cadaverina (F., 1792)	*	?		Sandown Portsmouth
Prionychus ater (F., 1775)		+	+	(Nb) Local in rotting wood esp. red-rotten oak.

Gonodera luperus (Herbst, 1783)		+	+	Local, Saprophytic. Adults on vegetation in rides and woodland edge habitats. Portsdown Hill
Pseudocistela ceramboides (L., 1758) ??		+	+	(Nb) Rare. Saprophytic on hardwoods, comes to light. WestWood Whitley Wood DMA
Isomira murina (L., 1758)		+	+	Widespread in woods and commons on flowers. Gilkicker 2002 (JSD)
Mycetochara humeralis (F., 1787)		+		
Cteniopus sulphureus (L., 1758)				
Lagria hirtipes Mulsant & Guillebeau, 1855		*		
Lagria hirta (L., 1758)		+	+	Local on hedgerows, also in open situations in grassland

Tetratomidae	Vc10	Vc11	Vc12	Notes
Tetratoma ancora F., 1791		+		(Nb) Rare on oak, hazel etc., on canker fungi <i>Phlebia merismoides</i> , and other fungi. Shutt's Copse NR 2002 (JSD)
Tetratoma desmaresti Latreille, 1807		+	+	(Na) Southwood 2004 (JSD) Brockenhurst 1970 (DMA) Linwood 2000 (AJWA)
Tetratoma fungorum F., 1790		+	+	Local on fungi and fungoid wood, including birch polypore <i>Piptoporus betulinus</i> .

Salpingidae (Narrow-waisted bark beetles)	Vc10	Vc11	Vc12	Notes
Lissodema quadripustulata (Marsh, 1802)	+	+	+	(Nb) Local on dead and dying branches of hardwoods esp. hawthorn and maple Shutt's Copse 2002(JSD)
Salpingus castaneus (Panzer, 1796)		+	+	Local on dead and moribund conifers.
Salpingus reyi (Abeille, 1874)		+	+	Local in burnt twigs especially birch on heathland after fires. Blackgang (HSD)
Vincenzellus ruficollis (Panzer, 1794)		+	+	Local on dead and moribund hardwoods, especially hawthorn and beech
Rhinosimus planirostris (F., 1787)		+	+	Widespread on dead and moribund hardwoods
Rhinosimus ruficollis (L., 1761)		+	+	Local on dead and moribund hardwoods

Pyrochroidae (Cardinal beetles) 2 species	Vc10	Vc11	Vc12	Notes
Pyrochroa coccinea (L., 1761)		+	+	(Nb) Widespread, much increased in 20 th C? larvae under bark of hardwoods (and conifers?). +50 records
Pyrochroa serraticornis (Scopoli, 1763)	+	+	+	Widespread, larvae under bark of hardwoods and conifers. Freshwater 1983 (S.K-J)

Melandryidae (False darkling beetles)	Vc10	Vc11	Vc12	Notes
Hallomenus binotatus (Quensel, 1790)		+	+	(Nb) V.local in bracket fungi, and fungoid wood incl. Pine.
Orchesia micans (Panzer, 1793)		+	+	(Nb) V.local in fungi and fungoid wood including <i>Inonotus radiatus</i> on Alder.
Orchesia minor Walker, 1836	+	+	+	(Nb) V.local in fungi and fungoid wood Eaglehead Copse 2002 (JSD)
Orchesia undulata Kraatz, 1853		+	+	Local in fungi and fungoid wood and decaying bracket fungi. Apparently very rare in 19 th C!!
Anisoxya fuscata (Illiger, 1798)		+	+	Na Local on dead and dying branches of hardwoods esp. <i>Salix</i> and <i>Populus</i> Freshwater & Sandown (HSD)
Abdera biflexuosa (Curtis, 1829)	+	+	+	(Nb) Local on dead and dying boughs of oak on large trees. St.Helens Duver 1998 (KNAA)
Abdera flexuosa (Paykull, 1799)		+	+	(Nb) Rare on bracket fungi <i>Inonotus radiatus</i> on Alder,
Abdera quadrifasciata (Curtis, 1829)		+	+	Na Local on dead and dying boughs of oak on large trees
Phloiotrya vaudoueri Mulsant, 1856		+	+	(Nb) V.local on fungoid hardwood boughs esp of beech and oak. Newport IoW Morey)
Melandrya barbata (Fabricius, 1787)		+	+	RDB1 Harewood Forest 2004 (MT det JSD)
Melandrya caraboides (L., 1761)		+	+	(Nb) Local on hardwoods esp. oak. Titchfield haven (DMA)
Conopalpus testaceus (Olivier, 1790)		+	+	(Nb) Local on dead and moribund oak boughs on large trees. Godshill IoW (Morey)

Scraptidae				
Scraptia testacea Allen, 1940			+	Queen Bower 1984 (DMA) Mottisfont 1997 (KNAA)
Anaspis costai Emery, 1876			+	Rare, saproxylic, adults at blossoms.
Anaspis frontalis (L., 1758)			+	Widespread and frequent, saproxylic, adults on blossoms esp. hawthorn, sloe etc
Anaspis garneysi Fowler, 1889			+	Local, adults on blossoms esp. hawthorn, sloe etc
Anaspis humeralis (F., 1775)	+		+	Widespread and frequent, saproxylic, adults on blossoms esp. hawthorn, sloe etc.
Anaspis lurida Stephens, 1832			+	Widespread and frequent, saproxylic, adults on blossoms esp. hawthorn, sloe etc.
Anaspis maculata Fourcroy, 1785	+		+	Local, saproxylic, adults on blossoms esp. hawthorn, sloe etc.
Anaspis melanostoma Costa, 1854			?	
Anaspis pulicaria Costa, 1854			+	Local, adults on blossoms esp. hawthorn, sloe etc.
Anaspis regimbarti Schilsky, 1895			+	Local, adults on blossoms esp. hawthorn, sloe etc.
Anaspis rufilabris (Gyllenhal, 1827)	+		+	Local, adults on blossoms esp. hawthorn, sloe etc.
Anaspis thoracica (L., 1758)			+	Na Local Saproxylic adults on oak boughs, also at blossoms.

Mordellidae (Tumbling Flower beetles)	Vc10	Vc11	Vc12	Notes
Tomoxia bucephala Costa, 1854		+	+	Na Local, increasing? Saproxylic on a variety of trees including pine. +10 post 1980 records
Variimorda villosa (Schrank, 1781)		+	+	Nb Local in herb rich grassland esp. on the chalk.
Mordella holomelaena Apfelbeck, 1914		+	+	(RDBK) Crab Wood NR 1976, Harewood Forest 1975 (DA)
Mordellistena acuticollis Schilsky, 1895		+	+	Recent immigrant?, first recorded in UK in 1985, now widespread on Mugwort <i>Artemisia vulgaris</i> (Levey, 2002).
Mordellistena humeralis (L., 1758)		+	+	(RDBK) Rare on hedgerows and woods Old records much confused with <i>variegata</i>
Mordellistena nanuloides Ermisch, 1967		+		Portsdown Hill 1991 ((DMA))
Mordellistena neuwaldeggiana (Panzer, 1796)		+	+	(RDBK) Local, increasing, on a variety of hardwoods in small branches
Mordellistena parvula (Gyllenhal, 1827)		+		(RDBK) Rare [on Yarrow? In open warm areas on grassland] Sandown (GCC) Gilkicker Point 2002 (JSD)
Mordellistena pumila (Gyllenhal, 1810)		+	+	Local in open grasslands esp. on the downs
Mordellistena pseudoparvula Ermisch, 1956 ??				(RDBK)
Mordellistena variegata (F., 1798)		+	+	V.local, saproxylic in hardwood twigs etc.
Mordellochroa abdominalis (F., 1775)		+	+	Local, saproxylic, adults on blossoms esp. hawthorn, sloe etc.

Rhipiphoridae	Vc10	Vc11	Vc12	Notes
Metoecus paradoxus (L., 1761)		+?	+	Local in nests of social wasps <i>Vespidae</i> , sometimes in houses.

Oedemeridae (False blister beetles)	Vc10	Vc11	Vc12	Notes
Nacerdes melanura (L., 1758) Wharf-borer		+		
Oncomera femorata (F., 1792)	+	+		Na St.Helens Hook Titchfield (DMA) Freshwater 1989 (S.K-J)
Ischnomera caerulea (L., 1758)				RDB
Ischnomera cyanea (F., 1787)		+	+	Nb V.local, saproxylic, in decaying hardwoods, adults at blossoms. +5 post 1980 records.
Ischnomera sanguinicollis (F., 1787)			+	NF Harewood Forest 1974 (DMA)
Oedemera lurida (Marsham, 1802)	+	+	+	Widespread and locally abundant in grasslands and rides.
Oedemera nobilis (Scopoli, 1763)	+	+	+	Widespread and locally abundant in grasslands and rides.

Meloidae (Oil beetles)	Vc10	Vc11	Vc12	Notes
<i>Lytta vesicatoria</i> (L., 1758)	*	*	*	Ash EAD Sandown J Taylor Soton 1838 lots
<i>Meloe brevicollis</i> Panzer, 1793	*			RDB1 Sandown Goldthwait
<i>Meloe proscarabaeus</i> L., 1758		+	+	Rare Oxenbourne Down 1972 (DMA) Noar Hill 2002
<i>Meloe variegatus</i> Donovan, 1793				Extinct
<i>Meloe violaceus</i> Marsham, 1802				Nb Extinct?
<i>Apalus muralis</i> (Forster, 1771)				

Anthicidae	Vc10	Vc11	Vc12	Notes
<i>Notoxus monoceros</i> (L., 1761)		+	+	Local on open disturbed areas on sandy soils. Hayling Island Woolmer
<i>Anthicus antherinus</i> (L., 1761)	+	+	+	Widespread. Synanthropic in compost heaps etc.
<i>Cyclodinus constrictus</i> (Curtis)		+		Gilkicker Point et (JSD)
<i>Cyclodinus salinus</i> (Crotch)	*	+		
<i>Omonadus bifasciatus</i> (Rossi)			+	Rare in compost and manure heaps.
<i>Omonadus floralis</i> (Linnaeus)	+	+	+	Widespread and frequent in grass and compost heaps, and in haystack debris.
<i>Cordicomus instabilis</i> (Schmidt)	*	+		Sandown
<i>Stricticomus tobias</i> (Marseul)		+		
<i>Anthicus tristis</i> Schmidt	*	*		Bembridge (HSD) Lyminster WBlatch

Aderidae	Vc10	Vc11	Vc12	Notes
<i>Euglenes oculatus</i> (Paykull)		+	+	Nb V.local on oaks, larvae in red-rot, adults on foliage [adults favour Elder <i>Sambucus</i> blossom] Newport Butler
<i>Aderus populneus</i> (Creutzer, 1796)		+	+	Nb V.local on oaks, adults often swarming on foliage of outer branches [adults at hawthorn, and <i>Salix</i> catkins]

Cerambycidae (Longhorns)	Vc10	Vc11	Vc12	Notes
<i>Prionus coriarius</i> (L., 1758) The Tanner		+	+	Na Local saproxylic in roots of hardwoods and pine, nocturnal, and comes to light.
<i>Arhopalus rusticus</i> (L., 1758) Dusky Longhorn	+	+	+	Local, in conifers esp. pine. Freshwater 1989 (S.K-J)
<i>Arhopalus tristis</i> (F., 1787)		+	+	Rare, much declined in conifers esp. pine, Freshwater 1983 (S.K-J) to light
<i>Asemum striatum</i> (L., 1758)		+	+	Immigrant in England, increasing? Local in conifers esp. pine attracted to recently cut or felled timber
<i>Tetropium gabrieli</i> Weise, 1905		+	+	Rare? Naturalised. In conifers esp. larch including felled timber.
<i>Rhagium bifasciatum</i> F., 1775	+	+	+	Frequent in woods and wooded heaths esp. in pine.
<i>Rhagium inquisitor</i> (L., 1758)				
<i>Rhagium mordax</i> (Degeer, 1775)	+	+	+	Widespread in hardwoods esp. oak and ash.
<i>Stenocorus meridianus</i> (L., 1758)	+	+	+	Local in woodlands, illusive despite size. Breeds in a variety of hardwoods.
<i>Acmaeops collaris</i> (L., 1758)		*		RDB1
<i>Grammoptera ruficornis</i> (F., 1781)	+	+	+	Frequent, adults common on blossoms esp. hawthorn, sloe etc.
<i>Grammoptera ustulata</i> (Schaller, 1783)		+	+	RDB3 Rare on hardwoods in ancient woods and parkland.)
<i>Grammoptera abdominalis</i> (Stephens, 1831)	*	*	*	Na
<i>Alosterna tabacicolor</i> (Degeer, 1775)		+	+	Local but widespread adults on flowers esp. umbels
<i>Leptura livida</i> F., 1777	+	+	+	V.local, adults at flowers esp. umbels.
<i>Leptura fulva</i> Degeer, 1775		+	+	RDB3 Woods in river valleys and on downs
<i>Leptura rubra</i> L., 1758			+	Recent colonist on pine in Woolmer Forest.

