

## APPENDICES

### Table of Contents

Section 1: Introduction appendices .....	3
Appendix 1.1 Definitions of the BFI .....	3
Appendix 1.2 Comparisons of the BFI with NFA 2005 .....	5
Appendix 1.3 Brief history of forest assessments in Bangladesh .....	5
Section 2: BFI process appendices .....	10
Appendix 2.1 2015 Land Cover Map classes and corresponding FRA classes .....	10
Appendix 2.2 Questionnaire of the socio-economic survey .....	11
Appendix 2.3 Aboveground volume equations .....	37
Appendix 2.4 Aboveground biomass equations .....	38
Appendix 2.5 Aboveground carbon equations .....	38
Appendix 2.6 Belowground biomass equations .....	38
Section 4: Biological diversity and conservation appendices .....	40
Appendix 4.1.1 (a): Tree basal area per families and Zones .....	40
Appendix 4.1.1 (b): Tree basal area by species and Zones .....	42
Appendix 4.1.1 (c): Basal area of trees by land cover classes and Zones .....	58
Appendix 4.1.2 (a): Tree density and size characteristics per major families and zones .....	59
Appendix 4.1.2 (b): Tree density along with their DBH and height per species and Zones .....	62
Appendix 4.1.2 (c): Tree density by DBH classes and Zones .....	81
Appendix 4.1.2 (d): Tree density by Height classes and Zones .....	81
Appendix 4.2.1 (a): Seedling species composition and density per family and Zones .....	82
Appendix 4.2.1 (b): Seedling density by species and Zones .....	84
Appendix 4.2.3 (a): Seedling to tree recruitment percentage by species and Zones .....	94
Appendix 4.2.3 (b): Recruitment percentage by zones .....	102
Section 5: Growing stock and biomass appendices .....	103
Appendix 5.1.1 (a): Growing stock by families and Zones .....	103
Appendix 5.1.1 (b): Growing stock of the trees of Bangladesh by species and Zone .....	105
Appendix 5.2.1: Above ground biomass by species and Zones .....	123
Appendix 5.2.3: Total wood biomass, carbon in Biomass and SOC in 30-100 cm soil depth ( <i>here, total wood biomass (TWB) = AGB+BGB+DB</i> ) .....	140
Appendix 5.2.4: Volume, AGB and CAGB by Forest Division .....	141

Appendix 5.2.5: Volume, AGB and CAGB of Wood in Forest Divisions by state forest land and other land .....	142
<b>Section 9: Socio-economic appendices.....</b>	<b>145</b>
Appendix 9.1 (a): Quantity of different primary tree and forest products collected across different HTAC from the Sundarbans periphery.....	145
Appendix 9.1 (b): Quantity of different primary tree and forest products collected from different HTAC in the Coastal zone.....	147
Appendix 9.1 (c): Quantity of different primary tree and forest products collected from different HTAC in the Hill zone .....	149
Appendix 9.1 (d): Quantity of different primary tree and forest products collected from different HTAC in the Sal zone .....	151
Appendix 9.1 (e): Quantity of different primary tree and forest products collected from different HTAC in the Village zone.....	152
Appendix 9.1 (f): Quantity of different primary tree and forest products collected nationally.....	154
Appendix 9.2 (a): Value of primary tree and forest products collected by the HHs.....	156
Appendix 9.2 (b): Quantity of different Non Wood Forest Products collected across zones.....	157
Appendix 9.2 (c): Value (BDT/HH/year) of different Non Wood Forest Products collected across zones .....	158
Appendix 9.3 (a): Quantity of collected primary tree and forest products sold by different HTAC in the Sundarbans periphery.....	159
Appendix 9.3 (b): Quantity of collected primary tree and forest products sold by different HTAC in the Coastal zone .....	162
Appendix 9.3 (c): Quantity of collected primary tree and forest products sold by different HTAC in the Hill zone.....	163
Appendix 9.3 (d): Quantity of collected primary tree and forest products sold by different HTAC in the Sal zone .....	165
Appendix 9.3 (e): Quantity of collected primary tree and forest products sold by different HTAC in the Village zone .....	166
Appendix 9.3 (f): Quantity of different primary tree and forest products sold nationally .....	167
Appendix 9.3 (g): Share of collected primary tree and forest products sold across different HTAC and zone (%).....	169
Appendix 9.3 (g): Share of collected primary tree and forest products sold across different HTAC and zone (%) (contd.).....	170
Appendix 9.4: Annual income earned by the households from selling primary tree and forest products .....	172
Appendix 9.5: Quantity of processed tree and forest products produced.....	174
Appendix 9.6: Quantity of processed tree and forest products sold.....	176

Appendix 9.7: Annual income from processed tree and forest products .....	178
Appendix 9.8 (a): Number of household members involved in different tree and forest related activities across zones.....	179
Appendix 9.8 (b): Number of females involved in tree and forest related activities .....	181
Appendix 9.8 (c): Ratio of female to total family member employed in the specific activities (%) ....	183
Appendix 9.9 (a): Proportion of households involved with different income generating activities across zones (%).....	185
Appendix 9.9 (b): Proportion of households receiving different tree and forest related services across zones (%).....	187
Appendix 9.10: Value of collected tree and forest products used for cooking and heating .....	189
Appendix 9.11: Cost of buying tree and forest products used for cooking and heating.....	190
Appendix 9.12: Gap between consumption and collection of tree and forest products used for energy .....	191
Appendix 9.13 (a): Household's total annual income from tree and forest.....	193
Appendix 9.13 (b): Percentage of total annual income received by HH from tree and forest.....	195

## Section 1: Introduction appendices

### Appendix 1.1 Definitions of the BFI

**Above ground biomass:** All biomass of living vegetation, both woody and herbaceous, above the soil including stems, stumps, branches, bark, seeds, and foliage (FAO 2018).

**Below Ground Biomass:** All biomass of live roots. Fine roots of less than 2 mm diameter are excluded because these often cannot be distinguished empirically from soil organic matter or litter (FAO 2018).

**Dead Wood:** All non-living woody biomass not contained in the litter, either standing, lying on the ground, or in the soil. Dead wood includes wood lying on the surface, dead roots, and stumps larger than or equal to 10 cm in diameter or any other diameter used by the country (FAO 2018).

**Carbon in Above Ground Biomass:** Carbon in all living biomass above the soil, including stems, stumps, branches, bark, seeds, and foliage (FAO 2018).

**Carbon in Below Ground Biomass:** Carbon in all biomass of live roots. Fine roots of less than 2 mm diameter are excluded, because these often cannot be distinguished empirically from soil organic matter or litter (FAO 2018).

**Carbon in Litter:** Carbon in all non-living biomass with a diameter less than the minimum diameter for dead wood (e.g. 10 cm), lying dead in various states of decomposition above the mineral or organic soil (FAO 2018).

**Coarse Woody Debris:** Includes downed, dead tree and shrub boles, large limbs, and other woody pieces that are ≥8 cm in diameter and severed from their original source of growth (BFD 2016).

**Dead Tree:** A tree is regarded as dead tree if it does not have any living branches. Trees that are alive but so badly damaged that cannot grow in the next growing season (e.g. trees felled by storm) are regarded as dead trees (BFD 2016).

**Exotic Species:** A tree species occurring outside its natural range (past or present) and having dispersal potential (i.e. outside the range it occupies naturally or could occupy without direct or indirect introduction or care by humans) (FAO 2018).

