

GOLD WAVE NIPPED SECOND VICTORY DAY

Excellent Attractions Enjoyed By a Comparatively Small Crowd As Result Poor Weather.

Cold, cloudy, threatening weather Wednesday effectively limited the crowd at Chelsea's Second Victory Day celebration to probably one-third what would normally be expected on such occasions; but otherwise the day was a big success.

Starting with the automobile parade at noon and closing with the dance in the evening, everything ran smoothly, excepting that only one balloon ascension was made instead of two as advertised. The high wind during part of the day made an ascension impossible until about six o'clock when the big bag rose splendidly in the air and the aeronaut made a triple parachute drop. The second parachute did not open promptly and for a second it looked as though a fatal accident would mar the day, but it finally opened tardily and the third parachute broke out immediately with a loud snap, the intrepid aeronaut making a safe landing southeast of town, just beyond the peat marsh.

The Six Morales proved to be a premier attraction in their horizontal bar, tight and slack wire acts. They gave two performances, afternoon and evening.

The Chelsea-Dexter baseball game was won by the Dexter team, 5 to 1. The several committees in charge of the day, and especially the auto-

mobile parade committee, desire to thank all who aided in any way to make their work easier and the day a success.

NEW INDUSTRY STARTS IN CHELSEA MONDAY

Central Fibre Products Company Will Manufacture Line Furniture And Seaming Cord.

The Central Fibre Products Company is the name of Chelsea's latest industry and it will begin production next Monday. The company will manufacture a line of cord from heavy wrapping paper, used in the construction of furniture and also in the seams of upholstered articles, especially in automobile seats, backs, etc., and upholstered chairs.

The new company is capitalized at \$7,500. Howard S. Holmes is president, Jabez Bacon vice president, Donald Bacon secretary and general manager, Ben Bacon production manager. The last named has had a number of years practical experience in the several departments of a similar plant, and understands all the processes of manufacturing such cord.

The new plant will include eight spinning machines, a paper slitting machine, a paper wetting machine, and a rewinding machine. For the present, the plant is located in one of the Holmes' warehouses, known as the "green warehouse," along the north side of the Michigan Central railroad, west of Main street and almost directly south of the Chelsea Roller Mills.

ACCIDENT ROGERS COR'S

Little Girl Seriously Injured When Struck By Automobile.

Alma Meyers, 7-year-old daughter of Mr. and Mrs. John Meyers of Freedom township, was seriously injured Tuesday afternoon when she was struck by an automobile driven by a Mr. Lowry of near Manchester. The accident occurred in front of the school house, at the afternoon recess time. The little girl ran across the road in front of the machine. Mr. Lowry attempted to avoid hitting her and his machine turned turtle, injuring both himself and his wife. The little girl's left arm was broken between the elbow and shoulder and she was badly bruised and cut. She was unconscious for about 24 hours following the accident and may be otherwise injured. Mr. Lowry's leg was badly cut and his wife painfully bruised and cut. The automobile was considerably damaged.

NOW THAT WOMEN VOTE.

We're hearing a good bit of talk in Chelsea these days about what will come to pass now that the women of the nation are to have the ballot. In fact, just at this time it seems to be an all-absorbing topic all over the United States. One man's opinion is as good as another when it comes to predicting the outcome of this latest reform. Both old-line partisans claim it will help them. Each one claims to be the favorite of the new voters. So you can take your choice of either opinion. The women themselves, or the leaders who have worked hardest to bring about suffrage, claim they can poll ten millions of votes in the United States. There are others who declare they can't get more than five or ten out of every hundred women entitled to a vote to go to the polls and cast it. And you are at liberty to believe either side of this argument you want to. It's a political year, one filled with all kinds of wild-eyed rumors; the man who can't find something to suit his own personal opinions is certainly hard to satisfy.

Personally, we are not venturing an opinion as to just what difference it is going to make. All we know is there are enough good men and good women, honest men and honest women in this country to keep it from "going to the dogs." And it is our experience that the majority is generally right, as our history shows. We can dismiss the much-talked-of problem of suffrage by saying that the women of this country may be depended upon to do what they believe is best for the country. And whatever they do won't be far wrong when everything is summed up—trust the women for that!

DAVID BRISTLE.

David Bristle died Wednesday in Pontiac. The funeral will be held Saturday morning at 10 o'clock from the home of his sister, Mrs. Fred Hinderer. Interment at Rogers' Corners.

DISLOCATED ELBOW.

Shortly before the automobile parade, Wednesday, Norman Guebel was thrown from his pony and his arm dislocated at the elbow. Although very painful, the joint was reset and he is recovering as rapidly as can be expected.