Leptura sanguinolenta L., 1761		?		Southampton (beck)
Leptura scutellata F., 1781		+		
Leptura sexguttata F., 1775		+		
Judolia cerambyciformis (Schrank, 1781)		+	+	V.local, on flowers in woodlands (see Morris, 2000)
Strangalia aurulenta (F., 1792)		+	+	Na
Strangalia maculata (Poda, 1761)	+	+	+	Frequent at blossoms, breeding in hardwoods Freshwater 1984 (S.K-J)
Strangalia melanura (L., 1758)	+	+	+	Local, but widespread perhaps commonest on wooded heaths
Strangalia nigra (L., 1758)		+	*	
Strangalia quadrifasciata (L., 1758)		+	+	Local, commonest on wooded heaths. develops in deaying wood and stumps esp. birch.
Strangalia revestita (L., 1767)		*	*	RDB1 V.Rare.
Cerambyx cerdo L., 1758		*		New Forest?
Ceambyx scopoli Fuessly, 1775		*		Portsmouth in dockyard in 19 th C
Trinophyllum cribratum Bates, 1878	<			Immigrant alien, possibly established in Britain. Cowes on British Oak in wood yard 1947 (BMNH coll)
Gracilia minuta (F., 1781)	*	+		RDB2 ? much declined in Seaview IoW Sandown (HSD)
Obrium brunneum (F., 1792)		+		
Nathrius brevipennis (Mulsant, 1839)		*		Portsmouth dist ??
Molorchus minor (L., 1758)		+	+	Naturalised, Rare in a variety of trees esp. spruce? Adults visit blossom.
Molorchus umbellatarum (von Schreber, 1759)				
Aromia moschata (L., 1758) Musk beetle		+	+	Nb Rare in willows near water. Ovnngton R.Alre
Hylotrupes bajulus (L., 1758) House longhorn		*		
Callidium violaceum (L., 1758)		*		
Phymatodes alni (L., 1767)		+	+	Nb Rare, declining.
Phymatodes testaceus (L., 1758)	*	+	+	V.local in variety of hardwoods, including Sycamore, Sweet Chestnut. Often occurs in untreated fence posts.
Clytus arietis (L., 1758) Wasp beetle	+	+	+	Widespread and frequent in woods and gardens
Chlorophorus annularis Fabricius			+	Exotic imported species Medstead 2004 (Laura Denton)
Anaglyptus mysticus (L., 1758)		+	+	Nb Local, in woods and hedgeows, adults on blossoms esp. hawthorn.
Lamia textor (L., 1758)		*		RDB1
Mesosa nebulosa (F., 1781)		+		
Pogonocherus fasciculatus (Degeer, 1775)		+	+	Nb Recent immigrant/intro on pine.
Pogonocherus hispidulus (Piller & Mitter., 1783)	+	+	+	Local on wide variety of trees.
Pogonocherus hispidus (L., 1758)	+	+	+	Local on a wide variety of trees, adults esp. on holly
Leiopus nebulosus (L., 1758)	+	+	+	Local usually on oak preferring moribund / dead but attached branches of large trees
Agapanthia villosoviridescens (Degeer, 1775)			+	Local In thistles and umbellifers, increasing southward?] Micheldever 2001 (JSD)
Saperda carcharius 11 ??				
Saperda populnea (L., 1758)		+	+	V.local on Aspen on damp heathland and woodland rides
Stenostola dubia (Laicharting, 1784)		+	+	Nb Rare on lime <i>Tilia</i> trees in woods and parkland [comes to ligh traps] Micheldever (GAC)
Phytoecia cylindrica (L., 1758) Lime longhorn		+	+	Nb V.local breeds in stems of umbellifers. Pamber (HSD)
Tetrops praeusta (L., 1758) Plum longhorn	+	+	+	Local, breeds on woody Rosaceae esp. apple, and possibly in other hardwoods.

Bruchidae (Bean weevils)				
Bruchus atomarius (L., 1761)		*	*	Nb ? on vetches <i>Vicia</i> , <i>Lathyrus</i> .
Bruchus loti Paykull, 1800	*	+	+	Local on Meadow Vetchling <i>Lathyrus pratensis</i>
Bruchus pisorum (L., 1758)			*	? on imported beans and pulses

Bruchus rufimanus Boheman, 1833	+	+	+	Local on various legumes including cultivated beans
Bruchus rufipes Herbst, 1783	+	+	+	Widespread on various vetches <i>Vicia</i> , and possibly clovers <i>Trifolium</i> spp.
Bruchidius cisti (F., 1775)	+	+	+	Rare, adults on Rock-Rose <i>Helianthemum</i> Freshwater (HSD)
Bruchidius olivaceus (Germar, 1824)		*		RDB1 ? [
Bruchidius varius (Olivier)	+	+	+	Recent immigrant, now widespread and well established on Red Clover.
Bruchidius villosus (F., 1792)		+	+	Local , but usually present wherever decent stands of Broom <i>Cytisus</i> grow.
Callosobruchus chinensis (L., 1758)		*		New Fores t1912 (D.Sharp)

Chrysomelidae (Leaf Beetles)	Vc10	Vc11	Vc12	Notes
Donacia bicolora Zschach, 1788	*	+	+	(RDB2) Local on <i>Sparganium emersum</i> at margins of R.Wey IoW 1936 (JLH)
Donacia cinerea Herbst, 1784		+	+	Nb V.local on <i>Typha</i> . Eelmoor (JSD)
Donacia clavipes Fabricius, 1792		+	+	Nb V.local on Reeds <i>Phragmites</i> at margins of lakes and ponds.
Donacia crassipes F., 1775		+		Nb Rare on White Lily <i>Nymphaea alba</i> , Shortheath Yateley (JSD)
Donacia dentata Hoppe, 1795		+		Na Extinct? [on Arrowhead <i>Sagittaria</i>]
Donacia impressa Paykull, 1799				
Donacia marginata Hoppe, 1795	+	+	+	Local on <i>Sparganium</i> esp. beside still water.
Donacia obscura Gyllenhal, 1813				
Donacia semicuprea Panzer, 1796		+	+	Local on <i>Glyceria maxima</i> at water margins esp. beside flowing water. Frequent along Wey navigation
Donacia simplex Fabricius, 1775	+	+	+	Widespread on <i>Sparganium</i> at margins of ponds, lakes, rivers and canals +50 post 1980 records
Donacia sparganii Ahrens, 1810				
Donacia thalassina Germar, 1811		+		Nb Rare on <i>Carex</i>
Donacia versicolorea (Brahm, 1791)	+	+	+	Local on <i>Potamogeton natans</i> in ponds and pools.
Donacia vulgaris Zschach, 1788	+	+	+	Widespread on <i>Typha</i> , <i>Sparganium</i> etc.
Plateumaris affinis (Kunze, 1818)		+	+	Nb V.local on <i>Carex</i> at margins of ponds and streams
Plateumaris discolor (Panzer, 1795)		+	+	Local in wetlands in acidic areas including bogs
Plateumaris sericea (L., 1758)		+	+	Local in wetlands with richer waters, fen like areas and weedy pond margins.
Orsodacne lineola (Panzer, 1795)		+	+	Nb Rare on Hawthorn and allied Rosaceae.
Zeugophora flavicollis (Marsham, 1802)			*	(RDB2) Rare on Aspen <i>Populus tremulae</i> . Kimpton (Rudd)
Zeugophora subspinosa (F., 1781)		+	+	Local on Aspen <i>Populus tremulae</i> , and Willows <i>Salix</i> .
Lema cyanella (L., 1758)		+	+	Local on thistles esp. <i>Cirsium arvense</i>
Oulema obscura (Stephens, 1831) lichenis (Voet)		+	+	Widespread in damp grassland, and wetlands
Oulema melanopus (L., 1758)		+	+	Local ? Recently split from next species. scarcer than next species in my experience.
Oulema rufocyanea (Suffrian)		+	+	Widespread? The commoner of the split in VC12 frequent in tussocks in winter
Crioceris asparagi (L., 1758) Asparagus beetle		+	+	Widespread but very local on Asparagus in gardens neglected allotments etc.
Lilioceris lili (Scopoli, 1763) Lily beetle		+	+	Local, increasing on various garden lilies Alton (WD) Winton (DIBH)
Labidostomis tridentata (L., 1758)				RDB1 ? [on birch]
Clytra quadripunctata (L., 1758)		+	+	V.local on and near wood ant <i>Formica rufa</i> nests, in which the larvae develop.
Cryptocephalus aureolus Suffrian, 1847	+	+	+	Nb V.local on downland, adults on various yellow composites
Cryptocephalus biguttatus (Scopoli, 1763)			+	(RDB2) Rare on wet heathland and bog margins on <i>Erica tetralix</i>] Eversley 1905 BMNH coll. Eelmoor Marsh 1998 (PJH)
Cryptocephalus bilineatus (L., 1767)	+	+	+	Nb Rare on downland on Kidney Vetch <i>Anthyllis vulneraria</i>
Cryptocephalus bipunctatus (L., 1758)		+	+	Nb V.local on heathland on birch?, and on the downs on various trees.

Cryptocephalus coryli (L.)			+	RDB1 Woolmer Forest 2001 (Mike Lawn)
Cryptocephalus fulvus Goeze, 1777		+	+	Local on Sheep's Sorrel <i>Rumex acetosella</i> on sandy heathland. Also on <i>Lotus corniculatus</i> esp. on the chalk
Cryptocephalus hypochaeridis (L., 1758)		+	+	V.local on downland, adults on various yellow composites
Cryptocephalus labiatus (L., 1761)		+	+	Local on birch and oak.
Cryptocephalus moraei (L., 1758)	+	+	+	Local on St.John's Worts <i>Hypericum</i> spp. esp. on sandy and chalky soils.
Cryptocephalus nitidulus F., 1787				
Cryptocephalus parvulus Mueller, 1776		+	+	Nb V.local on birch on Lower Greensand and Tertiary heaths and commons.
Cryptocephalus pusillus F., 1777		+	+	Local on birch and <i>Salix</i> .
Cryptocephalus querceti Suffrian, 1848				
Cryptocephalus sexpunctatus (L., 1758)		*	+	(RDB2) [on hazel, birch aspen etc.] Lords Wood, Soton 1887 (D.Sharp) Stockbridge Down 1996 (ISM)
Lamprosoma concolor (Sturm, 1807)	+	+		Local in woodlands. Swanspond Copse 2002 (JSD)
Timarcha goettingensis (L., 1758)	+	+	+	Small bloody-nosed beetle. Local on Bedstraws <i>Galium</i> spp. Freshwater 1984 (S.K-J)
Timarcha tenebricosa (F., 1775)	+	+	+	Local on Bedstraws <i>Galium</i> spp. Noar Hill (JSD) Swanpond Copse NR 2002 (JSD)
Chrysolina americana (L.) Rosemary beetle			+	Naturalised and increasing on Rosemary <i>Rosmarinus officinalis</i> and Lavender <i>Lavandula</i> spp.
Chrysolina banksi (F., 1775)	+			Local on Black Horehound <i>Ballota nigra</i> and plantains. Freshwater 1990 (S.K-J)
Chrysolina brunsvicensis (Graven., 1807)		+	+	Rare on <i>Hypericum</i> esp. <i>H.tetrapterum</i> in damp rides and heaths. Luccombe J>Taylor
Chrysolina fastuosa (Scopoli, 1763) ??				Rare, possibly extinct. [On Hemp-Nettle in damp areas]
Chrysolina haemoptera (L., 1758)	+	+		Nb ? [on plantains]
Chrysolina hyperici (Forster, 1771)		+	+	Local on <i>Hypericum</i> esp. on sandy and chalky soils.
Chrysolina herbacea (Duft., 1825) menthastri (Suff.		+	+	Mint Leaf beetle. Local on <i>Mentha aquatica</i> & hybrids in wetlands, increasingly occurring in gardens on cultivated mints.
Chrysolina marginata (Linnaeus, 1758)			+	Na Rare on Yarrow. Shortheath C. 1998 (JSD)
Chrysolina oricalcia (Mueller, 1776)	+	+	+	Nb Widespread on Cow parsley <i>Anthriscus</i>
Chrysolina polita (L., 1758)		+	+	Widespread in damp areas on labiates
Chrysolina sanguinolenta (L., 1758)		+	+	Na Rare on Common Toadflax <i>Linaria vulgaris</i> . Martin Down 1991 (DIBH)
Chrysolina staphylaea (L., 1758)		+	+	Local? on buttercups? Titchfield haven (DMA)
Chrysolina varians (Schaller, 1783)		+	+	Local on <i>Hypericum</i> esp. on sandy and chalky soils.
Chrysolina violacea (Mueller, 1776)		+	+	Nb Rare on Ground-Ivy <i>Glechoma hederacea</i> Bramdean Common 1978 (DA), Martin Down 1991 (DIBH)
Gastrophysa polygoni (L., 1758)	+	+	+	Local on Knotgrass <i>Polygonum</i> in disturbed open areas.
Gastrophysa viridula (Degeer, 1775)		+	+	Local but increasing on docks <i>Rumex</i>
Phaedon armoraciae (L., 1758)		+	+	Local on Brooklime <i>Veronica beccabungae</i> in ponds and streams
Phaedon cochleariae (F., 1792)		+	+	Local on <i>Nasturtium officinale</i> and <i>Rorippa</i> in wetlands including streams
Phaedon concinnus Stephens, 1831		*		Portsmouth (Fowler)
Phaedon tumidulus (Germar, 1824)		+	+	Widespread on Hogweed <i>Heracleum sphondylium</i>
Hydrothassa glabra (Herbst, 1783)		+	+	V.rare in Sy.
Hydrothassa hannoveriana (F., 1775)		+		
Hydrothassa marginella (L., 1758)		+	+	Local on buttercups <i>Ranunculus</i> in wetlands and damp grasslands
Prasocuris junci (Brahm, 1790)		+	+	Local on Brooklime <i>Veronica beccabungae</i> in ponds and streams
Prasocuris phellandrii (L., 1758)		+	+	Local on wetland <i>Oenanthe</i> and occasionally on other plants.
Plagioderma versicolora (Laicharting, 1781)		+	+	Local on narrow leaved <i>Salix</i> esp. near water. <i>Lower Test Marshes</i> 1992 (DIBH)
Chrysomela populi L., 1758	+	+	+	Local on low growing <i>Populus tremula</i> and <i>Salix repens</i> esp. on damp heaths and rides.
Chrysomela tremula F., 1787				
Phytodecta decemnotata (Marsham, 1802)		+	+	Nb Local on Aspen on heaths and commons,