**Fine Woody Debris:** Includes downed, dead branches, twigs, and small tree or shrub boles <8 cm in diameter that are not attached to a living or standing dead source (BFD 2016).

**Soil Carbon:** Organic carbon in mineral and organic soils (including peat) to a specified depth chosen by the country and applied consistently through the time series (FAO 2018).

**Forest:** Land spanning more than 0.5 hectares with trees higher than 5 meters and a canopy cover of more than 10 percent, or trees able to reach these thresholds in situ. It does not include land that is predominantly under agricultural or urban land use (FAO 2018).

**Down Woody Debris:** Includes downed, dead tree and shrub boles, large limbs, and other woody pieces that are ≥8 cm in diameter and severed from their original source of growth (BFD 2016).

**Growing stock:** Volume over bark of all living trees with a minimum diameter of 10 cm at breast height (or above buttress if these are higher). Includes the stem from ground level up to a top diameter of 0 cm, excluding branches (FAO 2018).

**Litter:** Remains of fallen leaves or needles, dead ground vegetation, parts of tree bark and thin branches lying on the ground (BFD 2016).

**Native Species:** A tree species occurring within its natural range (past or present) and dispersal potential (i.e. within the range it occupies naturally or could occupy without direct or indirect introduction or care by humans) (FAO 2018).

**Naturally Regenerated Forest:** Forest predominantly composed of trees established through natural regeneration (FAO 2018).

**Standing dead tree:** Dead standing tally trees, and partially separated boles of dead tally trees, do not have to be self-supported. They may be supported by other trees, branches, or their crown. Portions of boles on dead trees that are separated greater than 50 percent (either above or below the point of diameter measurement), are considered severed. For woodland species with multiple stems, a tree is considered down if more than 2/3 of the volume is no longer attached or upright (BFD 2016).

**Regeneration and Recruitment:** It is the act or process of regenerating.

**Seedling:** The regenerating trees species having <2cm DBH.

**Other Wooded Land:** Land not classified as “Forest”, spanning more than 0.5 hectares; with trees higher than 5 meters and a canopy cover of 5-10 percent, or trees able to reach these thresholds in situ; or with a combined cover of shrubs, bushes and trees above 10 percent. It does not include land that is predominantly under agricultural or urban land use (FAO 2018).

**Other Land:** All land that is not classified as “Forest” or “Other wooded land” (FAO 2018).

**Disturbance:** Damage caused by any factor (biotic or abiotic) that adversely affects the vigor and productivity of the forest and which is not a direct result of human activities (FAO 2018).

**Tree:** A woody perennial with a single main stem (DBH ≥ 10 cm), or in the case of coppice with several stems, having a more or less definite crown (FAO 2018).

**Trees Outside Forest:** Any tree occurring in the Other Land class (FAO, 2018) (see Table 3.1).

## Appendix 1.2 Comparisons of the BFI with NFA 2005

Variable	Domain	NFA 2007	BFI 2019	BFI Modified <sup>1</sup>
Area, ha	Forest	1443000	1884019	
	Total	14757000	14757000	
Volume, m3/ha	Forest	48	67	59
	Total	14	29	26
Volume, million m3	Forest	70	131	140
	Total	212	384	377
Biomass, t/ha	Forest	193	68	203
	Total	57	29	88
Biomass, million m3	Forest	278	132	477
	Total	846	387	1294
Avg DBH, cm	Total	20.1	24.1	
Avg Height, m	Total	9.0	11.9	
Number of species	Forest	129	265	
	Total	258	379	

<sup>1</sup>"BFI Modified" are estimates derived from the same equation for volume and biomass expansion factor used in the NFA (MoEF and FAO 2007). They are included for a more direct comparison with the BFI which uses multiple allometric equations.

### Appendix 1.3 Brief history of forest assessments in Bangladesh

Inventory period	Institution/Authors	Coverage	Procedure	Output
1769-73	Messrs. Ritchie, Richards and Martin	Only the largest waterways were recorded.	Field survey	Maps (scale: 2.54 cm = 8.05 km)
1821-23 & 1829	Lt. Princep, Lt. Hodges	The boundary between forest and cultivation was outlined.	Field survey	Maps (scale: 1.27 cm = 1.61 km)
1851-55 & 1855-59	Mr. James Ellison	Sundarbans – 24 Parganas district and Khulna, Bagerhat, Satkhira.	Field survey	Maps
1905-09	Bengal Survey Department	Sundarbans	Field survey	Map (scale: 2.54 cm = 1.61 km)
1924	Mr. Curtis	Sundarbans	Field survey	Map (scale 1:31,380)
1958-59	FORESTAL (Forestry and Engineering International Limited, Canada)	Sundarbans	Aerial photos	Forest cover maps (scale: 5.08 cm = 8.05 km), volume, yields, species for wood supply for the proposed newsprint mill at Khulna
1961-63	FORESTAL (Forestry and Engineering International Limited, Canada)	Sangu-Matamuhuri Reserved Forests-Kassalong &	Aerial photos	Inventory report of timber and bamboo of these forests

Inventory period	Institution/Authors	Coverage	Procedure	Output
		Rankhiang Reserve Forests		
1964	Hunting Survey Corporation Limited of Canada – FORESTAL)	Hill Forests – Kassalong and Rankhiang Reserve Forests	Aerial photos	Stand and stock tables. Topo maps at 1:15,840 and forest cover maps
1980-81	Mr. Hammermaster-FAO/UNDP Village Forest Inventory,	Surveyed 267 village units (all Districts except Chittagong Hills)	Field survey	Report on growing stock of village forests and bamboo, non-wood value trees
1981-82	Forest Inventory Division of the Forest Research Institute - Chittagong	Kaptai	Random sampling 1% of total area	Report on area, stocking, major species of pulpwood Plantation.
1983-1984	FAO/UNDP under 'Assistance to the Forestry Sector of Bangladesh' Project	Sangu and Matamuhuri Reserve Forests- Kassalong & Rankhiang reserves; Sitapahar Reserved Forests	Aerial photos at (scale 1:50,000)	Forest type delineation: (i) shifting cultivation (ii) seemingly exploitable high forest
1984	Overseas Development Administration (ODA)	Sundarbans –	Aerial photos	forest type maps (scale 1:50,000); incidence of top dying of Sundri species (scale 1:10,000); report on main species, stems per ha. mean and total volume. Stand projections and regeneration. soil sampling.
1984	FAO/UNDP	Sitapahar Reserve	Aerial photos (scale 1:30,000)	Report on forest type: plantations and natural forests
1984	FAO/UNDP	Chittagong and Cox's Bazar Forest Divisions	Aerial photos (scale 1:15,000)	Report on area, number of trees per ha. (dbh classes), bamboo.
1995-96	Mandela Agricultural Sustainable Ecosystems International, Corp.	2 Forest Divisions: Sylhet and Coastal Afforestation	SPOT satellite images (scale 1:50,000) Bands: 1 (0.5-0.59 µm)	Report on forest Area Change, Natural Forest, Plantations, Reed Forest, Non-forest areas

