Twisted Throttle Factory Store and Showroom

Come visit our awesome World Headquarters, Factory Store and Showroom at 570 Nooseneck Hill Rd in Exeter, Rhode Island.

Our Factory Store includes a well-equipped 4,500 square foot showroom, an installation and service department, prototyping shop, video studio, a café with a presentation stage, 10' wide movie screen, and PS3 racing games! We even have free wifi for motorcycle travelers.

As if that's not enough, we've opened our on-site campground so long-distance motorcycle travelers can pitch a tent and stay overnight. We also host seminars, maintenance days, training events, moto movie nights, holiday parties and other epic happenings. Count on this being a future venue for rallies and other gatherings.

We're located near some of the best motorcycling roads and trails in Southern New England, making the Factory Store a great destination for shopping or hanging out with fellow riding fanatics.

We rent fully equipped "Twisted" motorcycles (pages 10-11) for those visiting from out of town that want to try our products or just discover the beauty of New England.

Come to our Open House Party on May 24, 2014!
Enjoy free food, giveaways, presentations, discounts and one heck of a good time.

Twisted Throttle Canada

Starting in 2014, Twisted Throttle is branching out to the Great White North with our Canadian distribution center in Ontario to better serve our loyal Canadian customers.

Twisted Throttle acquired "A Vicious Cycle", a Southern Ontario-based parts and accessories distributor and long-time Twisted Throttle dealer. This acquisition will enable Twisted Throttle to expand our reach into the Canadian market, allow access to additional distributed brands, and most importantly, provide better customer service to all our Canadian customers.

This transition will take place over the course of 2014, with no disruption to customers. Until operational processes are merged, there will be no change in Canadian order processing or fulfillment. Soon, we will begin to utilize A Vicious Cycle's Ontario warehouse to shorten delivery times to our Canadian customers and reduce any cross-border shipping inconveniences.

Twisted History

The seeds of Twisted Throttle were sown in 2002 when Erik "Mr. Twisted" Stephens discovered that he couldn't find quality touring gear for his new Suzuki V-Strom. Erik tracked down a German manufacturer that produced the accessories he was pining for. The manufacturer told him that they would only consider shipping to the US if he ordered a dozen bikes worth of parts. This prompted Erik to organize a group buy for a handful of early Suzuki V-Strom fanatics. Recognizing the unmet need in North America for high quality adventure gear coupled with outstanding service, Erik set up shop. His garage became the center of operations and a name was chosen to give his new venture an identity: Twisted Throttle.

The original headquarters in 2004 with a whopping 200 square feet.

Erik working hard in 2006 to make Twisted what it is today.

By 2010, Twisted Throttle was well established in Peacedale, RI.

Today, Twisted Throttle is housed in a 27,000 square foot facility with warehouse and showroom in Exeter, RI.

Twisted Throttle Today

Today, there are over 30 Twisted employees working in a newly renovated, 27,000 square foot facility in Exeter, RI that includes a warehouse, installation bays, prototyping shop, café, photo studio, and a beautifully designed and well-equipped 4,500 square foot retail showroom.

Twisted Throttle specializes in expert product development and exceptional customer service. We serve as the North American distributor and marketing engine for most of the brands we carry, including SW-MOTECH/Bags Connection, R&G, Barkbusters, Denali, DrySpec, Macna, and others. We have an in-house marketing team for dealer support, branding, event marketing, web development, and video production. Our services also include custom fabrication, short run manufacturing, and accessory development for motorcycle manufacturers.

Also, because Twisted Throttle believes in education, we are now offering various training opportunities for street and off-road riders, including an adventure camp and track days, as well as skills seminars at our factory store.

For 2014 Twisted Throttle continues on our path toward providing the best customer service and support, designing and building the finest products, and, most of all, having a lot of fun doing it.

See the 2014 **EVENT CALENDAR** in the back of the catalog and go to our events page at: www.twistedthrottle.com/news-and-events

Our World Headquarters in Exeter, RI.

The Twisted crew now numbers over 30.

Our facility in Exeter, RI has 27,000 square feet of motorcycle gear.

Say hello at shows and rallies throughout the year.

Our headquarters is located near some of the best motorcycle roads in New England, drawing riders from the region to shop and visit.

We're a Bit Different

There are a lot of companies selling motorcycle accessories and riding gear, so what makes Twisted Throttle so great? One thing is that all our employees ride motorcycles, so they know their products; that can't be said for many companies selling motorcycle accessories.

We're passionate about providing you with an expert pit crew of riders, mechanics, and adventurers to give useful advice on gearing up for your next adventure. And that advice is always based on personally experiencing our products. Whether you're crossing town, the racetrack, or the Sahara, we'll help you focus on enjoying your ride.

Likewise, we stand behind the claims we make on our gear. Every item on our website has been tested by a member of the Twisted Crew, often for months or years of personal riding time. If we say it's waterproof, we know it because someone in our office probably rode 300 miles in a hurricane just to make sure. If we say it'll handle 30 amps of power, it's because one of our guys loaded it up with more and more widgets until he blew the fuse. If we say a crashbar will handle a crash, it's because we played crash test dummy.

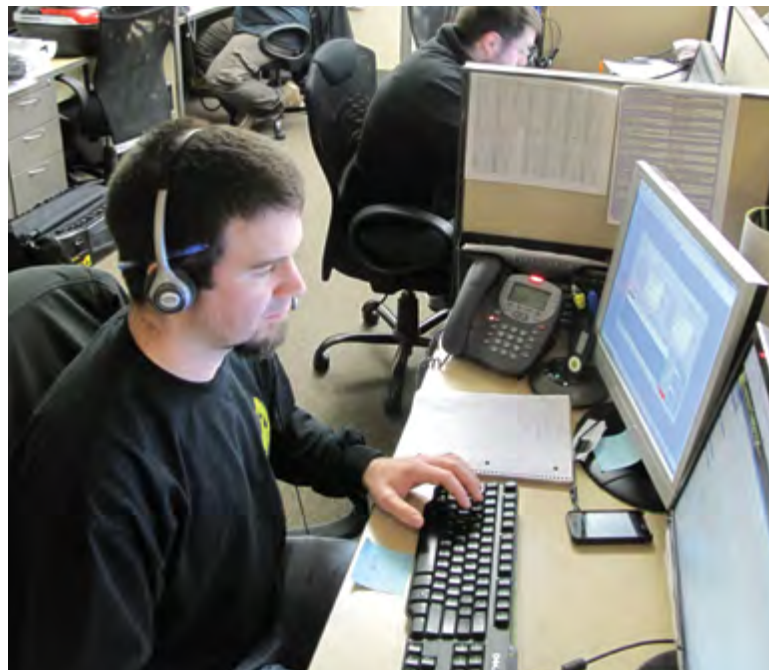

If a product is in our catalog or on our website you can rest assured that it fits, it works and it does what we say it will. If you have any problems with an installation, call our gear experts and we will walk you through the process and share any tricks we've learned to make the process easier.

Items you buy from us might not be the cheapest on the planet, but the premium quality products you get from us will last for many years and miles. We use and abuse the products we sell to ensure they will last in the hands of the most demanding riders!

What you get when you shop with us:

- 2 year Twisted Throttle warranty on all products, regardless of whether the manufacturer warranty is shorter
- Lifetime tech support
- 5% cash back to use toward future orders
- Free shipping for all USA orders over \$199.99 (\$350.00 for Canada orders)
- Moneyback guarantee without restocking fee
- Pricematch guarantee
- Blindingly fast order processing

For more details, visit <http://www.TwistedThrottle.com/twisted-difference>

All our friendly customer service staff are Gear Experts that ride.

Testing underway with the Twisted R1200GS LC.

The Twisted Crew goes for a weekend dual-sport adventure in Vermont.

Adam douses Erik to prove the waterproof properties of his Macna jacket, gloves and pants.

Erik putting the company Triumph Street Triple through its paces.

The Twisted Brands

Twisted Throttle believes that quality reflects directly on our reputation for providing top-shelf products. That is why we are very particular about what brands we associate with and the products we choose to carry. You won't find lower quality accessories and riding gear that many other retailers choose to sell. We understand the importance of having products that withstand the rigors of a life on two wheels. Our product range is carefully curated to provide the easiest installation, best ease-of-use, and durability available.

You may not recognize many of the brands we carry. That's because we scour the world to bring unique, well made and innovative accessories as well as gear to our continent. This means a lot of travel to really cool places to test really cool products. It's the sacrifice we're willing to make to bring you the best.

Sometimes we find cool stuff, but it doesn't quite meet our standards. In this case, we coach our suppliers to add the features and durability we know our North American riders will demand.

Sometimes, there is no manufacturer making something we know our customers are asking for. This is when we prototype our own products. We design and manufacture many of these products right here in North America. Some of the brands we've developed include DrySpec, PowerHub, and Denali.

The quest for perfect products has led us to custom fabrication, short run manufacturing, and accessory development for motorcycle manufacturers.

Nate is our product development, prototyping and fabricating guru who has developed the Denali and DrySpec brands.

DENALI™

A design discussion at the SW-MOTECH/Bags-Connection factory in Rauschenberg, Germany.

The Twisted Factory Store

Riding gear, crash protection, electronics, lighting, and expert gear advice are just some of the things you will find in our 4,500 square foot showroom. Check out all the cool products for you and your motorcycle. Ask questions and ponder the possibilities. Once you have decided how to spoil yourself and your bike, you can either install your new goodies yourself, or sit back and let our in-house master mechanics do the work. The next time you're in the market for high quality sport touring, street, adventure, and dual-sport bike accessories, stop by the Twisted Throttle Factory Store.

Twisted Throttle's location is right in the heart of the finest motorcycling roads in Southern New England and close to the ocean destinations Rhode Island is known for. This makes Twisted Throttle an ideal destination for riders wanting to shop, hang out and watch videos on our BIG movie screen. Our on-site motorcycle-themed Twisted Cafe is waiting to accommodate hungry travelers.

See the 2014 EVENT CALENDAR in the inside back cover of the catalog or visit our "Events" page at TwistedThrottle.com

Come visit the Twisted Throttle Factory Store and Service Center!

Do not miss the annual Twisted Open House at our World Headquarters in May.

Check out our products in person and get expert advice.

Sign up for our mailing list to learn about various training opportunities.

The Twisted Cafe is ready to serve some hot coffee and entertainment.

Our on-site campground is now up and running for 2014!

Our expert advice makes everyone smile.

Twisted Service Center

Product Installations & Service Done Right!

You can expect expert knowledge and know-how when you trust Twisted's Service Department with your service needs. You can feel confident that your bike is in great hands and the work performed will be top-notch. Our techs welcome customers to observe and ask questions while we work. We don't just want to improve the bikes we're working on, we also want to educate riders along the way.

Available Services:

- Complex wiring and accessory installation
- Tire mounting and pressure monitor installation
- Chain and sprocket installation
- Oil, filter and other fluids
- Routine maintenance tasks
- Brake maintenance, coolant flushes
- Complete outfitting for touring
- Custom fabrication
- Race and track day prep

All maintenance services are available.

No job too big or too small.

Our tech staff is available for accessory installation, electrical installations, tire mounting service and custom fabrication.

Nate installs sidecarriers on a BMW.

We have the expertise to get any job done.

We'll give your bike the attention it needs to perform at its best during your next adventure.

Our well-equipped service department has all the tools necessary for the most complex projects.

Twisted Project Bikes

We prototype, test and IMPROVE our products!

Twisted Throttle is not like most other motorcycle product distributors. We IMPROVE our products based on testing and customer feedback. Most companies have no creative control over what they sell. We do!

Every year, we select a few special motorcycles to deck out with our products and put them to the test in real-world conditions so that we can improve what we sell. Take a look through the photo gallery of project bikes to get an idea of just how far we go to test our products: TwistedThrottle.com/project-bikes

To expand the scope of testing, we also partner with touring/rental companies like MotoQuest, GSM MotoRent and California Superbike School. These companies give us feedback about how our products hold up over the long-term on bikes that take tons of abuse.

This information helps us to improve existing products and develop new items that we feel confident will withstand the toughest riding conditions. We also work with OEM manufacturers to improve their products. Recently, we developed a Zero electric police bike prototype. Honda Canada has also commissioned us to develop parts for the Honda Varadero.

Things we do:

- Prototyping and custom fabrication
- Short run manufacturing of metal, textiles and electronics
- Co-branding of textile luggage and Macna riding gear available
- Brand development
- OEM product development and manufacturing

Check out the Twisted Project Bikes:

TwistedThrottle.com/project-bikes

2012 Suzuki DL650 V-Strom

A great bike deserves great add-ons and our V-Strom project bike received the full Twisted Treatment. Protection, comfort, and style.

2005 Suzuki DR-Z400SM

Our Suzuki DR-z400 SM is the workhorse of the Twisted stable. It serves as track bike, commuter and occasional trailbike. A Jack of all trades.

2013 Triumph Explorer 1200

The office favorite! The Twisted 1200 Explorer is a rock solid on-and-off-road machine that is equipped with tough parts and accessories from SW-MOTECH, R&G, Barkbusters, MRA and more.

2013 BMW R1200GS LC

We outfitted our R1200GS with storage and crash protection products from SW-MOTECH/Bags-Connection, as well as Barkbusters Handguards, a Kaoko throttle lock, R&G axle sliders, and Denali lighting to create a complete adventure-bike package. To see products available for your R1200GS turn to pages 204-208. [See the video of the mighty GS in action at our "Project Bike" page at www.TwistedThrottle.com.](#)

2010 BMW S1000RR

Our BMW S1000RR turns heads at the track and on the highway. Equipped with rock-solid crash protection products and style enhancements from R&G and SW-MOTECH, this is a Twisted favorite. See page 202 for S1000RR products.

2012 Triumph Street Triple R

Our Twisted Street Triple R is setup to handle commuting, back road blasting, long distance travel, and even a fun day at the track.

2013 Honda NC700X

Did someone say budget-friendly battle commuter? That is exactly what we set out to do with our Honda NC700X project bike. It has everything you need to commute to work and take weekend trips in comfort and style.

2010 KTM 690 SMC

The KTM SMC is Mr. Twisted's favorite scoot. With a powerful thumper motor in a lightweight, but razor-sharp frame, the KaTooM rails around racetracks and still can get the job done around town.

2011 Yamaha Super Tenere

The Yamaha Super Tenere handles the twisties and off-road routes with ease. Turn to page 269 for a list of products for the Super Tenere.

2012 ZERO Electric Police Bike

We teamed with Zero to create a police version of the Zero S. Our product designer, Nate, fabricated a custom top rack to carry a TraX topbox and installed a windshield and gadget mount. The result is a functional urban police cruiser that can quietly and effectively hunt down bad guys.

BMW R1200GS

Twisted Triumph Explorer

Available for rent is a totally Twisted Explorer 1200. Well-equipped with TraX luggage, Bags-Connection tankbag, comfort and ergonomic add-ons, and a ton of crash protection. Explore the Smoky Mountains in style on one of the most capable adventure bikes out there!

MotoQuest Rentals and Tours: Explore Alaska and Beyond

Twisted Throttle is proud to be the exclusive accessory sponsor for MotoQuest!

MotoQuest has been organizing adventure motorcycle tours, both guided and self-guided, since 1998. They go to the ends of the earth, offering experiences in exotic cultures and remote regions. Education and adventure are interwoven into every motorcycle tour.

MotoQuest is headquartered in Anchorage, AK and maintains a rental fleet of dual-sport bikes outfitted with Twisted Throttle gear. Each of MotoQuest's bikes sees over 20,000 miles of off-road terrain a year providing Twisted Throttle with feedback that helps us make a more durable product.

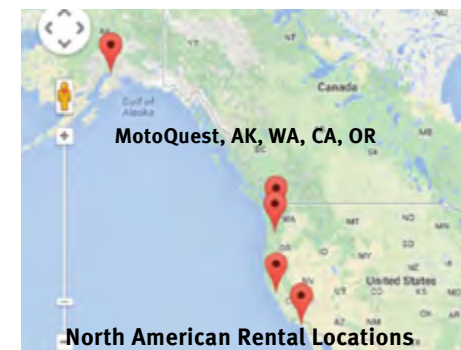

Alaska Motorcycle Rentals:

MotoQuest has been renting motorcycles in the Municipality of Anchorage, Alaska since 1998. Formally Alaska Rider Tours, MotoQuest rebranded in 2008 after expanding outside of Alaska. MotoQuest was founded and is still operated by a born and raised Alaskan, Phil Freeman. Phil's passion and experience in Alaska has throttled MotoQuest into position as one of the premier rental shops in Alaska.

West Coast Motorcycle Rentals:

Motorcycles are available for rent in Long Beach, CA, San Francisco, CA, Seattle, WA and Portland, OR!

For a complete list of Tours, visit MotoQuestTours.com

Twisted Off-Road Experts

We Know Dirt!

Twisted Throttle has been outfitting off-road bikes for as long as we've been in business. The adventure bike and dual-sport segments have grown like crazy in the last several years and we've been right there providing the rugged accessories and protection off-road riders demand.

Go to any dual sport or adventure bike event and you'll see our skid plates, crashbars, radiator guards, brake guards and off-road luggage being used by the most demanding riders.

Nate rides the Super Tenere in Tennessee.

Teach drifts the R1200GS during the filming of the Twisted GS video.

How many Twisted Throttle employees does it take to remove a KLR from Rhode Island mud?

A MotoQuest KLR ready for duty in Alaska Territory.

An imminent blasting-related road closure gave our crew 5 minutes to make a hasty roadside tire repair in the Andes Mountains of Chile.

A GS makes a big splash during the MarchMotoMadness trials competition in Tellico Plains, TN.

Erik's borrowed KLX poses in Big Bend National Park, TX.

Twisted Street Experts

We Know Street!

Twisted Throttle doesn't limit our attention to just dual-sport and adventure bikes. We also provide accessories for a wide range of street bikes, including touring, sport touring, sport and standard bike types. We partner with the California Superbike School and Tony's Track Days as suppliers of racetrack protection and performance products.

Jane borrows Erik's KTM 690 SMC for a few laps at New Hampshire Motor Speedway.

Erik at New Hampshire Motor Speedway.

Twisted's BMW sport tourer at the Americade touring rally.

Teach McNeil entertains the crowd on his BMW S1000RR.

Jeannine tours the Back of the Dragon in Western, VA on her ZX6R.

Ken carves a bit of the Blue Ridge Parkway in Virginia on his Triumph Sprint RS.

Willy unleashes the power of his Triumph Daytona at New Hampshire Motor Speedway.

Every year, Twisted Throttle picks a few adventure riders to work with, usually to help raise money for charities. We help outfit their bikes and prepare them for round-the-world adventures undertaken to raise money for a good cause. We also provide their trip with added media visibility. If you're interested in working with us on a charitable project, send your proposals to sponsorships@twistedthrottle.com.

Paul Pelland

My name is Paul Pelland and my life's road has been recalculated. I made a decision one day that changed every aspect of my life. I decided to share my life long passion of long distance motorcycle riding, and for the first time, openly discuss my dealings with the everyday challenges brought on by having the disabling diagnosis of Multiple Sclerosis.

I plan to share all of it, including my long distance rides, my record attempts, my triumphs and also my defeats. Everything from choosing and building the perfect machine, choosing, modifying, and mounting highly specialized equipment, to choosing and planning each and every trip, endurance event, or record setting attempt. I will share every ride, every road, every mile. Please join me, climb aboard my bike, travel with me, and support my long term mission of documenting one million miles for MS.

"I once was told a cure for MS was a million miles away, so I figured I would just go get it and bring it back."

Longhaulpaul 2012

photo credit: Tobie Stevens 2013

A man with Multiple Sclerosis... a motorcycle... and a million miles!

My mission is called the Endless Road Tour, an odyssey of motorcycle adventures including endurance rallies, extreme rides, and attempts at setting a few motorcycle endurance records. My goal is to raise awareness of MS, while reaching out to others along the way who also have been dealt tough challenges in life; helping them recalculate their life's road.

www.longhaulpaul.com

Chris "Teach" McNeil

Who is "Teach" McNeil? Teach is a school teacher known worldwide as one of the most skilled stunt riders on the planet. A two-time XDL East Coast Champion and 2008 Stuntwars World Champion, McNeil has put his ability to the test and WON! A lot!

We outfitted Teach's BMW F800GS and S1000RR so that he can do the brutal R&D that none of us are willing to do. Teach intentionally crashes his bikes during his stunt shows as a way to demonstrate just how durable our crash protection is!

Teach educates us about how well each piece of crash protection performs to see if improvements can be made. This type of R&D is infinitely valuable in helping us to offer the toughest luggage and strongest protection available to our customers. It's what we do.

See Teach perform at events around the country.

www.teachtrix.com

Teach demonstrates just how tough Barkusters handguards, TraX boxes, and SW-MOTECH crashbars really are.

Teach performed at the annual Twisted Open House, it was a performance that stole the show and had everybody wanting more.

Patrick Trahan

You may recall that Patrick suffered terrible injuries from a crash with a pick-up truck at 75 mph while riding his Honda XR650L. Twisted Throttle built and sponsored Patrick on his quest to raise money for **Children's Wish Foundation** by circumnavigating the African continent.

By 2012, Patrick had recovered enough to tour Morocco on a BMW equipped with Twisted Throttle luggage and other goodies. Later, he rode an electric bike in a rally in Morocco.

We are always interested in hearing about Patrick's adventures and learning about how our products perform. Patrick sure puts our luggage, crash protection and ergonomic products to the test. Keep up the good work, Patrick!

www.pat-trahan.com

www.mototeenworld.com

Stephanie Tarian

Stephanie Tarian is a young lady whose passion for motorcycling is shared with her father, Arthur. Stephanie rides to raise money for the **Make-A-Wish Foundation**.

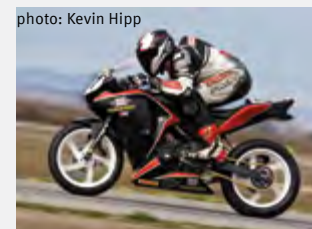

We outfitted Stephanie's 2011 BMW G650GS with rugged SW-MOTECH crashbars and skid plate for crash protection, as well as sidecarriers with TraX ALU-Boxes. To help light her way, we also installed a set of Denali LED lights!

Stephanie says of her trip: "I would do it all over again because it was the best experience ever. Thanks to Twisted Throttle for all the accessories you supplied for me."

Ari Henning

Ari's name may be familiar to some of our Twisted customers. He is one of the road test editors for *Motorcyclist* magazine and motorcyclistonline.com. Why is he in our catalog as a sponsored rider? Because of his dedication to the spirit of competition.

Not only is Ari an expert moto-scribe, he is also competing on a Ninja 250 Superbike outfitted with R&G protection. Being a guy who likes to win means that sometimes crashes happen. Ari is a believer in the R&G product line and has proven its ruggedness. Hopefully his R&D testing is at an end and he can concentrate solely on winning. Good Luck, Ari!

R&G frame and axle sliders allowed Ari to race later that day.

photo: Kevin Hipp

The **MRA X-creeen Add-on Spoiler** is an adjustable wind deflector that attaches directly to your bike's existing windshield. The X-creeen works with almost any motorcycle windshield, regardless of its curvature by clamping or screwing into place. X-creeen Add-on Spoilers come in two sizes: Sport and Tour. **Available in clear or smoke gray.**

MRA X-creeen Tour

MRA X-creeen Tour Add-on Spoilers are designed for large scooters and touring machines. The MRA X-creeen Tour spoiler attaches to your existing windshield and acts as an adjustable wind deflector that can be set to redirect the airflow and volume for optimal touring comfort.

The spoiler is about 14" wide and 6" tall (360 mm x 150 mm) and can be mounted with a simple joint (angle adjustable only) or a double joint (adjustable for angle and a height range of 4.3" or 110 mm).

The X-creeen Tour can be permanently attached using the included bolt-on surface mount, or temporarily clamps to your windshield using the optional clamp mount.

Available in clear or smoke gray.

Ducati Multistrada with X-creeen Spoiler bolted to an MRA screen

Bolt-on version: \$129.99
MRA.XCA.0 clear
MRA.XCA.1 smoke gray

Clamp-on version: \$157.98
MRA.XCC.0 clear
MRA.XCC.1 smoke gray

X-creeen Sport: \$114.99
MRA.XCA.S.0 clear
MRA.XCA.S.1 smoke

MRA X-creeen Sport

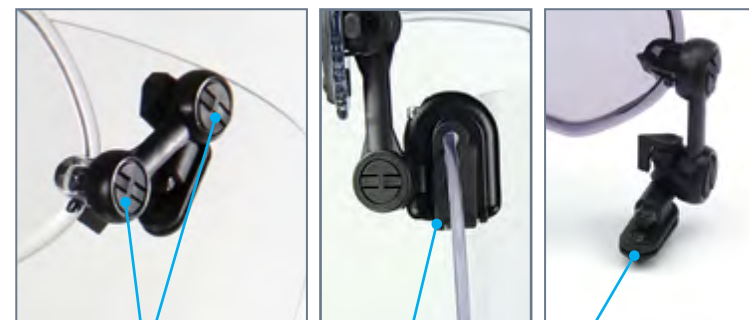

MRA X-creeen Sport Add-on Spoilers are the ideal size for smaller scooters and sport-bikes. The MRA X-creeen Sport spoiler attaches to your existing windshield and acts as an adjustable wind deflector that can be set to redirect the air flow just the way you want.

The spoiler is about 10" wide and 4" tall (260 mm x 100 mm) and is height and angle adjustable using double-jointed mounting arms. Using the included hardware, the X-creeen Sport can either be temporarily attached using a removable clamp or permanently bolted onto your windshield.

Available in clear or smoke gray.

Yamaha R6 with X-creeen Sport spoiler clamped to the original screen.

Dual pivots allow height and angle adjustments.

Clamp-on mount.

Bolt-on surface mount for permanent attachment.

Aprilia Caponord 1200 with X-creeen Sport spoiler bolted to the original screen.

Suzuki GSXR-600 with X-creeen Sport spoiler clamped to the original screen.

Turn upper levers to unlock and adjust top pivot angle.

The X-creeen Tour version comes with both a single joint for angle adjustments only and a double joint for both angle and height adjustments (double joint shown).

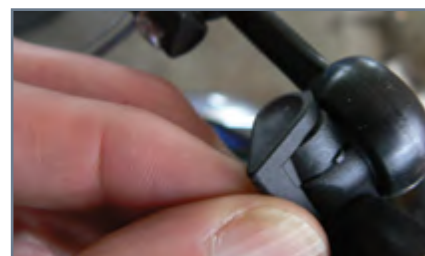

Levers unlock and adjust bottom pivot angle for height adjustment.

Hardware for clamping the X-creeen to your windshield. Soft foam pads protect the screen.

Bolt-on surface mounts are included.

Levers unlock to adjust both upper and lower arm angles.

X-creeen Full Replacement Screens (bike-specific)

Starting At
\$212⁵⁰

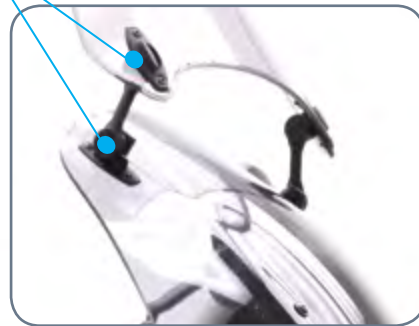

The X-creeen spoiler is 14.1" wide x 5" tall and has 4.3 inches of vertical travel.

X-creeen Full Replacement Screens

The X-creeen is MRA's most versatile replacement screen offering superior adjustability and performance. Once installed, adjustment of the X-creeen blade requires no tools. Drop the X-creeen down for off-road, put it up for highway riding or adjust it to shoot air directly into your helmets vents. No replacement windshield offers more air flow adjustability. Available as full replacement screens with Tour-sized or Sport-Sized spoilers for most models. **Available in clear or smoke gray.**

The spoiler's angle and height can be adjusted independently.

Visit TwistedThrottle.com for the latest X-creeen application list.

The Twisted Suzuki DL650 Project Bike

R - Double Bubble RacingScreen (bike-specific)

Starting At
\$107⁵⁰

Double Bubble RacingScreens

The RacingScreen's raised center bubble takes wind pressure off the helmet and provides exceptional stability at track speed in a full racer crouch. Air vents have been added at the front edge of the screen to reduce the vacuum underneath the bubble and reduce turbulent air flow.

Available in clear or smoke gray.

Designed to generate ride stability at speed. Double bubble windshields decrease lift, applying a downward force to the front end of the motorcycle while reducing helmet buffeting.

For a complete MRA application list, see page 22 or visit TwistedThrottle.com

The Twisted BMW S1000RR Project Bike

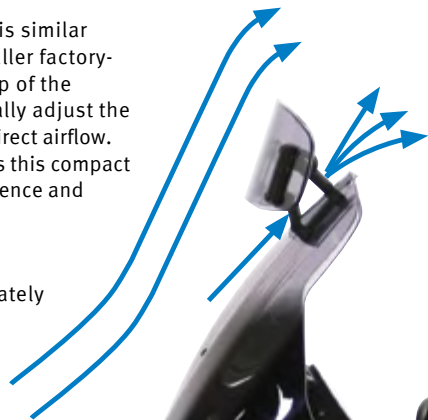

VT - VarioTouringScreen (bike-specific)

Starting At
\$159⁹⁹

The VarioTouringScreen is similar to the X-creeen, but has a slightly smaller factory-installed adjustable spoiler at the top of the windshield that allows you to manually adjust the angle and height of the spoiler to redirect airflow. Adjustable to seven different positions this compact and clean design, reduces wind turbulence and buffeting to increase rider stamina.

The VarioTouring spoiler is approximately 3.5" tall and has a smaller range of adjustability than the X-creeen with one angle per height adjustment. Unlike the X-creeen, the VarioTouringScreen has no adjustment levers and can be adjusted on the fly without leaving your seat.

Available in clear or smoke gray.

For a complete MRA application list, see page 22 or visit TwistedThrottle.com

BMW F800GS
MRA.07.017.VTM

T - TouringScreen (bike-specific)

Starting At
\$117⁵⁰

Best for upright highway touring

TouringScreens are similar in shape to your bike's original windshield, but elongated. Touring screens reflect the wind over the rider for a relaxed ride, particularly on longer trips.