Phytodecta olivacea (Forster, 1771)	+	+	+	Local, but usually present wherever good stands of broom occur.
Phytodecta pallida (L., 1758)		+	+	V.local on Hazel, and Rowan
Phytodecta viminalis (L., 1758)		+	+	Local on Sallow and other <i>Salix</i> esp. on damp heathy areas.
Phyllodecta laticollis Suffrian, 1851		+	+	Local on <i>Populus</i> esp. Aspen <i>P.tremulae</i>
Phratora (Phyllodecta) vitellinae (L., 1758)		+	+	Local on <i>Salix</i> and <i>Populus</i>
Phratora (Phyllodecta) vulgatissima (L., 1758)		+	+	V.local on <i>Salix</i> and <i>Populus</i>
Galerucella calvariensis (L., 1767)		+	+	Widespread on Purple Loosestrife <i>Lythrum salicaria</i> at river, stream and canal margins on
Galerucella lineola (F., 1781)		+	+	Local on <i>Salix</i> .
Galerucella nymphaeae (L., 1758)		+	+	Local on waterlilies esp. <i>Nymphaea alba</i>
Galerucella sagittariae (Gyllenhal, 1813)		+	+	Widespread on various wetland plants <i>Rumex hydrolapathi</i> , <i>Lysimachia vulgaris</i> (' <i>G.grisescens</i> ' form)
Galerucella tenella (L., 1761)		+	+	Local on Meadowsweet <i>Filipendula ulmaria</i> esp in damp meadows
Pyrrhalta viburni (Paykull, 1799)		+	+	Local on Wayfaring Tree <i>Viburnum lantana</i> esp. on the chalk, and Guelder-Rose <i>V.opulus</i> .
Galeruca tanaceti (L., 1758)		+	+	Local on Devil's-bit Scabious in damp grassland and rides and the 'breck form' on Yarrow on disturbed dry soils
Lochmaea caprea (L., 1758)		+	+	Widespread on Sallows and other <i>Salix</i>
Lochmaea crataegi (Forster, 1771)		+	+	Widespread on Hawthorn

Lochmaea suturalis (Thomson, 1866)		+	+	The heather beetle Locally but can be very abundant on Ling <i>Calluna vulgaris</i> .
Phyllobrotica quadrimaculata (L., 1758)		+		V.local on Skullcap <i>Scutellaria galericulata</i> in damp grassland and wetlands.
Luperus flavipes (L., 1767)		+	+	Nb Local on Aspen, Birch [oak]etc. Pamber Forest
Luperus longicornis (F., 1781)		+	+	Locally frequent on birch esp. on the heaths and commons
Calomicrus circumfusus (Marsham, 1802)		*	+	Na ? [on gorse <i>Ulex</i> , Broom <i>Cytisus</i> , and greenweed <i>Genista</i>] Parkhurst, Sandwon (Fowler) Browndown (JSD)
Agelastica alni (L., 1758)				
Sermylassa halensis (L., 1767)		+	+	Local on bedstraws <i>Galium</i> spp. esp. on downland
Phyllotreta punctulata (Marsham, 1802) aerea Allard		+	+	Nb Scarce on Radish <i>Raphanus</i> , and Horse-Radish <i>Armoracia rusticana</i>
Phyllotreta atra (F., 1775)	+	+	+	Frequent on various crucifers
Phyllotreta consobrina (Curtis, 1837)	+	+	+	Local on various crucifers
Phyllotreta cruciferae (Goeze, 1777)	*	+	+	Nb V.local on various crucifers.
Phyllotreta diademata Foudras, 1860		+	+	Local on Cuckooflower <i>Cardamine pratense</i>
Phyllotreta exclamationis (Thunberg, 1784)		+	+	? on various crucifers Titchfield Haven (DMA)
Phyllotreta nemorum (L., 1758)		+	+	Frequent on crucifers
Phyllotreta nigripes (F., 1775)		+	+	Local on crucifers and Weld <i>Reseda lutea</i>
Phyllotreta nodicornis (Marsham, 1802)	+	+	+	Scarce on Wild Mignonette <i>Reseda luteola</i> on the chalk
Phyllotreta ochripes (Curtis, 1837)		+	+	Local on crucifers
Phyllotreta tetrastigma (Comolli, 1837)		+	+	Local on <i>Cardamine</i> and <i>Nasturtium</i>
Phyllotreta undulata Kutschera, 1860		+	+	Widespread on crucifers
Phyllotreta vittata (F., 1801)		?		Hants (Fowler)
Phyllotreta vittula (Redtenbacher, 1849)		+	+	? Local on crucifers
Aphthona atrocaerulea (Stephens, 1831)		+	+	On spurge <i>Euphorbia hayling Is</i>
Aphthona atrovirens Foerster, 1849		+	+	Local on Marjoram <i>Origanum vulgare</i> primarily on the chalk
Aphthona euphorbiae (Schrank, 1781)	+	+	+	Widespread and frequent wintering on evergreens
Aphthona herbigrada (Curtis, 1837)		+	+	Local on the downs with Rock-rose.
Aphthona lutescens (Gyllenhal 1813)	*	+		? [on purple loosestrife] IoW Portsmouth (Fowler)

Aphthona melancholica Weise, 1888		+	+	? on spurges especially Wood Spurge <i>Euphorbia amygdaloides</i>
Aphthona nigriceps (Redtenbacher, 1842)				
Aphthona nonstriata (Goeze, 1777)		+	+	Widespread on Yellow Flag <i>Iris pseudacorus</i>
Longitarsus absynthii Kutschera, 1862		*		Na ? [on sea wormwood <i>Artemisia maritima</i>] Hamshaw (Moncreaff)
Longitarsus aeruginosus (Foudras, 1860)				RDB1 ? [on Hemp Agrimony <i>Eupatorium cannabinum</i>]
Longitarsus agilis (Rye, 1868)		+		Na ? on figworts <i>Scrophularia</i> sp.
Longitarsus anchusae (Paykull, 1799)		+		Nb Rare on Viper's Bugloss and Hound's-Tongue.
Longitarsus atricillus (L., 1761)	+	+	+	Widespread on legumes esp. <i>Trifolium</i> spp.
Longitarsus ballotae (Marsham, 1802)		+		Nb Rare on Black Horehound <i>Ballota nigra</i>
Longitarsus brunneus (Duftschmid, 1825)	*			Nb ? [on Meadow-Rue <i>Thalictrum</i> and Sea Aster <i>Aster tripolium</i>] IoW (WGB)
Longitarsus curtus (Allard, 1860)		+		Na Rare on Boraginaceae.
Longitarsus dorsalis (F., 1781)	+	+	+	Nb Local on ragwort on open sites, also wintering in woodland, where can be frequent amongst early spring ground flora.
Longitarsus exoletus (L., 1758)		+	+	Local on Viper's Bugloss and Hound's-Tongue
Longitarsus ferrugineus (Foudras, 1860)				RDB1 ? [on water mint <i>Mentha aquatica</i>]
Longitarsus flavicornis (Stephens, 1831)	+	+	+	Frequent on ragworts <i>Senecio</i> spp.
Longitarsus fowleri Allen, 1967	+			Na Rare on Teasel <i>Dipsacus</i> esp. Culver?
Longitarsus ganglbaueri Heikertinger, 1912		+	+	Na on Ragwort Harewood Forest 1974 (DA)
Longitarsus gracilis Kutschera, 1864		+	+	? on ragwort
Longitarsus holsaticus (L., 1758)		+		? [on louseworts <i>Pedicularis</i>] One to refind!
Longitarsus kutscherae (Rye, 1872)				? on plantains.
Longitarsus luridus (Scopoli, 1763)		+	+	Widespread and frequent on various composites
Longitarsus lycopi (Foudras, 1860)		+	+	Rare on Gipsywort <i>Lycopus europaeus</i>
Longitarsus melanocephalus (Deg., 1775)		+	+	Local on plantains
Longitarsus membranaceus (Foud., 1860)		+	+	Local on wood sage <i>Teucrium scorodonia</i>
Longitarsus nasturtii (F., 1792)		+	+	Nb Rare on comfrey an Viper's Bugloss
Longitarsus nigerrimus (Gyllenhal, 1827)		+		
Longitarsus nigrofasciatus (Goeze, 1777)	+	+	+	Na Rare on figworts and mulleins
Longitarsus obliterated (Rosenhauer, 1847)		+	+	Local on the chalk on thyme and marjoram
Longitarsus ochroleucus (Marsham, 1802)	*	+		Nb ? [on ragwort] IoW (Fowler)
Longitarsus parvulus (Paykull, 1799)		+	+	(Nb !?) On flax <i>Linum</i> . Once rare now very frequent across the county
Longitarsus pellucidus (Foudras, 1860)		+	+	Local on field bindweed <i>Convolvulus arvensis</i>
Longitarsus pratensis (Panzer, 1794)	+	+	+	Widespread on Plantains
Longitarsus quadriguttatus (Pontoppidan, 1763)				
Longitarsus reichei (Allard, 1860)			+	
Longitarsus rubiginosus (Foudras, 1860)		+	+	Widespread on Bindweed <i>Calystegia</i> , riddling the leaves with small holes
Longitarsus rutilus (Illiger, 1807)		*	+	Na Rare on Water Figwort <i>Scrophularia auriculata</i> . Hayling Island (Moncreaff)
Longitarsus succineus (Foudras, 1860)		+	+	Widespread on a variety of herbs esp. Yarrow and hemp Agrimony <i>Eupatorium cannabinum</i>
Longitarsus suturalis (Marsham, 1802) ?				Nb ? [on Common Gromwell <i>Lithospermum officinale</i>]
Longitarsus suturellus (Duftschmid, 1825)		+	+	Frequent on ragworts
Longitarsus tabidus (F., 1775)		+	+	Nb Rare on mulleins esp. Great Mullein <i>Verbascum thapsus</i> .
Altica brevicollis Foudras, 1860	+	+	+	Na ? [on hazel] Stockbridge (DIBW/ISM)
Altica carinthiaca Weise, 1898			+	Recently recognised species in Britain, probably widespread on <i>Lathyris</i> .