Inventory period	Institution/Authors	Coverage	Procedure	Output
	Philippines under GOB/WB Forest Resources Management Project		2 (0.61-0.69 µm) 3 (0.79-0.89 µm)	
1997	Mandela Agricultural Development Corporation and Forest Department, Ministry of Environment and Forests, Bangladesh	8 forest division covered	SPOT satellite images and aerial photos (scale 1:15,000)	Report on natural forests, plantations, forest area change, total volume, commercial value, forest ownership
1999-2000	Bangladesh Forest Department under "Forest Inventory of the Sal Forests of Bangladesh"	Sal Forests of Central and Northwest Bangladesh (Dhaka, Tangail, Mymensingh Divisions)	5287 plots over approx. 46,000 ha.	Report on species, dbh, height, regeneration, management classes
2005-2007	Bangladesh Forest Department, MoEF, FAO & SPARRSO	National Forest and Tree Resources Assessment.	Systematicaly laid 299 tracts all over the country were identified within 10 zones. Plots and subplots were identified within a tract. Land use classification system was prepared based on Landsat TM imageries from 2005	First national level inventory; report prepared on land use classes, forest area, forest ownership, trees outside forest, forest products, volume, species, biodiversity and regeneration, social and economic aspects.
2008	Bangladesh Forest Research Institute (BFRI)	Chunati Wildlife Sanctuary (WS) Carbon Inventory	Field data and growing stock models as developed by the Forest Inventory Division of BFRI. Seven land-use categories were used. Carbon sequestration rates were then estimated by following the methods as developed under CDM/IPCC procedures.	Report on growing stock, soil organic carbon, above-ground biomass, below-ground biomass, and on-ground biomass.

Inventory period	Institution/Authors	Coverage	Procedure	Output
2009	Bangladesh Forest Department under the USAID-funded Integrated Protected Area Co-management (IPAC) project	Sundarbans Reserve Forest	The last SRF inventory, conducted in the 1990s, sampled approximately 1200 plots situated on a systematic grid at 1-minute intervals of latitude/longitude. Considering constraints 150 plots were sampled. Measured trees, non-tree vegetation, dead wood, and soil.	Estimations of carbon density and carbon stocks.
2011	Bangladesh Forest Department under the USAID-funded Integrated Protected Area Co-management (IPAC) project	Six protected areas: Teknaf WS, Inani NP, Medakachapia NP, Fasiakhali WS, Dudpukuria-Dhopachari WS, and in Sitakunda eco-park	The grid maps of the six areas were used in carrying out the soils survey in the core zones. Two soil samples from the soil depth of 0-15 cm and 16-20 cm were taken from each of the subplots of all the plots with augur. A core sample is taken near the center.	Report on soil carbon to 20cm depth.
2014	Bangladesh Forest Department and Winrock International under USAID supported CREL project	Eight protected areas: Khadimnagar NPO, Lawachara NP, Satchari NP, Rema-Kalenga WS, Modhupur National NP, Kaptai National NP, Chunati WS and Himchari NP.	Concentric circular plots were systematically laid out at 30"X30" intervals. Data were recorded at 2m, 4m, 10m and 17.84m radii plots. Data collected from a total of 377 sample plots covering 34,376 ha and analyzed using MS Excel.	The CO2 (Mg/ha) estimates were made for five carbon pools, e.g. Trees (seedlings, saplings and live trees), dead wood (standing and lying deadwoods), non-tree vegetation (herbs, shrubs, cane, bamboo, liana etc), litters and soil.
2015	Bangladesh Forest Department and Winrock International under USAID supported Climate-Resilient Ecosystems and Livelihoods (CREL) project	5 protected areas: Baroiyadhala NP, Hazarikhil WS, NijhimDweep NP, Tengragiri WS and Ratargul Special Biodiversity Conservation Area.	Data were recorded at 2m, 4m, 10m and 17.84m radii plots. Data collected from a total of 214 sample plots covering 12,976.25 ha and analyzed using MS Excel.	The CO2 (Mg/ha) estimates were made for five carbon pools, e.g. Trees (seedlings, saplings and live trees), dead wood (standing and lying deadwoods), non-tree vegetation (herbs, shrubs, cane, bamboo, liana etc.), litters and soil.

## Section 2: BFI process appendices

### Appendix 2.1 2015 Land Cover Map classes and corresponding FRA classes

Land Cover 2015	BFI Land Cover Classes	FRA class
Bamboo Forest	Bamboo Forest	Forest
Forest Plantation	Forest Plantation	Forest
Hill Forest	Hill Forest	Forest
Mangrove Forest	Mangrove Forest	Forest
Mangrove Plantation	Mangrove Plantation	Forest
Plain Land Forest (Sal Forest)	Plain Land Forest (Sal Forest)	Forest
Rubber Plantation	Rubber Plantation	Forest
Shrubs with scattered trees	Shrubs with scattered trees	Forest
Swamp Forest	Swamp Forest	Forest
Air Port	Air Port	Other Land
Baor	Baor	Other Land
Brackish Water Aquaculture	Brackish Water Aquaculture	Other Land
Brickfield	Brickfield	Other Land
Built-Up Non-Linear	Built-Up Non-Linear	Other Land
Dump Sites/ Extraction Sites	Dump Sites/ Extraction Sites	Other Land
Fresh Water Aquaculture	Fresh Water Aquaculture	Other Land
Herb Dominated Area	Herb Dominated Area	Other Land
Lake	Lake	Other Land
Mud Flats or Intertidal Area	Mud Flats or Intertidal Area	Other Land
Multiple Crop	Permanent crop	Other Land
Orchards and Other Plantations (Shrub)	Orchards and Other Plantations (Shrub)	Other Land
Orchards and Other Plantations (Trees)	Orchards and Other Plantations (Trees)	Other Land
Perennial Beels/Haors	Perennial Beels/Haors	Other Land
Ponds	Ponds	Other Land
River Banks	River Banks	Other Land
Rivers and Khals	Rivers and Khals	Other Land
Rural Settlement	Rural Settlement	Other Land
Salt Pans	Salt Pans	Other Land
Sand	Sand	Other Land
Shifting Cultivation	Shifting Cultivation	Other Land
Single Crop	Permanent crop	Other Land
Swamp Reed Land	Swamp Reed Land	Other Land
Swamp Plantation	Swamp Plantation	Other Wooded Land

## Appendix 2.2 Questionnaire of the socio-economic survey

GOVERNMENT OF THE PEOPLE'S REPUBLIC OF BANGLADESH  
BANGLADESH FOREST DEPARTMENT  
Bana Bhaban, Agargaon, Dhaka

NATIONAL SOCIOECONOMIC SURVEY IN FORESTRY  
HOUSEHOLD (HH) MODULE

## **8. NATIONAL SOCIOECONOMIC SURVEY IN FORESTRY: QUESTIONNAIRE FOR HOUSEHOLD (HH) MODULE**

### **8.1. AREA IDENTIFICATION**

VARIABLES	CODES					
8.1.1. HH unique number						
8.1.2. Interview date (DD-MM-YY)						
8.1.3. Division						
8.1.4. District						
8.1.5. Upazila						
8.1.6. Union						
8.1.7. Mauza						
8.1.8. Ward						
8.1.9. Village						
8.1.10. Zone						
8.1.11. Stratum						
8.1.12. Forest Division						
8.1.13. Forest Range						
8.1.14. Forest Beat						
8.1.15. HH survey point						
8.1.16. GPS Coordinate	Latitude (N)					

	Longitude (E)					
8.1.17. Starting time of interview (HH:MM)						
8.1.18. Name of interviewer						

