Safety warning notice

⚠ WARNING! To reduce the possibility of heat-related injuries or of overheating the computer, do not place the computer directly on your lap or obstruct the computer air vents. Use the computer only on a hard, flat surface. Do not allow another hard surface, such as an adjoining optional printer, or a soft surface, such as pillows or rugs or clothing, to block airflow. Also, do not allow the AC adapter to contact the skin or a soft surface, such as pillows or rugs or clothing, during operation. The computer and the AC adapter comply with the user-accessible surface temperature limits defined by the International Standard for Safety of Information Technology Equipment (IEC 60950).

1 Product description

Category	Description
Product Name	Compaq Presario B1200 Notebook PC
Processors	Intel® Core™ 2 Duo processors: T7800 2.6-GHz processor, 4-MB L2 cache, 800-MHz front side bus (FSB) T7700 2.4-GHz processor, 4-MB L2 cache, 800-MHz FSB T7500 2.2-GHz processor, 4-MB L2 cache, 800-MHz FSB T7300 2.0-GHz processor, 4-MB L2 cache, 800-MHz FSB T7100 1.8-GHz processor, 2-MB L2 cache, 800-MHz FSB Intel Core Duo processors: T5450 1.66-GHz processor, 2-MB L2 cache, 667-MHz FSB T5250 1.50-GHz processor, 2-MB L2 cache, 667-MHz FSB Intel Celeron®-M processors: Celeron-M 540 1.86-Ghz processor, 2-MB L2 cache, 533-MHz FSB Celeron-M 530 1.73-Ghz processor, 2-MB L2 cache, 533-MHz FSB
Chipset	Northbridge: Intel GM965 with up to 800-Mhz FSB Southbridge: Intel ICH8M
Graphics	Intel Unified Memory Architecture (UMA) graphics subsystem integrated with shared system memory (dynamically allocated)
Panel	12.1-inch WXGA panel (1280 × 800) All display assemblies include 2 wireless local area network (WLAN) antennae
Memory	2 customer-accessible/upgradable memory module slots Supports dual-channel memory Supports up to 4 GB of system RAM PC2-5300, 667-MHz, DDR2 Supports the following configurations: <ul style="list-style-type: none">• 4096-MB total system memory (2048 × 2, dual-channel)• 3072-MB total system memory (2048 + 1024)• 2560-MB total system memory (2048 + 512)

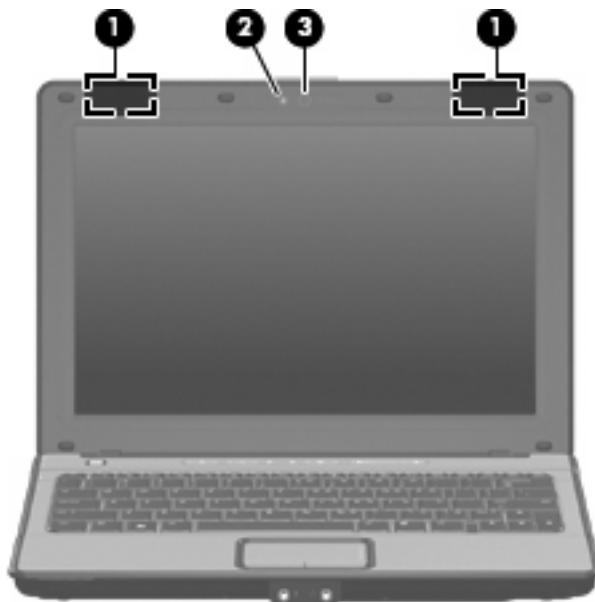

Category	Description
	<ul style="list-style-type: none"> • 2048-MB total system memory (1024×2, dual-channel) • 2048-MB total system memory (2048×1) • 1536-MB total system memory ($1024 + 512$) • 1024-MB total system memory (512×2, dual-channel) • 1024-MB total system memory (1024×1) • 512-MB total system memory (512×1)
Web camera	Low-light, low-resolution VGA camera
Hard drives	<p>Supports 9.5-mm, 2.5-inch hard drives</p> <p>Customer-accessible</p> <p>Serial ATA</p> <p>Supports the following drives:</p> <ul style="list-style-type: none"> • 200-GB, 4200-rpm • 160-GB, 5400-rpm • 120-GB, 5400-rpm • 80-GB, 5400-rpm
Optical drives	<p>Fixed (removal of 1 screw required)</p> <p>Customer-accessible</p> <p>Parallel ATA</p> <p>12.7-mm tray load</p> <p>Supports no-optical-drive option</p> <p>Supports the following drives:</p> <ul style="list-style-type: none"> • DVD/CD-RW Combo Drive • DVD-ROM Drive
Diskette drive	Supports external USB diskette drive only
Microphone	Integrated mono microphone
Audio	<p>Azalia audio</p> <p>2 speakers</p>
Modem	<p>56K V.92 1.5-inch data/fax modem with digital line guard</p> <p>Modem cable included</p>
Ethernet	<p>Intel Broadcom 5787 10/100/1000 network interface card (NIC)</p> <p>S4/S5 wake on LAN: AC</p> <p>NIC power-down technology</p>
Wireless	<p>Integrated WLAN options by way of wireless module:</p> <p>2 wireless antennae built into display assembly</p>

Category	Description
	Support for no-WLAN option
	Support for the following WLAN formats: <ul style="list-style-type: none"> • Intel 802.11a/b/g/n • Broadcom 802.11a/b/g • Intel 802.11a/b/g • Broadcom 802.11b/g • Intel 802.11b/g
	Integrated personal area network (PAN) options by way of Bluetooth® module:
	Support for no-WPAN option
	Broadcom Bluetooth
External media card	One Type I/II PC Card slot, supporting 16-bit and 32-bit (Cardbus) PC Card modules
	Digital Media Slot supporting MMC and SD digital cards
Ports	Audio-in (mono microphone)
	Audio-out (stereo headphone)
	S-Video-out
	RJ-11 (modem)
	RJ-45 (Ethernet, includes link and activity lights)
	USB (3)
	VGA (Dsub 15-pin) supporting 1600 x 1200 external resolution at 75-GHz (hot plug/unplug with auto-detect)
	Multi-pin AC power
Docking	None
Keyboard/pointing devices	Spill-resistant 12.3-inch keyboard
	TouchPad with 2 TouchPad buttons
	Supports 2-way scroll
	Taps enabled as default
	Windows Vista® Hardware Start Button
Power requirements	65-W AC adapter with localized and pointing stick cable plug support (3-wire plug with ground pin, supports 3-pin DC connector)
	8-cell, 2.55-Ah (73-Wh) Li-ion battery
	4-cell, 2.25-Ah (37-Wh) Li-ion battery
Security	Security cable slot
Operating system	Preinstalled:
	Windows Vista® Business 32

Category	Description
	FreeDOS (Thailand)
Serviceability	End-user replaceable parts:
	AC adapter
	Battery (system)
	Hard drive
	Memory module
	Optical drive
	WLAN module

2 External component identification

Display components

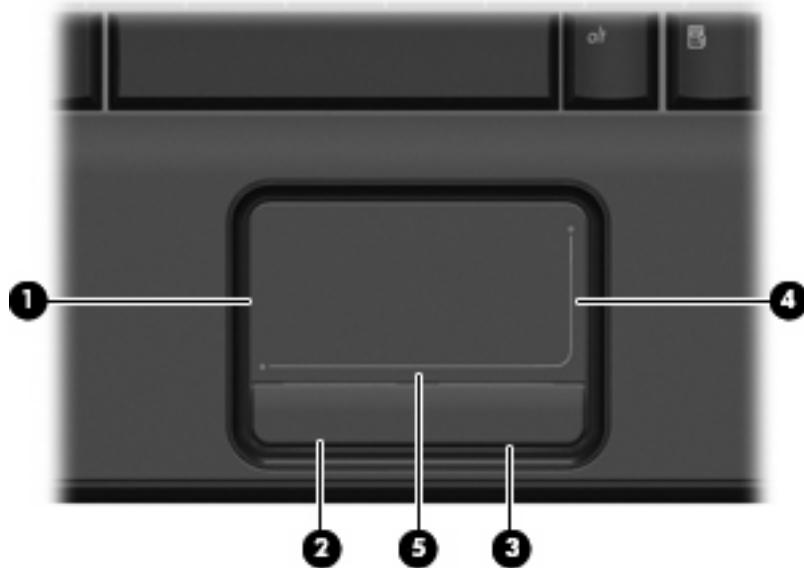

Item	Component	Description
(1)	Wireless antennae (2)*	Send and receive wireless signals to communicate with WLANs.
(2)	Integrated camera light	On: The integrated camera is in use.
(3)	Integrated camera	Records video and captures still photographs.

*The antennae are not visible from the outside of the computer. For optimal transmission, keep the areas immediately around the antennae free from obstructions.

To see wireless regulatory notices, refer to the section of the *Regulatory, Safety and Environmental Notices* that applies to your country or region. These notices are located in Help and Support.

Top components

Pointing devices

Item	Component	Function
(1)	TouchPad	Moves the pointer and selects or activates items on the screen.
(2)	Left TouchPad button	Functions like the left button on an external mouse.
(3)	Right TouchPad button	Functions like the right button on an external mouse.
(4)	Vertical scroll zone	Scrolls up or down.
(5)	Horizontal scroll zone	Scrolls left or right.

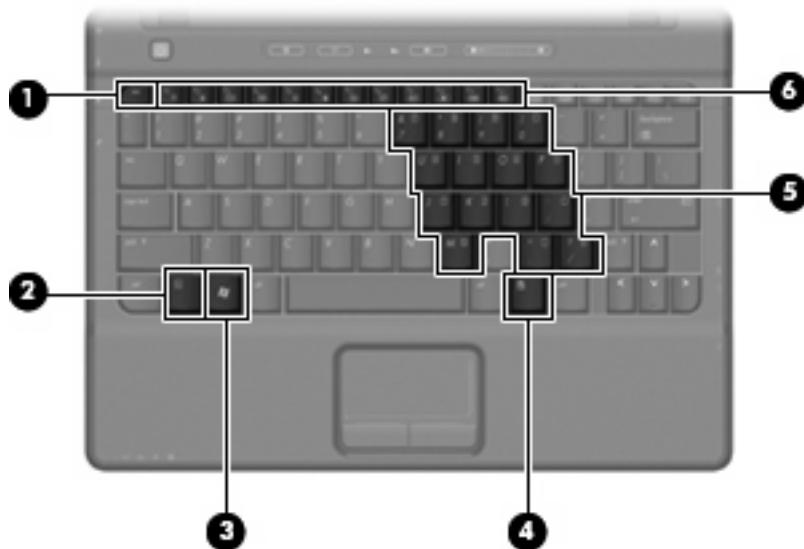

NOTE: This table describes factory settings. View or change pointing device preferences by selecting **Start > Control Panel > Hardware and Sound > Mouse**.

Buttons

Item	Component	Description
(1)	Power button	<ul style="list-style-type: none">When the computer is off, press the button to turn on the computer.When the computer is on, press the button to shut down the computer.When the computer is in the Sleep state, press the button briefly to exit the Sleep state.When the computer is in Hibernation, press the button briefly to exit Hibernation. <p>If the computer has stopped responding and Windows® shutdown procedures are ineffective, press and hold the power button for at least 5 seconds to turn off the computer.</p> <p>To learn more about power settings, select Start > Control Panel > System and Maintenance > Power Options.</p>
(2)	Media button	Opens the QuickPlay program. NOTE: If the computer has been set up to require a logon password, you may be asked to log on to Windows. QuickPlay opens after you log on. Refer to the QuickPlay Help for more information.
(3)	Wireless button	Turns the wireless feature on or off, but does not establish a wireless connection. NOTE: A wireless network must be set up in order to establish a wireless connection.
(4)	Volume mute button (select models only)	Mutes and restores speaker sound.
(5)	Volume scroll zone	Adjusts speaker volume. Slide your finger to the left to decrease volume and to the right to increase volume.

Keys

Item	Component	Function
(1)	esc key	Displays system information when pressed in combination with the fn key.
(2)	fn key	Executes frequently used system functions when pressed in combination with a function key or the esc key.
(3)	Windows logo key	Displays the Windows Start menu.
(4)	Windows applications key	Displays a shortcut menu for items beneath the pointer.
(5)	Embedded numeric keypad keys	Can be used like the keys on an external numeric keypad.
(6)	Function keys	Execute frequently used system functions when pressed in combination with the fn key.

Lights

Item	Component	Description
(1)	Wireless light	<ul style="list-style-type: none">On: An integrated wireless device, such as a wireless local area network (WLAN) device, the HP Broadband Wireless Module, and/or a Bluetooth® device, is on.Off: All wireless devices are off.
(2)	Power light	<ul style="list-style-type: none">On: The computer is on.Blinking: The computer is in the Sleep state.Blinking rapidly: An AC adapter with a higher power rating should be connected.Off: The computer is off or in Hibernation.
(3)	Battery light	<ul style="list-style-type: none">Amber: A battery is charging.Green: A battery is close to full charge capacity.Blinking amber: A battery that is the only available power source has reached a low battery level. When the battery reaches a critical battery level, the battery light begins blinking rapidly.Off: If the computer is plugged into an external power source, the light turns off when all batteries in the computer are fully charged. If the computer is not plugged into an external power source, the light stays off until the battery reaches a low battery level.
(4)	Drive light	Blinking green: The hard drive or optical drive is being accessed.
(5)	Num lock light	On: Num lock is on.
(6)	Caps lock light	On: Caps lock is on.
(7)	Volume mute light	<ul style="list-style-type: none">Off: Computer sound is on.On: Computer sound is off.

Item	Component	Description
(8)	Volume down light	Blinking: The volume scroll zone is being used to decrease speaker volume.
(9)	Volume up light	Blinking: The volume scroll zone is being used to increase speaker volume.

Front components

Item	Component	Function
(1)	Wireless light	<ul style="list-style-type: none">On: An integrated wireless device, such as a WLAN device, the HP Broadband Wireless Module, and/or a Bluetooth device, is turned on.Off: All wireless devices are turned off.
(2)	Power light	<ul style="list-style-type: none">On: The computer is on.Blinking: The computer is in the Sleep state.Blinking rapidly: An AC adapter with a higher power rating should be connected.Off: The computer is off or in Hibernation.
(3)	Battery light	<ul style="list-style-type: none">Amber: A battery is charging.Green: A battery is close to full charge capacity.Blinking amber: A battery that is the only available power source has reached a low battery level. When the battery reaches a critical battery level, the battery light begins blinking rapidly.Off: If the computer is plugged into an external power source, the light turns off when all batteries in the computer are fully charged. If the computer is not plugged into an external power source, the light stays off until the battery reaches a low battery level.
(4)	Drive light	Blinking green: The hard drive or optical drive is being accessed.
(5)	Speakers (2)	Produce sound.
(6)	Audio-out (headphone) jack	Produces sound when connected to optional powered stereo speakers, headphones, ear buds, a headset, or television audio.
(7)	Audio-in (microphone) jack	Connects an optional computer headset microphone, stereo array microphone, or monaural microphone.

Left-side components

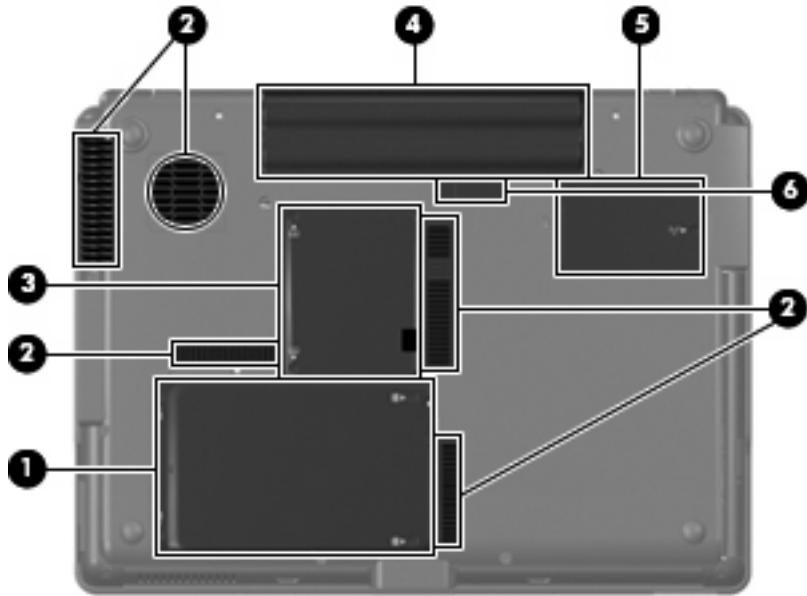

Item	Component	Function
(1)	Power connector	Connects an AC adapter.
(2)	USB ports (2)	Connect optional USB devices.
(3)	RJ-45 (network) jack	Connects a network cable. NOTE: The RJ-45 (network) jack provides Gigabit Ethernet functionality.
(4)	RJ-11 (modem) jack	Connects a modem cable.
(5)	Optical drive	Reads optical discs and, on select models, also writes to optical discs.
(6)	Optical drive light	On: The optical drive is being accessed.

Right-side components

Item	Component	Function
(1)	ExpressCard slot (select models only)	Supports optional ExpressCard/54 cards.
(2)	Digital Media Slot	Supports the following optional digital card formats: MultiMedia Card (MMC) and Secure Digital (SD) Memory Card.
(3)	USB port (select models only)	Connects an optional USB device.
(4)	S-Video-out jack	Connects an optional S-Video device such as a television, VCR, camcorder, overhead projector, or video capture card.
(5)	Internal microphone	Records sound.
(6)	External monitor port	Connects an external VGA monitor or projector.
(7)	Vent	Enables airflow to cool internal components. NOTE: The computer fan starts up automatically to cool internal components and prevent overheating. It is normal for the internal fan to cycle on and off during routine operation.
(8)	Security cable slot	Attaches an optional security cable to the computer. NOTE: The security cable is designed to act as a deterrent, but it may not prevent the computer from being mishandled or stolen.

Bottom components

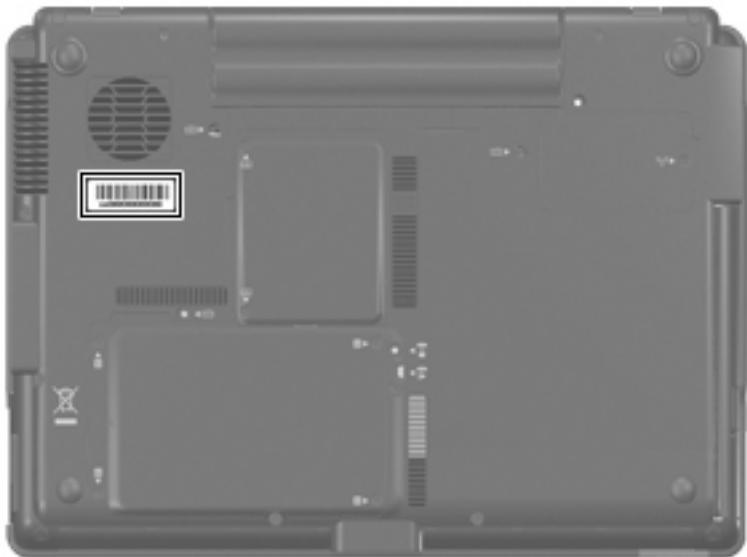

Item	Component	Function
(1)	Hard drive bay	Holds the hard drive.
(2)	Vents (5)	Enables airflow to cool internal components. NOTE: The computer fan starts up automatically to cool internal components and prevent overheating. It is normal for the internal fan to cycle on and off during routine operation.
(3)	Memory module compartment	Contains a memory module slot.
(4)	Battery bay	Holds the battery.
(5)	WLAN module compartment	Contains a WLAN module slot. CAUTION: To prevent an unresponsive system, use only a wireless module authorized for use in the computer by the governmental agency that regulates wireless devices in your country or region. If you install the module and then receive a warning message, remove the module to restore computer functionality, and then contact technical support through Help and Support.
(6)	Battery release latch	Releases the battery from the battery bay.

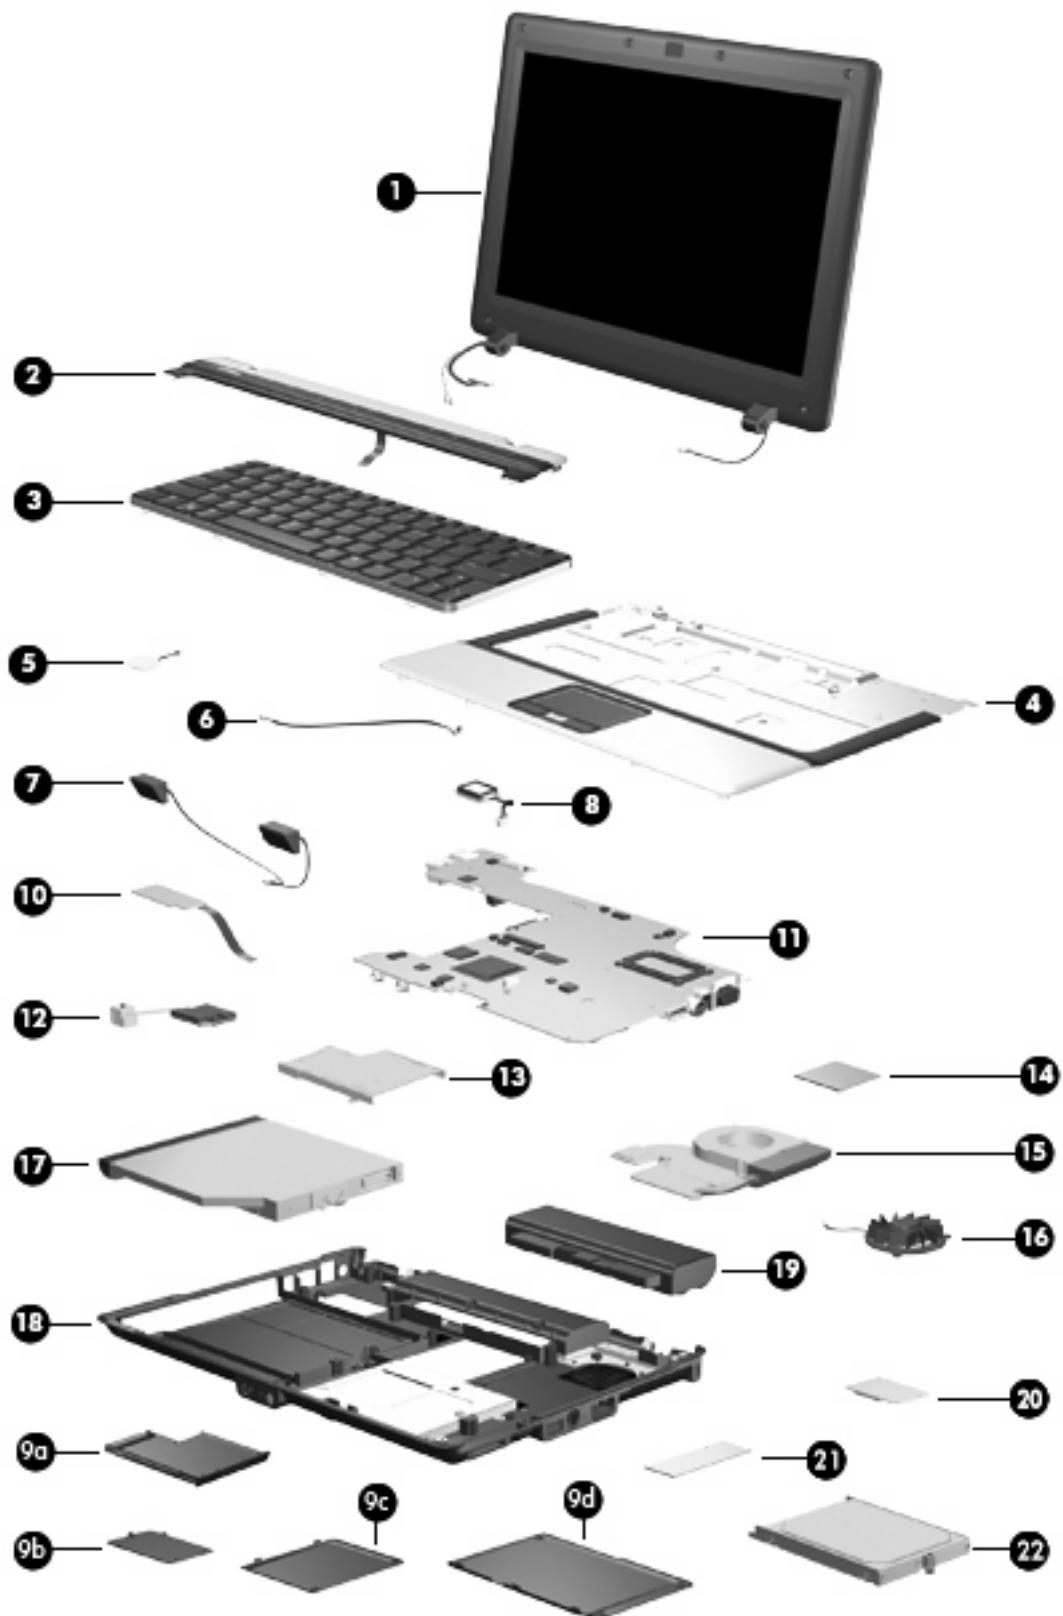

3 Illustrated parts catalog

Serial number location

When ordering parts or requesting information, provide the computer serial number and model number located on the bottom of the computer.