<i>Altica longicollis</i> (Allard, 1860) <i>britteni</i> Sharp		+	+	Rare on heather, <i>Calluna</i> , and <i>Erica</i> on heathland
<i>Altica ericeti</i> (Allard, 1859)		+	+	Nb Rare on cross leaved heath <i>Erica tetralix</i> on wet heathland
<i>Altica lythri</i> Aube, 1843		+	+	Frequent on willowherbs and purple loosestrife
<i>Altica oleracea</i> (L., 1758)		+	+	? on heathers <i>Calluna</i> , <i>Erica</i>
<i>Altica palustris</i> Weise, 1888		+	+	Local on willowherbs and purple loosestrife
<i>Altica helianthemi</i> (Allard, 1859) <i>pusilla</i> (Duft.)		+	+	Local on the downs on rock-rose and salad burnet
<i>Hermaphysa mercurialis</i> (F., 1792)	+	+	+	Widespread and often abundant on dog's mercury in woods and hedgebanks. Swanpond Copse NR 2002 (JSD)
<i>Batophila aerata</i> (Marsham, 1802)	+	+	+	Nb Rare on <i>Rubus</i> sp. Leckford 1983(DA)
<i>Batophila rubi</i> (Paykull, 1799)		+	+	Widespread on <i>Rubus</i> sp.
<i>Lythraea salicariae</i> (Paykull, 1800)		+	+	Nb Local on yellow loosestrife and yellow pimpernel
<i>Ochrosia ventralis</i> (Illiger, 1807)	*		+	RDB3? [On bitter-sweet] Sandown (Fowler) Micheldever NR 1983 (DA)
<i>Crepidodera ferruginea</i> (Scopoli, 1763)		+	+	Widespread on thistles
<i>Crepidodera transversa</i> (Marsham, 1802)		+	+	Widespread on thistles
<i>Derocrepis rufipes</i> (L., 1758)			+	? on Vetches <i>Vicia</i>
<i>Hippuriphila modeeri</i> (L., 1761)		+	+	Local on horsetails <i>Equisetum</i> esp. in damp grassland
<i>Chalcoides aurata</i> (Marsham, 1802)		+	+	Widespread on <i>Salix</i> and <i>Populus</i>
<i>Chalcoides aurea</i> (Fourcroy, 1785)		+	+	Widespread on <i>Salix</i> and <i>Populus</i>
<i>Chalcoides fulvicornis</i> (F., 1792)		+	+	Widespread on <i>Salix</i> and <i>Populus</i>
<i>Chalcoides nitidula</i> (L., 1758)		+	+	Nb Rare on Aspen on damp heath and commons. Harewood Forest 1983 (DA)
<i>Chalcoides plutus</i> (Latreille, 1804)		+	+	Local on <i>Salix</i> and <i>Populus</i>
<i>Epitrix atropae</i> Foudras, 1860		+	+	Nb V.local on Deadly Nightshade <i>Atropa bell-donna</i> Micheldever NR 2001 (JSD)
<i>Epitrix pubescens</i> (Koch, 1803)	+	+	+	Widespread on Bittersweet.
<i>Podagrica fuscicornis</i> (L., 1767) ?				Nb Rare on Musk Mallow <i>Malva moschata</i>
<i>Podagrica fuscipes</i> (F., 1775)	*	*		Na On Mallows <i>Malva</i> species IoW, Portsmouth (Fowler)
<i>Mantura matthewsi</i> (Curtis, 1833)		+	+	V.local on downland with Rock-Rose <i>Helianthemum nummularium</i>
<i>Mantura obtusata</i> (Gyllenhal, 1813)		+	+	Nb Rare on docks <i>Rumex</i> . Pamber Forest 1974 (DA)
<i>Mantura rustica</i> (L., 1767)	*?	+	+	Nb Rare on docks <i>Rumex</i> . Crab Wood NR 1976 (DA) Yaverland 1927 (JLH)
<i>Chaetocnema aerosa</i> (Letzner, 1847)		+	+	(RDBK)
<i>Chaetocnema arida</i> Foudras, 1860		+	+	Rare in grasslands. Ryde ((HSD))
<i>Chaetocnema concinna</i> (Marsham, 1802)		s-f +	+	V.local on Sheep's Sorrel <i>Rumex acetosella</i> in dry acid grasslands.
<i>Chaetocnema confusa</i> (Boheman, 1851)		*	+	NF (Fowler)
<i>Chaetocnema hortensis</i> (Fourcroy, 1785)		+	+	Widespread in open grasslands
<i>Chaetocnema picipes</i> Stephens, 1831			+	Recently separated spp.
<i>Chaetocnema sahlbergi</i> (Gyllenhal, 1827)	+	+		
<i>Chaetocnema subcoerulea</i> (Kutschera, 1864)	*	+	+	Nb Local on <i>Juncus</i> in damp grassland. IoW, Portsmouth (Fowler)
<i>Sphaeroderma rubidum</i> (Graells, 1858)		+	+	Widespread on thistles
<i>Sphaeroderma testaceum</i> (F., 1775)		+	+	Widespread on thistles
<i>Apteropoda globosa</i> (Illiger, 1794)		*	+	Nb [on <i>Rubus</i> ? Portsdown Hill (Moncreaff) Chawton Park Wod 1974 (DA) Herriard Common 1975 (DA)
<i>Apteropoda orbiculata</i> (Marsham, 1802)		+	+	Widespread in woods and scrubby places
<i>Mniophila muscorum</i> (Koch, 1803)	*		*	Nb ? [found in moss in woods, possibly on foxglove??] Shanklin Guyon Alice Holt (JAP)
<i>Psylliodes affinis</i> (Paykull, 1799)	+	+	+	Widespread on bitter-sweet Swanpond Copse NR 2002 (JSD)
<i>Psylliodes attenuata</i> (Koch, 1803)			*	RDB1 [feeds on hop <i>Humulus lupulus</i>] Alice Holt (Fowler)
<i>Psylliodes chalconera</i> (Illiger, 1807)		+	+	Nb Local on thistles <i>Carduus</i> and possibly <i>Cirsium</i> sp.

Psylliodes chrysocephala (L., 1758)	+	+	+	Widespread on various crucifers
Psylliodes cuprea (Koch, 1803)	+	+	+	Local on various crucifers
Psylliodes dulcamarae (Koch, 1803)	+	+	+	Widespread on Bittersweet <i>Solanum dulcamarae</i>
Psylliodes hyoscyami (L., 1758)				RDB1 [Associated with Henbane <i>Hyoscyamus niger</i>
Psylliodes luteola (Mueller, 1776)			+	(RDBK)On cereal crops, also on trees in autumn. Alton, Medstead .2003 (JSD)
Psylliodes napi (F., 1792)	+	+	+	Local on various crucifers
Psylliodes picina (Marsham, 1802)			+	? on Purple Loosestrife.
Psylliodes weberi Lohse, 1955	+	+	+	? on <i>Rorippa</i>
Pilemostoma fastuosa (Schaller, 1783)		+	+	Na Rare on Ploughman's Spikenard <i>Inula conyza</i> on downland Micheldever (JSD)
Cassida denticollis Suffrian, 1844				
Cassida flaveola Thunberg, 1794		+	+	V.local on ??
Cassida hemisphaerica Herbst, 1799				Sandown (GCC)
Cassida murraea L., 1767		+		? [on Common Fleabane] Botley 2004 (JSD)
Cassida nebulosa L., 1758		+		PJH
Cassida nobilis L., 1758		+	+	Nb Rare on spurreys on disturbed sandy soils Bembridge Ellis
Cassida prasina Illiger, 1798	+	+	+	Nb Local on Yarrow in open grassland including road verges, and ruderal sites. Gilkicker 2002 (JSD)
Cassida rubiginosa Mueller, 1776		+	+	Widespread on Thistles and Knapweeds
Cassida vibex L., 1767		+	+	Widespread on Thistles and Knapweeds
Cassida viridis L., 1758 Green Tortoise beetle		+	+	Local on water mint <i>Mentha aquatica</i>
Cassida vittata de Villers, 1789			+	Rare on spurreys Blackgang (HSD)

Nemonychidae	Vc10	Vc11	Vc12	Notes
Cimberis attelaboides (F., 1787)		+	+	Local on pine <i>Pinus</i> spp. , often on the flowers

Urodontidae	Vc10	Vc11	Vc12	Notes
Bruchela rufipes (Olivier, 1790)			+	Rare, increasing? On Wild mignonette <i>Reseda lutea</i> . Micheldever NR 2002 (JSD)

Anthribidae (Orthocerous Weevils)	Vc10	Vc11	Vc12	Notes
Tropideres niveirostris (F., 1798)				(RDB2) V.rare on hardwood branches in woods and old hedgerows
Tropideres sepicola (Fab., 1792)				(RDB2) NF WW 1905 Harewood Tomlin
Platystomos albinus (L., 1758)		+	+	Nb Saproxyllic, local on hardwoods alder, beech etc. seems to have increased in abundance in past few years,!?
Anthribus fasciatus Forster, 1771	+	+	+	Na V.local on trees esp. oak in open parkland, preying on bark coccids. Brading IoW 1998 (PJH)
Anthribus nebulosus Forster, 1771		+	+	Nb Local on trees including pines, preying on <i>Coccinae</i> . Pamber (HSD) Millyford Green 2608 2000 (MGM)
Araecerus fasciculatus (Degeer, 1775)				Casual introduction, Synanthropic.
Choragus sheppardi Kirby, 1819		+		Na Rare on old dead Ivy <i>Helix hederae</i> .

Attelabidae (Orthocerous Weevils)	Vc10	Vc11	Vc12	Notes
Attelabus nitens (Scopoli, 1763)		+	+	V.local on oak foliage especially on young 'scrub' oaks. Hale Purleiu 1994 (DIBH)
Apoderus coryli (L., 1758)	+	+	+	Local on hazel
Rhynchites caeruleus (Degeer, 1775)		+	+	Twig-cutting weevil V.local on rosaceous trees esp. <i>Cratageus</i> , <i>Prunus</i> and <i>Malus</i> .
Rhynchites cupreus (L., 1758)		+	+	Nb V.local on Rowan <i>Sorbus aucuparia</i> and whitebeam <i>S.aria</i> .

Rhynchites cavifrons Gyllenhal, 1833		+	+	Nb V.local on <i>Quercus</i> in one year old twigs. Pamber Forest 1974 , Herriard Common 1975 (DA)
Rhynchites olivaceus Gyllenhal, 1833		+	+	Na V.local on <i>Quercus</i> in one year old twigs.
Rhynchites aeneovirens (Marsham, 1802)		+	+	Local on <i>Quercus</i>
Rhynchites aequatus (L., 1767)	+	+	+	Frequent on <i>Cratageus</i> , also on other Rosaceae <i>Malus</i> , <i>Prunus</i> .
Rhynchites germanicus Herbst, 1797		+	+	Local on wide range of shrubby and herbaceous Rosaceae.
Rhynchites interpunctatus Stephens, 1831		+	+	Nb Rare on oak <i>Quercus</i> . Pamber Forest 1976 (DA)
Rhynchites longiceps Thomson, 1888		+	+	Nb V.local on <i>Betula</i> , <i>Salix</i> and <i>Pyrus</i> . Basing Forest 1976 (DA)
Rhynchites nanus (Paykull, 1792)		+	+	Local on birch <i>Betula</i> , also <i>Salix</i> and <i>Alnus</i>
Rhynchites pauxillus Germar, 1839				Rare. [on wide range of shrubby and herbaceous Rosaceae, esp. <i>Cratageus</i> , <i>Prunus</i>]
Rhynchites tomentosus Gyllenhal, 1839		+	+	Nb Local on <i>Salix</i> and <i>Populus</i> esp. <i>tremulae</i>
Byctiscus betulae (L., 1758)		+	+	Nb Rare, declining? on <i>Betula</i> and <i>Corylus</i> , Basing Forest 1976 (DA) Ryde (Guyon)
Byctiscus populi (L., 1758)		+	+	RDB3Rare on <i>Populus</i> esp. Aspen <i>P.tremulae</i> .
Deporaus betulae (L., 1758)		+	+	Frequent on <i>Betula</i> less common on <i>Alnus</i> , <i>Corylus</i> , etc. .
Deporaus mannerheimi (Hummel, 1823)		+	+	Rare on <i>Betula</i> in wetter sites than <i>betulae</i> .

Apionidae (Orthocerous Weevils)	Vc10	Vc11	Vc12	Notes
Apion cruentatum Walton, 1844		+	+	V.local on <i>Rumex acetosa</i> esp. in unimproved grasslands.
Apion frumentarium (L., 1758)		+	+	Local on broad leaved docks <i>Rumex</i> in grassland on verges etc.
Apion haematodes (L., 1758)		+	+	Local on <i>Rumex acetosella</i> on disturbed sandy soils
Apion rubens Stephens, 1839		+	+	Local on <i>Rumex acetosella</i> on disturbed sandy soils Sandown (HSD)
Apion rubiginosum Grill, 1893			+	RDB3Rare on <i>Rumex acetosella</i> on disturbed sandy soils.
Aizobius sedi Germar, 1818 ??				Nb ? [on stonecrops]
Perapion affine Kirby, 1808		+	+	Na Rare on Sorrel <i>Rumex acetosa</i> .
Perapion curtirostre Germar, 1817	+	+	+	Frequent on various docks and sorrels
Perapion hydrolapathi (Marsham, 1802)		+	+	Local on <i>Rumex</i> incl. <i>acetosa</i>
Perapion lemoroii Brisout, 1880		+		Rare on <i>Polygonum aviculare</i>
Perapion marchicum Herbst, 1797		+	+	Local on <i>Rumex acetosella</i> on disturbed sandy soils
Perapion violaceum Kirby, 1808	+	+	+	Local on <i>Rumex</i> incl. <i>R.acetosa</i>
Pseudaplemonus limonii (Kirby, 1808)	*			Yarmouth IoW (HSD)
Aspidapion radiolus (Marsham, 1802)	+	+	+	Locally abundant on Mallows <i>Malva</i> spp.
Aspidapion aeneum (F., 1775)	+	+	+	Locally abundant on Mallows <i>Malva</i> spp.
Ceratapion onopordi Kirby, 1808	+	+	+	Local on thistles, knapweeds, and burdocks
Cerataopin armatum (Gerstaecker, 1854)		*		NF 1941
Ceratapion carduorum Kirby, W., 1808		+	+	?rare? on thistles

