Sony Electronics Inc. 16530 Via Esprillo, San Diego, CA 92127 **SE-1001**

Big Ideas Lead to Great Breakthroughs

The mobile phone has just evolved. Sony and Sony Ericsson invite you to experience the future of mobile communications. Welcome to groovy music, effortless image blogging, and exhilarating design. The next generation of mobile phones is waiting to be shown to the world.

Sony Ericsson

it's all in the details

Unlocked GSM Handsets from Sony Sony Ericsson

Unlocked mobile phones will work on most GSM networks in the world.*
Sony Ericsson mobile phones support GSM technology.

These unlocked phones work on most GSM networks worldwide. Some examples of GSM carriers in the USA are:

- AT&T (Cingular)
- T-Mobile
- SunCom
- Dobson
- Edge Wireless
- Cincinnati Bell

These phones are not compatible with CDMA networks such as Verizon and Sprint. Please contact these carriers for handsets and service.

* Network coverage and handset feature support may not be available in all areas and may not be offered by all service providers. Services and features supported by this device may be subject to additional fees or requirements. Check with you service provider for service availability, feature support and applicable charges.
* Different handsets support different GSM frequency bands Network coverage and handset feature support may not be available in all areas and may not be offered by all service providers.

unlocked phones

Sony Ericsson

Setting up an Unlocked Phone

To change from a current GSM phone to a new Sony Ericsson phone, users should:

Transfer your contacts to your new phone

Transfer Via SIM card

1. Copy your contacts to the SIM card
   On your current phone you will want to make sure your contacts are saved on your SIM card. Find the setting that lets you export your contacts to the SIM card
2. Take the SIM card out of your current phone (it's usually under the battery)
3. Put the SIM card into your new Sony Ericsson phone.

Transfer using Bluetooth® technology or Infrared
(depending on your current Handset)

Apply the data settings to your new phone

Go to: www.sonyericsson.com/support

Go though the following software & setup functions:

- Mobile Internet (WAP)
- Email
- Picture Messaging (MMS)

A2DP Stereo Bluetooth® technology

You can enjoy your favorite music without wires.
Bluetooth® A2DP (Advanced Audio Distribution Profile) lets you wirelessly stream stereo music between compatible devices including mobile phones, headphones, and home and car stereos[1].

Customer Support

For additional support on setting up and using the phone, Sony Ericsson offers 24 X 7 customer support at 1-866-766-9374 or on the web www.sonyericsson.com/support

Screen image simulated. Sony is not responsible for lost data.
1. Ability to use this Bluetooth® enabled product with other devices may vary as not all Bluetooth devices are compatible.

Sony Ericsson P1i Smartphone

key features

- Integrated QWERTY keyboard and handwriting recognition
- Secure push email with Microsoft® Exchange ActiveSync®[5]
- 3.2 megapixel camera with business card scanner
- Media player with FM RDS radio
- 2.6 inch Touch Screen[8]
- Unlocked for GSM/GPRS 900/1800/1900[6], UMTS 2100[7] + WiFi 802.11b[5]

key technologies

Mobile office in your pocket : Take your office with you. Thanks to the Sony Ericsson P1i's smart office functions, you can edit office documents such as Microsoft® Word, Excel® or PowerPoint®, or check your calendar or contacts. Plus, the touchscreen lets you write notes with a stylus just as you would with a pen—transforming your handwriting into text.

Business Card Scanner : It's not just a great idea, but it's a time saver, too. Just scan and save cards as contacts while you're still traveling. Plus it's truly international: The P1i can handle cards in English, Chinese, German, French, Spanish, Italian, Portuguese and Swedish.

After work compatible : When you unwind after work, the Sony Ericsson P1i stays on duty. Listen to music? Snap a picture with the 3.2 megapixel camera. Or just relax with a game.

K-790
Sony Ericsson 3.2 Megapixel Cyber-shot™ Camera Phone

key features

- 3.2 Megapixel Cyber-shot™ camera with Auto Focus
- BestPic™ technology - pick the best, delete the rest
- Music and video player
- Xenon flash - real photographic light
- PictBridge™ compatible - easy photo printing
- Memory Stick Micro™ (M2™) media support
- Bluetooth®4 connectivity

key technologies

Take Great Pictures : It's hard to take a bad picture with the K790 and BestPic™ technology. BestPic™ technology gives you your choice of the best shot. Four of the resulting images are shot immediately before the camera key is fully pressed and the remaining four immediately after to complete your shot. Now you can pick the best and delete the rest.

Xenon Flash Unit : The K790 features a built-in xenon flash unit which gives you real photographic light where lighting conditions are not optimal. This camera phone also helps eliminate red eye and comes equipped with a camera stabilizer function that compensates small moves of your hand when you're taking a picture and shooting video.