## 8.2. DEMOGRAPHIC INFORMATION

8.2.1. Name of the respondent.....

8.2.2. Age of the respondent..... (in years)

8.2.3. Gender of the respondent  1= Male  2= Female  3= Third gender

8.2.4. Which ethnic group does the HH belong to?

<input type="checkbox"/> 1=Bagdi	<input type="checkbox"/> 11=Hajong	<input type="checkbox"/> 21=Mahali	<input type="checkbox"/> 31=Pahan	<input type="checkbox"/> 41=Tripura
<input type="checkbox"/> 2=Barman	<input type="checkbox"/> 12=Garo	<input type="checkbox"/> 22=Mahato	<input type="checkbox"/> 32=Pahari	<input type="checkbox"/> 42=Usui
<input type="checkbox"/> 3=Bawm	<input type="checkbox"/> 13=Karmakar	<input type="checkbox"/> 23=Malo	<input type="checkbox"/> 33=Palia	<input type="checkbox"/> 96=Other (please specify)
<input type="checkbox"/> 4=Bengali	<input type="checkbox"/> 14=Khasia	<input type="checkbox"/> 24=Manupuri	<input type="checkbox"/> 34=Pangan	
<input type="checkbox"/> 5=Bhuimali	<input type="checkbox"/> 15=Kheyang	<input type="checkbox"/> 25=Marma	<input type="checkbox"/> 35=Pangkhoa	
<input type="checkbox"/> 6=Bhumij	<input type="checkbox"/> 16=Khumi	<input type="checkbox"/> 26=Malpahari	<input type="checkbox"/> 36=Rabidas	
<input type="checkbox"/> 7=Bonaj	<input type="checkbox"/> 17=Koch	<input type="checkbox"/> 27=Mro or Murong	<input type="checkbox"/> 37=Rajbangshii	
<input type="checkbox"/> 8=Chak	<input type="checkbox"/> 18=Kole	<input type="checkbox"/> 28=Munda	<input type="checkbox"/> 38=Rakhain	
<input type="checkbox"/> 9=Chakma	<input type="checkbox"/> 19=Lahra	<input type="checkbox"/> 29=Mushhor	<input type="checkbox"/> 39=Santal	
<input type="checkbox"/> 10=Dalu	<input type="checkbox"/> 20=Lushai	<input type="checkbox"/> 30=Oraon	<input type="checkbox"/> 40=Tanchangya	

8.2.5. How many members are there in this HH? ..... People

8.2.6. What is the age distribution of your HH members according to gender?

Gender	Age class			
	<15 years	15-29 years	30– 64 years	>64 years
<input type="checkbox"/> 1=Male				
<input type="checkbox"/> 2=Female				
<input type="checkbox"/> 3=Third gender				

## 8.3. BIODIVERSITY AND CONSERVATION

8.3.1. Are there any **plant species** that were abundantly available in the past, but rarely seen now-a-days in your union?

- 0=No (*then please ask question 8.3.3.1*)
- 1=Yes (*then please ask the question 8.3.2-8.3.3*)

99=Do not know (then please ask question 8.3.3.1)

8.3.2. What are the plant species not found abundantly like before in the union?  (please write down the maximum five local names)	8.3.3. In your opinion, what are the main reasons of reduction in number of these species?  1= <i>Land use change</i> 2= <i>Over harvesting</i> 3= <i>Lack of proper management</i> 4= <i>Natural disasters</i> 96= <i>Others (please specify)</i>
1.	
2.	
3.	
4.	
5.	

8.3.3.1. Are there any **plant species** that were not abundant in the past, but now are common in your union?

- 0=No (then please ask question 8.3.3.4)  
 1=Yes (then please ask the question 8.3.3.2-8.3.3.3)  
 99=Do not know (then please ask question 8.3.3.4)

8.3.3.2. What are the plant species not abundant in the past but now are common?  (please write down the maximum five local names)	8.3.3.3. In your opinion, what are the main reasons for the increase in these plant species?  1= <i>Reduced extraction of plant species</i> 2= <i>Tree planting</i> 3= <i>Proper management</i> 4= <i>Less natural disturbance</i> 96= <i>Others (please specify)</i>
1.	
2.	
3.	
4.	
5.	

8.3.3.4. Have there been any changes in the area of tree cover on your land in the past ten years?

- 0= No changes (then please ask question 8.3.3.7)  
 1= Increased (then please ask the question 8.3.3.5)  
 2= Decreased (then please ask the question 8.3.3.6)  
 99=Do not know (then please ask question 8.3.3.7)

8.3.3.5. What are the reasons for increasing the tree cover?	8.3.3.6. What are the reasons for decreasing the tree cover?
--	--

(please write down the maximum five reasons)	(please write down the maximum five reasons)
1.	
2.	
3.	
4.	
5.	

8.3.3.7. In your opinion, how will tree cover change in the next ten years on your land?

- 0=No changes (then please ask question 8.3.4)
- 1=Increase (then please ask the question 8.3.3.8)
- 2= Decrease (then please ask the question 8.3.3.9)
- 99=Do not know (then please ask question 8.3.4)

8.3.3.8. What will be the reasons for increasing tree cover in the next ten years on your land?  (please write down the maximum five reasons)	8.3.3.9. What will be the reasons for decreasing the tree cover in the next five years on your land?  (please write down the maximum five reasons)
1.	
2.	
3.	
4.	
5.	

8.3.4. Are there any **animal species** that were **abundantly** available in the past, but rarely seen now-a-days in your union?

- 0=No (then please ask question 8.3.7)
- 1=Yes (then please ask the question 8.3.5-8.3.6)
- 99=Do not know (then please ask question 8.3.7)

8.3.5. What are the animal species not found abundantly like before in the union?  (please write down the maximum five local names)	8.3.6. In your opinion, what are the main reasons of reduction in number of these species?  1= <i>Loss of habitat</i> 2= <i>Hunting</i> 3= <i>Lack of proper management</i> 4= <i>Natural disasters</i> 96= <i>Others (please specify)</i>
1.	
2.	
3.	

4.	
5.	

8.3.7. Are there any **animal species** that were **not abundant** in the past, but now are common in your union?

- 0=No (*then please ask question 8.4.1*)
- 1=Yes (*then please ask the question 8.3.8-8.3.9*)
- 99=Do not know (*then please ask question 8.4.1.*)

8.3.8. What are the animals not abundant in the past but now are common? <i>(please write down the maximum five local names)</i>	8.3.9. In your opinion, what are the main reasons for the increase in these animals?  <i>1=Improved habitat for animals 2=Less poaching and hunting 3=Proper management including law enforcement 4=Less natural disasters 96= Others (please specify)</i>
1.	
2.	
3.	
4.	
5.	