Ceratapion gibbirostre Gyllenhal		+	+	?Rare on thistles
Diplapion confluens Kirby, 1808		?		? [on mayweeds and chamomile]
Diplapion stolidum Germar, 1817	*	+	+	Nb V.local on Ox-eye Daisy
Omphalapion hookerorum (Kirby, 1808)	+	+	+	Local on mayweeds <i>Tripleurospermum</i> spp. Ventnor Sandown
Omphalapion laevigatum (Paykull, 1792)	*			Freshwater (HSD) Totland
Exapion difficile Herbst, 1797	+	+		Na ? on Dyer's Greenweed <i>Genista tinctoria</i> .
Exapion fuscirostre (F., 1775)		+	+	V.local on Broom <i>Cytisus</i>

Exapion genistae Kirby, 1811		+		Na ? [on Petty Whin <i>Genista anglica</i>]
Exapion ulicis (Forster, 1771)		+	+	Widespread and frequent on Gorse <i>Ulex</i>
Kalcapion pallipes Kirby, 1808		+	+	Local on Dog's Mercury <i>Mercurialis perennis</i> in woodlands
Kalcapion semivittatum Gyllenhal, 1833			?	Na Local on Annual Mercury <i>Mercurialis annua</i> esp. on derelict /abandoned sites
Melanapion minimum Herbst, 1797				RDB3? [on Sallows in sawfly galls made by <i>Pontania</i> spp.]
Squamapion atomarium Kirby, 1808		+		V. local on Thyme <i>Thymus</i> esp. on the chalk. Oxenbourne Down (DMA)
Squamapion cineraceum Wencker, 1864	*	+	+	Na Rare on Self-Heal <i>Prunella vulgaris</i> . Parkhurst (HSD)
Squamapion flavimanum Gyllenhal, 1833		+	+	Na V. local on the downs on <i>Marjoram</i> .
Squamapion vicinum Kirby, 1808		*		Nb ? [on mints <i>Mentha</i> spp.] Southampton WGBlatch
Taeniapion urticarium (Herbst, 1784)	*	+	+	Rare on Nettles <i>Urtica</i> spp. Corhampton 1927 (JLH)
Malvapion malvae (F., 1775)	+	+	+	Locally abundant on Mallows <i>Malva</i> spp.
Pseudapion rufirostre (F., 1775)		+	+	Locally abundant on Mallows <i>Malva</i> spp.
Cynapion afer Gyllenhal, 1833	*			? [On <i>Lathyrus</i>] Chale (HSD)
Cynapion gyllenhali Kirby, 1808				(Nb) Local on Vetches <i>Vicia</i> esp. <i>V.cracca</i>
Cynapion spencii Kirby, 1808	*	*		? [damp places on <i>Vicia</i>] Thorness Bay IoW 'Hants' Fowler
Eutrichapion ervi Kirby, 1808	+	+	+	Frequent on various vetches
Eutrichapion scutellare Kirby, 1811		+	+	V. local on open heathland on gorse <i>Ulex</i> esp. <i>minor</i>
Eutrichapion viciae (Paykull, 1800)	+	+	+	Frequent on various vetches
Eutrichapion vorax Herbst, 1797	+	+	+	Widespread on Vetches <i>Vicia</i> in hedgerows and rough grassland adults also occur on trees!
Oryxolaemus punctigerum (Paykull, 1792)		+	+	V. local on various vetches
Hemitrichapion reflexum Gyllenhal, 1833				Na Rare. [On <i>Onobrychis vicifolia</i> on calcareous grassland]
Hemitrichapion waltoni Stephens, 1839			?	Rare on Horseshoe Vetch <i>Hippocrepis comosa</i> on the chalk.
Holotrichapion aethiops Herbst, 1797	+			? [On <i>Vicia</i> common sp. across much of UK]
Holotrichapion ononis Kirby, 1808	+	+	+	V. local on restharrow <i>Ononis repens</i> and <i>spinosa</i> , esp. on the chalk. Hayling Island 2000 (PJH)
Holotrichapion pisi (F., 1801)	+	+	+	Widespread on medicks <i>Medicago</i>
Oxystoma cerdo Gerstaecker, 1854	+		+	(Nb) Local on Vetches esp. <i>V.cracca</i>
Oxystoma cracca (L., 1767)	+	+	+	Local on various vetches <i>Vicia</i>
Oxystoma pomonae (F., 1798)		+	+	Local on various vetches <i>Vicia</i> and <i>Lathyrus</i>
Oxystoma subulatum Kirby, 1808	+	+	+	Local but widespread on Meadow Vetchling <i>Lathyrus pratensis</i>
Pirapion immune Kirby, 1808	*	+	+	Local on Broom <i>Cytisus</i> esp. on sandy soils.
Catapion curtisi Stephens, 1831		+		(Na) ? [On <i>Trifolium</i>] Gilkicker Point 2000 (PJH)
Catapion pubescens Kirby, 1811	*	+		(Nb) ? [On <i>Trifolium</i> esp. small yellow flowered species] Gilkicker Point 2000 (JSD/PJH) Ventnor THB
Catapion seniculus Kirby, 1808		+	+	Rare on <i>Medicago</i> [and <i>Trifolium hybridum</i>]
Ischnopterapion loti Kirby, 1808	+	+	+	Widespread on <i>Lotus corniculatus</i>
Ischnopterapion modestum Germar, 1817		+	+	Local on <i>Lotus uliginosus</i> in damp meadows and marshlands.
Ischnopterapion virens Herbst, 1797		+	+	Local on a wide variety of clovers <i>Trifolium</i> in open grassy places.
Protopirapion atratum (Marsham, 1802)		+	+	Local on broom <i>Cytisus</i> esp. on sandy soils.
Stenopterapion meliloti Kirby, 1808	+		+	Local on <i>Melilotus</i> . Cowes Ryde
Stenopterapion tenue Kirby, 1808		+	+	Local on medicks <i>Medicago</i> esp. <i>lupulina</i>
Synapion ebeninum Kirby, 1808	*	+		Fowler Titchfield haven (DMA)
Betulapion simile Kirby, 1811		+	+	Local but common on the heaths on <i>Betula</i> .
Protapion apicans Herbst, 1797		+	+	Frequent on Red Clover
Protapion assimile Kirby, 1808		+	+	Local on various <i>Trifolium</i> spp

Protapion dichroum Bedel, 1886		+	+	Widespread and often abundant on clovers esp. <i>Trifolium repens</i>
Protapion difforme Ahrens, 1817		+	+	(Nb) ? usually found on <i>Polygonum</i> spp.
Protapion dissimile Germar, 1817		+	+	(Nb)V.local on Hare's-foot Clover <i>T.arvense</i> on sandy soils. Hayling Island 2000 (PJH) 2002 (JSD)
Protapion filirostre Kirby, 1808	*	+		(Nb) ? [on Black Medick <i>Medicago lupulina</i>] Ventnor (HSD)
Protapion laevicolle Kirby, 1811	+	+		(Na) ? [on Subterranean Clover <i>T.subterraneum</i>] Ryde Freshwater. Gilkicker Point 2000 (PJH)
Protapion nigrirtarse Kirby, 1808	?	+	+	Frequent on various clovers
Protapion ononicola Bach, 1854	*	+		Gilkicker Point 2000 (PJH/JSD)
Protapion schoenherri Boheman, 1839	*	*	+	(Na) ? [on hares-foot clover] Portsmouth 1873 JJW Brading IoW STEvens
Protapion trifolii (L., 1768)		+	+	Frequent on red and white clover
Protapion varipes Germar, 1817	?	+		(Nb) ? [on clovers] Lyminster (HSD)

Nanophyidae				
Dieckmaniellus gracilis (Redtenbacher, 1849)		+	+	RDB3 Rare on Water Purslane <i>Lythrum portula</i> in damp places esp. Brockenhurst 1996 (DRC) Hale Purlieu 1996 (KNAA) Woolmer Pond, Bramshott (JSD)
Nanophyes marmoratus (Goeze, 1777)		+	+	Widespread on flowers of Purple Loosestrife <i>Lythrum salicaria</i>

Erihniidae				
Grypus equiseti (F., 1775)		+	+	(Nb) V.local on horsetail <i>Equisetum (arvense and palustre)</i> damp places. Havant 7105 1994(PK)
Notaris acridulus (L., 1758)		+	+	Local in wetlands on grasses esp. <i>Glyceria maxima</i>
Notaris bimaculatus (F., 1787)				(Nb) [on large wetland grasses and sedges.]
Notaris scirpi (F., 1792)	*	+	+	Local on Large Pond-Sedge <i>Carex acutiformis</i> and other wetland plants including <i>Typha Sandown J taylor</i>
Thryogenes festucae (Herbst, 1795)		+	+	Local in wetlands on sedges?
Thryogenes nereis (Paykull, 1800)		+	+	Local on Spike Rush <i>Eleocharis palustris</i>
Thryogenes scirrhosus (Gyllenhal, 1836)		+	+	(Nb) Rare on Bur-reeds <i>Sparganium spp.</i> R.Wey,
Stenopelmus rufinasus Gyllenhal, 1836			+	Rare on Water Fern Azolla, but usually present on good colonies of the host plant.

Curculionidae (Broad-nosed weevils)				
Omiamima mollina (Boheman, 1834)		*		Potysmouth Dist (Moncreaff)
Otiorhynchus atroapterus (Degeer, 1775)	*			IoW
Otiorhynchus clavipes (Bonsdorff, 1785)	+	+	+	Local, polyphagous on trees and on the ground esp. on downland.
Otiorhynchus desertus Rosenhauer, 1847??				(Nb) ? [sandy area and heaths]
Otiorhynchus ligneus (Olivier, 1807)		+	+	V.local in disturbed open areas on sand and chalk
Otiorhynchus ligustici (L., 1758)	+			(RDB2) on Kidney Vetch Ventnor
Otiorhynchus ovatus (L., 1758)		+	+	Strawberry root weevil Local on disturbed sandy ground including gardens
Otiorhynchus porcatus (Herbst, 1795)			+	(Nb) Local often in parks and gardens,
Otiorhynchus raucus (F., 1777)		+	+	(Nb) Rare disturbed sandy or chalky ground
Otiorhynchus rugosostriatus (Goeze, 1777)	+	+	+	Rough strawberry weevil. Frequent. Polyphagous in many habitats including gardens.
Otiorhynchus singularis (L., 1767)	+	+	+	Clay-coloured weevil Widespread, a serious garden pest
Otiorhynchus sulcatus (F., 1775)	+	+	+	Black vine weevil. Frequent and largely synanthropic and a serious garden pest.
Caenopsis fissirostris (Walton, J., 1847)			?	(Nb) ? [ground dwelling on heathlands under heather and ling] Newchurch IoW (Guyon) Shirley Warren

				(Gorham)
<i>Caenopsis waltoni</i> (Boheman, 1843)			+	Rare ground dwelling on heathlands under heather and ling] Sandown (GCC)
<i>Peritelus sphaeroides</i> Germar, 1824	*			Ventnor Sandown
<i>Trachyphloeus angustisetulus</i> Hansen, 1935		+	+	Local on open disturbed ground esp. on a variety of soils. Gilkicker Point 2002 (JSD)
<i>Trachyphloeus alternans</i> Gyllenhal, 1834	*	+	+	(Nb) ? on ground in disturbed open areas esp. on the chalk. Ventnor Sandown
<i>Trachyphloeus aristatus</i> (Gyllenhal, 1827)		+	+	(Nb) Rare on open disturbed ground on a variety of dry substrates. West Wood Winchester 1977 (DA)
<i>Trachyphloeus asperatus</i> Boheman, 1843	+	+	+	(Nb) Rare in habitats as above species.
<i>Trachyphloeus bifoveolatus</i> (Beck, 1817)			+	Rare as above species Fleet (MM)
<i>Trachyphloeus digitalis</i> (Gyllenhal, 1827)	*			MM
<i>Trachyphloeus scabriculus</i> (L., 1771)			+	as above species
<i>Trachyphloeus spinimanus</i> Germar, 1824	?	+	+	as above species (Nb)
<i>Cathormiocerus maritimus</i> Rye, 1874		+		Southsea 19 th C Gilkicker (PJH)
<i>Cathormiocerus myrmecophilus</i> (Seidlitz, 1868)	+	+		Gilkicker (JSD/PJH)
<i>Cathormiocerus socius</i> Boheman, 1843	+	+		Ventnor THB
<i>Omiamima mollina</i> (Boheman, 1834)		*		Portsmouth Moncreaff
<i>Phyllobius argentatus</i> (L., 1758)		+	+	Widespread and frequent on hedges and in woods on a variety of hardwood trees
<i>Phyllobius glaucus</i> (Scopoli, 1793)		+	+	Local on hedges and in woods on a variety of hardwood trees esp. alder
<i>Phyllobius maculicornis</i> Germar, 1824			+	Rare ?
<i>Phyllobius oblongus</i> (L., 1758)		+	+	Widespread and frequent on hedges and in woods on a variety of hardwood trees
<i>Phyllobius pomaceus</i> Gyllenhal, 1834	+	+	+	Widespread and frequent on nettles
<i>Phyllobius pyri</i> (L., 1758)		+	+	Widespread and frequent on hedges and in woods on a variety of hardwood trees
<i>Phyllobius roboretanus</i> Gredler, 1882		+	+	Widespread and frequent on a variety of herbage and on trees
<i>Phyllobius viridiaeris</i> (Laicharting, 1781)	+	+	+	Widespread and frequent on a variety of herbage and on trees
<i>Polydrusus cervinus</i> (L., 1758)		+	+	Widespread and frequent on hedges and in woods on a variety of hardwood trees
<i>Polydrusus confluens</i> Stephens, 1831	*	+	+	(Nb) Rare on Broom and gorse esp. on heaths. Sandown Butler (JLH)
<i>Polydrusus flavipes</i> (Degeer, 1775)		+	+	(Nb) Rare on a variety of trees esp. aspen. West Wood Winchester 1977 (DA) St.Helens IoW (HSD)
<i>Polydrusus marginatus</i> Stephens, 1831		*		NF
<i>Polydrusus mollis</i> (Stroem, 1768)		+	+	(Nb) ? on a variety of trees and bushes. Harewood Forest 1974 (DA) Winchester D & R Hoare
<i>Polydrusus pterygomalis</i> Boheman, 1840		+	+	Widespread and frequent on hedges and in woods on a variety of hardwood trees
<i>Polydrusus pulchellus</i> Stephens, 1831		+		Lymington
<i>Polydrusus splendidus</i> (Herbst)		+	+	(Na) Rare on a variety of trees esp. hazel and oak. Harewood Forest 1974 (DA) Crab Wod 1976 (DA)
<i>Polydrusus tereticollis</i> (DeGeer, 1775) undatus (F.		+	+	Widespread and frequent on hedges and in woods on a variety of hardwood trees esp. birch
<i>Barypeithes araneiformis</i> (Schrank, 1781)		+	+	Widespread on ground in grassy places. Frame Wood 1998 (JAO)
<i>Barypeithes pellucidus</i> (Boheman, 1834)	+	+	+	Widespread on ground in grassy places esp. on sand, also in gardens
<i>Sciaphilus asperatus</i> (Bonsdorff, 1785)		+	+	Local on herbage and trees in many habitats Titchfield haven (DMA)
<i>Brachysomus echinatus</i> (Bonsdorff, 1785)		+	+	(Nb) Rare, ground dwelling in open grassy places.
<i>Brachysomus hirtus</i> (Boheman, 1845)		*		RDB
<i>Neliocarus faber</i> (Herbst, 1784)		+	+	(Nb) Local on disturbed sandy ground on Plantains
<i>Neliocarus sus</i> (Stephens, 1831)		+	+	Local on heather and esp. ling.
<i>Strophosoma capitatum</i> Degeer, 1775		+	+	Local on a variety of trees and bushes esp. in heathy habitats
<i>Strophosoma fulvicorne</i> Walton, J., 1846		*		NF DSharp