Picture blogging : When you've taken a photo, you can share it straight away using Bluetooth®4, multimedia messaging or blog it. Take a photo, add text and send it to a blog site. The site is created the first time you blog a photo and in return get a text message with the web address and log in data. Send the address to friends and share your life in pictures.

Print Your Photos without a PC : The K790 supports the PictBridge™ standard which makes printing pictures from your camera phone a breeze. Connect the phone directly to a PictBridge-compliant printer using the USB cable and print your photos without a PC. Navigate the camera functions using the photo keys located on each side of the K790's 2 inch QVGA color screen.

Multitasking made easy : With proven EDGE technology built-in, mobile web browsing, photo blogging, downloading of multimedia content and video streaming become a pleasant experience. Visit real internet sites with the Access NetFront™ browser and subscribe to automatic news updates with RSS Feeds. Be engaged in a call or listen to the music player or FM radio while you search for information on the web.

key technologies

Cyber-shot™ Camera : Share a little happiness. The 2 megapixel K550i Cyber-shot camera phone is ideal for catching and sharing smiles on the fly. Cyber-shot digital camera technology gives you mobile imaging that's just as good as your digital camera.

PictBridge™ Compatibility : For easy photo printing, the K550i supports the PictBridge standard. Connect the phone directly to a PictBridge-compliant printer using the USB cable and print your photos without a PC.

Blog Your Life : Take or choose a photo, add some text and send it to your blog site for friends and family to enjoy. Don't have a blog site? The K550i helps you create one.

Media Player & FM Stereo Radio : Enjoy your streamed and recorded video and music using the integrated media player. The K550i also completes your music listening experience with an FM stereo radio with RDS.

Bluetooth®[1] Stereo Music Streaming : Stream high-quality stereo music from the K550i to your compatible Bluetooth® headset or other Bluetooth® devices[1]. It also lets you use handsfree technology and allows other Bluetooth®-enabled devices to communicate with your phone wirelessly from up to 32 feet away[1].

Cyber-shot

cyber-shot™ camera phone

W-810
Sony Ericsson Walkman™ Phone

key features

- Complete Walkman® music experience
- Memory Stick PRO Duo™ media support
- 2.0 Megapixel camera with Auto Focus
- Email, text and picture messaging
- EDGE - fast mobile Internet[5]
- Bluetooth®[4] connectivity

key technologies

Complete Walkman® Music Kit : Folders and customized playlists help you keep track of your tunes. The 512 MB[3] Memory Stick PRO Duo™ media provides enough memory for up to 175 of your favorite songs. Enjoy quality entertainment around the clock with a built-in FM radio with RDS (Radio Data System).

Music to Your Phone : Disc2Phone™ music copying software is supplied in the W810i kit and it's easy to transfer songs from your favorite CDs, and PC music folders.

Take Great Pictures : The built-in 2 megapixel digital camera with auto-focus takes excellent photos and when you need to catch some action, the W810i has video too. Sharing images and other phone content is easy. You can use Bluetooth® technology[4] or multimedia messaging when you want to send images and video to family, friends and colleagues.

Fast Mobile Internet[5] : Wherever you are, you have high-speed access to the internet. EDGE technology makes surfing the mobile internet fast and a full-function internet browser lets you view all your favorite websites as you go[5].

Stay In Touch : In addition to SMS text messaging, you can send text, pictures, video and music to another phone or e-mail address. Access your inbox with the integrated e-mail client wherever you go.

walkman™ phones

W-950
Sony Ericsson 4GB[1] Walkman™ Music Phone

key features

- 4GB[1] Internal Memory
- Complete Walkman® music experience
- 2.6 inches Touch Screen[5]
- Opera™ Web Browser
- Push email ready
- Bluetooth®[3] connectivity

key technologies

4GB[1] Internal Memory: The W950i has an impressive 4GB[1] of internal flash memory allowing you to store up to 4,000 songs. Supported file formats include MP3 and AAC.

Complete Walkman® music kit: In addition to a built-in FM radio, the W950i comes with a music kit that includes everything you need to upload your music to your phone. The kit contains music management software, USB cable and a high-quality stereo headset.

240 x 320 Pixels Touch Screen: Navigating through music, images and video has never been easier. The large 2.6" touch screen display[5] makes exploring artists, albums, tracks and photos a snap.

Fast Mobile Internet[6]: Wherever you are, you have high-speed access to the internet. The Opera® 8.0 web browser makes surfing your favorite websites easy[6]. Using the touch screen and stylus, you can click on links and scroll content, as you would with a mouse.

Push E-mail Ready : The Sony Ericsson W950i Walkman™ phone supports standard push e-mail (operator dependant). This is a solution that brings e-mail straight to your phone and once new messages come in, you can take action instantly.

