NAME	BLOOM TIME	FLOWER COLOR	SIZE Spacing x Height x Bloom Height	PRICE Per Pot	DESCRIPTION
Ageratum	Apr-May	Blue	6" x 6"	18 ct \$0.55	Little powder puff like flowers cover these small mounding plants. Great for borders or mixed pots.
Alocasia 'Borneo Giant'		4-5' X 6'	10"	\$9.50	Huge arrow shaped leaves, grow 2-3' across. Leaves point heavenward on thick sturdy stems. Rich, fertile, moist soil is required. Sunnier locations require larger amounts of water.
Alocasia 'Malaysian Monster'		4-5 X 6'	10"	\$9.50	Giant, heavily lobed leaves that resemble split leaf philodendron. The stems are very stout and strong. A very exotic specimen plant.
Alocasia 'Mayan Mask'		4' x 6'	10"	\$9.50	Has giant wavy, dark green leaves, pale green veins and maroon undersides, all held on stout stems. Leaves start by pointing upwards and as new leaves emerge, the older leaves will arch over and let the new leaves point upwards.
Alpinia (Variegated Ginger)		Foliage	30" X 48"	# 1 \$4.50	This ginger is grown as a foliage annual in North Texas. The golden variegation of the long tropical leaves lends drama to the shade garden. Alpinia grows best in rich, moist, well drained soil. It will not bloom in North Texas. Can perennialize in mild winters.
Alyssum	Oct-May	Lavender, Purple, White	9" x 4"	18 ct \$0.55	Covered with clusters of tiny sweetly fragrant flowers. Looks best during the cool season.
Alyssum lobularia	Mar-Nov	White, Purple	10" x 6"	8 ct \$2.50	Largest and most heat tolerant of annual Alyssum. Heavily scented. Doesn't set seed, so the flowers just keep coming. Keep hydrated in summer.
Angelonia	May-Oct	Purple, White, Mix	12" x 15" x 24"	18 ct 0.75 # 1 \$3.50	Lacey flower spikes. A compact variety and also a larger blooming variety are available. Keeps blooming all summer. Loves the north Texas heat.
Aquilegia 'Origami'	Feb-Apr	Assorted	15" x 15"	18 ct \$0.95	Cool season color. Goes well with Digitalis, Delphinium and pansies. Likes a rich soil. The unique Columbine blooms add interest to containers or beds.
Asclepias curassavica Scarlet Milkweed	May-Aug	Red and Orange	24" x 36" x 36"	# 1 \$3.50	Bright flowers are born in terminal and axillary clusters between 2"-4" across. Long narrow opposite leaves. Produces a pod which splits open and reveals seeds attached to silky threads that fly with the wind. Can grow in dry or moist conditions. In north Texas A. curassavica is a re-seeding annual. The Monarch and Queen butterflies lay eggs on the leaves, then the larvae feed on the milky foliage. Flowers are a great source for nectar.
Asparagus Fern, Sprengeri		12" x 12"	8 ct \$1.80	Open, airy and trailing, glossy green needle-like foliage. Great in pots and in beds as filler or alone. Will come back in mild winters.	
Asparagus Fern, Foxtail		24" x 24"	8 ct \$2.00 # 1 \$4.00	Tight and densely packed needle-like leaves along upright arching branches that arise from a central point. Tiny white flowers give way to bright red berries. Be careful of thorns.	
Begonia Dragon Wing	Apr-Oct	Pink, Red	12" x 15"	8 ct \$1.80	Dangling clusters of large begonia flowers hang down from angel wing-like foliage.
Begonia Wax Leaf	Apr-Oct	Rose, Scarlet, White	9-12" x 12-18"	18 ct \$.55 # 1 \$3.50 10" \$8.50	Bronze foliage varieties are generally planted in sun and green foliage varieties in the shade. Larger leaf varieties such as "Whopper" grow much larger.
Blackfoot Daisy	Apr-Nov	White	24" x 10" x 10"	8 ct \$2.00	Low round bushy plant continually covered with happy little 1" daisy flowers. Will not tolerate wet soil. Tough Texas native.
Bluebonnet	Mar-Apr	Blue	12" x 18" x 24"	18 ct \$0.60 # 1 \$3.50 10" \$7.50	State flower of Texas. Mounds of blue flower spikes in the spring. Needs 8-10 hours of direct sun. Most any soil, as long as it is well drained. Interplants well with pansies.

<b>Bougainvillea 'Vera' series</b>	Jun-Oct		Purple Pink		# 1	\$4.00	This bougainvillea is unique in that it is more compact and upright than its' sprawling vine-like kinfolk. Also, the bloom clusters form balls of flowers making for a different look. Great in containers. Traditional varieties are also available.
<b>Cabbage Ornamental</b>				16" x 12"	18 ct # 1	\$5.55 \$3.00	Colorful winter foliage plant. Large flat leaves form showy cabbages of white or red. Leaf color is intensified with cooler temperatures.
<b>Caesalpinia pulcherrima 'Pride of Barbados'</b>	Jun-Oct		Orange-yellow-red	3' x 3-4'	10"	\$13.50	Native to tropical America, hardy to zone 9. An annual in north Texas. Very showy poinciana-like blooms of orange and yellow with prominent red stamens. Twice pinnate leaves and sharp prickles on the stems. Makes a small bush before it freezes in north Texas.
<b>Caladium</b>				12" x 12" - 36"	18 ct 18 ct	\$0.95 \$1.15	Arrowhead like foliage with a wide variety of patterns and colors. The different varieties coming in varying degrees of sun tolerance.
<b>Candle Tree</b>	Aug-Oct		Golden Yellow	6' x 6'	# 1	\$3.50	Large showy spikes resembling candelabras cover this mounding shrub in late summer and fall. Leaves fold together at night.
<b>Cardoon (Cynara cardunculus)</b>	May-June		Purple	5' x 5' x 5'	# 1	\$3.50	Very architectural and bold texture. Arching gray-green tomentose leaves form a statuesque vase. Giant thistle like blooms add to the overall unique character. Must have well drained soil. It has a large deep taproot. Foliage goes down in heat and re-emerges in the cool season. Young unopened flowers can be prepared and eaten like an artichoke.
<b>Celosia</b>	Apr-Aug		Red, Gold, Orange	8" x 10" x 16"	18 ct	\$0.55	Bright Tongues of Fire best describes these unique heat-loving flowers. Bronze and Green leaf varieties are available.
<b>Cheiranthus Wallflower</b>	Oct-Apr		Mix, Yellow	15" x 15"	18 ct	\$0.55	Terminal clusters of bright, fragrant flowers add something different to your cool season pots and beds.
<b>Citronella Scented Geranium</b>	May-Aug		White/Pink	18" X 24"	# 1	\$4.50	Citronella scented lacy, but coarse leaves. Some people crush the leaves and rub it on their skin to repel mosquitos. Prefers afternoon shade when the temps rise. Likes moist, well drained soils.
<b>Chrysanthemum Garden Mum</b>	Oct-Nov		Variety of Colors	18" x 15"	8" 10"	\$4.50 \$9.00	Glorious floral display of limitless colors and flower types. A fall tradition. Can be used as a perennial.
<b>Coleus</b>				12"-18" x 24"-36"	18 ct 8 ct	\$0.65 \$1.60	A vigorous foliage plant with endless colors and patterns among the many varieties. Most thrive in full sun.
<b>Columbine 'Origami Mix'</b>	Mar-May		Blue, Rose, Yellow	12" x 14" x 16"	18 ct	\$0.95	This columbine is very uniform and compact in habit. Used as a cool season annual in north Texas. Unusual showy spurred flowers.
<b>Cordyline</b>			Foliage	18" x 24" - 36"	# 1	\$4.50	Brightly colored foliage with a growth habit much like that of a dracaena. Needs good light to maintain color, however in extreme heat, shade needed.
<b>Croton</b>			Foliage	18" x 24"	# 1 10"	\$4.00 \$7.50	Tropical foliage plant with multi-colored waxy leaves. Crotons go well in late summer and fall color schemes as well as spring landscapes.
<b>Cuphea hyssopifolia Mexican Heather</b>	Apr-Oct		Purple	9" x 12"	18 ct	\$0.60	Also called Mexican Heather because of its heather-like growth and small flowers. Thrives in Texas sun and heat.
<b>Cuphea llavea Bat Faced Cuphea</b>	Apr-Oct		Red	12" x 12"	8 ct	\$2.25	Trailing-mounding habit covered with unique flowers that resemble a bat's face. Likes the heat of north Texas
<b>Cyclamen</b>	Dec-May		Red, Pink, Purple, White	8" x 8"	8 ct	\$2.40	A tender cool season plant, that requires protection from hard frosts and freezes. Attractive heart-shaped leaves are topped with bright flowers.
<b>Dahlberg Daisy</b>	Apr-Oct		Golden-Yellow	9" x 3-4"	18 ct	\$0.55	Low growing. Soft and finely cut foliage covered with small daisy-like flowers. Loves our heat. Texas native.
<b>Delphinium</b>	Apr-May		Blue, Lavender, White	1' x 1' x 2-3'	18 ct # 1	\$0.95 \$3.50	Very showy flower spikes rise from a basal rosette. Lends vertical accent to the garden. Best show if planted in the fall.
<b>Dianella tasmanica "Variegata" Variegated Flax Lily</b>	Mar-Apr		Blue	12" x 15-18"	# 1	\$4.50	Upright strap leaves with creamy striped edges. Small panicles of flowers in spring. Likes afternoon shade. Foliage will die down around 25 degrees.
<b>Dianthus</b>	Mar-Nov		Red, Rose, Violet, White, Salmon	9" x 8-9"	18 ct	\$0.55	A very durable cool season plant often used as a short-lived perennial. Blooms mainly in the fall and spring.
<b>Dichondra argentea 'Silver Falls' Silver Ponyfoot</b>				6" x 1"	18 ct	\$0.75	Cascading silver leaves, resembling tiny silver coins. Is stunning falling over hanging baskets and urns.

NAME	BLOOM TIME	FLOWER COLOR	SIZE Spacing x Height x Bloom Height	PRICE Per Pot	DESCRIPTION
<b>Dracaena 'Spike'</b>			8" x 12"	18 ct \$0.95	Vertical foliar accent. Excellent for color bowls and pots.
<b>Dusty Miller 'Cirrus'</b>			9" x 9"	18 ct \$0.60	Fuzzy silver leaves and stems. Is frost tolerant. Cirrus has wider and less finely cut leaves than traditional Dusty Miller. Offers a nice contrast of color and texture in beds and in pots.
<b>Ensete v. Maurelii</b> Red Abyssinian Banana			5' x 5'	10" \$8.50	Striking red/green leaves. Inedible fruit. Does not sucker. Likes rich moist soil. Needs shade in hottest part of summer. Will freeze in north Texas.
<b>Esperanza</b>	May-Oct		Yellow 2' x 4-5'	# 1 \$3.75 10" \$8.50	Deep green foliage with large clusters of bell-shaped flowers. This plant LOVES hot Texas summers. Deadheading helps performance.
<b>Euphorbia 'Manaus'</b>	Apr-Nov		White 9" x 12"	8 ct \$2.50	Heat and drought tolerant. Tiny gray-green leaves are filled with an unstoppable frothy drift of delicate blooms. Superb filler plant.
<b>Euphorbia milii</b> Crown of Thorns	Apr-Nov		Pink, Red 18" x 18"	# 1 \$4.50	Compact and slow growing crown of thorns. Needs well drained soil. They are 'Good Luck' for Thai people in Bangkok, where they collect hundreds of different varieties.
<b>Euryops Daisy</b>	Mar-June		Yellow 18" x 24"	# 1 \$3.50	Cheerful daisies intermingled with lacy leaves add color in the cooler temperatures of spring.
<b>Evolvulus</b>	May-Oct		Blue 9" x 4"	18ct \$0.70 # 1 \$3.75	Good for front of the bed or trailing over walls. Gray-green leaves. It loves the summer heat.
<b>Firebush</b>	Jun-Oct		Orange 18" x 36"	# 1 \$3.75 10" \$8.50	Sun and heat loving with clusters of tubular flowers that hummingbirds love.
<b>Foxglove</b>	Apr-May		Assorted 24" x 18"x 36"-48"	18 ct \$0.95 # 1 \$3.50	Plant in the fall for a lovely spring display of spotted bell shaped flowers born on spikes rising from a large rosette of leaves. Very showy. Worth the wait.
<b>Fuchsia 'Gartenmeister'</b>	April-Aug		Orange 12" x 18"	# 1 \$3.50	An upright fuchsia. Bronzy foliage and pendulous tubular flowers. Can take north Texas heat. Likes bright indirect light. Needs shade in north Texas summers.
<b>Galphimia gracilis (Thryallis)</b>	Jun-Oct		Gold 2' x 3"	# 1 \$4.50 10" \$8.50	Heat and sun loving tropical shrub. Delicate flower spikes of golden stars on pretty bronze stems. Very good for Texas summers. May come back if the winter is mild.
<b>Gazania</b>	Mar-May		Yellow, Orange, Pink, Mix 8" x 8"	18 ct \$0.60	Large 3" colorful daisy type flowers grow on short stems. The flowers are sun worshippers...they are open in the day and are closed at night.
<b>Geranium</b>	Mar-Jun		Variety of Colors 10" x 10" x 15"-18"	8 ct \$2.00 # 1 \$4.00	Large globular flower cluster are held high over attractive round foliage. Heat tolerant hybrids are available that will last better through the hot Texas summers. If possible pull pots into bright shade for longevity.
<b>Gerbera Daisy</b>	Apr-Oct		Variety of Colors 10' x 12"	8 ct \$2.00 # 1 \$3.50	Very showy daisy blooms borne on tall willowy stalks held high above large lettuce-like leaves. Great cut flower.
<b>Ginger Variegated (Alpinia)</b>			Foliage 30" X 48"	# 1 \$4.50	This ginger is grown as a foliage annual in North Texas. The golden variegation of the long tropical leaves lends drama to the shade garden. Alpinia grows best in rich, moist, well drained soil. It will not bloom in North Texas. Can perennialize in mild winters.
<b>Gomphrena</b>	Apr-Oct		Purple, Pink 10" x 20"-	18 ct \$0.55	Very tough heat loving 1" straw-like ball-shaped flowers. Harvest the flowers for dried bouquets. Reminiscent of Grandmother's garden.
<b>Helenium 'Dakota Gold'</b>	May-Sept		Gold 10" x 12"-18"	18 ct \$0.65	Mounds of fine textured leaves topped by happy little daisies. Loves Texas heat. North Texas Winners Circle Award. (Bitterweed)

<b>Heliotrope</b>	May-Sept		Deep Blue	8" x 8- 10"	8 ct # 1	\$2.00 \$3.50	Tight clusters of intense blue flowers. Heavily veined leaves lend texture.
<b>Hibiscus Tropical</b>	May-Oct		Pink, Red, Yellow, Orange	12" x 18"	# 1 10"	\$3.75 \$9.00	Favorite tropical for patios, pots and beds. Showy eye-catching flowers. Loves heat and sun.
<b>Impatiens</b>	Apr-Jun		Variety of Colors	9" x 18"	18 ct	\$0.55	Can look good in the summer but performs best in spring and fall.
<b>Iresine 'Blazing Rose'</b>			Foliage	18" x 30"	8 ct	\$1.80	Rose, pink and magenta foliage on an upright bush. Super accent and eye-catching.
<b>Kale Ornamental</b>			Foliage	16" x 12"-24"	18 ct 8 ct # 1	\$0.55 \$3.00 \$2.75	Comes in both red and white, varying degrees of lacey leaves and heights. Gives winter color and texture.
<b>Lantana</b>	May-Oct		Many Colors, Bi-colors	9"-24" x 12"-36"	18 ct # 1	\$0.70 \$3.50	A Texas favorite that loves heat. Trailing and upright varieties available. Some will be perennial in north Texas.
<b>Lemon Lollipop</b>	Apr-Oct		Yellow	12" x 24"	8 ct	\$2.00	Showy unique candelabra-type flower spikes that love the summer heat.
<b>Lobelia</b>	Cool Season		Blue Shades	8" x 3"	18 ct 8 ct	\$0.55 \$2.00	Spring or Fall color. Used for low borders or for spilling over garden walls, pots or baskets. Foliage has bronze cast in cooler temps.
<b>Mandevilla</b>	May-Oct		Pink, Red, White	3' x 12'	# 1 10"	\$5.50 \$14.50	Deep green foliage with large trumpet-shaped flowers. This is a beautiful tropical vine for summer garden interest.
<b>Marigold</b>	Apr-Nov		Orange, Yellow, Red	9" x 12"	18 ct	\$0.55	Old garden favorite. Performs best in the summer and fall. Both large and small varieties available.
<b>Melampodium 'Lemon Delight'</b>	Apr-Aug		Yellow	10" x 10"	18 ct	\$0.55	Loves summer heat. Good alternative to Marigolds. Dime-sized flowers.
<b>Moss Rose (Portulaca)</b>	Apr-June		Mix & Solids	6" x 4"	18 ct	\$0.55	Bright and cheerful 2" cactus-like flowers top succulent leaves. Flowers close at night and on cloudy days. Trailing in habit. Old time garden favorite.
<b>Mustard 'Red Giant'</b>			Foliage	12" x 12"	8 ct # 1	1.8 \$3.50	Cool season foliage color. As temperature drops below 60°, a burgundy red color begins to develop.
<b>Nemesia</b>	Mar-May		Blue, White	10" x 12"	8 ct	\$1.80	Mounds of early spring color. Snapdragon-like flowers on upright stems. Self cleaning. Can take a mild freeze.
<b>Osteospermum Cape Daisy</b>	Feb-Jun		Variety of Colors	12" x 9-12"	8 ct # 1	\$1.80 \$3.50	This lovely native to South Africa produces bright daisy flowers. Needs well-drained soil. Great for cool season color pots. Can go through the summer, but will need more shade as the summer gets hot.
<b>Pansy</b>	Oct-Apr		Variety of Colors	8" x 6"	18 ct 8 ct	0.55 \$1.60	Our best winter color option. A wide assortment of colors and mixes. Trailing varieties also.
<b>Penta</b>	Apr-Oct		Red, Pink, Violet, White	9-12" x 7-24"	18 ct 8 ct # 1	\$0.65 \$1.80 \$3.50	Star shaped flowers form clusters that bloom continually from spring through fall. Small and large varieties available. Good for those difficult mixed sun-shade locations.
<b>Pepper, Ornamental</b>	Aug-Oct		Fruit & Foliage	8"-15"x10"-24"	8 ct # 1 10"	\$1.80 \$3.50 \$7.50	A fiesta of colorful fruit and foliage. Useful for spicing up planters and beds. Great partnered with fall mums, asters, pumpkins and scarecrows.
<b>Pericallis</b>	Mar-Apr		Blue, Magenta, Violet, Bi-Colors	12" x 12' x 12"	# 1	\$4.50	Globes of neon daisies add bright color to late winter and early spring landscapes.
<b>Perilla Magilla</b>			Foliage	12" x 24"	8 ct	\$1.80	Heat and sun loving with colorful magenta/fuchsia leaves. Has an upright and bushy habit.
<b>Periwinkle 'Cora' Vinca</b>	May-Oct		Variety of Colors	12" x 12"-18"	18 ct	\$0.65	Break through in Vinca genetics. The 'Cora' series exhibits a good amount of resistance to Phytophthora and Pythium. Disease tolerance has been proven in plant trials done by the Dallas Arboretum. Well-drained soils are still needed for best results. And remember Do Not plant too Early in the Spring when night time temps are still cool.
<b>Periwinkle 'Cora Cascade' Trailing Vinca</b>	May-Oct		Variety of Colors	15" x 4-6"	18 ct	\$0.75	The disease resistant Cora periwinkle with a trailing habit.