<i>Strophosoma melanogramma</i> (Forster, 1771)		+	+	Frequent on a wide variety of trees and herbs. Very abundant on heathsand commons
<i>Strophosoma nebulosum</i> (Stephens, 1831)		+	+	Local on a wide variety of trees and herbs including heathers. Frequent on wooded heaths.
<i>Cneorhinus plumbeus</i> (Marsham, 1802)			+	(Nb) Rare on open often sandy ground
<i>Philopeton plagiatus</i> (Schaller, 1783) ??		+	+	Rare on disturbed open sandy ground
<i>Liophloeus tessulatus</i> (Mueller, 1776)	+	+	+	Local on Ivy clad trees, larvae in Umbellifers. Swanpond Copse NR 2002 (JSD)
<i>Barynotus moerens</i> (F., 1792)		+	+	Local in woods esp with Dog's Mercury <i>Mercurialis perennis</i> esp. on the Weald Clay
<i>Barynotus obscurus</i> (F., 1775)		+	+	? open grassy places
<i>Tropiphorus elevatus</i> (Herbst, 1795)		+		(Nb) Rare, Winchester
<i>Tropiphorus terricola</i> (Newman, 1838)			+	(Nb) ? [woodlands often near Dog' Mercury <i>Mercurialis perennis</i>] Yateley Common 1994 (PJH)
<i>Tanymecus palliatus</i> (F., 1787)		+	+	(Nb) Rare ? on Knapweeds and burdocks. Pamber
<i>Sitona cambricus</i> Stephens, 1831		+	+	Local in damp grassland and wetlands on Large Bird's-foot Trefoil <i>Lotus uliginosus</i>
<i>Sitona cylindricollis</i> (Fahraeus, 1840)	*	+	+	? on melilots Yarmouth (HSD)
<i>Sitona griseus</i> (F., 1775)		+	+	V.local in sandy areas on [Restharrow, Birdsfoot, and broom]
<i>Sitona hispidulus</i> (F., 1777)	+	s-f +	+	Widespread in grasslands on clovers and other legumes
<i>Sitona humeralis</i> Stephens, 1831		+	+	Local in dry grassland esp. on sand and chalk on legumes esp. medicks
<i>Sitona lepidus</i> Gyllenhal, 1834		+	+	Frequent on clovers
<i>Sitona lineatus</i> (L., 1758)	+	+	+	Very frequent in virtually all situations including gardens
<i>Sitona macularius</i> (Marsham, 1802)		+		(Nb) ? [on legumes]
<i>Sitona ononidis</i> Sharp, 1866	*			St.Lawrence (GCC)
<i>Sitona puberulus</i> Reitter, 1903			+	(RDBK) Rare? Recently discovered in VC12 at Woolmer Forest 2003 (JSD)
<i>Sitona puncticollis</i> Stephens, 1831		s-f +	+	? on clovers
<i>Sitona regensteiniensis</i> (Herbst, 1797)	+	+	+	Locally frequent on gorse and broom
<i>Sitona striatellus</i> Gyllenhal, 1834	+	+	+	Locally frequent on gorse and broom
<i>Sitona sulcifrons</i> (Thunberg, 1798)		+	+	? on clovers
<i>Sitona suturalis</i> Stephens, 1831			+	Frequent on vetches <i>Vicia</i> and <i>Lathyrus</i> , in garssalnd and hedgebanks etc.
<i>Sitona waterhousei</i> Walton, 1846	+	+	+	(Nb) Local on Bird's-foot Trefoil <i>Lotus corniculatus</i> Woolmer
<i>Alophus triguttatus</i> (F., 1775)	*	+	+	(Nb) Rare in grassland with Plantains. Ventnor 1927 (PHarwood)
<i>Sitophilus granarius</i> (L., 1758)				Syananthropic in grain, occasionally found outdoors
<i>Sitophilus oryzae</i> (L., 1763)				Syananthropic in grain occasionally found outdoors
<i>Cleonus piger</i> (Scopoli, 1763)		*		Portsmouth (Moncreaff)
<i>Coniocleonus nebulosus</i> (L., 1758)		+		RDB3Rare at roots of heather.
<i>Rhinocyllus conicus</i> (Froelich, 1792)	+			
<i>Larinus planus</i> (F., 1792)		*		(Nb) ? [on thistles] Portsmouth (Moncreaff)
<i>Lixus paraplecticus</i> (L., 1758)		*		
<i>Lixus scabricollis</i> Boheman, 1843		+		
<i>Lixus vilis</i> (Rossi, 1790)		*		Portsmouth (Moncreaff)
<i>Hypera arator</i> (L., 1758)		?		Rare, declining? On Caryophyllaceae (<i>Stellaria</i> , <i>Cerastium</i> , <i>Spergularia</i> etc.)
<i>Hypera arundinis</i> (Paykull, 1792)		*		19 th C Titchfield RiverMoncreaff
<i>Hypera fuscocinerea</i> (Marsham, 1802)	*	+	+	(Nb) Rare on Medicks. Southwood JSD Blackgang (HSD)
<i>Hypera meles</i> (F., 1792)		+	+	(Na) Rare but increasing on White Clover <i>T.repens</i> . Bramshill Park 1994 (PJH)
<i>Hypera nigrirostris</i> (F., 1775)		+	+	Local on clovers esp. Red clover <i>T.pratense</i> in grassland including roadside verges.
<i>Hypera ononidis</i> Chevrolat, 1863	+	+		Milford on Sea (Rook Cliff) 2000 (JSD)

<i>Hypera plantaginis</i> (Degeer, 1775)		+	+	Widespread on bird's-foot trefoil <i>Lotus corniculatus</i> in grassland including roadside verges.
<i>Hypera pollux</i> (F., 1801)		+	+	V.Local on umbellifers <i>Oenanthe</i> , <i>Apium</i> in wetlands Sandwo nloW THB
<i>Hypera postica</i> (Gyllenhal, 1813)		+	+	Widespread on various clovers <i>Trifolium</i> spp. And medicks <i>Medicago</i> spp. in grassland including ruderal sites.
<i>Hypera punctata</i> (F., 1775)		+	R+	Local on various clovers <i>Trifolium</i> spp. In grassland (ground dwelling) including ruderal sites.
<i>Hypera rumicis</i> (L., 1758)		+	+	Widespread on docks <i>Rumex</i> spp.
<i>Hypera suspiciosa</i> (Herbst, 1795)		*		? [on <i>Lotus</i> , <i>Lathyrus</i> and <i>Vicia</i>] Portsmouth dist (Moncreaff)
<i>Hypera venusta</i> (F., 1781)		+	+	Rare on gorse <i>Ulex</i> esp. <i>U.minor</i> .
<i>Limobius borealis</i> (Paykull, 1792)				(Na) Rare on <i>Geranium</i> spp. esp. <i>G.pratense</i>
<i>Cionus alauda</i> (Herbst, 1784)		+	+	Widespread on figworts <i>Scrophularia nodosa</i> and <i>S.auriculata</i> . Also on Mulleins including <i>V.blattaria</i>
<i>Cionus hortulanus</i> (Fourcroy, 1785)	+	+	+	Widespread on mulleins and figworts [occasionally on Buddleja] Eaglehead Copse 2002 (JSD)
<i>Cionus longicollis</i> Brisout, 1863		+	+	(Na) on great Mullein
<i>Cionus nigritarsis</i> Reitter, 1904		+	+	(Na) local on Dark Mullein <i>Verbascum nigrum</i> on the chalk.
<i>Cionus scrophulariae</i> (L., 1758)	+	+	+	Local on figworts, Swanpond Copse NR 2002 (JSD).
<i>Cionus tuberosus</i> (Scopoli, 1763)			+	Local on Water Figwort <i>S.auriculata</i> [and occasionally on <i>S.nodosa</i>]
<i>Cleopus pulchellus</i> (Herbst, 1795)		+	+	Local on figworts and mulleins.
<i>Liparus coronatus</i> (Goeze, 1777)	+	+	+	(Nb) Rare? On Cow Parsley esp. on chalky soil S>Winchester GC 1997 (DIBH)
<i>Leiosoma deflexum</i> (Panzer, 1795)		+	+	Widespread on Ranunculaceae in woods on wood anemone and in damp grasslands on
<i>Leiosoma oblongulum</i> Boheman, 1842		+	+	(Nb) Rare on Ranunculaceae (Wood Anemone?).
<i>Leiosoma troglodytes</i> Rye, 1873 pyrenaicum Brisout		*		(RDB2) Fareham JJW
<i>Mitoplithus</i> (Plinthus) <i>caliginosus</i> (F., 1775)		+	+	(Na) Rare at roots of hop.
<i>Trachodes hispidus</i> (L., 1758)			+	(Nb) Rare on dead wood esp. small branches in shady places in old woods. Gentles Copse Ludshott 1998 (KNAA)
<i>Hylobius abietis</i> (L., 1758) Large Pine weevil		+	+	Local on Scot's Pine <i>Pinus sylvestris</i>
<i>Lepyrus capucinus</i> (Schaller, 1783)		*	*	(Extinct) [on sallows] not seen in UK since 1897. Minley 1870 Portsmouth (Moncreaff)
<i>Pissodes castaneus</i> (Degeer, 1775)		+	+	Local on pine. An important pest species in commercial plantations ²
<i>Gronops lunatus</i> (F., 1775)		+	+	(Nb) Rare on spurreys <i>Spergularia</i> . esp. sand spurrey on disturbed sandy soils.
<i>Magdalis armigera</i> (Fourcroy, 1785)		+	+	Local on elm esp. Wych Elm <i>Ulmus glabra</i> in hedgerows
<i>Magdalis barbicornis</i> (Latreille, 1804)		*		(Na) Rare on twigs of Rosaceae. Portsdown Hill (Moncreaff)
<i>Magdalis carbonaria</i> (L., 1758)		+	+	(Nb) Rare on birch <i>Betula</i> Selborne 1995 (DIBH) Harewod Forest 2004 (MT det JSD)
<i>Magdalis cerasi</i> (L., 1758)		+	+	(Nb) Local on oak
<i>Magdalis memnonia</i> (Gyllenhal, 1837)			+	Rare on pine . Eelmoor Marsh 1998 (PJH)
<i>Magdalis ruficornis</i> (L., 1758)		+	+	Local on <i>Prunus</i> esp. Sloe
<i>Anoplus plantaris</i> (Naezen, 1794)		+	+	Widespread on birch
<i>Anoplus roboris</i> Suffrian, 1840		+	+	(Nb) Local on alder. Soton
<i>Cossonus parallelepipedus</i> (Herbst, 1795)		?		(Nb)

<i>Pselactus spadix</i> (Herbst, 1795)	+	+		Sandown (HSD) Ryde Dollman, Yarmouth Butler
<i>Caulotrupodes aeneopiceus</i> (Boheman, 1845)	*			Sandown (GCC)
<i>Euophryum confine</i> (Broun, 1881)	+	+	+	Naturalised widespread and frequent. Immigrant from New Zealand, found in rotting wood and building timber.
<i>Stereocorynes truncorum</i> (Germar, 1824)		+		(Na) [dead wood I ancient woodland]
<i>Pentarthrum huttoni</i> Wollaston, 1854				Rare on rotting wood, esp. structural timber. Much declined possibly at expense of above spp.
<i>Phloeophagus lignarius</i> (Marsham, 1802)		+	+	Local in dead wood esp. and ash, also Sycamore.