Designed to enhance rideability. Think of the TouringScreen as an extension of your bike's original screen. MRA evaluates and designs its screens based on the unique ride characteristics, profile of the machine and its use.

Available in clear or smoke gray.

Yamaha Super Tenere

For an application list, see page 22 or visit TwistedThrottle.com

RNB - RacingScreen **Best Seller** **\$99⁹⁹**

The RacingScreen accentuates the visual appearance of your bike while offering excellent wind protection as you ride. This shield is available in black, clear and smoke gray.

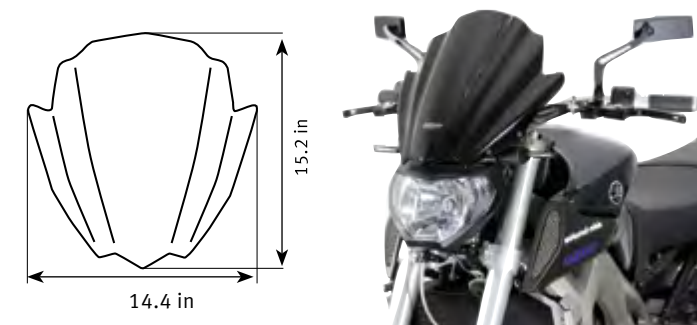

Diagram dimensions: 15.2 in height, 14.4 in width.

SPS - SpeedScreen **Best Seller** **\$99⁹⁹**

The SpeedScreen is a sporty screen with edgy styling. The SpeedScreen is suitable for riders looking for wind protection while retaining sporty good looks. Available in clear, black and smoke gray.

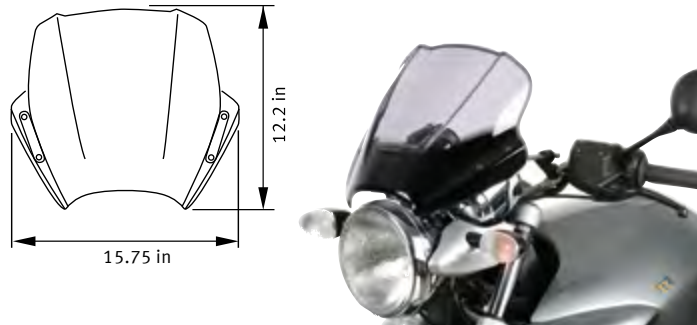

Diagram dimensions: 12.2 in height, 15.75 in width.

HI - HighwayShield **\$102⁵⁰**

The striking design of this shield fits sporty naked bikes and roadsters. The size of the shield protects the entire upper part of the body up to the helmet from wind and weather. This shield is available in clear and smoke gray.

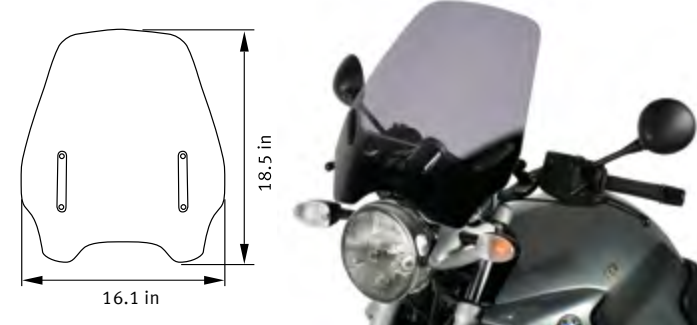

Diagram dimensions: 18.5 in height, 16.1 in width.

RO - RoadShield **Best Seller** **\$86⁹⁹**

The RoadShield is a small shield optimally suited for enduros and sporty naked bikes. The shield is deliberately made wide for its height to avoid side turbulence. Available in clear and smoke gray.

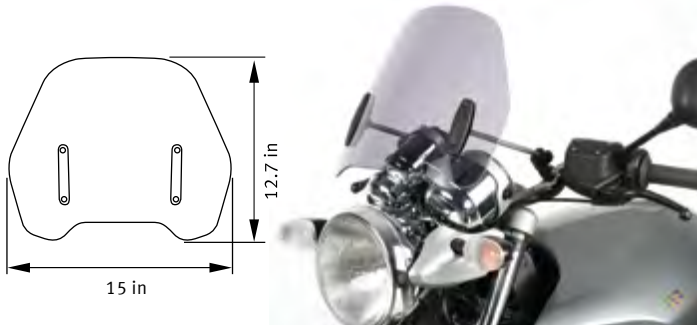

Diagram dimensions: 12.7 in height, 15 in width.

VTNB - VarioTouringScreen **\$169⁹⁹**

The VarioTouringScreen is a "small shield with a big effect". This compact shield's extra spoiler reduces airflow velocity approaching the helmet and upper body without generating turbulence. With 7 manually adjustable positions, it's easy to find an optimal position to suit your riding style. Available in clear and smoke gray.

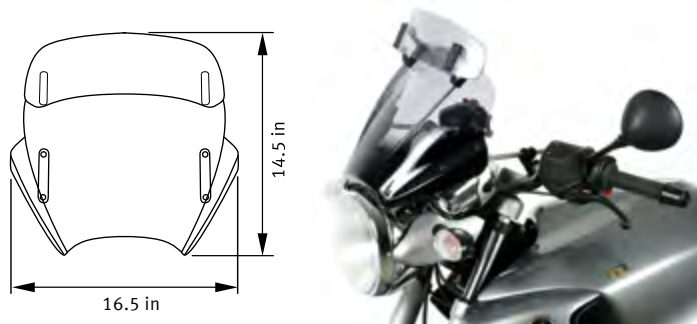

Diagram dimensions: 14.5 in height, 16.5 in width.

V-Flow Screen "C" & "Z" **NEW** **\$102⁵⁰**

The V-Flow is designed for naked sport bikes, cruisers, enduro and dual sport motorcycles that need more room for protruding instruments at its base. Select the curved "C" shape for round headlights or the angled "Z" shape for angular headlights.

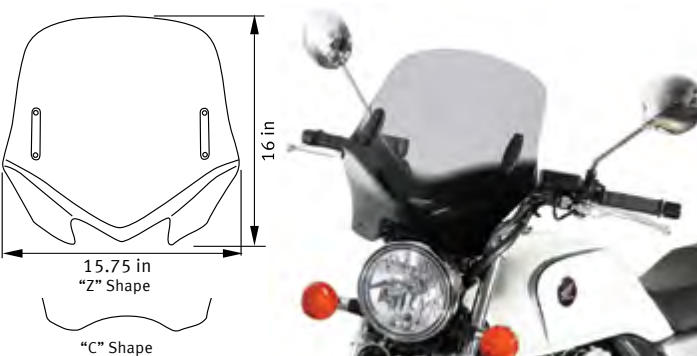

Diagram dimensions: 16 in height, 15.75 in "Z" Shape width.

CU - CustomShield **\$99⁹⁹**

Similar in shape to the HighwayShield, the CustomShield's contours are considerably rounder and more suited to the appearance of cruisers and choppers. Available in clear and smoke gray.

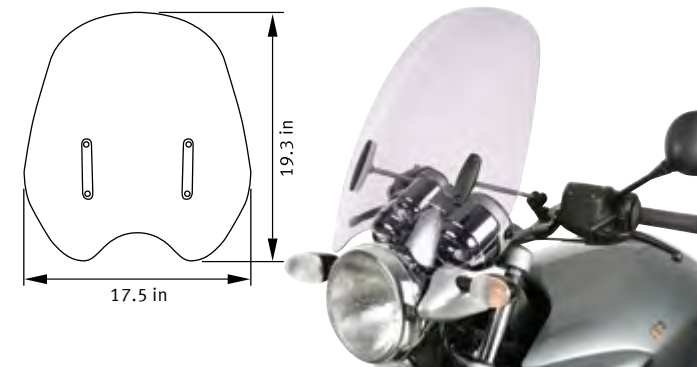

Diagram dimensions: 19.3 in height, 17.5 in width.

ROC - RoadShield Classic **\$86⁹⁹**

The RoadShield Classic is a small, unobtrusive fly-screen. The shield is made wide for its height to avoid side turbulence. Available in clear and smoke gray.

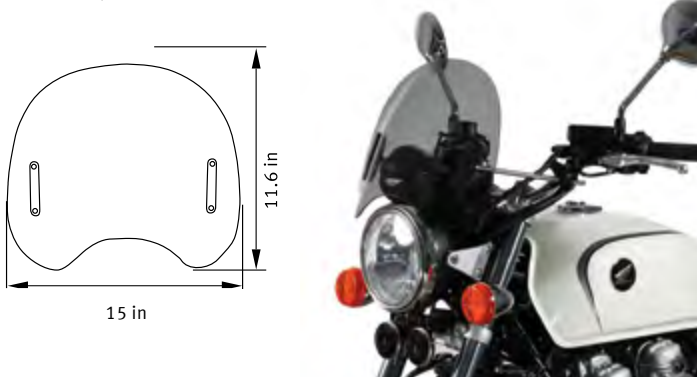

Diagram dimensions: 11.6 in height, 15 in width.

V-Flow X-creeen Sport "C" & "Z" **NEW** **\$189⁹⁹**

The V-Flow X-creeen Sport features a tool-less adjustable sport-sized blade. Select the curved "C" shape for round headlights or the angled "Z" shape for angular headlights.

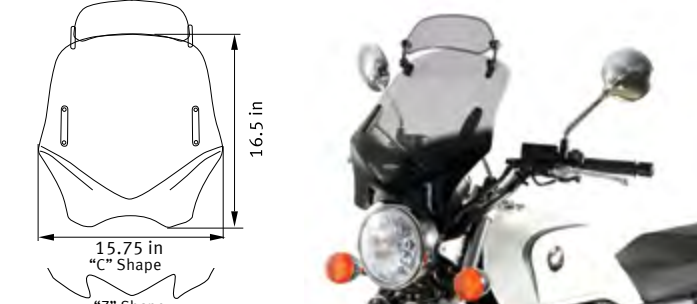

Diagram dimensions: 16.5 in height, 15.75 in "C" Shape width.

V-Flow VarioTouring Screen "C" & "Z" **NEW** **\$174⁹⁹**

The V-Flow VarioTouring features a larger tool-less adjustable touring blade. Select the curved "C" shape for round headlights or the angled "Z" shape for angular headlights.

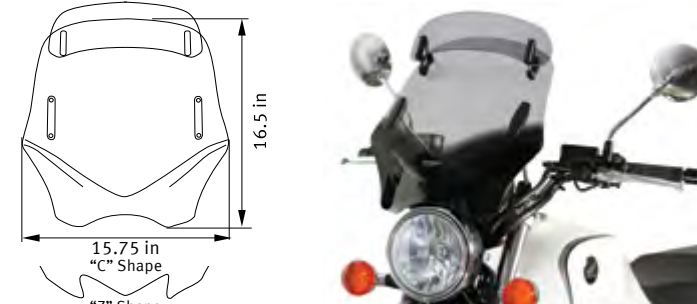

Diagram dimensions: 16.5 in height, 15.75 in "C" Shape width.

ST- StreetShield **\$86⁹⁹**

The StreetShield is MRA's smallest screen, specially designed to unobtrusively compliment the style of smaller on or off-road naked bikes. It offers good protection for the size.

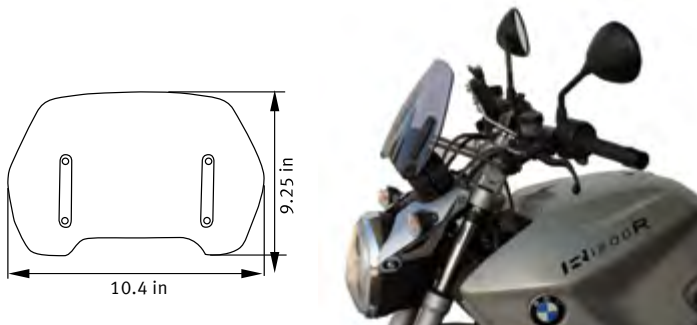

Diagram dimensions: 9.25 in height, 10.4 in width.

MRA Windshield Color Options for Faired and Naked Bikes

Gloss Black (opaque) Smoke Gray
Clear

VNB - VarioScreen **Best Seller** **\$189⁹⁹**

The VarioScreen is a two-part windshield. The upper shield is adjustable in height by 2" (5 cm). This shield offers the most adjustability and wind protection available in any MRA handlebar-mounted screen. An inlet at the lower end of the upper shield allows air to circulate and minimize turbulence. Select the rounded "VNB" shape or the angular "A" shape.

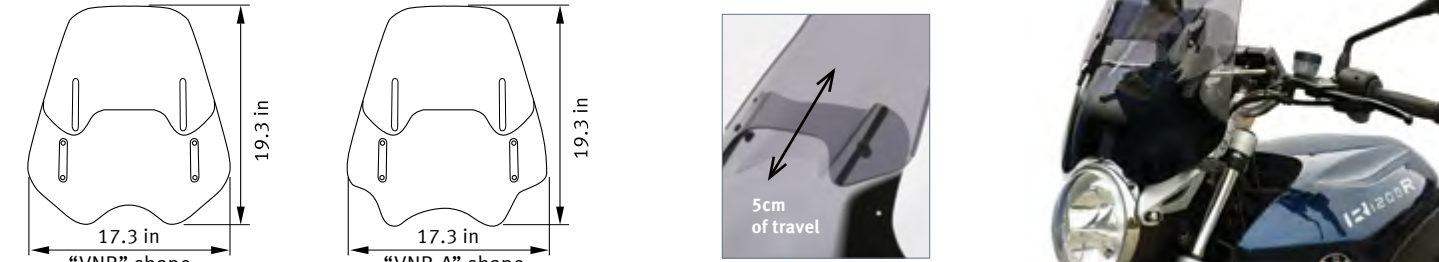

Diagram dimensions: 19.3 in height, 17.3 in width for both "VNB" and "VNB-A" shapes.

5cm of travel

Handlebar Mounting Kits **\$47⁹⁹**

Mounting Kits for MRA naked bike windscreens are sold separately from the windscreens.

Universal Mounting Kit for 22mm (7/8") and 25mm (1") diameter handlebars: *MRA.HK*

Long Mounting Kit, 260mm (10.24") for 22mm (7/8") and 25mm (1") diameter handlebars for Suzuki SV650 & others: *MRA.HK.L*

Mounting Kit for 28mm (1.1") & 32mm (1.26") diameter handlebars: *MRA.HKS28/32*

Offset Mounting Kit for BMW R850R, R1100R, Ducati Diavel & others: *MRA.HKSD*

Mounting Kit for Honda CB599 '11-'13, & Yamaha FZ8N: *MRA.HKSG*

MRA.HK Universal Mounting Kit

Visit TwistedThrottle.com to find fitments for your bike.

Here is a list of some popular MRA windscreens.

SW-MOTECH Convertible Footpegs

provide an extra-wide platform for enhanced control, comfort, and grip on and off-road! A single bolt allows you to remove the rubber pad for off-road riding and reinstall it when you reach the asphalt again. A second bolt allows you to raise or lower the footpeg by 15mm for improved ergonomics.

- Attaches to the original footpeg mount.
- Footpeg mounting kit is CNC-milled from high strength aluminum alloy.
- Removable rubber pads reduce vibration for street riding.
- Toothed surface provides superior traction for off-road riding.
- 3.5" long x 2.25" wide, larger than most original footpegs for enhanced comfort and grip control.
- Footpegs are made from high-grade, corrosion-resistant stainless steel.

Adjustable Shift Levers

SW-MOTECH Adjustable Shift Levers are CNC machined from high tensile strength aluminum and hard-coat anodized for extra durability. These levers provide style and a custom fit for enhanced comfort and control. The two-piece lever allows up to 3cm (1.18") of forward and rearward adjustment. The spring-loaded toe lever folds out of harm's way in a drop. An optional toe lever extension is also available.

Toe lever is approx. 2.25" (57mm) long without extension

Adjustable Rearsets

R&G Adjustable Rearsets let you tune your motorcycle's ergonomics for maximum comfort and control. R&G Adjustable Rearsets offer an exceptionally wide range of adjustability with 11 mounting positions. Both shift and brake levers are height and angle adjustable, while the location of the toe contact pieces can be modified to suit every rider. Specially textured footrests ensure maximum grip in all conditions. R&G Adjustable Rearsets are handsomely crafted from black anodized billet aluminum for a strong yet lightweight rearset with an premium custom look. Some are available in both street shift (5 up, 1 down) and race shift (1 up, 5 down) patterns.

BMW S1000RR Adjustable Rearset, left side (street shift pattern)

Handlebar Risers

Handlebar risers change the position of the handlebar for greater comfort during long rides or improved standing ergonomics off-road. Our handlebar risers are CNC-milled from billet aluminum or die cast. All required mounting hardware is included.

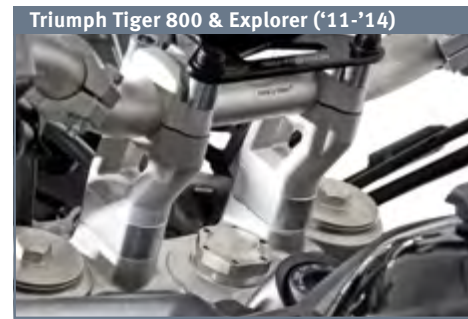

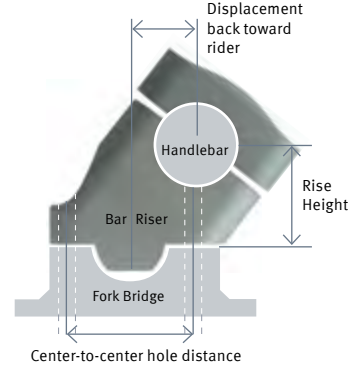

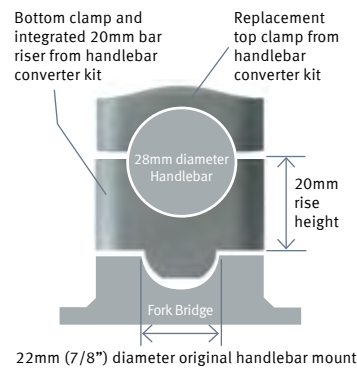

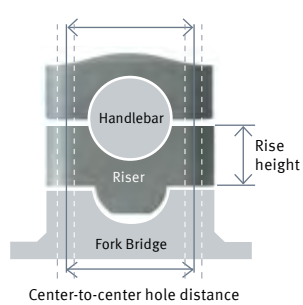

Most models
\$60 to \$170

Traditional handlebar risers move the handlebar straight up from its original position and are available for more models in heights of 20mm (0.8"), 25mm (1"), 30mm (1.2") & 50mm (2"). Available for 22mm or 28mm diameter bars.

Handlebar conversion kits combine a 20mm riser with the ability to use a stronger 28mm diameter "fatbar" on a bike that originally used 22mm diameter handlebars.

Barback risers move the handlebar both upward and rearward towards the rider.

Universal handlebar risers

This page and the application chart is only a partial list of risers we carry. Visit TwistedThrottle.com to find fits for many more bikes.

MFW's Adjustable Vario Levers enhance the comfort, control and look of any motorcycle with 8 possible positions over a wide range. It only takes a few seconds to adjust.

MFW adjustable levers are CNC-machined from billet aluminum and fit a wide range of motorcycles. All levers are sold in pairs.

Starting At \$149.99 in pairs

Lever tip adjusts in 4 increments from standard length to "shorty."

Black lever with black trim shown

Adjustment knob and lever tip replacements are available in silver, red or blue anodized finishes.

Short fingers are no problem, these levers have 8 positions of span adjustment.

doubletake MIRROR

Doubletake Dual Sport Mirrors

The team at Twisted Throttle is proud to introduce the only mirror you will ever need! With outstanding visibility from the convex shaped mirror glass, a virtually indestructible body, and the convenience of a RAM ball at the end, the Doubletake Mirror is the perfect choice for replacing or adding mirrors to your bike.

Doubletake Mirrors won't move even at triple digit speeds thanks to tough RAM components. They also stay put when folded down for riding off-road!

Doubletake Mirror features:

- Virtually indestructible reinforced Zytel body
- SAE spec convex lens
- Easy to fold, remove or swap between bikes
- Guaranteed against breakage for the life of the product (excluding mirror glass)
- 4" diameter mirror
- 8.5" overall length

Fold them out of the way when your off-roading gets SERIOUS!

STEP 1 Buy Doubletake mirror

ULTIMATE PROTECTION
Barkbusters
HANDGUARDS

The ORIGINAL Motorcycle Handguard!

These are the toughest handguards anywhere - they don't call 'em Barkbusters for nothing!

Barkbusters handguards were first manufactured in 1984 and now have over 28 years of motorcycle industry experience and riding enthusiasm. That history means Barkbuster has what it takes to produce the finest handguards available on the market today. Barkbusters integrates a hardened aluminum backbone with a stylish, replaceable plastic guard to create a truly functional handguard. No more busted levers or knuckles! In the unlikely event that you break a part of the handguard, every piece is replaceable.

Barkbusters handguards are designed to work with Kaoko throttle locks. (See page 32)

Handguards for Off-Road & Motocross Bikes

Barkbusters JET Full-Wrap Trail & Enduro Handguards

JET The new JET handguard is designed for Trail and Enduro riders.

- Strong aluminum backbones are heat treated for maximum strength
- Full-wrap backbones with two-point mounting
- Drop-down design of the backbone is ideal for bikes with long levers
- Includes impact-resistant plastic handguards
- Three axis mounting clamps for easy installation

22mm (7/8") Handlebars: BB.JET01 MSRP \$99.99
28mm (1 1/8") tapered Handlebars: BB.JET02 MSRP \$112.50

Available with black, blue, green, orange, red, white, or yellow plastics.

Barkbusters VPS-MX Single-Sided Motocross Handguards

VPS-MX Single-sided handguards for competition motocross use.

Barkbusters VPS-MX handguards use VPS plastics on a **single-sided mount**, providing a lightweight handguard that meets competition motocross regulations.

- Easy to install, clamp-on mounting kit that fits 7/8" diameter handlebars
- Plenty of clearance for bikes with longer levers
- Incorporates high impact nylon support brackets for plastic VPS guard
- Handguard position can easily be adjusted

Available in black, blue, green, red, yellow, silver, orange, white, or pink.

BB.BHG7: \$62.00

Barkbusters EGO Enduro and Trail Full-Wrap Handguards

EGO Ultra-compact full-wrap handguards ideal for tight off-road trail use.

The EGO is the toughest and most durable handguard on the market. EGO handguards are a compact full-wrap handguard to help you protect your knuckles & levers during intense trail riding.

- Specifically designed for enduro and MX bikes with short levers (See VPS for long lever applications)
- Strong aluminum backbones are heat treated for maximum strength
- Full-wrap backbones with two-point mounting

Available with black, blue, green, orange, red, white, or yellow plastics. See pages 40-41 for fitting information.

BB.E55.2: \$112.99

Handguards for Street, Trail & Adventure Bikes

Barkbusters Storm Handguards

Storm Maximum wind and rain protection for street and adventure-touring bikes!

Storm handguards have an aerodynamic design and a larger profile that wraps around to offer excellent wind and weather protection. The wide profile is great for street riding and open trails.

Available with black plastics.

Storm handguards are available in single-point and full-wrap mounting styles. See next page to find mounting hardware that fits your bike.

Storm Full-Wrap Backbone
With hardened aluminum and two mounting points, this is the strongest backbone available, and is recommended for dual-sport and adventure touring bikes.

Storm Open-ended Backbone
Designed specifically for street bikes and mounted to a single point on the handlebars.
BB.S1: Fits 7/8" diameter handlebars
BB.S2: Fits 1" diameter handlebars

Storm Bar End Mount Backbone
This hardened aluminum frame mounts to the end of the handlebar. Ideal for bikes with limited space on the handlebar.
BB.S5: Fits hollow 7/8" or 1" diameter handlebars
BB.S7: Fits bar ends with 6 or 8mm threaded holes

Barkbusters VPS Full-Wrap Supermoto, Trail & Adventure Bike Handguards

VPS Versatile full-wrap handguards that provide tough obstacle protection with moderate weather coverage.

- Specifically designed for **bikes with long brake and clutch levers**, including most street and adventure-touring bikes
- Hardened aluminum, full-wrap backbones with two-point mounting hardware
- Appropriate for both street, adventure and trail riding
- Choose from VPS or Storm plastics (sold separately)

Available with black, blue, green, red, yellow, silver, orange, white, or pink plastics. A **Variable Height Wind Deflector** is included to provide extra wind protection. See next page for fitting information.

Optional Accessories

VPS Variable Height Wind Deflector (included with Full-Wrap VPS handguards)

- Variable-height wind deflectors provide extra wind protection
- Available in black or white only
- For VPS & VPS-MX Handguards only

BB.BHG4: \$21.25

VPS skid plates

- Optional replaceable skid plates protect the outer end of the backbone
- Perfect for Supermoto bikes
- For VPS guards only

BB.BHG2: \$19.75

Barkbusters Bar End Weights

Add 180 grams of mass to each end of your handlebars to reduce vibration.

Compatible with full-wrap Storm and VPS Handguards.

BB.B66: \$49.99

Blizzard Universal Handguards

Extend your riding season with these semi-rigid handguards. Block wind, rain and snow to keep your hands warm and controls dry.

\$109.99

BB.BBZ-01

Designed for faired sportbikes, sport tourers and large touring motorcycles, the Blizzards are made from a semi rigid material and covered on the outside with tough Cordura. They're also suitable for most street, dual-purpose, adventure tourers, dirt bikes, ATVs and snowmobiles.

Blizzards have an internal aluminum stiffener so the handguards hold their shape and position on bikes that don't already have rigid handguards. Complete hardware mounting kit is included to fit every possible handlebar configuration.

R&G Products

R&G offers a wide range of products to fit most modern sportbikes, including frame sliders, front axle sliders, bar end sliders, exhaust and tank protectors, and aluminum radiator guards.

R&G sets the bar high when it comes to manufacturing innovative crash protection. Modern CNC machining, aircraft-grade metals and cooperative R&D testing with the California Superbike School and motorcycle insurance companies help R&G to produce the toughest, most functional sport bike protection on the planet.

R&G also offers 11-position adjustable rearsets, toe chain guards and rear fender eliminator kits for many sportbike models.

Public Relations Manager "Hollywood" Ken Condon

Frame Sliders

R&G frame sliders are made with heavy-duty machined steel and aluminum, low-friction HDPE (high-density polyethylene), and are a frame-mount design that provides for maximum support. R&G also uses special high-tensile steel mounting bolts that are de-embrittled withstand the force of a vast majority of crashes. In an extreme impact, these bolts are designed to bend and keep your bike protected, rather than snapping off. Even with bent bolts, the R&G frame sliders stay in place, and continue to protect your bike well after impact. You can inexpensively repair single-sided crash damage with the purchase of one-side "repair kits." R&G frame sliders come in two styles, "Classic" and "Aero."

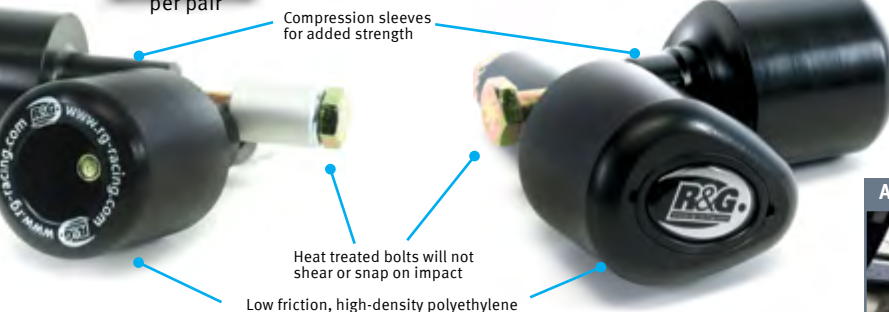

Classic Style Frame Sliders

Starting At \$10250 per pair

Aero Style Frame Sliders

Starting At \$11999 per pair

Traditional cylindrical shape

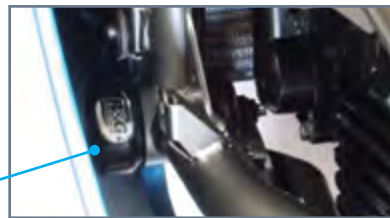

Cutting the fairing is required on some motorcycles. No-cut Frame Sliders are available for some of models. See pages 192-269 for bike-specific applications or visit TwistedThrottle.com.

Underbody Sliders

These sliders sit just behind the fairing panels for support in the event of a crash. The fairing may be sacrificed, but the underbody slider provides protection for the motorcycle frame and engine without the risk of the slider catching on the road and flipping the bike. This is a tried and true form of frame protection used in AMA, World Superbike, and MotoGP racing. Underbody Sliders are a viable no-cut alternative. Available for the Ducati 1098/1198/848, MV Agusta 312R/312RR, Kawasaki Ninja 650R, and many other models.

Underbody Slider for Kawasaki Ninja 650R

Frame Skidders combine excellent crash resistance with subtle styling compared to a traditional frame slider. You can inexpensively fix single-sided crash damage with the purchase of half kits. Available for Tuono, RSV4, Tiger 800, S1000RR, and more.

Made from high-density polyethylene

Starting At \$19499 per pair

2011 Aprilia Tuono

Axle & Swingarm Sliders

Front axle sliders, swingarm sliders, and spools protect your swingarm and axles from crash damage. Each slider is constructed of heavy-duty machined steel and aluminum with high-density nylon pucks for maximum protection. These sliders also give your bike a race look.

Front Axle Sliders

Starting At \$5999 per pair

Front axle sliders protect expensive axles, fork legs and calipers with a through-bolt design for secure and easy installation.

All necessary hardware included

Swingarm Sliders/Spools

Starting At \$6999 per pair

Swingarm spools protect the swingarm from damage and provide a secure support when lifting your bike using a race stand. Mounts to stock swingarm bosses.

Constructed from tough high-density polyethylene

Offset Swingarm Sliders/Spools

Starting At \$9099 per pair

Offset swingarm spools use M10 bolts and an aluminum block for the strongest possible slider. Ideal for swingarms without threaded bosses. Provides a secure lifting point.