Computer major components

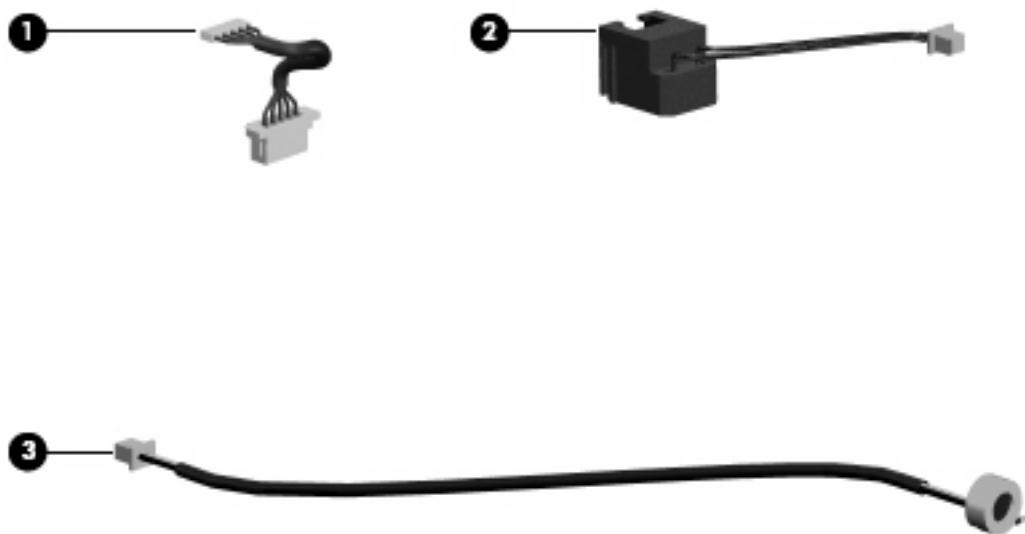

Item	Description	Spare part number
(1)	12.1-inch, WXGA display assembly (includes 2 WLAN antenna transceivers and cables, camera module and cable, nameplate, and logo)	454003-001
Display internal components		
	Display bezel (includes nameplate)	454399-001
	Display inverter	454009-001
	Display hinges	454011-001
	Display enclosure (includes 2 WLAN antenna transceivers and cables, camera cable, and logo)	454007-001
(2)	Switch cover (includes LED board and cable)	454005-001
(3)	Keyboards (include keyboard cable)	
	For use in Japan	454017-291
	For use in South Korea	454017-AD1
	For use in Taiwan	454017-AB1
	For use in Thailand	454017-281
	For use in the United States	454017-001
(4)	Top cover (includes TouchPad and TouchPad cable)	453995-001
(5)	RTC battery	449137-001
(6)	Microphone (included in the Cable Kit, spare part number 454008-001. See Cable Kit on page 21 for more Cable Kit information.)	
(7)	Speaker assembly	457906-001
(8)	Bluetooth module	398393-002
<p>NOTE: The Bluetooth module spare part kit does not include a Bluetooth module cable. The Bluetooth module cable is included in the Cables Kit, spare part number 454008-001. See Cable Kit on page 21 for more Cable Kit information.</p>		
	Plastics Kit (see Plastics Kit on page 22 for more Plastics Kit spare part information)	454010-001
(9a)	ExpressCard slot bezel	
(9b)	WLAN module compartment cover	
(9c)	Memory module compartment cover	
(9d)	Hard drive cover	
(10)	Front LED board (includes front LED board cable)	453997-001
(11)	System board (includes replacement thermal material)	453992-001
(12)	Modem modules	
<p>NOTE: The modem module spare part kits do not include a modem module cable. The modem module cable is included in the Cables Kit, spare part number 454008-001. See Cable Kit on page 21 for more Cable Kit information.</p>		
	For use in all countries and regions except Japan and Asia Pacific countries and regions	451403-001
	For use only in Japan and Asia Pacific countries and regions	449139-001

Item	Description	Spare part number
(13)	ExpressCard assembly	457907-001
(14)	Processors (include replacement thermal material)	
	Intel Core 2 Duo processors (4-MB L2 cache, 800-MHz FSB):	
	• T7800 2.6-GHz processor	454016-001
	• T7700 2.4-GHz processor	446894-001
	• T7500 2.2-GHz processor	454015-001
	• T7300 2.0-GHz processor	446892-001
	• T7100 1.8-GHz processor (1-MB L2 cache)	446891-001
	Intel Core Duo processors (2-MB L2 cache, 667-MHz FSB):	
	• T5450 1.66-GHz processor	454598-001
	• T5250 1.50-GHz processor	455399-001
	Intel Celeron-M processors (1-MB L2 cache, 533-MHz FSB):	
	• 540 1.86-GHz processor	454600-001
	• 530 1.73-GHz processor	454599-001
(15)	Heat sink (includes replacement thermal material)	453998-001
	Thermal Material Kit	445853-001
(16)	Fan	453999-001
(17)	Optical drives (include optical drive bezel and bracket)	
	DVD/CD-RW Combo Drive	454333-001
	DVD-ROM Drive	454334-001
	Optical Drive Bezel/Bracket Kit (not illustrated)	454000-001
(18)	Base enclosure (includes rubber feet)	453993-001
(19)	Batteries	
	8-cell, 73-WH	454002-001
	4-cell, 37-WH	454001-001
(20)	WLAN modules	
	Intel 802.11a/b/g/n WLAN modules:	
	• For use in Antigua and Barbuda, Argentina, Aruba, the Bahamas, Barbados, Bermuda, Brunei, Canada, the Cayman Islands, Chile, Colombia, Costa Rica, the Dominican Republic, Ecuador, El Salvador, Guam, Guatemala, Haiti, Honduras, Hong Kong, India, Indonesia, Malaysia, Mexico, Panama, Paraguay, Peru, Saudi Arabia, Taiwan, Uruguay, the United States, Venezuela, and Vietnam	441086-001
	• For use in Azerbaijan, Bahrain, Belgium, Brazil, Bulgaria, Croatia, Cyprus, the Czech Republic, Denmark, Egypt, Estonia, Finland, France, Georgia, Germany, Greece, Hungary, Iceland, Ireland, Israel, Italy, Latvia, Lebanon, Liechtenstein, Lithuania, Luxembourg, Malta, Monaco, the Netherlands, Norway, Oman, the Philippines, Poland, Portugal, Qatar, Romania, Russia and Montenegro, Singapore, Slovakia,	441086-002

Item	Description	Spare part number
	Slovenia, South Africa, Spain, Sri Lanka, Sweden, Switzerland, Turkey, Ukraine, the United Kingdom, and Uzbekistan	
•	For use in Australia, New Zealand, Pakistan, the People's Republic of China, and South Korea	441086-003
•	For use in Japan	441086-291
Broadcom 802.11a/b/g WLAN modules:		
•	For use in Afghanistan, Albania, Algeria, Andorra, Angola, Antigua and Barbuda, Argentina, Armenia, Aruba, Australia, Austria, Azerbaijan, the Bahamas, Bahrain, Bangladesh, Barbados, Belarus, Belgium, Belize, Benin, Bermuda, Bhutan, Bolivia, Bosnia and Herzegovina, Botswana, Brazil, the British Virgin Islands, Brunei, Bulgaria, Burkina Faso, Burundi, Cameroon, Cape Verde, the Central African Republic, Chad, Chile, People's Republic of China, Colombia, Comoros, the Congo, Costa Rica, Croatia, Cyprus, the Czech Republic, Denmark, Djibouti, Dominica, the Dominican Republic, East Timor, Ecuador, Egypt, El Salvador, Equitorial Guinea, Eritrea, Estonia, Ethiopia, Fiji, Finland, France, French Guiana, Gabon, Gambia, Georgia, Germany, Ghana, Gibraltar, Greece, Grenada, Guadeloupe, Guatemala, Guinea, Guinea-Bissa, Guyana, Haiti, Honduras, Hong Kong, Hungary, Iceland, India, Ireland, Israel, Italy, the Ivory Coast, Jamaica, Jordan, Kazakhstan, Kenya, Kiribati, Kyrgyzstan, Laos, Latvia, Lebanon, Lesotho, Liberia, Liechtenstein, Lithuania, Luxembourg, Macedonia, Madagascar, Malawi, Malaysia, the Maldives, Mali, Malta, the Marshall Islands, Martinique, Mauritania, Mauritius, Mexico, Micronesia, Monaco, Mongolia, Montenegro, Morocco, Mozambique, Namibia, Nauru, Nepal, the Nether Antilles, the Netherlands, New Zealand, Nicaragua, Niger, Nigeria, Norway, Oman, Pakistan, Palau, Panama, Papua New Guinea, Paraguay, Peru, the Philippines, Poland, Portugal, the Republic of Moldova, Romania, Russia, Rwanda, Samoa, San Marino, Sao Tome & Principe, Saudi Arabia, Senegal, Serbia and Montenegro, the Seychelles, Sierra Leone, Singapore, Slovakia, Slovenia, the Solomon Islands, Somalia, South Africa, South Korea, Spain, Sri Lanka, St. Kitts & Nevis, St. Lucia, St. Vincent & Grenada, Suriname, Swaziland, Sweden, Switzerland, Taiwan, Tajikistan, Tanzania, Togo, Tonga, Trinidad and Tobago, Tunisia, Turkey, Turkmenistan, Tuvalu, Uganda, Ukraine, the United Arab Emirates, the United Kingdom, Uruguay, Uzbekistan, Vanuatu, Venezuela, Vietnam, Yemen, Zaire, Zambia, and Zimbabwe	441075-002
•	For use in Japan	441075-291
Intel 802.11a/b/g WLAN modules:		
•	For use in Antigua & Barbuda, Argentina, Aruba, the Bahamas, Barbados, Bermuda, Brunei, Canada, the Cayman Islands, Chile, Colombia, Costa Rica, the Dominican Republic, Ecuador, El Salvador, Guam, Guatemala, Haiti, Honduras, Hong Kong, India, Indonesia, Malaysia, Mexico, Panama, Paraguay, Peru, Saudi Arabia, Taiwan, the United States, Uruguay, Venezuela, and Vietnam	448674-001

•	For use in Afghanistan, Albania, Algeria, Andorra, Angola, Antigua & Barbuda, Argentina, Armenia, Aruba, Australia, Austria, Azerbaijan, the Bahamas, Bahrain,	441090-002

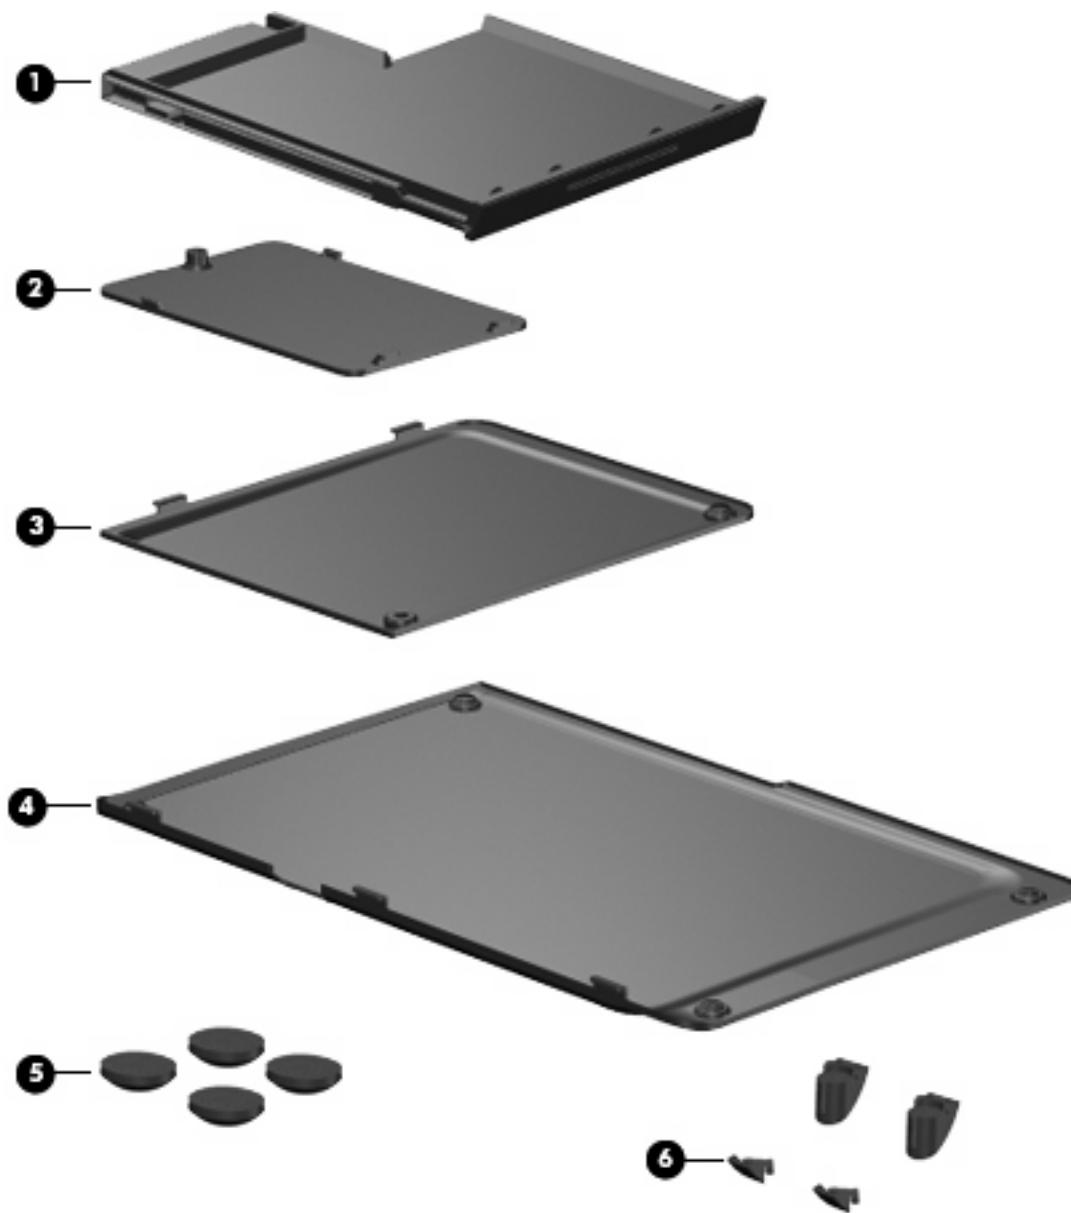

Item	Description	Spare part number
	Bangladesh, Barbados, Belarus, Belgium, Belize, Benin, Bermuda, Bhutan, Bolivia, Bosnia & Herzegovina, Botswana, Brazil, the British Virgin Islands, Brunei, Bulgaria, Burkina Faso, Burundi, Cambodia, Cameroon, Cape Verde, the Central African Republic, Chad, Chile, Colombia, Comoros, the Congo, Costa Rica, Croatia, Cyprus, the Czech Republic, Denmark, Djibouti, Dominica, the Dominican Republic, East Timor, Ecuador, Egypt, El Salvador, Equitorial Guinea, Eritrea, Estonia, Ethiopia, Fiji, Finland, France, French Guiana, Gabon, Gambia, Georgia, Germany, Ghana, Gibraltar, Greece, Grenada, Guadeloupe, Guatemala, Guinea, Guinea-Bissa, Guyana, Haiti, Honduras, Hong Kong, Hungary, Iceland, India, Indonesia, Ireland, Israel, Italy, the Ivory Coast, Jamaica, Jordan, Kazakhstan, Kenya, Kiribati, Kuwait, Kyrgyzstan, Laos, Latvia, Lebanon, Lesotho, Liberia, Liechtenstein, Lithuania, Luxembourg, Macedonia, Madagascar, Malawi, Malaysia, the Maldives, Mali, Malta, the Marshall Islands, Martinique, Mauritania, Mauritius, Mexico, Micronesia, Monaco, Mongolia, Montenegro, Morocco, Mozambique, Namibia, Nauru, Nepal, the Nether Antilles, the Netherlands, New Zealand, Nicaragua, Niger, Nigeria, Norway, Oman, Palau, Panama, Papua New Guinea, Paraguay, the People's Republic of China, Peru, the Philippines, Poland, Portugal, Qatar, the Republic of Moldova, Romania, Russia, Rwanda, Samoa, San Marino, Sao Tome & Principe, Saudi Arabia, Senegal, Serbia and Montenegro, the Seychelles, Sierra Leone, Singapore, Slovakia, Slovenia, the Solomon Islands, Somalia, South Africa, South Korea, Spain, Sri Lanka, St. Kitts & Nevis, St. Lucia, St. Vincent & Grenada, Suriname, Swaziland, Sweden, Switzerland, Taiwan, Tajikistan, Tanzania, Thailand, Togo, Tonga, Trinidad & Tobago, Tunisia, Turkey, Turkmenistan, Tuvalu, Uganda, Ukraine, the United Arab Emirates, the United Kingdom, Uruguay, Uzbekistan, Vanuatu, Venezuela, Vietnam, Yemen, Zaire, Zambia, and Zimbabwe	
	• For use in Japan	441090-291
	Intel 802.11b/g WLAN module for use in Thailand	448675-004
(21)	Memory modules (PC2-5300, 667-MHz, DDR2)	
	2048-MB	417506-001
	1024-MB	414046-001
	512-MB	414045-001
(22)	Hard drives (include hard drive bracket)	
	200-GB, 4200-rpm	454338-001
	160-GB, 5400-rpm	454337-001
	120-GB, 5400-rpm	454336-001
	80-GB, 5400-rpm	454335-001
	Cable Kit (not illustrated	454008-001

Cable Kit

Item	Description	Spare part number
Cable Kit:		454008-001
(1)	Bluetooth module cable	
(2)	Modem module cable (includes RJ-11 jack)	
(3)	Microphone (includes receiver)	

Plastics Kit

Item	Description	Spare part number
Plastics Kit:		454010-001
(1)	ExpressCard slot bezel	
(2)	WLAN module compartment cover (includes one captive screw, secured by a C-clip)	
(3)	Memory module compartment cover (includes one captive screw, secured by a C-clip)	
(4)	Hard drive cover (includes 2 captive screws, secured by C-clips)	

Item	Description	Spare part number
(5)	Computer feet (4)	
(6)	Base enclosure screw covers (4 covers, 2 sizes)	

Mass storage devices

Item	Description	Spare part number
(1)	Hard drives (include bracket)	
	200-GB, 4200-rpm	454338-001
	160-GB, 5400-rpm	454337-001
	120-GB, 5400-rpm	454336-001
	80-GB, 5400-rpm	454335-001
(2)	Optical drives (include bezel)	
	DVD/CD-RW Combo Drive	454333-001
	DVD-ROM Drive	454334-001

Miscellaneous parts

Description	Spare part number
65-W AC adapter	391172-001
Power cords:	
For use in Australia	246959-011
For use in Japan	246959-291
For use the United States	246959-001
Screw Kit	
• Phillips PM3.0×4.0 screw	
• Phillips PM2.5×12.0 captive screw	
• Phillips PM2.5×7.0 captive screw	
• Phillips PM2.5×7.0 screw	
• Phillips PM2.5×6.0 screw	
• Phillips PM2.5×5.0 screw	
• Phillips PM2.5×4.0 screw	
• Phillips PM2.0×6.0 screw	
• Phillips PM2.0×6.0 shoulder screw	
• Phillips PM2.0×5.0 captive screw	
• Phillips PM2.0×3.0 screw	
• Torx T8M2.5×6.0 screw	
• Torx T8M2.5×5.0 screw	

Sequential part number listing

Spare part number	Description
246959-001	Power cord for use in the United States

441090-291	Broadcom 802.11b/g module for use in Japan
445853-001	Thermal Material Kit
446891-001	Intel Core 2 Duo T7100 1.80-GHz processor (2-MB L2 cache, 800-MHz FSB, includes replacement thermal material)
446892-001	Intel Core 2 Duo T7300 2.00-GHz processor (4-MB L2 cache, 800-MHz FSB, includes replacement thermal material)
446894-001	Intel Core 2 Duo T7700 2.40-GHz processor (4-MB L2 cache, 800-MHz FSB, includes replacement thermal material)
448674-001	Intel 802.11a/b/g module for use in Antigua & Barbuda, Argentina, Aruba, the Bahamas, Barbados, Bermuda, Brunei, Canada, the Cayman Islands, Chile, Colombia, Costa Rica, the Dominican Republic, Ecuador, El Salvador, Guam, Guatemala, Haiti, Honduras, Hong Kong, India, Indonesia, Malaysia, Mexico, Panama, Paraguay, Peru, Saudi Arabia, Taiwan, the United States, Uruguay, Venezuela, and Vietnam
448674-002	Intel 802.11a/b/g module for use in Austria, Azerbaijan, Bahrain, Belgium, Brazil, Bulgaria, Croatia, Cyprus, the Czech Republic, Denmark, Egypt, Estonia, Finland, France, Georgia, Germany, Greece, Hungary, Iceland, Ireland, Israel, Italy, Latvia, Lebanon, Liechtenstein, Lithuania, Luxembourg, Malta, Monaco, the Netherlands, Norway, Oman, the Philippines, Poland, Portugal, Qatar, Romania, Russia, Serbia and Montenegro, Singapore, Slovakia, Slovenia, South Africa, Spain, Sri Lanka, Sweden, Switzerland, Turkey, Ukraine, the United Kingdom, and Uzbekistan
448674-003	Intel 802.11a/b/g module for use in Australia, New Zealand, Pakistan, the People's Republic of China, and South Korea
448674-291	Intel 802.11a/b/g module for use in Japan
448675-004	Intel 802.11b/g module for use in Thailand
449137-001	RTC battery
449139-001	Modem module for use only in Japan and Asia Pacific countries and regions
NOTE: The modem module spare part kits do not include a modem module cable. The modem module cable is included in the Cables Kit, spare part number 454008-001. See Cable Kit on page 21 for more Cable Kit information.	
451403-001	Modem module for use in all countries and regions except Japan and Asia Pacific countries and regions

Spare part number	Description
	NOTE: The modem module spare part kits do not include a modem module cable. The modem module cable is included in the Cables Kit, spare part number 454008-001. See Cable Kit on page 21 for more Cable Kit information.
453992-001	System board (includes replacement thermal material)
453993-001	Base enclosure (includes rubber feet)
453995-001	Top cover (includes TouchPad and cable)
453997-001	Front LED board
453998-001	Heat sink (includes replacement thermal material)
453999-001	Fan
454000-001	Optical Drive Bezel/Bracket Kit
454001-001	4-cell, 37-WH battery
454002-001	8-cell, 73-WH battery
454003-001	12.1-inch, WXGA, display assembly
454006-001	Switch cover
454007-001	Display enclosure (includes 2 WLAN antenna transceivers and cables, camera cable, and logo)
454008-001	Cable Kit
454009-001	Display inverter
454010-001	Plastics Kit
454011-001	Display hinges (includes left and right display hinges)
454012-001	Display Cable Kit (includes camera module cable and 2 WLAN transceivers and cables)
454013-001	Camera module
454014-001	Screw Kit
454015-001	Intel Core 2 Duo T7500 2.4-GHz processor (4-MB L2 cache, 800-MHz FSB, includes replacement thermal material)
454016-001	Intel Core 2 Duo T7800 2.6-GHz processor (4-MB L2 cache, 800-MHz FSB, includes replacement thermal material)
454017-001	Keyboard for use in the United States
454017-281	Keyboard for use in Thailand
454017-291	Keyboard for use in Japan
454017-AB1	Keyboard for use in Taiwan
454017-AD1	Keyboard for use in South Korea
454333-001	DVD/CD-RW Combo Drive
454334-001	DVD-ROM Drive
454335-001	80-GB, 5400-rpm hard drive (includes hard drive bracket)
454336-001	120-GB, 5400-rpm hard drive (includes hard drive bracket)

Spare part number	Description
454337-001	160-GB, 5400-rpm hard drive (includes hard drive bracket)
454338-001	200-GB, 4200-rpm hard drive (includes hard drive bracket)
454399-001	Display bezel (includes nameplate)
454598-001	Intel Core Duo T5450 1.66-GHz processor (2-MB L2 cache, 667-MHz FSB, includes replacement thermal material)
454599-001	Intel Celeron-M 530 1.73-GHz processor (1-MB L2 cache, 533-MHz FSB, includes replacement thermal material)
454600-001	Intel Celeron-M 540 1.86-GHz processor (1-MB L2 cache, 533-MHz FSB, includes replacement thermal material)
455399-001	Intel Core Duo T5250 1.50-GHz processor (2-MB L2 cache, 667-MHz FSB, includes replacement thermal material)
457906-001	Speakers
457907-001	ExpressCard assembly

4 Removal and replacement procedures

Preliminary replacement requirements

Tools required

You will need the following tools to complete the removal and replacement procedures:

- Flat-bladed screwdriver
- Magnetic screwdriver
- Phillips P0 and P1 screwdrivers
- Torx T8 screwdriver

Service considerations

The following sections include some of the considerations that you must keep in mind during disassembly and assembly procedures.

 **NOTE:** As you remove each subassembly from the computer, place the subassembly (and all accompanying screws) away from the work area to prevent damage.

Plastic parts

Using excessive force during disassembly and reassembly can damage plastic parts. Use care when handling the plastic parts. Apply pressure only at the points designated in the maintenance instructions.

Cables and connectors

△ **CAUTION:** When servicing the computer, be sure that cables are placed in their proper locations during the reassembly process. Improper cable placement can damage the computer.

Cables must be handled with extreme care to avoid damage. Apply only the tension required to unseat or seat the cables during removal and insertion. Handle cables by the connector whenever possible. In all cases, avoid bending, twisting, or tearing cables. Be sure that cables are routed in such a way that they cannot be caught or snagged by parts being removed or replaced. Handle flex cables with extreme care; these cables tear easily.

Drive handling

△ **CAUTION:** Drives are fragile components that must be handled with care. To prevent damage to the computer, damage to a drive, or loss of information, observe these precautions:

Before removing or inserting a hard drive, shut down the computer. If you are unsure whether the computer is off or in Hibernation, turn the computer on, and then shut it down through the operating system.

Before handling a drive, be sure that you are discharged of static electricity. While handling a drive, avoid touching the connector.

Before removing a diskette drive or optical drive, be sure that a diskette or disc is not in the drive and be sure that the optical drive tray is closed.

Handle drives on surfaces covered with at least one inch of shock-proof foam.

Avoid dropping drives from any height onto any surface.

After removing a hard drive, an optical drive, or a diskette drive, place it in a static-proof bag.

Avoid exposing a hard drive to products that have magnetic fields, such as monitors or speakers.

Avoid exposing a drive to temperature extremes or liquids.

If a drive must be mailed, place the drive in a bubble pack mailer or other suitable form of protective packaging and label the package "FRAGILE."

Grounding guidelines

Electrostatic discharge damage

Electronic components are sensitive to electrostatic discharge (ESD). Circuitry design and structure determine the degree of sensitivity. Networks built into many integrated circuits provide some protection, but in many cases, ESD contains enough power to alter device parameters or melt silicon junctions.

A discharge of static electricity from a finger or other conductor can destroy static-sensitive devices or microcircuitry. Even if the spark is neither felt nor heard, damage may have occurred.

An electronic device exposed to ESD may not be affected at all and can work perfectly throughout a normal cycle. Or the device may function normally for a while, then degrade in the internal layers, reducing its life expectancy.

- △ **CAUTION:** To prevent damage to the computer when you are removing or installing internal components, observe these precautions:

Keep components in their electrostatic-safe containers until you are ready to install them.

Use nonmagnetic tools.

Before touching an electronic component, discharge static electricity by using the guidelines described in this section.

Avoid touching pins, leads, and circuitry. Handle electronic components as little as possible.

If you remove a component, place it in an electrostatic-safe container.

The following table shows how humidity affects the electrostatic voltage levels generated by different activities.

- △ **CAUTION:** A product can be degraded by as little as 700 V.

Typical electrostatic voltage levels

Event	10%	40%	55%
Walking across carpet	35,000 V	15,000 V	7,500 V
Walking across vinyl floor	12,000 V	5,000 V	3,000 V
Motions of bench worker	6,000 V	800 V	400 V
Removing DIPS from plastic tube	2,000 V	700 V	400 V
Removing DIPS from vinyl tray	11,500 V	4,000 V	2,000 V
Removing DIPS from Styrofoam	14,500 V	5,000 V	3,500 V
Removing bubble pack from PCB	26,500 V	20,000 V	7,000 V
Packing PCBs in foam-lined box	21,000 V	11,000 V	5,000 V

Packaging and transporting guidelines

Follow these grounding guidelines when packaging and transporting equipment:

- To avoid hand contact, transport products in static-safe tubes, bags, or boxes.
- Protect ESD-sensitive parts and assemblies with conductive or approved containers or packaging.
- Keep ESD-sensitive parts in their containers until the parts arrive at static-free workstations.
- Place items on a grounded surface before removing items from their containers.
- Always be properly grounded when touching a component or assembly.
- Store reusable ESD-sensitive parts from assemblies in protective packaging or nonconductive foam.
- Use transporters and conveyors made of antistatic belts and roller bushings. Be sure that mechanized equipment used for moving materials is wired to ground and that proper materials are selected to avoid static charging. When grounding is not possible, use an ionizer to dissipate electric charges.

Workstation guidelines

Follow these grounding workstation guidelines:

- Cover the workstation with approved static-shielding material.
- Use a wrist strap connected to a properly grounded work surface and use properly grounded tools and equipment.
- Use conductive field service tools, such as cutters, screwdrivers, and vacuums.
- When fixtures must directly contact dissipative surfaces, use fixtures made only of static-safe materials.
- Keep the work area free of nonconductive materials, such as ordinary plastic assembly aids and Styrofoam.
- Handle ESD-sensitive components, parts, and assemblies by the case or PCM laminate. Handle these items only at static-free workstations.
- Avoid contact with pins, leads, or circuitry.
- Turn off power and input signals before inserting or removing connectors or test equipment.

Equipment guidelines

Grounding equipment must include either a wrist strap or a foot strap at a grounded workstation.

- When seated, wear a wrist strap connected to a grounded system. Wrist straps are flexible straps with a minimum of one megohm $\pm 10\%$ resistance in the ground cords. To provide proper ground, wear a strap snugly against the skin at all times. On grounded mats with banana-plug connectors, use alligator clips to connect a wrist strap.
- When standing, use foot straps and a grounded floor mat. Foot straps (heel, toe, or boot straps) can be used at standing workstations and are compatible with most types of shoes or boots. On conductive floors or dissipative floor mats, use foot straps on both feet with a minimum of one megohm resistance between the operator and ground. To be effective, the conductive strips must be worn in contact with the skin.

The following grounding equipment is recommended to prevent electrostatic damage:

- Antistatic tape
- Antistatic smocks, aprons, and sleeve protectors
- Conductive bins and other assembly or soldering aids
- Nonconductive foam
- Conductive tabletop workstations with ground cords of one megohm resistance
- Static-dissipative tables or floor mats with hard ties to the ground
- Field service kits
- Static awareness labels
- Material-handling packages
- Nonconductive plastic bags, tubes, or boxes
- Metal tote boxes
- Electrostatic voltage levels and protective materials

The following table lists the shielding protection provided by antistatic bags and floor mats.

Material	Use	Voltage protection level
Antistatic plastic	Bags	1,500 V
Carbon-loaded plastic	Floor mats	7,500 V
Metallized laminate	Floor mats	5,000 V

Unknown user password

If the computer you are servicing has an unknown user password, follow these steps to clear the password:

 **NOTE:** These steps also clear CMOS.

1. Shut down the computer. If you are unsure whether the computer is off or in Hibernation, turn the computer on, and then shut it down through the operating system.
2. Disconnect all external devices connected to the computer.
3. Disconnect the power from the computer by first unplugging the power cord from the AC outlet and then unplugging the AC adapter from the computer.
4. Remove the battery (see [Battery on page 37](#)).
5. Remove the real-time clock (RTC) battery (see [RTC battery on page 62](#)).
6. Wait approximately 5 minutes.
7. Replace the RTC battery and reassemble the computer.
8. Connect AC power to the computer. Do not reinsert any batteries at this time.
9. Turn on the computer.

All passwords and all CMOS settings have been cleared.