Cryptorhynchus lapathi (L., 1758)			R+	(Nb) [on willows] Roman Silchester (Amsden & Boon 1975) Alresford Pond 1975 (DA)
Acalles misellus Boheman, 1844	+	+	+	Widespread on dead wood esp. small branches and twigs in woods and hedgerows.
Acalles ptinoides (Marsham, 1802)		+	+	(Nb) V.local in woodland and on heaths in litter, rotting wood and ant nest.
Acalles roboris Curtis, 1835		+		Rare in woods in oak leaf litter and in dead wood. A
Tanysphyrus lemnae (Paykull, 1792)		+	+	Widespread on duckweed Lemna spp.
Bagous argillaceus Gyllenhal, 1836		+		Southsea (Moncreaff)
Bagous brevis Gyllenhal, 1836		+		
Bagous collignensis (Herbst, 1797)		+		RDB3Rare on water milfoil <i>Myriophyllum</i> sp.
Bagous czwalinai Seidlitz, 1891		+		
Bagous frit (Herbst, 1795)		+		
Bagous limosus (Gyllenhal, 1827)		+		Newchurch IoWELLIS
Bagous longitarsis Thomson, 1868				
Bagous lutosus (Gyllenhal, 1813)				RDB1 [on <i>Sparganium erectum</i>] Fleet Pond 1964 (AMM) Southsea Moncreaff
Bagous lutulosus (Gyllenhal, 1827)		+	+	(Na) Rare on rushes <i>Juncus bufonius</i> and <i>J.obtusifolius</i> on damp tracks and seasonal pools. Southsea Moncreaff
Bagous lutulentus (Gyllenhal, 1813)		+	+	(Nb) Rare on Water Horsetail <i>Equisetum fluviatile</i> from which it can occasionally be swept. Luccombe (GCC)
Bagous nodulosus Gyllenhal, 1836				
Bagous puncticollis Boheman, 1845				RDB1 Extinct? [rare in wetlands on <i>Elodea</i> etc.]
Bagous tempestivus (Herbst, 1795)				Southsea (Moncreaff)
Bagous alismatis (Marsham, 1802)			+	(Nb) Rare on water Plantain <i>Alisma plantago-aquatica</i> Sandown IoW
Dorytomus dejeani Faust, 1882		+	+	Local on aspen.
Dorytomus ictor (Herbst, 1795)		+	+	(Nb) Rare on Poplars esp. Hybrid Black Poplars.
Dorytomus longimanus (Forster, 1771)		+	+	Local on Poplars <i>Populus</i> .
Dorytomus melanophthalmus (Payk, 1792)			+	Rare? on <i>Salix</i> .
Dorytomus rufatus (Bedel, 1888)		+	+	Local on <i>Salix</i> spp.
Dorytomus salicis Walton, 1851				(Na) on Creeping Willow <i>Salix repens</i>]
Dorytomus taeniatus (F., 1781)		+	+	Widespread on <i>Salix</i>
Dorytomus tortrix (L., 1761)		+	+	Rare on Aspen caste Bottom (JSD)
Dorytomus tremulae (F., 1787)		+	+	(Nb) Rare on Aspen esp. large trees. Also on White Poplar <i>P.alba</i> .
Orthochaetes insignis (Aube, 1863)		+		(Nb) Rare in litter/moss on open grassland esp. downland
Orthochaetes setiger (Beck, 1817)	+	+	+	(Nb) Local in litter/moss on open grassland esp. downland, [but also in woodlands with bluebells] Noar Hill Gilkicker Point 2000 (PJH)
Smicronyx coecus (Reich, 1797)				
Smicronyx jungermanniae (Reich, 1797)		+	+	(Nb) V.local on dodder <i>Cuscuta</i> on heaths on <i>Calluna</i> , and on downs and richer grasslands on <i>Lotus</i> etc.
Smicronyx reichi (Gyllenhal, 1836)				
Phytobius leucogaster (Marsham, 1802)			?	(Nb) Rare, aquatic on <i>Myriophyllum</i> in ponds.
Pachytychius haematocephalus (Gyll., 1836)		+		RDB1
Neophytobius muricatus Brisout, 1867		+	+	Greywell
Neophytobius quadrinodosus (Gyll., 1813)				NF
Pelenomus canaliculatus Fahraeus, 1843		+	+	(Nb) Rare, aquatic on <i>Myriophyllum</i> in ponds.
Pelenomus comari (Herbst, 1795)		+	+	(Na) Rare on marsh cinquefoil <i>Potentilla palustris</i> . W
Pelenomus olssoni Israelson, 1972			+	RDB3Rare on water purslane <i>Lythrum portula</i> in ponds, rut-pools esp on sandy soils
Pelenomus quadricorniger Colonelli, 1986			+	(Na) [wetlands on Pale Persicaria <i>Polygonum lapathifolium</i>] post 1970
Pelenomus quadrituberculatus (F., 1787)			+	Rare? on <i>Polygonums</i> [in dry grassland]

Pelenomus waltoni Boheman, 1843		+	+	(Nb) Local on Water Pepper <i>Polygonum hydropiper</i> esp. along damp woodland rides beside wheel ruts.
Rhinoncus bruchoides (Herbst, 1784)		+	+	Local on Redshank <i>Polygonum persicaria</i> in rough grassland esp. near rivers. R.Yar THB
Rhinoncus castor (F., 1792)	+	+	+	Local on Sheep's Sorrel <i>Rumex acetosella</i>
Rhinoncus inconspectus (Herbst, 1795)		+	+	Local on Amphibious Bistort <i>P.amphibium</i>
Rhinoncus pericarpus (L., 1758)		+	+	Local on <i>Rumex. Spp.</i>
Rhinoncus perpendicularis (Reich, 1797)		+	+	Local on <i>Polygonums</i> including Amphibious Bistort <i>P.amphibium</i>
Mononychus punctumalbum (Herbst, 1784)	+			Niton IoW Ventnor
Rutidosoma globulus (Herbst, 1795)		+	+	(Na) [on Aspen] Hook Common 1976 (DA)
Amalus scortillum (Herbst, 1795)			+	Local on Knotgrass <i>P.aviculare</i> in open disturbed areas including old industrial sites. Culver Cliffs THB
Amalorrhynchus melanarius (Steph., 1831)		+	+	Local on water-cress <i>Nasturtium</i> spp. esp. on plants growing over flowing water
Drupenatus nasturtii (Germar, 1824)		+	+	(Nb) Local on water-cress <i>Nasturtium</i> spp. esp. on plants growing over flowing water
Poophagus sisymbrii (F., 1777)		+	+	Local on water-cress <i>Nasturtium</i> spp. and Yellocross <i>Rorippa</i> spp. esp. Alton Greywell
Tapinotus sellatus (F., 1794)		+	+	(Na) Local on Yellow Loosestrife esp. along Blackwater Valley, also Ancells Farm castle Bottom etc. (JSD)
Coeliodes rana (Fabricius)		+	+	Local on oak
Coeliodes transversalbofasciatus (Goeze)		+	+	(Nb) Rare on oak Harewood Forest 1976 Pamber Forest 1976 (DA)
Coeliodes ruber (Marsham, 1802)		+	+	Local on oak Herriard Common 1975 (DA)\ \
Coeliodes rubicundus (Herbst, 1795)		+	+	(Nb) Rare on birch
Micrelus ericae (Gyllenhal, 1813)		+	+	Widespread on heathers esp <i>Calluna</i> but also on <i>Erica.spp.</i>
Zacladus exiguus (Olivier, 1807)				Luccombe Butler
Zacladus geranii (Paykull)				? [on Geraniums]
Stenocarus umbrinus (Gyllenhal, 1837)				(Nb) West Wood (DA) Magdalen Hill 1977 (DA)
Parethelcus pollinarius (Forster, 1771)		+	+	Common on nettles <i>Urtica</i>
Datonychus melanostictus (Marsh., 1802)		+	+	Local on Gypsywort <i>Lycopus europaeus</i> , and Water Mint <i>Mentha aquatica</i> and hybrids near water Sandown THB
Datonychus urticae Boheman, 1845		+		RDB
Microplontus campestris Gyllenhal, 1837		+	+	(Nb) Rare on Ox-eye daisy <i>Leucanthemum vulgare</i> Pamber (HSD)
Microplontus rugulosus (Herbst, 1795)				
Microplontus triangulum Boheman, 1845			+	(Nb) Rare on Yarrow <i>Achillea</i> . Sandown (HSD)
Hadroplontus litura (F., 1775)		+	+	Local on thistles <i>Cirsium</i> spp.
Hadroplontus trimaculatus (F., 1775)				(Nb) extinct? [on musk thistle <i>Carduus natans</i>] Freshater (GCC)
Mogulones asperifoliarum (Gyll., 1813)		+	+	Local on Boraginaceae esp. <i>Cynoglossum officinale</i> , and <i>Echium vulgare</i>
Mogulones euphorbiae Brisout, 1866			+	(Na) Rare polyphagous? esp. on <i>Veronica?</i> on acid grassland at Woolmer Forest 2003 (JSD).
Mogulones geographicus (Goeze, 1777)		+	+	(Nb) Rare on Viper's Bugloss on the downs.
Glocianus distinctus (Brisout, 1870)		+	+	Local on small yellow composites in open grassland
Glocianus moelleri Thomson, 1868			+	(RDBK) Rare. Woolmer Forest 1995 (JSD) on small yellow composites???
Glocianus punctiger Sahlberg, 1835 ???		+		(Nb) Rare on dandelions <i>Taraxacum</i> spp.
Ceutorhynchus alliariae Brisout, 1860		+	+	Local on Garlic Mustard <i>Alliaria petiolata</i> on hedgebanks, verges etc <i>Portsmouth (Moncreaff)</i>
Ceutorhynchus assimilis (Paykull)				Common on brassics
=pleurostigma (Marsh, 1802)				
Ceutorhynchus atomus Boheman, 1845			+	(Na) Rare on Thale Cress <i>Arabidopsis thaliana</i> on disturbed sandy soils.
Ceutorhynchus chalybaeus Germar, 1824			+	?

