

LENS

Frank Kuenstler

EMBLEM

The magazine version of the work, an "anti-Book"
on the art-life theme, Culture, Music, poetry & prose.
Marxism, the Movies, epistemology, History,
psycho-analysis, the Enlightenmen, *et al.*
It is less a draft than the scenario of a monument.

2.

It must be Spring. A picture of a flower
just flashed upon the screen.
The mythic hero is an anti-cipher.
He travels by signs. & the music of the spears.

3.

The man on the train is Lenin.RR.
The man on the train is St. George.
The scene is Plato's Cave. Sometimes.
The speaker is sometimes Max Ajax.
He is 33 years old.

Outside the cave is Tree.
Outside the cave is a Dragon.
Outside the cave is a RR station.
The way a poem can never make the world round,
"I wandered lonely as the stars."

4.

The word is Abstract Naturalism,
Autumn Leaves: "the enormous paste-up job;"
The double-feature, like the bifurcation of Nature.

5.

The man on the train is Gawain.
The man on the trains is Magellan.
The man on the trains is Mama.
The man on the train is M.
The man on the train is S.
If the man on the train is presumed to be
an existential figure,
then the man on the train must be Shakespeare.
