GENERAL CATALOGUE 2020
INNOVATION, COMPETENCE, QUALITY

Together for a better future – VARTA Consumer Batteries

The new year holds many positive developments in store for us. With the return to VARTA AG, we can boost our innovative strength to keep pace with the pulse of the time, while simultaneously strengthening our quality standards on a global level for the long term. As our customer, you benefit from our concentrated expertise and strong product ideas. We continue moving forward, shaping the future of the battery and further progressing along our successful growth course of recent years. To advance the know-how accumulated during our company's more than 130-year history, we will carry on with our investments in research and development this year.

Our promise to the future: state-of-the-art technology and innovative strength go hand in hand at VARTA. They enable us to respond to consumers' new requirements and wishes via targeted product development, thus further expanding our market leadership. As the only German manufacturer of primary batteries, we remain sharply focused on Germany as a production location. Over 1.7 billion cells leave our plant in Dischingen every year, and the trend is rising. This has enabled us to shape the growth of the European market in recent years. With our three production sites in Dischingen, Ellwangen and Nördlingen, our unflagging commitment to Germany as a business location is stronger today than ever. Among other elements, the key factor for the success of VARTA Consumer Batteries – from its foundation to the present day – was, is and always will be committed specialists who work for their company with passion and dedication.

With the VARTA Helps campaign, which we launched last year, we are also shouldering responsibility for social issues. We are currently supporting various aid organizations around the world in their social work. We are proud to work together with each of these people-focused organizations to help create a better future. We would like to expand our commitment this year: under the umbrella of the VARTA Helps campaign, we plan to pay special attention to sustainability issues by promoting the responsible use of resources and the long-term preservation of our environment.

We have always been driven by a spirit of innovation and technical progress. We will continue to invest in the future and remain your reliable companion in every way. But above all, we see ourselves as your partner. We would be happy to continue supporting you in the development of individual PoS solutions. We always stand beside you to answer questions and offer advice. We look forward to an exciting and successful year 2020 with you!

ASSORTMENT OVERVIEW 124

VARTA Helps & Sustainability 238

All new products at a glance 242

LOOKING AHEAD TO THE FUTURE

More than 130 years ago, Adolph Müller laid the foundation stone for our company today, VARTA AG, by founding the company Büsche & Müller in Hagen, which shortly afterwards became Accumulatorenfabrik AG - AFA for short. Milestones such as the first expedition to the North Pole, where AFA batteries brought light to the polar night, or in 1969 the first man on the moon whose camera was equipped with VARTA batteries, were on our path and contributed to VARTA's development into the European market leader in primary batteries.

Our history forms the basis of our bond with Germany as a business location. This affiliation remains as strong and deep today as it was when we first began. That is also why we continue to rely on our home country with our three manufacturing sites in Dischingen, Ellwangen and Nördlingen, thus consciously setting an example for our production “Made in Germany.”

WITH PASSION FOR INNOVATION

Curiosity, courage and inventiveness drive us at VARTA. Alongside our high-quality batteries and rechargeable batteries, our lights and chargers likewise undergo continual reevaluation, evolution and improvement. Over 130 employees in Ellwangen dedicate their efforts to research and development, which enjoy very high priority in our company. Thanks to these creative people, we hold more than 300 patents for innovative ideas in the field of battery technology.

Our cooperating partner for basic electrochemical research is the Graz University of Technology, which ranks among Europe's leading institutions in this discipline. VARTA Microbattery GmbH and the Graz University of Technology cofounded VARTA Micro Innovation GmbH, which specializes in three fields of research: lithium-ion, thermal power and fast performance – so that today and in the future, we can continue to provide you with batteries that embody the highest standards of quality and the most advanced technology.

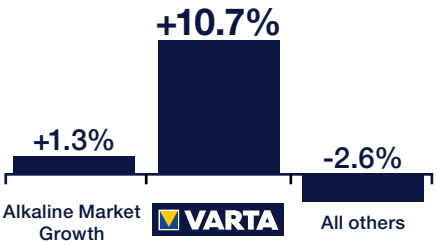
WHY SHOULD A RETAILER LIST VARTA PRIMARY BATTERIES?

Made in Germany!

Reliable quality, flexibility, top tier performance

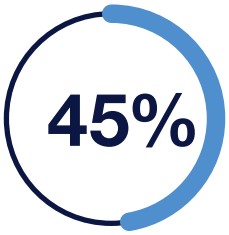


VARTA is the clear category growth leader in EU[1]

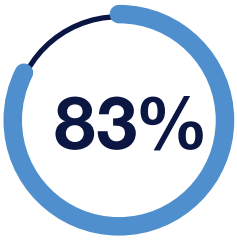
Alkaline consumer market is growing by 1.3% across EU[1]

Over 130 years experience! In service for you!

Right energy concept for every device



Of the most frequently used electronic devices require batteries or battery-powered equipment[2]



Primary Batteries represent 83% of the total battery business[3]

[1]Source: EPBA. Companies include Duracell, Energizer, GP, Panasonic, Renata, Sony, System Sunlight and VARTA. VARTA Growth reflects 2017 - 2018 change.
[2]Statista, UK, n=1.000, Daily use of devices: 5 of the 11 mentioned devices are battery operated by or require battery operated equipment: https://www.statista.com/statistics/386413/time-spent-using-electronic-products-or-devices-in-the-uk/

ULTRA LITHIUM

PROFESSIONAL ENERGY

VARTA's ULTRA Lithium assortment fulfills the highest quality and performance demands in all areas of modern life. The perfect solution for energy-intensive fields of application like digital cameras, walkie talkies and smoke detectors, Lithium batteries also work exceptionally well under extreme conditions. VARTA ULTRA Lithium batteries master extremely low temperatures. High-tech devices are supplied with maximum performance and endurance. Up to 38% reduced weight in comparison to alkaline: perfect for sport and outdoor usage.

