RECICLA

INFORMACIÓN MEDIOAMBIENTAL

La gran mayoría de los materiales que se utilizan para fabricar tanto consumibles como impresoras, una vez agotada su vida útil son altamente contaminantes. Por lo que actualmente la mayoría de los fabricantes promueven prácticas medioambientales a través del reciclaje de sus productos. Ofrecen a sus consumidores una manera fácil y sencilla de reciclar. Tanto tóners como cartuchos son reutilizados, disminuyendo así la utilización de nuevos materiales contaminantes. Para más información sobre como reciclar entra en las páginas web oficiales de las marcas para seguir el procedimiento que cada una de ellas ofrece.