Black anodized aluminum bracket (included)

Front Axle Slider - Triumph Sprint GT

Swingarm Spool - Tiger 800

Offset Swingarm Spool - BMW S1000RR

Carbon Kevlar Tank & Tail Sliders

R&G Tank Sliders are made from Kevlar-reinforced carbon fiber, offering excellent crash protection and wear resistance. These sliders are specially molded to the areas of the fuel tank or tail section most likely to impact in a crash or drop. Save your tank and tail from expensive scratches, dents or even replacement. Installation is quick and easy with included self-adhesive panels.

Starting At
\$124⁹⁹

Shock Protectors

R&G Shocktubes prevent damage to your rear shock caused by road salt, water spray, stone chips, dust and dirt. The Shocktube is a high-impact, waterproof, vented Neoprene™ tube that is lined with stretch nylon on both sides.

Starting At
\$47⁹⁹

The Shocktube can be fitted to most motorcycles with either monoshock or twin shock rear suspension without removing the shock absorber!

Shocktubes are designed for specific shocks. Call 855-255-5550 or visit TwistedThrottle.com to make sure you get the Shocktube that fits YOUR bike.

Toe Chain Guards

Toe Chain Guards keep your feet or hands from being caught between the chain and rear sprocket in the event of a crash. R&G's toe guard has been developed with help from multi-time winner of the Isle of Mann TT, Ryan Farquhar. R&G toe chain guards are made from either ABS, aluminum or lightweight, high-density polyethylene, depending on the application.

Starting At
\$45⁹⁹

Some applications require drilling and tapping the underside of the swingarm (installation instructions included).

Toe Chain Guard for Suzuki GSX-R600 and GSX-R750

Exhaust Protectors

R&G Exhaust Protectors reduce the likelihood of scrapes to your bike's exhaust in a fall. Exhaust protectors feature shock absorbing, thermal silicone rubber underneath a protective slider. With a clamp incorporated into the design, installation is quick and easy. Guards available for oval, round, and many other common exhaust shapes.

Starting At
\$52⁹⁹

Engine Case Covers

R&G Engine Case Covers

are an easy, inexpensive, and innovative way to protect vulnerable and expensive crankcases and water pump cases from crash damage. The R&G Engine Case Covers are vacuum-formed from durable 4mm polypropylene for great protection and good looks. These covers are motorcycle-specific and form-fit to simply bolt over the existing OEM covers.

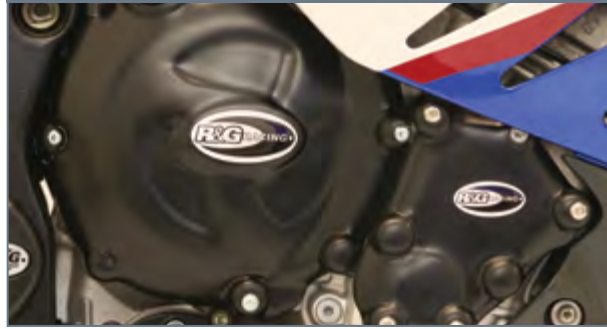

Starting At
\$70⁹⁹

Includes all necessary mounting hardware. R&G Engine Case Covers are AMA approved.

Engine Case Sliders

R&G Engine Case Sliders

Crafted from High Density Polyethylene or Carbon Kevlar for strength, durability and good looks, the R&G Engine Case Sliders compliment the R&G crash protectors perfectly in keeping the delicate parts of your motorcycle off the tarmac. The covers simply bolt on over the original engine casing. Slimline for maximum ground clearance, ultra lightweight, matte finish and protecting one of the most vulnerable parts of the machine. These could save you hundreds of dollars in the event of an accident.

SW-MOTECH Axle & Swingarm Sliders

SW-MOTECH Axle & Swingarm Sliders

feature excellent protection while providing a higher level of aesthetics than most sliders on the market. Made from tough, abrasion-proof synthetic material these sliders are durable and protective. Available for BMW, Kawasaki, KTM, Suzuki, and Triumph models.

Frame Sliders

SW-MOTECH Frame Sliders offer rugged protection and a sporty, integrated design and are constructed of a CNC-milled PA6 MO Polyamide and aluminum alloy for high strength. Slider pads are made from high-performance UV-resistant plastic that provide enhanced load bearing, excellent abrasion and wear resistance for maximum protection. Replacement slider pads are available.

For some bikes fairing cut-outs are required. Templates and center punches are included to make installation precise and easy.

Aluminum Radiator Guards

Your radiator is a vulnerable component that needs protection. The R&G Radiator Guard is made from pressed aluminum and features a neat, seamless frame. The attractive black finish looks terrific while helping to protect your expensive radiator from flying debris.

Starting At
\$99⁹⁹

Triumph Tiger 800 XC Aluminum Radiator Guard

Oil Cooler Guards

Wouldn't it stink to be miles from anywhere when you find that something punctured your oil cooler? Avoid that nightmare with an R&G Oil Cooler Guard. These black, pressed aluminum oil cooler guards are designed to prevent punctures caused by flying rocks, sticks and other objects. Easy to install and good looking protection.

Starting At
\$68⁹⁹

BMW R1200GS Oil Cooler Guard

Stainless Steel Radiator Guards

New for 2014. The R&G Stainless Steel Radiator Guard are a more rugged version of our existing aluminum offering designed particularly for adventure bikes.

Construction from 1mm stainless steel sheet allows the guard to be incredibly strong and impervious to rust – perfect for bikes and riders who may tackle demanding terrain and conditions. The laser-cut grills are designed for maximum airflow so that radiator cooling isn't compromised. The Radiator Guard is as good looking as it is purposeful.

No modifications need to be made to the bike for installation.

Starting At
\$132⁵⁰

Check pages 192-269 to see which R&G products are available for your bike or visit TwistedThrottle.com.

BMW R1200GS Stainless Steel Radiator Guard

Ducati Multistrada 1200 Stainless Steel Radiator Guard

Radiator and Oil Cooler Guards

Protect your radiator from rocks, bugs, and other UFOs. SW-MOTECH and R&G radiator guards and oil cooler guards improve the looks of your bike and help to protect your expensive and vulnerable radiator and oil cooler from flying debris. Instructions and all mounting hardware are included. No drilling, welding, zip ties or duct tape needed.

SW-MOTECH Crashbars offer vital protection for your motorcycle. Each crashbar is carefully designed for an integrated look, precision fit, and for heavy-duty performance.

During production, crashbars are sandblasted and powder coated to provide a corrosion-resistant finish.

Starting At
\$159⁹⁹

See the "What Fits My Bike?" section of the catalog (pages 192-269) for bike-specific crashbar information.

Folding Footpeg Mounts for Crashbars

Increase long haul comfort, be it the Iron Butt Rally or a meandering vacation tour, by mounting fold away footpegs onto your crashbars. MFW's sweet bar-mounted footpeg system is easy to install and sharp looking. With Four footpeg styles to choose from (see below) you can choose the look and function that is right for you. Footpegs and folding mounts are sold separately.

The MFW system fits 0.85"-1.125" (21.3mm-28mm) diameter bars, including all SW-MOTECH and Givi crashbars.

Flat surface mounts are available for mounting MFW footpegs on any flat surface with a 10mm mounting hole or the built-in mounting hole found on some SW-MOTECH crashbars: MFW.050.00.10.M10 \$75.99 per pair

Footpegs for use with Crashbar Mounts

Four choices of MFW footpegs are available to complete your crashbar footpeg installation. Footpegs and folding mounts are sold separately.

MFW Stash Pegs

Need to store some emergency cash? Check out the MFW Stash Pegs on page 24.

Master Grip Pegs

MFW.050.00.03.00-1 Silver
MFW.050.00.03.00-8 Black
\$34.99 per pair

Craving more comfort? Check out MFW's adjustable footpegs on page 24-25.

IMPORTANT: MFW mounts and footpegs are sold separately.

Auxiliary Light Mount Clamps

These stylish clamps are machined from 6061-T6 Aluminum for strength and durability. The kit allows fitment of any Denali LED Lighting Kit (page 112-113) to any tubular bar ranging from 22mm to 28mm in diameter.

The bracket can be mounted in numerous positions allowing light pods to be placed for optimal beam projection, while keeping themselves protected.

For use on SW-MOTECH, Givi, Hepco-Becker and most original BMW crashbars.

Includes:

- 2 sets of black anodized aluminum machined clamps
- Mounting Hardware

Aluminum Skid Plates

Our skid plates are built tough from laser-cut, TIG-welded aluminum and provide heavy-duty protection from baby heads, log crossings, and other ride-ending calamities.

Skid plates feature:

- Oil drain plug access hole.
- Rubber mounting to isolate from engine underside and minimize noise & vibration.
- Recessed mounting bolts to prevent damage from rocks and stumps.
- Riveted or welded construction.
- On riveted skid plates the 4mm bottom plate with 3mm side plates overlap to create impact-resistant 7mm thick side rails.

See the "What Fits My Bike?" section of the catalog (pages 192-269) or visit TwistedThrottle.com for bike-specific skid plate information.

Centerstands make chain maintenance, oil changes, and roadside tire repair much easier. It's also much more convenient packing and unpacking your luggage when your bike is level. To keep your sporting edge, our centerstands are tested to make sure they do not limit the bike's maximum lean angle or ground clearance.

Centerstands are constructed using mild steel tubing, which absorb the impact of a fall by bending before your bike's frame has to. Prior to powder coating, all centerstands are sandblasted and chemically treated to provide optimal protection against corrosion.

See the "What Fits My Bike?" section of the catalog (pages 192-269) for bike-specific centerstand fits.

Pyramid Plastics Fenda Extenda Fender Extensions

protect the front of your engine, radiator and frame from road grime and gravel kicked up by the front tire, while adding a custom look.

Fenda Extendas attach to your bike's original fender with adhesive strips, four provided screws or push rivets. Installation requires that you drill four holes in the extender and original fender. Adhering the Fenda Extenda to the original fender without the screws or rivets is not recommended.

Fender Eliminators

Rear Fender Eliminators clean up the visual clutter of the typical stock rear fender and give your motorcycle that "racebike" look. The kit includes an integrated license plate holder, installation instructions and an LED license plate illumination light.

Pair an R&G fender eliminator with R&G Micro Turn Signals or R&G LED Micro Turn Signals (page 119) for an even cleaner look.

Bike Covers

R&G Motorcycle Covers protect your bike from both the elements and prying eyes. R&G bike covers are waterproof, breathable and feature a soft top inner liner to protect your bike's paint.

An elasticized bottom offers a snug fit, while loopholes at both ends accept a lock and chain for security and tie downs for high winds. Three sizes to choose from.

Superbike/Naked Size RG.BC0001.BK: \$79.99
Adventure Bike Size RG.BC0003.BK: \$92.99
Touring Bike/Cruiser Size RG.BC0004.BK: \$112.50

If your bike is fortunate enough to live indoors but still gets dust, dirt and cat prints on it, protect it with the R&G dust cover for naked and sportbikes. Not waterproof.

Dust Cover for Sport & Naked Bikes RG.DC00.BKSI: \$56.99

Rear Huggers

Rear Huggers enhance the look of your bike and protect the shock and sub-frame under-tray from dirt and debris kicked up by your rear tire.

Starting At \$142.50

Body and weight control are essential techniques with not only aggressive & performance riding, but also with sport & casual touring. By gripping the tank with your legs, you can improve overall control of your body motion, weight position and posture. TechSpec's theory for achieving a solid grip is based on material properties and surface area contact.

Snake Skin Tank Grip Pads

Benefits:

- Increase control
- Eliminate sliding
- Improve body position
- Decrease body fatigue
- Improve weight adjustment
- Protect tank from abuse
- Improve re-sale value
- Remove and re-use
- Improve style
- Provide grip material damaging leathers
- Developed in the U.S.A.

Starting at
\$19.95

Suzuki GSX-R600 & GSX-R750, '11-'14

Snake Skin

The Snake Skin design is a thin (1/8") tank grip with a low profile diamond pattern.

The Snake Skin rubber padding properties provide a positive grip onto your tank and less pressure on your wrists, elbows and shoulders. An excellent product for all riders.

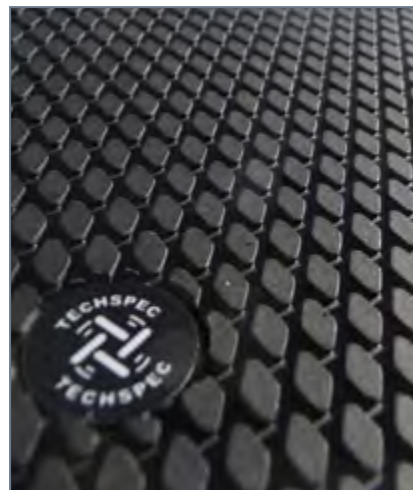

The Snake Skin uses a "Releasable Adhesive," so you can reposition the tank grip if necessary.

Beveled edges minimize any snagging.

Easy installation.

Chili Night Eye Jacket

Serious gear for serious riders.

Textile Materials: What Does Macna Use?

- **C-Touch** is a Polyamide 500d that has a medium abrasion resistance with the look and feel of cotton.
- **R-Tech** is a Polyamide 600d with medium-high abrasion resistance.
- **Durylon** is a Polyamide/Polyester with high abrasion resistance.
- **Dynex** is a Polyamide 420d with high abrasion resistance.
- **SuperFabric** is a rugged texturized material that provides the highest abrasion resistance and a high-tech look.

Sizing Charts

Macna apparel is Euro sized, so please use the chart below to determine proper sizing. Call or email our gear experts if you have questions.

MACNA							MACNA						
Men's JACKET							Women's JACKET						
	S/48	M/50	L/52	XL/54	XXL/56	XXXL/58		XS	S/36	M/38	L/40	XL/42	XXL/44

all measurements are in inches

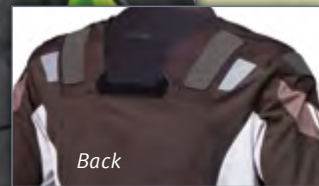

Long and Short length versions are available for select Macna pants. Add or subtract 3.5" to or from inseam measurements.

Quality and Innovation: Features of Macna Jackets & Pants

The Summer Comfort System quickly transforms the men's Geo 2 and women's Lunar jacket into a warm-weather garment. Remove the liners and simply unzip the collar panel to reveal the huge panel of high-tech **3D mesh** designed to maximize airflow over your body and keep you cool.

This unique system ensures that you're ready for anything Mother Nature throws at you!

Back

Vision Vest

LED Light

Visibility is integral to our safety as motorcyclists. To that end, Macna has developed several features that will enhance your visibility to other motorists, including the **LED-Ready** system and the unique high viz **Vision Vest** system.

The LED Light (page 77) attaches to LED-Ready Macna jackets via an integrated Velcro patch, while the Vision Vest (page 77) zips onto most Macna jackets and does not interfere with access to pockets or zippers.

Quality and Innovation: Features found in Macna Jackets & Pants

Protection: where we never cut corners. You'll find quality **SAS-Tec** or **Knox** CE-approved shoulder, elbow, and knee protection in all Macna jackets and pants. Armor upgrades are available for most models to replace the standard back and hip foam protectors with CE Level 2 armor (see page 77).

Truly waterproof to keep you dry. A **Raintex waterproof and breathable membrane** keeps you 100% dry. Combined with the **thermal liner** and outer shell, you've got a highly protective garment that will keep the elements out and you comfortable. Found in waterproof jackets and pants only.

Convenience. You'll love the convenient features found on Macna jackets, including a heavy duty hanger loop, **Grip Strips** at the edge of pocket flaps to allow easy access even when wearing gloves, adjustable arm straps, easy-to-use zipper tabs, and zippered pants connections.

Innovative **ComFix** collar design makes it easy to fasten and adjust your collar with one hand. Found on select jackets.

Side Eye reflective graphics provide extra conspicuity from the sides, designed to be visible when in the riding position.

The **Easy Cuff system** uses a unique zipper system to fasten the liners to the outer shell of most jackets, making for a smooth cuff.

night eye

The next step
in visibility at night.

Microscopic glass beads on the Night Eye fabric work like tiny satellite dishes, reflecting light directly back to the source. A simple and stylish gray by day, Night Eye illuminates like a beacon in the night when targeted by an oncoming car's headlights. Even small amounts of light produce bright results!

Macna Gloves

are some of the most **comfortable** gloves we've ever tried. The **thoughtful** design touches, **safety** and comfort, and **total waterproof** features have made these gloves several staffers' **go-to choice**.

Twisted Tested. Twisted Approved.

What We Love About Macna Gloves

The revolution in performance and comfort for waterproof, breathable gloves available in select Macna Gloves
OutDry technology does not use the standard seam-sealed waterproof manufacturing techniques. Instead, Macna has developed a patented lamination process where the waterproof/breathable membrane is directly bonded to the external layer of the glove, perfectly sealing any possible water entry point. Say goodbye to waterlogged gloves!

RainTex is used in most Macna gloves, offering a breathable 100% waterproof fit. Integrated water vents allow excess moisture to escape to avoid waterlogging.

RISC protectors are used on knuckles and palms. These are designed to absorb and spread impact, and slide smoothly along the pavement in a fall.

We love our gadgets. So we love Macna's **Touch Tip** feature (available on some gloves), that lets us use our touchscreen devices without removing our gloves.

Comfort and convenience. All Macna gloves feature a **30 Degree Buckle** that places the wrist strap at an angle for increased comfort when you're holding the bars, as well as precurved **Ergo Thumbs**. Some gloves also feature an integrated rubber **Screen Cleaner**.

Women's Nova Jacket

Who says ladies' gear needs to skimp on features or protection?

Macna womens' riding jackets offer the same comfort and protection features found in their men's jackets, including detachable waterproof and thermal liners, venting, and impact protection. Add the form-fitting cut and adjustable waist for a custom fit and you've got a quality jacket for the true female rider.

Nova Jacket

The Nova is a waterproof all-season touring jacket best suited for moderate to colder climates. Detachable waterproof and thermal liners make the Nova warm and comfortable, and arm vents offer cooling on warm days. A back protector and SAS-Tec CE armor in the shoulders and elbows round out this versatile jacket.

Rush Mesh Jacket

Ride even the hottest days in comfort and style with the Rush mesh jacket. Simple styling looks good no matter what you ride. Includes a back protector and CE armor in the elbows and shoulders for crash protection, while retroreflective graphics look great and increase conspicuity.

Nova Jacket Features

- Poly 500, R-tech fabric
- Removable Raintex waterproof membrane and thermal liner
- Arm Vents
- CE-armor in shoulders and elbows
- CE back protector available

- Arm adjustment straps
- Easycuff
- Precurved collar with ComFix system
- Available in Black, Yellow/Black, Gray/White, or Night Eye
- Available in XS-XXL

Night Eye
\$419.99

Rush Jacket Features

- Large mesh panels
- Poly Twill shoulders and upper arms
- Side Eye visibility graphics
- CE-armor in shoulders and elbows
- CE back protector available

- Coat hanger
- Jeans loop
- Black
- Available in XS-XXL

Lunar Jacket

The Lunar is Macna's top-of-the-line women's all-season jacket, matching the men's Geo 2 feature-for-feature. Detachable Raintex waterproof and thermal liners, the proprietary Summer Comfort System with 3D mesh, and forearm vents make the Lunar the kind of jacket that will become your go-to choice ride after ride. You'll be riding with the best in crash protection, with SuperFabric panels, SAS-Tec CE armor in the shoulders and elbows, and a pocket for a CE back protector.

Lunar Jacket Features

- Durylon, R-tech, C-touch, SuperFabric & Dynax
- 3-layer liner system with detachable Raintex waterproof membrane and thermal liner
- Arm Vents
- Summer Comfort System
- SAS-Tec Powerector CE armor in shoulders and elbows

- CE back protector ready
- Coat hanger, arm adjustment straps, Easy Cuff, Grip strips, back pocket, short pant-connection zipper, and locking zipper.
- Black
- Available in XS-XXL

Onyx 2 Pant

A perfect match for the Lunar or Nova jackets, the Onyx 2 Women's riding pants provide all-season comfort, Raintex waterproofing, and exceptional protection. Superfabric panels and CE knee armor keep you safe, while the ladies' specific cut keeps you comfortable.

Women's Onyx 2 Pant Features

- C-touch, R-Tech, & SuperFabric
- Detachable Raintex membrane
- Detachable thermal liner
- Side Eye reflective material
- Air vents in thighs
- Adjustable CE-approved knee armor

- CE hip armor ready
- Easy Cuff
- Short connection zipper
- Heat shield at bottom of leg
- Waist lock
- Available in XS-XXL
- Black

Shelter Rain Jacket

Macna Shelter rain jackets are good looking, but more importantly, they will keep you dry even in all-day torrential rain. The Shelter features wrist, waist and arm straps for a snug, flap-free fit, and retroreflective "Side Eye" graphics for extra visibility.

Shelter Rain Jacket Features

- 100% waterproof Polyamide shell
- Polyester Lining
- Arm straps to adjust fit
- Waist adjustment belts
- Side Eye visibility system
- Black or High-Viz
- Includes stuff sack
- Unisex S-3XL

Packed Size: 11.4" x 4.3" x 4.3"
Total Weight: approximately 1 pound

\$94⁹⁹

MN.1353

Shelter Rain Pant

The Macna Shelter rain pants pair well with the Shelter jacket to keep you 100% protected from wet weather. Shelter pants feature elastic panels at the waist, reinforced crotch, heat shield protection from hot exhaust pipes, and retroreflective "Side Eye" graphics to help drivers to see you better on dark wet days.

Shelter Rain Pant Features

- 100% waterproof Polyamide shell
- Polyester lining
- Side Eye visibility system
- Heat shield lower leg protection
- Anti-slip strips on seat
- Black
- Includes stuff sack
- Unisex S-3XL

Visibility

Vision Vests fully integrate with most Macna jackets for a touch of high-viz...but only when YOU want it! The bright neon yellow color and large reflective graphics will boost your visibility day and night. The vest attaches in seconds using two integrated buckles in front and a built-in zipper in back.

- Attaches to the outside of Macna jackets
- Side Eye reflective material
- High-viz poly 600D
- Sizes to fit all jacket sizes

\$45⁰⁰

MN.8003

Vision LED Light

Be seen with this rechargeable LED light that attaches to the upper back of your Macna jacket. Using hook and loop fasteners located beneath the collar, the high position maximizes its visibility to other drivers. With 5 powerful LEDs it can be used for up to 3 hours continuous or 6 hours in strobe mode. Charging is simply done by connecting the USB cable to the included wall charger or even your computer.

For use with the following jackets:

- Geo 2
- Jura
- Chili
- Impact

\$35⁹⁹

Night Eye stands out at night

Macna Dry Cooling Vest

Evaporative Dry Cooling Vest

Got heat?

Stay cool with the revolutionary Dry Cooling Vest from Macna.

The summer heat is no match for you with Macna's Dry Cooling Vest! This vest will keep you cool AND dry during hot weather.

The process is simple - pop open the filler cap on the chest and fill with 500 ml of tap water (about the same as a standard 16oz bottle of water).

The water soaks into the patented fabric inside the vest, and using the principles of evaporative cooling the vest draws your body heat away, while keeping you dry and cool as a cucumber! Holes in the vest help accelerate the cooling effect as you ride, much like cranking up the AC in your car.

Depending on the conditions, the Dry Cooling Vest typically provides effective cooling for 1 - 3 days thanks to its ultra-efficient design.

Wear this vest under your riding jacket and over a base layer (see page 82 for TWISTEDCORE base layers) and stay not only cool, but completely dry, inside and out. Conventional water-cooled vests will get you wet. Not so with the Macna dry vest.

Overfilling the vest diminishes its ability to evaporate properly and renders the vest less effective. Stick to the instructions!

- Anti Microbial
- Machine Washable
- Available in XS-M, L-XL, 2XL-3XL, 4-5XL, and 6-7XL sizes

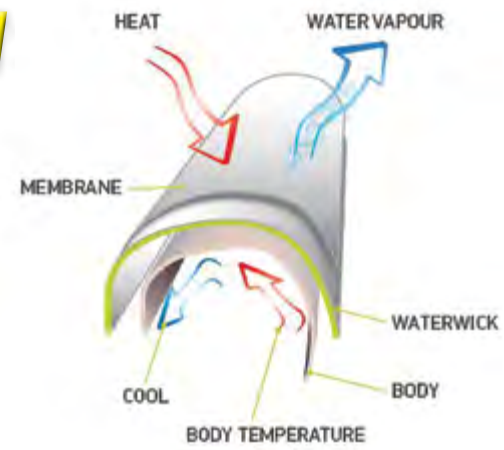

Sizing:

As a rule, order your normal T-shirt size.

The vest should be worn snug, but not tight. A bit of an air cushion between the body and the vest allows wind to pass through and aids in the evaporative cooling effect.

\$169⁹⁹
MN.8050

Does it work in humidity?

We've tested it and the answer is YES. However, at 80% humidity or higher the cooling effect starts to diminish. This is most apparent when you are standing still. As long as you and your bike are moving, air is pushed through the cooling vest to enhance evaporation, which offsets diminished performance caused when humidity levels are high.

The most advanced hearing protection for motorcyclists

Wind noise while riding regularly exceeds the levels at which hearing damage will occur. Protect your hearing without blocking the sounds you want to hear with the NoNoise Motorsport filtering earplugs.

NoNoise earplugs were originally developed for the Dutch Military & Mounted Police to protect them from the harmful sounds of gunfire and engines yet still allow them to hear their surroundings. NoNoise ceramic filtration technology will help protect your hearing from harmful noise levels while allowing lower level noises such as in-helmet speakers, approaching cars, sirens, and horns to be heard. Reduces wind and road noise

- Allows communication and intercom use
- Preserves situational awareness
- Comfortable, washable and re-usable
- No muffling or blocked ear feeling
- Hollow filter allows pressure equalization with altitude change

Over 20 years experience in industry and military hearing protection.

Specific NoNoise Earplugs are also available for:

- Shooting NN.3PROM0163
- Music NN.3PROM0159
- Water Sports NN.3PROM0162
- Travel NN.3PROM0161

Venturi shaped sound channel

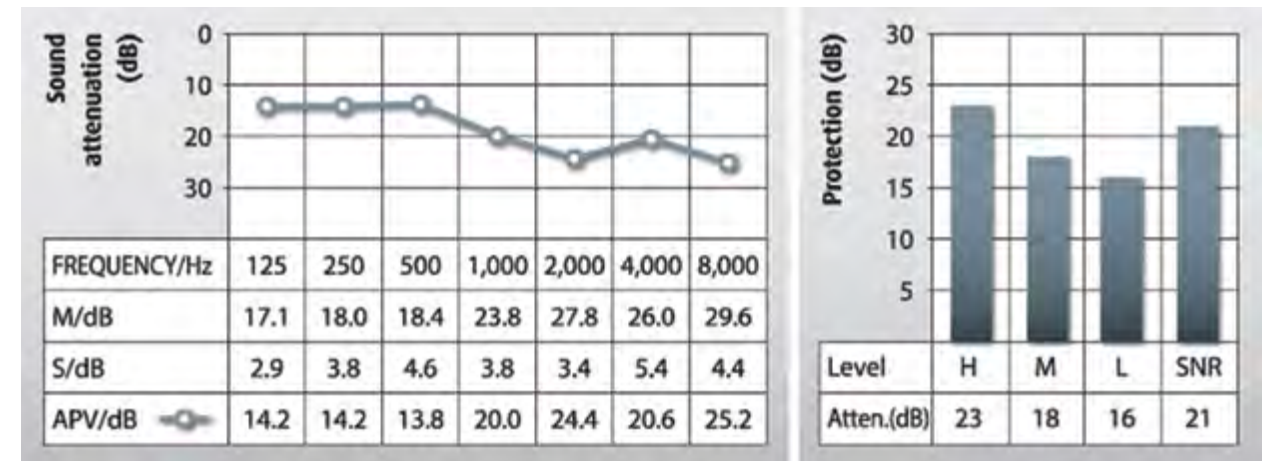

Zirconium oxide ceramic filter

Silicone-free Thermoplastic outer construction is hypoallergenic (unlike typical silicone earplugs)

How does NoNoise work?

The patented ceramic filter inside each NoNoise earplug is specifically tuned to filter out certain damaging frequencies and reduce, or attenuate, the sound level. Below is an example graph for the Motorsports hearing protectors: you can see that the greatest attenuation, or noise reduction, occurs in the 2000-8000Hz range, which is where most wind and engine noise occurs. The graph below shows the overall attenuation at High, Medium, and Low frequencies, and the overall noise reduction rating (21dB). Call our gear experts at 855-255-5550 or chat live at twistedthrottle.com to get more information about how NoNoise can benefit you.

Exceeds strict European EN352-2 guidelines and certified to ISO9001:2008

In a world of distracted drivers, sharp edges, and the unknown lurking around any corner, why compromise on the things that protect you from danger? That's why we sell Arai helmets, and why so many of us wear one.

Jane
Twisted Throttle Controller

The first step towards a more comfortable ride...

Whether it's a track day, a ride with your friends to that awesome burger joint you've just heard about, or a weeklong adventure into the backcountry, choosing the right base layer is key.

TWISTEDCORE was designed by a track day organizer specifically to address the needs of motorcyclists. Unlike your typical off-the-rack sporting goods store base layer, TWISTEDCORE features:

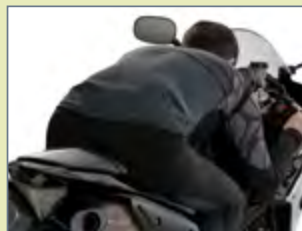

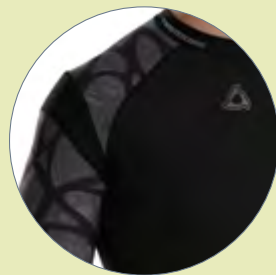

Gradient Compression

Have you ever noticed how football players wear tight compression garments under their uniforms? That's not just to look cool - the proper use of compression **increases bloodflow** and **reduces muscle fatigue**. TWISTEDCORE takes that a step further with Gradient Compression in the forearms and lower legs of their base layers, the two places a motorcyclist needs it the most. After a day at the track or standing on the pegs off-road, you'll be less tired and more comfortable.

Comfortable fit

TWISTEDCORE garments are designed with special **Flatlock seams** that won't chafe or irritate your skin even when worn under armor or a leather suit. The shoulders are cut wide to allow free movement on the bike, and the use of **technical mesh** on the shirt back, the insides of the legs, and the backs of the knees let your skin stay cool and comfortable all day. Longer hem lengths provide full coverage in any riding position to eliminate exposure and ensure that everyone enjoys your ride.