NAME	BLOOM TIME	FLOWER COLOR	SIZE Spacing x Height x Bloom Height	PRICE Per Pot	DESCRIPTION
Persian Shield Strobilanthes		Foliage	15" x 36"	8 ct \$1.80	Grown for its radiant purple, lance-shaped leaves. Is striking in the shade garden.
Petunia multiflora	Mar-May	Variety of Colors	9" x 12"	18 ct \$0.55	Common bedding petunia that provides a spectacular color show. Spring plantings require good drainage. Can plant in late summer for fall show.
Petunia 'Crazytunia'	Mar-June	Variety of Colors	9" x 8-10"	# 1 \$3.50	Crazy patterns and color schemes on this petunia. Upright and compact habit. Fun color till the north Texas heat sets in.
Petunia 'Easy Wave'	Mar-June	Variety of Colors	18" x 6-12"	8 ct \$1.80	Easy Wave is more mounding than other waves. Blooms in cool temps and keeps blooming into the heat. New blooms bloom in the center as well as at the ends.
Petunia 'Supertunia'	Mar-June	Variety of Colors	12" x 12-20"	# 1 \$3.75	Vigorous petunia. Responds well to a cutting back.
Plumbago Blue	Apr-Oct	Blue	12" x 24"	8 ct \$1.80 # 1 \$3.50	Very durable plant that loves our summers. Produces a cluster of flowers that form a globular head. Has a lovely fountain-like habit.
Poppy Iceland	Nov-Apr	Mix	9" x 5" x 15"	18 ct \$0.60	Blooming primarily in the spring with striking translucent flowers born on tall slender hairy stalks. Performs best when planted in the fall. Doesn't like heat.
Primula polyanthus	Jan-Mar	Mix	6" x 6"	18 ct \$0.95 8 ct \$1.80	Umbels of super bright, almost garishly colored flowers arise from basal clump to brighten up cool season landscapes or window sills.
Purple Fountain Grass	May-Nov	Tan	3' x 4-5'	# 1 \$3.50 10" \$6.50	Annual grass with very attractive arching burgundy foliage with equally attractive light burgundy bottlebrush like plumes.
Rudbeckia hirta 'Denver Daisy'	May-July	Gold/Brown	12" x 18-24"	# 1 \$3.50	Large 5" golden daisy with a bold chocolate center. Hairy coarse leaves. Introduced to commemorate the 150th anniversary of Denver, CO.
Salvia coccinea	Apr-Oct	Red, Pink, White	18" x 24" x 36"	8 ct \$1.80	Very hardy reseeding annual with spiked flowers. Requires dead heading to look its' best.
Salvia f. Victoria Blue	May-Oct	Blue	1' x 1' x 1 1/2'	18 ct \$0.60	Showy Spikes of Blue provide color from Spring till Fall. Must have well drained soil. 'Evolution' is the same, but has a purple flower.
Salvia splendens	Apr-Jun	Red	9" x 10" x 18"	18 ct \$0.55	Common bedding salvia with large showy flower spike. Does not tolerate north Texas summer heat well.
Salvia 'Wendy's Wish'	May-Oct	Coral Pink	36" x 24" x 36"	# 1 \$3.50	Tubular flowers on arching spikes with a pinkish-brown calyx. Grows quickly. Looks best when trimmed back regularly.
Scaevola	Apr-Oct	Blue, White	12" x 2"	18 ct \$0.75 8 ct \$1.80	Trailing color with small fan shaped flowers all season. Tolerates our summers well.
Snapdragon	Oct-May	Variety of Colors	9" x 6"-18" x 24"	18 ct \$0.55	Blooms during the fall and spring. Requires dead heading to look its best. Needs well-drained soil. Do not overwater. Dwarf and medium sizes available.
Stock	Mar-May	Rose, Mix, White	9" x 12"	18 ct \$0.55	Fragrant flower spikes that are primarily used for spring color. Plant will freeze during our winters.
Sunpatiens	Apr-Aug	Variety of Colors	14" x 24"	8 ct \$2.00	Vigorous, sturdy branching, shorter internodes and less prone to downy mildew. Requires copious amounts of water in north Texas summers.
Sweet Potato Vine		Foliage	24" x 12"	18 ct \$0.75 8 ct \$2.50	Popular foliage plant coming in black, red, lime and tricolor. Tricolor is the least aggressive. All produce a non-edible tuber.

<b>Swiss Chard Ornamental</b>			Foliage	18" x 15- 24"	18 ct # 1	\$0.55 \$3.50	Large glossy leaves with bright red, pink or gold veins/stems. Great mixed with cool season color like pansies, dianthus and snaps.
<b>Tapioca Variegated</b>			Foliage	2'x 4-5'	10"	\$12.50	Eye-catching variegated palmate foliage with red petioles. This sun loving tropical needs the heat in order to thrive.
<b>Torenia 'Moon' Series</b>	Apr-Oct	 	Rose,Purple,White Yellow	18" x 6"	8 ct	\$1.80	Trailing annual with small gloxinia-like flowers. Can tolerate more sun than the upright form.
<b>Torenia Wishbone Flower</b>	Apr-Jun	 	Blue, Mix	6" x 8"	18 ct	\$0.55	Two-toned blooms resembling miniature gloxinias on an upright plant.
<b>Verbena bonariensis Lollipop Purple Vervain</b>	Apr-Oct	  	Purple	18" x 24"	# 1	\$3.50	Tiny flowers born in small clusters on slender stems. Lends airiness and is a filler plant in the garden. This is a dwarf selection.
<b>Verbena x hybrids Verbena</b>	Apr-Nov	  	Pink, Purple, Red, White , Peach	12" x 4" x 4"	18 ct 8 ct # 1	\$0.60 \$1.80 \$3.50	Trailing. Semi-evergreen and is considered a short lived perennial. Covered with small Geranium-like flower heads. Deadhead flowers for more consistent blooming. Commonly planted as an annual.
<b>Vinca 'Cora'</b>	May-Oct	 	Variety of Colors	9" x 15"	18 ct	\$0.65	Break through in Vinca genetics. Cora exhibits more resistance to Phytophthora and Pythium. Disease tolerance has been proven in plant trials done by the Dallas Arboretum. Well-drained soils and warm night time temperatures are needed for best results.
<b>Vinca 'Cora Cascade' Trailing Vinca</b>	May-Oct	 	Variety of Colors	15" x 4-6"	18 ct	\$0.75	The disease resistant Cora periwinkle with a trailing habit.
<b>Viola</b>	Oct-Apr	  	Variety of Colors	9" x 6"	18 ct	\$0.55	Delightful cool season color. Available in a wide variety of colors and mixes. Smaller flowers than the pansy but many more blooms.
<b>Zinnia 'Profusion'</b>	May-Oct	 	Assorted Colors	12" x 14-18"	18 ct	\$0.55	2.5" diameter daisy type flowers on a heat and disease tolerant bushy plant. Popular in mass plantings as well as in pots.
<b>Zinnia 'Star' Series</b>	May-Oct	 	Gold, Orange, White , Mix	8" x 12"	18 ct	\$0.55	Compact narrow foliage, small dime size flowers sets this zinnia apart. Tolerates heat and humidity. Is mildew resistant. Requires no deadheading. Also known as Mexican zinnia.

NAME	BLOOM TIME	FLOWER COLOR	SIZE Spacing x Height x Bloom Height	PRICE Per Pot	DESCRIPTION
<b>Ajuga reptans 'Black Scallop'</b> Bugleweed	May	Blue	8" x 4" x 6"	8 ct \$1.80	Dark glossy burgundy-black foliage with showy flower spikes. Leaves are more colorful when given more light. Give afternoon shade in summer.
<b>Ajuga reptans 'Burgundy Glow'</b> Bugleweed	May	Blue	8" x 4" x 6"	8 ct \$1.80	Variiegated foliage with pink highlights on new growth. Needs afternoon shade in heat of Summer.
<b>Ajuga x tenorii 'Chocolate Chip'</b> Bugleweed	May	Blue	8" x 4" x 6"	8 ct \$1.80	The chocolate tinged are narrower than it's A. reptans relative, giving this plant a different look. Plants have more color in cool sunny weather. Needs afternoon shade in summer.
<b>Anemone japonica</b> Japanese Anemone	Oct-Nov	White Pink	1' x 1' x2'- 4'	# 1 \$5.00	Delicate flowers with yellow centers are held on slender stalks above soft clumps of lobed foliage. Lends a delicate and airy feel to the shade garden. Sometimes known as a Windflower. Prefers rich evenly moist soil.
<b>Anisacanthus quadrifidus var. Wrightii</b> Flame Acanthus or Hummingbird Bush	Jun-Oct	Orange	3' x 4'	# 1 \$3.75	Shiny green foliage with multiple flower spikes per stem. Hummingbirds love the flowers. Semi-Deciduous. Should be cut back in the winter by at least 1/2 to 2/3 to encourage dense compact growth. Is tough, drought tolerant and takes reflected heat.
<b>Aquilegia canadensis</b> 'Pink Lanterns'	Apr-May	Pink	10" x 6" x 10"	8 ct \$2.00	Dainty, short lived reseeding perennial with Maiden fern-like foliage. Unique flower adds interest to a shade garden. Likes well drained and rocky soil. Pink flowered version of the wild columbine.
<b>Aquilegia chrysantha 'Hinckleyana'</b> Texas Gold Columbine	Apr-May	Gold	2' x 18" x 3'	# 1 \$3.75	Native to the Big Bend. It is the best columbine for our area. Fragrant flowers with outward curving spurs reminiscent of an eagles talons. Cut back when foliage declines in summer.
<b>Aquilegia x 'McKana's Giants'</b> Columbine	Apr-May	Mix	18" x 18" x 2'	# 1 \$3.50	A large Columbine. Short-lived, but like the others is planted for their unique flowers.
<b>Aquilegia x 'Origami'</b> Columbine	Apr-May	Mix	12" x 14" x 16"	18 ct \$0.95 8 ct \$2.00 # 1 \$3.50	This columbine is very uniform and compact in habit. Can be treated as an annual or as a perennial. Unusual showy spurred flowers.
<b>Artemisia schmidtiana 'Silver Mound'</b> Wormwood		8" x 8"	8" x 8"	8 ct \$2.00 # 1 \$3.50	Finely cut silver foliage. Forms a compact mound, which is soft to the touch. Gives a foamy effect to the landscape. Doesn't like north Texas summer heat.
<b>Artemisia x 'Powis Castle'</b> Wormwood		2' x 2'	2' x 2'	# 1 \$3.50	Unique, feather-like silver foliage that lends interesting texture and color to the landscape. Needs occasional pruning to keep tidy.
<b>Asarum splendens</b> Chinese Wild Ginger		12" x 6"	12" x 6"	8 ct \$2.00 # 1 \$4.50	Beautiful heart-shaped evergreen leaves topped with silver marbling. A purple bloom of no significance. Spreads by rhizomes, often used as a ground cover in woodland or shade gardens.
<b>Asclepias tuberosa</b> Butterfly Weed	May-Aug	Yellow and Orange	15" x 18" -24"	# 1 \$3.50	Does well in poor dry soils and re-seeds easily. A. tuberosa differs from A. curassavica in that the stems are hairy, the leaves are narrower, there is no milky sap and the flower is colored different. It is a wonderful nectar source. The larvae of the Monarch & Queen butterflies feed upon the leaves. Large pods of silky-tailed seeds are produced. A must for the butterfly gardener.
<b>Aspidistra elatior</b> Cast Iron Plant		12" x 36"	12" x 36"	# 1 \$5.50	Tough, leathery, evergreen foliage. The lanceolate leaves arise directly from the roots in clumps. Thrives in low light conditions. Usually planted in masses. Direct sun will burn foliage.
<b>Aster dumosus 'Alert'</b> Dwarf Aster	Aug-Sept	Purple	15" x 12-15"	# 1 \$3.75	Dwarf Aster covered in 1" wide daisies, great for the late summer early fall garden.
<b>Aster dumosus 'Professor Anton Kippenberg'</b> Dwarf Aster	Aug-Sept	Deep Blue	18" x 12-15"	# 1 \$3.75	Very tight compact blooming daisy. Smaller flowers but very profuse.
<b>Aster dumosus 'Winston Churchill'</b> Dwarf Aster	Aug-Sept	Dk. Raspberry	12-18" x 18-24"	# 1 \$3.75	This dwarf aster has bright single raspberry flowers. A welcome sight in late summer and early fall.

<b>Aster dumosus 'Woods Pink'</b> Dwarf Aster	Aug-Sept		Pink	18" x 12-15"	# 1	\$3.75	Compact habit. Mounds covered in daisy-type blooms. Blooms before the other fall asters.
<b>Aster x frikartii</b> Monch's Aster	Jun-Oct		Blue/Lavender	18" x 24" x 24-36"	# 1	\$3.75	The Monch's aster has a much longer bloom season than other asters. The flower is larger also, about 1.5" across. Same yellow center on a daisy-type bloom. A favorite for everyone's garden.
<b>Aster oblongifolia</b> Fall Aster							(See Symphyotrichum oblongifolium)
<b>Aster oblongifolia 'October Skies'</b> Dwarf Fall Aster							(See Symphyotrichum oblongifolium)
<b>Buddleia</b> Butterfly Bush	April-Sept		Blue, Pink,Purple White	2-3' x 5-6'	10"	\$8.50	Deciduous and shrubby. Covered with 6" to 12" flower spikes. Prune to keep tidy. Deadhead throughout the season to increase flowering. Easy to grow. Butterfly magnet. Dwarf varieties are available also, they grow to about half the size of standard size.
<b>Bulbine frutescens 'Orange'</b>	June-Sept		Orange/Yellow	18" X 18" X 24"	# 1	\$3.50	This native to South Africa has succulent onion-like foliage and spikes of orange/yellow flowers. Deadhead for more blooms. Hates wet feet.
<b>Caesalpinia gilliesii</b> Texas Bird of Paradise	June-Oct		Red-Yellow	4' x 6'	10"	\$13.50	Grows quickly into a small tree with airy compound leaves. Showy spider-like flowers. May freeze to ground in severe winters. Prune for fullness.
<b>Callicarpa americana</b> American Beautyberry	Oct-Dec		Purple Berries	6' x 6'	# 1 10"	3.75 \$8.50	Light green deciduous foliage. Berry laden stems in the fall and winter. Low maintenance. Very adaptable. Fruit attracts wildlife.
<b>Callirhoe involucrata</b> Wine Cups	May-Jul		Magenta	2' x 1' x 1'	# 1	\$3.75	Local wildflower with satiny cupped-shaped flowers. Rambling foliage. Do not overwater.
<b>Calylophus hartwegii</b> Sun Drops	May-Oct		Yellow	24" x 8" x 8"	8 ct # 1	\$2.00 \$3.50	Needle-like foliage with brightly colored 2" cupped flowers. Blooms heaviest in the spring, then sporadically through fall. Mounding habit.
<b>Calyptocarpus vialis</b> Horse Herb	Apr-Oct		Yellow	9" x 6" x 6"	18 ct	\$0.75	A tough semi-evergreen ground cover that forms dense mats in the shade. Requires very little water, can be mowed and can take small amounts of foot traffic.
<b>Canna</b> Canna Lily 'Canova Red' 'Canova Rose' 'Canova Yellow'	Jun-Oct		Flower/Foliage Red/Green Rose/Green Yellow/Green	2' x 3' x 4' 2' x 3' x 4' 2' x 3' x 4'	# 1	\$3.75	Tropical looking foliage plant with bold flowers atop. Can grow in normal or soggy conditions.
<b>Canna australis</b>	Jun-Oct		Red/Maroon	2' x 4' x 5'	10"	\$8.50	Dark maroon foliage with red flowers.
<b>Caryopteris 'Blue Fountain'</b>	Jun-Nov		Blue	2'x 2' x 3'	# 1	\$4.00	Fluffy blue powderpuffs of flowers are found in whorls along upright woody stems. Texas tough perennial. A bee magnet.
<b>Cephalanthus occidentalis</b> Buttonbush	Jun-July		White	15-20' X 10"	10"	\$10.50	Deciduous shrub or small tree with irregular crown and sometimes twisted trunks. Often is wider than tall and can be pruned into a small multitrunk tree. Often found in wetland habitats and in moist forest understory areas. Can grow well in a landscape garden setting. Flowers are very distinctive 1" white balls that dangle from the stems. Flowers are very long lasting and are extremely rich in nectar. The fruit is brown and spherical and persists through the winter. Very adaptable plant and has few problems.
<b>Ceratostigma plumbaginoides</b> Creeping Plumbago	Jul-Aug		Blue	9" x 6"	8 ct	\$2.00	A deciduous ground cover sprinkled with bright blue flowers. Rusty red foliage in the fall.
<b>Cestrum aurantiacum</b> Orange Zest	Jun-Oct		Pastel Orange	4' x 7'	# 1	\$4.50	Vigorous shrubby perennial. Hardy to about 20°F. Will freeze to the ground and come back. Easy to establish. Blooms non-stop.
<b>Chaenomeles 'Rubra'</b> Flowering Quince	Feb-Mar		Red Orange	3-5' X 3-5'	10"	\$10.50	Deciduous shrub with flowers appearing on thorny stems just before leaf break. One inch, five petaled flowers, typical of the rose family are harbingers of spring. Towards the end of summer and into fall small pomes form. This plant is very adaptable and tolerant of soils and conditions.
<b>Chrysactinia mexicana</b> Damianita	April-Sept		Yellow	2' x 1-2'	# 1	\$4.50	Aromatic needle-like leaves form a dense low mound. Is evergreen and loves hot conditions. Very tough, must have well drained soil. Do not keep wet especially in the winter. 1" daisy like flowers. Only light prunings, heavy prunings can kill the plant. Makes a great border for dry locations.