FORMER CHELSEAITE INJURED.

In an automobile-interurban car collision at Grass Lake, yesterday afternoon, George Etche of Jackson, formerly of Chelsea, was so seriously injured that he may die. Dr. M. S. Vaughn, Mrs. Vaughn, Mrs. Eisele and Mrs. Fred Weber, also of Jackson, were injured, but not so seriously as Mr. Eisele.

NEIGHBORHOOD NEWS

Brief Items of Interest in Chelsea and Vicinity. From Nearby Towns and Localities.

JACKSON—Fire believed to have started from sparks from a passing locomotive damaged one of the coal chutes in the Michigan Central yards early Wednesday morning to the extent of \$10,000.

YPSILANTI—The Ypsilanti Robe and Tanning company was burglarized Wednesday morning between five and six o'clock, the robbers getting away with a small amount of loot, consisting mostly of ladies' wearing apparel that was in one of the show cases.

JACKSON—Concrete was laid Wednesday on the first piece of permanent, hard-surfaced highway in Jackson county, excluding the city pavements, according to City Engineer Walton B. Hodges. This piece of pioneering in road construction is a stretch to extend for one and one-half miles this fall out Lansing avenue from the city limits north.

YPSILANTI—The Michigan State Normal college, the largest institution of its kind in the middle-west, opened Wednesday. At the close of registration Tuesday there were 1,057 students enrolled, which is much larger than the enrollment has been for several years past.

ANN ARBOR—Mrs. Maude Drake, wife of Prof. Joseph Drake, died at her home 908 Lincoln avenue, Wednesday morning. She had seemingly been in her usual health until about ten o'clock, when she suddenly suffered a stroke of apoplexy. She did not regain consciousness and passed away at 12:30 that afternoon. Mrs. Drake is survived by her husband, a daughter, and three sons.

Fordson Farm Tractor

Fordson Testimonial

Several Reasons Why I Bought a Fordson:

- Because The Fordson is dust-proof; no matter how much a tractor costs or how powerful, it is very short-lived unless it is dust-proof.
- Because I can save enough hay and grain in one year to operate my Fordson for five years.
- Because I can buy farm tools made especially for Fordsons by the largest implement manufacturers and the repairs handled by Ford dealers at reasonable prices. Every tool is a dandy!
- Because I can do more work with less help.
- Because it is handier to get around with than a three horse team.
- Because I can get more power from cheap fuel than I can get from gasoline.
- Because I can get service or repairs in twenty minutes.
- Because it is a wonderful power plant for belt work.
- Because it has plenty of power on the draw bar.
- Because it makes work easier for men and horses.

**FIRST AID TRAINING
 TO MEN AND WOMEN**

**American Red Cross Is Teaching
 Hundreds of Thousands Life-Saving Methods.**

The purpose of instruction in First Aid to the injured offered by the American Red Cross is to train men and women to administer First Aid treatment promptly and intelligently when emergencies demand it. First Aid treatment is not intended to take the place of a physician's services. A surgeon should always be summoned as a precautionary measure where there is an injury of any consequence, but when one cannot be secured a few minutes' delay may mean a family. In such a case a person trained in First Aid is invaluable not only to the individual, but through him to the community in which he lives.

There is perhaps no way of ascertaining the number of deaths or serious disabilities which result from lack of proper safeguards or prompt emergency treatment. It is safe to assert they number thousands daily. There can be no doubt that the application of First Aid methods to each case would immeasurably lighten the country's toll of suffering and death.

The dissemination of First Aid training and information has already produced a far-reaching and beneficial influence in the prevention of accidents on railroads, in mines and in great industrial concerns.

The benefit of a widespread knowledge of First Aid in the event of a great disaster, such as a train wreck, an explosion, an earthquake, etc., is obvious. Laymen who have had First Aid training can render efficient assistance. Many lives may depend upon such emergency care.

Red Cross First Aid work includes (1) the formation and conduct, through Red Cross chapters, of classes for instruction in accident prevention and First Aid to the injured among men and women in all communities and in every industry; (2) the introduction of courses of instruction in high schools and colleges.

The Red Cross is prepared to supply First Aid books and equipment at reasonable prices.

Every person in this country able to do so should, in his own interest, receive Red Cross First Aid instruction. Information about the course and instruction classes may be had at the nearest chapter headquarters.