Melt-Resistant Fabric

Unlike other base layers, TWISTEDCORE uses a special melt-resistant fabric at the hips and rear of their pants and shorts. Sliding along pavement at speed generates a tremendous amount of heat, and if your base layer uses traditional polyester it can actually melt onto your skin, even if your leathers don't burn through! Ouch!

Manufactured in the USA • Anti-Microbial Fabrics • Moisture Wicking

Touring/Sport Touring Boots

\$149⁹⁵**Alpinestars Ridge Waterproof Boot**

Looking for a comfortable everyday riding boot? The Alpinestars Ridge has what you need: Waterproof full grain leather, a midsole made for walking as well as riding, and a secure over-the-ankle fit.

Men's US Sizes 6 - 13

\$230⁰⁰**Sidi Tour Rain Waterproof Boot**

Quick rain showers and long miles are no match for the Sidi Tour Rain. Sidi boots feature a midsole that resists side compression for added safety. Sidi Tour is also available in breathable Gore-Tex.

Men's Euro Sizes 41 - 48

\$269⁹⁵**Alpinestars SMX-5-Waterproof Boot**

If your sport touring has an emphasis on "sport"...yet you don't pull under the nearest overpass at the first sight of rain, this is your boot! Also available in vented non-waterproof for you desert dwellers.

Men's Euro Sizes 36 - 50

\$220⁰⁰**Sidi Men's Fusion Air Boot**

Ride the warmest days in comfort with this fully vented sport boot. Replaceable toe sliders, heel cups and a stiff sole that can withstand heavy peg pressure make the Fusion Air a versatile boot.

Men's Euro Sizes 37 - 50

\$220⁰⁰**Sidi Men's Fusion Boot**

The non-vented version of the Fusion is a mainstay 3-season, non-waterproof street sport boot. Sidi's legendary quality and a great price make this a best seller.

Men's Euro Sizes 37 - 50

\$175⁰⁰**Sidi Men's Doha Boot**

It's a shoe! It's a boot! It's...both! Perfect for trips around town or for walking the paddock at the races.

Men's Euro Sizes 36 - 48

Ladies' Touring/Sport Touring Boots

\$220⁰⁰**Sidi Women's Fusion Lei Boot**

The ladies' version of the popular Fusion boasts all the features of the men's version, plus a female-specific last and shorter height to better fit ladies' legs.

Women's Euro Sizes 37 - 43

\$230⁰⁰**Sidi Women's Livia Waterproof Boot**

Just like the men's Sidi Tour, the Livia is a great go-to choice for the casual tourer. Rear reflective details and a compression resistant sole give you some added peace of mind.

Women's Euro Sizes 37 - 43

Don't see the boot you want here?

We've got lots more boots on our website, along with real-time stock status. You can also see sizing charts and more product details.

Plus you can always read other Twisted users' reviews and ratings to see how these boots stack up.

Visit www.twistedthrottle.com for more information!

Adventure Boots

\$249⁹⁵**Alpinestars Waterproof Scout Boot**

The Scout is consistently rated one of the best values in ADV boots out there. We've put it through its paces in Alaska and have to agree: it's pretty awesome. Totally waterproof full leather construction, all day comfortable fit, low profile toe for excellent lever feel, and a lugged outsole for tenacious grip are our favorite features.

Men's US Sizes 8 - 13

\$395⁹⁵**Gaerne Waterproof Balance Oiled Boot**

We have to say, this has got to be one of the best-looking boots out there. The oiled brown leather upper and gum rubber soles not only look great but are superbly functional too!

Men's US Sizes 8 - 13

\$360⁰⁰**Sidi Canyon Gore-Tex Waterproof Boot**

If you're in the market for a light adventure or touring boot, the Sidi Canyon is worth a look. Our own Kevin owns a pair and loves the combination of comfort and protection these boots offer. With leather uppers and Gore-Tex lining we think you will agree. The sole is also replaceable so when you wear them out because you love these boots so much, you can simply have them resoled.

Men's US Sizes 7.5 - 13

\$279⁹⁵**Gaerne Waterproof G-Adventure Boot**

These Italian made boots appeal to ATV, dual sport, and ADV riders with their deeply lugged soles, stiff protective upper, and full height waterproof gaitors. Not a particularly tactile boot, so if you're a dirt rider you'll likely be comfortable in these; riders new to dirt boots may find them a bit stiff.

Men's US Sizes 8 - 12

\$400⁰⁰**Sidi Adventure Rain Waterproof Boot**

The Adventure Rain is a simpler, water resistant version of the top-of-the-line Adventure Gore boot. It boasts all the features and protection of its more expensive sibling but less breathable.

Men's US Sizes 8 - 13

\$550⁰⁰**Sidi Adventure Gore-Tex Waterproof Boot**

This is it: The best of the best in ADV boots. Full Gore-Tex waterproofing, fully replaceable sole and other components, a superb fit, and the hallmark quality of Sidi.

Men's US Sizes 8 - 13

Why wool?

Natural wool is comfortable, wicks moisture, is superior at regulating body temperature, and maintains its insulating properties even when wet. Plus, it doesn't stink!

Over the Calf Socks

Ideal for ADV, dirt, or track boots. Choose Ski socks if you prefer a thicker cushion on your shin (great for stiff dirt boots), or the Mountaineering socks if you don't want the added bulk in the shin. All Smartwool socks feature their unique 4 Degree Elite™ fit system and ReliaWool™ technology.

Crew Socks

The lower height of the Crew socks is perfect for more casual riding boots. Pack them with you on trips to wear around the campsite, or carry a pair as a spare. Their smaller size means they'll pack down smaller than the Ski socks.

Scarves and Balaclavas

\$37⁹⁹
MN.7002.180

Macna's Balaclava is made from microfleece and Spandex and provides a comfortable base beneath your helmet, helping to regulate your body temperature. Holes over the mouth area keep your breathing easy. We have definitely *not* ever worn these around the office pretending we were ninjas. We promise.

\$12²⁵
BKL.00.010.005

SW-MOTECH Bags-Connection Biker Scarf is not just any old neck scarf, this microfiber tube doubles as a doo rag or a really really tight tube top. Helps keep wasps off your neck, wets down for evaporative cooling in the summer, and keeps the wind out in the winter. Don't leave home without it!

Extend your riding season!

VentureHeat's PowerSports gear features the latest in innovation and heating technology, enabling you to create your own personal micro-climate. Designed to be powered by your vehicle's battery, you can connect your heated gear to a motorcycle, snowmobile, ATV or scooter for endless heated comfort.

Xtreme Comfort Technology eliminates bulky insulation and coils which impede mobility, and is replaced with hair-thin, micro fibers allowing for a more flexible range of motion without heavy layers.

Heated Jacket Liner With Wireless Remote

Heated Vest

VentureHeat's 12V Heated Jacket Liner is a dream come true for any motorcycle rider taking on the elements. This lightweight jacket is windproof and waterblocking to help protect you from the cold weather. Its slim design and form-fitting construction allow you to wear it comfortably underneath your regular riding jacket.

VentureHeat's 12V Heated Grand Touring Motorcycle Vest is one of the most versatile vests on the market. This heated vest features 4 heating panels to keep your entire core warm. A built-in temperature controller allows you to adjust the heat settings on the go.

With a **built-in temperature controller**, you can adjust the heat to 3 different settings with just the touch of a button. This heated jacket also features a **wireless remote** which can be attached to your handlebars so that you can stay comfortable without ever having to take your eyes off the road.

The vest is constructed with a windproof, stretchable soft shell material to keep you protected from the elements. **Pre-wired glove connectors** also give you the option to plug-in a set of VentureHeat heated motorcycle gloves to help minimize the amount of cable and maximize your comfort while out riding.

Heated Pant Liner

Heated Touring Gloves by Macna

VentureHeat's 12V Heated Motorcycle Pant Liners are perfect for taking on the elements and riding in comfort. These heated pant liners are constructed with a windblocking soft shell on the front, and a stretchable back to help fit comfortably underneath your regular riding pants.

The Proton Heated Glove from Macna is the most comfortable heated glove we've ever used. It features a smart temperature controller that maintains the temperature setting exactly as you choose - no more constant fiddling with a controller trying to keep the temperature stable! Simply set it to your desired setting and, just like the furnace in your house, it automatically regulates itself to maintain that temperature.

The Proton is 100% waterproof, touchscreen friendly, and comes with everything you need to hook up to your bike or to other heated gear!

- 5 temp settings
- Goat leather, Durylon
- Raintex membrane
- TouchTip
- TPU knuckle protectors
- ScreenCleaner
- Includes controller and wiring
- Compatible with other heated gear brands

interphone

BLUETOOTH RIDER COMMUNICATION

Interphone's rider communication systems range from kits for bike-to-bike communication to solo units for listening to music or Bluetooth devices. Exceptional audio clarity and a wide volume range allow easy communication at speeds up to 110 mph. Interphone's long-lasting battery life won't leave you in silent isolation on all-day rides.

F5 with modular/open face microphone installed.

NEW FEATURES
for 2014

Interphone F5MC Communication for up to six riders!

The F5 Conference offers full-duplex communication system for groups of up to 6 riders. Effective maximum range starts at 0.8 miles between a pair of riders and increases to 1.5 miles across a group of 6 riders. Full-duplex communication allows all six people to talk at once.

Features:

- Bluetooth 3.0: longer range, better connection
- A2DP stereo Bluetooth for HD audio
- 11-hour talk time per charge
- 5 independent buttons: volume up, volume down, next track/station, last track/station, and function
- Head unit responds to voice commands
- Text-to-speech capability lets you **listen to text messages**
- Automatic volume control
- Noise suppression microphone
- FM radio (8 station memory and station scan function)
- 3.5mm stereo music input jack
- Backwards-compatible with F4 head units

Each headset kit includes:

- INTERPHONEF5S
- STEREO Hi-Fi slim speakers
- Universal boom microphone
- Full-Face comfort microphone
- Includes one USB charger/sync cable
- Wall charger (3 hour recharge time)
- Lithium battery
- 1 3M adhesive slide mount
- 1 sliding mount clip

Sena Bluetooth Intercoms

Sena Bluetooth Intercoms use advanced Bluetooth 3.0 & 4.0 technology, which allows superior clarity over real-world useable distances. Sena intercoms also allow music streaming, multi-phone pairing, and many other features. See each unit's feature list for details.

Sena 20S Bluetooth Communication System

The unit provides a sleek and aerodynamic design that offers a versatile jog dial that maximizes the ease of use for riders. With the 20S, you can call handsfree on your Bluetooth mobile phone, listen to stereo music or voice instructions of GPS navigations by wireless Bluetooth, and have intercom conversations in full duplex with a passenger or other motorcycle riders.

- Bluetooth 4.0
- Industry first dual Bluetooth module communication system
- Audio Multitasking™: advanced audio management of intercom, phone, music and FM radio (patent pending)
- Advanced Noise Control™
- Versatile bike-to-bike conference intercom
- Intercom working distance up to 2.4km (1.5 miles)
- Multipoint Bluetooth for dual mobile phone
- HD Quality crystal clear sound
- Intuitive voice prompts and commands
- Up to 13 hours talk time, 10 days stand-by time
- Built-in FM radio tuner with a station scan and save function
- All-in-one helmet clamp kit
- Quick Bluetooth pairing
- Universal Intercom™: intercom with other brand communication systems
- Water resistant for use in inclement weather
- Firmware upgradeable
- Two-year warranty

Sena SM10 Dual Stream Stereo Transmitter

The SM10 is a Bluetooth stereo audio adapter based on Bluetooth 2.1+EDR technology. You can connect various audio devices such as a mobile phone or MP3 player by using the SM10. It also supports onboard audio systems of specific brands by using optional audio cables. Along with the dual streaming feature, both you and your passenger can listen to the same music or radio at the same time by using aftermarket Bluetooth headsets. The SM10 has AUX audio input that enables you to connect additional non-Bluetooth audio devices such as radar/laser detectors or GPS navigation.

- Bluetooth 2.1+EDR
- Advanced Audio Distribution Profile (A2DP), Audio Video Remote Control Profile (AVRCP)
- Dual audio streaming for two Bluetooth headsets
- Motorcycle handlebar mount
- Auxiliary stereo input for GPS or radar/laser detector
- Water resistant for use in inclement weather
- Optional interface cable for onboard motorcycle audio systems
- Firmware upgradeable
- Two-year warranty
- Works with all brands of Bluetooth headsets

\$134¹⁰

SENA.SM10-01

Sena SR10 Bluetooth Two-way Radio Adapter

The SR10 is a Bluetooth Two-way Radio Adapter based on Bluetooth 2.1+EDR technology. You can connect various two-way radio devices by using SR10 and may talk wirelessly using Bluetooth headsets. SR10 has two auxiliary ports that enable you to connect non-Bluetooth devices such as a radar detector or GPS navigation. Talk by phone or by two-way radios at the same time, listen to alarm signal from a radar detector and listen to the guides from GPS Navigation.

- Bluetooth handsfree adapter for two-way radios
- Bluetooth handsfree gateway for mobile phones
- Connect 1 two-way radio and 1 mobile phone simultaneously
- Compatible with standard stereo or mono Bluetooth headsets
- Auxiliary input for GPS or radar/laser detector
- Handlebar mounting & belt clamping
- Wired PTT button extension for handlebar grip mounting
- Optional 12V bike-powered kit with on/off control by ignition switch
- Firmware upgradeable
- Two-year warranty
- Works with all brands of Bluetooth headsets
- Visit TwistedThrottle.com for adapter plugs for specific 2-way radios

ADAPTIV TECHNOLOGIES

TPX Radar & Laser Detector TPX.A-01-01

\$299⁰⁰

TPX Visual Alert TPX.A-02-02

\$45⁰⁰

TPX Radar & Laser Detector System 2.0 features a water, shock, and vibration resistant housing, and includes a fused 12-volt harness for direct hookup to your battery. TPX detectors have big buttons that are easy to use while wearing bulky motorcycle gloves, a backlit LCD screen that's readable while riding, as well as an LED visual alert so you don't have to take your eyes off the road. The TPX includes a 3.5mm auxiliary audio jack for integration with other audio or communication systems.

- Exceptional radar and laser detection
- Water resistant construction
- Shock and vibration resistant design
- Oversize, backlit control buttons
- Angled, backlit, daylight visible LCD
- LED visual alert included
- Compatible with other communication or audio systems
- Simple installation

The included quick-release adapter plate is compatible with most RAM, Techmount, and SW-MOTECH motorcycle device mounts.

TPX Systems have been performance certified by *Speed Measurement Laboratories, Inc.*, an independent laboratory that specializes in testing radar and laser detectors.

Optional Accessories	Part Number
Wireless Headset	TPX.A-02-01
Automotive mount with 12-volt power cord	TPX.A-05-03

Battery BacPac™

The Battery BacPac attaches to your GoPro camera to extend battery life. Works with HERO3+, HERO3 & HD HERO2.

ABPAK-302
\$49.99

Rechargeable Li-ion Battery

Use this 1080 mAh lithium-ion rechargeable battery as a spare or replacement for your HERO3+ or HERO3 camera.

AHDBT-301
\$19.99

Wall Charger

Charge up to two GoPro cameras quickly, in US, UK, EU & AU wall sockets. For use with all cameras.

► **Garmin's zumo 390LM Motorcycle GPS** features the new Curvy Roads routing which navigates to the twistiest roads in the area! Zumo is fuel-resistant, waterproof (IPX7), offers free lifetime maps, and has a display that is both sunlight-readable and glove-friendly. The zumo 390LM allows hands-free phone control and lets you hear spoken directions via your Bluetooth-enabled helmet or headset. A Service History Log records bike maintenance and there's even an automotive mount for car navigation – if you must. Zumo 390LM is also compatible with our Tire Pressure Monitor System (additional purchase required for each wheel; metal valve stems only. Not intended for automotive use).

Features:

- Curvy road routing to guide via windy roads
- Exit services display
- Service History Log to track maintenance
- Tire pressure monitor system with individual sensors (sold separately)
- Includes motorcycle and car mounting power cable and hardware
- Preloaded with City Navigator NT North America street maps
- Lifetime Map Updates
- Glove friendly display
- Rechargeable lithium-ion battery with up to 7 hours of operational time
- Waterproof to 1m for 30min (IPX7 rating)
- Up to 1000 waypoints/favorites/locations
- Up to 100 routes
- Measures: 5.12" x 3.7" x 1.18" (130mm x 94mm x 30mm)
- Display size: 3.7" x 2.2" (94mm x 56mm)
- 4.3" (109mm) diagonal
- Weighs 9.5oz. (270g)
- Fuel and UV resistant
- Accepts microSD data cards
- Internal speaker for voice direction prompts
- Calculates routes based on traffic flow
- Lane assist advises proper lane
- Multiple destination routing
- Bluetooth enabled
- Speed limit display
- Locate closest services from any location
- Trip log
- Compass display
- Trip planning software included

Garmin zumo 390LM 010-01186-00 **\$699⁹⁹**

zumo 390LM tire pressure monitoring screen

► **Garmin zumo 660 & 665 Motorcycle GPS Units** have many of the same features as the 350LM, including a wide 4.3" touchscreen and lifetime maps.

The **zumo 660** adds the ability to simultaneously connect to both a Bluetooth™ headset and a phone or MP3 music player. The **zumo 665** offers the same features as the Zumo 660, but includes the GXMT™ 40 XM antenna. Simply add an XM subscription (not included) to receive real-time XM Radio®.

010-00727-08

\$799⁹⁹

► **Garmin Tire Pressure Monitor Sensor**

Garmin's Tire Pressure Monitor Sensor (TPMS) enables you to monitor your motorcycle's tire pressure easily and conveniently, as you ride. Fasten 1 TPMS sensor to each metal tire valve stem, then pair TPMS with your zumo 390LM. View the real-time data right on your zumo display.

TPMS lets you set custom pressure thresholds. If tire pressure changes, TPMS issues an alert. TPMS is the smallest motorcycle tire pressure sensor on the market. Each TPMS sensor is powered by a single, replaceable battery that may last up to 18 months, depending on individual use. To preserve battery life, TPMS rests in low-power mode, then "wakes up" when movement is detected.

Garmin Montana 650t

A big, tough GPS with preloaded topographic maps. Take it hiking, take it hunting or take it on the water. Montana 650t features a bold 4" color touchscreen dual-orientation display and TOPO U.S. 100K maps, supports multiple mapping options such as BirdsEye Satellite Imagery, and it has a 5 megapixel camera to boot.

The Montana has a 3-axis tilt-compensated compass and barometric altimeter. Pair it with an auto mount and City Navigator NT® maps to get spoken turn-by-turn driving directions.

Features:

- Dimensions: WxHxD 2.9" x 5.7" x 1.4"
- Display size: WxH 2" x 3.5"; 4" diag
- Display resolution: 272 x 480 pixels
- Bright, transreflective 65k color TFT, dual-orientation touchscreen; sunlight readable display
- Included rechargeable lithium-ion battery (16 hours life)
- Will also take 3 AA batteries (22 hours life)
- Waterproof to IPX7
- High-speed USB and NMEA 0183 compatible
- Preloaded basemap
- Preloaded with TOPO U.S. 100K maps
- Ability to add additional maps
- Built-in memory: 3.5 GB
- Accepts microSD™ data cards (not included)
- Waypoints/favorites/locations: 4000
- Routes: 200
- Track log: 10,000 points, 200 saved tracks

Trail Tech Voyager GPS

Designed specifically to meet the needs of off-road riders, the Voyager GPS allows you to create, log and ride trails, and when you are finished, share them with friends. You can also monitor the engine temperature, ambient temperature, distance, voltage, compass, elevation, and engine RPM. The 2.7" screen uses the most up-to-date technology for amazing viewing, even in direct sunlight.

Need to edit saved trails? Voyager comes with free complimentary software, RideLeader, to help you create, edit and save epic rides.

Trail Tech Voyager GPS

\$289⁹⁵

- GPS speed, distance, compass, altitude, temperature, maps
- View, organize, edit and share entire trail systems in 3D
- 240x400 WQVGA LCD - readable in intense sunlight
- Engine performance linked to GPS data
- Crash resistant, off-road design
- Upload routes from any GPS
- Customizable user screens
- Model-specific kits for most trail, off-road and dualsport bikes
- Accurate tracks, even in the toughest terrain
- Runs on vehicle power or internal rechargeable Lithium Ion battery(11 hour typical life)
- Back-lit for operation in the dark

Temperature sensor

Wheel speed sensor

SPOT Satellite Units

SPOT Satellite Connect

What to do when your adventure-takes you out of cell reception? The SPOT Satellite Connect can turn your smartphone into a one-way satellite communicator that lets you send messages and GPS coordinates from virtually anywhere on the planet. Simply pair your smartphone to the Satellite Connect to send email, Facebook posts and custom text messages, as well as SOS messages requesting emergency assistance.

Features:

- Send messages from anywhere via satellite
- Compact size: 3" x 2.6" x 1.2", weighs 4.9oz
- 2 AA Energizer Ultimate Lithium batteries only
- Waterproof up to a depth of 1 meter for up to 30 minutes (IPX7)
- On device SOS button for stand alone emergency operation
- Compatible with iPod touch (2nd 3rd & 4th gen), iPhone 5, iPhone 5S, iPhone 4S, iPhone3GS, iPhone3G, and Android 2.0 & later

\$149⁹⁵

RAM Cradle for SPOT Connect
RAM-HOL-SPO3U

\$16⁰⁸

SPOT Trace

The SPOT Trace offers advanced theft-alert tracking for anything. Instantly receive a text or email when your most valuable assets move, or follow them on Google Maps anytime on your phone or computer. Custom tracking options allow you to select the rate at which updates are sent – every 2½, 5, 10, 30 or 60 minutes.

Features:

- Track anything: Cars, motorcycles, pets, even luggage
- Receive text/email messages when movement is detected
- Satellite technology tracks beyond the reach of traditional cell coverage
- Compact size: 2.02" x 2.69" x 1", weighs 3.1oz. including battery
- Waterproof up to a depth of 1 meter for up to 30 minutes (IPX7)
- 3 power options: USB 5v hard wire, 4 AAA Lithium batteries or 4 AAA LiMH rechargeable batteries
- Mounting accessories included

\$99⁹⁵

SPT.TRACE.01

SPOT Gen3 Satellite GPS Messenger

provides a vital line of communication with friends and family when you want it, and emergency assistance when you need it. Using satellite technology, SPOT works virtually anywhere in the world, even where cell phones don't - all with the push of a button.

SPOT Gen3's customized tracking take your SPOT experience to the next level. Only with SPOT Gen3, is tracking motion-activated with Unlimited or Extreme tracking upgrades. A vibration sensor tells your SPOT to send track updates when you are moving and to stop when you do. (This is a great new battery-saving feature! And, you don't have to remember to re-set your tracking after 24 hours.)

Features:

- Send S.O.S. with one button push
- Compact size: 3.43" x 2.56" x 1", weighs 4.0oz including battery
- Unlimited tracking
- Check In: Let friends & family know you're ok when out of cell coverage area
- Others can watch your adventure in near real-time and know exactly where in the world you are
- 3 power options: USB 5v hard wire, 4 AAA Lithium batteries or 4 AAA LiMH rechargeable batteries

\$149⁹⁵

SPT.SPOT.30

The SPOT Global Phone

allows you to communicate with family, friends, work and emergency services from virtually anywhere in the world. SPOT Global Phone is the ultimate easy to use, lightweight handheld satellite phone, boasting superior voice quality and the fastest data speeds in mobile satellite industry today.

Features:

- 24/7/365 9-1-1 Emergency response
- Size: 5.3" x 2.2" x 1.5", weighs 7.1oz including battery
- Airtime plans as low as 25¢ a minute
- 10-digit local phone number
- Free long distance to U.S. and Canada
- Connect phone to computer when you're off the grid
- Battery: Lithium-ion 3.7V, up to 36 hours of stand-by time, 4 hours of talk time
- Lighted keypad
- Rechargeable Lithium-ion battery with up to 36 hours standby time and 4 hours talk time

\$499⁰⁰

SPT.PHONE.B.254

Gadget Mounts allow you to attach your cell phone, iPod, XM Radio, or radar detector to your motorcycle. Choose from SW-MOTECH, Techmount and RAM mounts. Each offers a different way to mount your gadgets.

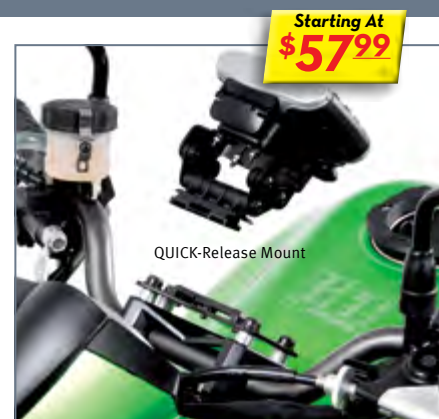

Bike-specific QUICK-LOCK Vibration-damped GPS Mounts

SW-MOTECH Gadget Mounts

Best for adventure touring and off-road applications by using fewer moving parts to make it uber rugged. SW-MOTECH mounts are designed for specific motorcycles and position the device near the center of the handlebar, without obscuring the speedometer or other important instruments.

- Rubber dampers reduce vibration to the GPS.
- Pivots for optimal viewing angles.
- Quick-release from bike.
- Strongest gadget mount available for off-road use.

For use with all Bags-Connection device pockets (see page 104), all RAM, Garmin Zumo, and TomTom Rider device cradles (see page 103), and all other device cradles with an AMPS hole pattern.

QUICK-LOCK Vibration-damped GPS Mounts for Handlebar Crossbars

GPS.00.646.10500.B Compatible with most handlebar crossbars, including the SW-MOTECH universal handlebar crossbar (see below) or any other 10mm - 12.5mm diameter crossbar. This includes the original handlebar crossbar on the BMW F650GS and G650GS, as well as the Kawasaki KLR650E (2008 - 2014).

\$77.99

GPS.07.637.10000.B Fits any 16mm - 16.5mm diameter crossbar, including the BMW R1200GS Adventure's original windscreen support bar.

\$57.99

No handlebar crossbar? You can add one!

- 1/2" (12.4mm) diameter x 10-3/4" (273mm) long
- Fits most 7/8" (22mm) & 1-1/8" (28mm) diameter handlebars using the included clamps
- Verified fit on Suzuki DL1000 and DL650 V-Strom, Triumph Tiger 1050, and many other adventure-touring bikes

Suzuki DL650 (Wee-Strom) with Crossbar installed

Black: LST.00.244.100.B

Silver: LST.00.244.100.S

RAM Mounts offer the widest range of affordable and versatile device mounting options for GPS, video cameras, smartphones and MP3 players. Choose from several available bases, four arm lengths, and the cradle that matches your device. No matter what your accessory, there is a RAM Mount solution available! For use with all Bags-Connection device pockets (see page 104) and many types of GPS device cradles (see pages 103-104). You can also mount iPods, toll passes, and other devices using any cradle with a standard AMPS 4-hole pattern.

GPS mounted on RAM Mounting System with Bags-Connection Device Pocket (see page 104).

Record video of your rides safely and securely.

There are three basic components in the RAM Mounting System: Bases, Arms, and Cradles.

What to Order:

STEP 1 Choose Your Base

RAM Mount Bases come in a wide variety of applications, so you will have no problem customizing how you want to display your devices. See next page for more information on RAM Bases.

STEP 2 Choose Your Arm

RAM Mount Arms come in four different lengths: 2", 3", 4.13", and 5.25". See page 103 for information on arms.

STEP 3 Choose Your Cradle

RAM Mount Cradles are available for a wide variety of devices. See pages 103-104 for information on device cradles and pockets.

STEP 1 Choose Your Base

RAM bases connect directly to your handlebars, mirror mounts, fork stem, or other parts of your bike. They provide the “base” for your RAM mounting system.

Choose one of the bases below to start your RAM Mounting System.

Round flat base plate - 2.5" diameter base

RAM-B-202U \$6.48

Handlebar base with U-bolt for 0.5" - 1.25" bar

RAM-B-231ZU \$13.37

Base for 1/4-20 threaded hole

RAM-B-237U \$7.32

Base with 10mm unthreaded hole (fits most handlebar mirror mounts)

RAM-B-252U \$11.42

Base with 8mm unthreaded hole

RAM-B-272U \$11.93

Base for 6mm unthreaded hole

RAM-B-309-3U \$10.86

Clutch/brake control mount with U-bolt for 1-1/8", 1", 7/8", 3/4" and 1/2" bars

RAM-B-309-7U \$15.19

Offset ball on brake/clutch reservoir cover
Fits many BMW, Honda, Kawasaki, Suzuki, & Yamaha models.

RAM-B-346U \$21.16

Centered ball on brake/clutch reservoir cover
Fits K1200GT, K1200LT, K1200RS, R1150GS, & many other BMWs.

RAM-B-345U \$21.20

Fork stem nut base
RAM-B-342U \$14.73
Fits hollow steering stem nuts with 12, 14, 16, 18, 20 or 28mm inside diameter.

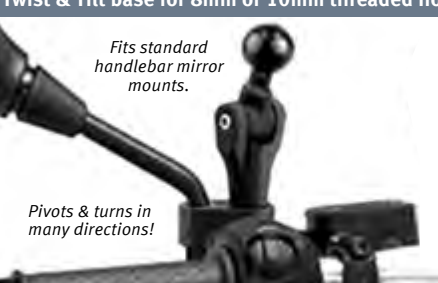

Base for 10mm x 1.25 pitch threaded hole
Thread boss fits many handlebar mirror mounts.

RAM-B-349U \$8.16

Twist & Tilt base for 8mm or 10mm threaded hole
Fits standard handlebar mirror mounts.
Pivots & turns in many directions!

RAM-B-360U \$19.76

Bike specific kit for Can-Am Spyder Roadster

RAM.30.807.10000 \$14.99

Base for 8mm threaded hole

RAM-B-367U \$10.48

Base for 6mm threaded hole

CPA.00.424.112 \$26.00

STEP 2 Choose Your Arm

Now that you have chosen the best base for your bike, it is time to choose which length of arm to use. RAM arms connect the base to the device holder and can be pivoted in many directions.