PC and Bluetooth®[3] Connectivity : Easily move images and music between your W950i and your PC by connecting the USB cable (supplied in kit) to enjoy drag and drop functionality. Use Bluetooth® technology[3] to send images to other phones or hook up a headset.

At only 14mm thick, the sleek and stylish W580i impresses everyone you meet.

Street Style, Walkman® Experience
With a 512 MB[1] Memory Stick™ Micro (M2™) media included, there's easily enough memory to store hundreds of banging tunes just for you.

Integrated Fitness Applications
Count your steps, count your calories, and track your fitness. Use the W580i as your personal trainer to improve and track your health.

Music Recognition
Who sings that? What was the name of that spin? Use TrackID™ technology[6] to find out the dirt on the songs you don't recognize. Hold your phone up to the music and get the title and artist you're grooving to[7].

Snap and Blog[6] instantly
With an impressive 2.0 megapixel camera, take great pictures wherever, whenever. Send them to your friends[7]. Upload them to your blog[6]. Regardless of how you use your W580i, the whole world can see your street style.

WALKMAN

Speakers & Audio

MPS-70
Portable Speakers

- Portable sound for your compatible[1] Sony Ericsson mobile phone
- Powered by your phone's battery
- Included traveling case

Hook up these small, yet powerful portable speakers and let everyone enjoy your music collection. The Sony Ericsson MPS-70 speakers connect with your compatible[1] phone and instantly create a fun atmosphere. They sound great, have a modern design and run off your phone's battery so there's no need to carry an additional plug. A cable built into the speakers works as an FM-radio antenna so that you can use the radio on your phone to tune into your favorite music or stay up-to-date with the latest news. And you can keep them safe while traveling with the included traveling case.

1. MPS-70 is compatible with the following Sony Ericsson mobile phones: K550, K610, K618, K750, K800, K810, M600, P990, V630, W200, W300, W550, W610, W700, W710, W800, W810, W850, W880, W900, W950, K790, W600, W830, W958, Z530, Z550, Z610, Z710, Z558.

MDS-70
Home Audio System

- Equipped with an amplifier, subwoofer and loudspeakers for the ultimate sound quality
- Unit charges the mobile phone battery
- Comes with a 2.5mm line-in connector and mini remote

Sporting a stylish design, the MDS-70 home audio system allows you to enjoy the music on your Walkman™ phone from anywhere in your compatible home or office. With amplified surround sound, full-range speaker units and a subwoofer for deep, rich bass, you'll hear the music on your mobile phone in a whole new way. The unit comes equipped with a 2.5mm line-in connector and mini remote. When you'd rather listen to your phone's FM radio, just connect the supplied wire antenna to hear radio programming.

Sony Ericsson

MDS-60
Music Desk Stand

- Intended for use with your Walkman™ phone
- Portable convenience thanks to its folding design
- Operates with an AC adaptor or 4 "AA" batteries[1]
- Superior sound quality
- Holds & charges your phone

Share the music on your compatible phone with friends when you slip your Walkman™ phone into the MDS-60 music desk stand. Producing a rich sound, this device is perfect for your home, work or travels. Boasting a fashionable, foldable design, the music desk stand is the ultimate portable music accessory.

1. Batteries not included.

MBR-100
Bluetooth® Music Receiver

- For use with most stereo systems
- Perfect for home or on the road
- Glossy black finish

Plug the MBR-100 Sony Ericsson Bluetooth® music receiver into your compatible stereo and effortlessly play music from your compatible[2] mobile phone through the speakers of your system. Two cables are included, an RCA cable and a 3.5mm input cable, so virtually every audio device is compatible. Walk into the Bluetooth® range and use your phone as the remote control. Change tracks, pause and shuffle your music without leaving your seat. The MBR-100 is also rechargeable and portable, allowing you to take your tunes on the road as well.

1. Ability to use this Bluetooth® enabled product with other devices may vary as not all Bluetooth devices are compatible.
2. Please confirm product compatibility by checking the compatibility tab.

Speakers & Audio

MPS-75
Snap-on Speakers

- Great stereo sound quality with Neodymium speakers
- Ultra portable pocket-sized speakers
- Snap-on and play!
- Integrated FM radio antenna
- Design color matched to your Walkman™ phone
- Perfect for using at home or while traveling

Share your tunes, right from your phone. Plug the ultra-portable pocket-sized MPS-75 Snap-on Speakers into your compatible mobile phone and enjoy your phone's music collection in quality stereo audio. With integrated FM antenna, the system let you tune favorite radio stations. And the design complements your compatible Sony Ericsson Walkman™ phone's color scheme, for styling that looks as good as it sounds.