NAME	BLOOM TIME	FLOWER COLOR	SIZE Spacing x Height x Bloom Height	PRICE Per Pot	DESCRIPTION
<b>Colocasia antiquorum 'Illustris'</b> Imperial Taro			3' x 4'	# 1 \$4.50	Large elephant ear foliage with smoky-purple variegation. Not as invasive as Colocasia esculenta.
<b>Colocasia esculenta</b> Hardy Elephant Ear			3' x 4'	# 1 \$3.50	Spreads rapidly by stolons. Extremely hardy and durable especially around water.
<b>Colocasia e. 'Black Coral'</b>			4' x 4"	# 1 \$4.50	Stupendously large corrugated black leaves. Great at waters edge as well as in a garden setting. Prefers rich moist soil. Hardy to Zone 7b.
<b>Conoclinium greggii</b> Hardy Ageratum	Aug-Oct	Blue	36" x 24" x 24"	# 1 \$3.50	A must for butterfly gardens. Flowers are a nectar source for Monarchs. Filler plant around showier flowers. Drought tolerant once established. Formerly Eupatorium greggii.
<b>Coreopsis auriculata 'Nana'</b> Mouse Ear Coreopsis	Apr-Oct	Gold	9" x 3" x 6"	8 ct \$2.00	Bright little daisy flowers on a slow spreading ground cover. The leaves look like little green mouse ears.
<b>Coreopsis grandiflora 'Early Sunrise'</b>	Apr-June	Gold	18" x 6" x 18"	8 ct \$2.00 # 1 \$3.50	Most popular of the coreopsis. The shape of the seed resembles a tick thus the name tickseed. 1" Daisy-like blooms for spring gardens. Short-lived, but reseeds.
<b>Coreopsis 'Red Shift'</b>	Jun-Oct	Yellow/Crimson	18" x 24" x 24"	# 1 \$3.75	From the "Big Bang" series. Butter yellow with crimson eye shifting to red in cooler temperatures.
<b>Coreopsis 'Hardy Jewel Citrine'</b>	Jun-Oct	Gold	12" X 6-8"	# 1 \$3.75	Extremely bright gold flowers. Very floriferous and very compact. Leaves are narrow.
<b>Coreopsis rosea 'Heaven's Gate'</b>	Jun-Oct	Pink/Raspberry	18" x 24" x 24"	# 1 \$3.75	Shades of pink flowers with a dark raspberry centers.
<b>Coreopsis rosea 'Mercury Rising'</b>	Jun-Oct	Deep Red	18" x 12" x 15"	# 1 \$3.75	From the "Big Bang" series, compact plant with deep red flower and bright yellow button center. Medium texture leaves.
<b>Coreopsis 'Route 66'</b> Threadleaf Coreopsis hybrid	Jun-Oct	Gold/Burgundy	1-2' X 1-2'	# 1 \$3.75	8 petaled (1") golden daisy flowers with burgundy splattered centers cover fine narrow, deep green foliage. Cut back to encourage new blooms and tidiness. Likes fertile and well drained soil.
<b>Coreopsis verticillata 'Center Stage'</b>	Jun-Oct	Magenta	18" x 10" x 13"	# 1 \$3.75	Thread leaf coreopsis with a single magenta red flower.
<b>Coreopsis x 'Jethro Tull'</b> Tickseed	Jun-Oct	Gold	12" x 12" x 12"	# 1 \$3.75	A fun and different coreopsis to add to your collection. The flowers feature tubular rays with coarsely pinked edges. Very compact.
<b>Crinum Lily</b>	June	Pink/White	2' x 2' x 3'	# 1 \$6.50	This member of the Amaryllis family is a very durable perennial for north Texas. Crinum have been known to survive for decades with no care. They are indifferent to our heavy alkaline soils. Clumps of long, arching strappy leaves are topped by clusters of large lily-like flowers which are born on tall, stout stalks. Tough Texas perennial.
<b>Datura meteloides</b> Angel's Trumpet	May-Oct	White, Purple	3'x 3' x 3'	# 1 \$3.75	Short lived but reseeds easily. Very exotic 8" long trumpet shaped flowers opening at dusk through mid-morning. Very fragrant. Double bloomer.
<b>Delosperma cooperii</b> Hardy Ice Plant	May-Sept	Violet-Pink Salmon-Pink	18" x 8" x 8"	8 ct \$2.00 # 1 \$3.75	A trailing mat of succulent leaves with bright 1" cactus-like flowers. Needs good drainage. Variety 'Mesa Verde' has a light salmon flower.
<b>Dianthus Hybrids</b> Cheddar Pinks	Mar-May Oct-Nov			8 ct \$2.00 # 1 \$3.50	Dainty darlings of the perennial garden. Who can resist? Spicy, clove fragrance, pretty blue-gray evergreen foliage in tight and tidy mounds. Useful in borders, rock gardens and in mixed pots. Must have good drainage.
<b>'Bath's Pink'</b>		Pale Pink	8" x 5" x 8"		Dainty single flower with picotee edge.
<b>'Bright Eyes'</b>		White/Red	8" x 8" x 12"		Double White flower with a red center.
<b>'Early Bird Frosty'</b>		White	8" x 5" x 8"		Double flower. Looks like a mini -carnation.

'Early Bird Radiance'			Red	8" x 5" x 8"			Double flower resembling a mini-carnation.
'Early Bird Sherbet'			Hot Pink	8" x 4" x 7"			Double flower resembling a mini-carnation.
'Eastern Star'			Red/Raisin	8" x 6" x 8"			Single bi-color flower is red with a prominent raisin eye.
'Fire Star'			Red/Crimson	8" x 6" x 8"			Single red flower with a small crimson red eye.
'Firewitch'			Hot Pink	8" x 5" x 8"			Dainty single flower with picotee edge, hot pink.
'First Passion'			Red	10" x 6" x 10"			Double flower, resembling a mini-carnation.
'Neon Star'			Neon Pink	8" x 6" x 8"			Single flower in solid neon pink.
'Starburst'			Red/White	6" x 4" x 8"			Semi-double. Red with pinkish white accents and border.
'Starlette'			Bubblegum/Raspberry	8" x 4" x 7"			Double flower of bubblegum pink with a raspberry center and heavily pinked edges.
'Tickled Pink'			Bubblegum Pink	11" x 6" x 10"			Solid colored, semi-double flower.
<b>Echinacea purpurea</b> Coneflower	Jun-Aug						One of the most popular perennials for north Texas. Very hardy and drought tolerant once established. Sturdy flowers are composed of petals surrounding a prominent stiff bristly cone.
'Butterfly Orange Skipper'			Orange	18" x 6" x 18"	# 1	\$5.50	Compact and sturdy. Named after butterfly of the same name.
'Cheyenne Spirit'			Mix	15" x 6" x 24"	# 1	\$3.50	Mix of red, orange, yellow, pink, purple and blends. Well branched, compact.
'Magnus'			Purple	18" x 6" x 24-36"	# 1	\$3.50	Most common variety seen in north Texas gardens. Very hardy, easy to grow.
'Pow Wow Wild Berry'			Dark Purple	12" x 6" x 12-18"	# 1	\$3.75	2010 AAS winner. Compact and heavily branched, very floriferous.
'Pow Wow White'			White	12" x 6" x 12-18"	# 1	\$3.75	Compact and heavily branched variety with many more blooms.
'Prairie Splendor'			Pink	18" x 6" x 24"	# 1	\$3.50	Short, compact and well branched, large flowers.
'White Swan'			White	18" x 6" x 24-36"	# 1	\$3.50	Large flower, heavy scent.
<b>Engelmannia peristenia (E.pinnatifida)</b> Engelmann Daisy or Cutleaf Daisy	April-July		Yellow	2' x 2' x 2.5'	# 1	\$3.50	Large, coarse and heavily toothed basal foliage. Daisy-like, 1" flowers. Petals will curve backwards with intense heat. In well amended soil plant becomes floppy. Needs well drained soil. Named after German-American botanist George Engelmann.
<b>Equisetum hyemale</b> Horsetail Reed				24" x 36"	# 1	\$4.00	Evergreen, reed-like perennial. The stems are cylindrical, jointed, hollowed and have rough longitudinal ridges. Brown spore producing strobilus is found at the tip of fertile stems. Can tolerate prolonged wet conditions. It is a living relic from an age before dinosaurs.
<b>Erysimum sp.</b> Wallflower	Feb-Apr		Apricot, Lavender, Yellow	18" x 18" x 24"	8 ct # 1	\$2.00 \$3.75	Fragrant flower clusters in cool season. Great source of early spring color. Needs well drained soil. Variegated forms available also.
<b>Euonymus fortunei 'Coloratus'</b> Purple Wintercreeper				12" x 6" x 12-18"	18 ct	\$0.75	Semi-evergreen, dense and woody stemmed ground cover. Leaves turn purple in the winter. Tolerates a wide range of soils. It will climb a vertical surface.
<b>Eupatorium greggii</b> Hardy Ageratum							(See Conoclinium greggii)
<b>Euphorbia x martinii 'Ascot Rainbow'</b> Variegated Hardy Spurge	Feb-Apr		Lime/Cream	20" x 20" x 24"	# 1	\$4.50	Evergreen with variegated green and gold foliage, upright in habit. During cool weather, the foliage is tinged red. Flowers are in billowy open clusters held above the foliage. Must have well drained soil.
<b>Euphorbia myrsinites</b> Donkey Tail Spurge	Feb-Apr		Chartreuse	12" x 4" x 6"	# 1	\$3.75	Long trailing arms of gray foliage with vibrant flowers in late winter and early Spring. Short lived but reseeds easily. Must have good drainage.
<b>Euphorbia 'Tiny Tim'</b>	Apr-June		Chartreuse	15" x 8-10" x 12"	# 1	\$4.00	Very compact habit. Leathery dark green leaves with bronzy red stems. Long lasting chartreuse flowers with bright red eye. Very suitable for containers.
<b>Farfugium j. 'Aureomaculata'</b> Leopard Plant	Aug-Nov		Yellow	24" x 18" x 30"	# 1	\$5.50	Unusual member of the Aster family. 6"- 8" glossy, evergreen, kidney-shaped leaves with irregular yellow spots that form soft attractive mounds of foliage. Clusters of daisy-like flowers are borne on stalks held above the leaves.
<b>Farfugium j. 'Crispatum'</b> Crested Leopard Plant	Aug-Nov		Yellow	24" x 20" x 30"	# 1	\$5.50	Large, leathery, round, evergreen leaves with tight wavy edges form open mounds of foliage. Clusters of daisy-like flowers stand above foliage.
<b>Farfugium j. 'Gigantea'</b> Giant Leopard Plant	Aug-Nov		Yellow	2' x 2' x 3'	# 1	\$5.50	Grown for its' outstanding gigantic glossy round leaves. Leaves can get up to 12"-15" across. Likes moist well-drained soil. Daisy-like flowers above foliage.
<b>Fatsia japonica</b> Japanese Aralia	Aug-Sept		White	3-6' X 6'	10"	\$10.50	Tropical look with large palmate leaves. Globe like flower clusters. Needs rich moist, well drained soils. Hot summer sun will burn the leaves. Hardiness can be marginal in a harsh north Texas winter.

NAME	BLOOM TIME	FLOWER COLOR	SIZE Spacing x Height x Bloom Height	PRICE Per Pot	DESCRIPTION	
Forsythia 'Lynwood Gold'	March	Gold	6' x 6-8'	10"	\$10.50	A true harbinger of spring. Forsythia blooms when little else has awakened from winter dormancy. It is a deciduous shrub of unruly habit. Prune just after blooming so as to not remove next springs flowers. It is nice planted with flowering quince and early daffodils. It is very tolerant of many soil types, as long as soil is well drained.
Gaillardia grandiflora Blanket Flower	May-June	Red/Yellow	10" x 10" x 10"	8 ct # 1	\$2.00 \$3.50	Daisy-type flowers with bands of color resembling patterns on a blanket. Doesn't like wet conditions during the winter months. Short lived perennial.
Gaura lindheimeri Gaura						(See Oenothera lindheimeri)
Glechoma hederacea Creeping Charlie			9" x 2"	8 ct	\$1.80	A low maintenance ground cover with scalloped round green leaves or a much slower attractive variegated form. Tiny lilac flowers grow in leaf axils.
Habranthus robusta Pink Rainlily	Aug-Sept	Pale Pink	6" x 6-10"	8ct	\$2.50	Native to Brazil. Funnel shaped flowers appear when late summer rains are preceded by several months of drought. Narrow strap-like leaves. Needs well drained soil. Will naturalize.
Hedera colchica Persian Ivy			1' x 1'	18 ct	\$0.95	Large dark green leathery leaves, closely resembling H. helix but leaves are larger. More disease resistant than English Ivy. Slower growing than English.
Hedera helix English Ivy			1' x 10'	18 ct	\$0.95	Self-supporting evergreen vine with lobed leaves. Old stand-by groundcover for shady under story areas. Will grow up walls and trees, across lawns and slopes. Once established must be kept under control. Variegated form also available, called 'Glacier'.
Heliopsis helianthoides 'Summer Sun' False Sun Flower	Jul-Sept	Gold	2' x 2' x 2'	# 1	\$3.50	Bright 2-3" single to double daisy flowers held on stiff upright stems. Coarse foliage. Loves summer heat. Dead head to prolong blooming.
Helleborus orientalis Lenten Rose	Feb-Mar	White/Purple	15" x 15" x 15"	8 ct # 1	\$2.75 \$7.50	True harbinger of spring. Cup-shaped, nodding flowers in clusters of 1-4 held above leathery palmate evergreen foliage. Flowers last for weeks. Great in mixed beds or as a woodland groundcover. Blooms during Lent.
Hemerocallis Daylily	May-July					One of our most popular perennials with limitless flower types and colors.
'Franz Hals'		Orange/Rust	18" x 20" x 28"	# 1	\$4.50	Mid-season bloom , narrow petals, pale yellow midrib.
'Gentle Shepherd'		White	18" x 24" x 36"	# 1	\$4.50	Early-mid season bloom. Semi-evergreen. White with green throat.
'Happy Returns'		Bright Yellow	12" x 12" x 18"	# 1	\$4.50	Early season bloom, Semi-evergreen, 3" flower. Fragrant.
'Hyperion'		Yellow	18" x 30" x 40"	# 1	\$4.50	Mid-season bloom, Dormant, 5" flower. Fragrant.
'Joan Senior'		Creamy White	18" x 12" x 25"	# 1	\$4.50	Early Mid-season bloom, Evergreen, 6" flower.
'Little Business'		Red/Green Throat	18" x 12" x 17"	# 1	\$4.50	Early-mid season bloom, semi-evergreen, dwarf.
'Pandora's Box'		Cream/Purple Eye	18" x 16" x 20"	# 1	\$4.50	Early-mid season bloom, evergreen foliage, fragrant.
'Pretty Woman'		Pastel Pink	18" x 18" x 28"	# 1	\$4.50	Mid-season bloom, evergreen foliage, large 6" flower.
'Rajah'		Red-orange	18" x 20" x 40"	# 1	\$4.50	Mid-season bloom, dormant foliage.
'Siloam Grace Stamile'		Red	12" x 12" x 24"	# 1	\$4.50	Early-mid season bloom, 2" flower, fragrant.
'Strawberry; Candy'		Coral Pink	18" x 24" x36"	# 1	\$4.50	Early bloom, semi-evergreen. Coral pink with strawberry eye. Ruffled 4-5" flower.
'Stella d'Oro'		Gold	12" x 9" x 12"	# 1	\$3.50	Early-mid season bloom, dormant, rebloomer, fragrant, dwarf.
Heuchera 'Crimson Curls' Coral Bells	May	White	12" x 10" x 18"	# 1	\$5.00	Ruffled red-brown leaves with purple-red undersides. Typical of Heucheras, a rich moist well drained soil is preferred. Protect from hot summer sun and dry winds.
Heuchera micrantha 'PalacePurple' Coral Bells	May	Cream	9" x 6" x 18"	8 ct # 1	\$2.00 \$3.50	Deep bronze-purple foliage with sprays of small bell shaped flowers dangling above the pretty leaves. Does best in cool season. Protect from hot summer sun and dry winds.