Optional RAM Products

1" double ball arm connector
RAM-B-230U \$14.49

This optional double 1" rubber ball adapter allows you to attach two RAM extension arms together. The double ball connector is 1.75" when measured from ball center to ball center.

2"
RAM-B-201U-A \$12.35

3"
RAM-B-201U \$12.21

5.25"
RAM-B-201U-C \$18.41

4.13"
The RAM Variable Swivel Arm is used when the arm needs to be positioned at a right-angle to your device.
RAM-B-200-12U \$15.89

Arm tightener with keyed lock
RAM-KNOB3LU \$20.60

This optional locking knob replaces the original thumb screw in RAM extension arms. In the locked position, turning the knob will only tighten the extension arm screw. Provides extra security when leaving electronic devices on your bike!

STEP 3 Choose Your Device Cradle

What do you plan on attaching to your bike? A GPS? Smartphone? Toll pass? Camera? Radar detector? High-output blue spectrum cutting laser? To complete your RAM Mounting System, purchase the cradle adapter below and the appropriate cradle or pocket from page 104.

Step 3a: Buy a cradle adapter OR a camera mount adapter

A RAM Cradle Adapter is required and will attach to all cradles or pouches that use the industry standard AMPS hole pattern. If you want to mount a camera that uses the standard 1/4"-20 camera thread, choose the Camera Mount Adapter instead of the Cradle Adapter.

Cradle Adapter
Required with all RAM device cradles. 2.25"x 1.25" diamond base.
RAM-B-238U: \$6.52

Camera Mount Adapter
Required for holding a camera. 2.5" diameter plate with 1/4"-20 threaded stud.
RAM-B-202AU: \$9.41

GoPro Hero Base
The adapter replaces the factory mounting bracket. 1" diameter ball.
RAP-B-202U-GOP1: \$6.20

Step 3b: Choose a Device Cradle

Choose a GPS cradle from the list below:

Choose a cradle for your device	Part No:
Garmin Astro 220, GPS 60, GPSMAP 60, 60C, 60CSx and 60Cx	RAM-HOL-GA12U
Garmin BMW Navigator II/III, StreetPilot 2610, 2620, 2650, 2660, 2720, 2730 & 2820	RAM-HOL-GA9U
Garmin GPSMAP 176, 176C, 196, 276C, 296, 376C, 378, 396, 478 & 496	RAM-HOL-GA7U
Garmin Montana 600, 650 & 650t	RAM-HOL-GA46U

STEP 3 Choose Your Device Cradle (continued)

RAM Spring-loaded Device Cradle

This adjustable/universal cradle is for mounting smartphones. The top clamp is spring-loaded and is expandable to hold larger/taller phones. The side holders are manually adjusted.

Holds devices 4.75" - 6.25" tall x 2.25" - 3.25" wide phone.

- Fits:**
- Apple iPhone 5, 4s, 4, 3Gs, & 3G
 - Blackberry Bold & Storm 2
 - HTC Droid Incredible, Evo 4G & G2
 - Motorola Droid Pro, Droid 2 & Droid X
 - Nokia N8, N900 & X6
 - Samsung Galaxy S & Wave
 - Windows Phone 7
 - Phones with skins, sleeves, bumpers and cases
- Mounts directly to any RAM-B-238 base, or to any Techmount or SW-MOTECH GPS mount.

RAM-HOL-PD3U: \$15.36

RAM Spring-loaded X-Grip™

The spring-loaded RAM X-Grip™ has a clean and clever four leg design that expands and contracts to fit your device. Rubber coated tips hold device firmly. The X-Grip™ attaches to RAM ball mounts and allows for multiple adjustment angles.

The X-Grip™ holder is available in 2 sizes which mounts directly to any RAM-B-238 base, any Techmount or any SW-MOTECH GPS mount.

Phone Holder
 RAM-HOL-UN7BU: \$21.44
 Min. Width = 0.875"
 Max. Width = 3.25"
 (0.875" devices must be a minimum of 4" in height)

Large Phone / Phablet Holder
 RAM-HOL-UN10BU: \$22.93
 Min. Width = 1.75"
 Max. Width = 4.5"

HR Gripper Universal Device Holder

Friction-fit cradle for mounting devices with shapes that won't fit standard RAM Device Cradles. Mounts directly to any RAM-B-238 base, Techmount or SW-MOTECH GPS mount.

Large - Holds devices 2.4" to 3.6" wide and up to 4.1" tall.

TM.ARO40: \$34.95

Small - Holds devices 1.5" to 2.8" wide.

TM.ARO15: \$34.95

Bags-Connection GPS Pockets and Dry Bags

GPS/PDA Pockets are perfect holders and protection for navigation devices and smartphones. Bags feature a sturdy base for secure mounting and eyelets to pass-through electrical or audio cables. These pockets mount directly to a RAM-B-238 base, Techmount or SW-MOTECH GPS mount. iPhone and Android touchscreens can be used through the clear window. While the pouch is water-resistant, if you need a 100% weatherproof solution and don't mind slower entry, use the roll-top GPS Dry Bag.

Small Pocket

Fits Apple iPhones, Samsung Nexus, Motorola Atrix, HTC EVO 4G and similar. Dimensions: 5.3" x 3.5" x 1" deep

BC.GPS.00.004.1000: \$29.99

Large Pocket

The large bag provides extra depth for thicker PDAs. Dimensions: 5.7" x 3.9" x 1.8" deep

BC.GPS.00.002.1000: \$30.00

Medium Pocket

Fits Garmin Nuvi 30, 40, 1350, 3750, 2300LM, Tom Tom XXL 540TM, Go2435, Magellen 1424, and similar. Dimensions: 5.7" x 3.7" x 1.4" deep

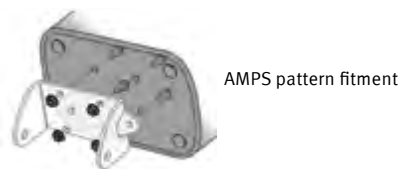

BC.GPS.00.003.1000: \$33.00

XL Pocket

The extra-large bag provides even more depth compared to the large bag. Fits some XM radios and GPS units. Dimensions: 5.7" x 3.9" x 3.0" deep

BC.GPS.00.001.1000: \$25.00

AMPS pattern fitment

GPS Dry Bag

100% weatherproof (not submersible) Dimensions: 5.3" x 3.5" x 1.2" deep

BC.GPS.00.005.1000: \$25.00

GPS Dry Bag mounted on GPS mount (GPS mount sold separately).

EZ-Pass/Toll Pass Holder

Riding "toll pass only" lanes? You will need our specifically designed toll pass holder. Made from lightweight and durable ABS resin, the toll pass holder mounts directly to tubular handlebars ranging from 1" to 1.5" diameter. Fits EZ Pass™, M-Tag™, IPASS™, Smart-Tag™, I-Zoom™ and FastLane™. The holder does not work with the FastTrak in CA or the SunPass in FL.

JSN-011: \$19.99

EZ Pass Holder Adapter for 0.5" or smaller bars. JSN-1/2: \$3.00

Techmount Gadget Mounts

Our cleanest looking gadget mounting solution. Techmount products are made from beautifully CNC-machined aluminum. Available for center, left, or right mounting positions, the new Gen 4 Techmounts feature a 17mm ball allowing unlimited positioning of your gadgets.

Cradles and pouches attach by either directly bolting, adding a quick-release adapter, or using a 4-hole AMPS pattern-compatible mount.

- For use with:**
- All Bags-Connection device pockets (page 104)
 - All RAM, Garmin zumo, and TomTom Rider device cradles (page 103)
 - All other device cradles with an AMPS hole pattern

Universal Stem Mount

Kit includes six O-ring posts: 13mm, 16mm, 17mm, 18mm, 19mm, 24mm

TM.4-10105.B: \$29.95

Fits a wide range of Honda, Kawasaki, Suzuki and Yamaha bikes with hollow steering stem nuts.

Universal Handlebar Mount

Fits 7/8" (22mm) to 1 1/4" (32mm) handlebars

TM.4-30912: \$29.95

The Universal Handlebar Mount includes hardware that fits all standard handlebar diameters, including 7/8", 1", 1-1/8", and 1-1/4".

Control Mount for BMWs

TM.4-21007: \$44.95

Mounts on handlebar control pinch bolts (clutch or brake side).

Control Mount

Replaces hand control pinch bolts.

TM.4-31001: \$39.95

The Control Mount fits a wide range of Harley-Davidson and metric bikes (clutch or brake side). Replaces the two factory pinch bolts with new stainless bolts and spacers on the handlebar controls.

10mm Mirror Mount

Threads into any 10mm x 1.25 standard or reverse threaded mirror hole.

TM.4-31000: \$39.95

10mm Mirror Mounts are designed to thread into the unused mirror mounting holes found on many metric motorcycles. Threads into a 10mm x 1.25 standard (brake side) or reverse (clutch side) mirror holes.

BMW Mirror Mount

Fits into unused mirror holes, left or right side.

TM.4-21004: \$39.95

The BMW mirror mount takes advantage of the unused BMW handlebar mirror mount holes. This item can be used on both left and right hand sides.

Gadget Mounting Plate

AMPS Mounting Plate for Techmount Gen 4 ball mounts Mount any device that uses a 4-hole AMPS pattern to this plate or drill your own holes. Plate measures 2.25" x 1.875".

TM.4-AMPS: \$4.95

Techmount Quick-Change Adapter

The Techmount Quick-Change Adapter allows you to quickly swap the accessory cradle or pouch attached to your Techmount. It slides easily onto the Techmount top plate and locks into place with a spring-loaded locating pin. Accommodates any cradle or pouch with a 4-hole AMPS pattern (see page 104).

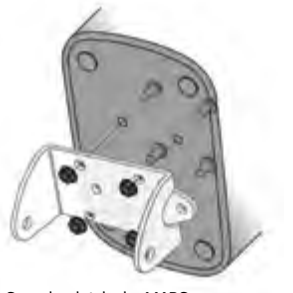

TM.60003: \$19.95 (for Gen-3 & Gen-4 round top plates)

Visit TwistedThrottle.com for more mounting options from Techmount!

Spring-loaded pin

Spring-loaded pin slips into hole

Standard 4-hole AMPS pattern

Weatherproof AMPS-compatible phone cases

\$67⁹⁹

Keep your iPhone or Galaxy 2 protected, dry, and charged.

This waterproof case protects your iPhone from the elements, while maintaining touchscreen usability through the clear touch-sensitive screen membrane. "Wake/sleep" and "home" buttons can be used with the phone inside the case. Membrane-protected openings for the rear and front camera lenses let you take video or pictures while you ride. Weather-protected stereo jack and dock connector let you listen on the go and in the wet. The rotating base allows you to pivot the case 360°. The quick-release adapter has an AMPS hole pattern for easy attachment to all RAM, SW-MOTECH, or Techmount gadget mounts.

Convert cigarette socket into a USB charger

Tapp™ Direct to Battery USB Chargers

These compact USB Chargers are the weatherproof answer to powering Apple iPads, iPhones, most cell phones, GPS units or MP3 players. They mount easily to your handlebars or to any flat or curved surface, using the included self-adhesive mount. A tethered sealing cap protects the charger from dust and water. The included fused battery hookup harness is diode protected against reverse polarity. Just hook the Tapp directly to your battery or the Denali PowerHub2 (see page 118), secure the USB connector to an appropriate surface, plug in your device and go!

1 amp output:
3BR.150.0034.02: \$29.66

2.1 amp iPad ready:
3BR.150.0056.01: \$40.46

Tapp™ USB Chargers with Mini-Euro Plug

This USB Charger is used on BMWs with a Mini-Euro Socket. This unit charges USB accessories: including cell phones, most GPS units, MP3 players, and some digital cameras. A tethered seal cap protects the charger from dust and water. The Mini-Euro plug makes installation simple. Just attach the Tapp using the Universal Mounting Bracket and plug the Mini-Euro Plug into your bike's power socket.

- DIN 4165 Mini-Euro plug
- Cable length: 6 inches
- Removable seal cap
- Protection Rating: IP64 waterproof when capped
- Available output of 2.1 amp (suitable for iPads)

3BR.150.0058.06: \$46.76

Garmin Mini-USB Charging Cables

This cable allows you to charge your Garmin GPS unit through its mini USB port without forcing the device into the unusable "computer data sync" mode. Right angle adapter is 5" long; 3' coil cable can expand to 6' and ends in a convertible Mini-Euro/Cigarette Socket plug.

BC.POW.00.003.100: \$43.00

Micro-USB Charging Cable

For charging the most popular navigation systems, PDA's, digital cameras and other electronic devices. With a highly effective flyback converter and an integrated protection against short-circuit, polarity reversal and overload. Ends in a convertible Mini-Euro/Cigarette Socket plug.

Audio cable pass-through

SoundBomb Compact Dual-Tone Air Horn by Denali

DENALI

LOUD! Stylish! Rugged!

Starting At
\$44.99

TT-SB.10000.B

Producing an earsplitting 120 decibels of sound, the SoundBomb is eight times louder than a standard motorcycle horn!

The Denali SoundBomb was designed for those who want to be heard, but still want to maintain a stylish look. Thanks to its compact design and blacked-out housing, the SoundBomb will practically disappear once installed.

The unique design of our compact horn features a rugged molded clamp that mechanically mates the compressor to the acoustic unit. This makes the SoundBomb virtually indestructible even in high vibration applications.

Specifications:

- Sound Output: 120 dB at 3 feet
- Current Draw: 20 Amp
- Dimensions: 5.4" (137mm) wide x 4.5" (116mm) high x 3.6" (86 mm) deep
- Stylish All Black Design

Included:

- Single Piece Electro-pneumatic Horn
- 12 volt, 30 amp relay

Mounting bracket and wiring harness sold separately, see below.

Plug-N-Play Wiring Harness for SoundBomb Air Horn

Our pre-assembled wiring harness makes horn installation fast and easy! No stripping, splicing, cutting, crimping, or trips to the hardware store required! Just clip one lead to your original horn trigger wire, one lead to battery ground, one fused lead to battery positive, one high current lead to the horn, and plug the harness into the SoundBomb's included relay. Also works on Stebel horns. Includes one 30-amp ATC fuse and assembly instructions. Made in U.S.A.

TT-00002.10000: \$34.99

Also available is a similar plug-n-play wiring harness that is *not* made in U.S.A. TT-00012.10000: \$24.99

Do-It-Yourself Wiring Kit for SoundBomb Air Horn

The DIY kit gives you all the supplies and parts you need if you want to spend a significant part of your day wiring your horn yourself. If you want to take the easy way out, buy the plug-n-play kit to the left.

Uses a 40 amp ATC in-line fuse. Designed for use with SoundBomb horns, but can also be used with other replacement horns requiring a dedicated relay.

TT-00013.10000: \$12.50

Universal Horn Mounting Brackets

Our heavy duty accessory mounts come in many shapes and sizes! These mounting brackets can also be used to mount other small items (such as auxiliary headlights) on your bike. All mounts have a 3/8" (10mm) diameter mounting holes.

\$9.50

- L-bracket 0.6" x 2.55" center-to-bend: TWT-00-013-001
- Straight 3" (2" center-to-center): TWT-00-013-003
- Straight 4" (3" center-to-center): TWT-00-013-004
- Straight 6" (5" center-to-center): TWT-00-013-006

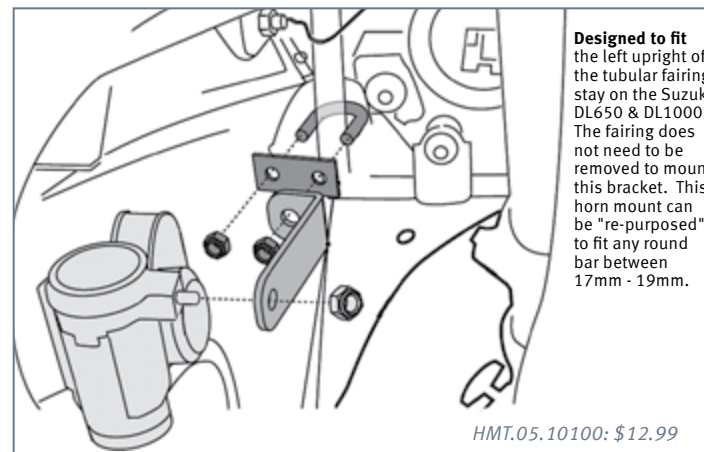

\$54.95

Tubular Mount 0.85", 7/8", 1", 1.07", 1-1/8" & 1.25" diameter bars: TM.51125

Bike-specific Horn Mounting Brackets

Bike	Part Number	Shape/Size	Price
Kawasaki KLR650E, '08-'14	TWT.HMT.08.004.100	L-bracket	\$12.50
Suzuki V-Strom DL650, '04-'13	HMT.05.10100	17m - 19m	\$12.99
Triumph Explorer 1200, '12-'14	HMT.11.10200	Bolt & spacer	\$5.00

Designed to fit the left upright of the tubular fairing stay on the Suzuki DL650 & DL1000. The fairing does not need to be removed to mount this bracket. This horn mount can be "re-purposed" to fit any round bar between 17mm - 19mm.

HMT.05.10100: \$12.99

DENALI

LED Light Kits

All Denali LED lights are housed in a rugged waterproof aluminum housing (submersible up to 3 meters under-water). Our LED's boast an average life span of 50,000 hours; that's 6 years without ever being shut off. Yes, we went overboard. It's what we do.

Making our light kits easy to mount and install to your motorcycle is a top priority for us. Every light kit includes a universal M8 mounting bracket and detailed wiring diagrams that are simple and easy to understand. Bike specific light mounts are also available for many popular bike models at TwistedThrottle.com.

Daytime Visibility Specialist

DM Denali DM Mini LED Light Kit

The ultra compact size of the DM light is ideal for street bikes where you want to maintain a clean inconspicuous look without sacrificing brightness. The DM is also ideal for daytime visibility as the smaller optic intensifies the brightness of the light when looking at the light from the front. Consuming only 5 watts of power per lamp, the Denali DM lights throw a blazing beam of light 240 feet down the road in front of you. That's 85 feet further than your typical motorcycle high beam.

Denali DM Features:

- Pod Size: 1.7" round x 2.4" long
- Beam Distance: 240'
- Power Draw: 5 watts per lamp
- Intensity: Single
- Beam Angle: 10° or 40° lenses
- Waterproof: IP-68
- Mount: Universal M8
- Includes 2 LED pods, fused harness, and switch

DENALI

Dual Intensity Technology

Our Denali lights are so bright, we developed a dual intensity LED harness to create the ideal lighting solution for on and off road riders who want an uncompromised beam of light illuminating the road in front of them. The dual intensity technology allows you to switch the brightness to half intensity when passing oncoming traffic with your bikes existing high/low beam switch. The lights can also be wired to run at full intensity all the time independent of your high/low beam switch.

Best Seller

Best All Around Light

D2 Denali D2 Dual Intensity LED Light Kit

The unique optic in the D2 light was designed to create a massive beam of light that is the perfect balance between distance and width. You won't believe how much light is thrown out in front of you, and off to the sides. Consuming only 10 watts of power per lamp, the Denali D2 lights throw a blazing beam of light 423 feet down the road in front of you. That's 3 times further than your typical motorcycle high beam.

Denali D2 Features:

- Pod Size: 2" round x 2.4" long
- Beam Distance: 423'
- Power Draw: 10 watts per lamp
- Intensity: Dual
- Beam Angle: 10° or 40° lenses

Distance Specialist

DR1 Denali DR1 Single Intensity LED Light Kit

The large 10° optic in the DR1 maximizes the distance you can see down the road by concentrating a spot beam pattern at the center of the road. The DR1 is ideal for night riding in on/off road conditions where maximum beam distance is desired. Consuming only 10 watts of power per lamp, the Denali DR1 lights throw a blazing beam of light 695 feet down the road. That's over 4 times further than your typical motorcycle high beam.

Denali DR1 Features:

- Pod Size: 3" round x 3.75" long
- Beam Distance: 695'
- Power Draw: 10 watts per lamp
- Intensity: Single
- Beam Angle: 10° lenses

Flood & Spot Hybrid

D4 Denali D4 Hybrid LED Light Kit

Simply put; the D4 is a beast. It is our most powerful and most versatile light packing the punch of four DM lights in one rugged housing. The four LED pod is equipped with two 40° elliptical flood lenses and two 10° spot beam lenses to create the ultimate hybrid beam pattern; a super wide close-range flood and a piercing spot beam in one rugged housing. Consuming 20 watts of power per lamp, the Denali D4 lights throw a blazing beam of light 550 feet down the road in front of you. That's over 3 times further (and way wider) than your typical motorcycle high beam.

Denali D4 Features:

- Pod Size: 3.9" square x 2.5" long
- Beam Distance: 550'
- Power Draw: 20 watts per lamp
- Intensity: Single
- Beam Angle: 10° and 40° lenses
- Waterproof: IP-68
- Mount: Universal M8
- Includes 2 LED pods, fused harness, and switch

DENALI

Auxiliary Light Mounts and Accessories

Universal Articulating Mounts

Our most versatile mounting solution, this kit includes a clever combination of steel bushings, heavy duty steel brackets, spacers and hardware to allow you to affix any Denali lights to any convenient M5, M6, or M8 bolt point on your motorcycle with full 3-axis adjustability.

LAH.00.10000 \$49.99/pair

Handlebar & Crashbar Mounts

These stylish clamps are machined from 6061-T6 Aluminum for strength and durability. The kit allows fitment of any Denali LED Lighting Kit to any tubular bar ranging from 22mm to 28mm in diameter. The bracket can be mounted in numerous positions allowing the light pods to be placed for optimal beam projection, while keeping the pods themselves protected.

LAH.00.10300 \$62.99/pair

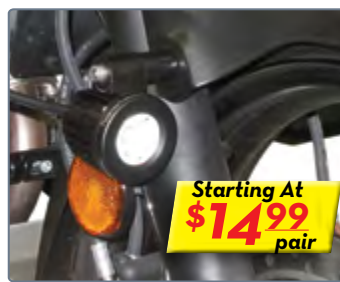

Starting At \$399 each

Hinge Mounts

Use one of these M6, M8, or M10 2-axis hinge mounts for Denali D1 and Denali D2 lights so they can be easily mounted directly to an M6, M8, or M10 mounting hole. The M8 hinge mount is included with the Denali D1 and D2 LED light kit.

6mm bolt: TT-D1.P-SHM6
8mm bolt: TT-D1.P-SHM8
10mm bolt: TT-D1.P-SHM10

Starting At \$1499 pair

Fender Mounts

Compatible with Denali DM, D1, and D2 lights. Single axis adjustment. Mounts to any threaded M5 or M6. Includes spacers to accommodate tight spaces.

M5 & M6 fender bolts for DM: LAH.00.10100
M5 & M6 fender bolts for D2: LAH.00.10200

Made in USA

Single/Double Switch Mounts

The perfect solution for quick on/off switch access. Available in single & double platforms with vertical or horizontal screw mounting.

Hawk LED & Halogen Auxiliary Lights

LED lights provide more safety on the road by offering daytime visibility to help other drivers see you and for you to see better at night.

Hawk LED 4" Fog Lights

New for 2014 are the larger Hawk LED fog lights. The Hawk LED Fog Lights are the new generation of LED lighting from SW-MOTECH. Housed in a watertight aluminum housing, these lights run off standard 12 volts and only draw 10 watts each. Kit includes 2 lights, Waterproof switch and wiring harness with fuse.

NEW

Hawk Fog Light Features:

- LED version: voltage 12V, 10W
- ECE test mark
- Solid aluminum housing
- Included: 2 HAWK LED Fog Lights, 1 water-resistant cockpit switch, cable harness with fuse

\$399⁹⁹
NSW.00.004.10500.B

Hawk Halogen Lights

Hawk LED Lights

Choose from Halogen spot or LED spot or Halogen fog

Hawk 2" Off-Road Lights

Available in LED Spot, 55W Halogen Spot, or 55W Halogen Fog.

Hawk LED spot lights, available in a black or silver aluminum housing, throw a 12 degree spot beam using 10-watt LED, 550 lumen lamp. The Hawk 55W halogen spot lights throw a similar beam pattern but use H3 55-watt, 500 lumen lamp. The Hawk 55W fog lights also use H3 55-watt lamp but throw a wide beam pattern with broad dispersion. All lights share the same aluminum waterproof housing and come in pairs with a wiring harness and waterproof switch.

See page 116-117 for mounts (sold separately).

Hawk Light Guard, black or silver
NSW.00.004.10300: \$49.99

Hawk LED Spot Light

Best for long distance illumination with low power draw.

DENALI POWERHUB2

POWER DISTRIBUTION MODULE

\$11999

ELC.00.30000

The PowerHub2 Power Distribution Module allows you to safely connect up to 6 electronic devices to your motorcycle in a clean, workmanlike manner. It is CANbus compatible and includes six 15-amp rated fused outputs, six ground posts, and a plug-and-play wiring harness for direct battery hookup. Each of the six outputs can be individually set as "always on" or "switched" on/off with the ignition of the motorcycle. Instead of attaching multiple ring terminals to your battery, use a PowerHub2!

Features:

- Dimensions: L 3" x W 4" x H 1"
- 6 circuits can handle up to 15amps (180W) each
- CANbus-compatible
- 60" long, 10 gauge wiring harness with Posi-lock connectors
- Uses Mini ATM fuses (sold separately)
- Replaceable 30 amp micro relay
- Made in U.S.A.

Mini ATC fuse kit (sold separately)

Package contains:

- four 2amp fuses
- four 3amp fuses
- two 5amp fuses
- two 7.5amp fuses
- two 10amp fuses
- one 15 amp fuse

TT-00015: \$7.95

The entire unit is rated for 30 Amps (360 watts). Each of the six circuits can handle up to 15A (180W) each - without exceeding a total sum of 30 Amps simultaneously.

PDM60 Power Distribution Module

The PDM60 Power Distribution Module has 6 power circuits, making it easy to handle all your electronic accessories. The bright LED indicators keep you informed of the status of each circuit. Built with components selected for superior power management capability, and extended service life, it's designed with one goal in mind: to provide years and years of superior, hassle free performance. The PDM60 unit is fully encapsulated to protect against rain, dust, humidity, etc. Whether it's off-road, or cross-country via interstate, these units are built to last under the harshest of conditions.

\$19999

PDM60

- 6 individually programmable circuits
- CANbus compatible
- Eliminates fuses and relays when adding electronic accessories
- Dimensions: 2" x 3" x 0.9" (51mm x 76mm x 24mm)
- Each circuit is fully programmable for 8 modes
- LED display indicates circuit status (green is good, yellow is unused, red is faulted)
- Free PC programming software download

LED Battery Voltage Monitor

The smallest and simplest monitoring device available! This flush mount kit includes a 1/4" diameter LED that displays voltage levels using colors in a stoplight-style arrangement:

- RED** - Danger, Will Robinson! Less than 11.5 volts
- AMBER** - 11.9 to 11.5 volts
- GREEN** - 12 volts and up

Fuse protection, wiring, connector assortment and complete instructions are included. Simple 2 wire installation. Drilling a single 1/4" diameter hole to accommodate the LED is required to install on any flat surface near your instrument panel.

\$2995

EC.04101

194 Marker Bulb CANbus Adapter for some BMW, Ducati & Triumph motorcycles

Many late model European motorcycles use "CANbus" electrical systems that can malfunction if add-on electrical accessories are spliced directly into the wiring harness. Our CANbus adapter provides a "hot" trigger wire that activates a relay to safely power electrical accessories (driving lights, accessory fuse blocks, GPS, heated grips, etc.) when such motorcycles are turned on. The adapter simply plugs into the bike's existing "City Light" 194 headlight marker bulb socket.

\$1995

EC.02350

AdMore LED light bars get attention!

Running light, modulated brake light, and turn signals all in one compact unit. When you brake, a built-in modulator causes the light bar to flash 3 times before turning solid at 100% intensity, helping to alert drivers behind that you are slowing down or stopping. When a turn signal is on, 1/3 of the light bar flashes amber sequentially in the direction of the turn while the remainder of the light bar stays red. Both light bars mount easily using the included hardware to any flat surface, license plate bracket, or the underside of most rear luggage racks, with or without a topcase mounted.

Housed in a black polycarbonate case with clear or smoke lens.

AdMore Large LED Light Bar

This large 10.75" light bar enhances visibility and safety! Fits well on large touring motorcycles as well as 4-wheeled vehicles. When a turn signal is on, two of the four clusters will flash amber.

Constructed of 72 high-intensity **bi-color LEDs**. Approximately 10.75" across, 1.625" tall, and 1" thick.

Clear lens
AML.LED7226.SMT.TS

\$13900

Smoke lens
AML.LED7226.SMT.TS.SMK

\$14400

AdMore simplifies installation by providing Posi-Tap™ electrical connectors, which allows you to wire the light bar to your original wiring harness without tools; no stripping, crimping, or soldering required!

AdMore light bars are CANbus compatible.

AdMore Mini LED Light Bar

The Mini 8" light bar gets attention! Similar to the large light bar, but 8-inches wide. Fits well on the license plate brackets of most bikes.

Constructed of 78 high-intensity **bi-color LEDs**. Approximately 8" across, 1.25" tall, and 1" thick.

Clear lens AML.LED5420SMT.TS

\$12900

Smoke lens AML.LED5420SMT.TS.1

Replacement Turn Signals

R&G Micro Turn Signals are designed to fit R&G Fender Eliminators or replace the OEM turn signals and include both clear and amber lenses: available in either 10-watt incandescent or LED versions. Resistors may be necessary for proper flash speed when using the LED version.

10-watt Micro Turn Signals
RG.RG370: \$48.99

LED Micro Turn Signals
RG.RG371: \$48.99

R&G Plug 'n Play Resistors for LED turn signals

After replacing your bike's original incandescent turn signals you may find that the signals flash too fast or too slow. Adding a resistor resolves this issue. No cutting, crimping or soldering required.