#### 8.4 DISTURBANCES, FOREST DEGRADATION AND RESILIENCE

8.4.1. Are there any disturbances that have affected trees and forest resources in your union in past ten years?

- 0=No (*then please ask question 8.5.1*)
- 1=Yes (*then please ask question 8.4.2*)
- 99= Don't know (*then please ask question 8.5.1*)

8.4.2. What types of disturbances have occurred in your union?

- 1=Human made (*then please ask questions 8.4.3-8.4.5*)
- 2=Natural (*then please ask questions 8.4.6- 8.4.8*)

#### Human made disturbances

8.4.3. What are the human made disturbances that have occurred in your union?  <i>(Please read out the below options and make the respondent understand these)</i>	8.4.4. What is the severity of disturbances?  <i>1=Very low, 2=Low, 3=Medium, 4=High, 5=Very high</i>	8.4.5. Where have these disturbances occurred?  <i>(Please note down the code of land cover class according to manual)</i>
<input type="checkbox"/> 1=Encroachment		
<input type="checkbox"/> 2=Illegal logging		

8.4.3. What are the human made disturbances that have occurred in your union?  <i>(Please read out the below options and make the respondent understand these)</i>	8.4.4. What is the severity of disturbances?  1=Very low, 2=Low, 3=Medium, 4=High, 5=Very high	8.4.5. Where have these disturbances occurred?  <i>(Please note down the code of land cover class according to manual)</i>
<input type="checkbox"/> 3=Legal conversion of forest land to other uses		
<input type="checkbox"/> 4= Excessive collection of fuelwood		
<input type="checkbox"/> 5=Excessive collection of NWFP		
<input type="checkbox"/> 6= Grazing		
<input type="checkbox"/> 7= Fire		
<input type="checkbox"/> 8= Oil spills		
<input type="checkbox"/> 9= Gas exploration		
<input type="checkbox"/> 10=Sand/stone quarry		
<input type="checkbox"/> 11= Hill cutting		
<input type="checkbox"/> 12= Other mining activities		
<input type="checkbox"/> 13=Infrastructure development (e.g. building, road, bridge and dam)		
<input type="checkbox"/> 96= Others (please specify)		

### Natural disturbances

8.4.6. What are the natural disturbances that have occurred in your union?  <i>(Please read out the below options and make the respondent understand these)</i>	8.4.7. What is the severity of disturbances?  1=Very low, 2=Low, 3=Medium, 4=High, 5=Very high	8.4.8. Where have these disturbances occurred?  <i>(Please note down the code of land cover class according to manual or land cover map)</i>
<input type="checkbox"/> 1 = Excessive rainfall		
<input type="checkbox"/> 2 = Landslide/river erosion		
<input type="checkbox"/> 3 = Waterlogging		
<input type="checkbox"/> 4 = Flooding		
<input type="checkbox"/> 5 = Cyclone/tidal surges		

<input type="checkbox"/> 6 = Siltation		
<input type="checkbox"/> 7 = Drought		
<input type="checkbox"/> 8 = Earthquakes		
<input type="checkbox"/> 9 = Pest and diseases		
<input type="checkbox"/> 10 = Increased salinity		
<input type="checkbox"/> 96=Others (please specify)		

## 8.5 ECONOMICS AND LIVELIHOOD

8.5.1. Does your HH collect forest and tree products or generate income from them in the past 12 months?

- 0= No, (*then please ask question 8.5.41*)
- 1=Yes (*then please ask question 8.5.2*)

8.5.2. What is the nature of products collected or income generated?

- 1= Primary tree and forest products (i.e. traditionally collected from tree and forest resources i.e. provisioning services), (*then please ask question 8.5.3*)
- 2= Processed tree and forest products, (*then please ask the questions 8.5.19*)
- 3= Employment in an institution or business related to tree and forest activities, (*then please ask questions 8.5.40*)

**Primary tree and forest products (i.e. traditionally collected from tree and forest resources i.e., provisioning ecosystem services)**

8.5.3. What are the tree and forest products collected by your HH?	8.5.4. What was the amount your HH collected in the past 12 months? (quantity/year)	8.5.5. How many member s of your HH are involved in the collectio n of primary tree and forest products ? (number s)	8.5.6. How many months a year does your HH usually collect these products? (If more than one member involved in tree and forest products collection, then calculate total months and write the average month) (months/y r)	8.5.7. How many days a month do your HH members collect the primary forest products? (If more than one member involved in tree and forest products collection, then calculate total days and write the average day) (months/mont h)	8.5.8. How many hours a day does HH member s spend in collectin g forest products ? (If more than one member involved in tree and forest products collection, then calculate total hour and write the average hour) hours/d a y	8.5.9. Have your HHs sold any collected tree and forest products ? 0=No, please go to 8.5.14 1=Yes, please continue to question no. 8.5.10	8.5.10. What amount is usually sold in the past 12 months? (quantity/y r)	8.5.11. How many months a year does your HH sell? (month/y r)	8.5.12. What is the unit price? (BDT/unit)	8.5.13. What is the cost of selling (including transportatio n and other costs)? (BDT/month )	8.5.14. From where has your HH primarily collected the products ? (Please note down the code of land cover class accordin g to manual or land cover map)	8.5.15. What is the ownership of the land from where the product was collected?  1=Private-Owned by individuals or families 2=Forest Department 3=Governme nt- other institutions 4=Community institutions 96=Other (please specify) 99=Unknown

8.5.16. What is the age distribution of HH members involved in collecting primary forest products according to gender?

Gender	Age class			
	<15 years	15-29 years	30– 64 years	>64 years
<input type="checkbox"/> 1=Male				
<input type="checkbox"/> 2=Female				
<input type="checkbox"/> 3=Third gender				

8.5.17. What are the wild animals hunted by your HH members? (please check the options 28 and 29 at *question no. 8.5.3*). Please write down the names of three most hunted wild species.

1..... 2..... 3.....

8.5.18. Which tree and forests products does your HH mostly depend for livelihood?

Please mention five most important tree and forest products

1..... 2..... 3..... 4..... 5.....

#### **Processed tree and forest products**

8.5.19. What types of processes of your HH produced in past 12 months ?	8.5.20.. How much of these products has been produced in the past 12 months?	8.5.21. How many members of your HH are involved in processing the products?.	8.5.22. How many mont hs in a year do your HH mem bers proce ss? (num bers)	8.5.23. How many days a month do they proces s? day/m onth	8.5.24. How many hours a day does each HH membe r spend in process ing? mont h/yr	8.5.25 . Do your HH need to buy any raw materi als (e.g. timber , cane) for produ cing these produ cts? □ 0= No, go to questi on 8.5.27 □ 1 = Yes, go to questi on no. 8.5.26	8.5.26. If yes, what is the cost of raw material s? (BDT/m onth)	8.5.27. Have you hired any labour for makin g or proces sing produ cts? □ 0=No , go to questi on 8.5.29 □1=Ye s, go to the questi on 8.5.28	8.5.28. If you hire labour for processing/ selling, how much do you pay per month? BDT/month	8.5.29 . Do your HH sold proces sed produ cts in the past 12 month s? □ 0= No, go to questi on 8.5.38 □ 1 = Yes, go to questi on no. 8.5.30	8.5.30. How much of these products has been sold in the past 12 months ? Quantit y/	8.5.31 . How many members of your HH are involved in selling of proces sed produ cts? (num bers)	8.5.32. How many mont hs in a year do your HH mem bers sell? mont h/yr	8.5.33. How many days a month do they sell? day/m onth	8.5.34. How many hours a day does HH mem ber spen d in sellin g? hour/day	8.5.35. What is the approxi mate income from selling those produce s? (BDT/m onth)	8.5.36. Do you HH require transport ation and others costs for selling the processi ng products ? □0=No, go to question 8.5.38 □1=Yes, go to the question 8.5.37	8.5.37. If there are any transport ation and other costs involved with selling, how much are they? (BDT/mo nth)
□1= Charcoal	.....kg																	
□2= Wooden furniture	.....No																	
□3= Wooden agricultural appliances	..... No																	
□4= Handicrafts	..... No																	
□5= Ash	..... kg																	
□96= Others (please	..... Unit																	