<b>Heuchera 'Plum Pudding'</b> Coral Bells	May		White	9" x 8" x 16"	# 1	\$4.50	A basal mound of silvery plum leaves with darker purple veins. Some gardeners remove the flower stalks and just enjoy the foliage. Protect from hot Texas summer sun. Likes moist rich soil.
<b>Heuchera 'Silver Scrolls'</b> Coral Bells	May		White	12" x 10" x 18"	# 1	\$4.00	Sliver leaves with maroon veins and undersides. Rich, moist, well drained soil is ideal. Protect from hot dry winds and scorching summer sun. Great cool season color.
<b>Heuchera 'Soda Cherry Cola'</b>	May		Red-Salmon	9' x 6" x 18"	# 1	\$5.50	Very compact mound of copper-colored leaves. The leaves are most colorful when the days are sunny and cool. Protect from hot summer sun and dry winds.
<b>Heuchera 'Soda Ginger Ale'</b>	May		Yellow-Chartreuse	9" x 9 x 18"	\$1	\$5.50	Amber leaves with frosty highlights. Great for its contrasting color. Prefers rich moist soil and protection from hot summer sun and dry winds.
<b>Heuchera 'Soda Rootbeer'</b> Coralbells	May		Cream	9" x 6" x 18"	# 1	\$5.50	Mounds of rootbeer colored (reddish-brown) leaves add color and texture to cool season pots and beds. The small delicate flowers are born on slender stalks above the foliage. Rich moist soil is a must. Protect from sun and dry winds in the summer.
<b>Hibiscus coccineus 'Texas Star'</b> Hardy Hibiscus	Jun-Sept		Red	4' x 6' x 6'	# 1	\$3.75 10"	Hemp-like foliage on vigorous vertical stems. 6 " flowers with reflexive, widely space petals. Texas native.
<b>Hibiscus x 'Lord Baltimore'</b> Hardy Hibiscus	Jun-Sept		Red	5' x 5' x 5'	# 1	\$3.75 10"	Texas 'Superstar' Large pure red flowers. Deeply lobed leaves.
<b>Hibiscus moscheutos 'Carafe Series'</b> Hardy Hibiscus	Jun-Sept				10"	\$9.50	The 'Carafe Series' has a denser, fuller habit and excellent branching. 7" to 10" flowers.
<b>'Chablis'</b>			Wht w/Pink Blush	3' x 3' x 3'			
<b>'Grenache'</b>			Deep Pink	3' x 3' x 3'			
<b>'Pinot Noir'</b>			Deep Red	3' x 3' x 3'			
<b>Hibiscus moscheutos 'Cordial Series'</b> Hardy Hibiscus	Jun-Sept						Full and heavily branched with maple-like leaves. 8" to 10" flowers Great for small gardens.
<b>'Brandy Punch'</b>			Pink/BronzeFoliage	36" x 42"	10"	\$9.50	
<b>'Cherry Brandy'</b>			RedBronzeFoliage	36" x 42"	10"	\$9.50	
<b>'Peppermint Schnapps'</b>			Pink/Red Streaks	36"x 42"	10"	\$9.50	
<b>Hibiscus moscheutos 'Luna Series'</b> Hardy Hibiscus	Jun-Sept						The 'Luna Series' is well branched and compact. 6" to 8" flowers. Great in containers and in beds. Like all perennial hibiscus, they are slow to emerge.
<b>Luna Rose</b>			Pink	24" x 42" x 42"	# 1	\$3.75	
<b>Pink Swirl</b>			Pink/White Swirled	24" x 42" x 42"	# 1	\$3.75	
<b>Luna Red</b>			Red	24" x 42" x 42"	# 1	\$3.75	
<b>Luna White</b>			White	24" x 42" x 42"	# 1	\$3.75	
<b>Hibiscus syriacus (Althea)</b> Rose of Sharon	Jun- Sept		Pink,Purple,White	5-6' X 6-8"	10"	\$10.50	Hardy, deciduous, upright, V-shaped shrub. Very prolific summer blooms come in both single and double. Loves our north Texas conditions and is easy to grow. Needs well drained soil. It is the national flower of South Korea, where it originated.
<b>Hosta</b>	Jun-Jul						Although Hostas do better in the North, they are so tough that some varieties can perform quite well here. Need rich organic, well-drained soil. Protect from slugs.
<b>'Big Daddy'</b>			White	18" x 18" x 36"	# 1	\$4.50	Large quilted blue leaves that cup with age.
<b>'Blue Angel'</b>			White	24" x 24" x 36"	# 1	\$4.50	Large sear suckered powder-blue heart-shaped leaves.
<b>'Earth Angel'</b>			Lavender	24" x 24" x 36"	# 1	\$4.50	Variiegated sport of 'Blue Angel!'. Large blue green heart shaped leaves with creamy edges.
<b>'Flavocircularis'</b>			Lavender	24" x 17" x 24"	# 1	\$4.50	Heart shaped, puckered blue-green leaves with a gold edge.
<b>'Francee'</b>			Pale Lavender	24" x 18" x 30"	# 1	\$4.50	Green leaves with a narrow white margin.
<b>'Frosted Jade'</b>			White	24" x 24" x 36"	# 1	\$4.50	Green with distinct white edge. Beautiful form.
<b>'Guacamole'</b>			White	24" x 18" x 30"	# 1	\$4.50	Large chartreuse leaves with blue-green edge. Fragrant blooms.
<b>'Minute Man'</b>			Lavender	24" x 18" x 30"	# 1	\$4.50	Sport of Francee. Thick dark green leaves with bright white edges and corrugated.
<b>n. 'Sum and Substance'</b>			Lavender	36" x 36" x 48"	# 1	\$4.50	Very large, heart-shape, chartreuse, ribbed. More golden with more light.
<b>nigrescens 'Victory'</b>			White	24" x 24 " x 36"	# 1	\$4.50	2015 Hosta of the Year. Large specimen.Large heart shaped. Chartreuse/cream margins.
<b>'Patriot'</b>			Lavender	24" x 18" x 30"	# 1	\$4.50	Sport of Francee. Dark green leaves w/crisp white margins. Recommended for the south.
<b>'Royal Standard'</b>			White	18" x 18" x 30	# 1	\$3.75	Large Green leaves slightly wavy and puckered. Fragrant flower.
<b>'So Sweet'</b>			White w/Lavender	18" x 12" x 30	# 1	\$4.50	Good hosta for northTexas. Green with creamy edge.
<b>'Stained Glass'</b>			Lavender	15" x 15" x 24"	# 1	\$4.50	Gold leaves with green margins. 2006 Hosta of the Year.
<b>'Undulata Albomarginata'</b>			Lavender	18" x 15" x 24"	# 1	\$3.75	Wavy white edges. Good for north Texas. May lose color in extreme heat.

NAME	BLOOM TIME	FLOWER COLOR	SIZE Spacing x Height x Bloom Height	PRICE Per Pot	DESCRIPTION
<b>Hydrangea macrophylla 'Matilda Gutches'</b> Mophead hydrangea	May-June	Pink/Blue	3' x 3'	10" \$12.50	Large globular flower clusters bloom on previous years growth. Must have rich, moist, well drained soil. Needs protection from drying winds. Flowers are pink in alkaline soils and they are blue in acidic condition.
<b>Hydrangea quercifolia 'Snow Queen'</b> Oak Leaf Hydrangea	May-Jun	White	8' x 8'	10" \$13.50	A selection with pure white flowers. Foliage turns bronze and flowers turn pink to tan in the fall. Attractive exfoliating bark. Deciduous. For small areas 'Sikes Dwarf' is recommended.
<b>Hymenocallis</b> Spider Lily	Jun	White	3' x 3' x 4'	# 1 \$4.50 10" \$8.50	Very lush tropical foliage of thick strap-like leaves radiating from the center. Delicate 6" wide spidery flowers on stalks above the foliage. Very hardy. Takes most any soil. Can tolerate wet or dry conditions.
<b>Hymenoxys</b> Four Nerve Daisy	May-Aug	Yellow	9" x 8" x 10"	# 1 \$4.50	Clumping evergreen foliage with solitary daisy occurring at the top of a bare stalk. Four veins visible on petal, hence 'Four Nerve'. Great for Xeriscape.
<b>Hypericum patulatum 'Henryii'</b> St. John's Wort	May	Yellow	3' x 3'	# 1 \$4.50	Slow to establish, but this selection performs and blooms well in north Texas. Semi-evergreen woodland shrub with a soft fountain habit. Drought tolerant.
<b>Hypericum 'Hypearls'</b>	June-July	Yellow	2' x 2'	# 1 \$4.00	Low growing shrub. Flowers on new wood, followed by cream colored berries that turn to red. Appreciates protection from hot Texas summer sun.
<b>Iberis sempervirens</b> Candy Tuft	Mar-Apr	Snowy White	18" x 4" x 4"	8 ct \$2.00 # 1 \$3.50	Mounds of evergreen foliage covered with clusters of very bright flowers in spring. Great for borders or spilling over walls. Trim back to keep tidy.
<b>Iris germanica</b> German Bearded Iris	Mar-Apr			# 1 \$5.00 # 1 \$5.00 # 1 \$5.00 # 1 \$5.00 # 1 \$5.00 # 1 \$5.00	Soft green lance-like leaves that shoot straight up from the soil. Beautiful bearded flowers that come in a wide assortment of colors and combinations.
<b>'Carnival Song'</b>		Pink/Purple		# 1 \$5.00	
<b>'Earl of Essex'</b>		White/Purple		# 1 \$5.00	
<b>'Eternal Bliss'</b>		White		# 1 \$5.00	
<b>'Matinata'</b>		Purple		# 1 \$5.00	
<b>'October Sun'</b>		Bright Yellow		# 1 \$5.00	
<b>'Romantic Mood'</b>		Pink		# 1 \$5.00	
<b>Iris Louisiana</b> Louisiana Iris	May			# 1 \$4.00 # 1 \$4.00 # 1 \$4.00 # 1 \$4.00 # 1 \$4.00 # 1 \$4.00	Semi-evergreen sword-like foliage makes a great vertical accent. Easy to grow in regular garden soil and or at waters edge.
<b>'Dwarf Sky Blue'</b>		Light Blue	24" x 24" x 36"	# 1 \$4.00	
<b>Lavender</b>		Lavender	24" x 40" x 40"	# 1 \$4.00	
<b>Purple</b>		Purple	24" x 40" x 40"	# 1 \$4.00	
<b>'Rubie's Love'</b>		Crimson/Yellow	24" x 40" x 40"	# 1 \$4.00	
<b>'Sloan's Yellow'</b>		Yellow	24" x 40" x 40"	# 1 \$4.00	
<b>Violet</b>		Violet	24" x 40" x 40"	# 1 \$4.00	
<b>Iris pseudacorus</b> Yellow Flag	May	Yellow	4' x 5'	# 1 \$3.75	Upright deep green sword-like foliage. Very vigorous.
<b>Kniphofia 'Flamenco'</b> Red Hot Poker	Jun-Jul	Orange/Red/ White	3' x 2' x 4'	# 1 \$3.50	Yucca-like foliage with dramatic flower spikes. Requires good drainage.
<b>Lamium galeobdolon</b> False Lamium		Yellow	9" x 8"	8 ct \$1.80	Semi-evergreen ground cover with silver variegated foliage. Slow to establish but very tough. Takes the place of Lamium, which does not do well in north Texas heat.

<b>Lavandula angustifolia</b> English Lavender	May-July		Lavender	18" x 18" x 24"	# 1	\$4.00	Although called English lavender, it is not native to England. It is called that due to the fact that it formed the basis for the lavender oil industry in England in the 1700's. Because of the lower levels of camphor in the flowers and foliage English lavender is considered the sweetest of lavenders, therefore most sought after by culinary experts. Must have well drained alkaline soils.
<b>Lavender X intermedia 'Phenomenol'</b>	May-July		Purple	18" x 18" x 24"	# 1	\$4.00	This lavender is bred for heat and humidity tolerance. It is also a good lavender for drying. As with all lavenders, excellent drainage is a must.
<b>Lavender x intermedia 'Provence'</b> Lavender Hybrid	May-July		Blue	24"-36" x 24" x 36"	8 ct # 1	\$1.80 \$3.75	Lavender hybrid that is bred to tolerate heat and humidity better. 'Provence' has high essential oil content and robust growth. In addition to the spring bloom flush, 'Provence' can bloom again in the fall. Good air circulation and drainage are essential. Likes an alkaline soil.
<b>Lavandula stoechas</b> Spanish Lavender	May- July		Violet Purple	18" x 18" x 24"	8 ct # 1	\$1.80 \$3.75	Native to the Mediterranean. As with other lavenders it blooms best in the spring and is enjoyed as a fragrant gray-green shrub the rest of the year. The bloom looks like a little pineapple with rabbit ears on top. Prefers chalky well drained soils.
<b>Lavandula s. 'Silver Anouk'</b>	May - July		Blue	18" x 18" x 24"	# 1	\$4.00	Unique hybrid that is characterized by a more silvery-white foliage and compact heavily branched habit. Needs good drainage.
<b>Leucanthemum x 'Becky'</b> Shasta Daisy	Jun-Jul		White	18" x 9" x 30"	# 1	\$3.50	Large daisy flowers on strong stems. Improved variety. Good for north Texas.
<b>Leucanthemum x 'Freak'</b> Shasta Daisy	May-Jun		White	18" x 6" x 14"	# 1	\$4.00	Double rows of ruffley petals. A fun variation of the traditional shasta daisy.
<b>Leucanthemum vulgare</b> Oxeye Daisy	Apr-May		White	12" x 6 x 24"	# 1	\$3.50	Easy daisy to grow. It natrualizes by seed. Blooms earlier than other daisies.
<b>Leucophyllum sp</b> Texas Sage	May-Oct		Purple	3' x 4'	10"	\$13.50	Popular silver leaf, heat, drought, salt tolerant native. Takes reflected heat. Is semi-deciduous. Does not like humidity or standing water. Must have well drained soil. Will flower when rain is in the foecast, hence the name 'Barometer Plant' varieties such as 'Lynn's Everblooming' are not dependent upon high humidity levels to bloom.
<b>Liatris spicata</b> Spike Gayfeather	Jun-Jul		Purple, White	12" x 18" x 36"	# 1	\$3.75	Tall flower spikes open from the bottom towards the tip on this flowering wand.
<b>Lilium asiaticum</b> Asiatic Lily	Jun-Jul		Orange, Red, Yellow, White	1' x 2-3'	# 1	\$4.00	Striking lily blooms borne atop tall straight stems. Unlike Oriental lilies, Asiatic lilies do not have a scent. Well drained organically rich soils are required. They are beautiful accents for porches patios, pots as well as gifts.
<b>Liriope muscari 'Big Blue'</b> Lily Turf	Aug-Sept		Purple	12" x 12"	18 ct	\$0.75	Evergreen and clumping. Does not spread by underground rhizomes. Flower spike is borne above foliage. Does well in dry shade. Needs protection from hot reflected heat in hottest part of north Texas summer. Also needs more water.
<b>Liriope muscari 'Evergreen Giant'</b>	Aug-Sept		Purple	12" x 24" x 24"	# 1	\$4.00	Evergreen, clumping, tall groundcover, border or accent.
<b>Liriope muscari 'Purple Explosion'</b>	Aug-Sept		Purple	8" x 8" x 10"	# 1	\$3.50	Very heavy bloomer. Clumping evergreen. Drought and deer resistant. Light shade yields a darker green leaf.
<b>Liriope muscari "Silvery Sunproof"</b>	Aug-Sept		Purple	12" x 15" x 18"	18 ct	\$0.75	Green and Yellow Striped leaves. Clumping evergreen. For tidy look, cut back in early spring.
<b>Liriope muscari 'Super Blue'</b>	Aug-Sept		Purple	2' x 2'	# 1	\$3.50	Clumping evergreen grass. Improved variety, crown rot resistant. Taller than 'Big Blue'.
<b>Liriope spicata</b> Creeping Lily Turf	Aug-Sept		Lavender	12" x 12" x 15"	18 ct	\$0.75	Variegated (Silver Dragon)and green varieties. Grass-like clumps spread by rhizomes. Flower spike is barely taller that the leaves. Makes a dense groundcover. Excellent for erosion control. Mow in the spring to remove the old foliage.
<b>Lysimachia nummularia 'Gold'</b> Golden moneywort				9" x 1"	8 ct	\$1.80	Mat-forming ground cover with round leaves. Bright golden leaves. Prefers wet conditions.
<b>Malvaviscus drummondii</b> Turk's Cap	Jul-Oct		Red, Pink	3' x 4' x 4'	# 1 # 1 10"	\$3.75 \$5.00 \$8.50	Very tough plant for all conditions. Lush green foliage with small, unopened Hibiscus-like flowers, that resemble a turban.