1. For a faster orientation: battery size

2. Bold indication of brand expertise*

3. Best in class consumer guidance - easy to understand device icons to identify recommended use at first glance

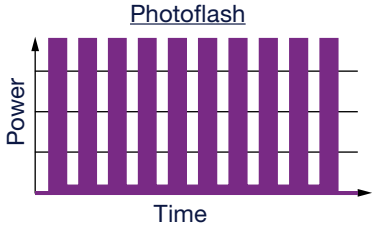
- Smoke Detectors
- Suitable For Extremely Cold Temperatures
- Photoflash
- Walkie Talkies

4. Single Press Out for improved storage

5. Best before date is indicated on each battery

VARTA ULTRA Lithium batteries are available in different sizes so that the maximum performance can be reached for every type of application:

Professional solutions for ultimate needs



Available as:

Type	Voltage (V)	System	Width (mm)	Height (mm)	Depth (mm)	Diameter (mm)	Weight (g)	IEC	Others
6103	1.5	Lithium	–	44.5	–	10.5	7.7	FR10G445	Micro, AAA

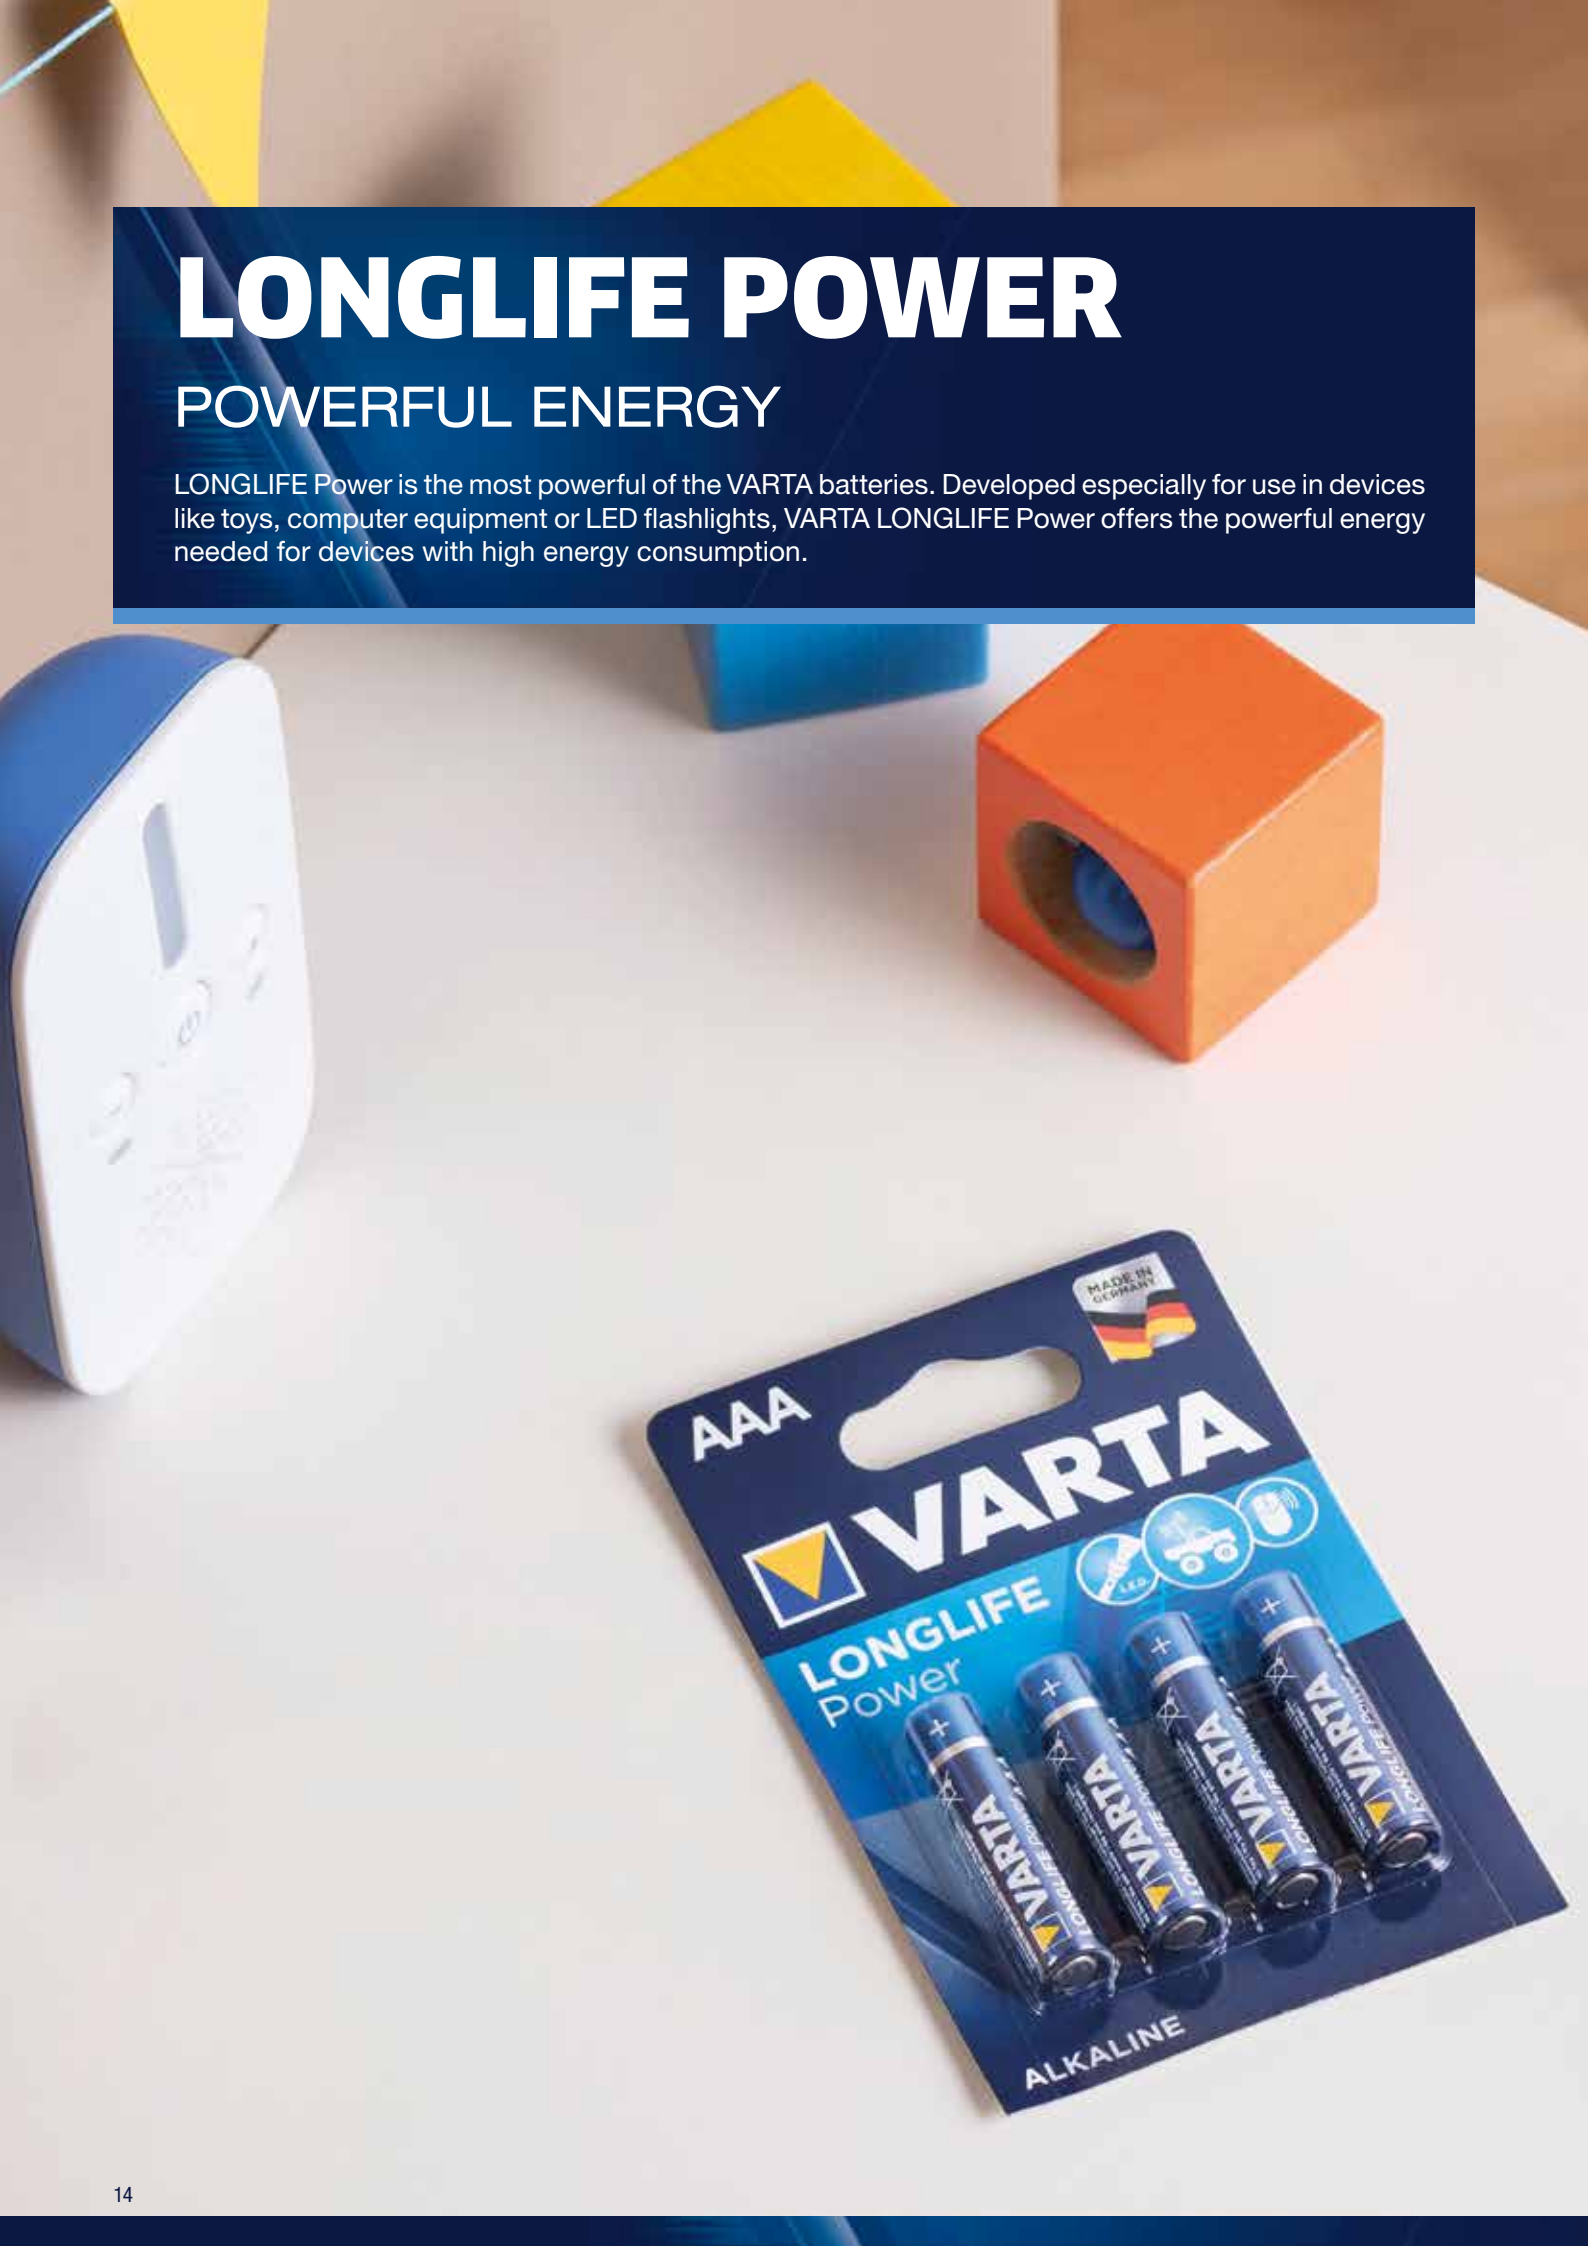
LONGLIFE POWER

POWERFUL ENERGY

LONGLIFE Power is the most powerful of the VARTA batteries. Developed especially for use in devices like toys, computer equipment or LED flashlights, VARTA LONGLIFE Power offers the powerful energy needed for devices with high energy consumption.



1. For a faster orientation: battery size

2. **"MADE IN GERMANY"** as proof of origin and quality*

3. Best in class consumer guidance - easy to understand device icons to identify recommended use at first glance

- LED Flashlights
- Battery-Operated Toys
- Wireless Mouse

4. Single Press Out for improved battery storage

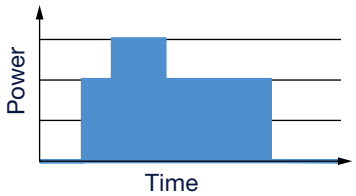
