

Overview

Microsoft SQL Server 2014 Standard Edition

SQL Server 2014 delivers business-class data management for a wide variety of database applications, with reliable uptime, security and ease of management. Hybrid cloud capabilities help to scale on demand, increase availability and reduce costs. And when it comes to business intelligence (BI), SQL Server 2014 delivers faster insights into any data through familiar tools.

For general information on each of the SQL Server 2014 editions, visit: <http://www.microsoft.com/en-us/server-cloud/products/sql-server-editions/>

For detailed product specifications and a full feature-by-feature comparison of the SQL Server 2014 editions, visit: [http://msdn.microsoft.com/en-us/library/ms143287\(v=sql.120\).aspx](http://msdn.microsoft.com/en-us/library/ms143287(v=sql.120).aspx)

Hewlett Packard Enterprise OEM Microsoft SQL Server 2014 Standard Edition licenses are available for purchase directly from Hewlett Packard Enterprise and Authorized Partners.

- All Hewlett Packard Enterprise OEM Microsoft SQL Server 2014 Standard kits include:
 - DVD9 SQL Server Standard Edition 2014 OEM Media
 - SQL Server Standard Edition 2014 Certificate Of Authenticity (COA) with Product Key
- **From Hewlett Packard Enterprise:** Available for sale at the time of your ProLiant server purchase as non-preinstalled option (drop in the box), available for 2 different licensing models (1) Server + CAL and (2) Core Licensing.
- **From Hewlett Packard Enterprise Resellers and Partners:** Hewlett Packard Enterprise OEM SQL Server Standard Edition bundled with Windows Server 2012 R2 Standard or Datacenter Editions (Hewlett Packard Enterprise OEM WS OS/SQL Server Reseller Option Kit = Hewlett Packard Enterprise OEM ROK). Server + CAL licensing only.
- Client access licenses (CALs) required for both the Operating System (OS) and SQL Server are also available at the time of your server purchase or can be purchased at a later time. Please be sure to review the minimum system requirements for Microsoft SQL Server at: <http://www.microsoft.com/en-us/server-cloud/products/sql-server/>.
- **NOTE: CALs are not required for SQL Server Core Licensing SKUs.**

NOTE: For more information on Hewlett Packard Enterprise's offering of SQL Server 2014 products, go to: <http://www.hp.com/go/sql2014>

What's New

- **Server + CAL Licensing**

When licensing SQL Server software under the Server + CAL model, customers purchase a server license for each server, and a Client Access License (CAL) for each device (Device CAL) and/or user (User CAL) accessing SQL Server or any of its components. A CAL is not software; it is a license granting users and devices access to the SQL Server software.

 - Hewlett Packard Enterprise is adding Reseller Option Kit (ROK) Part Numbers of SQL Server Standard Edition bundled with Windows Server 2012 R2 Standard or Datacenter Editions, for six different languages: English, French, Italian, German, Spanish, and Japanese.
 - SQL Server Standard Additional Licenses are also now available for the same six languages, aligned to the new ROK offering SKUs.
 - SQL Server CALs for 1 and 5 Users or Devices are now available for the same six languages.
- **Core Licensing**

Under the Per Core licensing model, each server running SQL Server 2014 software or any of its components (such as Reporting Services or Integration Services) must be assigned an appropriate number of SQL Server 2014 core licenses.

Overview

With the Per Core model, customers do not need to purchase client access licenses (CALs) to access the SQL Server software.

- Hewlett Packard Enterprise is introducing SQL Server Standard 4 Core licensing SKUs plus 2 Core licensing SKUs for license additional cores on the physical Server or virtual cores on the Virtual Machine (VM) where the SQL Server will be installed. **All cores on the physical Server or VM must be licensed. There is a minimum of four core license required per physical server or VM.**

For detailed SQL Server product licensing information, visit:

<http://www.microsoft.com/sqlserver/en/us/default.aspx>

Models

SQL Server 2014 Standard Edition – Server + CAL Licensing

Not Pre-Installed

NOTE: English only. Includes DVD9 SQL Svr Standard Edtn 2014 OEM Media and COA. Sold only as a configurable option with a ProLiant Server purchase.

NOTE: This Part Number includes a Downgrade kit with the following items:

- SQL Server 2012 Standard Edition English DVD 9 (Downgrade) with Product Key
- SQL Server 2008 R2 Standard Edition English DVD 9 (Downgrade) with Product Key
- SQL Server 2008 R2 Wrkgrouop Edition English DVD 9 (Downgrade) with Product Key

Additional Features

Service and Support

Leverage the 30 year relationship between Hewlett Packard Enterprise and Microsoft to simplify your support. We employ over 30,000 Microsoft-trained professionals; more than 13,000 designated as Microsoft-certified. Turn to Hewlett Packard Enterprise to support both your Hewlett Packard Enterprise hardware and Microsoft operating system software throughout the IT lifecycle.