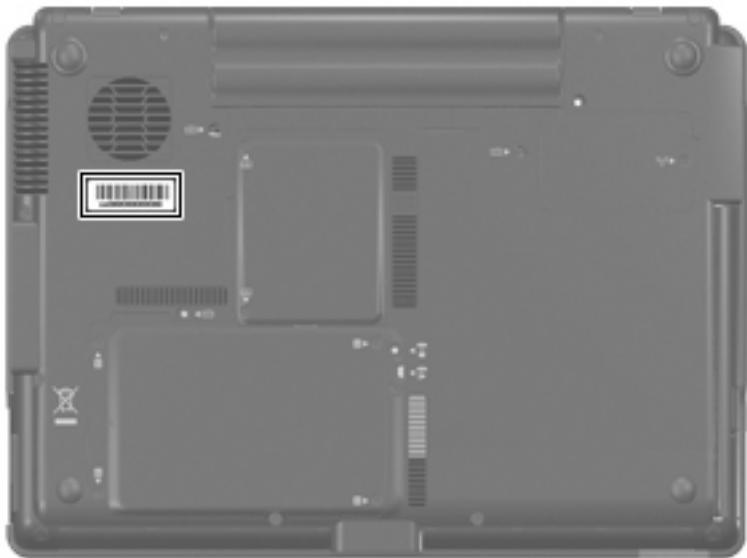

Component replacement procedures

This chapter provides removal and replacement procedures.

There are as many as 86 screws, in 15 different sizes, that must be removed, replaced, or loosened when servicing the computer. Make special note of each screw size and location during removal and replacement.

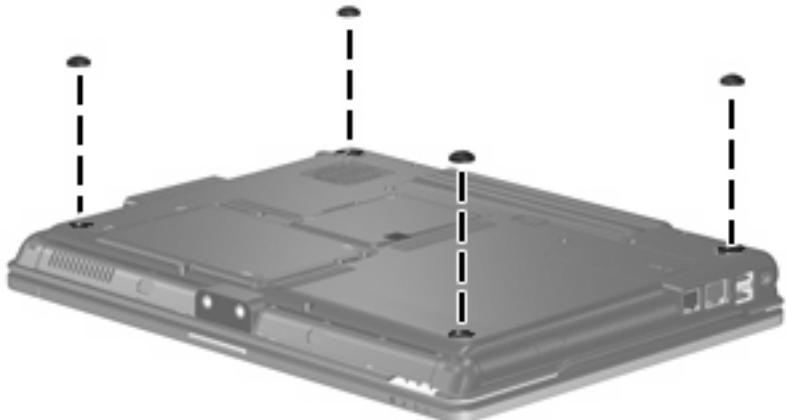

Serial number

Report the computer serial number to HP when requesting information or ordering spare parts. The serial number is located on the bottom of the computer.

Computer feet

The computer feet are adhesive-backed rubber pads. The feet are included in the Plastics Kit, spare part number 454010-001. There are 4 rubber feet that attach to the base enclosure in the locations illustrated below.

Battery

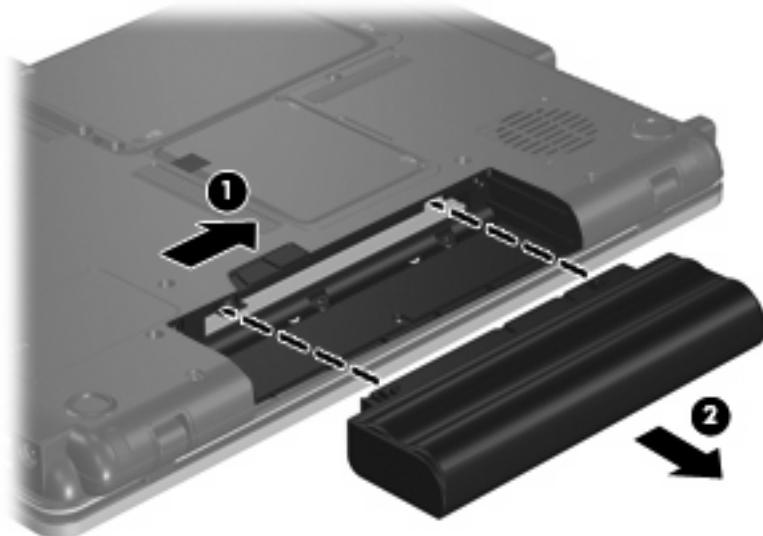

Description	Spare part number
8-cell, 2.55-Ah (73-Wh) Li-ion battery	454002-001
4-cell, 2.20-Ah (37-Wh) Li-ion battery	454001-001

Before disassembling the computer, follow these steps:

1. Shut down the computer. If you are unsure whether the computer is off or in Hibernation, turn the computer on, and then shut it down through the operating system.
2. Disconnect all external devices connected to the computer.
3. Disconnect the power from the computer by first unplugging the power cord from the AC outlet and then unplugging the AC adapter from the computer.

Remove the battery:

1. Turn the computer upside down on a flat surface, with the battery bay toward you.
2. Slide the battery release latch **(1)** to release the battery.
3. Remove the battery **(2)** from the computer.

Install the battery by inserting it into the battery bay until you hear a click.

Camera module

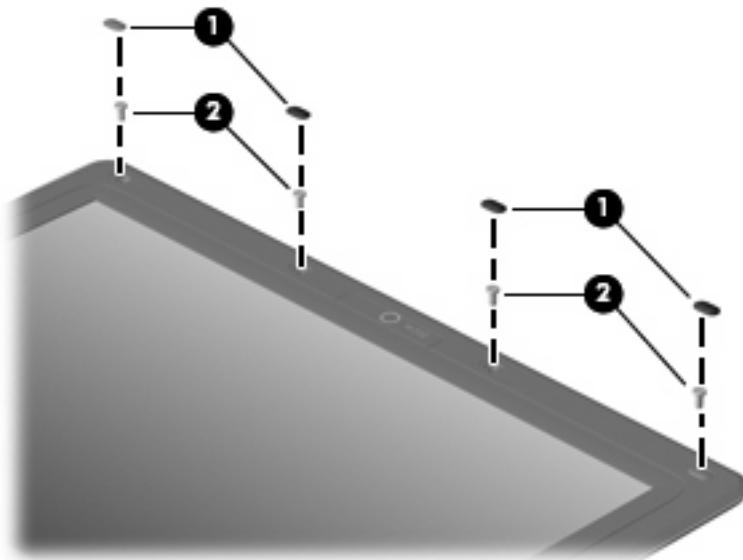

Description	Spare part number
Camera module	454013-001

Before removing the camera module, follow these steps:

1. Shut down the computer. If you are unsure whether the computer is off or in Hibernation, turn the computer on, and then shut it down through the operating system.
2. Disconnect all external devices connected to the computer.
3. Disconnect the power from the computer by first unplugging the power cord from the AC outlet and then unplugging the AC adapter from the computer.
4. Remove the battery (see [Battery on page 37](#)).

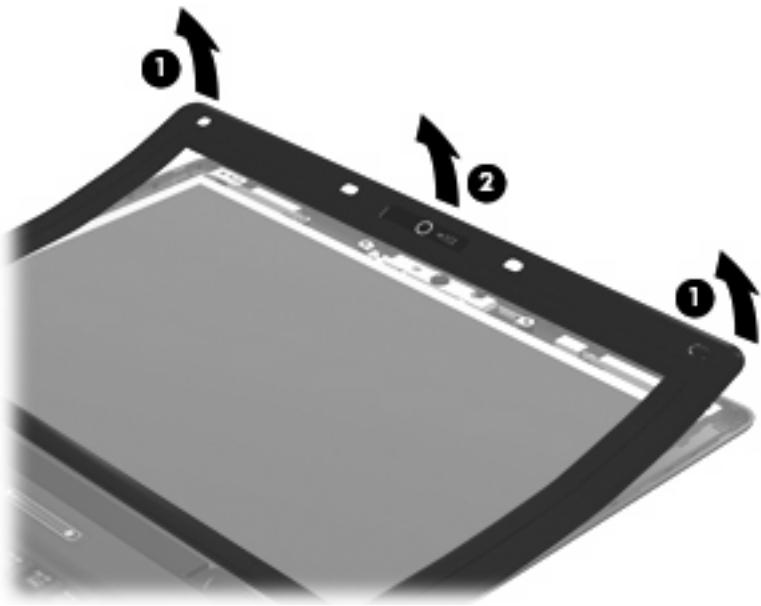

Remove the camera module:

1. Turn the computer right-side up, with the front toward you.
2. Open the computer as far as possible.
3. Remove the four rubber screw covers **(1)** and the four Torx T8M2.5×6.0 screws **(2)** that secure the display bezel to the display assembly.

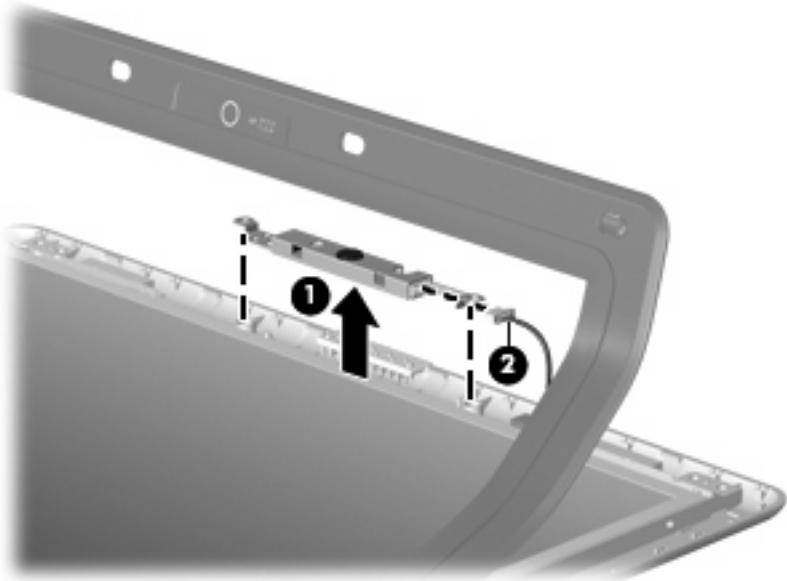

4. Flex the outside edges of the left and right upper corners **(1)** of the display bezel until the bezel disengages from the display enclosure.

5. Separate the display bezel top edge **(2)** from the display assembly to access the camera module.

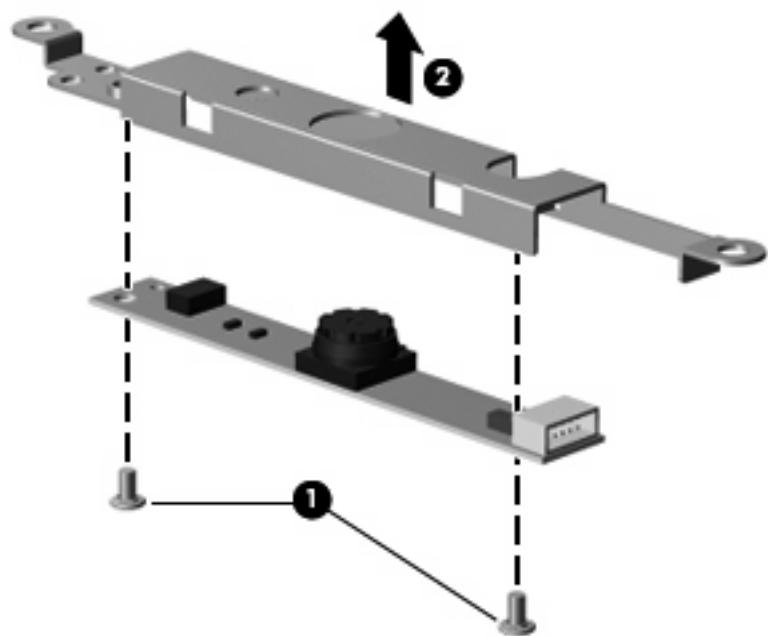

6. Release the camera module and bracket **(1)** as far from the display enclosure as the camera module cable allows.
7. Disconnect the camera module cable **(2)** from the camera module.

8. Remove the camera module and bracket.
9. Remove the two Phillips PM2.0x4.0 screws **(1)** that secure the camera module to the camera module bracket.

10. Remove the camera module bracket (**2**) from the camera module.

Reverse this procedure to reassemble and install the camera module.

Hard drive

 **NOTE:** All hard drive spare part kits include a hard drive bracket.

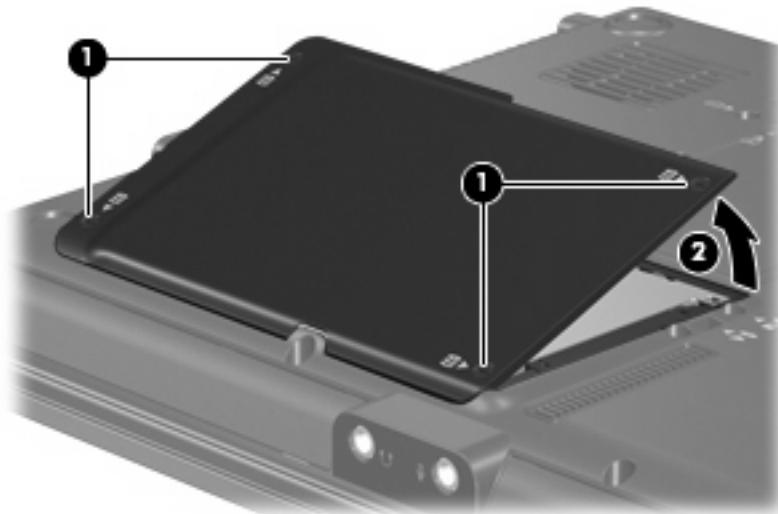

Description	Spare part number
200-GB, 4200-rpm hard drive	454338-001
160-GB, 5400-rpm hard drive	454337-001
120-GB, 5400-rpm hard drive	454336-001
80-GB, 5400-rpm hard drive	454335-001

Before removing the hard drive, follow these steps:

1. Shut down the computer. If you are unsure whether the computer is off or in Hibernation, turn the computer on, and then shut it down through the operating system.
2. Disconnect all external devices connected to the computer.
3. Disconnect the power from the computer by first unplugging the power cord from the AC outlet and then unplugging the AC adapter from the computer.
4. Remove the battery (see [Battery on page 37](#)).

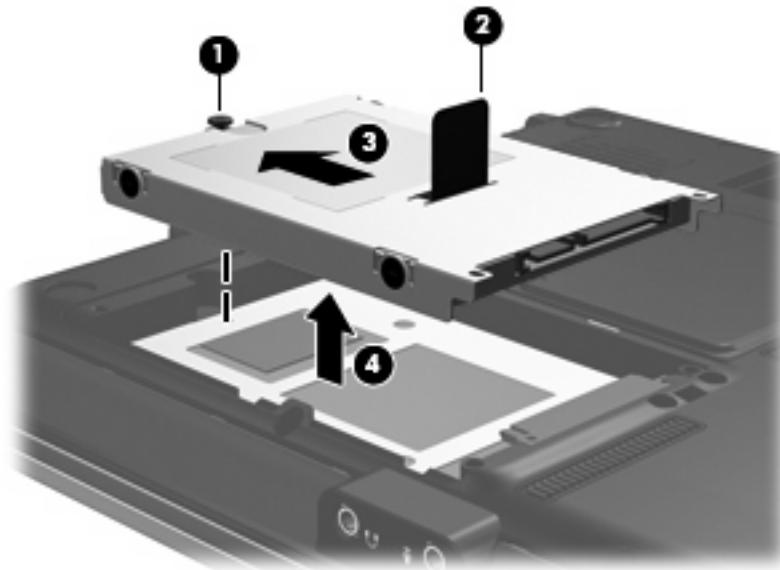

Remove the hard drive:

1. Position the computer with the front toward you.
2. Loosen the four Phillips PM2.0×5.0 captive screws **(1)** that secure the hard drive cover to the computer.
3. Lift the rear edge of the hard drive cover **(2)**, swing it up and forward, and remove the cover. The hard drive cover is included in the Plastics Kit, spare part number 454010-001.

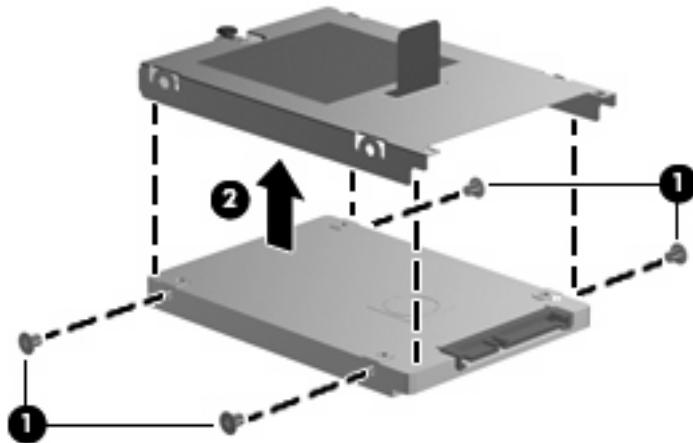

4. Loosen the Phillips PM2.5×12.0 captive screw **(1)** that secures the hard drive to the computer.

5. Grasp the Mylar tab (2) on the hard drive and slide the hard drive (3) to the left to disconnect it from the system board.
6. Remove the hard drive (4) from the hard drive bay.

7. If it is necessary to replace the hard drive bracket, remove the two Phillips PM3.0×4.0 hard drive bracket screws (1) from each side of the hard drive.
8. Lift the bracket (2) straight up to remove it from the hard drive.

Reverse this procedure to reassemble and install the hard drive.

Memory module

Description	Spare part number
2048-MB (PC2-5300, 667-MHz, DDR2)	417506-001
1024-MB (PC2-5300, 667-MHz, DDR2)	414046-001
512-MB (PC2-5300, 667-MHz, DDR2)	414045-001

Before removing the memory module, follow these steps:

1. Shut down the computer. If you are unsure whether the computer is off or in Hibernation, turn the computer on, and then shut it down through the operating system.
2. Disconnect all external devices connected to the computer.
3. Disconnect the power from the computer by first unplugging the power cord from the AC outlet and then unplugging the AC adapter from the computer.
4. Remove the battery (see [Battery on page 37](#)).

Remove the memory module:

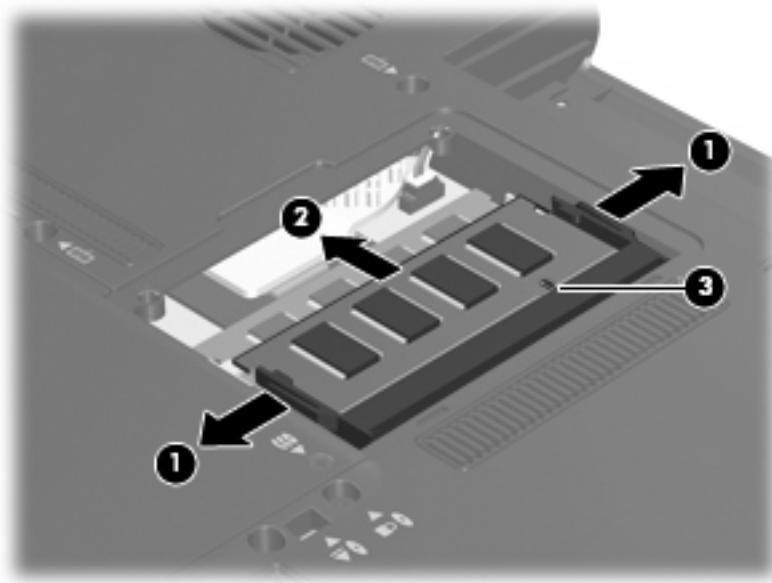

1. Position the computer with the front toward you.
2. Loosen the two Phillips PM2.0×5.0 captive screws **(1)** that secure the memory module compartment cover to the computer.
3. Lift the left side of the cover **(2)**, swing it up and to the right, and remove the cover. The memory module compartment cover is included in the Plastics Kit, spare part number 454010-001.

4. Spread the retaining tabs **(1)** on each side of the memory module slot to release the memory module. (The edge of the module opposite the slot rises away from the computer.)

5. Remove the memory module **(2)** by pulling the module away from the slot at an angle.

 **NOTE:** Memory modules are designed with a notch **(3)** to prevent incorrect installation into the memory module slot.

Reverse this procedure to install a memory module.

WLAN module

△ **CAUTION:** The WLAN module and the WWAN module are not interchangeable.

Description	Spare part number
Intel 802.11a/b/g/n WLAN modules:	
• For use in Antigua and Barbuda, Argentina, Aruba, the Bahamas, Barbados, Bermuda, Brunei, Canada, the Cayman Islands, Chile, Colombia, Costa Rica, the Dominican Republic, Ecuador, El Salvador, Guam, Guatemala, Haiti, Honduras, Hong Kong, India, Indonesia, Malaysia, Mexico, Panama, Paraguay, Peru, Saudi Arabia, Taiwan, Uruguay, the United States, Venezuela, and Vietnam	441086-001
• For use in Austria, Azerbaijan, Bahrain, Belgium, Brazil, Bulgaria, Croatia, Cyprus, the Czech Republic, Denmark, Egypt, Estonia, Finland, France, Georgia, Germany, Greece, Hungary, Iceland, Ireland, Israel, Italy, Latvia, Lebanon, Liechtenstein, Lithuania, Luxembourg, Malta, Monaco, the Netherlands, Norway, Oman, the Philippines, Poland, Portugal, Qatar, Romania, Russia, Serbia and Montenegro, Singapore, Slovakia, Slovenia, South Africa, Spain, Sri Lanka, Sweden, Switzerland, Turkey, Ukraine, the United Kingdom, and Uzbekistan	441086-002
• For use in Australia, New Zealand, Pakistan, the People's Republic of China, and South Korea	441086-003
• For use in Japan	441086-291
Broadcom 802.11a/b/g WLAN modules:	
• For use in Afghanistan, Albania, Algeria, Andorra, Angola, Antigua and Barbuda, Argentina, Armenia, Aruba, Australia, Austria, Azerbaijan, the Bahamas, Bahrain, Bangladesh, Barbados, Belarus, Belgium, Belize, Benin, Bermuda, Bhutan, Bolivia, Bosnia and Herzegovina, Botswana, Brazil, the British Virgin Islands, Brunei, Bulgaria, Burkina Faso, Burundi, Cameroon, Cape Verde, the Central African Republic, Chad, Chile, People's Republic of China, Colombia, Comoros, the Congo, Costa Rica, Croatia, Cyprus, the Czech Republic, Denmark, Djibouti, Dominica, the Dominican Republic, East Timor, Ecuador, Egypt, El Salvador, Equitorial Guinea, Eritrea, Estonia, Ethiopia, Fiji, Finland, France, French Guiana, Gabon, Gambia, Georgia, Germany, Ghana, Gibraltar, Greece, Grenada, Guadeloupe, Guatemala, Guinea, Guinea-Bissa, Guyana, Haiti, Honduras, Hong Kong, Hungary, Iceland, India, Ireland, Israel, Italy, the Ivory Coast, Jamaica, Jordan, Kazakhstan, Kenya, Kiribati, Kyrgyzstan, Laos, Latvia, Lebanon, Lesotho, Liberia, Liechtenstein, Lithuania, Luxembourg, Macedonia, Madagascar, Malawi, Malaysia, the Maldives, Mali, Malta, the Marshall Islands, Martinique, Mauritania, Mauritius, Mexico, Micronesia, Monaco, Mongolia, Montenegro, Morocco, Mozambique, Namibia, Nauru, Nepal, the Nether Antilles, the Netherlands, New Zealand, Nicaragua, Niger, Nigeria, Norway, Oman, Pakistan, Palau, Panama, Papua New Guinea, Paraguay, Peru, the Philippines, Poland, Portugal, the Republic of Moldova, Romania, Russia, Rwanda, Samoa, San Marino, Sao Tome & Principe, Saudi Arabia, Senegal, Serbia and Montenegro, the Seychelles, Sierra Leone, Singapore, Slovakia, Slovenia, the Solomon Islands, Somalia, South Africa, South Korea, Spain, Sri Lanka, St. Kitts & Nevis, St. Lucia, St. Vincent & Grenada, Suriname, Swaziland, Sweden, Switzerland, Taiwan, Tajikistan, Tanzania, Togo, Tonga, Trinidad and Tobago, Tunisia, Turkey, Turkmenistan, Tuvalu, Uganda, Ukraine, the United Arab Emirates, the United Kingdom, Uruguay, Uzbekistan, Vanuatu, Venezuela, Vietnam, Yemen, Zaire, Zambia, and Zimbabwe	441075-002

<ul style="list-style-type: none"> • For use in Japan 	441090-291
Intel 802.11b/g WLAN module for use in Japan	448675-004

Before removing the WLAN module, follow these steps:

1. Shut down the computer. If you are unsure whether the computer is off or in Hibernation, turn the computer on, and then shut it down through the operating system.
2. Disconnect all external devices connected to the computer.
3. Disconnect the power from the computer by first unplugging the power cord from the AC outlet and then unplugging the AC adapter from the computer.
4. Remove the battery (see [Battery on page 37](#)).

Remove the WLAN module:

1. Position the computer with the front toward you.
2. Loosen the Phillips PM2.0×5.0 captive screw **(1)** that secures the WLAN module compartment cover to the computer.

3. Lift the right side of the cover **(2)**, swing it up and to the left, and remove the cover.

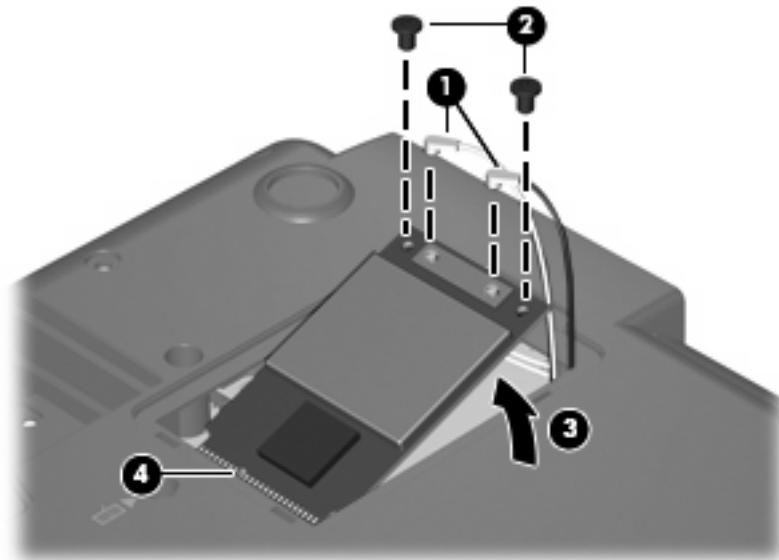

4. Disconnect the WLAN antenna cables **(1)** from the terminals on the WLAN module.

 **NOTE:** The black WLAN antenna cable is connected to the WLAN module "Main" terminal. The white WLAN antenna cable is connected to the WLAN module "Aux" terminal.

5. Remove the two Phillips PM2.5×4.0 screws **(2)** that secure the WLAN module to the computer. (The edge of the module opposite the slot rises away from the computer.)
6. Remove the WLAN module **(3)** by pulling the module away from the slot at an angle.

 **NOTE:** WLAN modules are designed with a notch **(4)** to prevent incorrect installation.

Reverse this procedure to install the WLAN module.

Optical drive

 **NOTE:** All optical drive spare part kits include an optical drive bezel.

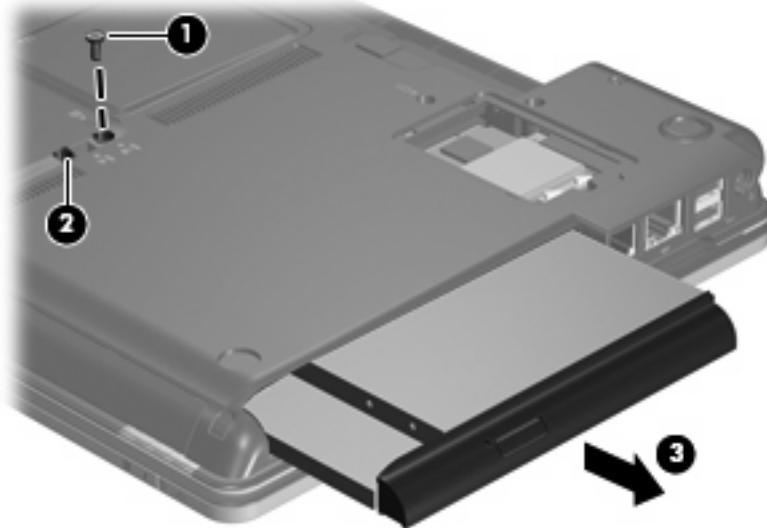

Description	Spare part number
DVD/CD-RW Combo Drive	454333-001
DVD-ROM Drive	454334-001

Before removing the optical drive, follow these steps:

1. Shut down the computer. If you are unsure whether the computer is off or in Hibernation, turn the computer on, and then shut it down through the operating system.
2. Disconnect all external devices connected to the computer.
3. Disconnect the power from the computer by first unplugging the power cord from the AC outlet and then unplugging the AC adapter from the computer.
4. Remove the battery (see [Battery on page 37](#)).