Original Turn Signal	Resistor	Part No.
LED	----	----
10 watt incandescent	21.5 ohm	RG.RGR0002
21 watt incandescent	9.8 ohm	RG.RGR0001

21.5 ohm resistors
RGR0002: \$6.00 /pair

9.8 ohm resistors
RGR0001: \$6.00 /pair

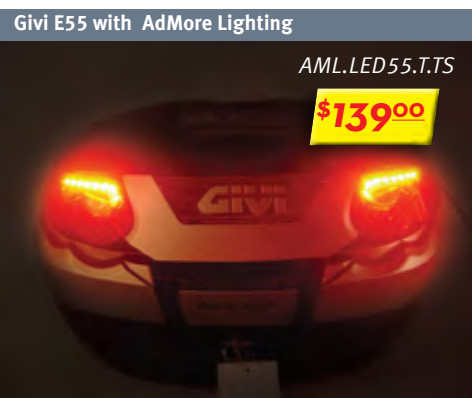

While Coocase and Givi offer basic add-on brake lights for a few topcase models, AdMore Lighting's LED conversion kits kick it up a notch. AdMore Lighting provides super-bright brake lights, running lights, and turn signals for many popular models of Givi and other hard-shelled cases.

Why use one of AdMore Lighting's LED kits? Simply put, they're brighter, consume less power, and are more durable and longer lasting than incandescent bulbs.

Each easy-to-install LED light kit includes LED light strips, wiring connectors, mini controller, and easy-to-follow instructions.

Running Light, Brake Light, and Turn Signal Kits

Installation of brake, running, and turn signal kits requires drilling a hole in your Givi case to accommodate AdMore Lighting's proprietary wiring connector (drill bit included).

Mini Kits with running and brake lights only

Do you already have an original Coocase or Givi brake light kit and want to upgrade to a brighter LED brake light/running light? AdMore Lighting Mini Kits retain your case's quick-release hands-free connector and install without drilling any holes in your case! Mini Kits require an existing Coocase or Givi brake light and do not provide turn signal functionality.

Case	Orientation	Function	Part Number	Price
Coocase S48 & S50*	Topcase	running/brake only	AML.LED48.CC.TM	\$69.00

*Compatible with S48 and S50 Volt cases only

Self Adhesive Flush-Mount LED Running, Brake, and Turn Signal Kits

Our flush-mount LED kits transform your two-wheeled stealth fighter into a blazing ball of light that no mortal eyes can miss. While designed primarily for installation on the flat rear surfaces of aluminum sidecases or topcases, these LEDs can be installed on any flat surface. The kit's dual-intensity (high and low) LED strips are clear when turned off, but bright red when energized.

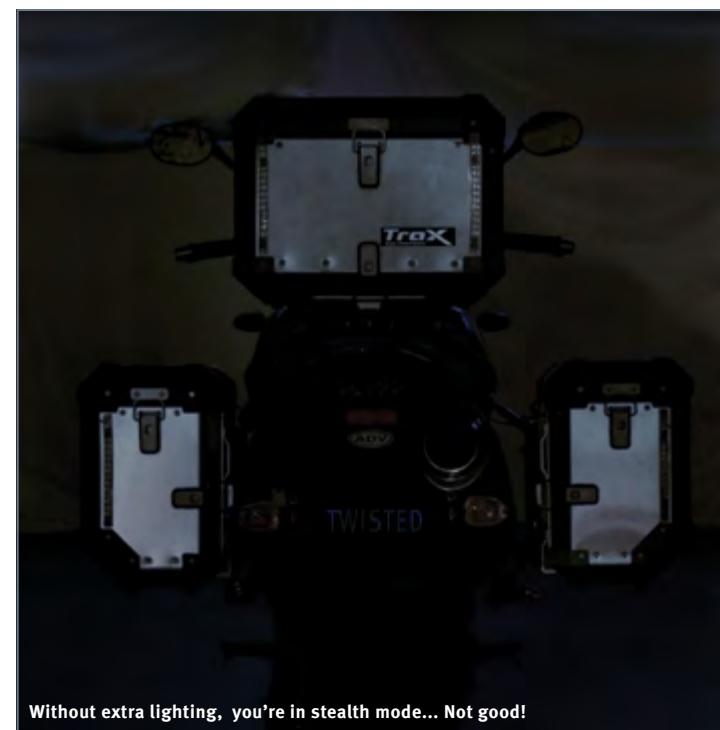

The kit is easy to install. Each kit contains two self-adhesive high-intensity weatherproof LED strips and a mini-controller harness for splicing into your running, turn signal, and brake light wires. The mini controller fits neatly under your seat or behind the taillight assembly. The kit includes a quick-release mechanism so the wiring won't interfere with the removal of your cases. The LEDs glow at low intensity when riding, brighten when you apply your brakes, and flash at high intensity with your turn signal lights.

Bicolor (amber turn signals)
Sidecase set: AML.LED1614.S.TS \$159.00
Topcase set: AML.LED1614.T.TS \$149.00

Single color (bright red turn signals)
Sidecase set: AML.LED.4014.S.TS \$129.99
Topcase set: AML.LED.4014.T.TS \$119.99

What's in the box? Yeah. This is in the box.

AdMore LED Flush-Mount Turn Signals maximize your visibility to approaching vehicles by adding these high powered amber LED light strips to your bike's luggage, mirrors, handguards or any other flat surface.

Great for any front or side facing application (amber is not legal in most states as a rear running light). Micro-controllers are included to provide integrated running and turn signal functionality. Fully weatherproof and only 3/8" wide.

4.5" long- AML.LED.2711.Y: \$79.00

Steel Topracks are a rugged, inexpensive way to mount your hard or soft luggage, or even a RotopaX fuel tank. Steel Topracks are bike-specific and are shaped to follow the lines of your bike.

Steel Topracks are a permanently-mounted flat luggage rack with pre-drilled holes for mounting a variety of hard luggage cases. There are also plenty of tie-down slots for strapping soft luggage to your bike. A Steel Expansion Rack is available that creates a large, sturdy surface for larger luggage items.

One of the great things about the Steel Rack is its versatility. Steel Racks accept TraX, Pelican, DrySpec, or Givi topcases, as well as RotopaX auxiliary fuel tanks with additional adapter hardware. You can even mount certain tankbags that have the QUICK-LOCK tanking system. Adapter hardware is sold separately.

Steel Topracks are bike-specific. See pages 192-269 to find a Steel Toprack that fits your motorcycle.

Seat Rack

New for 2014 from SW-MOTECH is the Seat Rack. Made of 4mm aluminum and powder coated black, the Seat Rack replaces the passenger seat and uses the same locking mechanism. Installation is as easy as removing the passenger seat and clicking the seat rack in. That's it!

The seat rack features strap holes for securing rear bags, dry bags or whatever you might carry. It's also pre-drilled for an SW-MOTECH Bags Connection QUICK-LOCK tanking allowing you to use any flat-bottomed Bags-Connection QUICK-LOCK Tankbag as rear luggage (holes are sealed with rubber plugs). The underside of the seat rack has a foam rubber seal to keep dirt and water out.

No modification to the bike is necessary.

Starting At
\$189⁹⁹

Seat Racks are bike-specific. See pages 192-269 to see if one is available for your motorcycle or visit TwistedThrottle.com.

Mounting Points for QUICK-LOCK Sidecarriers

Narrow Bike Profile

QUICK-LOCK EVO Sidecarriers are used to attach Aero, TraX, Pelican, Hepco & Becker, Shad, Krauser, DrySpec or Givi sidecases to your motorcycle. When not using your sidecases, the sidecarriers can be removed in seconds to retain the bike's original appearance.

Features:

- Removable, narrow luggage carrier for many types of side luggage.
- Sidecarrier attaches and detaches from the bike in seconds.
- Robust, tubular mild steel construction.
- Sidecarriers can be used to prevent soft saddlebags from getting burned on your exhaust or caught on your rear wheel.
- Optional keyed locking QUICK-LOCK fasteners are available to prevent removal of sidecarriers.
- Hard-bolt kits available for permanent, rigid and strong mounting to withstand rough off-road riding.

Simply put, SW-MOTECH Sidecarriers provide the best warranty, heaviest duty construction, and most precise fit you can buy. While other racks are great for light street use, SW-MOTECH provides the best rack for years of on and off-road abuse.

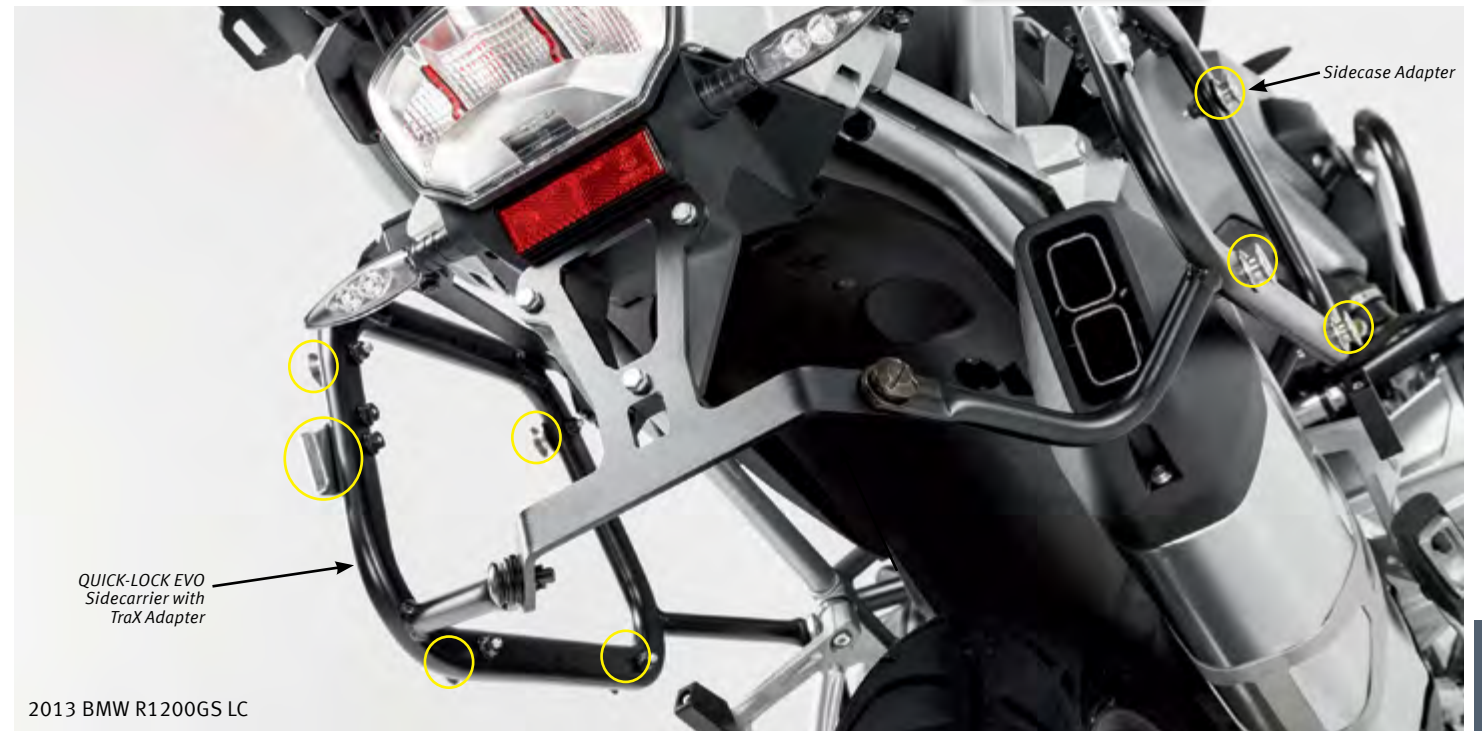

EVO Sidecarriers are bike-specific.
See pages 192-269 to find a sidecarrier that fits your motorcycle.

Adapters Starting At \$25.99

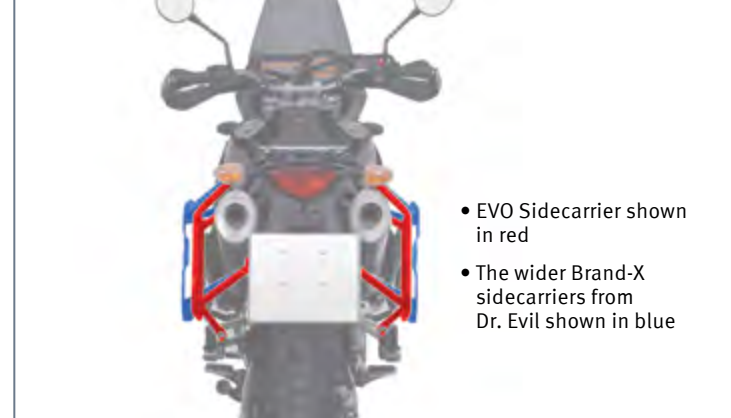

Sidecase Adapter Kits are necessary for attaching your luggage to the QUICK-LOCK Sidecarriers. Each adapter is specific to the brand of luggage you're attaching to your EVO Sidecarriers. Adapter kits are available for TraX, Aero, Pelican, Givi, Kappa, Hepco & Becker, Krauser, DrySpec and Shad sidecases. Adapters are sold separately from sidecarriers and sidecases. **Note:** There are different adapters for the older "Original" style carriers and the newer "EVO" style carriers.

Thumb-sized mounting points remain on the bike when carrier is removed

EVO Sidecarriers are narrower than most other brands of sidecarriers

- EVO Sidecarrier shown in red
- The wider Brand-X sidecarriers from Dr. Evil shown in blue

Carriers and adapters sold separately

TraX EVO ALU-BOX: the ultimate in durable, dependable luggage.

- Compatible with QUICK-LOCK EVO Sidecarrier, QUICK-LOCK Sidecarrier, ALU-RACK, Steel Toprack, and most tubular topracks.
- Secure, stable construction.
- 1.5mm thick aluminum plate.
- Durable stainless steel mounting hardware.
- Sidecases include 4 tie-down points.
- Black cases have a powdercoated interior to protect your belongings from getting smudged with aluminum oxide.
- Sheet metal construction with no-pierce, super-strong, rivet technology (the same technology that holds Audi TT frames together) for superior strength and water resistance.
- Hinges function as lid-stays.
- Strong polyamide composite corners.
- Includes dry bag liner bags.

Cable lid stays also available. Each set includes 2 lid stays suitable for one TraX case ALK.00.165.30300.B: \$32.99

Universal Adapter Plate for mounting TraX Topcases

\$99⁹⁹

The TraX Universal adapter plate is used for mounting a TraX Topcase directly to flat original and aftermarket rear luggage racks. GPB.00.152.165

- Easy attachment and detachment of the TraX Topcase.
- The plate provides a flat, stable surface that can be used as a solid top rack when the topcase is not needed.
- Constructed of steel, powder coated black.
- Includes mounting hardware and instructions for attaching to generic tubular-steel flat rear luggage racks.

NOTE: This plate cannot be used if your bike does not already have an existing tubular-steel flat rear luggage rack.

Shown on BMW R1200GS Adventure '06-'13

DrySpec H36 Sidecases

Protect your gear from water, dust and impact with the DrySpec H36 sidecases.

Designed for extreme survivability, the DrySpec H36 waterproof 36 liter motorcycle case is military approved and rugged enough to take whatever abuse your adventures will dish out. Molded from lightweight impact-resistant polypropylene resin with rounded corners and thick wall construction to absorb impact, the high performance gasket, stainless steel hardware, and lever latching system keep water and dust out of your gear. This is DrySpec. This is what we do.

- 36 liter capacity to keep your adventure well stocked
- Waterproof rated for submersion at 3 feet for 30 minutes
- Impact resistant construction is designed to take abuse and protect your gear
- Lockable with 2 padlockable hasps molded directly into the case
- High performance gasket for years of dry and dust free contents
- Automatic pressure release allows opening of case in changing atmospheric conditions and altitudes
- Soft grip foldable carry handle makes moving your gear to and from your bike comfortable
- Lever latching system provides powerful & secure closures
- Lightweight, impact resistant polypropylene resin construction will never corrode

Specifications:

- Exterior: 21.7" x 16.9" x 8.5" (55.7cm x 42.9cm x 21.6cm)
- Interior: 20" x 14" x 8" (50.8cm x 35.6cm x 20.3cm)
- Weight: 8.4 lbs. (3.8kg)
- Lid depth: 2.1" (5.3cm)
- Base depth: 5.9" (15cm)
- Max buoyancy: 80 lbs. (36.3kg)

Certifications:

- ATA 300: Impact test
- ASTM D4169: Falling rain - Vibration - Drop tests
- MIL-STD-810F: Immersion test
- IP 67: Ingress protection tests (dust & immersion)

DrySpec H36 Topcase Package

Topcase Kits transform a single H36 case into a quick release motorcycle topcase. The quick release case adapters feature integrated, keyed snap locks which attach and lock your cases to your motorcycle in one simple motion. The quick release case adapter is designed to mount to SW-MOTECH ALU-RACK and Steel Topracks.

The topcase kit includes:

- (1) DrySpec H36 case
- (1) Quick-release case adapter
- (1) Keyed-alike rack lock (locks the case to your top rack)

Starting at \$219⁹⁹

Topcase Kit:
Alu-rack: DSL.H36.100.A
Steel Toprack: DSL.H36.100.S

SW-MOTECH ALU-RACK and Steel Topracks are sold separately. See pages 122-124.

DrySpec H36 Sidecase Package

Quick Release Mounting Kit for 2 sidecases

Transforms two DrySpec H36 cases into quick release motorcycle side luggage. The quick release case adapters feature an integrated keyed snap lock which attaches and locks your cases to your motorcycle in one simple motion. The quick release case adapter is designed to mount to SW-MOTECH or Givi sidecarriers.

This sidecase kit includes:

- (2) DrySpec H36 cases
- (2) Quick-release case adapters
- (2) Keyed-alike rack locks (locks the cases to your sidecarriers)
- (1) Sidecarriers mounting hardware kit (for 2 cases)

\$420⁹⁹

Sidecase Kit: DSL.H36.200

Sidecarriers sold separately. See pages 128-129.

Quick Release Mounting Kit for 3 cases

Includes three DrySpec H36 cases to create a complete luggage system with one topcase and two sidecases. The quick release case adapter is designed to mount to SW-MOTECH or Givi sidecarriers and SW-MOTECH ALU-RACK or Steel Topracks (sold separately).

The 3-Case kit includes:

- (3) DrySpec H36 cases
- (3) Quick-release case adapters
- (3) Keyed-alike rack locks (locks cases to your racks)
- (1) Sidecarriers mounting hardware (for 2 cases)
- (1) Toprack mounting hardware

Starting at \$640⁹⁹

3-case Kit:
Alu-rack: DSL.H36.100.A
Steel Toprack: DSL.H36.100.S

Universal Quick Release Case Adapter

Universal Quick Release Case Adapters

Turn your favorite Mil-spec cases, including those by DrySpec, Pelican, SKB, and Seahorse, into quick release motorcycle luggage. Simply mount the U-shaped quick release adapter to your case and mount the rack adapter hardware to your top rack or side rack. The integrated snap lock enables effortless one-handed attachment and removal of the cases.

To attach the case, just line up the bottom feet with the guides on the rack and snap the case into the lock catch. You will hear a snap as the case engages and locks to the rack. To remove the case, just turn the key and lift up.

The Quick-Release Case Adapters work on SW-MOTECH top racks and sidecarriers and Givi sidecarriers (sold separately).

Adapter dimensions: 10.5" wide by 12" tall.

Adapter only (each). Cases, top rack and sidecarriers sold separately.

- 1 Case Kit: PEL.105 \$96.35
- 2 Case Kit: PEL.205 \$176.13
- 3 Case Kit: PEL.305 \$272.48

Spacer kit for Suzuki DL650 ('04-'11) & Tiger 1050: KFA.05.00 \$9.99

Givi Monokey sidecases are waterproof, lockable, heavy-duty cases designed for use with motorcycles and large scooters. Accessories available for Givi Monokey topcases include inner nylon liner bags, brake lights, backrests, and top luggage racks that can be used to attach large bulky items (e.g., a tent or sleeping bag) to the lid of your topcase. All Givi cases can be locked, unlocked, and removed from the bike with just one key. Givi Monokey cases cannot be attached to Givi Monolock luggage carriers but are compatible with bike specific topcases and sidecarriers manufactured by Givi and SW-MOTECH (sold separately). We carry all luggage racks from these manufacturers. Visit www.TwistedThrottle.com for bike-specific fitting information!

Givi TREKKER Luggage

Available in 33, 46 and 52 liter sizes, TREKKER cases can be used as sidecases or topcases. TREKKER cases are constructed of rugged, durable plastic with a metallic finish.

Their unique design allows you the option to open either the entire lid or just the smaller upper opening. This allows easy access to gear when using the cases as sidecases WITHOUT accidentally emptying your belongings onto the pavement.

Sold individually and in pairs.

Givi TREKKER cases can be attached to your bike using topcase and sideracks by Givi or SW-MOTECH.

33L (20" x 16.2" x 9.1")

Givi TREKKER Outback Aluminum Sidecases

Designed with an emphasis on security, comfort and strength, the Givi Trekker Outback Aluminum Sidecases are available in 37 liter and 48 liter sizes with black or aluminum finish. They are ideal for the adventure motorcyclist who is looking for a rugged and great looking, long-distance enduro touring pannier.

- Aluminum construction.
- Top loading design.
- Off-road shock and stress resistant.
- Reinforced techno-polymer protection on corners.
- Thin alloy reinforcement for likely impact zones.
- Aluminum locking mechanisms
- Squared design for maximum loading capacity.
- Lockable, detachable lid.
- Same key for lid and mount release.
- Requires new CAM-Side, 4 point sidecarrier (not compatible with conventional Monokey sidecarriers).
- Available in Silver or Black finish.

NEW

DAKAR Waterproof Soft Saddlebags

Regardless of how long you ride or how hard you ride, DAKAR panniers are built to survive in the roughest conditions. The 2-layer system of the bag combines a tough exterior outer layer with a waterproof inner layer to create a super-durable drybag.

Features: waterproof velcro roll closure, preformed ABS honeycomb panel on interior for a rigid form on the side close to the bike and a lightweight bike-specific sidecarrier system.

Each kit includes:

- 2 DAKAR bags
- 2 waterproof inner bags
- 2 bike-specific sidecarriers

Volume: 32 liters per bag (64 liters total)
 Size: 13.7" x 17.7" x 9.8" (h x w x d) per bag
 Weight: 3.5 lbs. per bag
 Material: 1680 D Ballistic Nylon
 Color: Grey / Black

Sidecarrier and adapter sold separately

AERO Sidecases are innovative, rigid saddlebags with the look of soft saddlebags, but with the benefits of hard sidecases. The 25-liter AERO bags are constructed with a rigid 2.5 mm thick ABS plastic shell that is covered by a Nylon laminate. The surface looks like Ballistic Nylon soft luggage, but the case has the strength and rigidity of hard luggage while remaining lightweight (less than 13 pounds per pair, not including sidecarrier). AERO bags are mounted using the SW-MOTECH EVO, Givi, or Hepco-Becker sidecarriers with AERO sidecase adapters. Integrated locks prevent the theft of the bags.

Includes:

- Sidecases (pair)
- Waterproof inner liner dry bags (pair)
- Locking sidecarrier adapters and keys (2)
- Zipper locks (2)

Specs:

- ABS / 600 Nylon
- 25 liter capacity each (50 Liters total)
- Dimensions: 21" W x 15" T x 9.4" D (at the widest point)

The included waterproof welded tarpaulin liner bags fit perfectly into AERO sidecases to keep your stuff nice and dry. Simply wrap and connect buckles to close.

Each AERO Sidecase comes with its own Bags-Connection inner liner dry bags!

How to attach AERO Sidecases to your bike:

AERO Sidecases attach to your bike using the AERO adapter for the EVO Sidecarrier.

STEP 1

Install an SW-MOTECH EVO, Givi, or Hepco-Becker sidecarrier with Aero adapters on your bike

STEP 2

Slide the AERO sidecase onto the mounting points on the sidecarrier, clicking it into place.

STEP 3

GO RIDE!

Aero adapter for Givi sidecarriers
KFT.00.152.22700.B
sale price \$92.99

Aero Adapter	Part Number	MSRP
Aero adapter for SW-MOTECH EVO sidecarriers	KFT.00.152.22500.B	\$26.75
Aero adapter for Givi sidecarriers	KFT.00.152.22700.B	\$92.99
Aero adapter for Hepco-Becker sidecarriers	KFT.00.152.22600.B	\$92.99

Optional AERO Laptop Bag

The AERO laptop carrying bag accommodates wide-screen laptops with up to 17" diagonal screens. Maximum laptop dimensions: 15.5" x 11.5" x 1.75"

BC.HTA.00.675.1010 \$23.75

Integrated elastic straps hold your laptop bag securely in place, while the included rain liner protects the laptop from the elements.

Sidecarriers (sold separately) are bike-specific - see pages 192-269 to find a sidecarrier that fits your bike.

The best quick-release sportbike saddlebag system!

Starting at
\$249⁹⁹
 per pair
 Mounting hardware included

Support arm holders bolt to passenger footpeg mounts

Support arms snap into holders in seconds

Support arms prevent movement of saddlebags

Tired of burnt straps, tire friction holes and cooked saddlebags? Bags-Connection Blaze Sport Saddlebags are the solution!

The Blaze Sport Saddlebag System features an aerodynamically-shaped saddlebag that fits many modern sport bikes. Blaze Sport Saddlebags are constructed of 1680 Ballistic Nylon. Each has a volume of 14 liters (21 liters when expanded).

What's really unique about the Blaze Sport Saddlebag system is the support arms. These quick-release arms support the saddlebags so they don't move. No more worrying about whether your sagging saddlebags are touching your hot exhaust or are about to get caught in your wheels.

When you're done riding for the day, the saddlebags and support arms can be removed in less than a minute, returning your sportbike to its original look. No funky-looking luggage carriers!

Each kit includes:

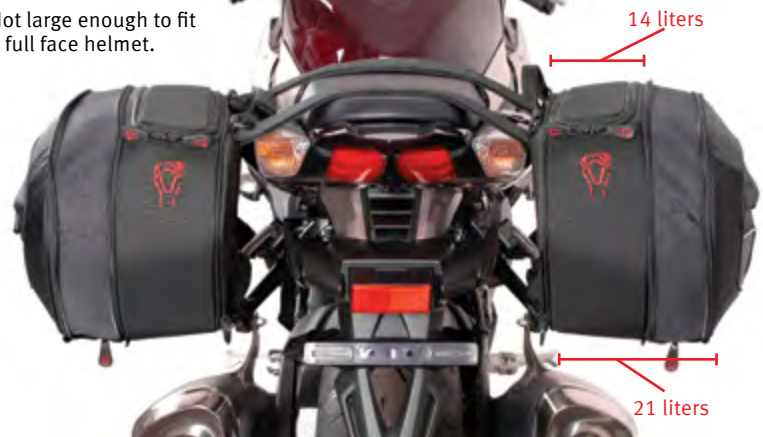

- Saddlebags (pair)
- Waterproof liner bags (pair)
- Bike-specific support arm mounts (pair)
- Bike-specific support arms (pair)

Bike-specific saddlebag kits are listed on the next page.

Each sport saddlebag expands by 70mm, providing a volume of 14 to 21 liters per bag

Not large enough to fit a full face helmet.

Turn your sportbike into a touring bike in seconds!

STEP 1

Insert the support arms into the preinstalled bracket. CLICK.

STEP 2

Slide the receiving sleeve of the saddlebag onto the support arm.

STEP 3

Secure the Velcro flaps over the passenger seat.

STEP 4

Connect the safety clip at the front end of each bag to the passenger footpeg mount. Now, you're ready to ride!

Mounting hardware is designed to provide a safe position for the Blaze Sport Saddlebags on bikes with the original factory exhaust.

Visit TwistedThrottle.com for the Blaze Sport Saddlebag System that fits your bike!

The Fastest, Cleanest Way to Mount a Tankbag

QUICK-LOCK EVO tankrings are an innovative way to mount Bags-Connection QUICK-LOCK tankbags.

Topping attaches to tankbag using through-bolts.

Tanking bolts to gas cap ring using existing threaded holes.

Features:

- Allows tankbags to be securely attached and detached in seconds.
- No magnets: works with plastic and aluminum tanks.
- No straps: won't scratch the paint on your tank.
- Tankring bolts to gas cap using included screws: no drilling or tank modification required.
- Tankring does not interfere with gas cap use.
- Location of tankbag is customizable by mounting the topping further forward or back on the bottom of the tankbag.

Topping installed on tankbag.

Once you've installed the tankring, attaching your tankbag is easy!

STEP 1 Position tankbag directly over tankring.

STEP 2 Press down on tankbag, locking it into position.

Detach the tankbag with one hand and lift it off in one second!

STEP 1 Pull cord to release locking mechanism.

STEP 2 Lift bag up.

Bags-Connection EVO Locking Kit.

Lock the bag to the bike with this zipper lock & lock pin. TRT.00.640.20000.B: \$20.25

QUICK-LOCK tankring adapter kits for fuel tanks without traditional gas cap rings

Starting At \$49⁹⁹

Does your bike lack a gas cap ring?

There are some bikes that make it difficult to mount a QUICK-LOCK tankring and tankbag. But rest assured, SW-MOTECH has the solution. With the QUICK-LOCK tankring adapter kit, you can mount SW-MOTECH Bags-Connection tankbags directly to your bike. The charts below are only a partial list of bikes that we have tankring adapter kits for. If you don't see your bike listed, please visit TwistedThrottle.com. Tankring adapter kits are available to fit both the original QUICK-LOCK topplings (see website) and the newer EVO style topplings.

Tankring Adapter Kits for Rear Luggage Racks

Want to mount a tankring to your tail section? It's easy with this rear luggage rack adapter.

ALU-RACK adapter for QUICK-LOCK EVO tankbags

Attach and detach the tankring adapter to your ALU-RACK toprack in seconds.

\$66⁹⁹

Simply fit the adapter into the rack cutout and then turn the fastener to secure the adapter to the rack. Attach your tankbag and go!

What's in the kit:

- QUICK-LOCK EVO tankring adapter
- QUICK-LOCK EVO tankring
- Mounting hardware & Instructions

See pages 124-125 for more information on ALU-RACKs (ALU-RACK sold separately).

Steel Toprack adapter for QUICK-LOCK EVO tankbags

Permanently installs a tankring onto your Steel Toprack using through bolts.

\$39⁹⁹

What's in the kit:

- QUICK-LOCK EVO tankring
- Mounting hardware & Instructions

See pages 122-123 for more information on Steel Topracks (Steel Topracks sold separately).