**HEAD OF STATE POLICE
 WILL REMEMBER JUNE 16**

It is a strange coincidence that Major Robert E. Marsh assumed command of the Michigan State Police just one year, to a day, after he was shot and seriously wounded by a whisky-runner near Crystal Falls. In June 1919, there was considerable lawlessness along the Wisconsin border of the upper peninsula and Capt. Marsh, then in command of the upper

peninsula troop, was on an inspection trip with Lieuts. Vandervoort and High when they encountered two foreigners with a carload of whisky. The two men were arrested but one of them drew a revolver and wounded Capt. Marsh in the back of the neck. Lieut. Vandervoort shot and killed the prisoner who had done the shooting and also wounded the other whisky-runner who was attempting to escape.

**A Pair of Shares and
 a Pair of Shoes**

With the present price of shoes, think what a sense of satisfaction to say: "Well, this pair of shoes is paid for, without any effort of mine—praise be!" And that's just what you can say too if you have \$190 working for you day and night, right here in your own home town.

**Consumers Power Company Preferred Stock Yields
 in Dividends 7.37% Interest on Your Investment**

That means that the modest sum of \$190.00, buying two shares of this Preferred Stock, will pay you in interest \$14.00 a year, or the price of a pair of good substantial shoes. And it will pay you this dividend not only this year, but for all years to come.

If you purchase your stock now, as it is issued, the price is but \$95.00 a share on a par value of \$100.

Remember you are buying stock in a company producing a staple. The world has to have light and power. This means that your investment will be secure.

And you are buying Preferred Stock—on which it is required that all dividends must be paid before dividends can be declared on the Company's Common Stock.

Furthermore, the Company is right here in your own home town—inviting your investigation.

You can pay for the stock in easy installments, and you get 7% interest on all you pay in, until payments are complete and you own the stock.

Terms of Offering

Plan No. 1 (Cash payment.) Under this plan we offer the 7% Cumulative Preferred Stock of Consumers Power Company at \$95 per share and accrued dividends to date of payment for stock.

—OR—

Plan No. 2 (Time payment.) Under this plan we offer the 7% Cumulative Preferred Stock of Consumers Power Company at \$95 per share on a time payment plan: \$10 per share payable at the time of purchase; \$10 per share each month for seven months and \$15 for the final payment. We agree to pay interest at the rate of 7% per annum on the monthly installments paid to us, this interest to be credited to the purchaser on the books of the Company. Dividends from the last dividend date prior to the final payment will be charged to the purchaser and an adjustment made. No more than 25 shares may be purchased by any person under this time offering.

Purchasers under this plan have the option of withdrawing all partial payments at any time prior to the date of final payments for the stock, on 10 days' notice, and in the event of such withdrawal the Company agrees to pay 3% interest on the amounts paid in up to date of notice of withdrawal.

"They Don't Answer"

Perhaps you, too, have received a "They Don't Answer" report from central when you feel certain that the party you called is at home and your operator is simply neglecting you.

When you do, consider, for a moment, the many, many reasons why a subscriber may not answer—his temporary absence from the telephone—his inability to answer its call—the possibility of the telephone bell or other delicate mechanism being out of order without the operator's knowledge.

The operator, too, is human and may make errors—but she is never willfully neglectful of your service. It is much easier for her to complete your call than to make a "They Don't Answer" connection—for such connections involve additional work.

Your kindly consideration will go very far in assisting her to provide that better type of telephone service which we are all striving to give to Michigan.

AMERICAN RED CROSS TO GIVE RURAL HELP

Program for Public Health and Community Welfare is Now Well Under Way.

Rural communities and towns of less than 5,000 population benefit in a very large part by the public health and community welfare work of the American Red Cross. Almost all of the 3,600 Red Cross chapters have some rural sections in their territory. Therefore the Red Cross Rural Service.

Briefly, the purpose of Rural Service is to assist people to get out of life more health, wealth and happiness. In this purpose public health instruction and general educational progress of both children and adults play a big part. Recreation is found to be one of the biggest needs in rural life. There is lack of sufficient play-life for the children and social life for the adults.

As a result of community organization, townships in which there had been neither plans nor interest in community progress have been organized to work together with the united purpose of bringing their community up to the most advanced standards. Lecture and musical entertainment courses have been started as a result of community meetings, as well as circulating libraries. Red Cross schools of instruction in Home Nursing, Care of the Sick and First Aid. In the larger towns the need for restaurants and public comfort stations is being met. Playgrounds for the children have been established and recreational activities worked out for the year.

In order that there may be concerted effort in carrying on the programs of the various welfare agencies in the rural districts, Red Cross Rural Service helps the organizations already on the ground. The main object of the service is to find a hand everywhere and take the lead only where necessary.