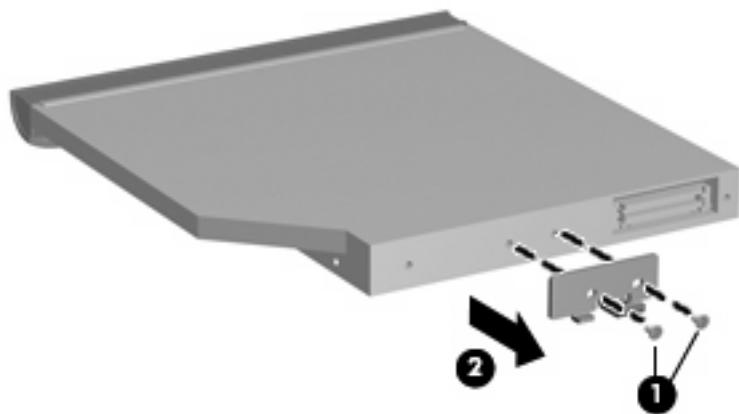

Remove the optical drive:

1. Position the computer with the right side toward you.
2. Remove the Torx T8M2.5×7.0 screw **(1)** that secures the optical drive to the computer.
3. Insert a flat-bladed screwdriver or similar tool into the optical drive tab access **(2)** and press the tab to the right to release the optical drive from the computer.
4. Remove the optical drive **(3)** from the computer.

5. If it is necessary to replace the optical drive bracket, position the optical drive with the rear toward you.
6. Remove the two Phillips PM2.0×4.0 screws **(1)** that secure the optical drive bracket to the optical drive.

7. Remove the optical drive bracket **(2)**.

Reverse this procedure to reassemble and install an optical drive.

Keyboard

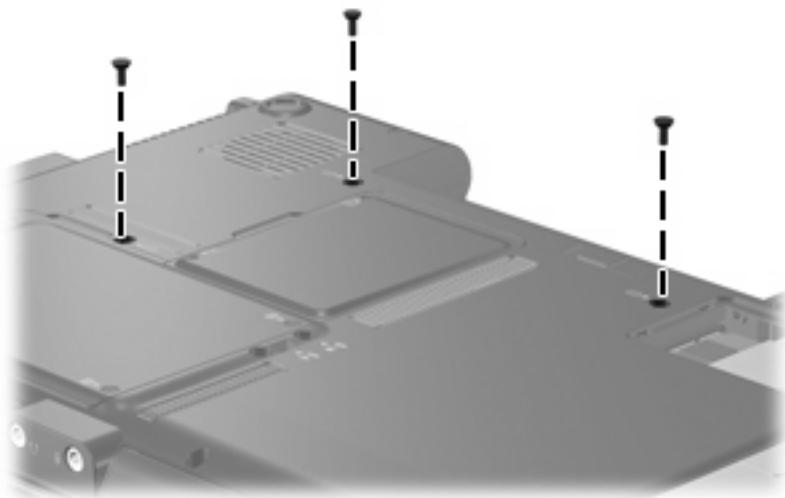

For use in:	Spare part number	For use in:	Spare part number
Japan	454017-291	Thailand	454017-281
Korea	454017-AD1	The United States	454017-001
Taiwan	454017-AB1		

Before removing the keyboard, follow these steps:

1. Shut down the computer. If you are unsure whether the computer is off or in Hibernation, turn the computer on, and then shut it down through the operating system.
2. Disconnect all external devices connected to the computer.
3. Disconnect the power from the computer by first unplugging the power cord from the AC outlet and then unplugging the AC adapter from the computer.
4. Remove the battery (see [Battery on page 37](#)).

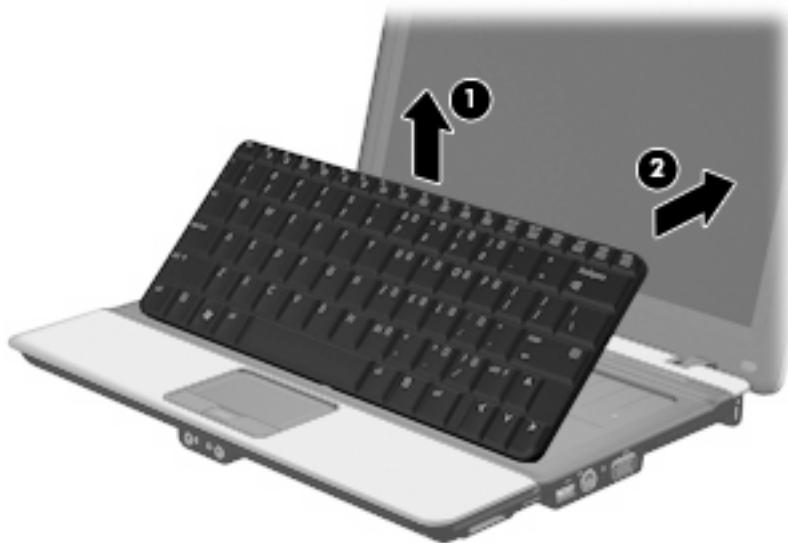

Remove the keyboard:

1. Turn the computer upside down, with the front toward you.
2. Remove the three Phillips PM2.5×7.0 captive screws that secure the keyboard to the computer.

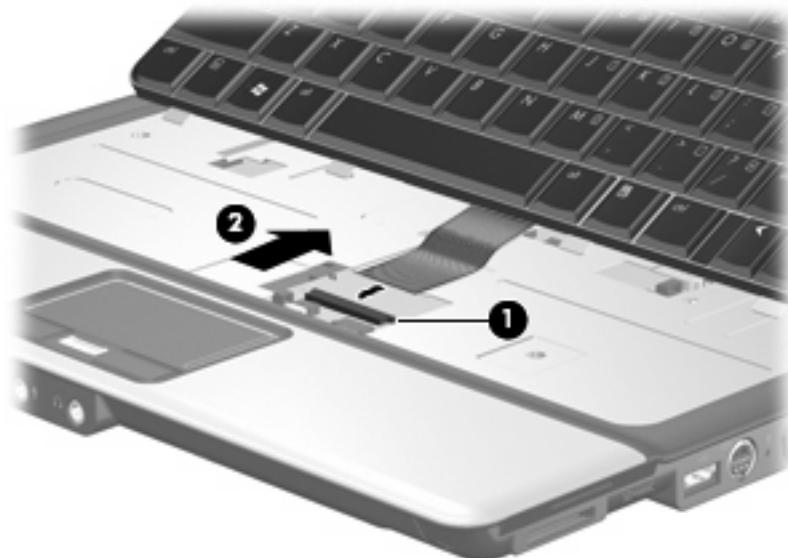

3. Turn the computer display-side up, with the front toward you.
4. Open the computer as far as possible.
5. Lift the rear edge of the keyboard **(1)** until it rests at an angle.

6. Move the keyboard **(2)** toward the display until the tabs on the keyboard bottom edge disengage from the top cover.

7. Release the zero insertion force (ZIF) connector **(1)** to which the keyboard cable is attached, and disconnect the keyboard cable **(2)** from the system board.

8. Remove the keyboard.

Reverse this procedure to install the keyboard.

Switch cover

Description	Spare part number
Switch cover (includes an LED board and LED board cable)	454005-001

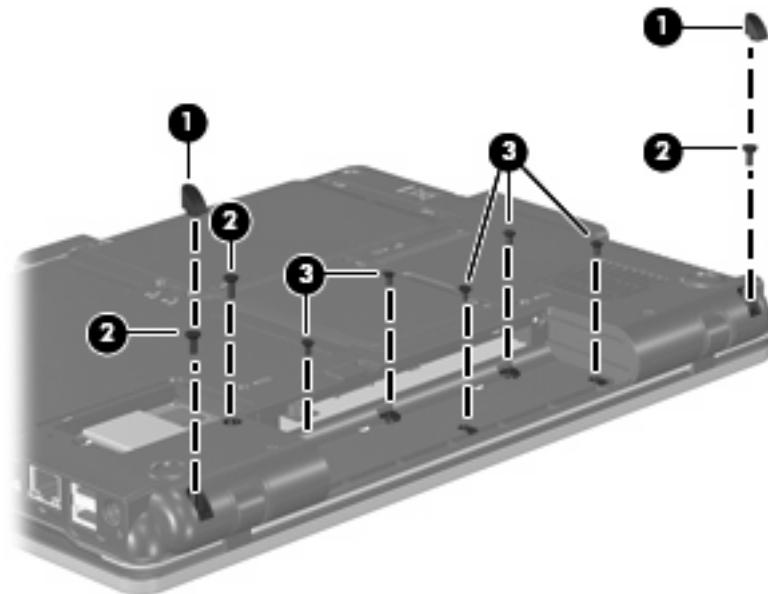

Before removing the switch cover, follow these steps:

1. Shut down the computer. If you are unsure whether the computer is off or in Hibernation, turn the computer on, and then shut it down through the operating system.
2. Disconnect all external devices connected to the computer.
3. Disconnect the power from the computer by first unplugging the power cord from the AC outlet and then unplugging the AC adapter from the computer.
4. Remove the battery (see [Battery on page 37](#)).
5. Remove the keyboard (see [Keyboard on page 50](#)).

Remove the switch cover:

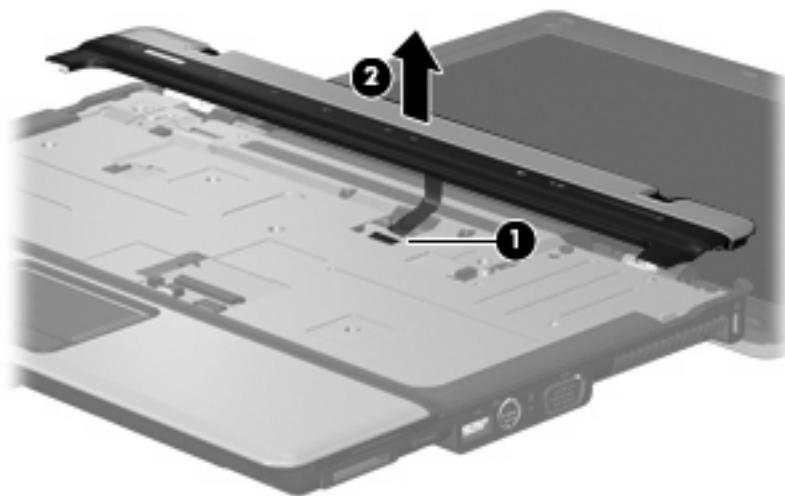

1. Turn the computer upside down, with the rear panel toward you.
2. Remove the following:

- (1) Two rubber screw covers. The rubber screw covers are included in the Plastics Kit, spare part number 454010-001.
- (2) Three Phillips PM2.5×7.0 screws.
- (3) Five Phillips PM2.0×3.0 screws.

3. Turn the computer right-side up, with the front toward you.
4. Open the computer as far as possible.

5. Disconnect the LED board cable **(1)** from the system board.
6. Remove the switch cover **(2)**.

Reverse this procedure to install the switch cover.

Display assembly

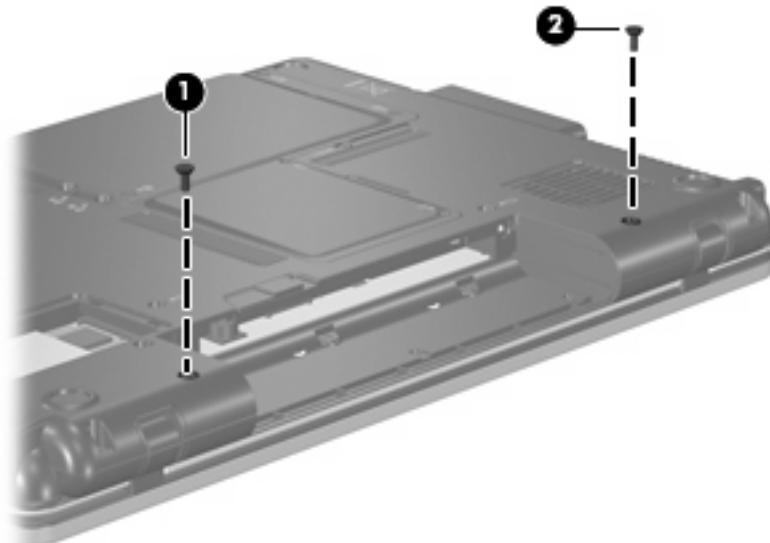

Description	Spare part number
12.1-inch, WXGA display assembly (includes WLAN antenna transceivers and cables, camera module, and camera module cable)	454003-001

Before removing the display assembly, follow these steps:

1. Shut down the computer. If you are unsure whether the computer is off or in Hibernation, turn the computer on, and then shut it down through the operating system.
2. Disconnect all external devices connected to the computer.
3. Disconnect the power from the computer by first unplugging the power cord from the AC outlet and then unplugging the AC adapter from the computer.
4. Remove the battery (see [Battery on page 37](#)).
5. Disconnect the wireless antenna cables from the WLAN module (see [WLAN module on page 45](#)).
6. Remove the keyboard (see [Keyboard on page 50](#)).
7. Remove the switch cover (see [Switch cover on page 52](#)).

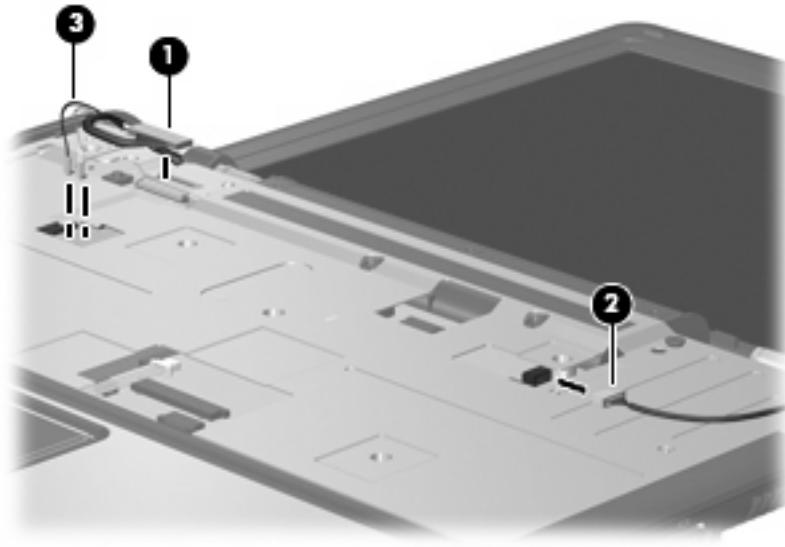

Remove the display assembly:

1. Close the computer and turn it upside down, with the rear panel toward you.
2. Remove the Phillips PM2.5×7.0 screw **(1)** and Phillips PM2.5×5.0 screw **(2)** that secure the display assembly to the computer.

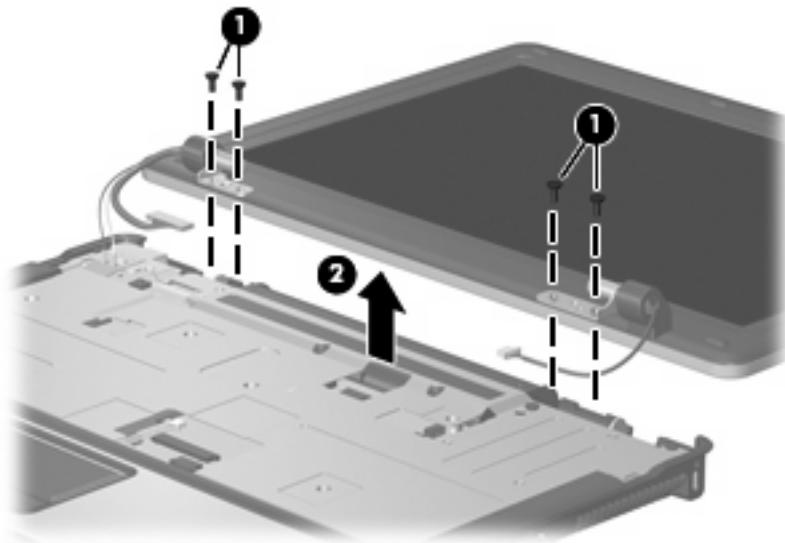

3. Turn the computer right-side up, with the front toward you.
4. Open the computer as far as possible.

5. Disconnect the display panel cable **(1)** from the system board.
6. Disconnect the camera cable **(2)** from the system board.
7. Remove the WLAN antenna cables **(3)** from the opening in the system board.

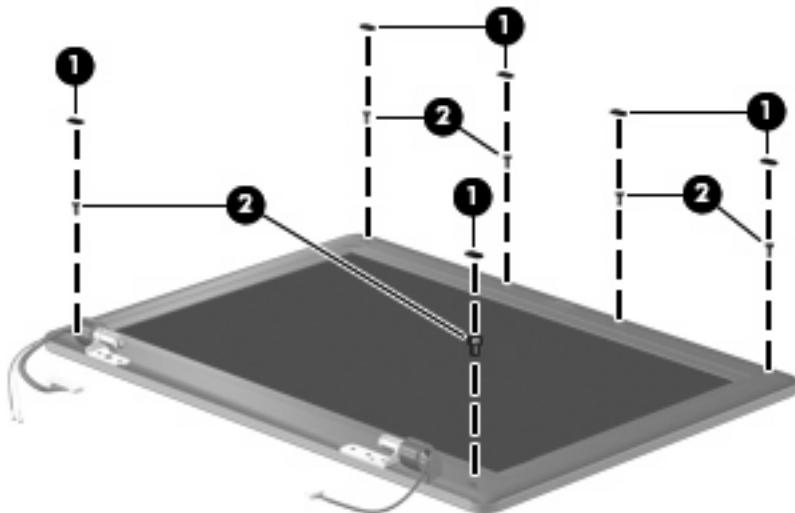

8. Remove the four Phillips PM2.5×6.0 screws **(1)** that secure the display assembly to the computer.
9. Lift the display assembly **(2)** straight up and remove it.

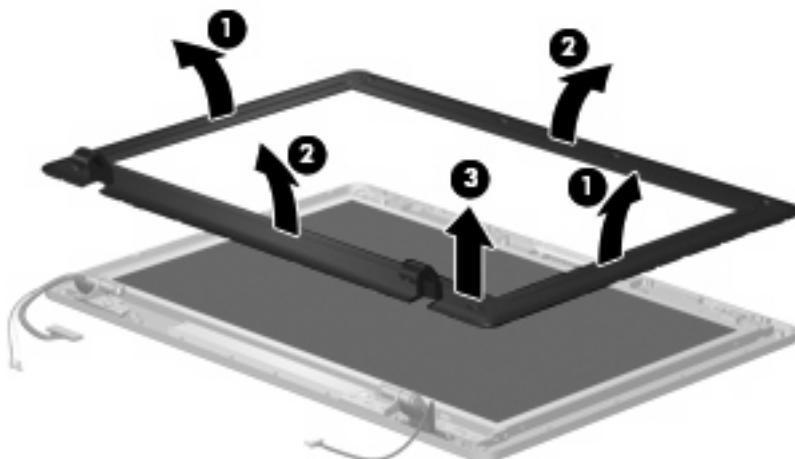

10. If it is necessary to replace the display bezel or the display assembly internal components, remove the six rubber screw covers **(1)** and the six Torx T8M2.5×6.0 screws **(2)** that secure the display bezel to the display enclosure.

 **NOTE:** See [Camera module on page 38](#) for camera module removal information.

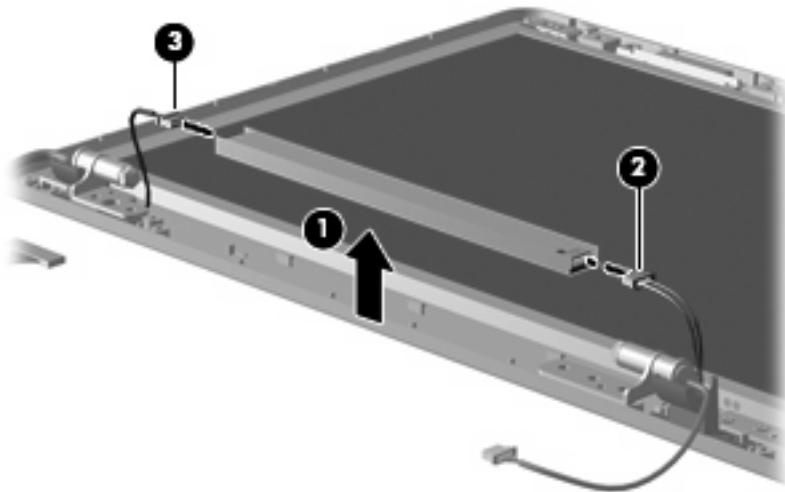

11. Flex the inside edges of the left and right sides **(1)** and the top and bottom sides **(2)** of the display bezel until the bezel disengages from the display enclosure.
12. Remove the display bezel **(3)**. The display bezel is available using spare part number 454399-001.

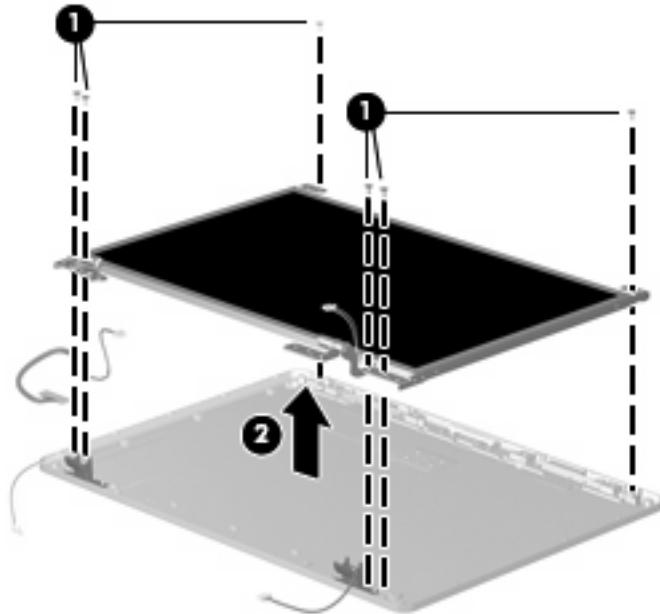

13. If it is necessary to replace the display inverter, release the inverter **(1)** as far as the display panel cable and backlight cable allow.

14. Disconnect the backlight cable (2) and the display panel cable (3) from the display inverter.

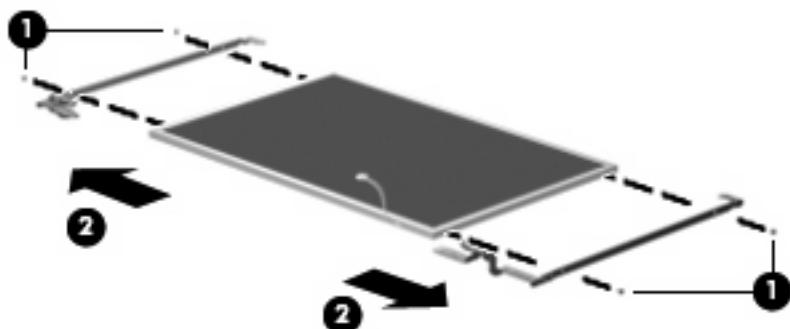

15. Remove the display inverter from the display enclosure. The display inverter is available using spare part number 454009-001.
16. If it is necessary to replace the display hinges, remove the six Torx T8M2.5×5.0 screws (1) that secure the display panel to the display enclosure.
17. Remove the display panel (2) from the display enclosure.

18. Remove the four Phillips PM2.0×4.0 screws (1) that secure the hinges to the display panel.

19. Remove the display hinges **(2)** from the display panel. The display hinges are available using spare part number 454011-001.

Reverse this procedure to reassemble and install the display assembly.

Top cover

Description	Spare part number
Top cover (includes TouchPad and TouchPad cable)	453995-001

Before removing the top cover, follow these steps:

1. Shut down the computer. If you are unsure whether the computer is off or in Hibernation, turn the computer on, and then shut it down through the operating system.
2. Disconnect all external devices connected to the computer.
3. Disconnect the power from the computer by first unplugging the power cord from the AC outlet and then unplugging the AC adapter from the computer.
4. Remove the battery (see [Battery on page 37](#)).
5. Remove the following components:
 - a. Hard drive (see [Hard drive on page 41](#))
 - b. Optical drive (see [Optical drive on page 48](#))
 - c. Keyboard (see [Keyboard on page 50](#))
 - d. Switch cover (see [Switch cover on page 52](#))
 - e. Display assembly (see [Display assembly on page 54](#))

Remove the top cover:

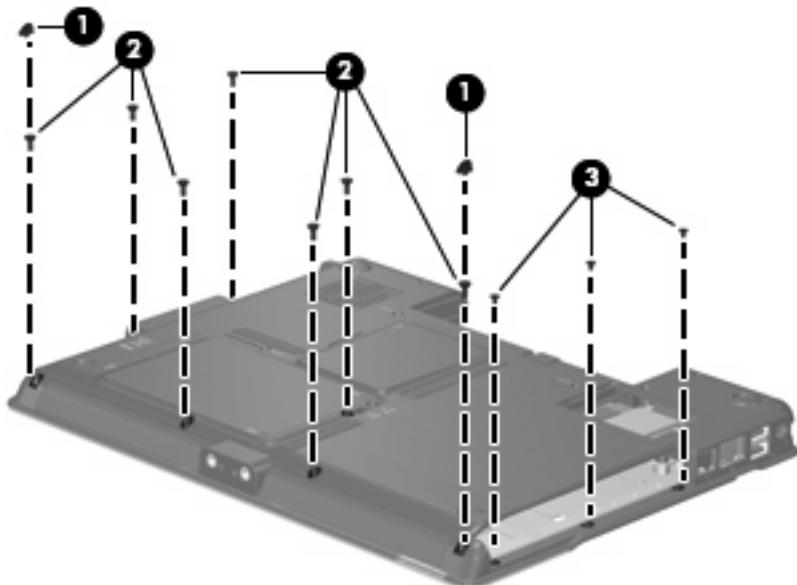

1. Turn the computer upside down, with the front toward you.

2. Remove the following:

(1) Two rubber screw covers. The rubber screw covers are included in the Plastics Kit, spare part number 454010-001.

(2) Seven Phillips PM2.5×7.0 screws.

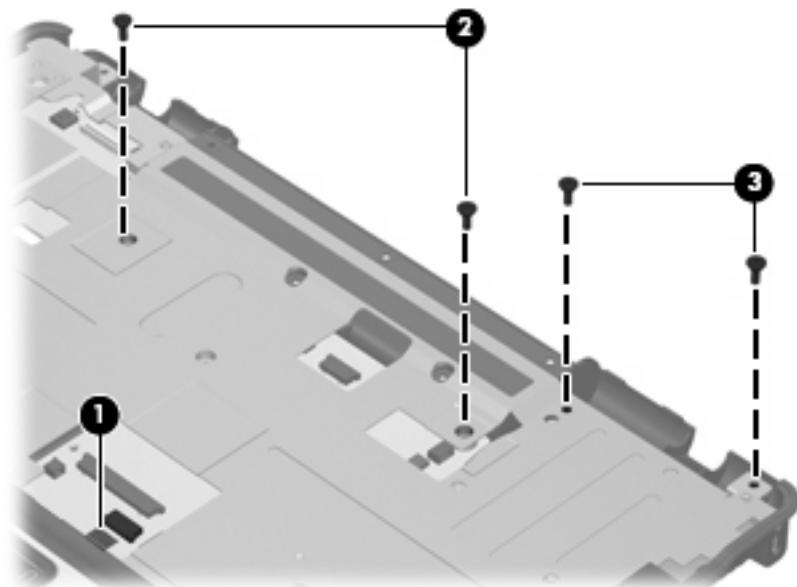

(3) Three Phillips PM2.0×3.0 screws.

3. Turn the computer right-side up, with the front toward you.

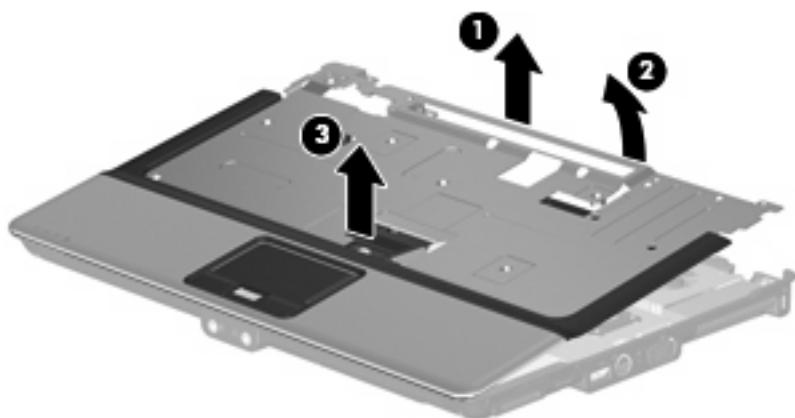

4. Disconnect the TouchPad cable **(1)** from the system board.

5. Remove the two Phillips PM2.5×7.0 screws **(2)** and the two Phillips PM2.5×4.0 screws **(3)** that secure the top cover to the computer.