NAME	BLOOM TIME	FLOWER COLOR	SIZE Spacing x Height x Bloom Height	PRICE Per Pot	DESCRIPTION
<b>Mazus reptans</b>	May-June	Lavender	12" x 2"	8 ct \$1.80	Non-evergreen mat forming groundcover that roots at the nodes. Will naturalize. Likes rich well drained moist soils. Will tolerate some foot traffic. Good groundcover for small areas and in between stepping stones.
<b>Melampodium leucanthum</b> Blackfoot Daisy	Apr-Nov	White	24" x 10" x 10"	8 ct \$2.00 # 1 \$4.00	Continually covered with happy little 1" daisies during the growing season. Will not tolerate wet soil. Short lived perennial, sometimes used as an annual.
<b>Monarda didyma 'Balmy' series</b> Dwarf Monarda	May-July	Purple, Rose	10" x 12"	# 1 \$3.75	Tight and compact bee balm. Great for containers and confined garden spaces. 'Balmy' series has the same monarda type blooms, shaggy pom-poms. Aromatic leaves and flowers can be used in herbal teas.
<b>Muehlenbeckia axillaris</b> Creeping Wire Vine			6" x 4"	8 ct \$2.00	Low creeping groundcover with wiry stems covered with dark, glossy green leaves. Has an interesting texture. Inconspicuous white flower. Can be mown yearly to encourage thicker growth. Can be used for topiary.
<b>Musa basjoo</b> Hardy Banana			3-5' x 5-10'	10" \$8.50	Fertilize regular during the growing season. Will freeze down in north Texas winters, therefore will not produce fruit. Cut down after first killing frost and mulch heavily.
<b>Musa 'Bordelon'</b> Ornamental Banana			9'- 14'	# 1 \$4.50	Discovered in Bordelonville, LA. Foliage has maroon undersides with maroon streaks on the top sides. For best growth results, temperatures should be above 65 degrees. It needs about 12 months frost free to produce a flower stalk. The fruit is inedible. Makes a nice container plant. Hardiness zone 8-9.
<b>Nepeta faassenii 'Walker's Low'</b> Catmint	Apr-Sept	Light Blue	24" x 12" x 12"	8 ct \$1.80 # 1 \$3.50	Vigorous gray-green foliage. Requires occasional pruning to keep in bounds. Can tolerate dry conditions.
<b>Oenothera lindheimeri</b> Guara	May;-Aug	White Pink	12" x 8" x 18"	# 1 \$3.50	Basal rosette of leaves topped with slender wands of small butterfly like flowers. Makes a nice airy filler in the perennial garden. Named after the Father of Texas Botany, Ferdinand Jacob Lindheimer.
<b>Ophiopogon japonicus</b> Mondo Grass			8" X 5"	18 ct \$0.75 18 ct \$0.95	Fine textured clumping evergreen grassy groundcover. Excellent for shady areas. Requires minimum attention once established. Shear back in early spring before new growth appears. Dwarf variety available, it grows to about 3" tall. Variegated also available.
<b>Oxalis crassipes</b> Pink Wood Sorrel	Feb-Jun	Pink	9" x 6" x 6"	8 ct \$2.00	Mounds of clover like foliage. Spring and Fall bloomer. Goes dormant in the heat.
<b>Oxalis triangularis</b> Purple Shamrock	Apr-Oct	Pale Pink	12" x 6" x 6"	8 ct \$2.00	Bold purple shamrock foliage that disappears in winter and re-emerges in spring. Easy to grow.
<b>Pachysandra terminalis</b> Japanese Spurge			6" x 6"	8 ct \$2.00	Slow growing and evergreen. Waxy leaves are clustered at stem apex. Prefers moist well-drained acidic soils, can tolerate dry shade.
<b>Pavonia braziliensis</b> Brazilian Rock Rose	May-Oct	White/PurpleEye	3' x 3' x 3'	# 1 \$3.50	Semi-woody shrub that nearly freezes to the ground in the winter. Small hibiscus like flowers. Re-seeds easily. Very drought tolerant and suitable for xeriscapes. Shear often to keep compact.
<b>Pavonia lasiopetala</b> Rock Rose	May-Oct	Pink	3' x 3' x 3'	# 1 \$3.50	Native to Texas. Very popular due to its long bloom period and versatility to full or part sun and to dry or irrigated soils. Woody at the base and herbaceous on top. Heart shaped leaves and very open branching. The hibiscus-like flowers open in the morning. Frequent pruning will keep plant compact. Re-seeds easily. High heat tolerance.
<b>Penstemon barbatus 'Rondo Mix'</b> Hybrid Beard Tongue	Apr-May	Pink, Purple, Red Mix	15" x 6" x 16"	# 1 \$3.50	Glossy, green rosettes produce spikes of tubular flowers. Requires good drainage.
<b>Penstemon digitalis 'Huskers Red'</b>	Apr-May	White	18" x 18" x 24"	# 1 \$3.50	White tubular flowers contrast against striking maroon foliage and stems.

<b>Penstemon 'Prairie Twilight'</b> Hybrid Beard Tongue	April-May		Pink/White	18" x 18" x 24"	# 1	\$3.75	Green Lance-like foliage on upright in habit. Flowers are on verticle spikes. Cut back after blooming to promote more flowers.
<b>Penstemon schmidel 'Little Red Riding Hood'</b>	April-May		Bright Red	18" x 18" x 24"	# 1	\$4.00	Super bright tubular red flowers atop Christmas green leaves. Makes a statement.
<b>Penstemon tenuis</b> Brazos Penstemon	Apr-May		Lavender-Pink	18" x 10" x 24"	# 1	\$3.50	Grows under many conditions and reseeds easily. Produces a profusion of spiked flowers. Texas native that does well in north Texas. Evergreen rosette.
<b>Peony</b>	Apr-May		Pink, Red, White	30" x 30" x 30"	10"	\$14.50	Favorite for bridal bouquets. Makes a lovely cut flower, also stunning left in the landscape. Needs protection from hot afternnon sun in north Texas, leaves will suffer burn when very hot. Likes a well drained rich soil.
<b>Perovskia atriplicifolia</b> Russian Sage	Jun-Sept		Silver Blue	3' x 2' x 3'	# 1	\$3.50	Sparse wands of silver-gray foliage tipped with narrow spiked flowers highlight the landscape. Responds well to being cutback. Needs well drained soil.
<b>Persicaria capitata</b> Pink Bubbles	Jun-Sept		Light Pink	12" x 3"	8 ct	\$2.00	Mat of burgundy-green leaves with a darker burgundy halo. Flowers resemble miniature popcorn balls.
<b>Phlomis russeliana</b> Jerusalem Sage	Jun-Aug		Yellow	24" x 24" x 30"	# 1	\$3.75	Same as above but the plant is more vigorous and the leaves are greener.
<b>Phlox divaricata 'Blue Moon'</b> Louisiana Phlox	Mar-Apr		Blue	12" x 6" x 12"	8 ct # 1	\$2.50 \$4.50	Improved variety of Louisiana phlox. Has glossy, evergreen leaves. Flower clusters in spring. Fragrant.
<b>Phlox paniculata</b> Summer Phlox	Jun-Aug						Upright plants with large fragrant, flower panicles. These selections are resistant to powdery mildew. They prefer a rich moist organic soil and need good air circulation. Also benefit from summer mulch to keep roots cool. Dead head for repeat blooming.
'Bubblegum'			Pink	24" x 30" x 36-40"	# 1	\$4.50	
'Coral Crème Drop'			Coral	24" x 30" x 36-40"	# 1	\$4.50	
'David'			White	24" x 30" x 36-40"	# 1	\$4.50	
'John Fanick'			Lt Pink w/rosy eye	24" x 30" x 36-40"	# 1	\$4.50	
'Robert Poore'			Violet Pink	24" x 30" x 36-40"	# 1	\$4.50	
'Victoria'			Dark Pink	24" x 30" x 36-40"	# 1	\$4.50	Victoria is a Texas Super Star. Very hardy, tolerates heat and drought.
<b>Phlox 'Paparazzi'</b>	Mar-May		Lavender, Pink Purple,White	18" x 8" x 10"	# 1	\$4.00	Hybrid Phlox with subulata type flowers and glossy green leaves. Low growing mounding habit. Good for containers and borders. Likes moist, rich soil. Mulch in the summer to keep roots cool.
<b>Phlox pilosa</b> Prairie Phlox	Mar-May,y		Pink	12" x 10" s 15"	# 1	\$3.50	Deciduous perennial. Fragrant flowers. Needs well drained soil.
<b>Phlox subulata</b> Thrift	Feb-Mar				8 ct # 1	\$2.00 \$3.50	Forms a mat of needle-like evergreen foliage with incredible floral display in early spring. Requires summer irrigation and loose well-drained soil.
'Drummond's Pink'			Dark Pink	12" x 3" x 3"			
'Emerald Blue'			Baby Blue	12" x 3" x 3"			
'Snow Flake'			Pure White	12" x 3" x 3"			
<b>Phlyla nodiflora (Lippia)</b> Texas Frog Fruit	May-Aug		White	12" x 1" x 4"	8 ct	\$2.00	Deciduous Texas native groundcover that is very adaptable to either sand or clay, wet or dry soil, even floods or drought. It is also salt tolerant.The flowers look like miniature verbena flowers on tiny little stalks.
<b>Physostegia</b> Obedient Plant	Jul-Oct		Rosy Lavender White	12"x 15"x 18-36"	# 1 # 1	\$3.50 \$3.75	Square stems. Tubular flowers make showy spikes of color. A wonderful vertical accent in the perennial garden and it is easy to grow. Flowers can be swiveled into new positions and they will stay obediently. The rosy lavender spreads quickly. A dwarf white and less invasive variety (Crystal Peak) is available also.
<b>Platycodon grandiflorus</b> Balloon Flower	May-Aug		Blue, White,Pink	9" x 6" x 8"	8 ct # 1	\$2.00 \$3.50	Novel balloon-like buds open up to 2" star-shaped flowers. Slow to emerge in the spring.
<b>Poliomintha longiflora</b> Mexican Oregano	Jun-Oct		Pink/Lavender	2' x 3'	# 1	\$4.00	Semi-woody perennial with small pungent leaves that can be used as a seasoning substitute for oregano. Requires good drainage. Trim back occsionally to maintain a compact form. Tolerates highly alkaline soils.

NAME	BLOOM TIME	FLOWER COLOR	SIZE Spacing x Height x Bloom Height	PRICE Per Pot	DESCRIPTION	
<b>Prunus glandulosa rosea</b> Flowering Almond	Feb-Mar	Pink	3' x 3-4'	10"	\$10.50	Multi-branched, upright, deciduous flowering shrub. Plump double pink flowers line bare stems in early spring. Not particular about soil pH or type. Can not tolerate standing water. Is tolerant of urban pollution. Needs afternoon shade in hot north Texas summers. Prune just after flowering.
<b>Rosa 'Drift'</b> Groundcover Rose	May-Oct	Coral Pink, Red, Peach, White	2-3' x 1-2'	# 1	\$6.50	Low spreading habit. A cross between a full size ground cover rose and a miniature rose. "Drift" roses have smaller flowers, but numerous.
<b>Rosemary Topiary Cones</b>			1 x 2'	# 1 10"	\$8.50 \$20.00	Conical trees of rosemary. Great for hostess gifts, holiday tables, porches and patios as well as in the landscape.
<b>Rosemary officinalis 'Hills Hardy'</b> Upright Rosemary			3' x 3-4'	# 1	\$4.50	Upright and evergreen. Popular in herb gardens and in landscapes. Aromatic foliage can be used in cooking. Must have well drained soil. Trailing variety ('Prostratus') is also available.
<b>Rubus calycinoideis</b> Trailing Raspberry			8" x 3"	8 ct	\$2.00	A mat of semi-evergreen crinkled raspberry-like foliage turning rusty during winter. The leaf texture is very interesting. Pretty tucked into mixed pots and small rock gardens.
<b>Rudbeckia fulgida 'Goldsturm'</b> Black-Eyed Susan	July-Sept	Gold/Black	15" x 10" x 24-36"	8 ct # 1	\$2.00 \$3.50	One of the best perennials for north Texas. A bushy upright clump that produces a showy display of black-eyed golden yellow daisies.
<b>Ruellia brittoniana 'Dwarf'</b> Dwarf Mexican Petunia	May-Oct	Blue, Pink	12" x 12" x 8"	8 ct # 1	\$2.00 \$3.50	Sword shaped leaves form mounds. Bell shaped flowers bloom just atop the foliage. Blooms best in the heat and full sun. Makes a great border or groundcover. Discovered by Katie Ferguson at her nursery in Conroe, TX (hence, sometimes known as 'Katie's Dwarf ruellia').
<b>Rumex sanguineus</b> Bloody Sorrel, Dock			1' x 1' x 1'	8 ct	\$2.00	A rosette of elongated red-veined leaves. Grown as an ornamental foliage plant. Produces tiny flowers on an erect stem above the foliage.
<b>Salvia chamaedryoides</b> Germander Sage	June- Oct		18" x 12" x 18"	# 1	\$3.75	Semi-evergreen to deciduous. Spreading by underground runners. Makes a soft mound and has small gray leaves. Blooms sporadically through the growing season with bursts of color in early summer and fall. Appreciates protection from afternoon sun in hot north Texas summers. Does not like heavy clays. Needs well drained soil.
<b>Salvia farinacea 'Augusta Duelberg'</b> Mealy-Cup Sage	May-Nov	White	18" x 30" x 36"	# 1	\$3.75	Found in an un-irrigated cemetery in La Grange, TX. Very vigorous and drought tolerant. Looks like Salvia 'Henry Duelberg', but not quite as tall. Has a silvery white bloom.
<b>Salvia farinacea 'Evolution'</b> Mealy-Cup Sage	May-Oct	Violet-Purple White	12" x 12" x 18"	18 ct # 1	\$0.60 \$3.75	A new brighter flower color for the traditional S. farinacea. Just as hardy and tough. Grown as an annual but makes a good perennial also.
<b>Salvia farinacea 'Fairy Queen'</b> Mealy-Cup Sage	May-Oct	Blue/White	12" x 12" x 18"	# 1	\$3.75	Bi-color flowers make this S. farinacea a standout in the garden. Very tough, heat drought and humidity tolerant.
<b>Salvia farinacea 'Henry Duelberg'</b> Mealy-Cup Sage	May-Nov	Blue	24" x 36" x 44"	# 1	\$3.75	Very drought tolerant, sturdy and vigorous. The overall plant is like a mealy-cup sage on "steroids", the leaves and blooms are larger. This salvia was found in an un-irrigated cemetery at the gravesite of Henry Duelberg in La Grange, TX. A "Texas Superstar".
<b>Salvia farinacea 'Victoria Blue'</b> Mealy-Cup Sage	May-Oct	Blue	12" x 12" x 18"	18 ct # 1	\$0.60 \$3.50	Grown normally as an annual this plant is a reliable perennial if given well-drained soil and not irrigated in winter. Shear completely to the ground after the first flush of flowers fade for best results.
<b>Salvia greggii</b> Autumn Sage	Apr-Oct	Coral, Pink, Red, Violet, White, Yellow	30" x 24" x 30"	# 1 10"	\$3.75 \$8.50	Semi-evergreen desert-like shrub covered with short bright flower spikes. Benefits from occasional shearing to shape plant.
<b>Salvai guaranitica 'Amistad'</b>	Apr-Oct	Purple/Black Calyx	2' x 3' x 3-4'	# 1	\$3.75	Bright purple tubular flower with deep black calyx. Cut back to encourage more bloom.
<b>Salvia guaranitica 'Black and Blue'</b> Anise Scented Sage	Apr-Oct	Cobalt Blue/Black Calyx	2' x 3' x 3-4'	# 1	\$3.75	Very intense neon-blue flowers with black calyxes'. Has a crinkly leaf surface.

