TRACK

series

You could say that the iDance TRACK is just a sleeker, on-ear version of our resident high-flyer, IBIZA. But that wouldn't be fair to our designers who toiled to create an ergonomic work of art, fine tuning the ear cup's shape and size, and coming up with TRACK, that retains all the key elements of the first with far less complexity and greatly reduced part count, and to deliver iDance HUGE Sound through high-quality tuned, 40mm drivers and an advanced acoustic chamber.

Because of the success of the IBIZA, we weren't starting from scratch. TRACK series is trendy and timeless – the perfect balance of design and performance, fitter for fashion, action and sound lover.
