Table Runner Assembly

1. You'll make the blocks using a partial seam technique. With right sides together, sew a Fabric B rectangle to a Fabric A square, stop stitching about 1½" from the square's edge; press. Working in a counter-clockwise direction around the center square, sew Fabric B rectangles to the square. After the last rectangle is added, sew the small open section closed to complete the block. Repeat to make a total of 8 red blocks each measuring 6½" square.

2. Repeat step 1 to make 8 green blocks each measuring 6½" square.

3. Referring to the photo, sew two blocks together along their top edges to make a block row; press. Make 8 block rows. Sew the rows together; press.

4. Draw a diagonal line from corner to corner on the wrong side of each light-color charm square. Layer a marked square with each blue charm square, right sides together. Sew ¼" from both sides of the drawn line. Cut on the drawn line. Press the seams toward the blue. Make four half-square-triangle units.

5. Sew the 1¾"-wide Fabric D strips together to make a long strip; press. From the long strip, cut two 48½"-long border strips and two 12½"-long border strips.

6. Repeat step 4 using the 1¼"-wide Fabric E strips and then the 2½" Fabric D strips.

7. Using trimmed strips of matching lengths from steps 4 and 5, sew a 1¼"-wide Fabric D strip along the long edge of a Fabric E strip to make a border strip; press. Then sew a 2½"-wide Fabric D strip to the Fabric E side of the border strip; press. Make two 12½"-long border strips and two 48½"-long border strips.

8. Sew the long border strips to each side of the unit from step 3. Sew a half-square-triangle-unit from step 4 to both ends of each short border strip, referring to the photo as needed. Sew the border strips to the top and bottom of the quilt center; press.

9. Layer the quilt top with batting and backing; baste. Quilt as desired. Using the 2¼" Fabric B strips; prepare and sew the binding to the quilt.

Tree Skirt Assembly*Note: Choose Fabric G or H for the skirt, and the other one for the backing

1. Cut a 42" x 42" square of Fabric G/H. Fold the square in half horizontally, then in half vertically, and mark the center. Tie a piece of string around a pencil. Make a knot in the string 20" from the pencil. Hold the knot at the square's center mark and carefully draw a circle with the pencil. Cut out the circle on the drawn line.
2. Using a removable marking pen, make a knot in the string 14" from the pen and draw a second circle 28" in diameter, to use as an appliqué placement guide.
3. Make a knot in the string 2½" from the pencil and draw a circle 5" in diameter, to cut out for the tree trunk. With a long ruler and rotary cutter, cut a line from the outside edge to the center circle. With scissors, cut out the center circle.
4. Using the remaining (16) 5" holiday panel squares, apply ¼"-wide fusible-web tape to the back of the squares, matching the edge of the tape to the edge of the fabric.
5. Using the second circle as a guide, evenly space the squares from step 4 around the circle. Fuse the squares in place and then sew a decorative machine stitch around the squares.
6. Layer the appliquéd tree skirt with the batting and backing; baste. Hand or machine quilt as desired.
7. Stitching a scant ¼" from the edge, baste around the inside circle, along the side openings, and around the outer edge. Trim the backing and batting even with the edge of the tree skirt. Cut and join enough 2¼"-wide bias strips to make approximately 200" of binding. Bind the edges of the inside circle, both side openings, and the outside edge.