MDS-65
Music Desk Stand

- Superior sound quality
- Operates with AC adaptor or 6 "AA" batteries[1]
- Integrated FM radio antenna
- Holds and charges your compatible phone
- Perfect for using at home or while traveling

The MDS-65 is a stylish new music desk stand that lets you play the music from your compatible Sony Ericsson mobile phone through four full-range Neodymium-magnet speakers. Just plug the stand into the electricity supply when you're inside, or run it on batteries[1] when you're hanging out in the garden or on the move. If your phone has its fast port connection positioned on the side or top instead of the base, you'll be glad to know that MDS-65 has a rotating holder, which allows you to read the phone's display without having to bend over sideways.

Sony Ericsson

SONY

Car Accessories

HCH-60
Car Holder

- Manage your calls while in your car
- Easily see the display
- Charge while you drive with cigarette lighter adaptor
- Compatible with the advanced car handsfree

View your Sony Ericsson mobile phone's display and charge the battery from your car with the HCH-60 car holder and cigarette lighter adapter (not included). Compatible with advanced handsfree devices, this holder frees up your hands during mobile conversations in your car. This car holder comes with an adjustable arm that allows you to easily put your phone where you can see it.

HCB-120
Bluetooth® Car Speakerphone

- Safe and easy to use
- Clear digital display with caller identity and tilt function
- Outstanding talk/standby times: up to 24/450 hrs[2]
- Digital noise cancellation/ echo reduction (DSP)

Safely talk handsfree in your car. The HCB-120 Bluetooth® car speakerphone attaches securely and easily to your car's sun visor for convenient handsfree calling. Compact and light enough for car, office or home use, with a digital display featuring a built-in tilt sensor to show caller ID and leading talk/stand-by times (up to 24 and 450 hours respectively)[2], it's the perfect compliment to the Bluetooth® functionality in Sony Ericsson and other compatible brand handsets.

1. Ability to use this Bluetooth® enabled product with other devices may vary as not all Bluetooth devices are compatible.
2. Actual battery life may vary based on product settings, usage patterns, battery and environmental conditions.

Sony Ericsson

Bluetooth® Headsets

HBH-DS970
Stereo Bluetooth® Headset

- Displays the name or number of your caller
- Streams music and handles calls without wires
- Multipoint function allows connection of two compatible wireless devices simultaneously

Enjoy your music without the risk of missing incoming calls. The HBH-DS970 stereo Bluetooth® headset allows you listen to your music with superior sound quality, and when you receive a call, the display reveals the name or number of your caller. Supporting the multipoint function, the HBH-DS970 offers access to your entire library of music files on your computer, PDA or other Bluetooth® devices[1].

1. Ability to use this Bluetooth® enabled product with other devices may vary as not all Bluetooth devices are compatible.

HBH-GV435
Bluetooth® Headset

- Superior sound - Bluetooth® 2.0 technology, fast automatic volume adjustment, Digital Signal Processing (DSP)
- Ergonomics - Extraordinarily comfortable and light for all day use
- Long talk and standby times - All day use for busy people[2]
- Auto pairing™ - Dropping the PIN code without compromising security[3]
- Compatibility - compatible with most Bluetooth®-equipped mobile phones[1]

Boasting an ergonomic lightweight design that fits snugly around your ear, the HBH-GV435 Bluetooth® headset is so comfortable, you might forget that you are wearing a headset at all. You will always be able to engage in crystal-clear conversations, because it's custom designed for optimal sound quality whether you work in a quiet or tumultuous environment.

1. Ability to use this Bluetooth® enabled product with other devices may vary as not all Bluetooth devices are compatible.
2. Actual battery life may vary based on product settings, usage patterns, battery and environmental conditions.
3. Autopairing available through select handsets

Sony Ericsson

bluetooth® headsets

HBH-IV835 Bluetooth® Headset

- Bluetooth® 2.0 wireless headset
- Auto Pairing™[2] recognition system
- Ultra-small, compact design
- Digital Signal Processing (DSP)

Free your hands with the convenience of Bluetooth® wireless technology. The innovative HBH-IV835 headset uses an advanced Auto Pairing™ feature to instantly recognize your compatible Sony Ericsson mobile phone as soon as you activate the Bluetooth® headset[1]. And for improved sound quality of your conversations, Digital Signal Processing (DSP) automatically adjusts volume levels for maximum clarity. The glossy finish and ultra-small compact pen form are both comfortable and attractive.

1. Ability to use this Bluetooth enabled product with other devices may vary as not all Bluetooth devices are compatible.
2. Autopairing available through select handsets

HBH-PV702B & HBH-PV702W Bluetooth® Headset

- Bluetooth®[1] technology
- Fast port connector
- Affordable high performance headset

Talk hands-free for hours[2]. The lightweight and compact HBH-PV702B Sony Ericsson Bluetooth® headset delivers reliable, high-quality audio and long talk times[2] so you can multi-task for longer than ever. Great-looking black finish and clean, pen-shaped design.