6. Lift the rear edge of the top cover **(1)** and swing it **(2)** up and forward until it rests at an angle.

7. Lift the top cover **(3)** straight up and remove it.

Reverse this procedure to install the top cover.

RTC battery

 **NOTE:** Removing the RTC battery and leaving it uninstalled for 5 or more minutes causes all passwords and CMOS settings to be cleared.

Description	Spare part number
RTC battery	449137-001

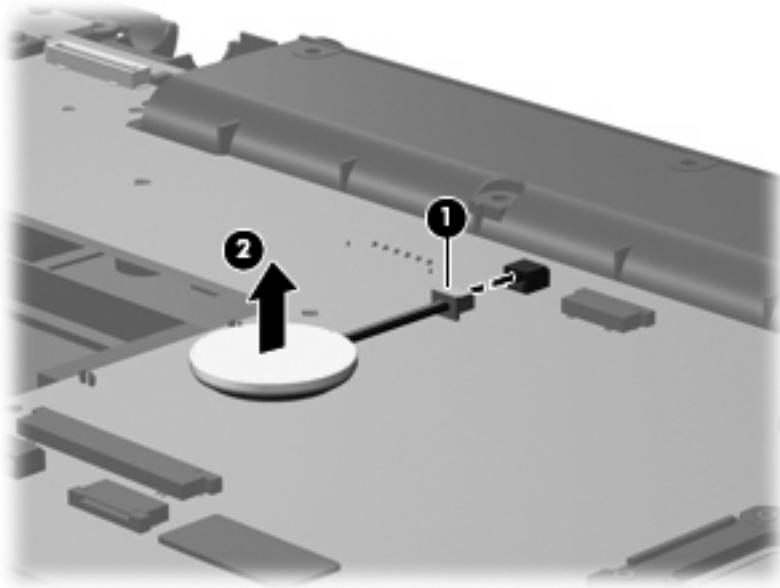

Before removing the RTC battery, follow these steps:

1. Shut down the computer. If you are unsure whether the computer is off or in Hibernation, turn the computer on, and then shut it down through the operating system.
2. Disconnect all external devices connected to the computer.
3. Disconnect the power from the computer by first unplugging the power cord from the AC outlet and then unplugging the AC adapter from the computer.
4. Remove the battery (see [Battery on page 37](#)).
5. Remove the following components:
 - a. Hard drive (see [Hard drive on page 41](#))
 - b. Optical drive (see [Optical drive on page 48](#))
 - c. Keyboard (see [Keyboard on page 50](#))
 - d. Switch cover (see [Switch cover on page 52](#))
 - e. Display assembly (see [Display assembly on page 54](#))
 - f. Top cover (see [Top cover on page 59](#))

Remove the RTC battery:

1. Disconnect the RTC battery cable **(1)** from the system board.

2. Remove the RTC battery **(2)**.

Reverse this procedure to install the RTC battery.

Front LED board

Description	Spare part number
Front LED board	453997-001

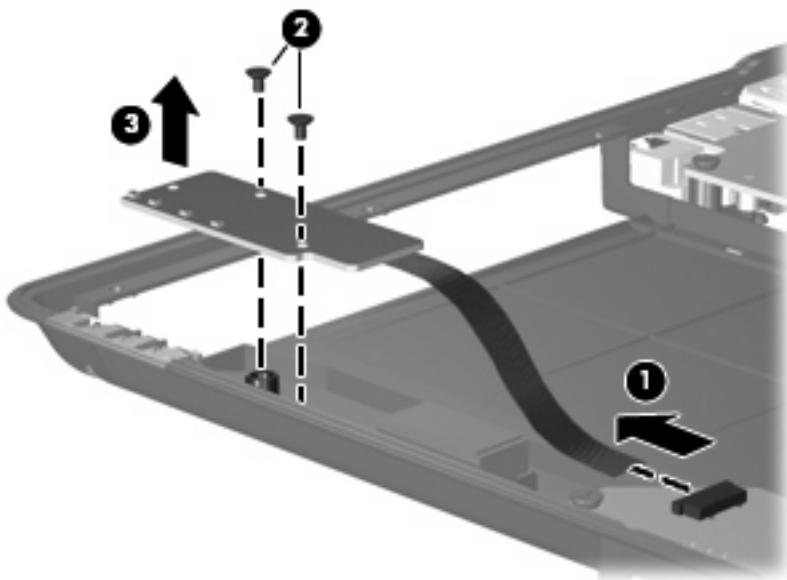

Before removing the front LED board, follow these steps:

1. Shut down the computer. If you are unsure whether the computer is off or in Hibernation, turn the computer on, and then shut it down through the operating system.
2. Disconnect all external devices connected to the computer.
3. Disconnect the power from the computer by first unplugging the power cord from the AC outlet and then unplugging the AC adapter from the computer.
4. Remove the battery (see [Battery on page 37](#)).
5. Remove the following components:
 - a. Hard drive (see [Hard drive on page 41](#))
 - b. Optical drive (see [Optical drive on page 48](#))
 - c. Keyboard (see [Keyboard on page 50](#))
 - d. Switch cover (see [Switch cover on page 52](#))
 - e. Display assembly (see [Display assembly on page 54](#))
 - f. Top cover (see [Top cover on page 59](#))

Remove the front LED board:

1. Disconnect the front LED board cable **(1)** from the system board.
2. Remove the two Phillips PM2.0×3.0 screws **(2)** that secure the front LED board to the base enclosure.

3. Remove the front LED board (3).

Reverse this procedure to reassemble and install the front LED board.

Bluetooth module

 **NOTE:** The Bluetooth module spare part kit does not include a Bluetooth module cable. The Bluetooth module cable is included in the Cables Kit, spare part number 454008-001. See [Cable Kit on page 21](#) for more Cable Kit information.

Description	Spare part number
Bluetooth	398393-002

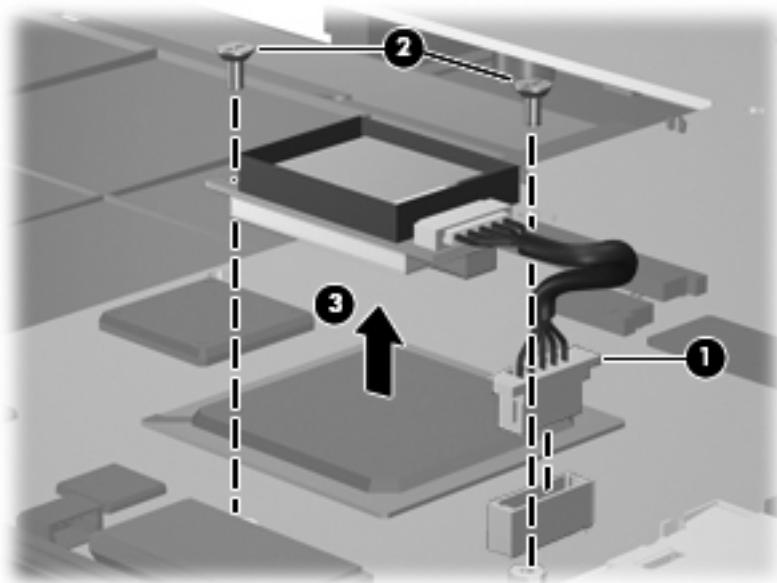

Before removing the Bluetooth module, follow these steps:

1. Shut down the computer. If you are unsure whether the computer is off or in Hibernation, turn the computer on, and then shut it down through the operating system.
2. Disconnect all external devices connected to the computer.
3. Disconnect the power from the computer by first unplugging the power cord from the AC outlet and then unplugging the AC adapter from the computer.
4. Remove the battery (see [Battery on page 37](#)).
5. Remove the following components:
 - a. Hard drive (see [Hard drive on page 41](#))
 - b. Optical drive (see [Optical drive on page 48](#))
 - c. Keyboard (see [Keyboard on page 50](#))
 - d. Switch cover (see [Switch cover on page 52](#))

- e. Display assembly (see [Display assembly on page 54](#))
- f. Top cover (see [Top cover on page 59](#))

Remove the Bluetooth module:

1. Disconnect the Bluetooth module cable **(1)** from the system board.
2. Remove the two Phillips PM2.0×4.0 screws **(2)** that secure the Bluetooth module to the system board.
3. Remove the module **(3)**.

Reverse this procedure to install the Bluetooth module.

Speaker assembly

Description	Spare part number
Speaker assembly	457906-001

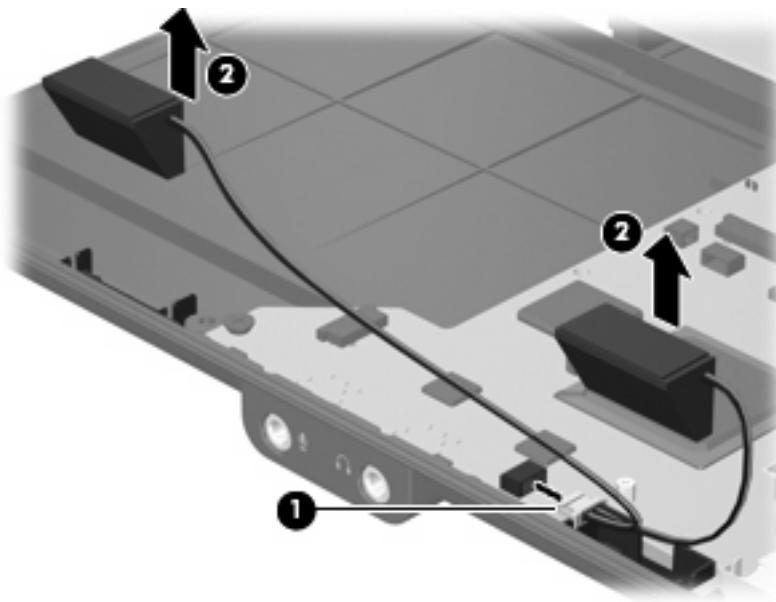

Before removing the speaker assembly, follow these steps:

1. Shut down the computer. If you are unsure whether the computer is off or in Hibernation, turn the computer on, and then shut it down through the operating system.
2. Disconnect all external devices connected to the computer.
3. Disconnect the power from the computer by first unplugging the power cord from the AC outlet and then unplugging the AC adapter from the computer.

4. Remove the battery (see [Battery on page 37](#)).
5. Remove the following components:
 - a. Hard drive (see [Hard drive on page 41](#))
 - b. Optical drive (see [Optical drive on page 48](#))
 - c. Keyboard (see [Keyboard on page 50](#))
 - d. Switch cover (see [Switch cover on page 52](#))
 - e. Display assembly (see [Display assembly on page 54](#))
 - f. Top cover (see [Top cover on page 59](#))
 - g. Bluetooth module (see [Bluetooth module on page 65](#))

Remove the speaker assembly:

1. Disconnect the speaker assembly cable **(1)** from the system board.
2. Remove the speaker assembly **(2)** from the base enclosure.

Reverse this procedure to install the speaker assembly.

Microphone

 **NOTE:** The microphone is included in the Cables Kit, spare part number 454008-001. See [Cable Kit on page 21](#) for more Cable Kit information.

Before removing the microphone, follow these steps:

1. Shut down the computer. If you are unsure whether the computer is off or in Hibernation, turn the computer on, and then shut it down through the operating system.
2. Disconnect all external devices connected to the computer.
3. Disconnect the power from the computer by first unplugging the power cord from the AC outlet and then unplugging the AC adapter from the computer.
4. Remove the battery (see [Battery on page 37](#)).
5. Remove the following components:
 - a. Hard drive (see [Hard drive on page 41](#))
 - b. Optical drive (see [Optical drive on page 48](#))
 - c. Keyboard (see [Keyboard on page 50](#))
 - d. Switch cover (see [Switch cover on page 52](#))
 - e. Display assembly (see [Display assembly on page 54](#))
 - f. Top cover (see [Top cover on page 59](#))
 - g. Bluetooth module (see [Bluetooth module on page 65](#))

Remove the microphone:

1. Disconnect the microphone cable **(1)** from the system board.
2. Remove the microphone receiver **(2)** from the clip built into the base enclosure.

Reverse this procedure to install the microphone.

System board

Description	Spare part number
System board (includes replacement thermal material)	453992-001

Before removing the system board, follow these steps:

1. Shut down the computer. If you are unsure whether the computer is off or in Hibernation, turn the computer on, and then shut it down through the operating system.
2. Disconnect all external devices connected to the computer.
3. Disconnect the power from the computer by first unplugging the power cord from the AC outlet and then unplugging the AC adapter from the computer.
4. Remove the battery (see [Battery on page 37](#)).
5. Remove the following components:
 - a. Hard drive (see [Hard drive on page 41](#))
 - b. Optical drive (see [Optical drive on page 48](#))
 - c. Keyboard (see [Keyboard on page 50](#))
 - d. Switch cover (see [Switch cover on page 52](#))
 - e. Display assembly (see [Display assembly on page 54](#))
 - f. Top cover (see [Top cover on page 59](#))
 - g. Bluetooth module (see [Bluetooth module on page 65](#))

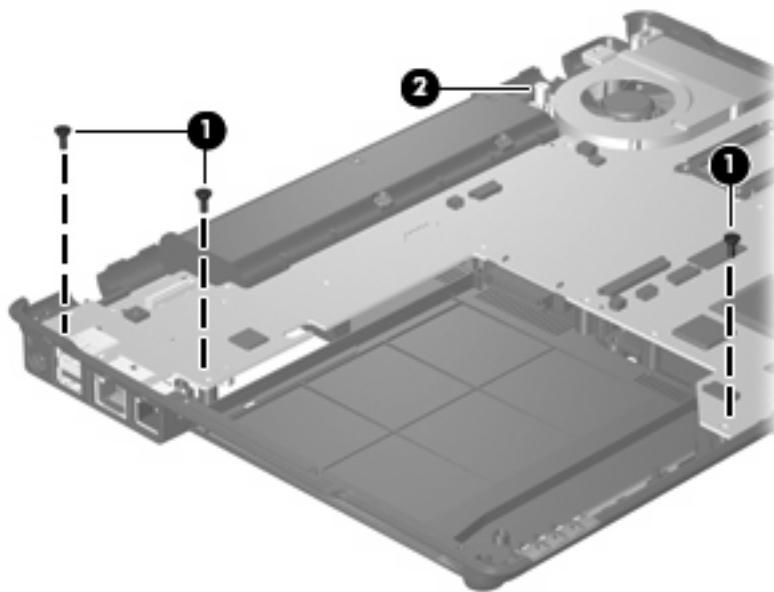

When replacing the system board, be sure that the following components are removed from the defective system board and installed on the replacement system board:

- Memory module (see [Memory module on page 43](#))
- WLAN module (see [WLAN module on page 45](#))
- ExpressCard assembly (see [ExpressCard assembly on page 71](#))
- Modem module (see [Modem module on page 73](#))
- Fan (see [Fan on page 75](#))
- Heat sink (see [Heat sink on page 77](#))
- Processor (see [Processor on page 79](#))

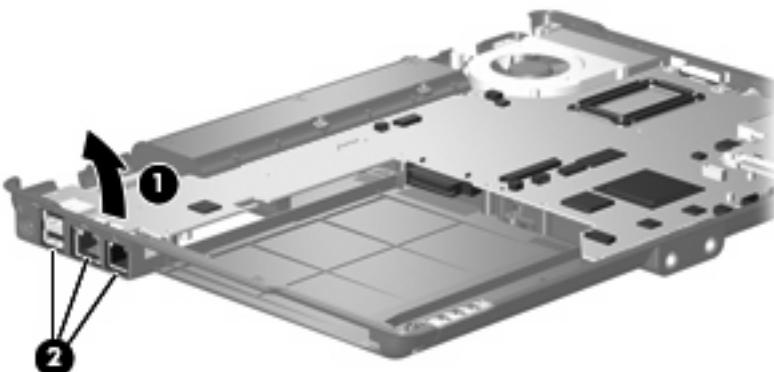

Remove the system board:

1. Remove the three Phillips PM2.5×6.0 screws **(1)** that secure the system board to the base enclosure.

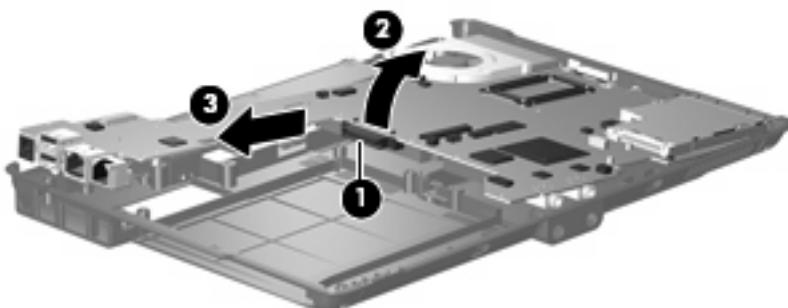

2. Loosen the captive standoff **(2)** on the fan that secures the system board to the base enclosure.

3. Flex the left side of the base enclosure **(1)** until the USB, RJ-45, and RJ-11 jacks **(2)** clear the openings in the base enclosure.

4. Use the optical drive connector **(1)** to lift the left side of the system board **(2)** until it rests at an angle.
5. Remove the system board **(3)** from the base enclosure by pulling it away at an angle.

Reverse this procedure to install the system board.

ExpressCard assembly

Description	Spare part number
ExpressCard assembly	457907-001

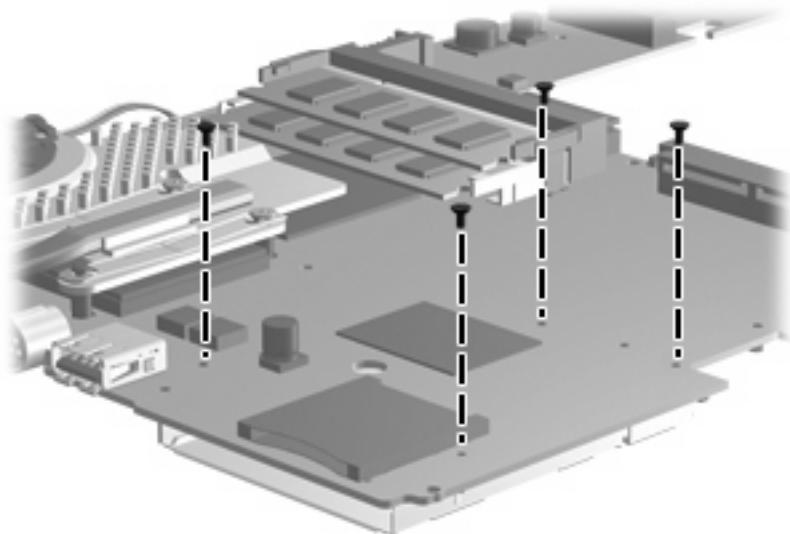

Before removing the ExpressCard assembly, follow these steps:

1. Shut down the computer. If you are unsure whether the computer is off or in Hibernation, turn the computer on, and then shut it down through the operating system.
2. Disconnect all external devices connected to the computer.
3. Disconnect the power from the computer by first unplugging the power cord from the AC outlet and then unplugging the AC adapter from the computer.
4. Remove the battery (see [Battery on page 37](#)).
5. Remove the following components:
 - a. Hard drive (see [Hard drive on page 41](#))
 - b. Optical drive (see [Optical drive on page 48](#))
 - c. Keyboard (see [Keyboard on page 50](#))
 - d. Switch cover (see [Switch cover on page 52](#))
 - e. Display assembly (see [Display assembly on page 54](#))
 - f. Top cover (see [Top cover on page 59](#))
 - g. Bluetooth module (see [Bluetooth module on page 65](#))
 - h. System board (see [System board on page 69](#))

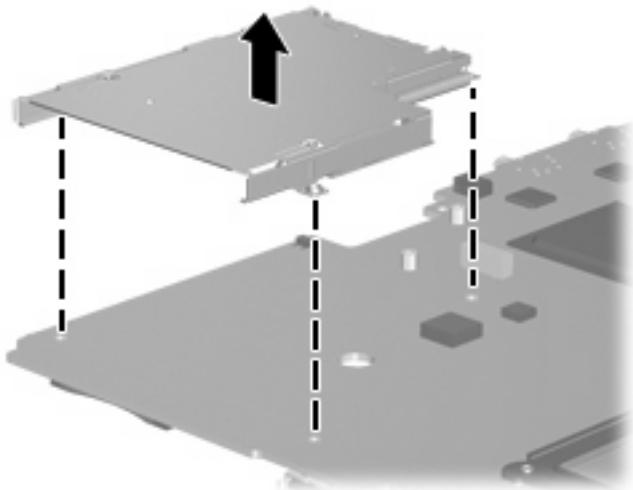

Remove the ExpressCard assembly:

1. Turn the system board upside down, with the left side toward you.

2. Remove the four Phillips PM2.0×6.0 screws that secure the ExpressCard assembly to the system board.

3. Turn the system board right-side up, with the left side toward you.
4. Remove the ExpressCard assembly from the system board.

Reverse this procedure to install the ExpressCard assembly.

Modem module

 **NOTE:** The modem module spare part kits do not include a modem module cable. The modem module cable is included in the Cables Kit, spare part number 454008-001. See [Cable Kit on page 21](#) for more Cable Kit information.

Description	Spare part number
For use in all countries and regions except Japan and Asia Pacific countries and regions	451403-001
For use only in Japan and Asia Pacific countries and regions	449139-001

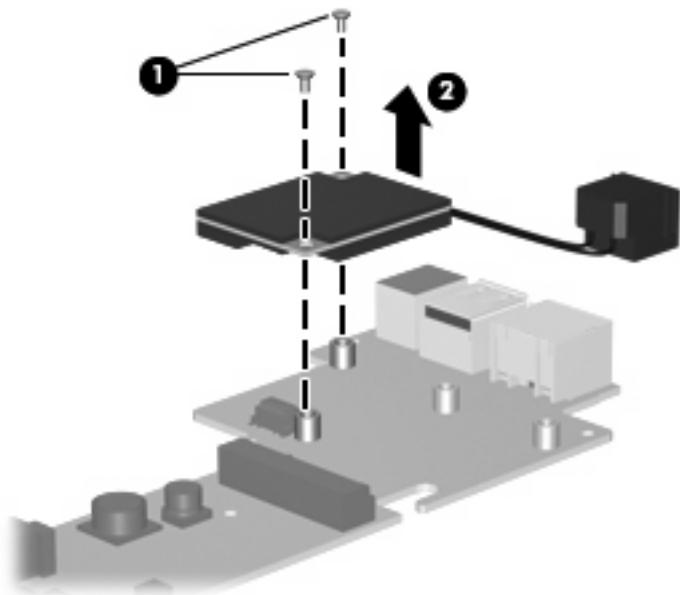

Before removing the modem module, follow these steps:

1. Shut down the computer. If you are unsure whether the computer is off or in Hibernation, turn the computer on, and then shut it down through the operating system.
2. Disconnect all external devices connected to the computer.
3. Disconnect the power from the computer by first unplugging the power cord from the AC outlet and then unplugging the AC adapter from the computer.
4. Remove the battery (see [Battery on page 37](#)).
5. Remove the following components:
 - a. Hard drive (see [Hard drive on page 41](#))
 - b. Optical drive (see [Optical drive on page 48](#))
 - c. Keyboard (see [Keyboard on page 50](#))
 - d. Switch cover (see [Switch cover on page 52](#))
 - e. Display assembly (see [Display assembly on page 54](#))
 - f. Top cover (see [Top cover on page 59](#))
 - g. Bluetooth module (see [Bluetooth module on page 65](#))
 - h. System board (see [System board on page 69](#))

Remove the modem module:

1. Turn the system board upside down, with the rear edge toward you.
2. Remove the two Phillips PM2.5×4.0 screws **(1)** that secure the modem module to the system board.

3. Disconnect the modem module **(2)** from the system board by lifting it straight up.

4. Remove the modem module and modem module cable.

Reverse this procedure to install the modem module and modem module cable.

Fan

Description	Spare part number
Fan	453999-001

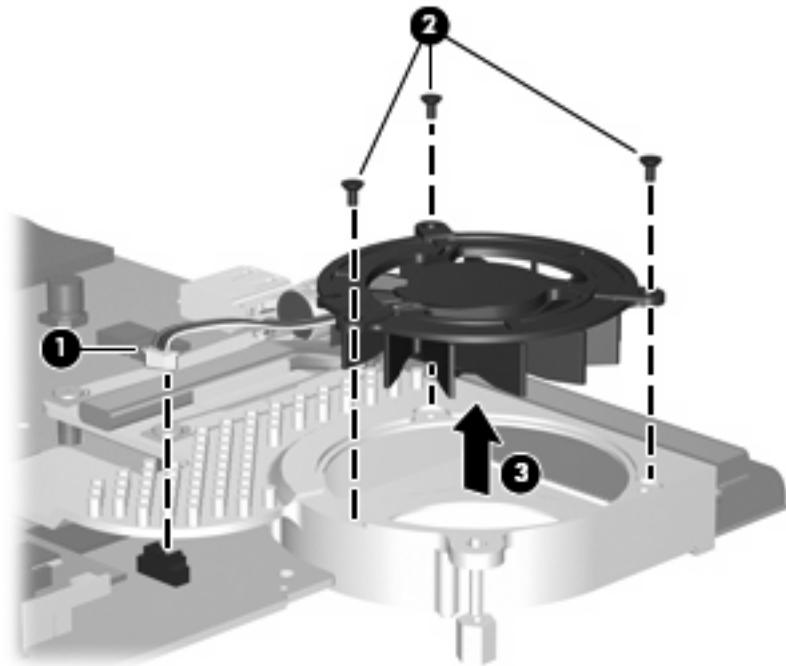

Before removing the fan, follow these steps:

1. Shut down the computer. If you are unsure whether the computer is off or in Hibernation, turn the computer on, and then shut it down through the operating system.
2. Disconnect all external devices connected to the computer.
3. Disconnect the power from the computer by first unplugging the power cord from the AC outlet and then unplugging the AC adapter from the computer.
4. Remove the battery (see [Battery on page 37](#)).
5. Remove the following components:
 - a. Hard drive (see [Hard drive on page 41](#))
 - b. Optical drive (see [Optical drive on page 48](#))
 - c. Keyboard (see [Keyboard on page 50](#))
 - d. Switch cover (see [Switch cover on page 52](#))
 - e. Display assembly (see [Display assembly on page 54](#))
 - f. Top cover (see [Top cover on page 59](#))
 - g. Bluetooth module (see [Bluetooth module on page 65](#))
 - h. System board (see [System board on page 69](#))

Remove the fan:

1. Turn the system board upside down, with the rear edge toward you.
2. Disconnect the fan cable **(1)** from the system board.
3. Remove the three Phillips PM2.0×4.0 screws **(2)** that secure the fan to the heat sink.

4. Remove the fan (3) from the heat sink.

Reverse this procedure to install the fan.

 **NOTE:** To properly ventilate the computer, allow at least a 7.6-cm (3-inch) clearance on the left side of the computer.

The computer uses an electric fan for ventilation. The fan is controlled by a temperature sensor and is designed to turn on automatically when high temperature conditions exist. These conditions are affected by high external temperatures, system power consumption, power management/battery conservation configurations, battery fast charging, and software requirements. Exhaust air is displaced through the ventilation grill located on the left side of the computer.