Our **SQL infrastructure consulting services for Microsoft** help you tune, consolidate, migrate and implement your new SQL environment, lowering risk, gaining efficiency as you move to Microsoft SQL Server 2014.

Don't forget our **HPE Lifecycle Event Services** for installation and startup of your new servers and Microsoft software plus our **HPE Education Services** to keep your staff knowledgeable on Microsoft SQL software.

24x7 technical phone support is available from Hewlett Packard Enterprise on the server operating system and applications, aligned to the operating environment you select. When you purchase Microsoft support from Hewlett Packard Enterprise, we simplify your support processes by fully owning resolution of hardware and software issues. With our experience, we resolve more than 90% of our Microsoft support cases ourselves, engaging Microsoft when needed for bug fixes and complex issue resolution.

Our support portfolio gives you three levels of support to connect to Hewlett Packard Enterprise and get back to business. Included with each are the tools you need to stay informed and in control of your Microsoft systems.

- **HPE Proactive Care** is designed to support production x86 servers where downtime must be minimized; this service helps you prevent issues before they cause problems using proactive reports and advice, highly accurate diagnostics, real-time alerting and fast connection to expertise.
- **HPE Foundation Care** provides hardware and software support, perfect for non-production or low impact servers. Choose the coverage window and response time that fits your service level and budget requirements. Foundation Care provides collaborative software call management for Microsoft OS and Apps as part of your server support, enabling a simpler support experience with one place to call for help.
- **HPE Datacenter Care** provides IT environment support —tuned for revenue generating production environments— and is designed to help you operate with what you have today and evolve as your datacenter adopts new technologies to support the IT infrastructure for quickly-changing businesses.

For more information on our support services, visit <http://www.hp.com/services/supportservices>

Microsoft Software Assurance

Microsoft Software Assurance (SA) is a way for licensed customers to keep current with the latest, most innovative Microsoft products. Under the SA program, customers acquire the right to access any new release of a product covered in the agreement during the term of the coverage. Software Assurance now includes more benefits for the same price, including problem resolution support during business hours for covered server products, access to Managed Newsgroups and Online Concierge Chat, and Microsoft's self-paced training courses.

In order to guarantee eligibility for the most current product releases and "upgrade-like" pricing you will need to purchase Software Assurance available within 90 days of your purchase of any of the latest versions of HP/Microsoft OEM products.

NOTE: For more information, please visit:

Additional Features

<http://www.microsoft.com/licensing/programs/sa/default.aspx>

HPE Software Licensing and Management Solutions (SLMS)

HPE Software Licensing and Management Solutions (SLMS) provides license advisory, Reselling and software asset management services that help you maximize your strategic software investments and drive cost reduction programs through improved control and compliance. SLMS provides a global sales channel for all Microsoft volume licensing programs and will work with you to ensure your software needs are met. These services are offered worldwide and span all software vendors and licensing models, providing an innovative approach to managing and optimizing your software license estate and addressing the licensing implications of the New Style of IT. For more information on HPE SLMS visit: <http://www.hp.com/go/slms>.

Windows Server Catalog Definition

Microsoft's certification program allows HPE ProLiant servers a compatibility certification with Windows Server operating systems. HPE ProLiant Servers listed in the Windows Server Catalog have been rigorously tested and certified with Windows Server 2012 R2 as a foundation for your SQL needs.

NOTE: For information on ProLiant servers certified for Windows server, visit:

<http://www.hp.com/go/wincert>.

NOTE: For details on Microsoft's server catalog that also includes a list of HPE ProLiant certified servers, visit: <http://www.windowsservercatalog.com/>.

Environment-friendly Products and Approach

End-of-life Management and Recycling

Hewlett-Packard Enterprise offers end-of-life HPE product return, trade-in, and recycling programs in many geographic areas. For trade-in information or to recycle your product, please go to: <http://www.hp.com/go/green> or contact your nearest Hewlett Packard Enterprise sales office. Products returned to Hewlett Packard Enterprise will be recycled, recovered or disposed of in a responsible manner.

The EU WEEE directive (2002/95/EC) requires manufacturers to provide treatment information for each product type for use by treatment facilities. This information (product disassembly instructions) is posted on the Hewlett Packard Enterprise web site at: <http://www.hp.com/go/green>. These instructions may be used by recyclers and other WEEE treatment facilities as well as Hewlett Packard Enterprise OEM customers who integrate and re-sell Hewlett Packard Enterprise equipment.

Summary of Changes

Date	Version History	Action	Description of Change
29-Apr-2016	From Version 4 to 5	Changed	Overview section was updated.
01-Dec-2015	From Version 3 to 4	Added	New Server + CAL Licensing and Core Licensing were added to the QuickSpecs.
		Changed	Overview and Additional Features were revised.
08-Jun-2015	From Version 2 to 3	Added	Added SQL Server 2012 DVD 9 (Downgrade) with Product Key.
20-Feb-2015	From Version 1 to 2	Removed	Removed SQL Server 2012 DVD 9 (Downgrade) with Product Key.