1. Ability to use this Bluetooth enabled product with other devices may vary as not all Bluetooth devices are compatible.
2. Actual battery life may vary based on product settings, usage patterns, battery and environmental conditions.

HBH-PV705SLV Bluetooth® Headset

- Extraordinary talk and standby times
- Lightweight and compact design
- Bluetooth® enabled[1]

There's never been a better time to go wireless. Providing up to 12 hours of talk time and up to 300 hours of standby time[2], the HBH-PV705SLV Bluetooth® headset is the ideal handsfree device. Weighing less than half an ounce[3], the HBH-PV705SLV comfortably wraps around your ear, allowing you to interact with the world outside of your phone conversation.

1. Ability to use this Bluetooth enabled product with other devices may vary as not all Bluetooth devices are compatible.
2. Actual battery life may vary based on product settings, usage patterns, battery and environmental conditions.
3. Non-metric weights and measurements are approximate and may vary.

HBH-PV705SE
Bluetooth® Headset Style Edition

- Bluetooth® wireless headset
- Soft ear hook design
- Three design plates (included)

Experience the freedom of handsfree communication for your compatible Sony Ericsson mobile phone. The Bluetooth® headset included in the HBH-PV705SE style edition weighs approximately 0.49 ounces[2] (14 grams) and its soft ear hook design is comfortable for even the longest conversations. And since the ear speaker does not cover your ear canal, you can talk to people around you without having to take the headset off. A beautiful necklace strap and three different design plates that easily snap into place are included. Keep it all together with closeable black pouch with a silver floral pattern.

1. Ability to use this Bluetooth enabled product with other devices may vary as not all Bluetooth devices are compatible.
2. Non-metric weights and measurements are approximate and may vary.

Sony Ericsson

bluetooth® headsets

HBH-PV710
Bluetooth® Headset

- Extraordinary talk and standby times
- Lightweight and compact design
- Bluetooth® enabled[1]

Talk longer with no hands. The HBH-PV710 Bluetooth® headset has leading talk and standby times of up to 12 and 300 hours[2] respectively, and is designed with rich, eye-catching colors. Its swiveling ear hook makes it comfortable to wear, and its silver body with glittering brown or red covers make it look great. Between calls it can hang on a supplied neck strap, easily slipping on when needed. Its classic pen-shaped form brings the microphone closer to the mouth for superior voice clarity.

1. Ability to use this Bluetooth enabled product with other devices may vary as not all Bluetooth devices are compatible.
2. Actual battery life may vary based on product settings, usage patterns, battery and environmental conditions.

HBV-100
Bluetooth® VoIP Kit

- Included handsfree Bluetooth® headset (HBH-PV705)
- USB adapter for PC connection
- Included standard charger (CST-61)

Free your hands with the HBV-100 Bluetooth® VoIP kit. It's the perfect way to stay in touch with friends and family over the internet. Comprised of a HBH-PV705 Bluetooth® headset and a Bluetooth® USB adaptor, you get all the normal benefits of using a Sony Ericsson Bluetooth® headset while making low cost internet calls. This sleek unit provides excellent sound quality and surprising comfort. The discreet Bluetooth® USB adaptor plugs into your Windows® XP PC and requires no complicated installation, plus it's compatible[1] with most global internet telephony software[1]. The outstanding talk and standby times of the headset allow you take full advantage of low-cost internet calls.

1. Ability to use this Bluetooth enabled product with other devices may vary as not all Bluetooth devices are compatible.

Bluetooth® Headsets

HBH-GV435A
Bluetooth® Headset

- Bluetooth® 2.0 + EDR (Enhanced Data Rate)[1]
- Auto pairing™ technology[1] and easy redialing
- Superior sound - fast automatic volume adjustment, Digital Signal Processing (DSP)
- Ergonomics – Extraordinarily comfortable and light
- Talk/ Standby time: up to 10 hrs/ 300hrs[2]

Wear it an entire day and handle calls through the easy-to-use buttons of the headset. Digital echo reduction and noise cancellation in combination with fast automatic volume adjustment bring clear sound for both you and the person you are talking to. Auto paring™ technology[1] and redialing are other practical features that make your mobile life a little easier.

1. Ability to use this Bluetooth® enabled product with other devices may vary as not all Bluetooth® devices are compatible.
2. Actual battery life will vary based on network, product settings, usage patterns, battery and environmental conditions.

HBH-IV840
Bluetooth® Headset

- Convenient neck strap with quick release
- Bluetooth® 2.0 + EDR (Enhanced Data Rate)[1]
- Auto pairing™ technology[1] and easy redialing
- Ultra-small, compact and comfortable design
- Fast automatic volume adjustment
- Talk/ Standby time: up to 9 hrs/ 400hrs[2]

Featuring Auto pairing™ technology and easy redialing, this sleek headset functions as great as it looks. Digital Signal Processing (DSP) makes for crisp sound, and the natural design is compact and comfortable. What's more, it boasts up to nine hours of talk time[2] and uses digital noise cancellation and echo reduction to reduce irritating background noise.