<b>Salvia leucantha</b> Mexican Bush Sage	Sept-Oct		Purple/White	4' x 3' x 4'	# 1	\$3.50	Narrow gray green foliage produces velvet flower spikes in the fall. A must for butterfly gardens.
<b>Salvia leucantha 'Santa Barbara'</b> Dwarf Mexican Bush Sage	Sept-Oct		Purple/White	3' x 2' x 3'	# 1	\$4.50	A wonderful dwarf version of the Mexican Bush Sage.
<b>Salvia microphylla 'Hot Lips'</b>	Apr-Oct		Red/White	30" x 30" x 36"	# 1	\$3.75	Sometimes bi-colored flowers appear alongside solid ones even on the same branch, this is more common during cool months. Has dainty, heart-shaped leaves. Thrives on neglect. Shear back to keep a nice form.
<b>Salvia 'Mystic Spires'</b>	Jun-Oct		Blue	24" x 30" x 40"	# 1	\$3.75	A vigorous salvia. Leaves and flower spike are larger than S. farinacea. Very hardy and drought tolerant. This is a more compact version of 'Indigo Spires'.
<b>Salvia nemorosa</b> Meadow Sage	Apr-Sept			18" x 8-18" x 12-18"	8 ct	\$2.00	Small salvia. Perfect for front borders. 6-8" long bloom spikes. Shear back after first bloom to rejuvenate foliage and to promote new blooms. Blooms are long lasting.
<b>'May Night'</b>			Purple Blue		# 1	\$3.50	
<b>'New Dimension Blue'</b>			Deep Blue				
<b>'New Dimension Rose'</b>			Rose-Pink				
<b>'Snow Hill'</b>			White				
<b>Salvia 'Otohal'</b>	May-Oct		Blue-Silver	2' x 2' x 3'	# 1	\$3.75	Hybrid of Salvia farinacea and Salvia azurea. The blue corolla is held by a silver-white calyx, thus appearing to be a bi-colored flower. This salvia has non-stop blooms during the growing season. Tolerant of most any soil as long as it is well drained. Great Salvia!
<b>Salvia oresbia</b>	Sept-Oct		Scarlet	3' x 3' x 4'	# 1	\$3.75	Great flower show for the summer's end with bright red spikes against chartreuse green leaves. Cut back occasionally to keep a tidier appearance. Drought tolerant. Texas tough.
<b>Salvia verticillata</b> Purple Rain Salvia	Apr-Jul		Smoky Purple	18" x 6" x 15"	# 1	\$3.75	Clumps of broad heart-shaped leaves bear stalks of flowers in late spring through summer.
<b>Salvia 'Silkes Dream'</b>	July-Oct		Red-Orange	30" x 24" x 36"	# 1	\$3.75	A cross between Salvia oresbia and Salvia microphylla. A real show stopper! 12"-15" bloom spikes (like S. oresbia ) cover this more compact salvia in late summer and fall. Just like other salvias, well drained soils are required. Deer resistant.
<b>Santolina incana</b> Lavender Cotton	Aug-Sept		Yellow	18" x 8" x 10"	8 ct	\$2.00	Silver evergreen border with ½" button-like flowers. Requires perfect drainage. Prune heavily after flowering.
					# 1	\$3.75	
<b>Santolina virens</b> Lavender Cotton	Aug-Sept		Yellow	24" x 8" x 8"	8 ct	\$2.00	Very similar to Santolina incana but has bright green foliage.
					# 1	\$3.75	
<b>Saxifraga stolonifera</b> Strawberry Geranium	April		White	9" x 4" x 12"	8 ct	\$2.00	Evergreen ground cover round gray-green leaves with silver veins and a maroon underside. Produces airy flowers that are borne on wispy stalks above the foliage.
<b>Scabiosa columbaria</b> Pincushion Flower	Jan-Dec			12"x6-8"x 8-10"	8 ct	\$2.00	Evergreen compact mounds of foliage produce 2" pincushion flowers held above the foliage. Flowers heaviest in spring and fall, but can be seen flowering year round. Requires good drainage.
<b>'Butterfly Blue'</b>			Lavender blue	12"x6-8"x 8-10"	# 1	\$3.50	
<b>'Pink Mist'</b>			Lavender pink	12"x6-8"x 8-10"	# 1	\$3.50	
<b>Scutellaria suffrutescens</b> Pink Texas Skullcap	May-Oct		Pink	18" x 10" x 18"	# 1	\$4.50	Semi-evergreen with small leaves resembling thyme. Woody base with a very compact and dense form. Small flowers resemble snapdragons. Occasional shearing to keep a uniform appearance. Excellent low water plant. Requires good drainage. A tough Texas native. Most blooms in May and June.
<b>Sedum spectabile 'Autumn Joy'</b>	Aug-Sept		Rose Bronze	18" x 12" x 18"	# 1	\$3.50	Large succulent gray-green foliage. Upright branched shrub-like. Clusters of flowers in late summer and fall. Needs well drained soil.
<b>Sedum spectabile 'Elsie's Gold'</b>	Aug-Sept		Pink	18" x 12" x 18"	# 1	\$4.50	Sport of Sedum 'Autumn Joy'. Has cream-gold variegated leaves. Blooms in fall. Is deciduous. Needs well drained soil.
<b>Setcreasea pallida</b> Purple Heart	Apr-Sept		Pink	12" x 9" x 9"	8 ct	\$1.80	Grown mainly for its striking deep purple foliage. Fleshy stems trail along the soil. Native to Mexico.
<b>Spirea 'Anthony Waterer'</b>	May-June		Dark Rosy Pink	2' x 3'	10"	\$10.50	Semi-evergreen, low soft, mounding shrub. Blooms later in the spring with lacey flower clusters. Tolerant of a wide range of soils. Flowers are produced on new wood.

NAME	BLOOM TIME	FLOWER COLOR	SIZE Spacing x Height x Bloom Height	PRICE Per Pot	DESCRIPTION
<b>Stachys byzantina (lanata)</b> Lamb's Ear	May-Jun	Lavender	18" x 8" x 15"	8 ct # 1 \$2.00 \$3.50	Gray leaves covered in silky white hair and very soft to the touch. Foliage is considered evergreen but tends to go dormant after flowers fade. Prefers rich well drained soil. Native to Turkey and Armenia. Extract of leaves has shown anti-microbial activity against Staphylococcus aureus that is resistant to Vancomycin.
<b>Stachys lanata 'Helen Von Stein'</b> Lamb's Ear	May-Jun	Purple	18" x 8" x 12"	# 1 \$3.75	Similar to the species, but it rarely flowers. The foliage is slightly less silver and does not melt as badly in the summer.
<b>Symphoricarpos orbiculatus</b> Coralberry		Coral-Purple Berries	2' x 1'- 6'	# 1 \$4.50	Deciduous, open branched under story shrub. Bright chartreuse leaves offer an unusual color combination with the colorful berries. Tolerates poor alkaline soils. Persistent berries through the winter.
<b>Symphyotrichum oblongifolium</b> Fall Aster	Oct-Nov	Blue/Lavender	4' x 3'	# 1 3.50 10" \$8.50	Very hardy and long-lived Aster covered with 1" daisy flowers in the fall. Rhizomatous spreading aster. Aromatic foliage.
<b>Symphyotrichum oblongifolium "October Skies"</b> Dwarf Fall Aster	Sept-Oct	Blue/Lavender	18" x 18"	# 1 \$3.75	Same as the species but more compact. (New Name for Aster oblongifolia).
<b>Tagetes lemmonii</b> Copper Canyon Daisy	Oct-Dec.	Gold	4' x 4-5'	# 1 \$4.00	Tough as nails, drought and heat tolerant. Good for hot west walls. Leaves are very aromatic. Daylight sensitive, thus will bloom only during short days. Covered in 1" diameter gold daisies that shine brightly in the fall sun.
<b>Tagetes lucida</b> Mexican Mint Marigold	Oct	Orange	36" x 24" x 24"	# 1 \$3.50	Deep green aromatic foliage topped with 1/2"daisies in the fall. Leaves smell strongly of licorice when crushed. Fall garden interest.
<b>Teucrium chamaedrys</b> Germander	May-Jun	Pink	12" x 10" x 10"	# 1 \$4.50	Semi-evergreen, small shiny leaves. Often used to outline parterres and knot gardens. Prune heavily in early spring to keep plants tight and compact.
<b>Thymus serpyllum 'Elfin'</b> Elfin Thyme		Pink	8" x 1"	8 ct \$1.80	Flat tiny leafed thyme that forms a mat. It is often used between stepping stones or in stone walls. Needs well-drained neutral soil. Extremely slow growing and rarely flowers.
<b>Trachelospermum asiaticum</b> Asian Jasmine		Pink	12" x 6"-12"	18 ct \$0.75	Most commonly used groundcover for our area. Compact dark glossy green leaves form an evergreen mat.
<b>Tradescantia pallida 'Pale Puma'</b>		Pink	8" x 8"	8 ct \$1.80	Grown for foliage. Soft purple green leaves with silver hair. Semi-erect habit growing in clumps.
<b>Tradescantia sillamontana</b> White Velvet	May-Oct	Bright Pink	12" x 10" x 10"	8 ct \$1.80	Fascinating plant with gray-green leaves covered with white cobwebs. Is highly adaptable. Native to mountains of Texas and northern Mexico.
<b>Tulbaghia violacea</b> Society Garlic & Variegated Society Garlic	Apr-Jul	Lavender	12" x 12" x 18"	# 1 \$3.75 # 1 \$4.00	Onion-like evergreen foliage with a loose cluster of flowers. Offered in a variegated form.
<b>Verbena x hybrids</b>	Apr-Nov	Assorted Colors	12" x 6"- 8"	# 1 \$3.50	Popular in mixed pots, in borders, or as a ground cover. Can be used as a perennial or as an annual. Showy flower clusters about 2" across cover the vines in Spring and sporadically in Summer. Responds well to being cut back after first big flush.
<b>Veronica peduncularis 'Georgia Blue'</b> Creeping Speedwell	Feb-Apr	Deep Blue	12" x 2" x 2"	# 1 \$3.50	A low, creeping ground cover with bright blue Forget-Me-Not like flowers. Beautiful with daffodils growing through the mat of foliage. Evergreen.
<b>Veronica spicata</b> Speedwell	June-Oct	Blue	12" x 12" x 12-18"	# 1 \$3.50	Upright perennial. Tall intense blue bloom spikes.

<b>Viguiera stenoloba</b> Skeletonleaf Goldeneye	Jun-Frost		Gold	4' x 3' x 3'	# 1	\$4.50	Texas native sub-shrub found on washes and slopes. Dark green aromatic leaves are topped with terminal daisy-type flowers. Usually evergreen in N. Texas. Likes well drained soils. Will perform well with some irrigation. Is drought tolerant. Also known as "Resinbush" Very tough and very hardy. Great performer in North Texas.
<b>Vinca major</b> Trailing Periwinkle	Mar-Apr		Blue	9" x 12"	18 ct	\$0.95	Deep green round leaves spotted with blue Periwinkle flowers. Also has a variegated form. Will naturalize.
<b>Vinca minor 'Bowles'</b> Dwarf Trailing Periwinkle	Mar-Apr		Blue	6" x 4"	18 ct	\$0.95	Small glossy green leaves form a trailing mat. Pretty spring blooms.
<b>Viola odorata 'Royal Robe'</b> Wood Violet	Feb-Apr		Purple	9" x 6" x 6"	8 ct # 1	\$2.00 \$3.50	Lush heart-shaped green foliage dotted with small violet flowers. This variety is not as invasive as our native Viola.
<b>Zantedeschia</b> <b>Calla Lily</b>	May-July		Orange,Pink, Purple,Red, Yellow,White	1-2 X 1-3 x 2-4"	# 1 10"	\$5.50 \$13.50	Unusual spathe bloom in many different colors. Grown as an accent plant for planters, porches and patios. Also available is the giant white Zantedeschia aethiopica that can be planted into the landscape in a shady situation with rich moist soil.
<b>Zephyranthes candida</b> Rain Lily	Aug-Sept		White	9" x 6" x 8"	8 ct	\$2.00	Tubular grassy foliage covered with star-shaped flowers. Blooms after late summer rains or extended dry spell.
<b>Zephyranthes La Bufa Rosa</b> Giant Rain Lily	June-Aug		Whit/Pink	8" x 8"	8 ct	\$2.00	Found under evergreen trees on La Bufa del Diente mountain in Mexico by John Fairey, this is one of larger rain lilies. It can take shade as well as sun, but appreciates shade in hottest part of north Texas summer.
<b>Zexmenia hispida (Wedelia texana)</b> Hairy Wedelia	May-Oct		Gold	18" x 18" x 24"	# 1	\$3.75	Small daisy-like flowers wave above coarse hairy foliage. Drought tolerant. Very dependable bloomer. Will have some color all summer, just not huge amounts.

NAME	BLOOM TIME	 FLOWER COLOR	SIZE Spacing x Height x Bloom Height	PRICE Per Pot	DESCRIPTION
<b>Acorus gramineus 'Variegatus'</b> Variegated Sweet Flag			12" x 12"	# 1 \$4.00	Semi-evergreen, Fragrant ( citrus -like) green and white leaves are 1/8" wide. Leaves are erect and grow like fans. Spreads by underground rhizomes. Like moist boggy areas, also areas at waters edge. Leaf tips can scorch if plants do not get enough water. Afternoon shade is required in hot north Texas summers.
<b>Bouteloua gracilis 'Blonde Ambition'</b> Blue Grama Grass	June-Aug		Blonde 12" x 12" x 24"	# 1 \$4.50	Warm season clump-forming perennial grass. Very unique horizontal flower heads look like tiny flags flying above the foliage. With age the chartreuse flowers turn blonde. This grass can tolerate most soils, just make sure soil is well drained. Will naturalize.
<b>Carex glauca 'Blue Zinger'</b>			12" x 12"	# 1 \$3.75	Narrow glaucous foliage. Wet site tolerant and shade tolerant. Prefers moist alkaline soil, but adapts well to other soil types. Cut back early spring for tidier appearance. Can be used as a shade ground cover, an accent or as a border. Evergreen.
<b>Carex oshimensis 'Evergold'</b> Japanese Sedge			12-18" x 8-12"	# 1 \$4.50	Drooping, semi-evergreen clumping grass with variegated foliage. Yellow stripe with green edges, giving an overall golden appearance. Thrives in moist soils, but will grow in regular soils. Dislikes complete submersion. Do not allow to dry out. Good for low spots.
<b>Carex divulsa (tumulicola)</b> Berkeley Sedge		 Green/Brown	18" x 12-18"	# 1 \$3,75	Very adaptable and tough. Loose evergreen tufts of fine-bladed foliage. Once established it can take heavy foot traffic. Can tolerate drought but prefers regular water, can adapt to damp sites.

NAME	BLOOM TIME	 FLOWER COLOR	SIZE Spacing x Height x Bloom Height	PRICE Per Pot	DESCRIPTION
<b>Chasmanthium latifolium</b> Inland Sea Oats	Aug-Feb		18" x 30"	# 1 \$3.75	Deep green bamboo-like foliage with dangling oat-like spikelets. Very attractive. Reseeds readily.
<b>Cyperus alternifolia</b> Umbrella Plant			4' x 3'-4'	# 1 3.75 10" \$8.50	Grown for its unusual umbrella-like foliage. Prefers bog conditions, but not necessary. Very tough.
<b>Cyperus diffusus</b> Dwarf Umbrella Plant			12" x 9"	# 1 3.75 10" \$8.50	The same interesting foliage as Cyperus alternifolius but this one forms a much shorter and tighter spreading ground cover. Is very tough.
<b>Eragrostis curvula</b> Love Grass	Aug-Sept		24" x 24" x 40"	# 1 \$3.50	African native. Introduced to Stillwater, OK in 1935. Used as livestock forage and for erosion control. Its' massive root network makes it great for erosion control. Has now spread into wild habitats. The leaves are wispy, long and weep over. Is used ornamentally now. Very tolerant of any soil type. Open flower panicles wave above the foliage.
<b>Festuca ovina var. glauca</b> Blue Fescue	Jun		9" x 6" x 9"	# 1 \$3.75	Very attractive cool season blue clumping grass. Very fine textured. Short lived. Requires good drainage.
<b>Juncus inflexus 'Blue Arrows'</b>			8" x 20-30"	# 1 \$3.75	Vertical, stiff ,blue-gray leaves grow in a clump. Can be grown as a pond plant or on dry land. It provides structure in containers. Heat and cold tolerant. Is usually evergreen.
<b>Juncus pallidus 'Javelin'</b> Javelin Rush			15" x 36"	# 1 \$3.75	Striking upright stiff green grass. Very rugged. Once established it can be heat and drought tolerant. Can also grow in standing water. Low maintenance. Turns wheat colored in the winter.
<b>Leymus arenarius 'Blue Dune'</b>	July-Aug		Tan 24" x 36"	# 1 \$3.75	Very bright blue foliage. Can grow in sandy as well as a rich soil. Must be well drained. Is salt tolerant. Spreads by rhizomes, therefore can be used as a ground cover or for erosion control. Also, great for texture and color contrast in pots and color beds. Deciduous.
<b>Miscanthus sinensis 'Adagio'</b> Dwarf Maiden Grass	Aug-Oct		Pink to Cream 4' x 3' x 5'	# 1 \$3.50 10" \$7.50	Arching clump of 3/8" wide, fine textured, silver-green leaves. Graceful, fan-shaped plumes in late summer. This is an excellent maiden grass for the smaller garden.
<b>Miscanthus sinensis 'Gracillimus'</b> Maiden Grass	Aug-Oct		Copper to Silver 4' x 5' x 7'	# 1 \$3.50 10" \$7.50	One of the oldest and most popular cultivars of Miscanthus sinensis. Narrow green leaves with a silver mid-rib form a large rounded arching clump. Tassel-like plumes form in late summer and early fall. Cut old foliage back just as new foliage emerges.
<b>Muhlenbergia capillaris</b> Gulf Muhly	Sept-Oct		Raspberry Pink 3-4' x 3' x 4'	# 1 \$3.50 10" \$7.50	Very popular native grass, with narrow hair-like leaves that arise from a basal clump. Clouds of brightly colored cotton candy-like panicles stand above the foliage. Tolerant of a wide variety of soil conditons, must be well drained.
<b>Muhlenbergia lindheimeri</b> Lindheimer's Muhly	Sept-Oct		Tan 4' x3- 4' x 5'	10" \$7.50	Popular Texas native. Semi-evergreen gray-green foliage. Fine textured arching grass with upright narrow feather-like spikes. Heat and cold tolerant. Strong performer.
<b>Nassella tenuissima</b> Mexican Feather Grass	Jun-Sept		24" x 24" x 24"	# 1 \$3.75 10" \$8.00	Texas native. A winter grass that produces dense hair-like foliage that is green in the cool season and turns straw colored in the summer. Hates wet feet. Reseeds readily.
<b>Pennisetum alopecuroides 'Hameln'</b> Dwarf Green Fountain Grass	Aug-Oct		Cream 2' x 2' x 3'	# 1 \$3.50 10" \$7.50	Clumping grass with fine textured foliage. Covered with tiny bottle brush-like inflorescences. Most popular ornamental grass in north Texas.
<b>Pennisetum alopecuroides 'Little Bunny'</b> Miniature Fountain Grass	Aug-Oct		Cream 12" x 8" - 10" x 18"	# 1 \$3.75	A miniature form of 'Hameln'. Cute tufts of grass that are covered in little fuzzy plumes. Great for borders, rock gardens and tiny pocket gardens. Plumes can be used dried or fresh in floral arrangements.
<b>Pennisetum setaceum 'Rubrum'</b> Purple Fountain Grass	May-Nov		Tan 3' x 4' x 5'	# 1 \$3.50 10" \$6.50	Annual grass with very attractive arching burgundy foliage with equally attractive light tan bottlebrush like plumes.