5. Best before date is indicated on each battery

6. For a faster orientation: chemical system

VARTA LONGLIFE Power batteries are available in different sizes so that the maximum performance can be achieved in every application:

Perfect for power hungry devices

Battery-Operated Toy



Available as:

Type	Voltage (V)	System	Width (mm)	Height (mm)	Depth (mm)	Diameter (mm)	Weight (g)	IEC	Others

WHY SHOULD A RETAILER LIST VARTA RECHARGEABLE BATTERIES?

Battery Experts

With more than 130 years of expertise

Rechargeable batteries can be recharged hundreds of times, supporting an environmentally friendly lifestyle

We offer a full assortment of rechargeable batteries in the most demanded sizes and capacities for every device

Our RECHARGE ACCU Recycled has the highest amount of recycled content on the market

We offer the highest charges on the market helping consumers to save money

of consumers are willing to pay more for eco-friendly products[1]

Safe and reliable rechargeable batteries ensured via extensive performance testing in compliance with international IEC standards

[1]GlobalWebIndex; Millenials (22-35) Report Q2 2018

RECHARGE ACCU

ENDLESS

VARTA RECHARGE ACCU Endless - The money-saving product line with the highest cycles on the market in the most demanded capacities. Save money and never run out of power again!

1. For better orientation: battery size and capacity

2. Bold indication of brand expertise*

3. Bold communication of cycles

- Up to 500 charges
- Up to 2100 charges
