Fall/Winter 2010

Automne/Hiver 2010

It's genuine.

No worries, no doubts.
Just the best possible quality, every single time.

In research, development and production design, Brother machines and consumables are inseparable.
With the richest colours and the sharpest images, only Brother Genuine consumables
can optimize the performance of your Brother machine,
Other consumables can't.

Relax, It's genuine.

Welcome

Welcome to the Fall/Winter issue of the Ingram Micro Supplies Guide for 2010.

We are excited to launch our 2nd annual Wheel of Supplies Promotion, from Nov. 5 to Dec. 17, featuring the benefits of buying OEM toner. The more original toner you purchase, the more opportunities you have to win original gems and precious metals. Full details about the promotion can be found on the official website at www.wheelofsupplies.com. Make sure to sign up for the promotion and discover the value to you, your business and your customers of purchasing original toner supplies.

As always, if you have questions on any of the supplies products in this guide, call our product specialists who are available to help you with answers and information on all products, services and specials.

Thanks for all your support throughout 2010. I appreciate your business this year. Good Selling!

Regards,

Five Reasons to Sell Original OEM Toner

"No **worries**, No doubts, just the best quality every single time because Brother Supplies are performance tested and intelligently engineered... So you can relax, if it's a genuine Brother Supply."

"Genuine Xerox Supplies are **rigorously** tested by Xerox to produce optimal print quality every time, which will keep your customers happy and help you maintain a reliable revenue stream."

"Lexmark printers and supplies are designed to perform together as one system, **protecting** your investment and delivering excellent print **quality** from first page to last."

"Remanufactured cartridges can't stack up to HP in terms of **reliability**. Remanufacturing is a manual process that can lead to cartridge damage, causing **performance** and print quality problems. Remanufacturers often reuse critical **cartridge** components that may be damaged or near the end of their usable life."

"Print Cartridge technology is the core element which creates quality printouts, so use Samsung original cartridges to keep your Samsung printer running **optimally**. Reliability is the core to every Samsung original supply, which is why you shouldn't risk using anything less in your Samsung printer."

HP Trade-in and Save 2010

Buying a new HP LaserJet printer can more than pay for itself. Today's HP printers can help you print faster and more efficiently for less. Plus, get up to \$1,000** cash back when you purchase a qualified printer and return your old ink or laser desktop printer (any brand, any condition) to HP for free recycling—HP will even pay for the shipping. Even better—trade in a non-HP printer and receive additional cash back up to \$50. (See program terms and conditions for details.) Contact us today for a complete list of qualifying printers and see how much you could be saving with a new HP LaserJet printer.

YOU LOOK DOWN INTO ICY WATERS.

IGNORE YOUR SHAKING LEGS.

DROP INTO PURE DARKNESS.

WONDER HOW FROZEN FINGERS CAN STILL WORK.

RACE AGAINST TIME. AND HYPOTHERMIA.

AND AN 1100-LB PREDATOR.

JUST TO GET ONE SHOT.

FINISH STRONG.

with ORIGINAL HP TONER.

Original HP high-capacity toner cartridges reduce cost per page by up to 35% over standard cartridges.* Or choose HP LaserJet multipacks which, on average, cost 10% less than their standalone counterparts.

The choice is obvious. **#1 BRAND IS THE #1 VALUE.**
