

# Epson AcuLaser C9300N

The C9300N printer will appeal to businesses and medium-to-large workgroups who want first class, professional-quality prints at up to A3 size in colour.

**New technology** - It offers Epson's new Advanced Amplitude Modulation (AAM) screen technology to analyse dot placement and produce sharp images with well-defined edges.

**High quality output** - Epson's resolution improvement technology, AcuLaser Colour-RITech, eliminates uneven edges in text and delivers charts, graphics and even CAD schematics with clear, crisp tones.

**Low TCO** - It boasts Epson's lowest cost-per-page for a laser in both mono and colour. This, in addition to the optional duplex unit which helps save up to 50% on paper usage, plus the ENERGY STAR-qualified reduced power consumption, mean that its TCO is very low.

**Engineered for business** - It has a compact footprint and the ability to print at up to A3 size in colour. Its print speed of up to 30ppm in A4 mono and colour helps boost productivity and a paper capacity of up to 2055 sheets saves on time refilling it. And the Gigabit Ethernet and PDL support with IPsec, IPv6 and SSL makes integration into complex IT environments hassle-free.

**High durability** - It has a duty cycle of up to 100,000 pages, so businesses can be confident that their investment in the Epson range is a sound one.