- Up to 3500 charges

4. Clear color segmentation: Gold for Endless Range

5. „SAVE MONEY“ claim to communicate the key benefit of rechargeable batteries

6. Indicating that all RECHARGE ACCU Endless batteries are ready to use

VARTA offers RECHARGE ACCU Endless cells for every application and longest usage. An economical, environmentally friendly and 'Ready To Use' product range to meet the highest consumer demands.

- Up to 3500 charges[1]
- Pre-charged and with 'Ready To Use' technology for immediate usage
- Very low self-discharge: Up to 60% capacity after 5 years in storage[2]

[1]For AA 1000 mAh based on IEC 61951-2 (7.5.1.3) Ed.3. Performance may vary according to use.
[2]Based on internal VARTA testing. Performance may vary according to use.

Available as:

RECHARGE ACCU

RECYCLED

VARTA RECHARGE ACCU Recycled - The environmentally friendly product line with 11% recycled content in the most demanded capacities.

1. For better orientation: battery size and capacity

2. Bold indication of brand expertise*

3. Bold communication of 11% recycled content

Recycled Materials

4. Clear color segmentation: Cardboard optic for Eco Range

5. Bold „PROTECT NATURE“ claim to support eco-friendly features

6. Indicating that all RECHARGE ACCU Recycled batteries are ready to use

VARTA offers recycled rechargeable cells for every application. The cells are pre-charged for immediate usage. An environmentally friendly rechargeable range to meet consumer demands.