8.5.19. What types of processed products of your HH produced in past 12 months ?	8.5.20.. How much of these products has been produced in the past 12 months?	8.5.21. How many members of your HH are involved in processing the products?.(numbers)	8.5.22. How many mont hs in a year do your HH members process?	8.5.23. How many days a month do they process?	8.5.24. How many hours a day does each HH member spend in processing?	8.5.25 . Do your HH need to buy any raw materials (e.g. timber , cane) for producing these products?	8.5.26. If yes, what is the cost of raw material s? (BDT/month)	8.5.27. Have you hired any labour for makin g or proces sing produc ts?	8.5.28. If you hire labour for processing/ selling, how much do you pay per month? BDT/month	8.5.29 . Do your HH sold prodc uts in the past 12 month s?	8.5.30. How much of these product s has been sold in the past 12 months ?	8.5.31 . How many memb ers of your HH are invol ved in selling of proces sed produ cts?	8.5.32. How many mont hs in a year do your HH members sell?	8.5.33. How many days a month do they sell? day/month	8.5.34. How many hours a day does HH mem ber spen d in sellin g? (BDT/month)	8.5.35. What is the approxi mate income from selling those produce s?	8.5.36. Do you HH require transport ation and others costs for selling the processi ng products ? (BDT/month)	8.5.37. If there are any transport ation and other costs involved with selling, how much are they?
specify )																		

8.5.38. What is the age distribution of HH members involved in processing processed products according to gender?

Gender	Age class			
	<15 years	15-29 years	30– 64 years	>64 years
<input type="checkbox"/> 1=Male				
<input type="checkbox"/> 2=Female				
<input type="checkbox"/> 3=Third gender				

8.5.39. What is the age distribution of HH members involved in selling of processed products according to gender?

Gender	Age class			
	<15 years	15-29 years	30– 64 years	>64 years
<input type="checkbox"/> 1=Male				
<input type="checkbox"/> 2=Female				
<input type="checkbox"/> 3=Third gender				

#### Employment in tree and forest related activities

8.5.40. How many members of your HH are employed by an institution or business related to trees and forests? (*Please record the total number of HH involved, gender, age, numbers of months employed per year and average monthly salary*)

8.5.40.1. Total number of HH employed	8.5.40.2. Gender <input type="checkbox"/> 1=Male <input type="checkbox"/> 2=Female <input type="checkbox"/> 3=Third gender	8.5.40.3. Age (in years)	8.5.40.4. Number of months employed per year (months/yr)	8.5.40.5. Average monthly salary BDT/month

8.5.41. Do you have any other income sources other than tree and forests related?

0=No, please go to question 8.5.43       1=Yes, please go to the question no. 8.5.42

8.5.42. If yes, what is the approximate monthly income of your HH from other sources?.....BDT/month?

8.5.42.1. What are the other sources of income do you have? <input type="checkbox"/> 1=Agricultural-crops <input type="checkbox"/> 2=Agriculture-fish	8.5.42.2. How much money did you earn in the past 12 months?

<input type="checkbox"/> 3=Agriculture-poultry	
<input type="checkbox"/> 4=Livestock's	
<input type="checkbox"/> 5=Daily/wage labour	
<input type="checkbox"/> 6=Salary job other than tree and forest related	
<input type="checkbox"/> 7=Business other than forest related	
<input type="checkbox"/> 8=Remittance	
<input type="checkbox"/> 9=Social safety nets	
<input type="checkbox"/> 96=Others (specify)	

#### HH dependence on trees and forests for energy (Including buying of fuel wood energy)

8.5.43. What types of energy are used by your HH for cooking and heating?	8.5.44. How much is consumed each month by your HH?  (quantity/month)	8.5.45. Does your HH buy any energy for own and other purposes?  <input type="checkbox"/> 0= No, go to question 8.5.47 <input type="checkbox"/> 1 = Yes, please proceed question no. 8.5.46	8.5.46. How much money is required per month for buying the HH energy?  (BDT/month)
<input type="checkbox"/> 1=Firewood	.....kg		
<input type="checkbox"/> 2=Leaves and other tree biomass	.....kg		
<input type="checkbox"/> 3 =Charcoal	.....kg		
<input type="checkbox"/> 4=Briquette	.....kg		
<input type="checkbox"/> 5= LP Gas	..... kg		
<input type="checkbox"/> 6=Kerosene	.....kg		
<input type="checkbox"/> 7=Biogas	.....kg		
<input type="checkbox"/> 8. Cow dung	.....kg		
<input type="checkbox"/> 9. Agricultural residues	.....kg		
<input type="checkbox"/> 96=Other (specify)	..... unit		

8.5.47. If your HH uses firewood, leaves and other tree biomass (options 1 and 2 in answer to 8.5.43) for cooking and heating, how dependent you are on them?

1= Use them very little,  2 = Use them about half the time,  3= Use them most of the time,  4 = Always use them

#### Tree and forest service's other than income, food and energy

8.5.48. What other benefits do you receive from tree and forest resources on your land excluding cash income, food and energy in the past 12 months?	8.5.49. Of the services that your household has benefitted from, please rank the three most important.
(Please read out the below options and make the respondent understand these)	
<input type="checkbox"/> 1= Freshwater/water conservation	
<input type="checkbox"/> 2= Livestock grazing	
<input type="checkbox"/> 3= Shade	
<input type="checkbox"/> 4= Soil quality and fertility	
<input type="checkbox"/> 5= Erosion control	
<input type="checkbox"/> 6= Natural windbreak	
<input type="checkbox"/> 7= Tourism	
<input type="checkbox"/> 8= Recreation	
<input type="checkbox"/> 9= Aesthetic	
<input type="checkbox"/> 10= Religious/Spiritual	
<input type="checkbox"/> 11= Medicinal	
<input type="checkbox"/> 12= Pollution control	
<input type="checkbox"/> 96=Others (specify)	

## 8.6. MEASURING PROGRESS TOWARDS SFM

### Conflicts related to trees and forests

8.6.1. Have you observed any conflicts related to land and forest tenure in your union in past 12 months?

- 0=No (then please ask question 8.6.5)
- 1=Yes (then please ask questions 8.6.2- 8.6.4)

8.6.2. What are the conflicts usually associated with?	8.6.3. What is the frequency of conflicts?	8.6.4. Who normally solves the conflicts?
<input type="checkbox"/> 1= Land ownership	<input type="checkbox"/> 1=1 time/yr	0=Nobody solves, conflicts remained unsolved
<input type="checkbox"/> 2= Access to tree and forest resources	<input type="checkbox"/> 2=2 times/yr	1=Community leader
<input type="checkbox"/> 3= Forest land boundary related disputes	<input type="checkbox"/> 3=3 times/yr	2=BFD officials
<input type="checkbox"/> 96= Other (please specify ----)	<input type="checkbox"/> 4=4 times/yr <input type="checkbox"/> 5= < 4 times/yr	3=Local administration 4=Police 5=Local government 96=Other (please specify)

### **Compliance with laws and regulations related to forests and tree resources**

8.6.5. Have you observed any penalties for violation of forest-related rules in past 12 months?

0=No (*then please ask question 8.6.9*)

1=Yes (*then please ask questions 8.6.6-8.6.8*)