Heat sink

Description	Spare part number
Heat sink (includes a heat sink clip and replacement thermal material)	453998-001
Thermal Material Kit	445853-001

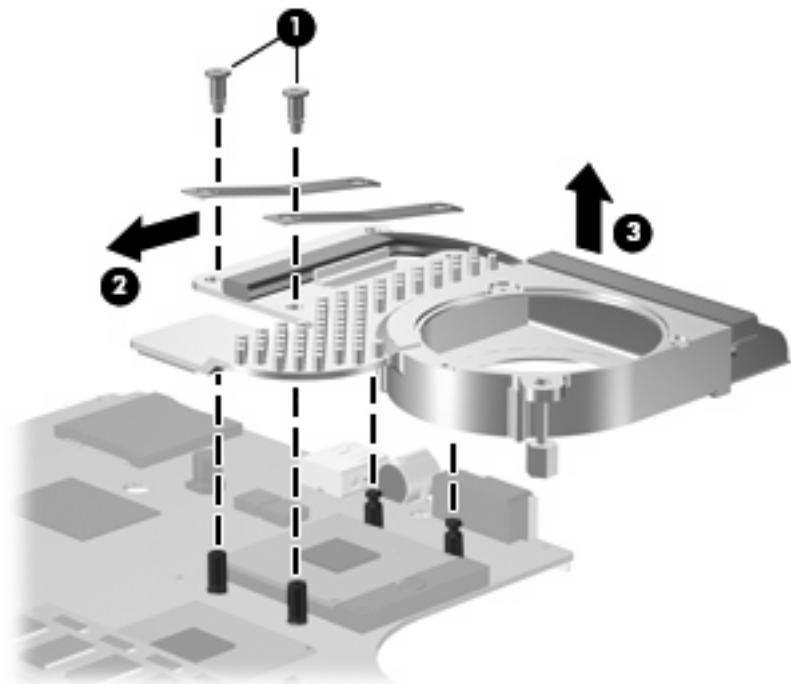

Before removing the heat sink, follow these steps:

1. Shut down the computer. If you are unsure whether the computer is off or in Hibernation, turn the computer on, and then shut it down through the operating system.
2. Disconnect all external devices connected to the computer.
3. Disconnect the power from the computer by first unplugging the power cord from the AC outlet and then unplugging the AC adapter from the computer.
4. Remove the battery (see [Battery on page 37](#)).
5. Remove the following components:
 - a. Hard drive (see [Hard drive on page 41](#))
 - b. Optical drive (see [Optical drive on page 48](#))
 - c. Keyboard (see [Keyboard on page 50](#))
 - d. Switch cover (see [Switch cover on page 52](#))
 - e. Display assembly (see [Display assembly on page 54](#))
 - f. Top cover (see [Top cover on page 59](#))
 - g. Bluetooth module (see [Bluetooth module on page 65](#))
 - h. System board (see [System board on page 69](#))
 - i. Fan (see [Fan on page 75](#))

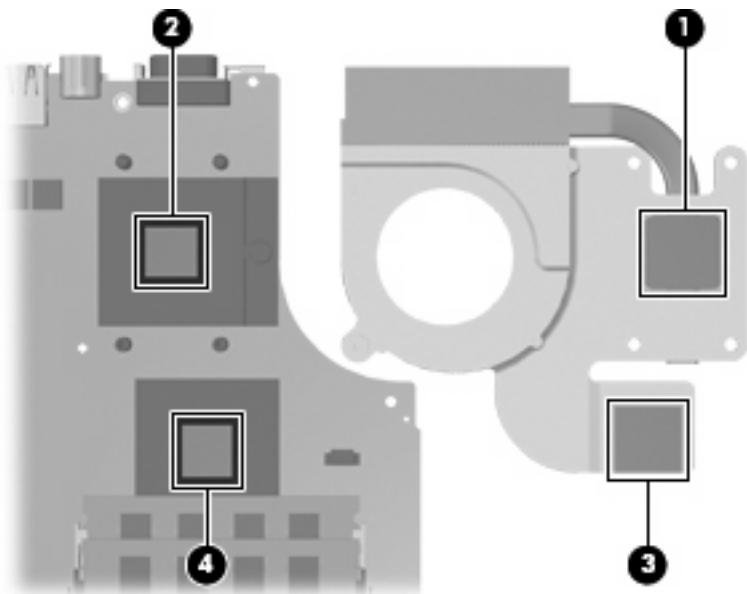

Remove the heat sink:

1. Remove the two Phillips PM2.0×6.0 shoulder screws **(1)** that secure the heat sink and the heat sink retention clips to the system board.
2. Remove the heat sink retention clips **(2)** by sliding them to the left.

3. Remove the heat sink (3) by lifting it straight up.

 **NOTE:** The thermal material must be thoroughly cleaned from the surfaces of the heat sink (1) and (3), the processor (2), and graphics subsystem component (4) on the system board each time the heat sink is removed. Thermal material is included with all system board, heat sink, and processor spare part kits, and is also available in the Thermal Material Kit, spare part number 445853-001.

Reverse this procedure to install the heat sink.

Processor

 **NOTE:** All processor spare part kits include replacement thermal material. The Thermal Material Kit is also available using spare part number 445853-001.

Description	Spare part number
Intel Core 2 Duo processors (4-MB L2 cache, 800-MHz FSB)	
T7800 2.6-GHz processor	454016-001
T7700 2.4-GHz processor	446894-001
T7500 2.2-GHz processor	454015-001
T7300 2.0-GHz processor	446892-001
T7100 1.8-GHz processor	446891-001
Intel Core Duo processors (2-MB L2 cache, 667-MHz FSB)	
T5450 1.66-GHz processor	454598-001
T5250 1.50-GHz processor	455399-001
Intel Celeron-M processors (1-MB L2 cache, 533-MHz FSB)	
540 1.86-GHz processor	454600-001
530 1.73-GHz processor	454599-001

Before removing the processor, follow these steps:

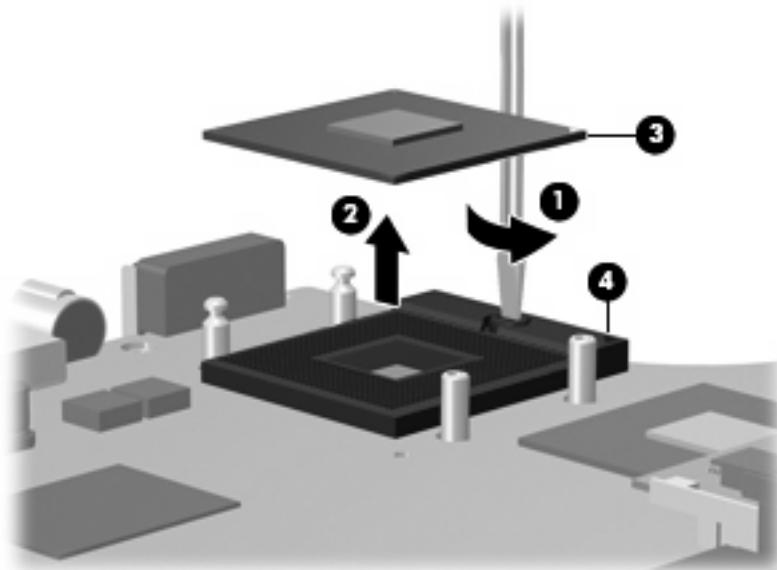

1. Shut down the computer. If you are unsure whether the computer is off or in Hibernation, turn the computer on, and then shut it down through the operating system.
2. Disconnect all external devices connected to the computer.
3. Disconnect the power from the computer by first unplugging the power cord from the AC outlet and then unplugging the AC adapter from the computer.
4. Remove the battery (see [Battery on page 37](#)).
5. Remove the following components:
 - a. Hard drive (see [Hard drive on page 41](#))
 - b. Optical drive (see [Optical drive on page 48](#))
 - c. Keyboard (see [Keyboard on page 50](#))
 - d. Switch cover (see [Switch cover on page 52](#))
 - e. Display assembly (see [Display assembly on page 54](#))
 - f. Top cover (see [Top cover on page 59](#))
 - g. Bluetooth module (see [Bluetooth module on page 65](#))
 - h. System board (see [System board on page 69](#))

- i. Fan (see [Fan on page 75](#))
- j. Heat sink (see [Heat sink on page 77](#))

Remove the processor:

1. Use a flat-bladed screwdriver to turn the processor locking screw **(1)** one-half turn counterclockwise until you hear a click.
2. Lift the processor **(2)** straight up and remove it.

 **NOTE:** When you install the processor, the gold triangle **(3)** on the processor must be aligned with the triangle **(4)** embossed on the processor slot.

Reverse this procedure to install the processor.

5 Setup Utility

⚠ WARNING! Only authorized technicians trained by HP must repair this equipment. All troubleshooting and repair procedures are detailed to allow repair at only the subassembly or module level. Because of the complexity of the individual boards and subassemblies, do not attempt to make repairs at the component level or modify any printed wiring board. Improper repairs can create a safety hazard. Any indication of component replacement or printed wiring board modification may void any warranty or exchange allowances.

Starting the Setup Utility

The Setup Utility is a ROM-based information and customization utility that can be used even when your Windows operating system is not working or will not load.

>Note: The fingerprint reader (select models only) does not work when accessing the Setup Utility.

The utility reports information about the computer and provides settings for startup, security, and other preferences.

To start the Setup Utility:

1. Turn on or restart the computer.
2. Before Windows opens and while "Press <F10> to enter setup" is displayed in the lower-left corner of the screen, press **f10**.

Changing the language of the Setup Utility

The following procedure explains how to change the language of the Setup Utility. If the Setup Utility is not already running, begin at step 1. If the Setup Utility is already running, begin at step 2.

1. To start the Setup Utility, turn on or restart the computer, and then press **f10** while "Press <F10> to enter setup" is displayed in the lower-left corner of the screen.
2. Use the arrow keys to select **System Configuration > Language**, and then press **enter**.
3. Press **f5** or **f6** (or use the arrow keys) to select a language, and then press **enter** to select a language.
4. When a confirmation prompt with your preference selected is displayed, press **enter** to save your preference.
5. To set your preferences and exit the Setup Utility, press **f10** and then follow the instructions on the screen.

Your preferences go into effect when the computer restarts in Windows.

Navigating and selecting in the Setup Utility

Because the Setup Utility is not Windows-based, it does not support the TouchPad. Navigation and selection are by keystroke.

- To choose a menu or a menu item, use the arrow keys.
- To choose an item in a drop-down list or to toggle a field, for example an Enable/Disable field, use either the arrow keys or **f5** or **f6**.
- To select an item, press **enter**.
- To close a text box or return to the menu display, press **esc**.
- To display additional navigation and selection information while the Setup Utility is open, press **f1**.

Displaying system information

The following procedure explains how to display system information in the Setup Utility. If the Setup Utility is not open, begin at step 1. If the Setup Utility is open, begin at step 2.

1. To start the Setup Utility, turn on or restart the computer, and then press **f10** while “Press <F10> to enter setup” is displayed in the lower-left corner of the screen.
2. Access the system information by using the **Main** menu.
3. To exit the Setup Utility without changing any settings, use the arrow keys to select **Exit > Exit Discarding Changes**, and then press **enter**. (The computer restarts in Windows.)

Restoring default settings in the Setup Utility

The following procedure explains how to restore the Setup Utility default settings. If the Setup Utility is not already running, begin at step 1. If the Setup Utility is already running, begin at step 2.

1. To start the Setup Utility, turn on or restart the computer, and then press **f10** while “Press <F10> to enter setup” is displayed in the lower-left corner of the screen.
2. Select **Exit > Load Setup Defaults**, and then press **enter**.
3. When the Setup Confirmation is displayed, press **enter** to save your preferences.
4. To set your preferences and exit the Setup Utility, press **f10**, and then follow the instructions on the screen.

The Setup Utility default settings are set when you exit the Setup Utility and go into effect when the computer restarts.

 **NOTE:** Your password, security, and language settings are not changed when you restore the factory default settings.

Using advanced Setup Utility features

This section describes the Setup Utility features recommended for all users. For more information about the Setup Utility features recommended for advanced users only, refer to Help and Support, which is accessible only when the computer is in Windows.

The Setup Utility features available for advanced users include a hard drive self-test, a Network Service Boot, and settings for boot order preferences.

The “<F12> to boot from LAN” message that is displayed in the lower-left corner of the screen each time the computer is started or restarted in Windows is the prompt for a Network Service Boot.

The “Press <ESC> to change boot order” message that is displayed in the lower-left corner of the screen each time the computer is started or restarted in Windows is the prompt to change the boot order.

Closing the Setup Utility

You can close the Setup Utility with or without saving changes.

- To close the Setup Utility and save your changes from the current session, use either of the following procedures:
 - Press **f10**, and then follow the instructions on the screen.
—or—
 - If the Setup Utility menus are not visible, press **esc** to return to the menu display. Then use the arrow keys to select **Exit > Exit Saving Changes**, and then press **enter**.

When you use the **f10** procedure, you are offered an option to return to the Setup Utility. When you use the Exit Saving Changes procedure, the Setup Utility closes when you press **enter**.

- To close the Setup Utility without saving your changes from the current session:

If the Setup Utility menus are not visible, press **esc** to return to the menu display. Then use the arrow keys to select **Exit > Exit Discarding Changes**, and then press **enter**.

After the Setup Utility closes, the computer restarts in Windows.

Setup Utility menus

The menu tables in this section provide an overview of Setup Utility options.

 **NOTE:** Some of the Setup Utility menu items listed in this section may not be supported by your computer.

Main menu

Select	To do this
System information	<ul style="list-style-type: none">● View and change the system time and date.● View identification information about the computer.● View specification information about the processor, memory size, system BIOS, and keyboard controller version (select models only).

Security menu

Select	To do this
Administrator password	Enter, change, or delete an administrator password.
Power-On Password	Enter, change, or delete a power-on password.

System Configuration menu

Select	To do this
Language Support	Change the Setup Utility language.
Enhanced SATA support (select models only)	Enable/disable enhanced SATA mode.
Boot Options	<p>Set the following boot options:</p> <ul style="list-style-type: none">• f10 and f12 Delay (sec.)—Set the delay for the f10 and f12 functions of the Setup Utility in intervals of 5 seconds each (0, 5, 10, 15, 20).• CD-ROM boot—Enable/disable boot from CD-ROM.• Floppy boot—Enable/disable boot from Floppy.• Internal Network Adapter boot—Enable/disable boot from Internal Network Adapter.• Boot Order—Set the boot order for:<ul style="list-style-type: none">◦ USB Floppy◦ ATAPI CD/DVD ROM Drive◦ Hard drive◦ USB Diskette on Key◦ USB Hard drive◦ Network adapter
Button Sound (select models only)	Enable/disable the Quick Launch Button tapping sound.
Video memory up to (select models only)	Select the amount of video memory.

Diagnostics menu

Select	To do this
Hard Disk Self Test	Run a comprehensive self-test on the hard drive. NOTE: On models with two hard drives, this menu option is called the Primary Hard Disk Self Test .
Secondary Hard Disk Self Test (select models only)	Run a comprehensive self-test on a secondary hard drive.

6 Specifications

Computer specifications

	Metric	U.S.
Dimensions		
Length	30.6 cm	12.01 in
Width	22.5 cm	8.86 in
Height (front to rear)	2.8 to 3.3 cm	1.10 to 1.29 in
Weight		
Equipped with 8-cell battery and optical drive	2.12 kg	4.67 lbs
Equipped with 4-cell battery and optical drive	1.92 kg	4.23 lbs
Input power		
Operating voltage	19.0 V dc @ 4.74 A – 65 W	
Operating current	4.74 A	
Temperature		
Operating (not writing to optical disc)	0°C to 35°C	32°F to 95°F
Operating (writing to optical disc)	5°C to 35°C	41°F to 95°F
Nonoperating	-20°C to 60°C	-4°F to 140°F
Relative humidity		
Operating	10% to 90%	
Nonoperating	5% to 95%	
Maximum altitude (unpressurized)		
Operating (14.7 to 10.1 psia)	-15 m to 3,048 m	-50 ft to 10,000 ft
Nonoperating (14.7 to 4.4 psia)	-15 m to 12,192 m	-50 ft to 40,000 ft
Shock		
Operating	125 g, 2 ms, half-sine	
Nonoperating	200 g, 2 ms, half-sine	
Random vibration		

	Metric	U.S.
Operating	0.75 g zero-to-peak, 10 Hz to 500 Hz, 0.25 oct/min sweep rate	
Nonoperating	1.50 g zero-to-peak, 10 Hz to 500 Hz, 0.5 oct/min sweep rate	

NOTE: Applicable product safety standards specify thermal limits for plastic surfaces. The computer operates well within this range of temperatures.

12.1-inch, WXGA display specifications

	Metric	U.S.
Dimensions		
Height	16.9 cm	6.7 in
Width	26.2 cm	10.3 in
Diagonal	30.8 cm	12.1 in
Number of colors		
	Up to 16.8 million	
Contrast ratio		
	250:1 (typical)	
Brightness		
	180 nits (typical)	
Pixel resolution		
Pitch	0.279 × 0.279 mm	
Format	1280 × 800	
Configuration	RGB vertical stripe	
Backlight		
	Edge lit	
Character display		
	80 × 25	
Total power consumption		
	4.0 W	
Viewing angle		
	+/-40 horizontal, +120/-40° vertical (typical)

Audio output level	Line-out, 0.7 Vrms	
Cache buffer	2 MB	
Data transfer rate		
24X CD-ROM	3,600 KB/sec	
8X DVD	3,600 KB/sec	
24X CD-R	3,600 KB/sec	
24X CD-RW	3,600 KB/sec	
Transfer mode	Multiword DMA mode 2	
Startup time	< 15 seconds	
Stop time	< 6 seconds	

DVD-ROM Drive

Applicable disc	DVD-ROM (DVD-5, DVD-9, DVD-10, DVD-18), CD-ROM (Mode 1 and 2), CD Digital Audio, CD-XA ready (Mode 2, Form 1 and Form 2), CD-I (Mode 2, Form 1 and Form 2), CD-R, CD-RW, Photo CD (single and multisession), CD-Bridge	
Center hole diameter	1.5 cm (0.59 in)	
Disc diameter		
Standard disc	12 cm (4.72 in)	
Mini disc	8 cm (3.15 in)	
Disc thickness	1.2 mm (0.047 in)	
Track pitch	0.74 μ m	
Access time	CD	DVD
Random	< 100 ms	< 125 ms
Full stroke	< 175 ms	< 225 ms
Audio output level	Line-out, 0.7 Vrms	
Cache buffer	512 KB	
Data transfer rate		
CD-R (24X)	3600 KB/s (150 KB/s at 1X CD rate)	
CD-RW (10X)	1500 KB/s (150 KB/s at 1X CD rate)	
CD-ROM (24X)	3600 KB/s (150 KB/s at 1X CD rate)	
DVD (8X)	10,800 KB/s (1,352 KB/s at 1X DVD rate)	
Multiword DMA mode 2	16.6 MB/s	
Startup time	< 10 seconds	
Stop time	< 3 seconds	

System DMA specifications

Hardware DMA	System function
DMA0	Not applicable
DMA1*	Not applicable
DMA2*	Not applicable
DMA3	Not applicable
DMA4	Direct memory access controller
DMA5*	Available for PC Card
DMA6	Not assigned
DMA7	Not assigned

*PC Card controller can use DMA 1, 2, or 5.

System interrupt specifications

Hardware IRQ	System function
IRQ0	System timer
IRQ1	Standard 101-/102-Key or Microsoft® Natural Keyboard
IRQ2	Cascaded
IRQ3	Intel 82801DB/DBM USB2 Enhanced Host Controller—24CD
IRQ4	COM1
IRQ5*	Conexant AC—Link Audio Intel 82801DB/DBM SMBus Controller—24C3 Data Fax Modem with SmartCP
IRQ6	Diskette drive
IRQ7*	Parallel port
IRQ8	System CMOS/real-time clock
IRQ9*	Microsoft ACPI-compliant system
IRQ10*	Intel USB UHCI controller—24C2 Intel 82852/82855 GM/GME Graphic Controller Realtek RTL8139 Family PCI Fast Ethernet Controller
IRQ11	Intel USB EHCI controller—24CD Intel USB UHCI controller—24C4 Intel USB UHCI controller—24C7 Intel Pro/Wireless 2200BG TI OHCI 1394 host controller TI PCI1410 CardBus controller
IRQ12	Synaptics PS/2 TouchPad
IRQ13	Numeric data processor
IRQ14	Primary IDE channel
IRQ15	Secondary IDE channel

*Default configuration; audio possible configurations are IRQ5, IRQ7, IRQ9, IRQ10, or none.

NOTE: PC Cards may assert IRQ3, IRQ4, IRQ5, IRQ7, IRQ9, IRQ10, IRQ11, or IRQ15. Either the infrared or the serial port may assert IRQ3 or IRQ4.

System I/O address specifications

I/O address (hex)	System function (shipping configuration)
000 - 00F	DMA controller no. 1
010 - 01F	Unused
020 - 021	Interrupt controller no. 1
022 - 024	Opti chipset configuration registers
025 - 03F	Unused
02E - 02F	87334 "Super I/O" configuration for CPU
040 - 05F	Counter/timer registers
044 - 05F	Unused
060	Keyboard controller
061	Port B
062 - 063	Unused
064	Keyboard controller
065 - 06F	Unused
070 - 071	NMI enable/RTC
072 - 07F	Unused
080 - 08F	DMA page registers
090 - 091	Unused
092	Port A
093 - 09F	Unused
0A0 - 0A1	Interrupt controller no. 2
I/O Address (hex)	System Function (shipping configuration)
0A2 - 0BF	Unused

7 Screw listing

This section provides specification and reference information for the screws used in the computer. All screws listed in this section are available in the Screw Kit, spare part number 454014-001.

Phillips PM2.0×4.0 screw

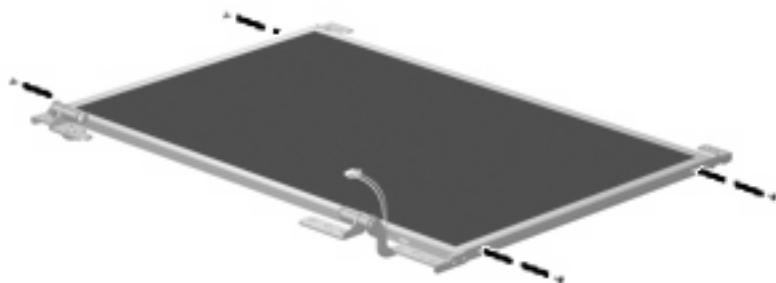

Color	Quantity	Length	Thread	Head diameter
Silver	13	4.0 mm	2.0 mm	4.5 mm

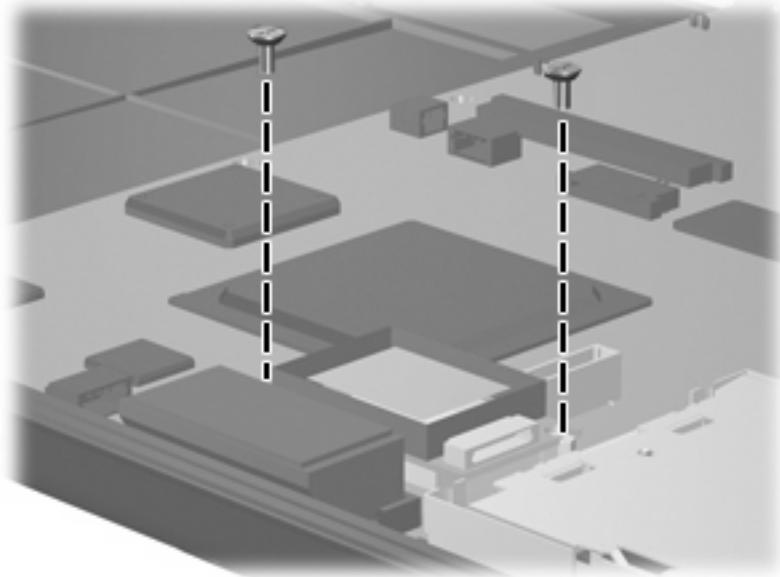

Where used: 2 screws that secure the camera module to the camera module bracket

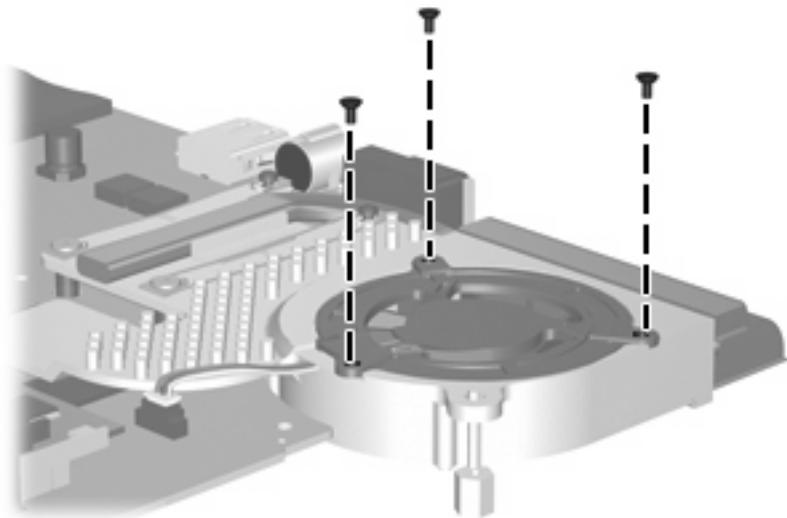

Where used: 2 screws that secure the optical drive bracket to the optical drive

Where used: 4 screws that secure the display hinges to the display panel

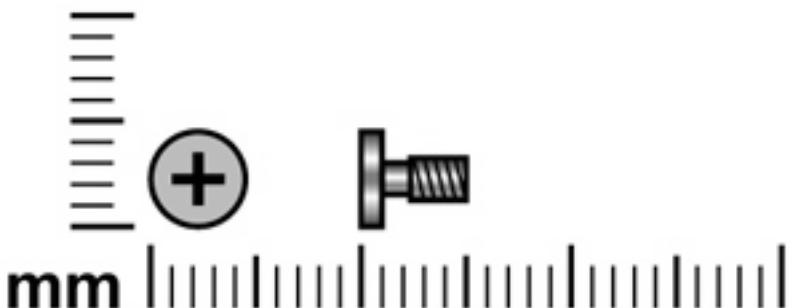

Where used: 2 screws that secure the Bluetooth module to the system board

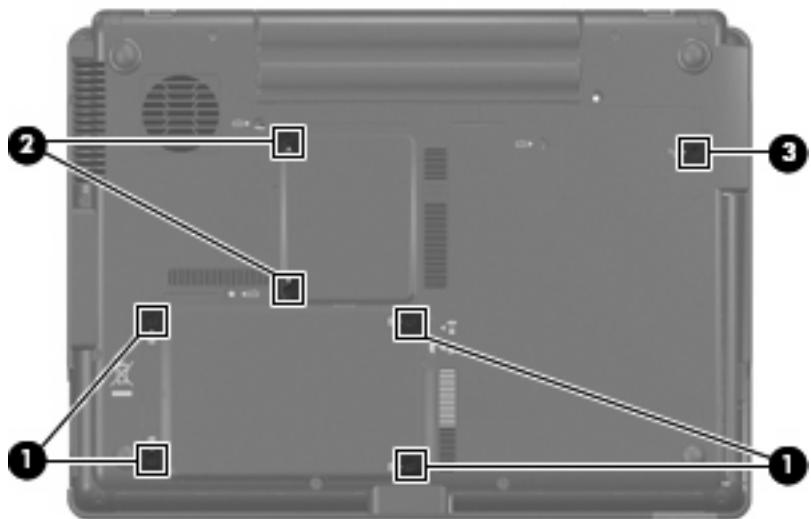

Where used: 3 screws that secure the fan to the heat sink

Phillips PM2.0×5.0 captive screw

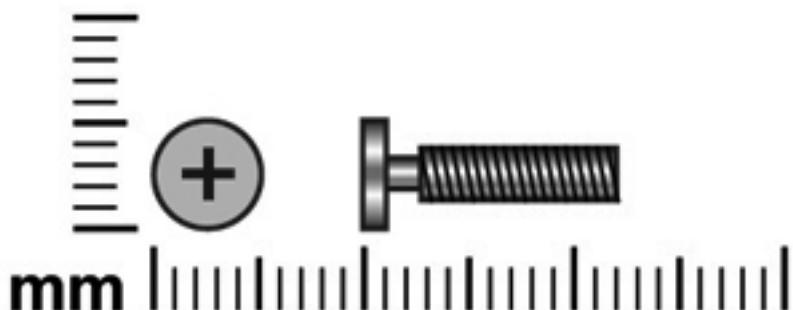

Color	Quantity	Length	Thread	Head diameter
Silver	7	5.0 mm	2.0 mm	4.5 mm

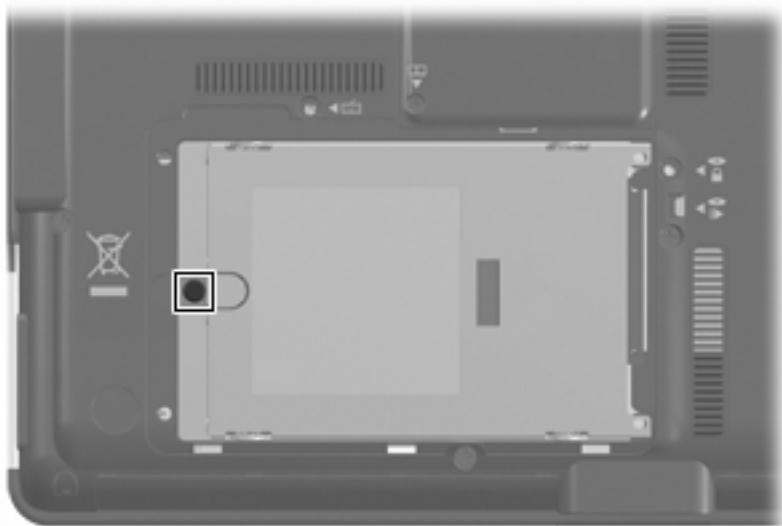

Where used:

- (1) Four captive screws that secure the hard drive cover to the computer
- (2) Two captive screws that secure the memory module compartment cover to the computer
- (3) One captive screw that secures the WLAN module compartment cover to the computer