- 11% recycled material included
- Pre-charged and with 'Ready To Use' technology for immediate usage
- Low self-discharge: 70% remaining capacity after 12 months[1]

[1]Based on internal VARTA testing. Performance may vary according to use.

Available as:

- Toys
- L.E.D. Flashlights

4. Clear color segmentation: Silver for Power Range

5. „SAVE MONEY“ claim to communicate the key benefit of rechargeable batteries

6. „PRE-CHARGED“ Supporting the 'Ready To Use' claim

VARTA offers rechargeable cells for every application. All common sizes up to the highest capacities are 'Ready To Use'.

ADVANTAGES OF 'READY TO USE'

- Can be used straight from the pack without requiring charging first
- Very low self-discharge and an extremely long shelf life, up to 75% remaining capacity after 12 months[1]
- Pre-charged and with 'Ready To Use' technology for immediate usage
- Low self-discharge
- Widest assortment with the most demanded capacities

[1]Based on internal VARTA testing. Performance may vary according to use.

CHARGERS

MODERN DESIGN FOR HIGHEST DEMANDS

Our full assortment of chargers ranges from easy chargers with best value for money to high-end chargers with innovative housing materials and latest charging technologies.

1. Rechargeable battery sizes and additional charging features

2. Bold indication of brand expertise*

3. Icon indication the charging time

4. Highlighted safety and charging characteristics

- Individual Charging Channels
- Minus Delta V cut-off
- Temperature control

5. Pre-charged 'Ready To Use' cells included

- 'Ready To Use'

6. Garnishing of rechargeable pre-charged batteries

RELIABLE SAFETY FEATURES

Trust our innovative technology to charge batteries safely

Timer cut-off
A safety timer is triggered after a specified time, regardless of the charging status.

Temperature monitoring
If the accu temperature exceeds a certain value, the device switches off automatically.

Minus Delta V cut-off
Stops the charging process when an accu is fully charged by slightly decreasing the voltage (-Delta V).

Short Circuit Protection
Defective and short circuited cells will not be charged and will not harm the charger.

Detection of incorrect and faulty cells
Detection of faulty, unsuitable or incorrectly inserted battery types.

Protection against reverse polarity
Protection against incorrectly inserted cells.

- Charging time: 15 minutes*
- 3 Modes: quick charge, charge and refresh
- Single slot charging for highest flexibility and best charging results
- Increased and simplified LCD screen for more convenience
- Display indication of V, mA and min
- Improved sensitivity of bad cell detection
- Comprehensive safety features
- Individual design for an exceptional product look and high VARTA quality
- 12V car adapter
- AC adapter
- Global voltage - worldwide use (100-240V)

*based on 2AA 1600mAh

Available in the following versions:

- with 4x AA 2100 mAh 56706

NEW available March 2020

Details
Page 166

LCD SMART CHARGER+

Type 57684

- Charges up to 4 AA, AAA
- 2 Modes: charge and refresh
- Single slot charging for highest flexibility and best charging results
- Increased and simplified LCD screen for more convenience
- Display indication of V, mA and min Improved sensitivity of bad cell detection
- Additional USB out port for charging external devices
- Comprehensive safety features
- Individual design for an exceptional product look and high VARTA quality
- AC adapter
- Global voltage - worldwide use (100-240V)

NEW available March 2020

Available in the following versions:
- with 4x AA 2100 mAh 56706

Details
Page 166

LCD MULTI CHARGER+

Type 57681

- Charges up to 8 AA, AAA
- Single slot charging for highest flexibility and best charging results
- Increased and simplified LCD screen for more convenience
- Improved sensitivity of bad cell detection
- Comprehensive safety features
- Individual design for an exceptional product look and high VARTA quality
- AC adapter
- Global voltage - worldwide use (100-240V)

NEW available March 2020

Available in the following versions:
- without batteries

Details
Page 166

LCD UNIVERSAL CHARGER+

Type 57688

- Charges up to 4 AA, AAA, C, D or 1x 9V
- Additional USB out port for charging external devices
- Single slot charging for highest flexibility and best charging results
- Increased and simplified LCD screen for more convenience
- Improved sensitivity of bad cell detection
- Comprehensive safety features
- Individual design for an exceptional product look and high VARTA quality
- AC adapter
- Global voltage - worldwide use (100-240V)

NEW available March 2020

Available in the following versions:
- without batteries

Details
Page 167

LCD DUAL TECH CHARGER

Type 57676

- Charges Li-Ion and Ni-Mh cells at once
- Sophisticated 4-position single slot charger
- 4 modes for Ni-Mh: charge, discharge, capacity test and refresh
- Comprehensive safety features
- Global voltage - worldwide use (100-240V)
- USB Output 5V/1A to charge mobile devices

Available in the following versions:

- without batteries

Details
Page 167

LCD CHARGER

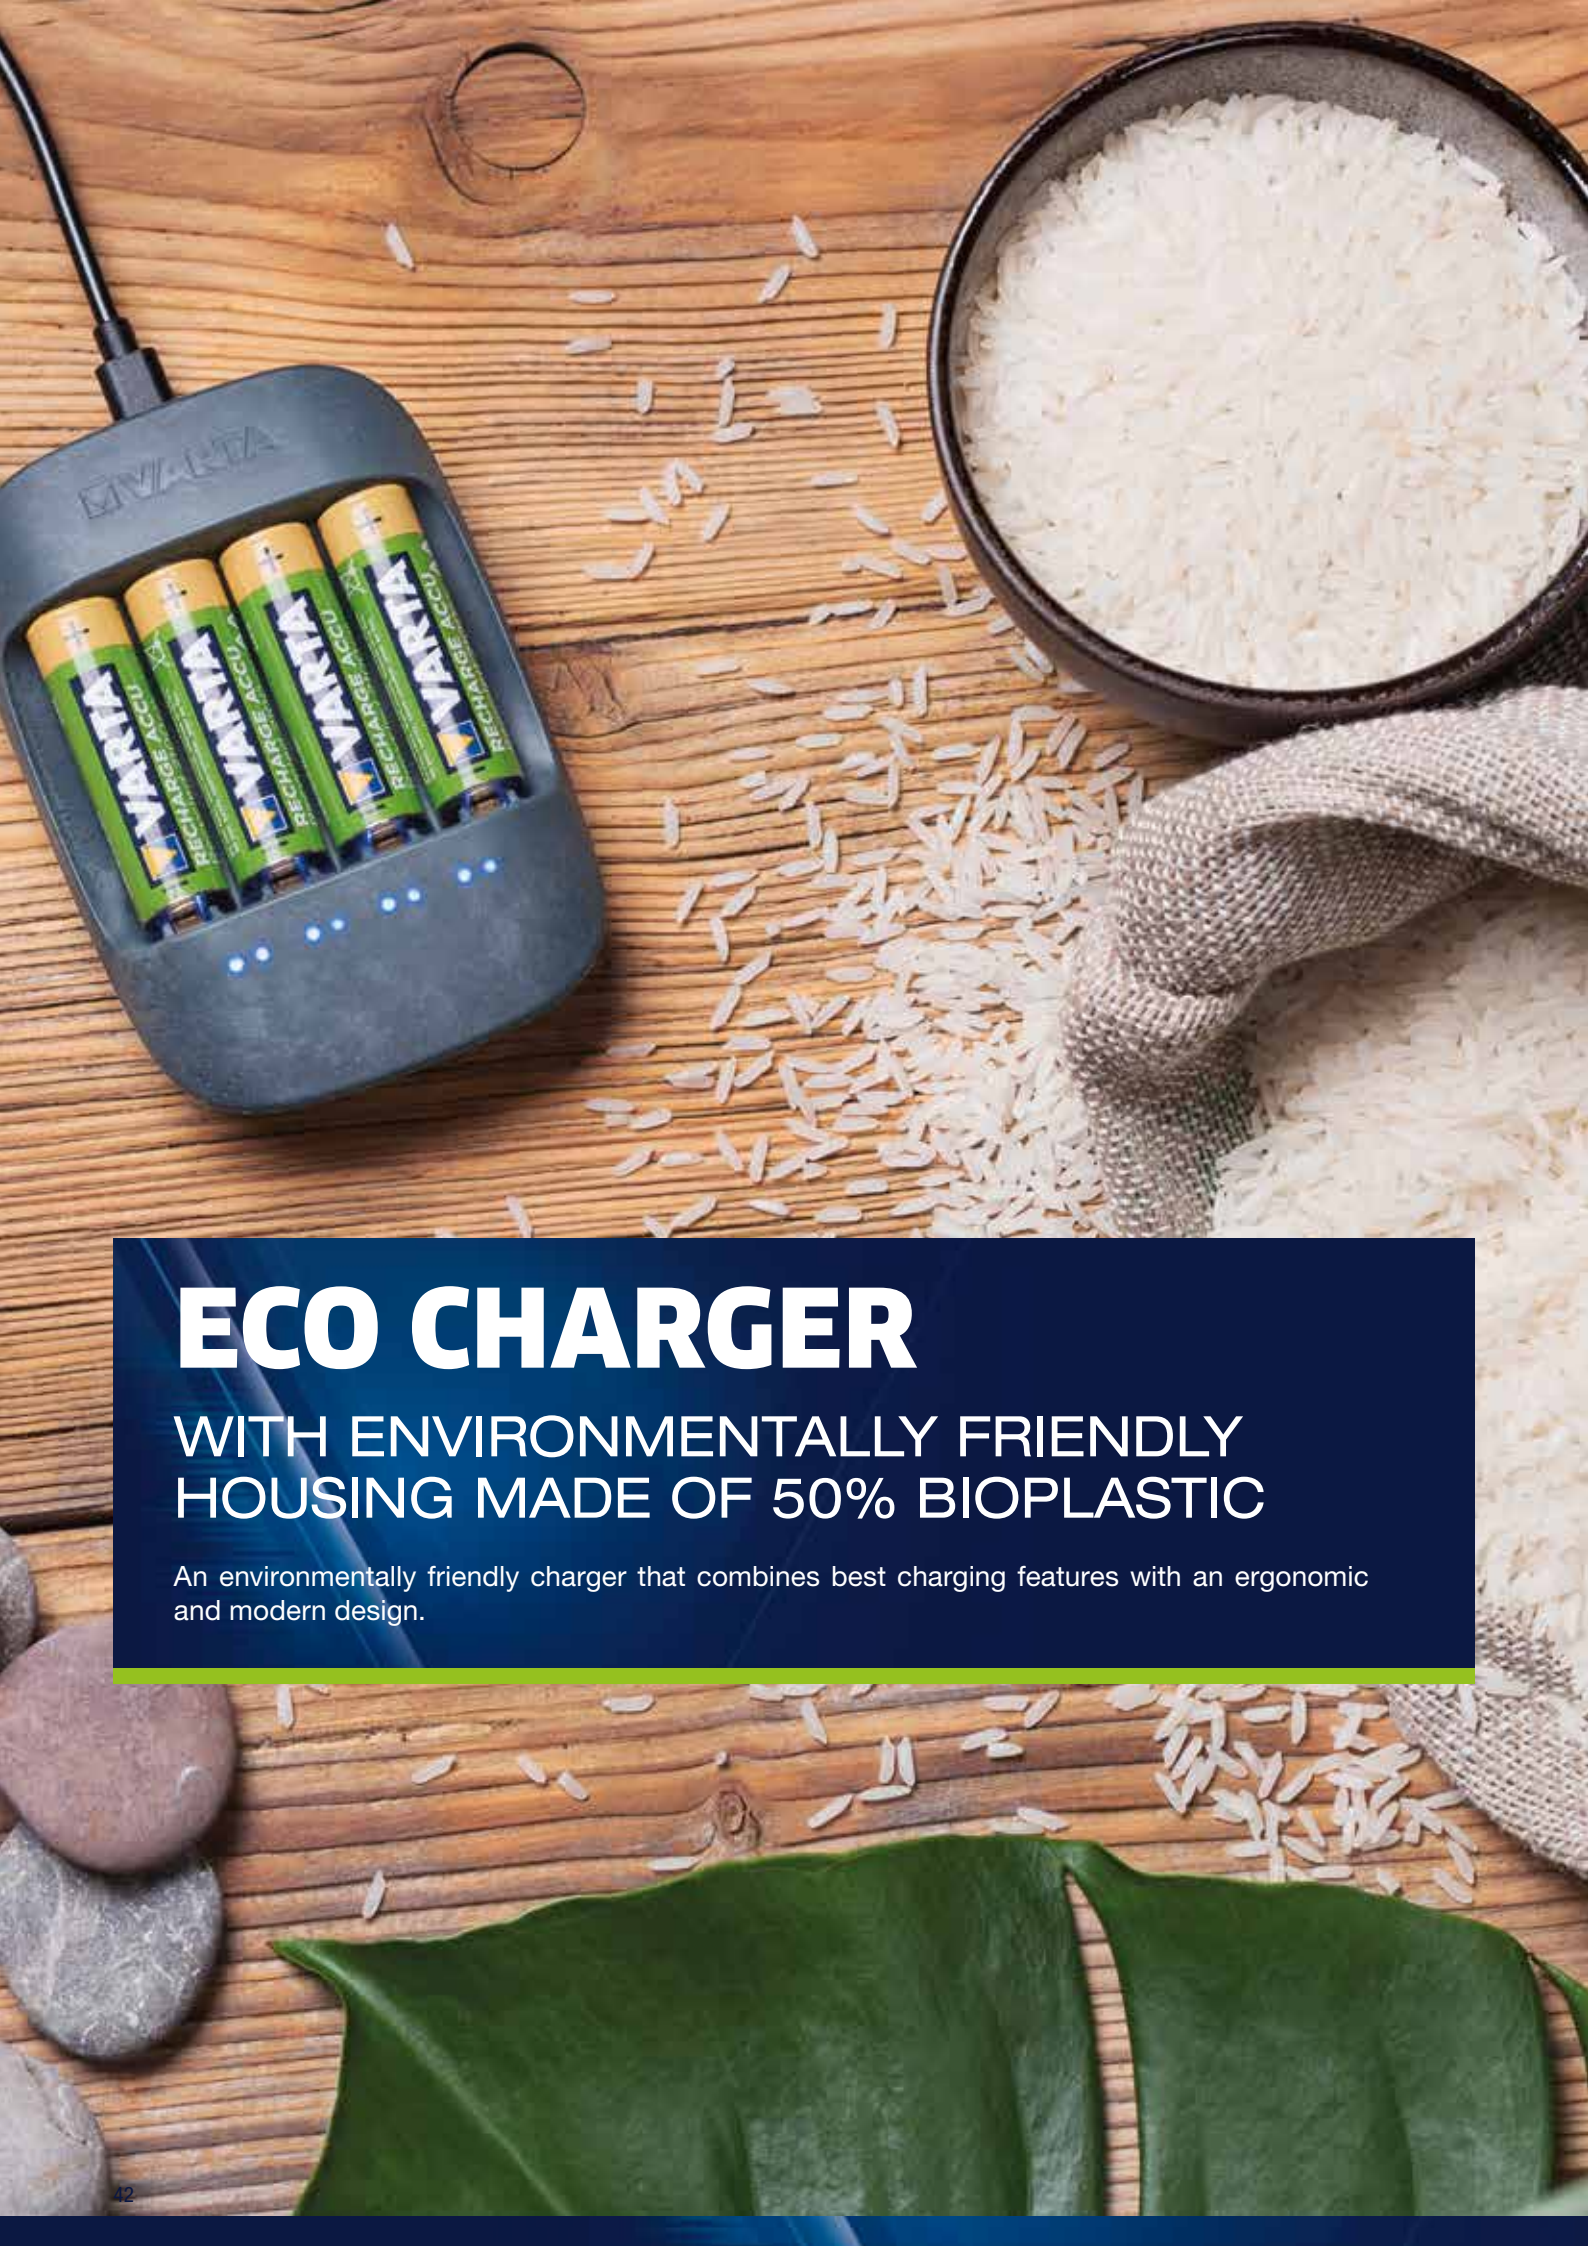
Type 57070

- Charges 2/4 AA or 2/4 AAA batteries
- High-quality blue LCD display
- Comprehensive safety features: Minus Delta V cut-off, safety timer, alkaline detection, temperature control
- Charging level indication
- USB charging (via Laptop, USB cable included)
- Global voltage - worldwide use (100 - 240V)
- Incl. AC and 12V car adapter

Available in the following versions:

- with 4x AA 2600 mAh 5716
- without batteries

Details
Page 167



ECO CHARGER

WITH ENVIRONMENTALLY FRIENDLY HOUSING MADE OF 50% BIOPLASTIC

An environmentally friendly charger that combines best charging features with an ergonomic and modern design.

