“Consider the lilies, how they grow...”

Luke 12:27

To Our Customers and Friends,

Thank you very much for your support and feedback. Deerfield Gardens does a lot of reviewing of our successes and challenges of the previous season as we plan for the future. We strive to deliver high quality plants at a good value. Production has begun and as we observe the plants our excitement grows with them for the season ahead.

Here are some new plants being offered this year. A cuphea series that is floriferous earlier in the spring. Senecio Angelwing seems impressive. We have several new additions to the crushable line: woodland strawberries, a miniature yarrow and monarda, morrocan pincushion, and tidal pool veronica.

Also, just what we knew everyone needed, another mint. We could not resist adding Jessica sweet pear mint and a golden lemon balm. Our succulents are looking great, as we hope to continue with the success of the sedums and portulaca again this year.

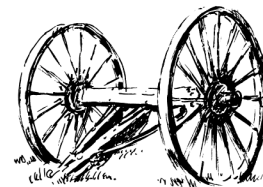

Double Click cranberries and Cosimo purple red seem like nice additions to the cosmos we offer, and the 6-8” tall Candy Tops snapdragon may be a great fit for window boxes.

As always there is no delivery fee. Any comments or suggestions are appreciated and of course you are encouraged to come see for yourself. THANK YOU!

Eric Schmitt and Karin Lessard