Phillips PM2.5x12.0 captive screw

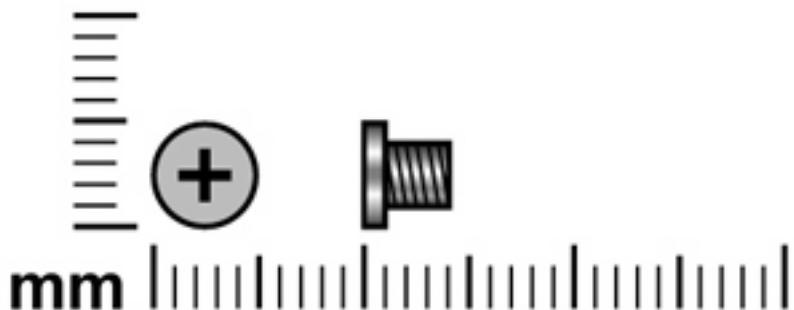

Color	Quantity	Length	Thread	Head diameter
Silver	1	12.0 mm	2.5 mm	5.0 mm

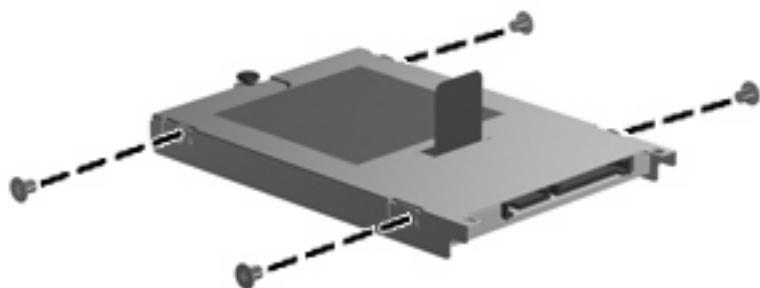

Where used: One captive screw that secures the hard drive to the computer

Phillips PM3.0×4.0 screw

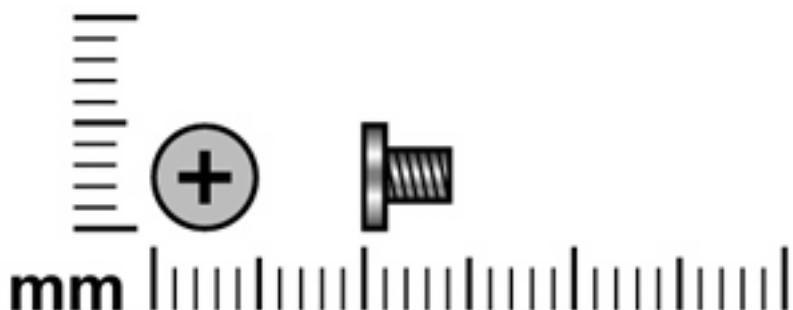

Color	Quantity	Length	Thread	Head diameter
Silver	4	4.0 mm	3.0 mm	5.0 mm

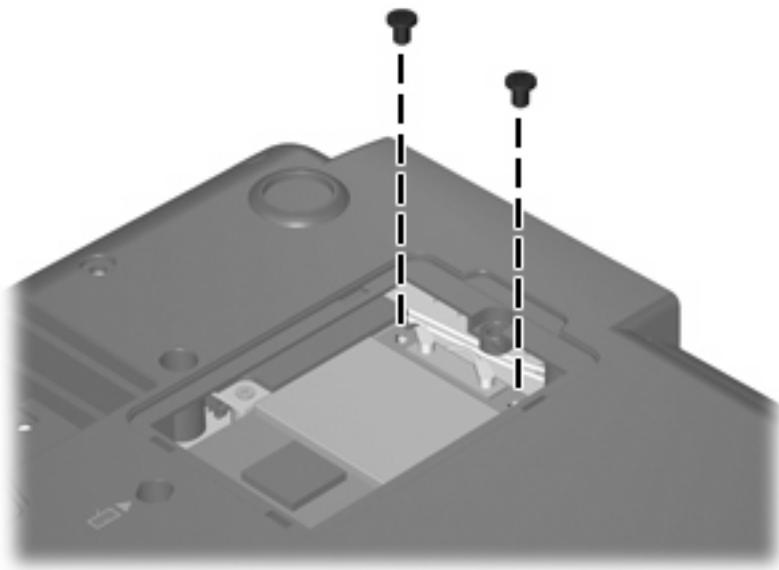

Where used: 4 screws that secure the hard drive bracket to the hard drive

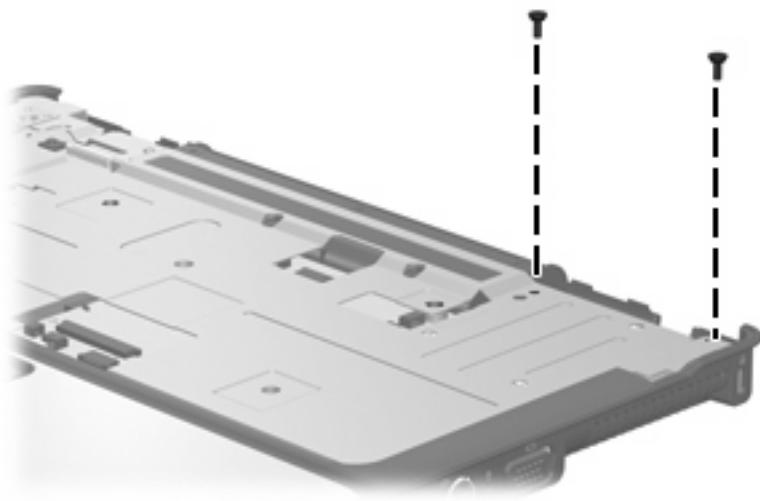

Phillips PM2.5x4.0 screw

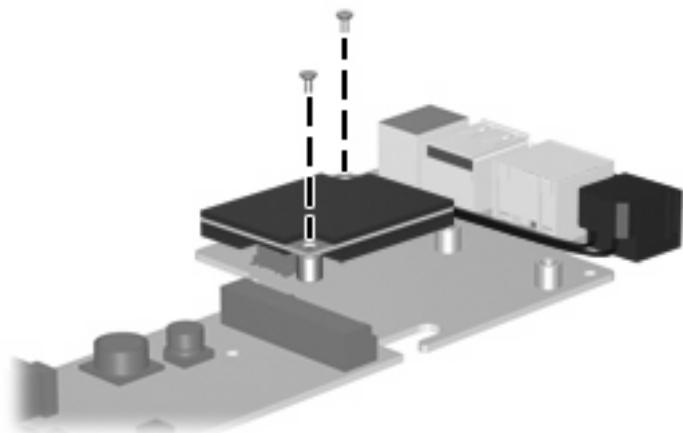

Color	Quantity	Length	Thread	Head diameter
Black	6	4.0 mm	2.5 mm	5.0 mm

Where used: 2 screws that secure the WLAN module to the system board

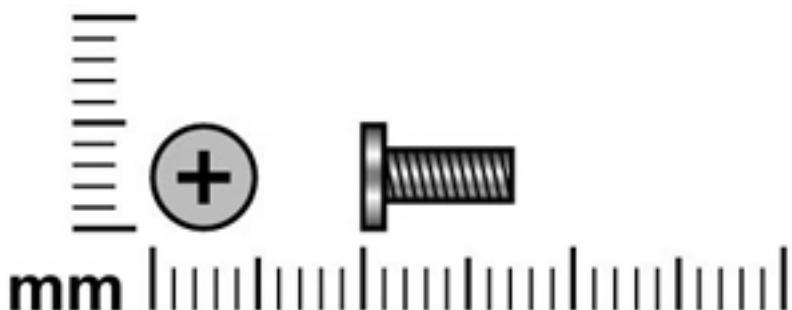

Where used: 2 screws that secure the top cover to the base enclosure

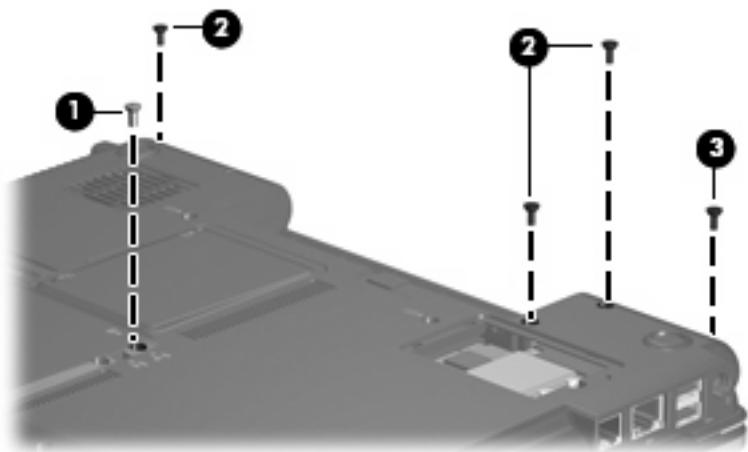

Where used: 2 screws that secure the modem module to the system board

Phillips PM2.5x7.0 screw

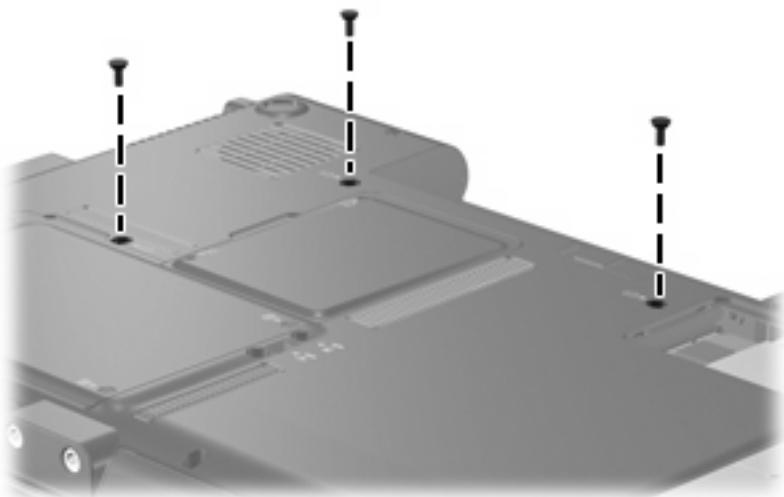

Color	Quantity	Length	Thread	Head diameter
Black	17	7.0 mm	2.5 mm	5.0 mm

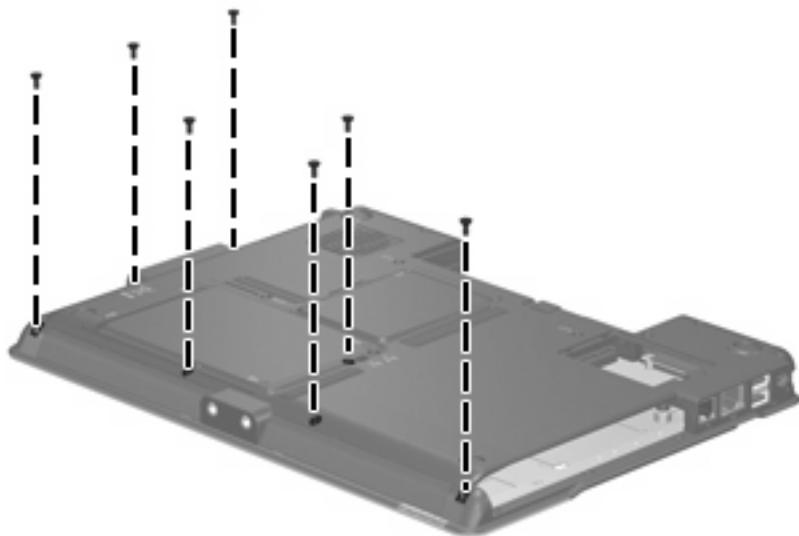

Where used:

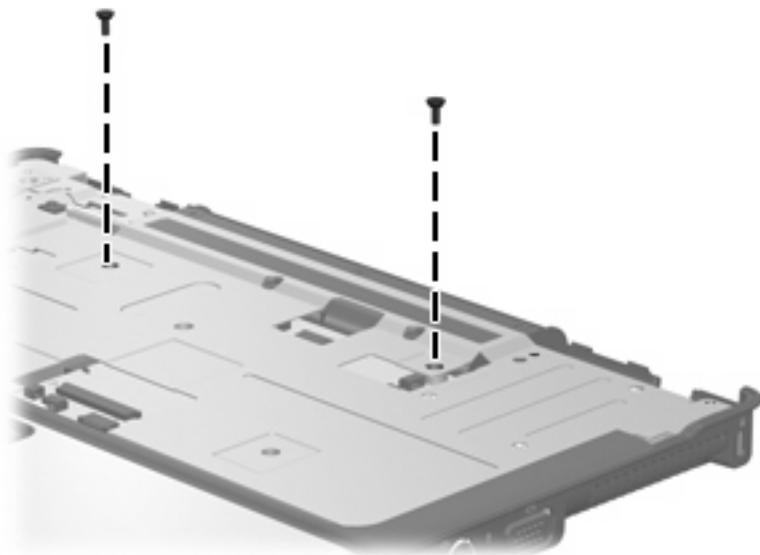

- (1) One screw that secures the optical drive to the computer
- (2) Three screws that secure the switch cover to the computer
- (3) One screw that secures the display assembly to the computer

Where used: 3 captive screws that secure the keyboard to the computer

Where used: 7 screws that secure the top cover to the base enclosure

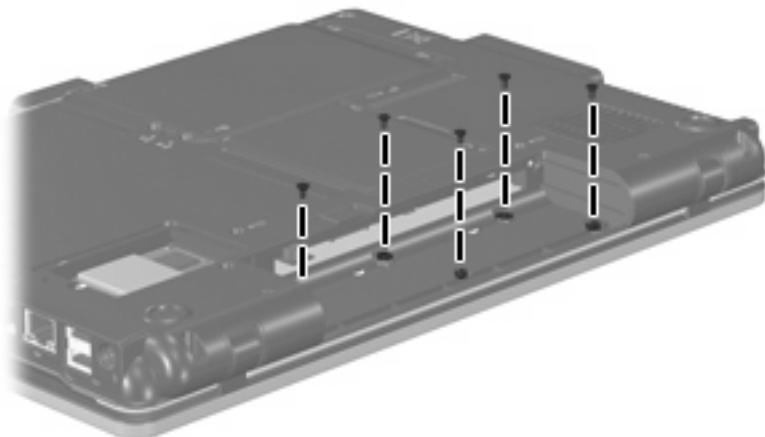

Where used: 2 screws that secure the top cover to the base enclosure

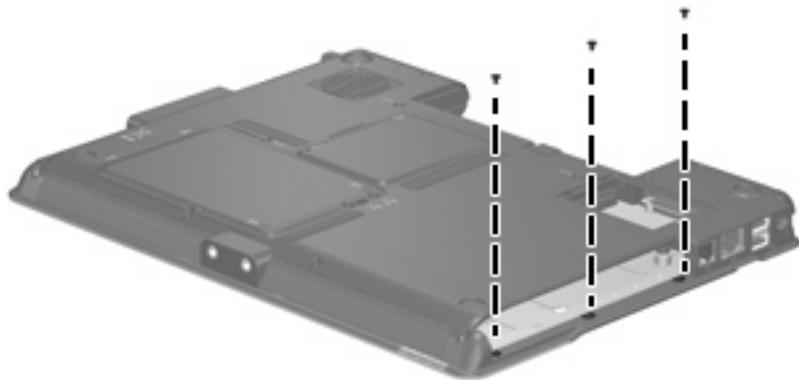

Phillips PM2.0x3.0 screw

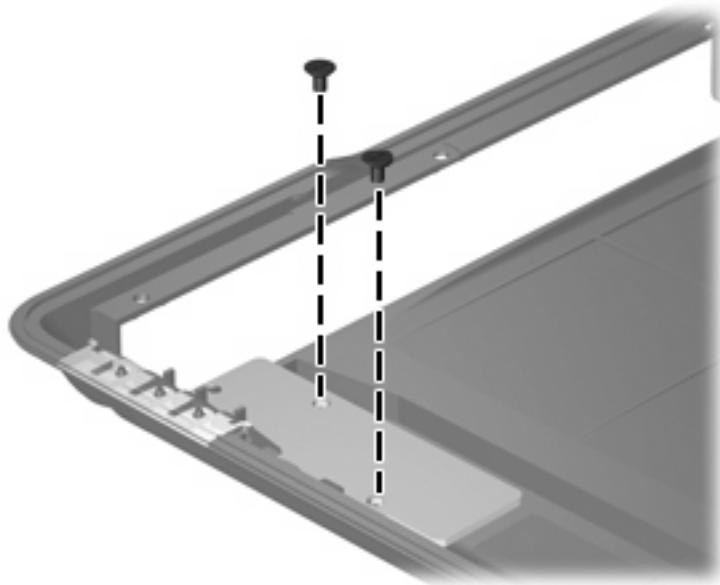

Color	Quantity	Length	Thread	Head diameter
Silver	10	3.0 mm	2.0 mm	4.5 mm

Where used: 5 screws that secure the switch cover to the computer

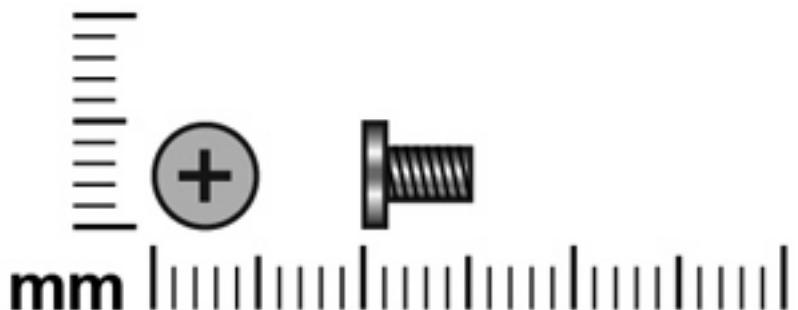

Where used: 3 screws that secure the top cover to the base enclosure

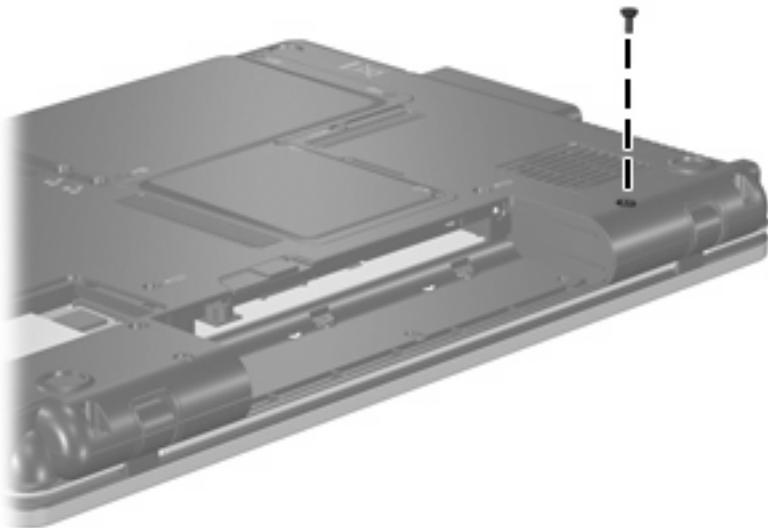

Where used: 2 screws that secure the front LED board to the base enclosure

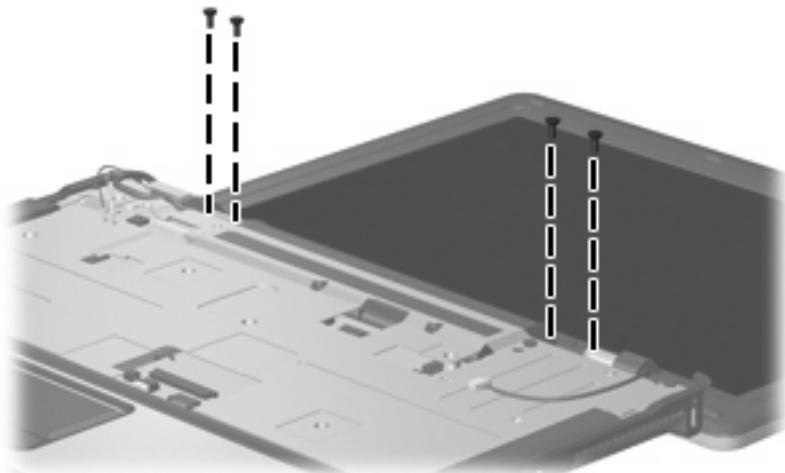

Phillips PM2.5×5.0 screw

Color	Quantity	Length	Thread	Head diameter
Black	5	5.0 mm	2.5 mm	5.0 mm

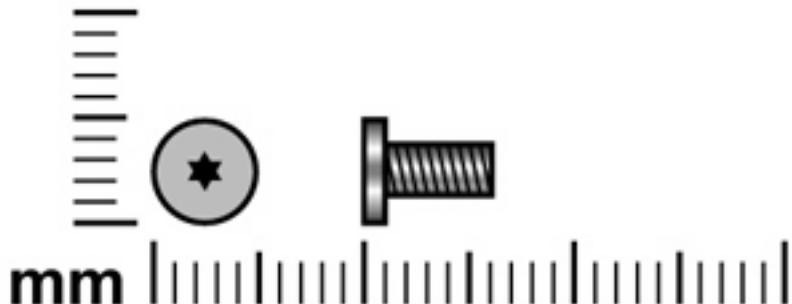

Where used: One screw that secures the display assembly to the computer

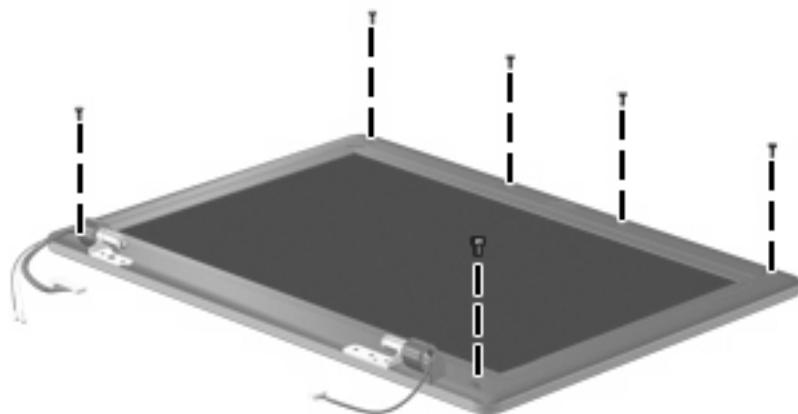

Where used: 4 screws that secure the display assembly to the computer

Torx T8M2.5×6.0 screw

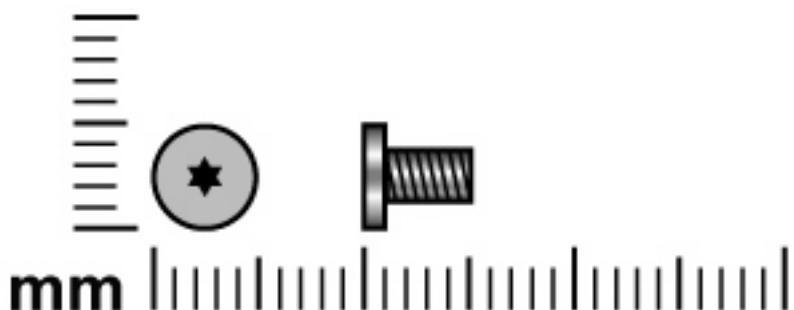

Color	Quantity	Length	Thread	Head width
Black	6	6.0 mm	2.5 mm	5.0 mm

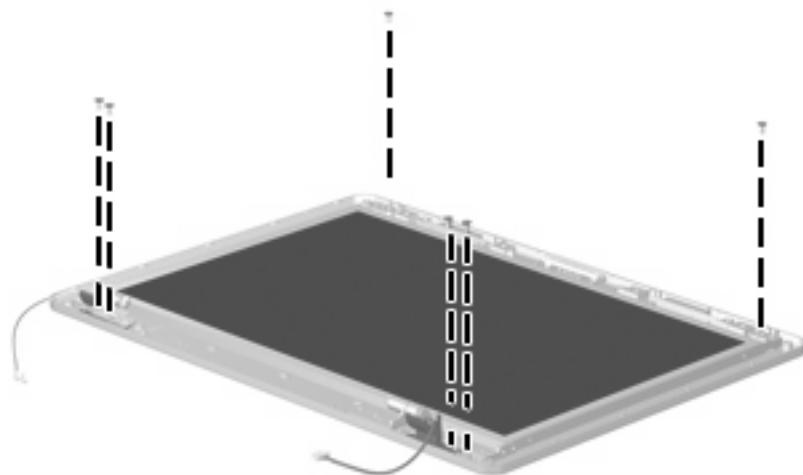

Where used: 6 screws that secure the display bezel to the display assembly

Torx T8M2.5×5.0 screw

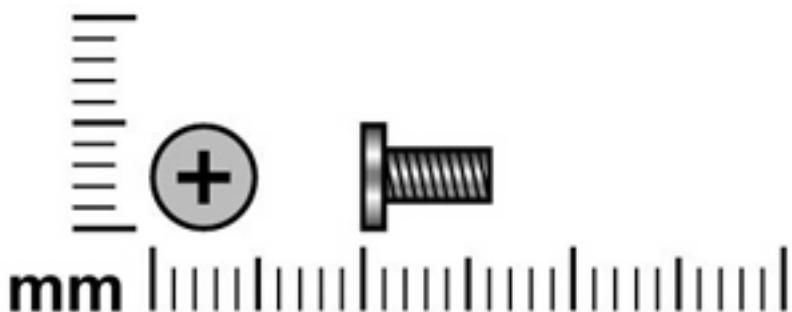

Color	Quantity	Length	Thread	Head diameter
Black	6	5.0 mm	2.5mm	5.0 mm

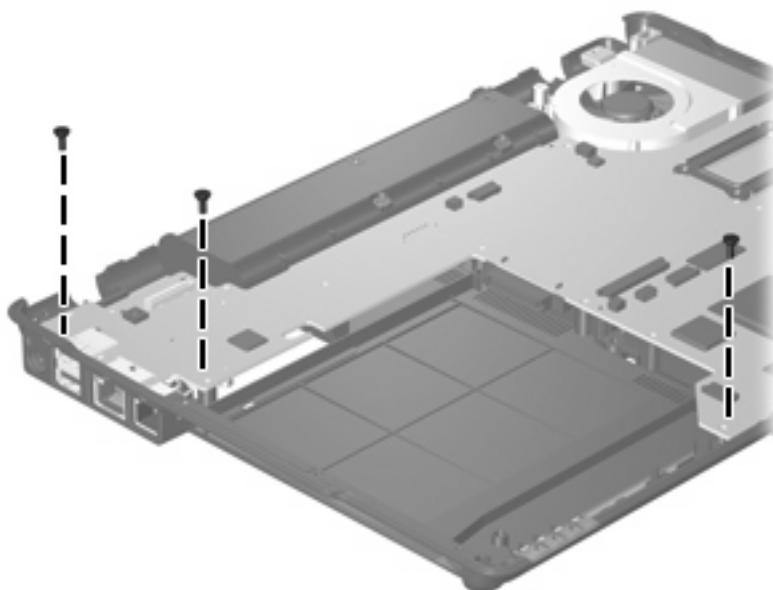

Where used: 6 screws that secure the display panel to the display enclosure

Phillips PM2.5×6.0 screw

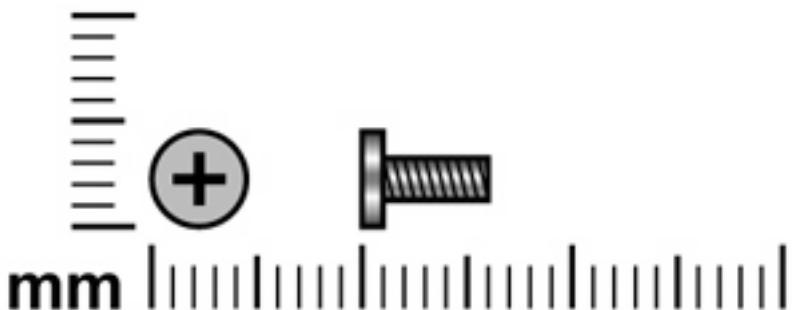

Color	Quantity	Length	Thread	Head diameter
Black	3	6.0 mm	2.5 mm	5.0 mm

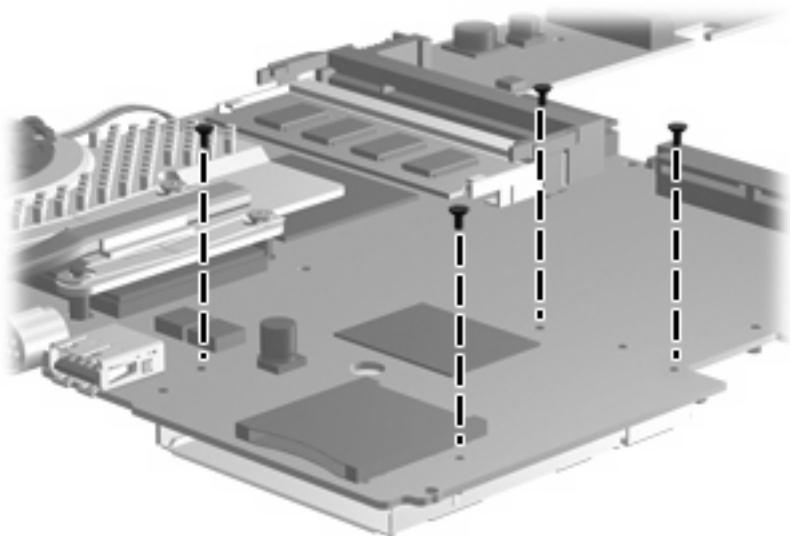

Where used: 3 screws that secure the system board to the base enclosure

Phillips PM2.0×6.0 screw

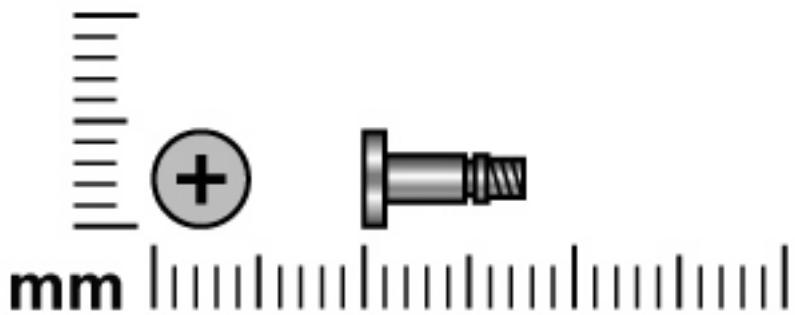

Color	Quantity	Length	Thread	Head diameter
Silver	4	6.0 mm	2.0 mm	4.5 mm

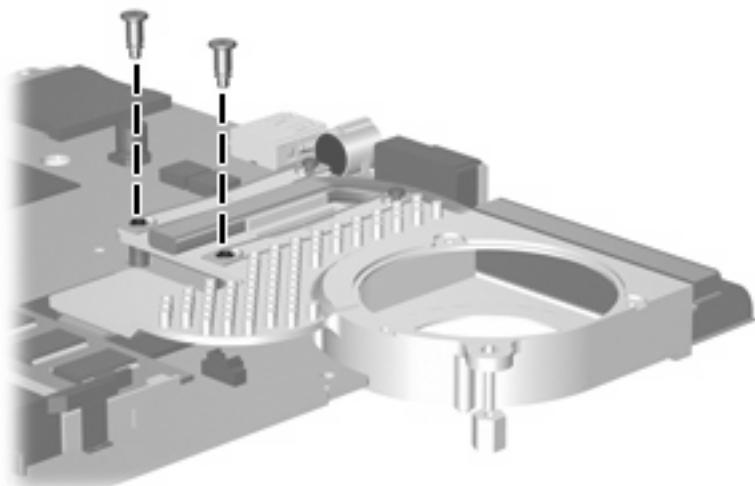

Where used: 4 screws that secure the ExpressCard assembly to the system board

Phillips PM2.0x6.0 shoulder screw

Color	Quantity	Length	Thread	Head diameter
Silver	2	6.0 mm	2.0 mm	5.0 mm

Where used: 2 shoulder screws that secure the heat sink to the system board

8 Backup and Recovery

Recovering system information

Tools provided by the operating system and Recovery Manager software are designed to help you with the following tasks for safeguarding your information and restoring it in case of a system failure:

- Back up your information regularly to protect your important system files.
- Make a set of recovery discs (Recovery Manager software feature). Recovery discs are used to start up (boot) your computer and restore the operating system and software programs to factory settings in case of system failure or instability.
- Create system restore points (operating system feature). System restore points allow you to reverse undesirable changes to your computer by restoring the computer to an earlier state.
- Recover a program or driver (Recovery Manager software feature). This feature helps you reinstall a program or driver without performing a full system recovery.
- Perform a full system recovery (Recovery Manager software feature). With Recovery Manager, you can recover your full factory image if you experience system failure or instability. Recovery Manager works from a dedicated recovery partition on the hard drive or from recovery discs you create.