Ceutorhynchus cochleariae (Gyll., 1813)		+	+	? on <i>Cardamine</i> sp.
Ceutorhynchus constrictus (Marsh., 1802)		+	+	(Nb) Rare on Garlic Mustard <i>Alliaria petiolata</i>
Ceutorhynchus contractus (Marsh., 1802)		+	+	? on Hedge Mustard <i>Sisymbrium officinale</i>
Ceutorhynchus erysimi (F., 1787)		+	+	Widespread on crucifers
Ceutorhynchus geographicus (Goeze, 1777)				(Nb) Portsmouth (Moncreaff)
Ceutorhynchus hirtulus Germar, 1824				Portsmouth (Moncreaff) IoW WGBlatch
Ceutorhynchus obstructus = assimilis		+	+	Widespread on various crucifers esp. <i>Brassica</i> , <i>Sisymbrium</i> etc.
Ceutorhynchus pallidactylus (Marsham, 1802)		+	+	Widespread on crucifers
Ceutorhynchus pervicax Weise, 1883			+	(Na) Rare on Cuckooflower <i>Cardamine pratense</i> . Wellington CP TDH
Ceutorhynchus picitarsis Gyllenhal, 1837			+	? on Hedge Mustard <i>Sisymbrium officinale</i> Portsmouth (Moncreaff)
Ceutorhynchus pumilio (Gyllenhal, 1827)			+	(Na) Rare on Shepherd's Cress <i>Teesdalia</i> . Woolmer Forest 1995 (JSD)
Ceutorhynchus pyrrhorhynchus (Marsh., 1802)		+	+	Local on Hedge Mustard <i>Sisymbrium officinale</i>
Ceutorhynchus rapae Gyllenhal, 1837			+	(Nb) Rare on various crucifers. Portsmouth (Moncreaff)
Ceutorhynchus resedae (Marsham, 1802)		+		(Nb) ? [on Weld <i>Reseda luteola</i>]
Ceutorhynchus sulcicollis (Paykull, 1800)				Rare? on various crucifers. Ventnor
Ceutorhynchus turbatus Schultze, 1903			+	Rare on Hoary Cress <i>Cardaria draba</i>
Ceutorhynchus typhae (Herbst, 1795)		+	+	Local on crucifers. Until recently known in Britain as <i>C.floralis</i>
Calosirus terminatus (Herbst, 1795)				Portsmouth Ventnor Sandown
Ethelcus verrucatus Gyllenhal, 1837				RDB
Sirocalodes depressicollis (Gyll., 1813)				? [on Fumitorys <i>Fumaria</i> sp.]
Sirocalodes mixtus (Mulsant & Rey, 1858)			+	(Nb) V.local on Climbing Corydalis <i>Corydalis clavícula</i> on wooded former heathland and commons. Arford
Sirocalodes quercicola (Paykull, 1792)				St.margarets bay THB
Trichosirocalus barnevillei (Brisout, 1866)		+	+	(Nb) Local on Yarrow <i>Achillea millefolium</i> in open grassy places including road verges. Dibden 4009 1999 (PK)
Trichosirocalus dawsoni (Brisout, 1869)		+		Milford on Sea (Rook Cliff) 2000 (JSD)
Trichosirocalus horridus (Panzer, 1801)		+		(Na) Rare on Spear Thistle <i>Cirsium vulgare</i> and Musk Thistle <i>Carduus nutans</i>
Trichosirocalus rufulus (Dufour, 1851)		+		(Na) Rare on plantains <i>Plantago</i> spp. on disturbed sandy and chalky sites. Gilkicker 2002 (JSD)
Trichosirocalus troglodytes (F., 1787)		+	+	Widespread in disturbed open habitats on plantains <i>Plantago</i>
Nedyus quadrimaculatus (L., 1758)		+	+	Widespread and frequent wherever nettles <i>Urtica</i> spp. grow.
Orobitus cyaneus (M., 1758)		+		Rare (but easily overlooked?) on violets <i>Viola</i> .
Baris analis (Olivier, 1790)		+		(RDB2) Whitecliff Bay 1989 (ABDrane)
Baris laticollis (Marsham, 1802)		+	+	(Na)
Baris lepidii Germar, 1824		+		(Na)
Baris picicornis (Marsham, 1802)			+	(Nb) Rare on Wild Mignonette <i>Reseda lutea</i> on chalky soils
Limnobaris pilistriata (Stephens, 1831)		+	+	Local on sedges <i>Carex</i> in wetlands
Limnobaris t-album (L., 1758)		+	+	Local on sedges <i>Carex</i> in wetlands
Anthonomus bituberculatus Thomson, 1868			+	Rare on Hawthorn.
Anthonomus chevrolati Desbrochers, 1868				NF
Anthonomus humeralis (Panzer, 1795)				
Anthonomus pedicularius (L., 1758)		+	+	Widespread on hawthorn
Anthonomus piri Kollar, 1837				
Anthonomus pomorum (L., 1758)		+	+	Local on Apple <i>Malus</i> sp.
Anthonomus rubi (Herbst, 1795)		+	+	Widespread on Rosaceae
Anthonomus ulmi (Degeer, 1775)		+	+	(Nb) Rare on elm

Curculio betulae (Stephens, 1831)		+	+	(Nb) Rare on birch
Curculio glandium Marsham, 1802		+	+	Widespread on oak
Curculio nucum L., 1758		+	+	Local on Hazel. Declining? Possibly due to paucity of nuts due to competition with Grey Squirrel ?? Greywell 1999 (JSD)
Curculio pyrrhoceras Marsham, 1802		+	+	Widespread on oak
Curculio rubidus (Gyllenhal, 1836)		+	+	(Nb) Rare on birch.
Curculio salicivorus Paykull, 1792		+	+	Widespread on <i>Salix</i>
Curculio villosus F., 1781		+	+	(Nb) Rare on oak . Pamber Forest 1974 (DA)
Curculio venosus (Gravenhorst, 1807)		+	+	Local on oak
Tychius junceus (Reich, 1797)		+	+	Local on various small legumes. Luccombe (HSD)
Tychius lineatulus Stephens, 1831		+		(Na) V.rare on Zig-zag clover <i>Trifolium medium</i> . NF IoW
Tychius meliloti Stephens, 1831	+	+	+	Local on melilots
Tychius parallelus (Panzer, 1794)				(Na) ? [on Broom]
Tychius picirostris (F., 1787)		+	+	Widespread and frequent on clovers
Tychius polylineatus (Germar, 1824)			+	(RDBK)
Tychius pusillus Germar, 1842		+	+	(Nb) Local on disturbed groun on small <i>Trifolium</i> sp. Sandown (HSD)
Tychius quinquepunctatus (L., 1758)				(RDB2) ? [on vetchs] Brockenhurst
Tychius schneideri (Herbst, 1795)		+	+	(Nb) Rare on downland on Kidney Vetch. Magdalen Hill 1977 (DA) Ventnor, Sandown etc Portsmouth
Tychius squamulatus (Gyll.)				(Nb) rare on the downs on Bird's-Foot Trefoil, and possibly Kidney Vetch. NF
Tychius stephensi Gyllenhal, 1836		+	+	Rare on <i>Trifoliums</i> . Sandown (HSD)
Tychius tibialis Boheman, 1843	+	+		(Na) ? [sandy soils on <i>Trifolium</i> ?]
Pseudostyphlus pillumus (Gyllenhal, 1836)	+			Portsmouth (JJW)
Sibinia arenariae Stephens, 1831	+	+		Milford on Sea (Rook Cliff) 2000 (JSD), Portsmouth
Sibinia potentillae Germar, 1824		+	+	(Nb) Rare on spurreys.
Sibinia primitus (Herbst, 1795)		+	+	(Nb) Local on spurreys etc. esp. on disturbed sandy grounds. Culver Cliffs IoW THB
Sibinia sodalis Germar, 1824		+		
Ellescus bipunctatus (L., 1758)				(Nb) ? wet woodland with willows on catkisin etc. PamberForest Odiham Common (DA)
Acalyptus carpini (F., 1792)		+	+	(Nb) Rare on <i>Salix</i> in wetlands. Shortheath Common 1998 (JSD)
Miarus campanulae (L., 1767)		+		Rare on <i>Campanula</i> on the downs
Miarus graminis (Gyllenhal, 1813)		+	+	(Nb) Rare on <i>Campanula</i> on the downs. West Wood (DA)
Miarus plantarum (Germar, 1824)				(RDBK) [on <i>Campanula</i>]
Mecinus circulatus (Marsham, 1802)	+	+	+	(Nb) Rare on plantains. Sandown (GCC)
Mecinus collarius Germar, 1821				Yarmouth IoW (HSD) Southsea (Moncreaff)Soton area
Mecinus pyraeter (Herbst, 1795)		+	+	Local on plantains
Gymnetron antirrhini (Paykull, 1800)		+	+	Local on Common Toadflax <i>Linaria vulgaris</i>
Gymnetron beccabungae (L., 1761)		+	+	(Na) Rare [on Marsh Speedwell <i>Veronica scutellata</i> Woolmer Forest
Gymnetron labile (Herbst, 1795)				Rare on plantains Portsmouth (Monc
Gymnetron linariae (Panzer, 1795)		+		(Na)
Gymnetron melanarium (Germar, 1821)		+	+	(Nb) Rare on Germander Speedwell <i>Veronica chamaedrys</i> . Noar Hill (DA)
Gymnetron pascuorum (Gyllenhal, 1813)	+	+	+	Widespread on Plantains <i>Plantago</i> spp.
Gymnetron rostellum (Herbst, 1795)	*			(Na) Sandown (Morley)
Gymnetron veronicae (Germar, 1821)		+		(Nb) Rare on Brooklime <i>Veronica beccabungae</i> .
Gymnetron villosulum Gyllenhal, 1838			+	(Nb) Local on water speedwells [and hybrid].

Rhynchaenus calceatus Germar, 1821				(RDBK) [on birch]
Rhynchaenus decoratus (Germar, 1821)			+	Leckford 1975 (DA) 1996 (AJWA)
Iscohnus foliorum (Mueller, 1764)		*		(Na) [on <i>Salix</i>] Portsmouth (Moncreaff)
Iscohnus sequensi (Stierlin)			+	On crack willows Basingstoke canal Rushmoor 2012 (SGD)
Orchestes alni (L., 1758)		+	+	Local on Elm <i>Ulmus</i>
Orchestes fagi (L., 1758)		+	+	Frequent on Beech, countywide
Orchestes iota (F., 1787)		*	+	(Nb) Rare, but locally abundant on Bog Myrtle <i>Myrica gale</i> Castle Bottom (JSD) IoW Whitchurch
Orchestes pilosus (Fabricius)		+	+	Widespread on oak
Orchestes quercus (L., 1758)		+	+	Widespread on oak
Orchestes signifer Creutz = avellanae		+	+	Local on Hazel and oak
Orchestes rusci (Herbst, 1795)		+	+	Widespread on birch
Pseudorchestes pratensis (Germar, 1821)			+	(Nb) Rare on Common Knapweed <i>Centaurea nigra</i> .
Ramphus oxyacanthae (Marsham, 1802)		+	+	Widespread on hawthorn and other Rosaceae
Ramphus pulicarius (Herbst, 1795)		+	+	Local on <i>Salix</i>
Tachyerges salicis (L., 1758)		+	+	Local on <i>Salix</i> Stockbridge R & D Hoare
Tachyerges stigma (Germar, 1821)		+	+	Local on willows and alder
Tachyerges testaceus (Mueller, 1776)				(RDB2) [on alder]
Scolytinae (Bark Beetles)				
Scolytus intricatus (Ratzeburg, 1837)		+	+	Widespread in branches of hardwoods esp.oak and beech often on recently broken off boughs
Scolytus mali (Bechstein, 1805)		+	+	Large fruit tree bark beetle (Nb) Rare in <i>Prunus</i> and <i>Malus</i> including orchard trees.
Scolytus multistriatus (Marsham, 1802)		+	+	Small elm bark beetle Local in Elm <i>Ulmus</i>
Scolytus rugulosus (Mueller, 1818)		+	+	Small fruit tree bark beetle Local in branches and twigs of woody rosaceae esp. sloe.
Scolytus scolytus (F., 1775)		+	+	Common elm bark beetle Local in Elm
Hylesinus crenatus (F., 1787)		+	+	Large ash bark beetle Local on Ash
Hylesinus oleiperda (F., 1792)		+	+	Local on Ash
Leperisinus varius (F., 1775)		+	R+	Common ash bark beetle Widespread on Ash Eaglehead Copse 2002 (JSD)
Leperisinus orni (Fuchs, 1906)		+	+	(Nb) Rare on Ash
Pteleobius vittatus (F., 1787)		+	+	V.local in twigs of Elm <i>Ulmus</i> .
Kissophagus hederiae (Schmitt, 1843)		+	+	(Nb) V.local in dead Ivy <i>Hedera helix</i> .
Hylastinus obscurus (Marsham, 1802)		+	+	Local in dead Broom <i>Cytisus</i> and occasionally in gorse stems
Phloeophthorus rhododactylus (Marsham 1802)		+	+	Local in dead Broom <i>Cytisus</i> and occasionally in gorse stems
Hylurgops palliatus (Gyllenhal, 1813)		+	+	Local on conifers esp. pine
Hylastes angustatus (Herbst, 1793)		+	+	? on pine and spruce
Hylastes ater (F., 1792)		+	+	Local on pine
Hylastes attenuatus Erichson, 1836		+	+	? on pine
Hylastes cunicularius Erichson, 1836				? [on spruce]
Hylastes opacus Erichson, 1836		+	+	Local on pine and occasionally on ash and elm.
Tomicus piniperda (L., 1758) Pine shoot beetle		+	+	Frequent on pine
Dryocoetes autographus (Ratzeburg, 1837)				
Dryocoetinus villosus (F., 1792)		+	+	Local in oak
Triotemnus coryli (perris, 1855)		*		RDB1
Xylocleptes bispinus (Duftschmid, 1825)		+	+	Local in Traveller's Joy <i>Clematis vitalba</i> , frequent on the chalk. Eaglehead Copse 2002 (JSD)

Taphrorychus bicolor (Herbst, 1793)		+	+	Nb V.local in beech, oak and other hardwoods.
Xyloterus domesticus (L., 1758) Ambrosia beetle		+	+	Local in oak and beech
Ernoporus fagi (F., 1798)		+	+	(Na?) Local but widespread on Beech esp. in bark on small twigs.
Xyleborus dispar (F., 1792) Shot-hole borer		+	+	Nb Local in oak esp. sappy exposed heartwood.
Xyleborus dryographus (Ratzeburg, 1837)		+	+	Nb Rare in hardwoods esp. oak.
Xyleborus saxeseni (Ratzeburg, 1837)	+	+	+	Local in oak and Beech
Pityophthorus pubescens (Marsham, 1802)	+	+	+	Local in pine and spruce bark
Pityogenes bidentatus (Herbst, 1783)		+	+	Local in pine and spruce bark
Pityogenes trepanatus (Nördlinger., 1848)			+	Winchseter 1991 (DIBH)
Ips sexdentatus (Boerner, 1767)		+	+	Local in pine bark esp. on large fallen or felled trees.
Orthotomicus laricis (F., 1792)		+	+	Local in pine and Larch bark
Orthotomicus suturalis (Gyllenhal, 1827)		+	+	Local in pine bark