8.6.6. In your observation, what are the common penalties in your union?	8.6.7. In your opinion, what is the overall level of forest law enforcement in your union?	8.6.8. Who ensures law enforcement?
<input type="checkbox"/> 1=Fine <input type="checkbox"/> 2=Permanent exclusion from resource use/collection <input type="checkbox"/> 3= Jail term <input type="checkbox"/> 96=Other (please specify-----)	<input type="checkbox"/> 0= No law enforcement <input type="checkbox"/> 1=Very Weak <input type="checkbox"/> 2=Weak <input type="checkbox"/> 3=Moderately strong <input type="checkbox"/> 4=Strong <input type="checkbox"/> 5= Very strong <input type="checkbox"/> 99=Don't know	<input type="checkbox"/> 0=Nobody <input type="checkbox"/> 1=Community leader <input type="checkbox"/> 2=BFD officials <input type="checkbox"/> 3=Local administration <input type="checkbox"/> 4=Police <input type="checkbox"/> 5=Local government <input type="checkbox"/> 96=Other (please specify ----)

### **Participation in tree and forest management**

8.6.9. Are there any community or co-managed forests in your union?	<input type="checkbox"/> 0=No ( <i>then please ask question 8.6.16</i> ) <input type="checkbox"/> 1=Yes ( <i>then please ask question 8.6.10</i> )
8.6.10. Is your HH members involved with community or co-management of forests?	<input type="checkbox"/> 0=No ( <i>then please ask question 8.6.12</i> ) <input type="checkbox"/> 1=Yes ( <i>then please ask question 8.6.11</i> )
8.6.11. How many years has your HH been involved in community or co-management of forests?	..... years
8.6.12. How far is the community or co-management of forests from your house?	.....Kilometre (km)
8.6.13. Have you got any benefits through involving in tree and forest management/co-management?	<input type="checkbox"/> 0=No ( <i>then please ask question 8.6.16</i> ) <input type="checkbox"/> 1=Yes ( <i>then please ask question 8.6.14</i> )
8.6.14. If yes, what types of benefits did you receive?	<input type="checkbox"/> 1=Cash, please ask question no. 8.6.15 <input type="checkbox"/> 2=Trainings

	<input type="checkbox"/> 3=Exposure visits <input type="checkbox"/> 4= In kind support on alternative income generation activities <input type="checkbox"/> 96=Others (please specify) ....
8.6.15. How much money does your HH received since involved in community or co-management forests?	.....BDT

#### **Social forestry-managed by forest department**

8.6.16. Are you involved with any social forestry activities?	<input type="checkbox"/> 0=No ( <i>then please ask question 8.6.21</i> ) <input type="checkbox"/> 1=Yes ( <i>then please continue to ask questions from 8.6.17</i> )
8.6.17. How many years have you been involved in social forestry activities?	..... years
8.6.18. How far is the community or co-management of forests from your house?	.....Kilometre (km)
8.6.19. What types of benefits did you receive from social forestry?	<input type="checkbox"/> 1=Cash, go to the question no 8.6.20 <input type="checkbox"/> 2=Dead leaves and branches <input type="checkbox"/> 96=Others (please specify) ---
8.6.20. How much money does your HH received since involved in social forestry?	..... BDT

#### **Support from the Bangladesh Forest Department**

8.6.21. Has your HH received any tree seedlings from the Bangladesh Forest Department in past 12 months?

0=No (*then please ask question 8.6.25*)

1=Yes (*then please continue to ask questions from 8.6.22*)

8.6.22. How many species of seedlings did your HH receive?	8.6.23. How many seedlings did your HH receive?	8.6.24. What kind of other supports (apart from seedlings) does your HH need to increase tree cover on your land and outside? <i>(please mention <u>three</u> most important ones)</i>	8.6.25. Have you bought any seedlings with your own money? 0=No, go to 8.6.27 1=Yes, go to 8.6.26	8.6.26. How much money was spent for buying tree seedlings for plantation? ..... BDT/yr
		1----- 2----- 3-----		

#### **Progress towards achieving SFM - Support for tree and forest management**

8.6.27. Does your HH receive support from any organization for tree and forest management?	<input type="checkbox"/> 0=No ( <i>then please ask question 8.6.30</i> ) <input type="checkbox"/> 1=Yes ( <i>then please ask questions 8.6.28 – 8.6.29</i> )
8.6.28. What types of supports does your HH usually receive?	<input type="checkbox"/> 1=Training on raising nursery <input type="checkbox"/> 2=Training on tree planting <input type="checkbox"/> 3=Training on tree and forest management <input type="checkbox"/> 4=Training in forest product collection and processing <input type="checkbox"/> 5=Free seedlings <input type="checkbox"/> 6=Cash <input type="checkbox"/> 96=Other (please specify-----)
8.6.29. Which organization does your HH receive support from?	<input type="checkbox"/> 1=Forest Department <input type="checkbox"/> 2= Local Government (Pourashava, upazila and union parishad) <input type="checkbox"/> 3= Other government organizations <input type="checkbox"/> 4= Private sector <input type="checkbox"/> 96=Other (please specify-----)
8.6.30. What are the three most important tree species you prefer for planting?	1----- 2----- 3-----

## 8.7 OWNERSHIP

### HH land ownership

8.7.1. Does your HH have any lands?

- 0=No, please proceed to the question 8.8.1
- 1=Yes, please proceed the question no.8.7.2-8.7.3

8.7.2. What types of lands does your HH have?	8.7.3. What is the approximate size of the land? (decimal)
<input type="checkbox"/> 1= Own homestead land	
<input type="checkbox"/> 2= Leased or rented homestead land	
<input type="checkbox"/> 3= Own tree and bamboo plantations outside of homestead land	
<input type="checkbox"/> 4= Leased or rented tree and bamboo plantations outside of homestead land	
<input type="checkbox"/> 5= Own agricultural land	
<input type="checkbox"/> 6= Leased, rented or share-cropped agricultral land	

96=Other (please specify-----)

## 8.8 ZONE SPECIFIC QUESTIONS

**The Sundarbans and Coastal Zone:** Protective functions of trees and forests – value of forests and plantations against protection from tropical storms

**For control HHs** (i.e. that are located in areas where there are no Sundarbans or coastal plantations), please ask questions 8.8.1, 8.8.3 and 8.8.4

**For treatment HHs** (i.e. that are located in areas where there are the Sundarbans or coastal plantations), please ask questions 8.8.2 - 8.8.4.

8.8.1. Where are HH's assets (e.g. house, agricultural land, livestock, trees, fish ponds and shrimp farm) located in relation to the coast line?

- 1= Within one kilometre (km),  2 = Between one and two km  3= Between two and three km,  4 = Beyond three km (*to be verified in the land cover class map*)

8.8.2. Where are HH's assets (e.g. house, agricultural land, livestock, trees, fish ponds and shrimp farm) located in relation to the inner boundary of the Sundarbans or coastal plantations?