1. Ability to use this Bluetooth® enabled product with other devices may vary as not all Bluetooth® devices are compatible.
2. Actual battery life will vary based on network, product settings, usage patterns, battery and environmental conditions.

Sony Ericsson

bluetooth® headsets

HBH-DS200 Stereo Bluetooth® Headset (A2DP)

- Battery status indicator
- 3.5 mm stereo jack – choose the headset to match the occasion
- Streams music and handles calls without wires[1]
- Auto pairing™ technology and redialing[1]
- Superior Sound – Bluetooth® 2.0 technology, fast automatic voice adjustment, Digital Signal Processing (DSP)[1]
- Ergonomics – Extraordinarily comfortable and light
- Talk/ Standby/ Music time: up to 6 hrs/ 300hrs/ 6hrs[2]

When your phone is also your music player, you want to listen to your favorite tracks wherever you go with great sound. Pair HBH-DS200 headset to your mobile phone and enjoy superior sound in stereo. Attach it to your clothing with a sturdy clip and leave your phone in your pocket so that your music controls are always at hand. When a call comes in, the music will automatically mute. Answer or reject calls using the keys on the receiver. Once your call has finished, resume listening to your tracks and play/ pause music with the receiver's practical music control keys.

1. Ability to use this Bluetooth® enabled product with other devices may vary as not all Bluetooth® devices are compatible.
2. Actual battery life will vary based on network, product settings, usage patterns, battery and environmental conditions.

HBH-DS980 Stereo Bluetooth® Headset (A2DP)

- Displays the track info and name or number of your caller on OLED display
- Streams music and handles calls without wires[1]
- Multipoint function with Auto pairing™ technology and redialing[1]
- Superior Sound – Bluetooth® 2.0 technology, fast automatic voice adjustment, Digital Signal Processing (DSP)[1]
- Talk/ Standby/ Music time: up to 6 hrs/ 300hrs/ 6hrs[2]

Sleek and elegant, when you connect the HBH-DS980 to your mobile phone, you can listen to your favorite tunes without missing a call—the music automatically pauses when a call comes in. The Remote Control interface lets you control your music and main call functions—answer/end, voice dial, last number redial and volume. Designed with a magic mirror finish, this stylish headset boasts an OLED indicator for battery strength, charging, Bluetooth® status, caller ID, phonebook and track ID so that you can leave your phone in your pocket yet remain in control.

1. Ability to use this Bluetooth® enabled product with other devices may vary as not all Bluetooth devices are compatible.
2. Actual battery life will vary based on network, product settings, usage patterns, battery and environmental conditions.

Bluetooth® Watches

MBW-150EXEC Bluetooth® Watch - The Executive Edition

Sony Ericsson

Chargers and Desk Stands

CDS-65
Desk Stand

- Connect and combine compatible accessories for charging, computer connectivity and handsfree all at the same time[1]
- Integrated support bar to support use with touch screen phones and clam shell designs
- Supports fast port connector on base of phone

Designed to let the user manage their calls and their images with ease, the Desk Stand CDS-65 allows the user to speedily transfer photographs between phone and PC via USB (sold separately), or simply to synchronize data between the two whilst also charging the phone. Attach a portable handsfree (sold separately) and the user can enjoy voice conversations while transferring images and music. Ideal for a home or office environment.

1. AC charger, USB cable and handsfree accessories not included

CLA-11
Cigarette Lighter Adapter

- Charge your battery in less than two hours
- Charge your battery in less than two hours
- Lightweight and portable

Travel smart with the CLA-11 cigarette lighter adapter for your compatible Sony Ericsson mobile phone[1]. In less than two hours, this adapter will recharge your battery even while you talk. For added convenience, a handsfree device may also be used while charging.

1. CLA-11 is compatible with the following Sony Ericsson mobile phones: J200, J300, K300, K500, F500, K600, K700, P910, P900, S700, S710, T290, T610, T616, T630, T637, Z200, Z500, Z600, Z800, V800, Z300.

CLA-60
Cigarette Lighter Adapter

- Charge your phone in your car
- Small, built-in lamp serves as flashlight
- Fast port system connector

Recharge your mobile phone's battery while driving with the CLA-60 cigarette lighter adapter. A must-have accessory for people on the go, this device plugs into your car's cigarette lighter, providing unlimited talk time as it charges your phone. A portable handsfree headset allows you to handle calls simultaneously and a small lamp serves as a flashlight when you need to check the roadmap.