<b>Pennisetum X 'Black Stocking'</b>				3-4' x 5-6'	10"	\$8.50	Upright perennial grass. Black/purple leaves and canes with green hues. Can take low water situations, loves the heat. After leaves brown out from freezes, you can cut them back or leave till new ones emerge in the spring.
<b>Pennisetum X 'First Knight'</b> Napier Grass				2-3' x 4'	10"	\$8.50	Dark purple black leaves. Upright sword-like leaves in the middle of th clump with arching outer leaves. Loves the heat. Full sun for best color. No flowers in north Texas. In fall/winter leaves will turn brown. Remove brown leaves before new ones come up in the spring.
<b>Pennisetum X ' Princess Caroline'</b> Napier Grass				3' x 4'	10"	\$8.50	Arching, dark purple strap leaves make a compact mound. No flowers are produced in north Texas due to winter freezes. Remove brown leaves of winter before the new ones emerge in the spring. Loves the heat. Full sun for best color. Heavy nitrogen causes leaves to turn green.
<b>Pennisetum x 'Vertigo'</b>				3' x 4-8'	10"	\$8.50	Stunning black-purple foliage. Loves the sun, heat and can take drought. Where temperatures dip below 15 degrees, it will be an annual. Grows well with low nitrogen.
<b>Schizachyrium scoparium</b> Little Bluestem		Sept-Nov		Red	12' X 36'	# 1 \$3.75	Fine textured,warm season, bunch grass. Blue-green foliage in the summer turning bronze-red the fall and winter. Does not like irrigation. Very vertical habit. Deer resistant.

NAME	BLOOM TIME	FLOWER COLOR	SIZE Spacing x Height x Bloom Height	PRICE Per Pot	DESCRIPTION
<b>Autumn Fern 'Brilliant'</b> <i>Dryopteris erythrosora</i>			18" x 18"	8 ct \$2.50 # 1 \$4.00 10" \$9.00	Stiff fronds with copper colored new growth turning to a bronze-green when mature. Evergreen.
<b>Beautiful Wood Fern</b> <i>Dryopteris pulcherrima</i>			18" x 18"	# 1 \$4.00	Evergreen fern. Endures the hot north Texas summer and still looks great. Likes rich, moist, compost laden soil.
<b>Dixie Wood Fern</b> <i>Dryopteris x australis</i>			2' x 4'	# 1 \$4.00	A large growing semi-evergreen fern with deep green traditional fronds.
<b>Japanese Holly Fern</b> <i>Cyrtomium falcatum 'Rochfordianum'</i>			24" x 24"	8 ct \$2.50 # 1 \$4.00 10" \$9.00	Coarse fronds that have leaflets that resemble Holly leaves. Does not like soggy soil. Semi-evergreen.
<b>Japanese Painted Fern</b> <i>Athyrium nipponicum 'Pictum'</i>			12" x 9"	8 ct \$2.50 # 1 \$4.00	Deciduous fern emerges in late spring with pink-tinted silver foliage. Requires constantly moist conditions.
<b>Korean Rock Fern</b> <i>Polystichum tsus-simense</i>			12" x 15"	8 ct \$2.50	Compact, dark green fronds with black stems. Evergreen. Prefers rich moist soil but will tolerate dry periods.
<b>Lace Fern</b> <i>Microlepia strigosa</i>			12" x 24"	# 1 \$4.50	Deciduous and tough clumping fern with frilly-edged foliage.
<b>Maidenhair Fern, Hardy</b> <i>Adiantum x mairisii</i>			12" x 12"	# 1 \$4.50	Dainty, delicate and airy foliage. Propagated by tissue culture, this sterile hybrid is a knock-off of Southern Maidenhair fern. Usually evergreen in north Texas. Needs shade, moist well drained soil and a sheltered environment.
<b>Mexican Male Fern</b> <i>Dryopteris pseudo felix-mas</i>			36" x 36"	# 1 \$4.00	Upright vase form. Native of Mexico. Needs rich moist soil. Fronds are produced throughout growing season. Can be evergreen if the winter is mild. Protect fronds from wind for better appearance.
<b>Southern Wood Fern</b> <i>Thelypteris kunthii</i>			18" x 24"	8 ct \$2.50 # 1 \$4.00	The hardiest and most commonly grown fern in our area. Spreads by underground runners. Deciduous light green foliage.
<b>Tassel Fern</b> <i>Polystichum polyblepharum</i>			15" x 12"	8 ct \$2.50 \$4.50	Very glossy bright green evergreen foliage. Grows during the spring. Not particularly fond of hot north Texas summers.
<b>Wavy Cloak Fern</b> <i>Cheilanthes sinuata (Astrolepis sinuata)</i>			12" x 6" - 18"	8 ct \$2.50 # 1 \$4.50	Native to Big Bend. This fern is adapted to extremely dry areas. Needs well drained soil. Roots like the shade and fronds like the sun. Semi-evergreen. Deer resistant.

NAME	BLOOM TIME	FLOWER COLOR	SIZE Spacing x Height x Bloom Height	PRICE Per Pot	DESCRIPTION
Basil		White	18" x 24"	8 ct \$1.80	Annual, warm season herb. Very cold sensitive. All time favorite for the Texas Herb Gardener.
Chives, Garlic		White	10" x 12"	8 ct \$1.80	Perennial herb. This chives species has a flattened leaf and a mild garlic flavor.
Chives, Onion		Lavender	10" x 12"	8 ct \$1.80	Perennial herb. One of the most widely used herbs. Dark green, cylindrical leaves form an evergreen clump w/pom-pom flowers.
Cilantro			6" x 8"	8 ct \$1.80	Annual herb. Aromatic foliage resembles flat leafed parsley. Popular herb for Mexican foods. Prefers cooler weather.
Fennel 'Rubrum'		Yellow	12" x 36"	8 ct \$1.80	Perennial herb. Finely cut bronzy-red foliage, flat flowers, licorice-scented leaves and seeds.
Lavender x 'Provence' Lavender Hybrid	May-July	 Blue	18" x 24" x 30"	8 ct \$1.80	Hybrid that is bred to tolerate heat and humidity better. 'Provence' has high essential oil content and robust growth. In addition to the spring bloom flush, 'Provence' can bloom again in the fall. Good air circulation and drainage are essential as is an alkaline soil.
Lavender, Spanish	May-July	 Violet Purple	18" x 18" x 24"	8 ct \$1.80	Native to the Mediterranean. As with other lavenders it blooms best in the spring and is enjoyed as a fragrant gray-green shrub the rest of the year. The bloom looks like a little pineapple with rabbit ears on top. Prefers chalky well drained soils.
Lemon Grass			24" x 24"	8 ct \$2.80	Aromatic clump forming strap-like leaves with an arching habit. Lemon grass is tropical. In north Texas, it is treated as an annual. It is used for making teas and in Thai cooking. Must have moist well drained soils. Does not like to stay dry. Foliage suffers in periods of drought.
Oregano, Italian		White	36" x 12"	8 ct \$1.80	Perennial herb. Italian oregano is a cross between Greek oregano and sweet marjoram. This cross results in the perfect blending of flavors excellent for cooking. Can be used dried or fresh. Oregano has a spreading habit.
Parsley, Curled			12" x 12"	8 ct \$1.80	Biennial herb. Ruffled decorative leaves create a nice garden accent as well as an edible garnish. Remove flower stalks to keep plant going into 2nd year.
Parsley, Italian or Flat Leafed			12" x 12"	8 ct \$1.80	Biennial herb. Dark green leaves resemble celery tops. The leaf flavor of Italian parsley is more flavorful than the curled.
Rosemary 'Hill's Hardy'		Blue	3' x 3'	8 ct \$1.80	Perennial evergreen woody herb that grows upright with aromatic foliage. Can be used dried or fresh. Needs well-drained soil.
Sage 'Berggarten'		Purple	2' x 2'	8 ct \$1.80	Perennial herb. Aromatic silver-gray leaves. It is drought resistant and sensitive to wet feet. Prefers loose soil.
Sage 'Tricolor'			2' x 2'	8 ct \$1.80	Perennial herb with green, white and pink foliage. Can be used in cooking and also for its decorative foliage.
Spearmint			2' x 1'	8 ct \$1.80	Grows best in moist soil. Spreads vigorously by underground rhizomes. For peak flavor cut leaves as plant begins to flower. Can be sheared after bloom to stimulate new growth. Ready for mojitos or mint juleps?
Tarragon, French			24" x 18"	8 ct \$1.80	Best-flavored tarragon. For best flavor, use fresh or frozen. Cannot be grown from seed. Divide every 3-4 years to maintain vigor. Cut back in the spring. Must have good drainage at all times.
Thyme, English		Lavender/White	12" x 12"	8 ct \$1.80	Semi-creeping and evergreen. Tiny aromatic leaves. Most common type of thyme. Must have well drained soil.
Thyme 'Golden Lemon'			10" x 8"-10"	8 ct \$1.80	Fantastic upright golden variegated cultivar with delightful lemon scent and flavor. Evergreen.

Thyme "Silver Edged"		Pink	10" x 8"-10"	8 ct	\$1.80	Evergreen. Each tiny leaf is outlined in white. Tight and compact. Can be used in containers or in the garden. Must have well drained soil. Use as you would any other thyme.

## Vines

NAME	BLOOM TIME	FLOWER COLOR	SIZE Spacing x Height x Bloom Height	PRICE Per Pot	DESCRIPTION
<b>Bignonia capreolata 'Tangerine Beauty'</b> Cross Vine	May-Jun	 Orange	6' x 30'	# 1 \$4.50	Evergreen foliage. Showy 2" long trumpet-shaped flowers. Vines cling with tendrils. Very vigorous and very tough.
<b>Clematis x hybrida</b> Clematis Vine 'Henry' 'Jackmanii' 'Ramona'	Apr-May	 White Purple Wedgewood Blue		# 1 10" \$7.50 \$12.50	Large star-like flowers on thin delicate vines. Mulch and shade root zone from summer heat.
<b>Clematis paniculata</b> Sweet Autumn Clematis	Aug-Sept	 White	3' x 20'	# 1 10" \$7.50 \$12.50	Twining, vigorous and easy to grow. Blooms on current seasons wood. Responds to heavy pruning. Fragrant 1"star-shaped blooms appear on new growth, unusual silvery seed heads. A grand show when vine is covered in blooms. Needs sturdy support. Is semi-evergreen.
<b>Cypress Vine</b>	July-Oct	 Red	3' x 8'	# 1 \$4.00	Finely cut, soft foliage decorated with tiny bright trumpet-shaped flowers. Fast growing and reseeds readily. Annual.
<b>Ficus pumila</b> Creeping Fig			2' x 20'	# 1 \$4.00	Self-clinging vine that forms a solid green mat. Often used to cover unsightly walls or to soften architectural features. With age the vine will become woody and will produce an occasional fruit. Does not like hot west walls.
<b>Gelsemium sempervirens</b> Carolina Jessamine	Feb-Mar	 Yellow	2' x 20'	# 1 \$4.00	Twining evergreen vine needs support. Dark shiny green leaves. Showy clusters of trumpet shaped flowers about 1.8 ct long. It can be trained to cover arbors or walls. All plant parts contain toxic alkaloids. Its early blooms announce the arrival of spring. State flower of South Carolina.
<b>Lonicera sempervirens 'Major Wheeler'</b> Coral Honeysuckle	April-Jun	 Coral Red	3' x 8'	# 1 \$4.50	Mildew resistant variety. The more sun it gets the more blooms it will have. Needs a support to climb, since it is a twining vine. Blooms on new and previous years growth.
<b>Mandevilla</b>	May-Oct	 Pink, Red, White	3' x 12'	# 1 10" \$5.50 \$14.50	Deep green foliage with large trumpet-shaped flowers. This is a beautiful twining tropical vine for summer garden interest. Likes the heat.
<b>Passiflora caerulea 'Blue Crown'</b> Passion Vine	May-Oct	 Blue/White	12' x 20'	# 1 \$4.50	Very unusual, almost plastic looking flower, about 3" across. The flower is symbolic of the Passion of Christ. It is a white flower with a corona of blue filaments, five greenish-yellow stamens and 3 purple stigma. The leaves are lobed. Twining tendrils attach to anything of close proximity. An oval orange edible fruit is produced (but not very exciting tastewise). Is semi-evergreen.
<b>Passiflora X 'Aphrodite Purple Nightie'</b>	May-Oct	 Purple	4" x 15"	# 1 \$5.50	Proven Winner. Vigorous and prolific sterile cultivar Lovely and unusual flower representing the Passion of Christ. Likes fertile soil. Give it plenty of room.
<b>Wisteria frutescens</b> 'Amethyst Falls'	April	 Lavender	5' x 20'	# 1 \$4.50	American wisteria. Deciduous and much more restrained than the Asian species. Excellent for smaller spaces like porches and patios, can even go in containers. Flower clusters are 4-6" long and lightly fragrant. This vine needs support.

NAME	BLOOM TIME	FLOWER COLOR	SIZE Spacing x Height x Bloom Height	PRICE Per Pot	DESCRIPTION
<b>Crassula coccinea 'Campfire'</b>			12" x 12"	8 ct \$2.50	Large coarse propeller-like leaves. Trailing in habit. Leaves turn red in cool sunny weather. In hot north Texas summer, shade is required. Must have good drainage. Is not winter hardy in north Texas.
<b>Crassula mucosa</b> Princess Pine		Yellow	6" x 6 -10"	8 ct \$2.50	Somewhat upright but mostly a sprawling habit. Resembling a club moss in texture. Unique tiny, tightly overlapping scale-like leaves completely hide the stem on 'Princess Pine. Needs shade in the hot summer.
<b>Crassula tetragona</b> Miniature Pine Tree			8" x 12"	8 ct \$2.50	Upright succulent resembling a miniature pine tree. Not winter hardy in north Texas. Allow plant to dry between waterings. Needs well drained soil. Great in mixed succulent containers. If kept indoors, needs a sunny spot and kept dry.
<b>Delosperma cooperii</b> Hardy Ice Plant	May-Sept	Violet-Pink	18" x 8" x 8"	8 ct \$2.00 # 1 \$3.75	Trailing mat of succulent leaves with bright 1" cactus-like flowers. Needs good drainage. Hybrids of different colors also available.
<b>Delosperma Fire Spinner</b>	May-July	Orange-Magenta	12" x 1" x 2"	8 ct \$2.00	Originating from the high altitudes of South Africa. Neon bright 1 1/2" flowers cover a mat of succulent foliage. Nice in rock gardens and also trailing over containers. Needs some shade in hottest part of north Texas summer. Must have a well drained soil.
<b>Echeveria nodulosa</b>		Yellow	1' x 1'	8 ct \$2.50	Somewhat upright but mostly a sprawling habit. Resembling a club moss in texture. Unique tiny, tightly overlapping scale-like leaves completely hide the stem on 'Princess Pine. The leaves on 'Watch Chain are more open and not held as tightly on the stem.
<b>Echeveria 'Perle Von Nurnberg'</b>		Coral	6" x 5" x 14"	8 ct \$2.50	Stiff, fleshy, acuminate leaves form a symmetrical, solitary rosette. Waxy gray leaves have rose pink highlights and the appearance of being dusted with fine talc. Floral inflorescences are born on one foot tall stalks. Not winter hardy in north Texas. In most intense summer heat shade is suggested.
<b>Echeveria runyonii 'Topsy Turvy'</b>		Coral	6" x 6" x 12"	8 ct \$2.50	Rosette forming succulent. Gray leaves that curve upward and inward. Flowers appear on an arching stalk above the foliage. Needs well drained soil. May need some shade in hottest part of summer.
<b>Echeveria setosa 'Arrow Shape'</b>		Orange	8" x 8" x 12"	8 ct \$2.50	Fine white fuzz on 3" long narrow leaves that are tipped with red which form loose rosettes. It is multi-branched and takes on a shrubby appearance. Needs well drained soil. Needs extra protection from sun as north Texas summer heats up.
<b>Graptoveria 'Fred Ives'</b>		Pale Yellow	8" x 5" x 10"	8 ct \$2.50	Succulent leaves of bronzy pink form clumps of rosettes. This a hybrid of G. paraguayense. One foot stems with branched inflorescences rise above the foliage. Hardy to around 25-30 degrees.
<b>Graptopetalum paraguayense</b> Ghost Plant		White	12" x 8" x 15"	8 ct \$2.50	Succulent gray rosettes with pink highlights. The rosettes are found at the end of long snaking stems. Leaves are brittle and fall off easy. In the hottest part of the summer more shade is required. May freeze in the north Texas winters. Do not overwater especially in the winter. Native to Mexico. Old-timey pass-a-long plant.
<b>Huernia zebrina</b> Lifesaver Plant		Yellow with wine	8" x 6"	8 ct \$2.50	Low growing, somewhat creeping succulent with 4-5 sides angled fleshy stems. Very unusual flower with a shiny wine-red annulus (resembling a life-saver) around the corolla mouth. The corolla is yellow with wine-colored stripes. Needs well drained soil. In the hottest part of the north Texas summer shade is needed.
<b>Kalanchoe beharensis</b> Velvet Leaf	Dec-Jan	Yellowish/Green	2' x 2'	8 ct \$2.50	Discovered near Behara, Madagascar. Succulent shrub with large somewhat triangular leaves covered in soft velvety hairs. The leaves turn a golden brown when grown in sun and are silvery gray when grown in shade. In the hottest part of north Texas summer some shade is beneficial. If grown inside place in a bright sunny window. The variety called 'Fang' has hooked tubercles on the backside of the leaf that resemble tiny teeth or 'fangs'. Winter hardy to around 30 degrees.
<b>Kalanchoe thyrsiflora</b> Flap Jack Plant, Paddle Plant	Dec-Jan	Yellow/White	12" x 12" x 20"	8 ct \$2.50	Thick fleshy pancakes of glaucous leaves are outlined in bronzy red. The unique leaves are arranged on a thick stalk. In hottest heat of summer, additional shade is required. Winter protection is needed in north Texas. Well drained soil is required.