- 1= Within one kilometre (km),  2 = Between one and two km  3= Between two and three km,  4 = Beyond three km (*to be verified in the land cover class map*)

8.8.3. Are there any cyclones that damages your HH assets in the past 10 years?

- 0=No, please proceed to the question 8.8.6  
 1=Yes, please proceed the question no.8.8.4.-8.8.5

8.8.4. What damages/losses have occurred to HH's assets due to cyclone?

8.8.5. What was the economic cost of damages/losses due to cyclone in last 10 years?

<input type="checkbox"/> 0=No loss or damages	
<input type="checkbox"/> 1=Loss of/damage to house	.....BDT
<input type="checkbox"/> 2=Loss of agricultural crops	.....BDT
<input type="checkbox"/> 3=Loss of/damage to trees	.....BDT
<input type="checkbox"/> 4=Loss of/damage to fish ponds	.....BDT
<input type="checkbox"/> 5=Loss of /damage to shrimp farms	.....BDT
<input type="checkbox"/> 6=Loss of livestock	.....BDT
<input type="checkbox"/> 96= Other losses or damages	.....BDT

#### Sundarbans zone: Economics and livelihood – Pass permit for collection of primary forest products

8.8.6. Do you need to pass permit for collecting primary forest products?

0= No     1 = Yes, (*then please ask questions 8.8.7 - 8.8.9*)

8.8.7. For which products that your HH require pass permit? <i>(If tree and forest product codes are not mentioned in the manual please write the name of products)</i>	8.8.8. How many times have you collected products in past 12 months? (times/yr)	8.8.9. How much is the pass permit per trip?
1.-----		-----BDT/trip
2.-----		-----BDT/trip
3.-----		-----BDT/trip
4.-----		-----BDT/trip

5.-----		-----BDT/trip
6.-----		-----BDT/trip
7.-----		-----BDT/trip
8.-----		-----BDT/trip
9.-----		-----BDT/trip
10. -----		-----BDT/trip

#### Hill, Coastal and Sundarbans Zone: Economics and livelihood - value of potable water

8.8.10. What are the sources of your HH's drinking water?	8.8.11. Where are the locations of your water sources? <i>(please note down the code of land cover class code according to manual or map)</i>	8.8.12. How many members of your HH collect water? <i>(no. of member)</i>	8.8.13. How many months a year (in total) do they collect? <i>(months/yr)</i>	8.8.14. How many days a month do they collect? <i>(days/month)</i>	8.8.15. On average, how many hours a day does HH members spend in collection? <i>(hours/day)</i>	8.8.16. On average, how much water does HH members collect per day? <i>(liters/day)</i>	8.8.17. If any of your HH member need to transport the collected water home, how much is the transportation cost? <i>(BDT/month)</i>
---	--	--	--	---	---	--	---

<input type="checkbox"/> 1= Seepage water from hills							
<input type="checkbox"/> 2 = Natural streams							
<input type="checkbox"/> 3= Wells							
<input type="checkbox"/> 4 = Ponds							
<input type="checkbox"/> 5 = Rain water							
<input type="checkbox"/> 96=Other sources (Please specify)							

8.8.18. Do you need to treat the collected water before drinking?

0=No  1=Yes (*then please ask questions 8.8.19 - 8.8.20*)

8.8.19. How does your HH treat the collected water?	8.8.20. What is the cost of treatment, if any?
<input type="checkbox"/> 0= No money is required	
<input type="checkbox"/> 1= Natural means (e.g. using stones and sand)	.....BDT/0 litre
<input type="checkbox"/> 2=Using chemicals	.....BDT/10 litre
<input type="checkbox"/> 96=By other means (Please specify)	.....BDT/10 litre

#### 9. Picture of HH location

Please take a photo of the location of HH, if allowed

9.1. Picture taken: 0=No  1=Yes

9.2. Interviewer comments (if any):

9.3. End time of interview (HH:MM):

#### Appendix 2.4 Aboveground biomass equations

SN	Species	AE Equation for biomass estimation
1	<i>Sonneratia apetala</i>	$\ln Y_{agb} = 1.7608 + 2.0077 \ln(D) + 0.2981 \ln(H)$
2	<i>Excoecaria agallocha</i>	$\log Y_{agb} = -0.8572 + 1.0996 \log D^2$
3	<i>Acacia auriculiformis</i>	$\log(\sqrt{Y}) = -0.475 + 0.614 \log D^2$
4	<i>Acacia mangium</i>	$\log(\sqrt{Y_{agb}}) = -0.497 + 0.606 \log D^2$
5	<i>Heritiera fomes</i>	$\ln Y_{agb} = -2.1324 + 2.3895 \ln(D) + 0.1367 \ln(H)$
6	<i>Shorea robusta</i>	$\ln Y_{agb} = -3.3592 + 2.1830 \ln(D) + 0.6787 \ln(H)$
7	<i>Gmelina arborea</i>	$\ln Y_{agb} = -3.028 + 0.925 \times \ln(D^2 H)$
8	Sal zone	$\ln Y_{agb} = -2.46 + 2.17 \ln D + 0.367 \ln H + 0.161 \ln \rho$
9	Sundarbans zone	$\ln Y_{agb} = -1.956299 + 2.163361 \ln D + 0.375219 \ln H + 0.689466 \ln \rho$
10	Village zone	$\ln Y_{agb} = -6.0325 + 1.9715 \ln D + 0.8193 \ln \rho$
11	Hill zone	$\ln Y_{agb} = -6.9531 + 0.8250 \ln(D^2 H \rho)$

#### Appendix 2.5 Aboveground carbon equations

SN	Zone	Equation
1	<i>Acacia auriculiformis</i>	$\log10 (\sqrt{\text{Carbon in AGB}}) = -0.630 + 0.614 * \log10(D^2)$
2	<i>Acacia mangium</i>	$\log10 (\sqrt{\text{Carbon in TAGB}}) = -0.652 + 0.607 * \log10 (D^2)$
3	<i>Heritiera fomes</i>	$\ln(C_{AGB}) = -2.7488 + 2.4723 * \ln(D)$
4	<i>Shorea robusta</i>	$\ln(\text{Carbon in TAGB}) = -3.9802 + 2.1660 * \ln(D) + 0.6984 * \ln(H),$
5	<i>Sonneratia apetala</i>	$\ln(\text{Carbon in TAGB}) = -2.5035 + 2.0042 * \ln(D) + 0.3188 * \ln(H)$
6	Hill zone	$\ln(\text{Carbon in TAGB}) = -7.7129 + 0.8268 * \ln(D^2 * H * WD)$
7	Sundarbans zone	$\ln(\text{Carbon in TAGB}) = -7.5236 + 2.1628 * \ln(D) + 0.3834 * \ln(H) + 0.7004 * \ln(WD).$
8	Sal zone	$\ln(\text{Carbon in TAGB}) = -3.014 + 2.206 * \ln(D) + 0.302 * \ln(H) + 0.262 * \ln(WD)$

#### Appendix 2.6 Belowground biomass equations

SN	Zone or species or component	Allometric equation	Reference

1	Hill, Sal and Village zones	$Y_{bgb} = \exp[-1.0587 + 0.8836 \ln(Y_{agb})]$	Pearson et al. (2007)
2	Sundarbans zone	$Y_{bgb} = 0.199 \times \rho^{0.899} \times (D)^{2.22}$	Komiyama et al. (2008)
3	all bamboos (except <i>Bambusa vulgaris</i> )	$Y_{bgb} = Y_{agb} \times 0.05$	Stokes et al. (2007)
4	<i>Bambusa vulgaris</i>	$Y_{bgb} = Y_{agb} \times 0.26$	Lobovikov et al. (2007)
5	live stumps	$Y_{bgb} = \frac{0.00001 \times D^{2.529}}{1000}$	Hjelm (2015)

## Section 4: Biological diversity and conservation appendices

### Appendix 4.1.1 (a): Tree basal area per families and Zones

Family	Basal area (m <sup>2</sup> /ha)	Total basal area (million m <sup>2</sup> )	Distribution of basal area into Zones