Sony Ericsson

CMT-60
Travel Charger

- Plugs directly into an electrical outlet
- Charges you compatible mobile phone from two "AA" batteries
- Comes with protective cover

Add juice to your mobile phone's battery whenever you want with the CMT-60 micro travel charger. Perfect for the road warrior or globetrotter, this handy device plugs directly into an electrical outlet, or can charge your compatible phone from two "AA" batteries. The pocket-sized CMT-60 comes with a protective carrying cover so you can carry it with you wherever you go.

CST-13
Standard Charger

- Plugs into standard power outlets
- Talk while you charge
- Lightweight and portable

Be sure your compatible Sony Ericsson mobile phone[1] is ready for action with the CST-13 battery charger. Suited for standard power outlets, the CST-13 is the simple solution for keeping your mobile phone powered up for the day.

1. CST-13 is compatible with the following Sony Ericsson mobile phones: J200, J300, K300, K500, F500, K600, K700, P910, P900, S700, S710, T290, T610, T616, T630, T637, Z200, Z500, Z600, Z800, V800, Z300.

CST-75
Two Port Standard Charger

- Plugs into standard power outlets
- Two port design for versatile connectivity
- Charges as you talk

Stay powered up while you keep in touch with friends. And transfer music or files with your compatible Sony Ericsson mobile phone and the CST-75 two port standard charger. The extra port also allows you to connect a USB cable (sold separately) or external speakers while the other port is in use.

1. Please confirm product compatibility by checking the compatibility tab.

Batteries

2. Actual battery life may vary based on product settings, usage patterns, battery and environmental conditions.

Sony Ericsson

Handsfree Headsets

HPM-20
Stereo Portable Handsfree Device

- High-quality, bud-style stereo headphones
- Two ear plugs
- One button handles your calls

Conduct long conversations while you run errands or take notes during a conference call with the HPM-20 handsfree device. Compatible with some K and S series mobile phones[1], this unit provides both stereo sound and a quality built-in microphone. A single button handles your calls.

1. HPM-20 is compatible with the following Sony Ericsson mobile phones: K700, S700, K500i, F500i.

HPM-75
Stereo Portable Handsfree

- Handsfree calling
- 3.5mm input jack
- Multiple bud sizes included

Enjoy the freedom to conduct long conversations handsfree or take notes during a conference call with the metal-constructed HPM-75 handsfree device. Compatible with select Sony Ericsson mobile phones[1]. Single button call control; stereo sound; quality built-in microphone. Spare buds in a variety of sizes are included to ensure a comfortable fit for any ear.

1. Please confirm product compatibility by checking the compatibility tab.

HPM-82
Stereo Portable Handsfree

- Comfortable ear buds
- Compact, lightweight design
- Stereo sound

Listening to music on your phone shouldn't sound like you're listening long distance. The Walkman™-branded Sony Ericsson HPM-82 stereo handsfree system lets you hear your phone-based music with clear sound and a deep bass punch. The stylish and practical in-ear design looks great, while the provided multi-size ear-buds let you select a perfect fit and the 3.5 mm plug lets you use different earphones as you want. And with the stylish glossy-black remote control you can handle calls or browse your playlists while your phone stays in your pocket or purse[1].

1. Step to next/previous preset channel via Remote Control is not supported on the HPM-82 when used in FM radio mode with W810, W800, W700, W200, K750.

Cables

DCU-60
USB Cable

- Transfer music files and photos to your phone
- Synchronize your PC address book with your phone
- Download software from the internet[1]

Building a bridge between your computer and your phone just got easier. The DCU-60 USB cable allows you to move pictures and transfer music files to and from your PC and mobile phone. You can also give your phone a fresh start by downloading new software from the internet[1].

1. Internet connection required.

MMC-60
Music Cables

- Practical music cable - RCA input
- Connects phone to compatible hi-fi system
- Plug and play solution - perfect for traveling

Give your music a smooth ride from your compatible Sony Ericsson mobile phone[1] to your compatible stereo system with the MMC-60 music cable. Just plug it in and enjoy your tunes on a grand scale. The practical RCA format means it's compatible with almost all home sound systems.

1. Please confirm product compatibility by checking the compatibility tab.

MMC-70
Music Cable

- Connects your phone to your compatible stereo
- Perfect for traveling
- 3.5mm input jack

Give your music a smooth ride. The MMC-70 music cable connects your compatible Sony Ericsson mobile phone[1] to your compatible stereo system. Just plug it in and enjoy your tunes on a grand scale. The practical 3.5mm input jack makes it compatible with almost all home sound systems.

1. Please confirm product compatibility by checking the compatibility tab.

Mobile Phone Cases

IAC-25

- Powers your compatible[1] Sony Ericsson mobile phone
- Rechargeable and long-lasting

Add life to your compatible[1] Sony Ericsson mobile phone with this powerful battery. The BST-40 will provide your phone with energy to communicate with friends and family for long periods of time and can be easily recharged when needed.