<b>Kalanchoe tomentosa</b> Panda Plant				10' x 10"	8 ct	\$2.50	Velvety gray leaves are outlined in brown. Can take full sun if outdoors until the north Texas heat becomes intense. The plant then must be moved to a shady locale. Can be grown indoors in a bright sunny location. Must have a well drained soil. Keep soil on the dry side.
<b>Lampranthus</b> Bush Ice Plant	May-Oct		Rose	12" x 12"	8 ct	\$2.00	Three sided, 1-2" narrow, gray-green, succulent leaves. Stems become somewhat woody with age. Sprawling habit. Well drained soils. 1" bright cactus like flowers.
<b>Portulacaria afra</b> Elephant Bush		 		1' x 1'	8 ct	\$2.00	Native to South Africa where it is called 'Spekboom' (Bacon Tree) by the Afrikaans. There it is an essential for browsing wildlife. It can remain succulent for long periods of searing heat and drought. It has thick upright mahogany stems with round green succulent leaves. Great in mixed succulent containers as the upright element or also very popular grown as a bonsai. Hardy to around 25-30 degrees.
<b>Sedum kamtschaticum</b>		 	Yellow	9" x 2" x 4"	8 ct	\$1.80	Succulent trailing green leaves toothed on the tips. Leaves are arranged in a whorl.
<b>Sedum makinoi 'Ogon'</b>		 	Yellow	9" x 2" x 4"	8 ct	\$1.80	Spreading golden mat of dainty round leaves. Tiny yellow star shaped flowers on stalks above the foliage. Protect from hot afternoon sun. Must have well drained soil. Hardy to zone 7.
<b>Sedum m. 'Lemon Ball'</b>	June	 	Yellow	9" x 3" x 6"	8 ct	\$1.80	Bright yellow spruce-like succulent foliage. It is brighter yellow than 'Angelina'.
<b>Sedum nussbaumerianum</b>			White	12" x 8" x 15"	8 ct	\$2.50	Short stemmed shrub-like succulent with small rosettes at stem end. Color intensifies to a rusty red with more sun exposure. The inflorescence is white. Needs well drained soil. Is hardy to around 30 degrees.
<b>Sedum potosinum</b>	June	 	White	9" x 2" x 2"	8 ct	\$1.80	A mat of tiny, whitish-green succulent leaves. This evergreen is excellent between stepping-stones. In extreme heat some shade is welcomed. White star shaped flowers.
<b>Sedum reflexum</b> Gray Sedum	June	 	Yellow	9" x 3" x 6"	8 ct	\$1.80	A mat of blue-gray spruce-like foliage. Needs well drained soil. Most commonly seen in north Texas. Some shade needed in hot summer.
<b>Sedum rubrotinctum</b> Pork and Beans			Yellow	6" x 6" x 6"	8ct	\$2.50	Upright clusters of 'jellybeans' with red tips. Red color is more pronounced with sun and cooler temps. Has yellow star shaped flowers. Not winter hardy. Needs well drained soil.
<b>Sedum rupestre 'Angelina'</b>	June	 	Yellow	9" x 3" x 5"	8 ct	\$1.80	Mats of succulent needle shaped foliage with golden highlights. Cooler temperatures leave a kiss of orange on the leaf tips. Star shaped flowers wave above the foliage. Well drained soil needed. Hardy in north Texas.
<b>Sedum spectabile 'Autumn Joy'</b>	Aug-Sept	  	Rose Bronze	18" x 12" x 18"	# 1	\$3.50	Large succulent gray-green foliage. Upright branched shrub-like. Covered with 6" flat flower heads late summer and fall.
<b>Sedum spectabile 'Elsie's Gold'</b>	Aug-Sept	  	Pink	18" x 12" x 18"	# 1	\$4.50	Sport of Sedum 'Autumn Joy'. Has cream-gold variegated leaves. Blooms in fall. Is deciduous. Needs well drained soil.
<b>Sedum spurium 'Dragon's Blood'</b> Dragon Blood Sedum	June		Rose Red	9" x 2" x 2"	8 ct	\$1.80	Semi-evergreen little rosettes with a trailing habit. Outstanding red foliage with sunlight. May need afternoon shade in extreme heat conditions. Likes well drained soils.
<b>Sedum spurium 'John Creech'</b>	Aug-Sept		Pink	9" x 3-4" x 5"	8 ct	\$1.80	Discovered by Dr. John Creech, former director of the US National Arboretum, in 1971. Spreading low growing mat of little round leaves with serrated edges.
<b>Sedum tetractinum</b> Chinese Sedum	June		Yellow	6" x 2" x 3"	8 ct	\$1.80	Little round green shiny leaves with smooth edges. Trailing. In cool weather leaves are tinged bronze. Some shade in hot summer. Unusual texture.
<b>Sempervivum sp</b> Houseleek		 	Pink	5" x 3"	8 ct	\$2.50	Tinged rosettes of green, burgundy or coral, turn darker with cooler temperatures. Bristly bloom stalk will emerge from the base and will have a pink flower. Prefers cool temperatures. They were traditionally grown on rooftops between rooftiles in Europe, hence their nickname of "Houseleek". Will need protection from the heat and sun of north Texas summers.
<b>Senecio talinoides ssp mandraliscae</b>			White	12" x 12"	8 ct	\$2.50	Blue gray cylindrical succulent leaves form a conical upright mini-tree. Needs well drained soil. Prefers light shade in the heat of summer. Not winter hardy in north Texas.

NAME	BLOOM TIME	FLOWER COLOR	SIZE Spacing x Height x Bloom Height	PRICE Per Pot	DESCRIPTION
<b>Agave americana</b> Century Plant	Infrequent	 Yellow	8'-10' x 6' x 15' - 20'	# 1 10" \$5.50 \$13.50	Most attractive large blue agave. This clone has grown successfully in N. Tx since the early 90's. Massive, smooth, thick blue leaves can be 6' long and 10" wide with curved spines along margins and a very prominent 1" long spine at the tip. Flowers about every 10 years in North Texas. Flower stalk can reach between 20-40' tall and will be topped with layered umbels of flowers. The plant dies after blooming, does make offsets. Needs well drained gravelly soil. Can tolerate some shade. Winter damage can occur in severe winter.
<b>Agave havardiana</b> Harvard's Agave	Infrequent	 Yellow/Green	3' x 3' x 15'	# 1 10" \$6.50 \$13.50	Native to the Big Bend. Rosettes of broad, gray, fleshy leaves with toothed margins and stout spine tips. A candelabra type bloom stalk will emerge upon maturity (20 - 40 years of age). The plant will die after blooming. Needs well drained soil. Is hardy to about 15 degrees.
<b>Agave neomexicana</b> New Mexico Century Plant	Infrequent	 Yellow	2' x 2' x 12'	# 1 10" \$6.50 \$15.50	Most cold hardy agave, to around 0° F. Native to Texas and New Mexico. Large, gray to light green, heavily armed, leathery foliage form a rosette. Suckers freely. After 8-20 years of slow growth, a bloom stalk of up to 12' will produce a yellow candelabrum of flowers. Hummingbirds love the flowers.
<b>Agave ovatifolia</b> Whale's Tongue Century Plant	Infrequent	 Greenish/Yellow	4' x 4-5' x 10'	# 1 10" \$6.50 \$15.50	Most attractive medium blue agave for north Texas. If you must choose one Agave, choose this one. Symmetrical rosette of wide, blue cupped leaves. Toothed leaf margins with a 1" long terminal spine. Needs well-drained soil and is drought tolerant. Will grow larger if given some irrigation. Hardy to mid-teens. Lovely new selection called 'Vanzie' is also available.
<b>Agave parryi</b>	Infrequent	 Yellow	2' x 2' x 10'	# 1 10" \$6.50 \$15.50	Slow growing. Compact rosette of silver-blue leaves that are 7" to 20" long. Marginal dark brown teeth, very prominent dark tip. Colonies are formed from offsets. Plant dies after blooming. Good drainage is a must, especially in the winter. Cold hardy for north Texas around 10-15 degrees.
<b>Agave salmiana</b> Pulque Agave	Infrequent	 Yellow	6' x 5 x 12-20'	# 1 10" \$6.50 \$13.50	Huge specimen plant. Open, graceful and blue-green. The leaves are spined and can grow 6' long and 1' wide. Produces pups readily. At around age 15 a bloom spike will be produced and the mother plant will die. Tolerant of many different soils, as long as they are well drained. Fermented drink called pulque is made from the sap. Native to Mexico. Hardy to around 10-15 degrees.
<b>Agave scabra</b> Rough Leave Agave	Infrequent	 Yellow	3-5' x 3-5' x 15'	# 1 10" \$6.50 \$13.50	Blue Agave. Leaves have a fierce terminal spine and recurved marginal spines. An open rosette that freely suckers. Rigid curved leaves are rough and sandpaper-like on the backside. Takes reflected heat well. May have some winter damage in a severe north Texas winter. As with all agaves, well drained soil is required.
<b>Agave victoriae-reginae</b> Queen Victoria Agave	Infrequent	 Cream	1' x 1' x 10'	# 1 10" \$6.50 \$8.50	Noted for leaf margins that are outlined in white. The short thick geometric leaves form a tight rosette. Is extremely slow growing. Could take from 5-10 years to reach soccer ball size. Leaf margins are smooth but the leaf tip is spined. Likes good drainage, slightly sloped site is good. Very heat and cold tolerant. Rarely blooms, may take up to 40 years to send up a 10' bloom stalk. Plant will die after blooming. Hardy to about 10 degrees.
<b>Dasyliirion texanum</b> Texas Sotol	May-Aug	 Cream	5' x 5' x 15'	# 1 10" \$5.50 \$11.50	Very heat tolerant Texas native. Evergreen. Grows naturally in arid rocky limestone. Very sharp spines, leaves that are 2.5' long and less than 1/2" wide Must have well drained soil.
<b>Dasyliirion wheeleri</b> Common Sotol	May-Jul	 White	6' x 4-6' x 10'	# 1 10" \$5.50 \$11.50	Very heat and drought tolerant. Must have well drained soil. Hardy to 5°F. Evergreen, narrow, 1/2" wide, 2'-3' long blue-green leaves radiate from short thick central stem. Leaf edges are armed with hooked teeth. Bloom stalk of 6'- 10' will bear tiny white flowers that form a spike. Use crushed granite or limestone mulches. Deer resistant.
<b>Hesperaloe parviflora</b> Red Yucca	Spring-Frost	 Coral	3' x 2 - 3' x 5'	# 1 10" \$4.50 \$8.50	Hardy xeriscape plant with long bloom season. Adaptable to a wide range of soils and climates. Arching evergreen foliage has curly threads along the blade edge. Hummingbirds love its nectar. Cold hardy in north Texas.
<b>Hesperaloe parviflora 'Yellow'</b> Red Yucca- (Yellow Bloom)	Spring-Frost	 Yellow	3' x 2 - 3" x 5'	# 1 10" \$7.50 \$15.50	The unique yellow flower on this plant sets this Hesperaloe apart from the more common coral blooming one. It is just as hardy and long blooming as its' coral blooming relative. Also evergreen, hardy and tough.
<b>Manfreda 'Spot'</b>	Spring	 Pink/Green	18" x 18" x 72"	# 1 10" \$3.50 \$8.50	Known for its' outstanding maroon spots. Green leaves emerge from a central rosette. The spots become more pronounced with age on this semi-succulent perennial. It may go dormant in the winter, but if protected will not. The flowers are born on 5' stalk. Agave Spot is drought and humidity tolerant. Likes some shade in hot summer. Needs well-drained soil. Readily produces pups. Hardy in average north Texas winter. Easy to grow.
<b>Opuntia cacanapa 'Ellisiana'</b> Spineless Prickly Pear	May-Jun	 Yellow	3'-6' x 3-4'	10" \$8.50	Typical Prickly Pear cactus, but is a bit more compact and is minus the long spines. It does have tiny tufts of hair-like glochids (beware). Produces red fruit (tunas) that ripen in late summer. Easy to grow and is drought resistant.

<b>Opuntia engelmannii</b> Prickly Pear Cactus	May-Jun		Yellow	4-7' x 3-5'	10"	\$8.50	Flat fleshy green pads have long spines and hair like glochids. The red egg shaped fruits are borne on the edges of the pads. Pads, flowers and fruit are edible. Also makes a great natural fence. Is hardy to low teens. Easy to grow.
<b>Opuntia e. 'Linguiformis'</b> Cow's Tongue Prickly Pear Cactus	May-Jun		Yellow	5-6' x 2-6'	10"	\$8.50	Originally found south of China Grove, TX. The prickly pads (stems) are elongated like a cows tongue and can grow up to 18" long. The edible fruit ripen to purple in late summer. Hardy to around 0 to 10 degrees.
<b>Opuntia imbricata</b> Tree Cholla Cactus	May-Jun		Magenta	5-6' x 6-7'	10"	\$8.50	Native to the Chihuahuan desert of Texas. Dark green heavily branched cylindrical stems that can grow up to 14" have prominent tubercles (small wart-like projections on the stems from which spines grow). Spines are red. The 2" yellow fruit is dry and not very tasty. The dead stems often made into walking canes.
<b>Opuntia microdasys</b> Bunny Ears Cactus	May-Jun		Yellow	2.5' X 3-4"	10"	\$8.50	Native to Mexico. 3-6" pads covered in dense clusters of white glochids, no spines. The glochids are easily detached when touched, causing great skin irritation until removed. Bunny Ears are smoother and more delicate in appearance than prickly pear.
<b>Opuntia violacea</b> Purple Prickly Pear Cactus	May-Jun		Yellow	3' x 5'	10"	\$8.50	Same prickly pear traits but with striking purple pads. Purple color is more intense in times of stress. Has fewer spines than other prickly pear cactus.
<b>Yucca filamentosa 'Bright Edge'</b>	May-Jun		White	24" x 20" x 36"	# 1 10"	\$6.50 \$15.50	Small soft leaf yucca. Leaves are edged in creamy white to yellow. Evergreen. Nice as a container accent as well as in the landscape. Must have a well drained soil.
<b>Yucca filamentosa 'Color Guard'</b>	Summer		Cream	3' x 3' x 6'	# 1 10"	\$6.50 \$15.50	Hundreds of curly white hairs cover the golden centered soft foliage. During cooler months the leaf centers take on rose overtones. Bloom spike is covered with bell shaped flowers. Must have well drained soil. Usually winter hardy in north Texas.
<b>Yucca filamentosa</b> Adam's Needle	Varies		Cream	30" x 18" x 48-60"	# 1 10"	\$5.50 \$15.50	Selected for the extreme amount of corkscrew filaments along leaf margins. Leaves are blue-green and sword-like. Bell-shaped flowers are borne on the bloom spikes
<b>Yucca gloriosa 'Variegata'</b> Variegated Spanish Dagger	Summer		Cream	3' x 4' x 7'	# 1 10"	\$6.50 \$15.50	Rigid green leaves have cream-colored edges, smooth margins and sharp pointed tips. The variegation blushes to red in winter. Bloom spike is covered with bell-shaped flowers.
<b>Yucca pallida</b> Pale-Leaf Yucca	Spring		Cream	2' x 2' x 5'	# 1	\$5.50 \$13.50	Rigid green leaves have cream-colored edges, smooth margins and sharp pointed tips. The variegation blushes to red in winter. Bloom spike is covered with bell-shaped flowers.
<b>Yucca recurvifolia</b>	Spring		White	4' x 5' x 6-8'	# 1	\$5.50 \$15.50	Soft flexible 2-3' long blue green leaves that curve downward with age. Trunk forming. Keep dead leaves removed for a tidier appearance.
<b>Yucca rigida</b> Blue Yucca	Spring		Cream	8' x 11'	# 1 10"	\$5.50 \$13.50	A tall trunk forming species. Plants will branch after flowering. The powder blue leaves have very sharp tips and can be up to 3 feet long. Flowering does not occur ever year. Cold hardy to 5°F.
<b>Yucca rostrata</b> Beaked Yucca	Spring		Cream	3-5' x 6-10'	# 1 10"	\$5.50 \$13.50	Solitary tree-like trunk with blue-green foliage with sharp tip. Very slow growing. Rostrata beans are beaked, like that of a bird. Like all yuccas, it needs well drained soil. Is hardy to around 10-15 degrees.
<b>Yucca rupicola</b> Twisted Leaf Yucca	Summer		White	2' x 2' x 5'	# 1 10"	\$5.50 \$13.50	A stemless yucca that is ideal for small spaces. The leaves twist and turn, giving the plant a unique form. Found growing under native Mesquite and Oak trees as well as areas of full sun. Hardy to -10°F.