Backing up your information

When to back up

- On a regularly scheduled basis.
-  **NOTE:** Set reminders to back up your information periodically.
- Before the computer is repaired or restored.
 - Before you add or modify hardware or software.

Back up suggestions

- Create system restore points using the Windows System Restore feature.
- Store personal files in the Documents folder and back up these folders periodically.
- Back up templates stored in their associated programs.
- Save customized settings in a window, toolbar, or menu bar by taking a screen shot of your settings.

The screen shot can be a time saver if you have to reset your preferences.

To copy the screen shot and paste it into a word processing document:

a. Display the screen.

b. Copy the screen:

To copy only the active screen, press **alt+fn+prt sc**.

To copy the entire screen, press **fn+prt sc**.

c. Open a word-processing document, and then select **Edit > Paste**.

Using system restore points

When you back up your system, you are creating a system restore point. A system restore point allows you to save and name a snapshot of your hard drive at a specific point in time. You can then recover back to that point if you want to reverse subsequent changes made to your system.

 **NOTE:** Recovering to an earlier restore point does not affect data files saved or e-mails created since the last restore point.

You also can create additional restore points to provide increased protection for your system files and settings.

When to create restore points

- Before you add or extensively modify software or hardware.
- Periodically, whenever the system is performing optimally.

 **NOTE:** If you revert to a restore point and then change your mind, you can reverse the restoration.

Create a system restore point

1. Select **Start > Control Panel > System and Maintenance > System**.
2. In the left pane, click **System protection**.
3. Click the **System Protection** tab.
4. Under Automatic restore points, select the disk for which you want to create a restore point.
5. Click **Create**.

The System Protection window opens.

6. Follow the on-screen instructions.

Restore to a previous date and time

1. Select **Start > Control Panel > System and Maintenance > System**.
2. In the left pane, click **System protection**.
3. Click the **System Protection** tab.
4. Click the **System Restore** button, and then click **Next**.
The System Restore window opens.
5. Follow the on-screen instructions.

Creating recovery discs

Recovery Manager creates a set of recovery CDs or DVDs for the computer. Use recovery discs to restore the operating system and software programs to factory settings, in case of system failure or instability.

-  **NOTE:** Handle these discs carefully and keep them in a safe place. The software allows the creation of only one set of recovery discs.

Note the following guidelines before creating recovery discs:

- You will need high quality CD-R, DVD-R, or DVD+R media (purchased separately).
-  **NOTE:** Formatted DVD±RW discs and DVD±RW double-layer discs are not compatible with the Recovery Manager software.
- The computer must be connected to AC power during this process.
- Only one set of recovery discs can be created per computer.
- Number each disc before inserting it into the computer optical drive.
- If necessary, you can exit the program before you have finished creating the recovery discs. The next time you open Recovery Manager, you will be prompted to continue the disc creation process.

To create a set of recovery discs:

1. Select **Start > All Programs > Recovery Manager > Recovery Manager**.

Recover Manager opens.

2. Click **Advanced Options**.

-  **NOTE:** If you are operating the computer on battery power, you will be prompted to connect to AC power before you can go to the next step.

3. Click **Recovery disc creation**, and then click **Next**.

4. Follow the on-screen instructions.

Reinstalling software programs and drivers

If a program or driver preinstalled at the factory is accidentally erased or is damaged, Recovery Manager allows you to reinstall it.

 **NOTE:** Software not provided with this computer must be reinstalled from the disc provided by the manufacturer or downloaded from the manufacturer's Web site.

NOTE: Before reinstalling the program, be sure it is fully uninstalled.

Recovery Manager replaces corrupted system files and reinstalls deleted system files within the program.

- In most cases, if the program you are reinstalling is still on your computer, the reinstallation process does not affect your personal settings.
- In all cases, if a program has been deleted from your computer, the reinstallation process reinstalls the program or utility to the factory image but cannot restore your personal settings.

Reinstalling preinstalled programs and drivers

1. Remove the program or driver:

 **NOTE:** In some cases, drivers are not listed in the Programs and Features list. If the driver is not listed, it does not need to be removed.

- a. Select **Start > Control Panel > Programs > Uninstall a program**.
 - b. Right-click the program or driver you want to remove, and then click **Uninstall**.
2. Reinstall the program or driver:
 - a. Select **Start > All Programs > Recovery Manager > Recovery Manager**.
 - b. Click **Advanced Options**.
 - c. Click either **Software program re-installation** or **Hardware driver re-installation**, and then click **Next**.
 - d. Follow the on-screen instructions.
 - e. Restart the computer if prompted.

Reinstalling programs from discs

1. Insert the disc into the optical drive.
2. When the installation wizard opens, follow the installation instructions on the screen.
3. Restart the computer if prompted.

Performing a recovery

Recovery Manager software allows you to repair or restore the system if you experience system failure or instability. Recovery Manager works from recovery discs that you create or from a dedicated recovery partition on the hard drive.

 **NOTE:** Windows has its own built-in repair features, such as System Restore and driver rollback capabilities. If you have not already tried these features, try them before using Recovery Manager.

NOTE: Recovery Manager only recovers software that was preinstalled at the factory. Software not provided with this computer must be reinstalled from the disc provided by the manufacturer or downloaded from the manufacturer's Web site.

Recovering from the recovery discs

To restore the system from the recovery discs:

1. Back up all personal files.
2. Insert the first recovery disc into the optical drive and restart the computer.
3. Follow the on-screen instructions.

Recovering from the partition on the hard drive

You can perform a recovery from the partition on the hard drive from either the Start button or **f11**.

To restore the system from the partition, follow these steps:

1. Access Recovery Manager in either of the following ways:
 - Select **Start > All Programs > Recovery Manager > Recovery Manager**.
 - Restart the computer and press **f11** while the "Press <F11> for recovery" message is displayed on the screen. Then select **Recovery Manager**.

Recovery Manager opens.

2. Click **Advanced Options**.
3. Click **System recovery**, and then click **Next**.
4. Follow the on-screen instructions.

Deleting the recovery partition on the hard drive

The Recovery Manager Advanced Options menu provides the option of deleting the recovery partition, which will increase space on the hard drive. Delete the recovery partition only if you have already created recovery discs.

- △ **CAUTION:** After you create the recovery discs, you can increase space on the hard drive by deleting the recovery partition. However, doing this is not recommended. If you delete this partition, you will lose any information that is on the partition, including Recovery Manager software. Thereafter, you must use the recovery discs to access Recovery Manager software.

To delete the recovery partition:

1. If you have not already created recovery discs, create them now.
2. Select **Start > All Programs > Recovery Manager > Recovery Manager**.
Recovery Manager opens.
3. Click **Advanced Options**.
4. Click **Remove recovery partition**, and then click **Next**.
5. Follow the on-screen instructions.

Updating reinstalled software

After you perform a system recovery, connect to the Internet to update all reinstalled software.

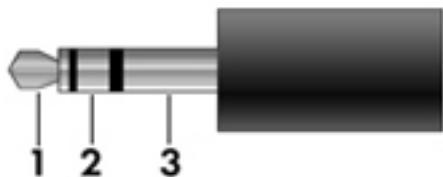

To access update links for the operating system and other software provided on your computer:

- △ Select **Start > Help and Support**.

To update optional software, follow the instructions provided by the software manufacturer. Some programs include an update feature you can access from a Help button or menu within the program.

10 Power cord set requirements

The wide range input feature of the computer permits it to operate from any line voltage from 100 to 120 volts AC or from 220 to 240 volts AC.

The 3-conductor power cord set included with the computer meets the requirements for use in the country or region where the equipment is purchased.

Power cord sets for use in other countries and regions must meet the requirements of the country or region where the computer is used.

Requirements for all countries and regions

The requirements listed below are applicable to all countries and regions:

- The length of the power cord set must be at least 1.5 m (5.0 ft) and no more than 2.0 m (6.5 ft).
- All power cord sets must be approved by an acceptable accredited agency responsible for evaluation in the country or region where the power cord set will be used.
- The power cord sets must have a minimum current capacity of 10 amps and a nominal voltage rating of 125 or 250 V AC, as required by the power system of each country or region.
- The appliance coupler must meet the mechanical configuration of an EN 60 320/IEC 320 Standard Sheet C13 connector for mating with the appliance inlet on the back of the computer.

Requirements for specific countries and regions

Country/region	Accredited agency	Applicable note number
Australia	EANSW	1
Austria	OVE	1
Belgium	CEBC	1
Canada	CSA	2
Denmark	DEMKO	1
Finland	FIMKO	1
France	UTE	1
Germany	VDE	1
Italy	IMQ	1
Japan	METI	3
Korea	EK	4
The Netherlands	KEMA	1
Norway	NEMKO	1
The People's Republic of China	CCC	5
Sweden	SEMKO	1
Switzerland	SEV	1
Taiwan	BSMI	4
The United Kingdom	BSI	1
The United States	UL	2

1. The flexible cord must be Type HO5VV-F, 3-conductor, 1.0-mm² conductor size. Power cord set fittings (appliance coupler and wall plug) must bear the certification mark of the agency responsible for evaluation in the country or region where it will be used.

2. The flexible cord must be Type SPT-3 or equivalent, No. 18 AWG, 3-conductor. The wall plug must be a two-pole grounding type with a NEMA 5-15P (15 A, 125 V) or NEMA 6-15P (15 A, 250 V) configuration.

3. The appliance coupler, flexible cord, and wall plug must bear a "T" mark and registration number in accordance with the Japanese Dentori Law. The flexible cord must be Type VCT or VCTF, 3-conductor, 1.00-mm² conductor size. The wall plug must be a two-pole grounding type with a Japanese Industrial Standard C8303 (7 A, 125 V) configuration.

4. The flexible cord must be Type RVV, 3-conductor, 0.75-mm² conductor size. Power cord set fittings (appliance coupler and wall plug) must bear the certification mark of the agency responsible for evaluation in the country or region where it will be used.

5. The flexible cord must be Type VCTF, 3-conductor, 0.75-mm² conductor size. Power cord set fittings (appliance coupler and wall plug) must bear the certification mark of the agency responsible for evaluation in the country or region where it will be used.

11 Recycling

Battery

When a battery has reached the end of its useful life, do not dispose of the battery in general household waste. Follow the local laws and regulations in your area for computer battery disposal.

Display

- ⚠ **WARNING!** The backlight contains mercury. Exercise caution when removing and handling the backlight to avoid damaging this component and causing exposure to the mercury.
- ⚠ **CAUTION:** The procedures in this appendix can result in damage to display components. The only components intended for recycling purposes are the liquid crystal display (LCD) panel and the backlight. Careful handling must be exercised when removing these components. When you remove these components, handle them carefully.
- 📝 **NOTE: Materials Disposal.** This HP product contains mercury in the backlight in the display assembly that might require special handling at end-of-life. Disposal of mercury may be regulated because of environmental considerations. For disposal or recycling information, contact your local authorities, or see the Electronic Industries Alliance (EIA) Web site at <http://www.eiae.org>.

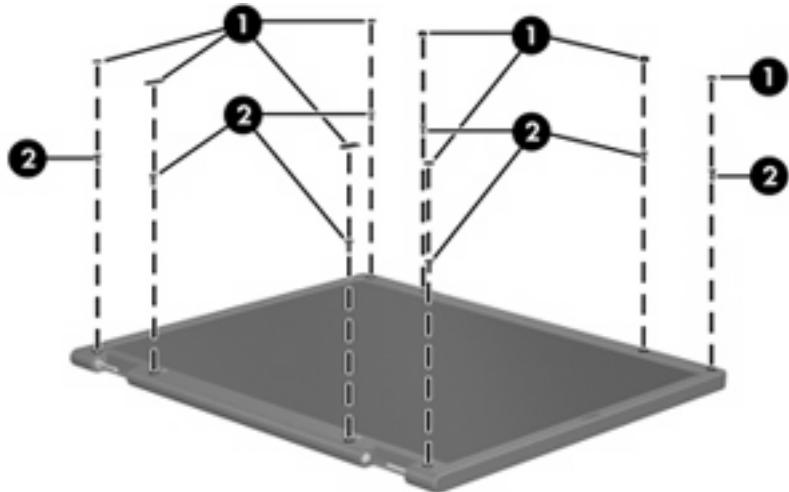

This section provides disassembly instructions for the display assembly. The display assembly must be disassembled to gain access to the backlight (1) and the liquid crystal display (LCD) panel (2).

- 📝 **NOTE:** The procedures provided in this appendix are general disassembly instructions. Specific details, such as screw sizes, quantities, and locations, and component shapes and sizes, can vary from one computer model to another.

Perform the following steps to disassemble the display assembly:

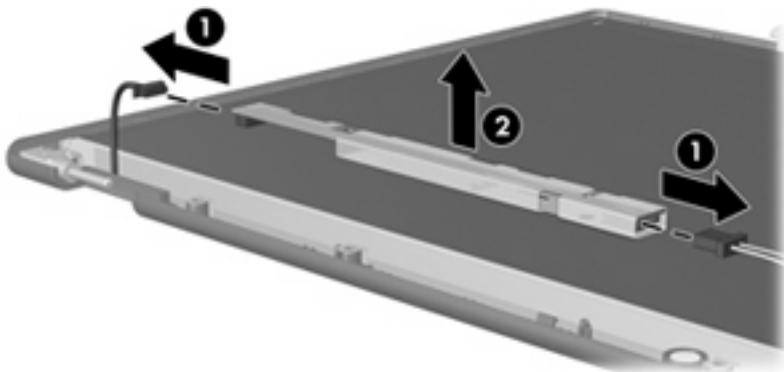

1. Remove all screw covers **(1)** and screws **(2)** that secure the display bezel to the display assembly.

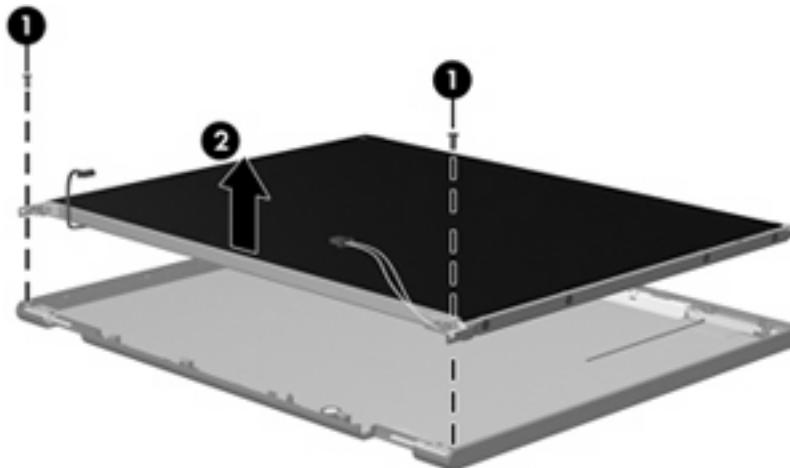

2. Lift up and out on the left and right inside edges **(1)** and the top and bottom inside edges **(2)** of the display bezel until the bezel disengages from the display assembly.
3. Remove the display bezel **(3)**.

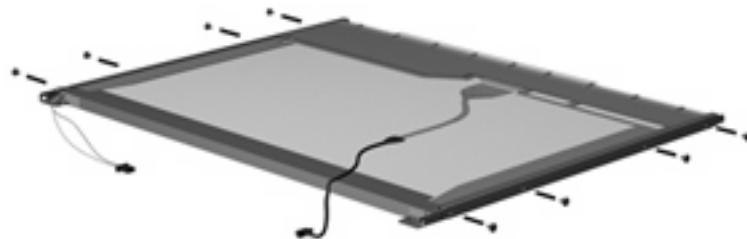

4. Disconnect all display panel cables **(1)** from the display inverter and remove the inverter **(2)**.

5. Remove all screws **(1)** that secure the display panel assembly to the display enclosure.
6. Remove the display panel assembly **(2)** from the display enclosure.

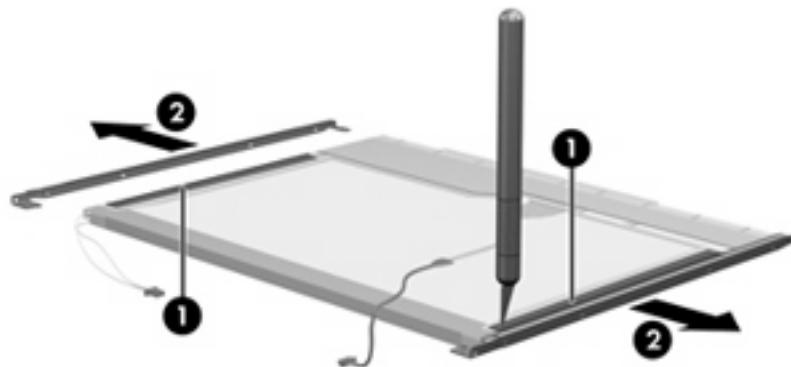

7. Turn the display panel assembly upside down.
8. Remove all screws that secure the display panel frame to the display panel.

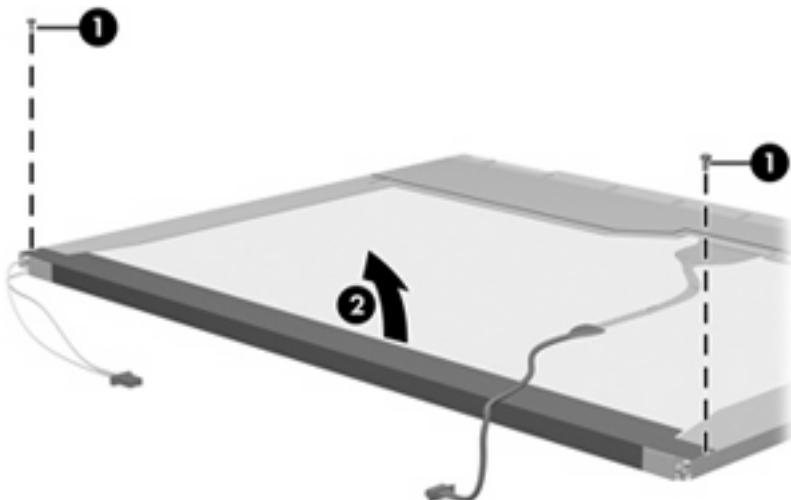

9. Use a sharp-edged tool to cut the tape **(1)** that secures the sides of the display panel to the display panel frame.

10. Remove the display panel frame **(2)** from the display panel.

11. Remove the screws **(1)** that secure the backlight cover to the display panel.

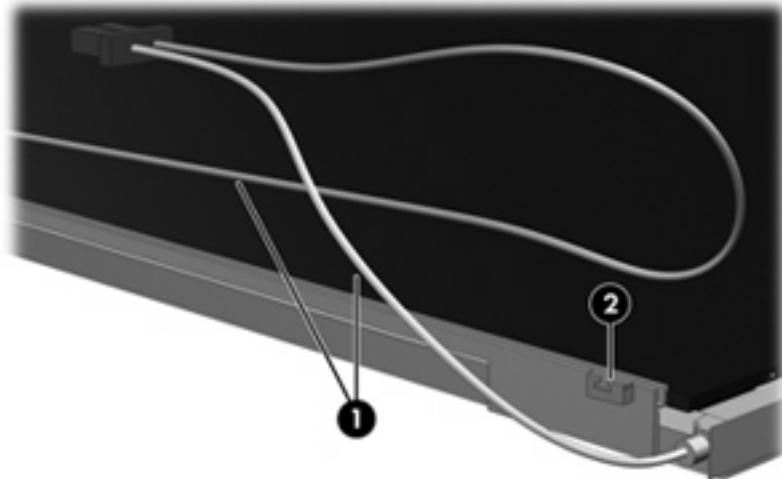

12. Lift the top edge of the backlight cover **(2)** and swing it outward.

13. Remove the backlight cover.

14. Turn the display panel right-side up.

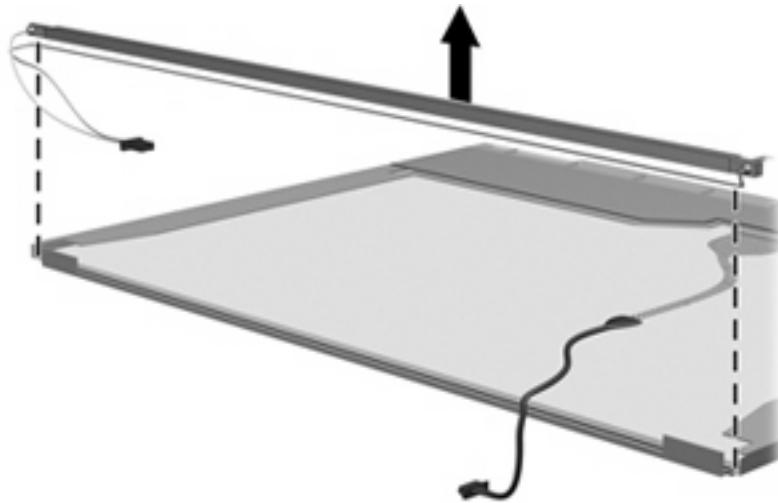

15. Remove the backlight cables **(1)** from the clip **(2)** in the display panel.

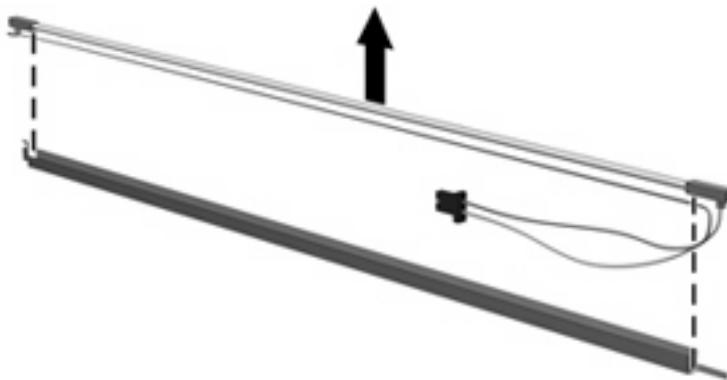

16. Turn the display panel upside down.

⚠️ WARNING! The backlight contains mercury. Exercise caution when removing and handling the backlight to avoid damaging this component and causing exposure to the mercury.

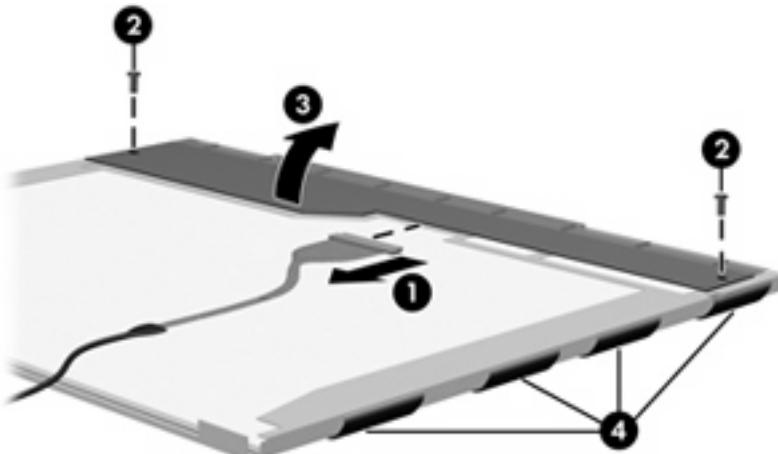

17. Remove the backlight frame from the display panel.

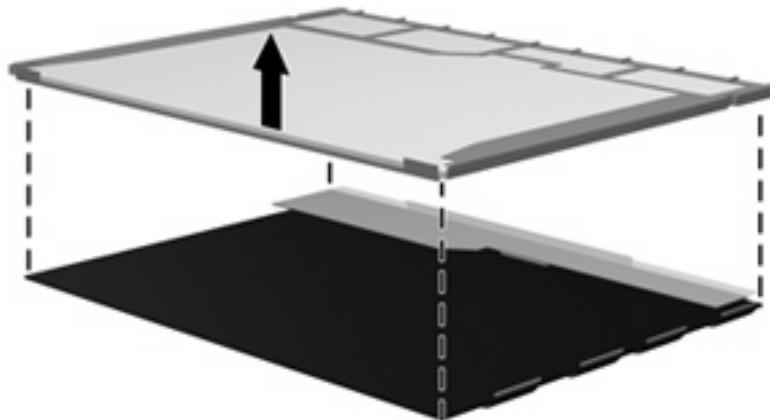

18. Remove the backlight from the backlight frame.

19. Disconnect the display panel cable **(1)** from the LCD panel.
20. Remove the screws **(2)** that secure the LCD panel to the display rear panel.
21. Release the LCD panel **(3)** from the display rear panel.
22. Release the tape **(4)** that secures the LCD panel to the display rear panel.

23. Remove the LCD panel.

24. Recycle the LCD panel and backlight.