1. Please confirm product compatibility by checking the compatibility tab.

Sony Ericsson

Handsfree Headsets

HGE-100
GPS Navigation Enabler

- Turn by turn navigation by Wayfinder™ Earth
- Navigation with voice and text commands[2]
- "Tracker" GPS sports application - measure speed, distance, route and calories
- Locate yourself with GPS
- Stereo portable handsfree with remote control -- listen to your music without missing a call
- 3.5mm plug: switch your headset to fit the occasion
- All features powered by your compatible phone

So your phone didn't come with built-in GPS functionality— No problem. The GPS Enabler HGE-100 is a smart accessory that gives you and your compatible phone all the help you need. Just plug it in and start receiving maps, directions and GPS navigation services[2] from Wayfinder™, a leading GPS application that will get you where you want to go[1]. And for those who enjoy getting around on foot, you will appreciate Tracker, a sports application that acts as your own personal trainer by keeping track of how well you did on your last run.

1. Some features rely on Internet services which may require a fee. As with all wireless products, actual performance will vary depending on environment.
2. Full functionality for one month included in the offering. After the trial period, this service will require a fee. Please check with your service provider for more information.

HPM-90
Stereo Portable Handsfree

- OLED Display with caller ID and track information
- Handle calls or adjust music on the move
- Quality sound with great balance between bass & treble
- 3.5mm plug: listen to music from your choice of headset
- Call handling keys to answer, end, mute or reject calls
- Clip for attaching Remote Control to clothing

Take calls and listen to your music without touching your phone using the stereo portable handsfree HPM-90. This sleek and elegant headset consists of in-ear stereo headphones and a OLED Display that gives you all the information you need to know about who's calling, what song is playing and which radio station you are listening to—without taking your phone out of your bag. With a total of five keys for call handling and Walkman® player functions, the HPM-90 is easy to use and convenient to wear but light enough to feel comfortable all day. Enjoy superior sound quality at home or on the go.

Cases and Stylus Packs

IPK-100
Cyber-shot™ Camera Phone Kit

- Help protect your phone with Cyber-shot™ branded case
- Easy access - won't miss a shot!
- Include yourself in the picture or video using the tripod
- Use your phone easily in the case with optional headset
- Carry your phone on your belt with the belt clip

When you take a picture with your camera phone, you capture a moment in time. An irreplaceable moment should be guarded with the IPK-100 protective case. Or with the IPK-100 protective case. And with incredibly easy access, you won't miss a shot. Steady your camera phone with the tripod and include yourself in the picture or video. After all, it's your moment and your memory to enjoy. The Camera Phone Kit IPK-100 comes with a protective case, tripod and detachable belt clip to optimize, enhance and support the use of your camera phone.

ISP-40
Sony Ericsson Stylus Pack

- Built for your Sony Ericsson P1i mobile phone
- Efficient and accurate phone control
- Stores neatly in handset
- Spare styli included (total of 3 in a pack)

Release the full capability of your Sony Ericsson P1i in the most efficient way with a Stylus from the Stylus Pack ISP-40. Conveniently stored in the housing of your handset, the pack contains spare styli should you need one.

Chargers & Desk Stands

MRC-60
Remote Control Cradle

- Holds & charges your phone with the use of your AC charger
- Plays your music from phone through your audio system
- Use the slim remote to control music & handle calls

Free your phone's tunes: dock your compatible Sony Ericsson mobile phone in the MRC-60 Remote Control Cradle and hear your music on a grand scale. Play music in hi-fi through your sound system while charging your phone's battery with the use of your AC adapter. The cradle's simple-to-use remote lets you control your music tracks and volume, and conveniently handle calls.

▶ Denotes system connector on side of handset. Handset will work with the device, but will be positioned on its side. * Compatible when used with Windows XP. ** SMS notification is not supported on MBW-150 when used with W810. Please note that in order to have full compatibility between the MBW-150 and your Symbian OS phone you need to have software release MR-C or later. If you do not have this release some functionality may not work. Track title will only work on Symbian phones with software release MR-E or later and on OCE phones (Operating System Ericsson) with software release MR-5 or later. Track title display is not supported with the following phone models: K610, K618, K790, K800, K818, M600, P990, V630, W710, W830, W850, W950, W958, Z610, Z710. You can find which SW release you have on your phone or upgrade it to the new version by using Sony Ericsson Update Service. *** IPK-100 is a Cyber-shot™ branded accessory, but it will also work with other compatible phones listed above. **** Step to next/previous preset channel via remote control is not supported on the HPM-82 & HPM-90 when used in FM radio mode with W810, W800, W700, W200, K750. HPM-90 does not support RDS information when listening to the FM radio.
