Full HD WDR IP Network Outdoor fixed Dome Camera
4MP (H.264), Progressive Scan CMOS Sensor, PoE, IP 66, IK10, 3mm-9mm motorized

With the DIGITUS® WDR camera range using SONY Exmor sensor, every pixel of the image is processed for optimal exposure and color reproduction. In high contrast scenes, most over or under exposed areas are corrected, producing usable video. DIGITUS® WDR cameras are designed for high-contrast lighting conditions, where high quality identification is needed, such as airports, passport controls and casinos and so ideal for intelligent video analysis applications. The DIGITUS® WDR outdoor vandal proof Dome camera comes with 4 megapixel and 1080p with 60 frames for high-quality video, real-time viewing, removable infrared cut filter and 6 solid light LEDs for delivering low-noise images in total darkness at a distance of up to 40 meters. The camera is designed with IP66 weatherproof outdoor housing and IK10 vandal-proof. With 802.3af compliant PoE there is no need to install the camera near a power source, power and data are received through only one single Ethernet cable. The DIGITUS® WDR camera is equipped with a built-in microSD/SDHC card slot for local storage. With 3-axis mechanical design, it offers a flexible installation for all applications. With the H.264 codec the camera transfers High Definition data through LAN and Internet without distortion.