Compatible tankbags: Sport, Micro, and Daypack (see pages 149-150)

Add electrical power to your QUICK-LOCK EVO Tankbag!

You will need to buy a QUICK-LOCK Tankbag and an electric tankbag mounting kit for your bike. Here's how to install it:

STEP 1 Install an Electric QUICK-LOCK Tankring on your tank's gas cap.

Bolt the tankring onto your gas cap, then run the power cable under the front of the tank.

Connect the tankring's power cable to the motorcycle's battery.

STEP 2 Install QUICK-LOCK electric toping onto the bottom of a QUICK-LOCK Tankbag.

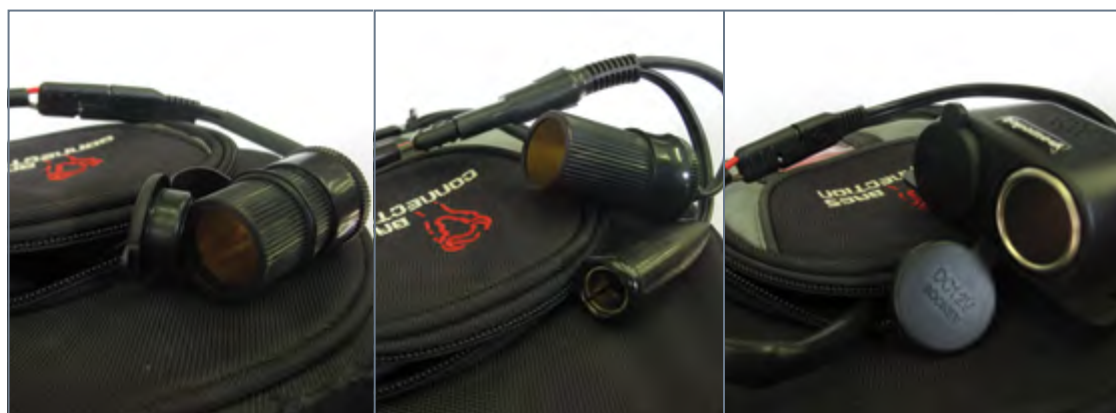

The Electric Tankring wires run up through a hole in the bottom of the tankbag and terminate in an SAE connector that allows you to charge cell phones, cameras, iPods and other gadgets through the tankbag.

The electric tankring attaches to the bottom of a QUICK-LOCK tankbag with 4 bolts. Drill a fifth hole in the bottom of the bag and pass the SAE cable through.

STEP 3 Distribute electrical power within the tankbag.

Connect an electrical socket of your choice to the SAE connector.

Single cigarette socket *EMA.00.107.10800 \$14.99* Cigarette socket & mini-Euro socket *EMA.00.107.10900 \$29.99* Dual cigarette socket *EMA.00.107.11000 \$29.99*

USB Charging Adapter

Converts a 12-Volt cigarette socket into a USB socket, allowing you to charge any device that you normally charge via a computer's USB port.

Single USB 1 amp: *EMA.00.107.11200: \$14.99*

Single USB 2.1 amp: *POW.AAC-006: \$19.95*

Dual USB 1 amp: *MICROCBRUSBUDUAL: \$19.99*

Mounting Options for QUICK-LOCK Tankbags:

	Non-Electric EVO Tankring Buy this if you want to attach a non-electric QUICK-LOCK EVO tankbag to your motorcycle. (Tankbags sold separately).	Electric EVO Tankring Buy this if you want to have the ability to charge and run electronic devices in your QUICK-LOCK EVO tankbag.	Non-Electric ION Electric Tankring Buy this tankring if you are buying or already have a Bags-Connection ION tankbag. (The ION tankrings cannot be electrified).

Fit kits for other tanks	Notes	Part No.
Adjustment kit for curved tanks	Allows easier attachment/detachment to steeply sloped tanks by lowering the rear slots in the tankbag. Useful for installation on ST1300, Tiger 1050, most BMW K-bikes, and many others. Necessary for ION tankbags only.	TWT.TRT.00.005.100
Drill-on electrical bottom tankring kit	For BMW F650GS & F650GS/Dakar, '07, F800S, F800ST, & Buell Ulysses.	Type 100 EVO
Electrical Tankbag Accessories	Notes	Part No.
QUICK-LOCK Electrical Topring	For use with corresponding old style (gray color) electrical bottom tankring.	TRE.00.475.102
Splitter (bullet connector style)	Allows connection of an additional socket inside tankbag (sold separately).	TT-00005
SAE Adapter	For use with splitter (sold separately). Converts original bullet connectors within an electric tankbag into an SAE connector.	TT-00004

Electric Tankbag Upgrade Kits

Upgrade from a non-electric tankring with this kit (call to order).

Kit Includes:

Electric Topring

This electric topiring replaces the non-electric tankring included when you purchase a Bags-Connection QUICK-LOCK EVO tankbag so that it can be used with an electrified tankring.

SAE adapter

Converts the bullet connectors on the QUICK-LOCK EVO Electric Tankring into an SAE connector.

QUICK-LOCK EVO Electric Bottom Ring Adapter

Replaces an insert in your existing EVO tankring and connects to your bike's electrical system. Compatible with all QUICK-LOCK EVO tankrings.

(QUICK-LOCK tankbag and electrical sockets sold separately).

TRE.00.640.10200.B: \$149.99

The BAGS-CONNECTION product line of tankbags sets a new standard for quality and refinement in motorcycle touring luggage. Using durable materials with smart features, these premium-quality bags fit perfectly on a wide variety of motorcycles.

Bags-Connection bags will provide years of service and just may be the last motorcycle luggage you ever buy.

Tankbag Features

All tankbags include a weather-proof interior liner or a rain cover with a clear map window.

GPS mount sleeves provide a secure and quick way to add a GPS mount to your tankbag. Included on all tankbags except the Micro. GPS mounts sold separately (see page 156).

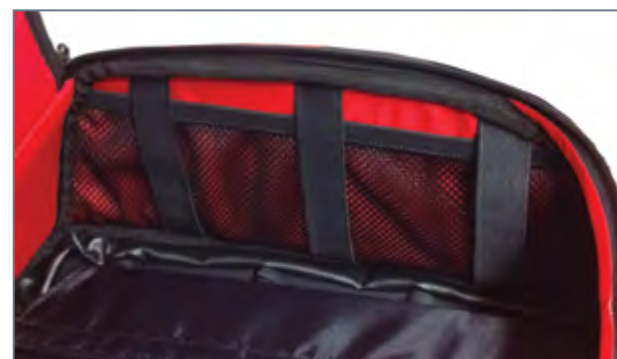

All bags have cable pass-throughs. The forward cable pass-through can be used to run GPS/gadget wires, and the rear pass-through can be used for headphone cables or a hydration tube.

Interior lid organizer; configuration varies among bags.

Need more space? Unzip the expansion zipper and increase the volume of your bag!

Keep the interior tidy with sidewall pockets (both sides of the bag) and elastic cable organizer straps (right side).

Lock the bag to the bike with the available lock pin and zipper lock (see page 169).

Super durable 1680 Ballistic nylon has higher abrasion and tear resistance than most materials found in armored riding jackets.

Zipper keepers prevent zipper pulls from flapping around. Say that 5 times fast!

Sport QUICK-LOCK Tankbag

This large tankbag fits wide flat tanks found on modern sportbikes, including most Honda CBR, Kawasaki Ninja, Suzuki GSX-R, and Ducati supersport models.

- Volume 14-21 liters
- 15.75" long x 13.4" wide x 6.7" tall
- Includes rain cover, QUICK-LOCK topring, and shoulder strap
- Carry handle on front of bag

*Note: This bag will also work as a tailbag (see page 145).

Non-Electric: BC.TRS.00.101.2000
Electrified: BC.TRE.00.101.2000

Starting At \$254⁹⁹

Integrated GPS Mount Sleeves (bracket sold separately).

Expands to 21 liters

Interior lid and wall organizer pockets

Micro QUICK-LOCK Tankbag

This **extra-small** tankbag fits all tanks and provides just enough storage for your wallet, sunglasses, and a few other small items.

- Volume 2.5-5 liters
- 10.6" long x 8.3" wide x 4.3" tall
- Includes rain cover and QUICK-LOCK topring

*Note: This bag will also work as a tailbag (see page 145).

Non-Electric: BC.TRS.00.110.2000
Electrified: BC.TRE.00.110.2000

Starting At \$99⁹⁹

Expands to 5 liters

*Note: The Micro is the only EVO tankbag that does not have the integrated GPS mount sleeves at the front of the bag.

Engage QUICK-LOCK Tankbag

This **medium-sized** tankbag looks great on slightly sloped tanks found on many naked sportbikes, including Ducati Monster, Kawasaki ER-6n, and Triumph Street Triple.

- Volume 7 liters
- 14.2" long x 10.6" wide x 5.1" tall
- Includes rain cover, QUICK-LOCK topring, and shoulder strap

Non-Electric: BC.TRS.00.107.2000
Electrified: BC.TRE.00.107.2000

Starting At \$189⁹⁹

Integrated GPS mount sleeves bracket sold separately (See page 156).

Optional map holder

Included rain cover

Daypack QUICK-LOCK Tankbag

This **small** tankbag fits all tanks and provides ample room for a wallet, sunglasses, and other basics for a commuting or short day trips.

- Volume 5-9 liters
- 11.8" long x 8.3" wide x 5.9" tall
- Includes rain cover and QUICK-LOCK topring

*Note: This bag will also work as a tailbag (see page 145).

Non-Electric: BC.TRS.00.108.2000
Electrified: BC.TRE.00.108.2000

Starting At \$129⁹⁹

Integrated GPS mount sleeves (bracket sold separately).

Expands to 9 liters

Trial QUICK-LOCK Tankbag

This **large** tankbag fits the same bikes as the Engage, and is also popular on the Suzuki V-Strom and other dual-sport bikes with slightly sloped tanks.

- Volume 15-22 liters
- 15" long x 13" wide x 7.5" tall
- Includes rain cover, QUICK-LOCK topring, and shoulder strap

Non-Electric: BC.TRS.00.102.2000
Electrified: BC.TRE.00.102.2000

Starting At \$229⁹⁹

Integrated GPS mount sleeves bracket sold separately (See page 156).

Expands to 22 liters

City QUICK-LOCK Tankbag

This best selling **medium-sized** tankbag fits well on the steeply sloped tanks found on many dual-sport bikes, including the BMW R1200GS and Triumph Tiger 1050.

- Volume 11-15 liters
- 14.1" long x 11" wide x 7.9" tall
- Includes rain cover, QUICK-LOCK topring, and shoulder strap

Non-Electric: BC.TRS.00.104.2000
Electrified: BC.TRE.00.104.2000

Starting At **\$219⁹⁹**

Integrated GPS mount sleeves bracket sold separately (See page 156).

Enduro Strap-mount Tankbag

This **medium-sized** tankbag fits well on the steeply sloped tanks found on many dual-sport bikes, including the BMW R1200GS and Triumph Tiger 1050.

- Volume 13-22 liters
- 14.2" long x 13" wide x 9" tall
- Includes weatherproof inner bag (instead of rain cover), fitting straps with retention loop, and tank-protection film
- Can be used as a backpack

BC.TRS.00.130.1000

\$199⁹⁹

Interior lid and sidewall organizer pockets

Enduro LT Strap-mount Tankbag

This **small** tankbag stays out of your way when standing on the footpegs during dirt riding. Perfect for smaller dual sport bikes like the Suzuki DR-Z400 or KTM 690 Enduro R. Also good for larger bikes like the BMW F800GS if you're the kind of guy that uses an adventure bike for motocross riding.

- Volume 5-7.5 liters
- 8.3" long x 8.3" wide x 6.7" tall
- Includes weatherproof inner bag (instead of rain cover), QUICK-LOCK topring, and shoulder strap
- Can be used as a backpack

BC.TRS.00.131.1000

\$124⁹⁹

Interior lid and sidewall organizer pockets

GS QUICK-LOCK Tankbag

This **large** tankbag suits riders that want to carry EVERYTHING on their tank. Originally designed for the R1200GS, this tankbag fits many large adventure bikes.

- Volume 16 - 22 liters
- 16.1" long x 12.2" wide x 9.8" tall
- Includes rain cover, QUICK-LOCK topring, and shoulder strap

Non-Electric: BC.TRS.00.103.2000
Electrified: BC.TRE.00.103.2000

Starting At **\$259⁹⁹**

Interior lid and sidewall organizer pockets

The new ION series from Bags-Connection are budget minded tankbags that are not built on a budget. Simplicity saves you money, but doesn't lessen durability!

ION 1 QUICK-LOCK Tankbag

The ION 1 is a **small, expandable tankbag** that is loaded with many of the same features as the higher priced EVO bags with 600D polyester material, expansion zippers and interior pockets. The ION 1 fits most tank shapes and is perfect for quick trips where you don't need a lot of storage space.

- Volume 5-9 liters
- 11.8" long x 8.26" wide x 5.9" tall
- Includes rain cover and ION QUICK-LOCK topring (bike specific tankring sold separately)

Interior lid and sidewall organizer pockets

Cable pass-through on front of tankbag

*Note: ION tankbags cannot use electric tankrings and lack the integrated GPS mount sleeves of the other Bags-Connection tankbags.

BC.TRS.00.201.10000

\$109⁹⁹

Bottom zipper expands volume from 5 liters to 9 liters

ION 2 QUICK-LOCK Tankbag

The new ION 2 is a **medium-sized, expandable tankbag** that is perfect for long tours with a max capacity of 20 liters. The ION 2 fits perfectly on most tanks and includes features such as tough 600D polyester construction, reflective piping carry handle and map window.

- Volume 13-20 liters
- 15" long x 10.2" wide x 6.7" tall
- Includes rain cover, ION QUICK-LOCK topring, and shoulder strap (bike specific tankring sold separately)

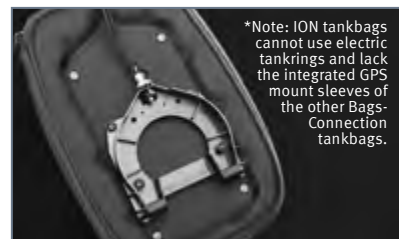

BC.TRS.00.202.10000

\$154⁹⁹

Expands to 20 liters

*Note: ION tankbags cannot use electric tankrings and lack the integrated GPS mount sleeves of the other Bags-Connection tankbags.

ION 3 QUICK-LOCK Tankbag

The new ION 3 is a **large bag** that fits perfectly on tanks that are slightly curved and is perfect for longer trips where you need more storage space than the ION 1 or ION 2. The ION 3 is constructed from 600D polyester and features interior compartments, large map window, dual external side pockets and reflective piping.

- Volume 15-22 liters
- 15" long x 13" wide x 7.5" tall
- Includes rain cover, ION QUICK-LOCK topring, and shoulder strap (bike specific tankring sold separately)

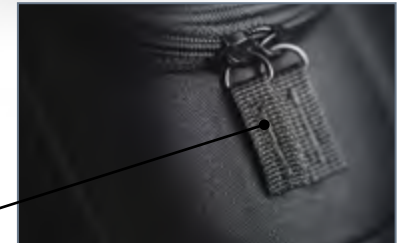

BC.TRS.00.203.10000

\$164⁹⁹

*Note: ION tankbags cannot use electric tankrings and lack the integrated GPS mount sleeves of the other Bags-Connection tankbags.

Front cable pass-through

Large zipper pulls for gloved hands

ION 4 Strap-mount Tankbag

The new ION 4 is a **medium-sized bag** that fits perfectly on most enduro & dual sport tanks and is perfect for longer trips where you need a little extra storage space. Circular zipper connects base panel to tankbag, simply unzip for removal and easy refueling.

- Volume 13 - 22 liters
- 14.2" long x 13" wide x 9" tall
- Includes weatherproof inner bag instead of rain cover

BC.TRS.00.204.10000

\$139⁹⁹

*Note: ION tankbags lack the integrated GPS mount sleeves of the other Bags-Connection tankbags.

GPS/Phone/Radar Bracket

Features:

- The GPS/PDA bracket slides into two sleeves at the front of the tankbag.
- For use with:
 - all Bags-Connection device pockets (below),
 - all RAM, Garmin Zumo, and TomTom Rider device cradles (see pages 100-103)
 - all other device cradles with an AMPS hole pattern (see page 105).

Dimensions: 6.25"L x 4.5"W x 1.5" deep
BCK.GPS.00.010.100: \$39.99

Simply slide the bracket into the sleeves on the bag and snap.

Fits the following SW-MOTECH/Bags-Connection tankbags:

- Daypack
- Engage
- Trial
- Sport
- City
- GS
- Enduro
- Enduro LT

See pages 148-152 for QUICK-LOCK Tankbags.
NOTE: Does not fit ION tankbags.

Gadget Pouches and Dry Bags

GPS/PDA Pockets with Sun Visor

Weather-resistant, splash-proof GPS/PDA bags are perfect for navigation devices and smartphones. Bags feature a sturdy base for secure mounting and eyelets to pass-through electrical or audio cables. Mounts directly to a RAM-B-238 base, any Techmount, or any SW-MOTECH GPS holder. iPhone and Android touchscreens can be used through the clear window. The pocket's perimeter zipper makes accessing your device extremely fast, but also makes the pocket somewhat permeable to heavy downpours. If you need a 100% weatherproof solution and don't mind slower entry, use the roll-top GPS Dry Bag.

Medium Pocket fits Garmin Nuvi 30, 40, 1350, 3750, 2300LM, Tom Tom XXL 540TM, Go2435, Magellen 1424, and similar.
Dimensions: 5.7" x 3.7" x 1.4" deep

BC.GPS.00.003.1000: \$33.00

XL Pocket
The extra-large bag provides even more depth compared to the large bag. Fits some XM radios and GPS units.
Dimensions: 5.7" x 3.9" x 3.0" deep

BC.GPS.00.001.1000: \$25.00

Small Pocket
Fits Apple iPhones, Samsung Nexus, Motorola Atrix, HTC EVO 4G and similar.
Dimensions: 5.3" x 3.5" x 1" deep

BC.GPS.00.004.1000: \$29.99

Large Pocket
The large bag provides extra depth for thicker PDAs.
Dimensions: 5.7" x 3.9" x 1.8" deep

BC.GPS.00.002.1000: \$30.00

GPS Dry Bag
100% weatherproof (not submersible)
Fits Apple iPhones, Samsung Nexus, Motorola Atrix, HTC EVO 4G and similar.
Dimensions: 5.3" x 3.5" x 1.2" deep

BC.GPS.00.005.1000: \$25.00

Dry Bag Device Holders for Bags-Connection Tankbags

These roll-top welded dry bags are sized to hold your smartphone or tablet and are 100% weatherproof (not submersible). The dry bags can be securely connected to all Bags-Connection tankbags except the Micro, ION 1 and ION 2. iPhone and Android touchscreens can be used through the clear window!

Tablet Dry Bag

Holds an Apple iPad!
BC.TRS.00.151.1000: \$44.99

iPad 2 inside Tablet Dry Bag. Shown mounted on the BC Sport EVO Tankbag.

Smartphone Dry Bag

Holds all Apple iPhones and most Android smartphones.
BC.TRS.00.152.1000: \$31.00

Smartphone Dry Bag shown mounted on an BC Engage EVO Tankbag with iPhone 4s inside.

Map Pouch for Bags-Connection Tankbags

Map Holder for QUICK-LOCK Tankbags

Fits the following tankbags: Daypack, Engage, Sport, Trial, Enduro, Enduro LT, City, GS, ION 3 and ION 4.

Dimensions:
Exterior - 10"W x 10.5"L
Interior - 9.5"W x 10"L

BC.TRS.00.150.1000: \$34.99

*Note: Map Holder is equipped with a touch sensitive membrane that allows gadgets like iPhones and Android smartphones to be operated when in map pouch.

Waterproof Dry Bag Liners for Bags-Connection Tankbags

While all SW-MOTECH Bags-Connection tankbags feature either a weatherproof, seam-sealed rain cover or inner liner, water can be a diabolical thing. It always seems to find a way to get in. For riders who travel in extremely wet conditions, these tankbag liners offer 100% waterproof security for your electronics and other items. Dry bags feature roll top closure, waterproof tarpaulin PVC material and custom fit for specific tankbags.

"Highbeam" Mini Flashlight

This compact, rechargeable 35 lumen LED flashlight NEVER needs batteries. The Highbeam charges in any 12-volt power socket (cigarette lighter) and glows red when charging. Just turn the bezel clockwise to activate the LED, and turn the bezel counter-clockwise to turn off. The Highbeam is constructed with anodized aircraft grade aluminum and is weather-resistant.

Flashlight requires full sized cigarette socket.

It's only 2 inches long! Recharges in your tankbag's cigarette socket.
NEB.HB: \$9.99

A perfect tankbag lighting solution!

Slipstream

- Volume: 13 liters
- Dimensions: 14" long x 13" wide x 8.5" tall
- Includes waterproof inner bag, 4 elastic bungee cords, 2 backpack straps, and tank-protection film

Fits on:
 - Most rear seats
 - Larger rear luggage racks

DrySpec D20 Saddle Bag Set

NEW

The D20 saddlebag set is constructed of RF welded 22oz. vinyl that guarantees 100% waterproof performance even when submerged. Unlike all other saddlebags, the D20's interchangeable center strap is the core innovation that allows the bags to be so versatile. The bags mount directly to a bike with or without sideracks and can attach directly to other D-Series dry bags. Use the Velcro center strap for convenience, the solid nylon strap for extremely muddy conditions, or remove the center strap all together to mount the bags directly to a D28 or D38 dry bag. Mounting the D20 saddlebags to the D28 or D38 dry bag is the ideal solution for riders who want the extra storage but can't mount traditional saddlebags due to high exhausts.

Features:

- Modular packing (mates with D28 and D38)
- Universal slip-lock mounting straps (included)
- Interchangeable center straps (Velcro or solid nylon)
- Mounts with or without sideracks
- Retroreflective logo
- Available in black, orange, or gray

Specs:

- 40 liters (20 liters each side)
- 100% waterproof (Radio Frequency Welded Seams)
- 17" long x 6" wide x 12" tall
- 22oz Vinyl & coated Cordura

\$149⁹⁹

DSL.D20.10000

DrySpec D28 Dual-End Dry Bag

NEW UPDATED

Gray

The D28 is constructed of RF welded 22oz. vinyl that guarantees 100% waterproof performance even when submerged. Unlike other dry bags, the D28 features a dual-end roll design that allows access to belongings from either end of the bag without having to disconnect the mounting straps. The D28 is perfect by itself for short trips, but is the ideal add on bag for a D38 or your existing sidecases.

Features:

- Dual-ended opening
- Modular packing (mates with D20 and D38)
- Universal quick release mounting straps (included)
- Mounts with or without toprack
- Infinitely useful daisy chain mounting strip
- Retroreflective logo
- Strap keepers to secure excess webbing
- Available in black, orange, or gray

Specs:

- 28 Liters
- 100% waterproof (RF Welded Seams)
- 22" long x 9" wide x 9" tall
- Welded carry handle
- 22oz Vinyl & coated Cordura

Black

Get creative! Use the D28 as an expansion bag for your sidecases.

\$74⁹⁹

DSL.D28.10001

DrySpec D38 Rigid Dry Bag

NEW UPDATED

Gray

The D38 is constructed of RF welded 22oz. vinyl that guarantees 100% waterproof performance even when submerged. The D38 features a rigid core that enables the bag to be mounted to any bike, with or without a top rack, even when the bag is completely empty. Try that with a traditional dry bag! The rigid construction and unique 4-point strap mounting system work together enabling easy access to contents without loosening straps or removing the bag from the bike.

Features:

- Rigid Core Construction
- Modular packing (mates with D20 and D28)
- Universal slip-lock mounting straps (included)
- Mounts with or without toprack
- Infinitely useful daisy chain mounting strip
- Retroreflective logo
- Adjustable & detachable carry handle
- Strap keepers to secure excess webbing
- Available in black, orange, or gray

Specs:

- 38 Liters
- 100% waterproof (RF Welded Seams)
- 22" long x 12" wide x 9" tall
- 22oz Vinyl & coated Cordura

Black

Orange

No rack needed!

\$139⁹⁹

DSL.D38.10001

Modular packing has significant advantages over a single bag of the same volume. The Denali Modular system makes packing and organizing your gear easier, allows for quicker access to your gear, and enables strategic separation of your gear. Keep your clean clothes separate from your wet tent. Each D-Series bag is also designed to mount directly to your bike. It's like getting three different bags in one.

DrySpec D66 Modular Packing System

Gray

The D66 includes one D28 and one D38 dry bag to create 66 liters of 100% waterproof storage.

Use the D28 on local trails, strap on the D38 for around town, or connect the D66 for longer adventures.

MSRP: \$214.98

NEBO Highbeam™ Rechargeable Flashlight

No Batteries!

The Highbeam is a compact, rechargeable 35 lumen LED flashlight that NEVER needs batteries. Casting a soft light for short-distance campsite illumination or nighttime reading, the Highbeam charges in any 12-volt power socket (cigarette lighter) and glows red when charging.

Features

- High-power LED outputs 35 lumens of light (rated for 110,000+ hours of life)
- Anodized aircraft grade aluminum
- Waterproof
- Available in blue, gray, pink, brown, green and black
- Compact (measures 2.5" long x 0.75" diameter)

\$999

LED glows red when charging

NEBO REDLINE® Tactical LED Flashlight

High-end technology in a compact, extremely powerful light!

The REDLINE® is exceptionally bright with 220 lumens of pure white light! To put the power of this flashlight in perspective, anything above 50 lumens within a 10 yard distance may cause temporary blindness. 3 AAA batteries are included, eye patches are not. The REDLINE®'s adjustable wide angle lens adjusts from a floodlight that illuminates everything within 20 yards, to a spotlight with a 150 yard range.

Features

- Output of 220 lumens of light
- 0.428 lbs.
- 4 hours at 100% illumination
- 8 hours at 50% illumination
- Aircraft grade aluminum
- 4.5" long x 1.25 diameter
- Water-resistant

REDLINE® (NEB.5610) has 5 modes:

- 100% - 220 lumens
- 50% - 110 lumens
- 10% - 22 lumens
- S.O.S. mode - 220 lumens
- Defensive strobe mode - 220 lumens

REDLINE® Bike Light (NEB.5624) has 3 modes:

- 100% - 220 lumens
- 50% - 110 lumens
- Defensive strobe mode - 220 lumens

NEBO REDLINE RC300 Rechargeable LED Flashlight

Big power and no batteries!

What could be better than a 300 lumen REDLINE flashlight? The answer is a 300 lumen flashlight that you don't have to put batteries in...EVER! The REDLINE RC300 is NEBO's first fully rechargeable flashlight.

Integrated with a heat-sink design, anodized aluminum body and aggressive face, the RC has everything that you'd expect a REDLINE to have. The RC comes with 2 adapters (AC & DC) to charge the light anytime, anywhere. Not only is the RC300 bright but it also has an adjustable light output. Just press the button to turn the light on and hold down the button to dim the light from 100% to 10% brightness.

Features

- High power 300 lumen LED. (Bulb rated for 110,000+ hours of life)
- Heat-sink bezel design
- Dimmable beam from 100% to 10%
- Anodized aircraft-grade aluminum water-resistant body
- Charging port
- AC wall plug charger and DC cigarette lighter charger included
- Powered by one 2000mAh rechargeable lithium ion rechargeable battery (included)
- Size - 7.4" x 1" Weight - .2 lbs.
- Run time - 2.5 hours @ 100%, 36 hours at 10% brightness
- Viewing distance - 650 feet @ 100%, 82 feet @ 10%

NEB.6007

NEBO Bat Light

Na na, na na, na na, na na, Bat Light!

Ok, it's not for signaling the Caped Crusader. It's an LED flashlight that's shaped like a small baseball bat. We hope you'll never have to use this 16.25 inch long, aircraft-grade aluminum Bat Light for self-defense, just like we hope you'll never have to use its 200 lumen LED light to fix your bike on a cold, rainy night. There's a lot of fun things the Bat Light can do, like pound in tent stakes, tenderize a steak, knock mud chunks off your bike or play an impromptu game of Wiffle Ball.

Features

- High power 200 lumen LED
- 3 power modes, 100%, 50% and strobe
- Runs on 4 AA batteries (included)
- Anodized aircraft-grade aluminum water-resistant body
- 8 hours of light at 100%
- Viewing distance - 300 feet @ 100%
- Lanyard included
- Size - 16.25" long x 1.5" diameter
- Weight - .45lbs.
- Ergonomic textured handle

NEW

Redverz Series II Expedition Tent

Base Camp Big Daddy

The Redverz Series II Expedition tent not only shelters riders, but also a motorcycle and gear out of the elements and under one roof. This is the tent you need to establish a base camp. It packs 1.9 times larger than the MSR Hubba Hubba, but its convenience is well worth it once your home base is set up- especially on wet rainy trips!

The Redverz features expedition-grade ripstop nylon floors that offer superior protection, while the double wall design of the sleeping bay helps eliminate condensation.

The spacious garage bay shelters your motorcycle and can be used as a workshop, dressing room, cooking area (no open fire, please) and sitting area.

Specs:

- 13.5 lbs.
- 30 sq. ft. (sleeping area sleeps 3)
- 61 sq. ft. (motorcycle bay)
- Peak height: 77"
- Packed size: 21" long x 10" dia.
- Non-free standing design (requires stakes)

MSR Fast Stash Tent

When talk turns to the most versatile ultralight shelters made, the Fast Stash is sure to be at the top of the list. With more than ample room for two plus gear, a full-protection, single-wall body with DuraShield™ coating pitches quickly with the included poles. Ideal for a range of conditions, the side wings can be pulled in for maximum protection, pulled out for increased air circulation and covered exterior storage, or pulled back completely exposing broad side vents for maximum, flow-through ventilation. A covered entry allows the broad front door to easily be enjoyed by two, even in the rain. Includes 2 poles.

