ARIZONA DEPARTMENT OF MINES  
AND MINERAL RESOURCES

**ARIZONA DEPARTMENT OF MINES AND MINERAL RESOURCES**

Leroy E. Kissinger, Director

**Phoenix Office:**

Mineral Bldg., Fairgrounds  
Phoenix, AZ 85007  
(602) ~~542~~-3791

255

**Tucson Office:**

416 W. Congress, Rm 190  
Tucson, AZ 85701  
(602) 628-5399

**BOARD OF GOVERNORS**

Clifford B. Altfeld - Tucson  
Chairman

Edna Vinck - Globe  
Vice-Chairman

Roy Miller - Phoenix  
Secretary

C. J. Hansen - Tucson  
Member

Donald W. Hart - Phoenix  
Member

**THE ARIZONA DEPARTMENT OF MINES AND MINERAL RESOURCES**

The Department's task is to promote the development of Arizona's mineral resources. This is accomplished through technical research, field investigations, compilation of information into a mineral occurrence data base and disseminating information through publications, personal contacts and seminars.

The Department's mining engineers and geologists assist mining and exploration companies, prospectors and others interested in Arizona's minerals with mineral processing, mineral land acquisition, exploration, mine development, financing, government regulations and marketing.

The Department is a service agency and does not regulate, tax or require any type of registration. The agency provides many different services tailored to meet the differing needs of the public. The following is a partial list of services which the Department offers:

- Maintain a site specific data base of unpublished reports and maps which includes 5,000 mine files and indexes of 10,000 computerized Arizona mineral locations.
- Maintain an information bank and library of mineral and mining information including, a mine map library (hard copy and microfilm), government publications, periodicals, and unpublished master and doctorate theses.
- Gather and disseminate information on commodities and markets.
- Suggest target areas for possible exploration activity.
- Suggest prospects and individual properties for study and acquisition.
- Assist individuals and companies in their dealings with State regulatory agencies to facilitate their mining and exploration activity.
- Provide publications in the form of mineral reports, annual directories, technical reports, annual mineral industry surveys and information circulars. These include *Laws and Regulations Governing Mineral Rights in Arizona*, *Directory of Active Mines in Arizona*, *Arizona Mineral Development*, *Manual for Determination of Status and Ownership of Arizona Mineral and Water Rights*, and others. A current listing of the Department publications is available upon request.

INTRODUCTION

This directory is a compilation of companies that either have exploration offices in the State, or have exploration interest/activity in Arizona but with regional exploration offices outside of Arizona. The following information is included for each company:

- Company Name
- Mailing Address
- Location - Street Address for Arizona Offices
- Telephone Number
- Primary Commodity Interest(s)
- Contact Person
- Key Personnel and Title for Arizona Offices

This information is presented with the intent of aiding exploration in Arizona by facilitating contact between mine owners and the exploration industry.

This directory is arranged alphabetically by company names in two parts. The first section includes the exploration offices located in Arizona. The second is for other companies regional offices which are responsible for Arizona exploration.

The exploration industry is one traditionally characterized by continuous change. This includes the changing of personnel and the opening, moving and/or closing of offices in response to changing commodity markets, geologic models, technology, etc. Due to these factors we recognize that some offices may have been inadvertently excluded. We welcome notice of any incorrect or outdated information. We wish to thank those contacted for their cooperation in compiling this directory.