Specs:

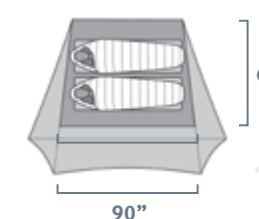

- 4 lbs.
- 36.5 sq. ft. (sleeps 2)
- 48" peak height
- Packed size: 20" long x 6" dia.
- Includes 2 poles
- Rainfly fabric: 30D ripstop nylon 1500mm Durashield polyurethane & silicone
- Floor fabric: 40D 30D ripstop nylon 3000mm Durashield polyurethane & DWR
- Single entrance, (2) internal storage pockets, reinforced guy points, and factory seam taped DuraShield-coated fabrics
- Non-free standing (requires stakes)

MSR Hubba Hubba NX Tent

The MSR Hubba Hubba 2-person tent is an ideal choice for the solo motorcyclist, with its spacious main area and dual vestibules, there is plenty of space for you and your gear to spread out and stay out of the elements. Ultra-compact and precision-engineered, the tent feels as light and efficient to use as it does to carry. From its optimized, symmetrical geometry and non-tapered floor that maximize space, down to its integrated, adjustable stake-out loops that speed setup, this tent redefines livability. Whether you're setting out to Ushuaia or Prudhoe Bay, the freestanding, 3-season Hubba Hubba tent lets you enjoy the full backcountry experience — including time spent in the tent.

Specs:

- 3 lbs. 7 oz.
- 29 sq. ft. floor area (sleeps 2)
- 17.5 sq. ft. vestibule area
- 39" peak height
- Packed size: 18" long x 6" dia.
- Rainfly fabric: 20D ripstop nylon 1200mm Durashield polyurethane & silicone

Sexy Hotness 20° Synthetic Sleeping Bag by Alite

The Sexy Hotness sleeping bag was designed to keep you warm in the Spring, Summer, and early Fall months. Well...actually...it was designed for you to have sex in while camping in the woods. (There, we said it.) Zip two or more Sexy Hotness sleeping bags together to make double or triple room. The body of the sleeping bag is wide and roomy so no claustrophobia when you zip up. Unzip the handy middle zipper to create "legs" for walking or get some air into those nether regions. Interior fleece slippers and padded bottoms make walking a reality. Perfect for when nature calls, and you don't feel like leaving the comforts of your bed. Large size weighs 3.9 lbs. Packed size is 10.5" long x 15" dia.

Features: drawstring hood, arm holes, storage & stuff sack

Medium fit folks up to 5'9", Large fits up to 6'2"

Antares 15° Down Sleeping Bag by MSR

The three-season Antares sleeping bag should handle it all – from late-season snowstorms to early frosts. The award-winning, Antares™ down sleeping bag delivers that performance in an ultralight package without sacrificing the warmth and comfort you need for a great night's rest. Additional box-baffling holds more loft and eliminates drafts, resulting in a temperature rating of 15F (-9C). The performance didn't add any weight though, keeping the Antares a lightweight sleeping bag that can go the distance on the trail. Weighs 2.2 lbs. Regular version fits people up to 6 foot tall, long version fits 6'6." Packed size is 7" dia. x 12" long.

Features: draft tubes & collar, snag free zipper, stash pocket, sculptured hood, trapezoidal footbox, storage & stuff sack

Fillo Travel Pillow

Fillo™ is our favorite travel pillow. The Fillo™ features 3" thick inflatable cells, 1" of memory foam, and a microfiber top. The Fillo™ cover is made of a velvety-soft machine-washable microfiber fabric.

NEMO.814041011426: \$44.95

The Fillo™ packs to 6" x 4" and weighs only 0.3 lbs.

An integrated shock cord allows you to add clothing to increase the height of Fillo™ for optimal neck support.

Stop & Go is the originator of the first complete roadside motorcycle tire repair kit and the brand most asked for by name - and with good reason. Pocket Tire Plugging Kits offer a lightweight, compact solution for roadside tire repairs. With innovative tire repair options for both tubed and tubeless tires, Stop & Go will get you on the road again in no time!

Pocket Tire Plugging Kit for Tubeless Tires

The revolutionary Pocket Plugging device allows you to easily install a professional style mushroom-shaped rubber plug into any tubeless tire without removing the tire from the wheel. With a turn of the included hex wrench, the Pocket Plugging device drives the plug into the offending hole. Once the plug is inserted, inflate the tire, and the plug expands under pressure to fill the punctured area. A firm pull on the plug stem with your pliers seats the mushroom head on the inner wall, allowing no air to escape. This technology insures maximum reliability while reducing your downtime in any situation, all without the use of messy liquid glues!

Includes:

- Nozzle
- Tire Plugging Device
- Probe Tool
- Reamer/Rasp Tool
- Laminated Instructions
- (15) Mushroom Plugs (5/16" diameter shaft x 3/4" length stem)
- Vinyl Zippered Pouch (7.5" x 3.5" x 1") is smaller than a 4 oz. bag of tasty beef jerky and fits under most motorcycle seats
- Hex Wrench
- Retractable Razor Knife
- Extra Zip Lock Bag
- Weighs only 12 oz!

SNG.1000: \$34.95

Automatic Tire Inflation Kit

Each of these four threaded steel canisters contains 16 grams of 100% pure, high velocity CO₂ gas. In seconds, 8-9 lbs. of inflation is discharged into your tire by each canister. The re-usable loss-less valve adapter is solid brass and allows no leakage. A full-size sport or adventure-touring motorcycle tire, generally requires all four canisters to reach 24-32 lbs. This kit is suitable for motorcycles, scooters, ATVs, golf carts, lawn mowers, and small utility tires.

Includes:

- (4) Steel Canisters containing 16 grams each of 100% pure high-velocity CO₂ gas
- Tire Valve Adapter with brass fittings
- Compact Pouch (5" x 3.5" x 1") is about the size of a wallet
- Full Instructions
- Weighs only 10 oz!

SNG.1090: \$23.95

Dynaplug Tubeless Tire Repair Kit

For the ultimate in light weight and compact size, the Dynaplug is a new take on traditional sticky worm tire patches. Engineered for repairing punctures in tubeless tires for cars, trucks, motorcycles, scooters, and more with a maximum tire thickness of 1-1/8" and a minimum thickness of 3/16" at the point of the puncture. Easy-to-use, neat and clean. No need for "reamers," messy glues or solvents. All Dynaplug products are designed to repair a punctured tire in less than a minute without taking the tire off the wheel. This plug can permanently seal the puncture hole from the inside out without compromising the tire balance.

Features:

- Plugs, insertion tip and cleaner store inside handle
- Made in U.S.A.
- Weighs only 3 oz!
- 5.4" long x 0.9" diameter

Ultralite: DPU-1229 \$29.99
 Pro-Stainless: DPP-SS-1236 \$69.99
 Pro-Aluminum: DPP-AL-1243 \$59.99
 To learn more about what's included in each kit, visit TwistedThrottle.com.

Tire Lever Set (Pair)

These heavy duty tire irons are ideal for emergency tire repair, but are also quite useful for fighting zombies. (If fighting vampires or werewolves, please call to inquire about our garlic-scented silver-plated tire levers.)

- Specially designed tip for easy tire removal
- 8" (20cm) long
- 2 levers per package
- Made of forged steel

PT.TL.5C: \$23.95

Tubed Tire Patch Kit

If you have tubed tires, don't worry - Twisted Throttle hasn't forgotten you. The Tubed Tire Patch Kit includes six patches in three different sizes, rubber cement, and an abrasive pad in a zip-lock bag.

SNG.3003: \$5.75

Stop & Go Portable Mini-Air Compressor

The Stop & Go Portable Mini-Air Compressor is a truly compact motorcycle pump at a great price. The built-in gauge allows you to monitor pressures up to 120 psi. It also comes with a built-in LED light letting you know that it is receiving power and helps you connect to the tire valve after dark. Your motorcycle tire will be fully inflated in less than 10 minutes and you'll also have the ability to fill inflatable balls & camping equipment.

Product Contents:

- Compressor unit 12V
- Built-in LED light
- Built-in gauge 0-120 psi.
- 4 inch tire valve hose
- 66 inch power cord
- 12 inch extension alligator clips
- 36 inch extension lighter adapter
- Sports needle adapter
- Inflatable adapter
- Complete instructions
- Rugged zippered carry case
- Measures 4" x 2" x 6"
- Weight: 14 oz.

SNG.RCP: \$36.95

BestRest TireIron BeadBrakR Motorcycle Tire Removal Kit

Breaking the bead, or starting the separation of the tire from the rim of modern motorcycle tires, can be a cumbersome task, especially on the trail or miles from a service provider. The TireIron BeadBrakR will provide the mechanical advantage you need to effect repair and get you rolling again on your adventure.

Features:

- Made in the U.S.A.
- Suitable for tubed and tubeless tires
- Field tested and proven on large touring motorcycles
- Take down design for compact storage
- Kit measures 2" x 5.5" x 12"
- Weighs 3.1 lbs.
- Works as sidewall lever for accessing tubes or valve stems

Includes:

- Cordura storage pouch
- 3 gold zinc plated steel 8.5" tire irons
- Corner, Plunger, Lever, and Lockbar stainless steel components for BeadBrakR
- Quick lock pins with plastic lanyard
- Sand foot for soft surface use
- Valve stem multitool for valve core removal and valve stem setting
- Rim protectors
- Tire mounting lubricant
- Instructions

BRP.TIBB.SI.Tubed: \$195.00

Oxford DigiGauge

If Spock carried an air pressure gauge, this would be it. A backlit digital display makes it the top choice for Vulcans in need of nighttime pressure readings on alien highways.

- Measures 0 to 199 PSI in 0.1 psi increments
- Displays in your choice of PSI/BAR/kPa/KG-CM²
- Rotating dual valve system: Schrader and Presta
- Bleeder valve button for pressure adjustment
- Displays the last tire pressure reading collected

OXF.OF294: \$29.95

Twisted Throttle Tire Gauge

Fancy electronic gauges are all well and good, but nothing beats the nostalgia and battery-free confidence inspired by a traditional pencil-type tire gauge. Measures pressures 0 to 50 psi. 5.75" long. Includes a fancy clip so you can attach it to your pocket protector. Don't leave home without it.

TT.AG: \$3.99

BestRest CyclePump Tire Inflator

When you need the ultimate high quality, compact motorcycle air compressor built to last (not built to a price-point) there is only one: the expedition-ready BestRest CyclePump 12v Adventure Motorcycle Air Compressor Tire Inflator.

Designed specifically for the harsh conditions and demands of adventure motorcycles, the CyclePump 12 volt motorcycle air compressor tire inflator will help to refill your tires from that unplanned flat or needed air-down to keep your trip rolling.

Features:

- 5 year manufacturers warranty
- Powerful 12 volt 10 amp electric motor
- High quality metal compressor
- Includes 12v cigarette style plug, SAE plug, terminal clips, inflation hose, and storage pouch
- Made in the U.S.A.
- Aircraft grade aluminum alloy construction
- Average fill rates of 2-3 minutes for most front tires, 3-5 minutes for most rear tires
- Suitable for tube or tubeless tires
- Rated to above 100psi
- Compressor measures 2" x 4" x 6"

BRP.CPA: \$100.00

Oxford Tool Kit

The Oxford tool kit has a useful selection of small basic tools and fits easily under most motorcycle seats.

- Carry case designed to fit under most rear seats (4" x 7" 1.25")
- Made from high quality carbon steel
- 28 piece set

Components

- Needlenose pliers
- Wire snips
- Driver with philips (#1, #2 #3), flathead (3, 4 & 5mm), Pozidriv (#1, #2 & #3) and metric socket bits (5, 6, 7, 8, 9, 10, & 11 mm)
- Allen wrenches (2, 3, 4, 5, & 6 mm)
- Mini screwdrivers (philips #0 & flathead 3mm)
- 3" long 1/4" drive extension

OXF.OF291: \$18.95

Dual-Sport Tires

Street Tires

TWISTED THROTTLE SERVICE CENTER

Tire changing and balancing is available at our retail store in Exeter, RI. Stop by on your way to Maine, Nova Scotia, and beyond! Visit www.twistedthrottle.com/factory-store/hours-directions for hours & directions.

Continental TKC80

Tried and True 80/20 dual-sport tire for bigger dual-sport bikes

Designed for large dual-sport and adventure bikes this DOT approved multi-use tire performs well both on and off-road. The TKC80 offers good road handling and mileage for long trips, while off-road, it's an able performer, with a self-cleaning tread pattern and high level side stability on soft surfaces. The TKC80 is original equipment on the BMW R1200GS Adventure and the KTM 690 Enduro R.

The **ONLY 17" FRONT knobby** on the market. Great for Supermotos, NC700X, Versys and other crossover bikes that are ridden in the dirt.

Rated from 99mph (159 kmh) to 118mph (190 kmh) depending on tire.

Starting At **\$147⁹⁵**

TKC80 - Sizes		
Front	Rear	
120/70-17	120/90-17	4.00-18

RUNNING HOT OR COLD?
All Scottoilers are designed to use two different formulations of chain oil based on the temperature range you will be riding in. It is important to use the correct oil to get the correct flow rate. The standard oil (blue label) is formulated for 32°F to 86°F. The high temp oil (red label) is made for 68°F to 104°F. If you need a different temperature oil or refills, visit www.twistedthrottle.com or call us at 855-255-5550.

Scottoil eSystem Electronic Chain Oiler

Keep the drive chain and sprockets on your motorcycle properly lubricated while you ride with the Scottoil eSystem Electronic Chain Oiler. Designed for motorcycles with 12-volt electrical systems, the Scottoil eSystem Electronic Chain Oiler will automatically lubricate and increase the life of your motorcycle's chain and sprocket.

\$279⁹⁵

Standard Temp. eSystem 32°F-86°F
SCT.SO-9005US
High Temp. eSystem 68°F-104°F
SCT.SO-9020US

- Increase chain and sprocket life up to 7 times
- Reduces chain maintenance
- Motion Sensitive
- Graphic Display
- Lubricant oil level gauge
- Adjustable flow rate
- Lubricates while you ride
- Includes 250ml bottle of chain lubricant
- Up to 1800 miles between refills
- Compatible with Traditional Blue Scottoil or High Temperature Red Scottoil
- Bike Specific Installation Guides

Scottoil vSystem Vacuum Operated Chain Oiler

Designed specifically for motorcycles with an evaporative emissions (EVAP) system, the Scottoil vSystem Vacuum Operated Chain Oiler will automatically lubricate and increase the life of your motorcycle's chain and sprocket.

- Vacuum operated
- Lubricates while you ride
- Adjustable flow rate
- 500-1000 miles between refills
- Compatible with Traditional Blue Scottoil or High Temperature Red Scottoil
- Bike Specific Installation Guides
- CARB EO certified

Dual Injector Chain Lubricant Dispenser

Improve the efficiency of your Scottoil Chain Oiler by flowing oil to both sides of the rear sprocket and chain of your motorcycle with the Scottoil Dual Injector Chain Lubricant Dispenser Accessory. Works with all Scottoilers.

SCT.SO-0035US: \$34.95

Scottoil Lube Tube Lubricant Reservoir

Designed specifically for all Scottoil Chain Oilers, the Lube Tube Chain Lubricant Reservoir Accessory increases the refill range of your Scottoil Chain Oiler by three times with a flexible silicone reservoir.

SCT.SO-0050US: \$34.95

OXFORD MAXIMISER 360T

Oxford's smart charger has multiple charging rates that analyze battery condition, check polarity, charge, "float charge", and maintain a charge for battery longevity. Suitable for all 12-volt motorcycle, car, and truck batteries.

Intelligent 12-volt battery charger won't leave you with a dead battery come spring!

7 stage charging:

1. Tests battery connection polarity.
2. Analyzes your battery and diagnoses condition.
3. Gently recovers even heavily discharged batteries.
4. Quickly charges low batteries.
5. Checks voltage retention.
6. Monitors battery condition.
7. Maintains battery with a low current if the voltage drops below a set limit.

Features:

- Choose from 3 charge rates: MOTORCYCLE (600mA), CAR/TRUCK (3600mA) or BOOST (for AGM batteries and cold weather charging).
- Backlit LCD Display shows real-time charging of both battery charge voltage and amperage.
- Battery Condition Adviser shows if the battery is able to hold charge or is in need of replacement.
- Includes alligator clips and a quick-release permanent battery hookup.
- Included wall bracket and extra long cables make for ease-of-use in your garage.

Battery Condition Indicator

Alligator clips and battery hookup included

Battery Tender Junior High Efficiency

The Battery Tender Junior High Efficiency is much more than a trickle charger. It has a brain. It's lightweight, compact, and fully automatic; very easy to use, especially in small spaces. It will keep your battery fully charged so that it is ready to go when you are!

021-0123: \$39.95

Features:

- Complete 4-step charging program (Initialization, Bulk Charge, Absorption Mode, Float Mode)
- Automatically switches to float/maintenance voltage after fully charging the battery
- Solid state two color LED indicates stage of charger
- Spark proof
- Reverse polarity protected
- 12' output cord
- Safety timer: 80 hours
- 5 year warranty

Specs:

- Input: 120VAC, 60Hz
- Output: 12 Volts DC @ 750mA
- Perfect for all lead-acid, flooded or sealed maintenance free batteries (AGM and gel cell)

SAE Battery Tender Voltage Indicator

Easier than untangling your multimeter's test leads and hunting for your bike's battery under the seat, but way smarter than just guessing what the battery's charge state is. Plugs into a standard SAE Battery Tender connector and monitors voltage on an LCD screen. Three colored LEDs indicate general charge state at a quick glance. Designed for use on all 12-volt batteries. Display voltage range is 3 to 16 volts.

021-0128: \$69.95

Battery Tender Ring Terminals-to-SAE harness

Attach rings directly to battery terminals. Length is 18" and includes fuse holder with 3 amp fuse with weatherproof cap. SAE connector plugs into Battery Tender charger, other chargers, heated gear and many electrical accessories.

212123-SINGLE: \$6.95

CLYMER®

Whether it's routine maintenance, such as tune-ups and brake service, or more extensive repairs involving engine disassembly, Clymer and Haynes manuals provide the information required to do the job. Accurate, clear and concise text, combined with detailed illustrations, exploded parts views and photography, make it possible for even the novice to service, troubleshoot and repair their motorcycle. At the same time, the in-depth coverage provides technical information for those tackling more complicated jobs.

GALFER

Steel Braided Brake Lines from Galfer

If there is one item you can get that will make an instant, noticeable improvement to your brake feel and performance, a stainless steel braided line is it! When you squeeze your brake lever and force fluid through the hydraulic line to the caliper, rubber lines expand under pressure. This means that a good portion of the effort you put forth from your hand DOESN'T get to the caliper! By switching to a stainless steel braided brake line, you reduce the line expansion. This means that your hand pressure goes directly to the caliper!

Starting At \$55.00

Galfer Kawasaki KLR650 Oversize Front Brake Kit

\$289.00

'87 - '07 KLR650 GAL.KITOS50

'08 - '13 KLR650 GAL.KITOS51

As we know, the KLR is an outstanding all-around bike. It can do pretty much anything...except stop.

The Galfer KLR Oversize Rotor Kit includes a 320mm rotor, a relocation bracket, Galfer green pads, and a steel-braided brake line. Experience a huge difference in braking power and gain new confidence in your KLR. This upgrade kit will allow you to load up your bike and use it as an adventure tourer.

Galfer KLR650 Oversize Front Brake Kit on the 2008 Twisted Throttle KLR650 Project Bike.

K&N Premium Canister & Cartridge Oil Filters

K&N's premium line of motorcycle and ATV wrench-off canister oil filters were designed to meet the high performance needs of racers. These canister style premium oil filters are designed to handle high oil pressures and can be used with the latest synthetic or semi-synthetic motor oils. K&N canister oil filters come with a 17mm nut welded to the top that makes removal easy.

- High flow rates & great filtration
- 17mm exposed nut for easy removal
- Heavy duty canister construction
- Traps 99% of harmful contaminants
- Can be used with the latest synthetic motor oils
- Drilled hole in nut for safety wire attachment

Starting At \$6.95

Visit TwistedThrottle.com for K&N oil filters that fit your bike.

K&N Replacement Air Filters

K&N air filters are designed to achieve high, virtually unrestricted air flow while maintaining filtration levels critical to ensure long engine life. K&N air filters will NOT void motorcycle warranties and are environmentally friendly by reducing the volume of disposable air filters that end up in landfills.

- Designed to provide increased horsepower and acceleration
- Pleated cotton media provides a large filtration area offering low restriction and long service intervals
- Washable & reusable, most are pre-oiled and ready to ride!
- Available for ALL motorcycles and ATVs

Starting At \$43.95

Visit TwistedThrottle.com for K&N replacement air filters that fit your bike.

K&N Recharger Kit

A six-step maintenance system designed to clean any K&N Filtercharger Air Filter. Restores air flow efficiency so your Filtercharger performs like new!

K&N's Recharger Filter Care Service Kit includes 8 oz. K&N Spray Oil and 12 oz. K&N Power Kleen Air Filter Cleaner.

99-5050: \$14.95

MOTOREX Lubricants

In business for over 90 years, MOTOREX is used by top factory race teams worldwide, by independent pros and top amateurs who demand the best performance from their machines. The complete MOTOREX line includes a broad range of synthetic engine oils, lubricants, aerosol sprays, cleaners and care products for motorcycles and ATVs. Twisted Throttle carries the complete line of MOTOREX lubricants, more than we are able to list in this catalog. Call or visit www.twistedthrottle.com for all MOTOREX products.

BMW F800GS ('08-'12)

TWISTED BMW F800GS

This GS lives up to its rugged family history, but we knew we could make it better with durable SW-MOTECH crash protection, comfortable ergonomic upgrades, and much more. Our F800GS was the grand prize for the GS Challenge held at the 2011 BMW MOA Rally in Bloomsburg, PA. Congratulations Josh!

GS Giant winner and proud new owner of the Twisted F800GS - Josh F.

Kawasaki KLR650E ('08-'14)

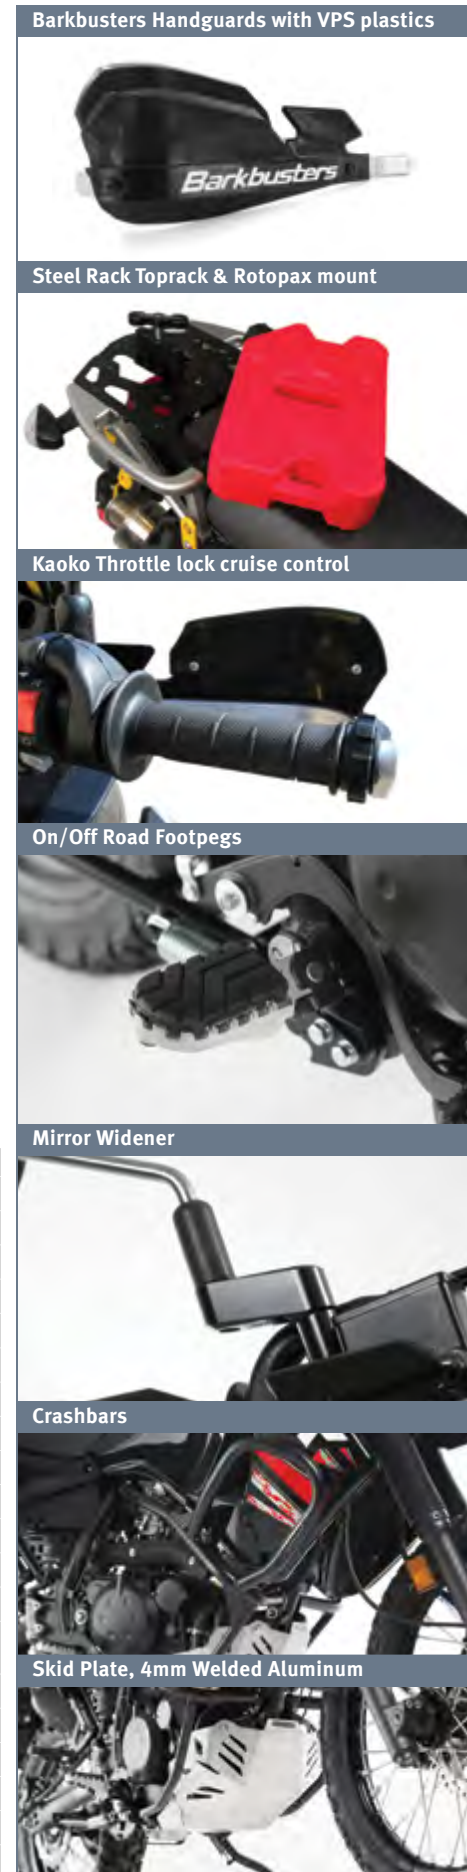

New Improved Designs!
Crashbars now bolt to frame instead of footpeg bolts for greater strength.

Skid Plate now provides taller height and more rear coverage with welded 4mm aluminum construction that is designed to give stumps a headache!

KLR650E

Suzuki DL650 V-Strom ('12-'14)

When the DL650, known by many as the "Wee" Strom, was updated in 2012, Twisted Throttle couldn't resist. We broke out the Farkle Cannon and blasted this bike with just about everything in our arsenal.

TWISTED "WEE"-STROM

Shawn, one of our Tech Reps, unloading the "patient" before her facelift.

See more at TwistedThrottle.com/2012VStrom

Triumph Tiger Explorer 1200 & 1200 XC

TWISTED EXPLORER 1200

The 2013 Triumph Explorer is a bike that grabs attention with its intimidating stance and aggressive styling. We made it even more capable of handling the roughest terrain by outfitting it with products that provide greater protection, as well as goodies that increase comfort and expand its carrying capacity. This Explorer can now live up to its name with confidence.

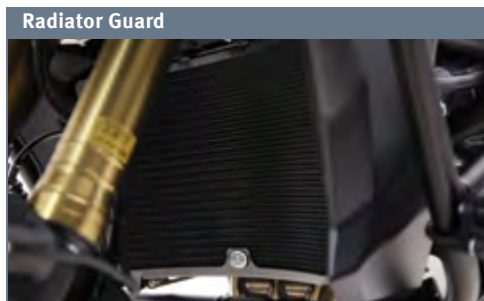

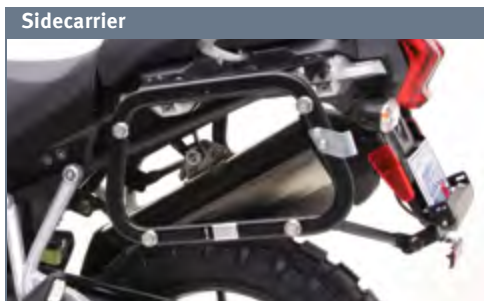

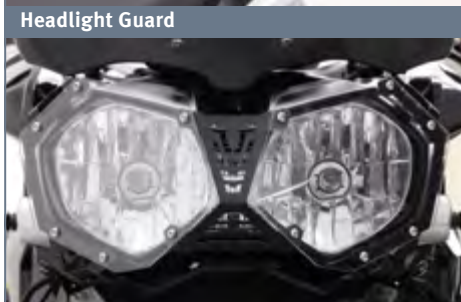

Nate installs the GPS mount.

Shawn wiring the Denali DX LED Lights

How to Order

We're just a call or a click away!

Order 2 ways:

1. Order online 24/7 at TwistedThrottle.com

2. Call Us

+1 (855) 255-5550 toll free in North America

+1 (401) 284 4200 International

Monday - Friday 9:00am - 7:30pm Eastern Time (GMT-5)

Saturday 10:00am - 6:00pm Eastern Time (GMT-5)

Sunday 9:30am - 3:00pm Eastern Time (GMT-5) (April 1 to August 30)

COME VISIT!

If you are traveling through New England, come visit our factory store and showroom near the nearby Southern Rhode Island coastline! Give us a call and we'll help you with hotels, campgrounds, directions, etc. You can download maps and directions at TwistedThrottle.com/retail-store.

GPS: +41.56484, -71.65942

PAYMENT METHODS

We accept Visa, MasterCard, Discover, and American Express for online, phone, and fax orders. Checks, money orders, and wire transfers are acceptable for mail orders. We also accept PayPal.

GIFT CARDS

Need to find a gift for your favorite motorcyclist, but not sure what they need for their next big trip?

Purchase a gift card online at TwistedThrottle.com/gift-cards and we'll send you, or the recipient, a Gift Card for the requested amount along with a copy of our catalog!

DISCOUNTS

We offer a 10% discount to active MSF Instructors, media test riders and writers for print magazines. We hope that this will encourage introduction of our products to potential customers through rider-to-rider endorsements. Give us a call or send us an email to get set up with the discount. We also offer a 10% military discount with an active and valid ID.

OUTLET STORE (Scratch and Dent)

We offer discounts on returned, scratched, dented, overstocked, and discontinued closeout items through our outlet store at TwistedThrottle.com/outletstore. Also save big by visiting our factory store during one of our Garage Sale Events!

Upcoming garage sale event dates:

September 20, 2014 & March 21, 2015.

SHIPPING POLICY

We ship Monday through Friday. Orders for in-stock items will leave the warehouse on the same shipping day for:

- FedEx and USPS orders placed by 3PM ET,
- LTL freight orders placed by 9AM ET.

Transit times will be noted at checkout. USPS Priority Mail provides 2-3 days in transit in the USA and 6-10 day days in transit to Canada. If you choose FedEx Home Delivery, estimated shipping times vary from between 1 day to over 7 days depending on your location. International orders may be delayed by customs.

We ship worldwide, including APO/FPO addresses. We recommend using USPS Express Mail or Priority Mail for international shipments to avoid the high brokerage fees charged by FedEx for international shipping.

New England location: Exeter, RI USA

Canadian location: New Dundee, Ontario, Canada

For domestic orders, we ship in-stock items immediately and ship other items as they become available. There is no additional charge for us to ship those items separately. International orders with out-of-stock items will be shipped complete once all backordered items have arrived.

RETURN POLICY

If you are unsatisfied with your purchase, you may return new, unused items for a full refund within 60 days. Refunds will be issued to the same form of payment used in the original transaction.

Windscreens must be returned in unopened original packaging.

To arrange a return, call (855) 255-5550 for a return authorization number (RA#). Instructions will be included to help complete your return.

Once return items have been received at our facility we will process and initiate your refund within 5 business days.

DEALERS – WE WANT YOU!

If your company is interested in selling products distributed by Twisted Throttle, please visit TwistedThrottle.com/becomeadealer.

Did we goof up?

Is something confuzzled? Help us make our catalog better! If you're the first person to point out a particular error in our catalog, we'll send you a free Twisted Throttle T-shirt. Woohoo!