ECO CHARGER

Type 57680

- Eco-friendly housing made of 50% bioplastics
- Global voltage 100-240V
- Charging indication: Blue LEDs for each slot
- Single slot charging for up to 4 cells
- Charges AAA & AA at once
- EU AC power cable to Micro USB
- Comprehensive safety features

Available in the following versions:
- with 4x 56813 AAA 800mAh
- with 56816 AA 2100mAh
- without batteries

Details
Page 168

Recycling starts with the packaging!

The VARTA RECHARGE ACCU Recycled and the Eco Charger packaging contain an important amount of recycled material:

Recycling material used in the **Cardboard**

Recycling material used in the **PET-foil**

Recycling material used in the **Inner cartons**

DID YOU KNOW?
The packaging of the **RECHARGE ACCU Recycled is made of 88%** recycled material

DID YOU KNOW?
The packaging of the **Eco Charger is made of 84%** recycled material

EASY CHARGERS

OFFERING BEST VALUE FOR MONEY

Reliable chargers for daily use that are easy in handling and thus compact and convenient.

MINI CHARGER
Type 57646

- Easy to use with high value for money
- Highly sophisticated design
- Optimal LED charging visibility
- LEDs in a pleasant blue tone
- Elegant and compact shape
- Charges 2x AA/AAA at the same time
- Convenient removal of batteries

Available in the following versions:
- with 2x AAA 800 mAh 56703
- with 2x AA 2100 mAh 56706
- without batteries

15h* READY-TO-USE

Details Page 169

POCKET CHARGER
Type 57642

- Highly sophisticated design
- Optimal LED charging visibility
- LEDs in a pleasant blue tone
- Safety timer – to avoid overcharging
- Elegant and compact shape
- Charges 2 or 4 AA/AAA at the same time
- Convenient removal of batteries
- Global voltage – worldwide use (100-240V)

Available in the following versions:
- with 4x AA 2100 mAh 56706
- with 4x AA 2600 mAh 5716
- with 4x AA 2100 mAh 56706 + 2x AAA 800 mAh 56703
- without batteries

7h* 100-240V TIMER CUT OFF READY-TO-USE

Details Page 170

PLUG CHARGER
Type 57647

- Highly sophisticated design
- Optimal LED charging visibility
- LEDs in a pleasant blue tone
- Safety timer – to avoid overcharging
- Elegant and compact shape
- Charges 2 or 4 AA/AAA at the same time
- Convenient removal of batteries
- Global voltage – worldwide use (100-240V)

Available in the following versions:
- with 4x AA 2100 mAh 56706

5h* TIMER CUT OFF 100-240V READY-TO-USE

Details Page 171

UNIVERSAL CHARGER
Type 57648

- Compact universal desk charger for all sizes
- Highly sophisticated design
- Optimal LED charging visibility
- LEDs in a pleasant blue tone
- Safety timer – to avoid overcharging
- Elegant and compact shape
- For 2 or 4 AA, AAA, C, D or 1x 9V batteries
- Convenient removal of batteries
- Global voltage – worldwide use (100-240V)

Available in the following versions:
- without batteries

5h* TIMER CUT OFF 100-240V

CR2430

WHY SHOULD A RETAILER LIST VARTA SPECIAL BATTERIES?

Battery Experts

With more than 130 years of expertise

High Potential EU Lithium Button Cell Market with a growth of +12.8% CAGR[1]

Steady sales increase by high demand for Smart Applications[2]

VARTA CR2032 High Performance in pulse discharge[3]

Officially approved! Product performance and packaging safety

VARTA Electronics are UL certified for highest reliability

Keep away from children child save packaging and warnings

[1]EPBA CY 2013 - 2018 Lithium Button cell volume EU
[2]Based on internal market research
[3]up to 70% more energy vs. IEC 60086-2 Ed. 13.0 CR2032 electronic key test MAD. Performance may vary according to use.

ELECTRONICS

HIGH ENERGY FOR BASIC & SMART DEVICES

VARTA offers the widest premium assortment in lithium button cells and alkaline special batteries - designed to provide maximum safety in combination with reliable power for various small electronic devices. Focused on the daily requirements of high and consistent energy demands.

1. For fast orientation: battery size
2. Bold indication of brand expertise*
3. Warning: Keep away from children
4. CHILD SAFETY blister:
   Batteries only accessed by scissors
5. High performance: up to 70% MORE ENERGY**
6. Best before date is indicated on each blister
7. Overall alignment with VARTA design
8. For faster orientation: chemical system

VARTA Electronics supply reliable energy to a wide range of small electronic devices e.g.:

Remote Controls | Smart Home & Security | Electronic Calculators

VARTA Electronics delivers the most comprehensive assortment for Lithium and Alkaline Special Batteries - high quality, maximum safety and reliability for all energy needs.

KEEP AWAY FROM CHILDREN

Remember!
Batteries should be kept out of reach and sight of children to prevent ingestion.

TOP 5 most demanded Lithium Button Cells***:

Battery Size	Type	Voltage (V)	Electrochemical System	Height (mm)	Diameter (mm)	Weight (g)	IEC

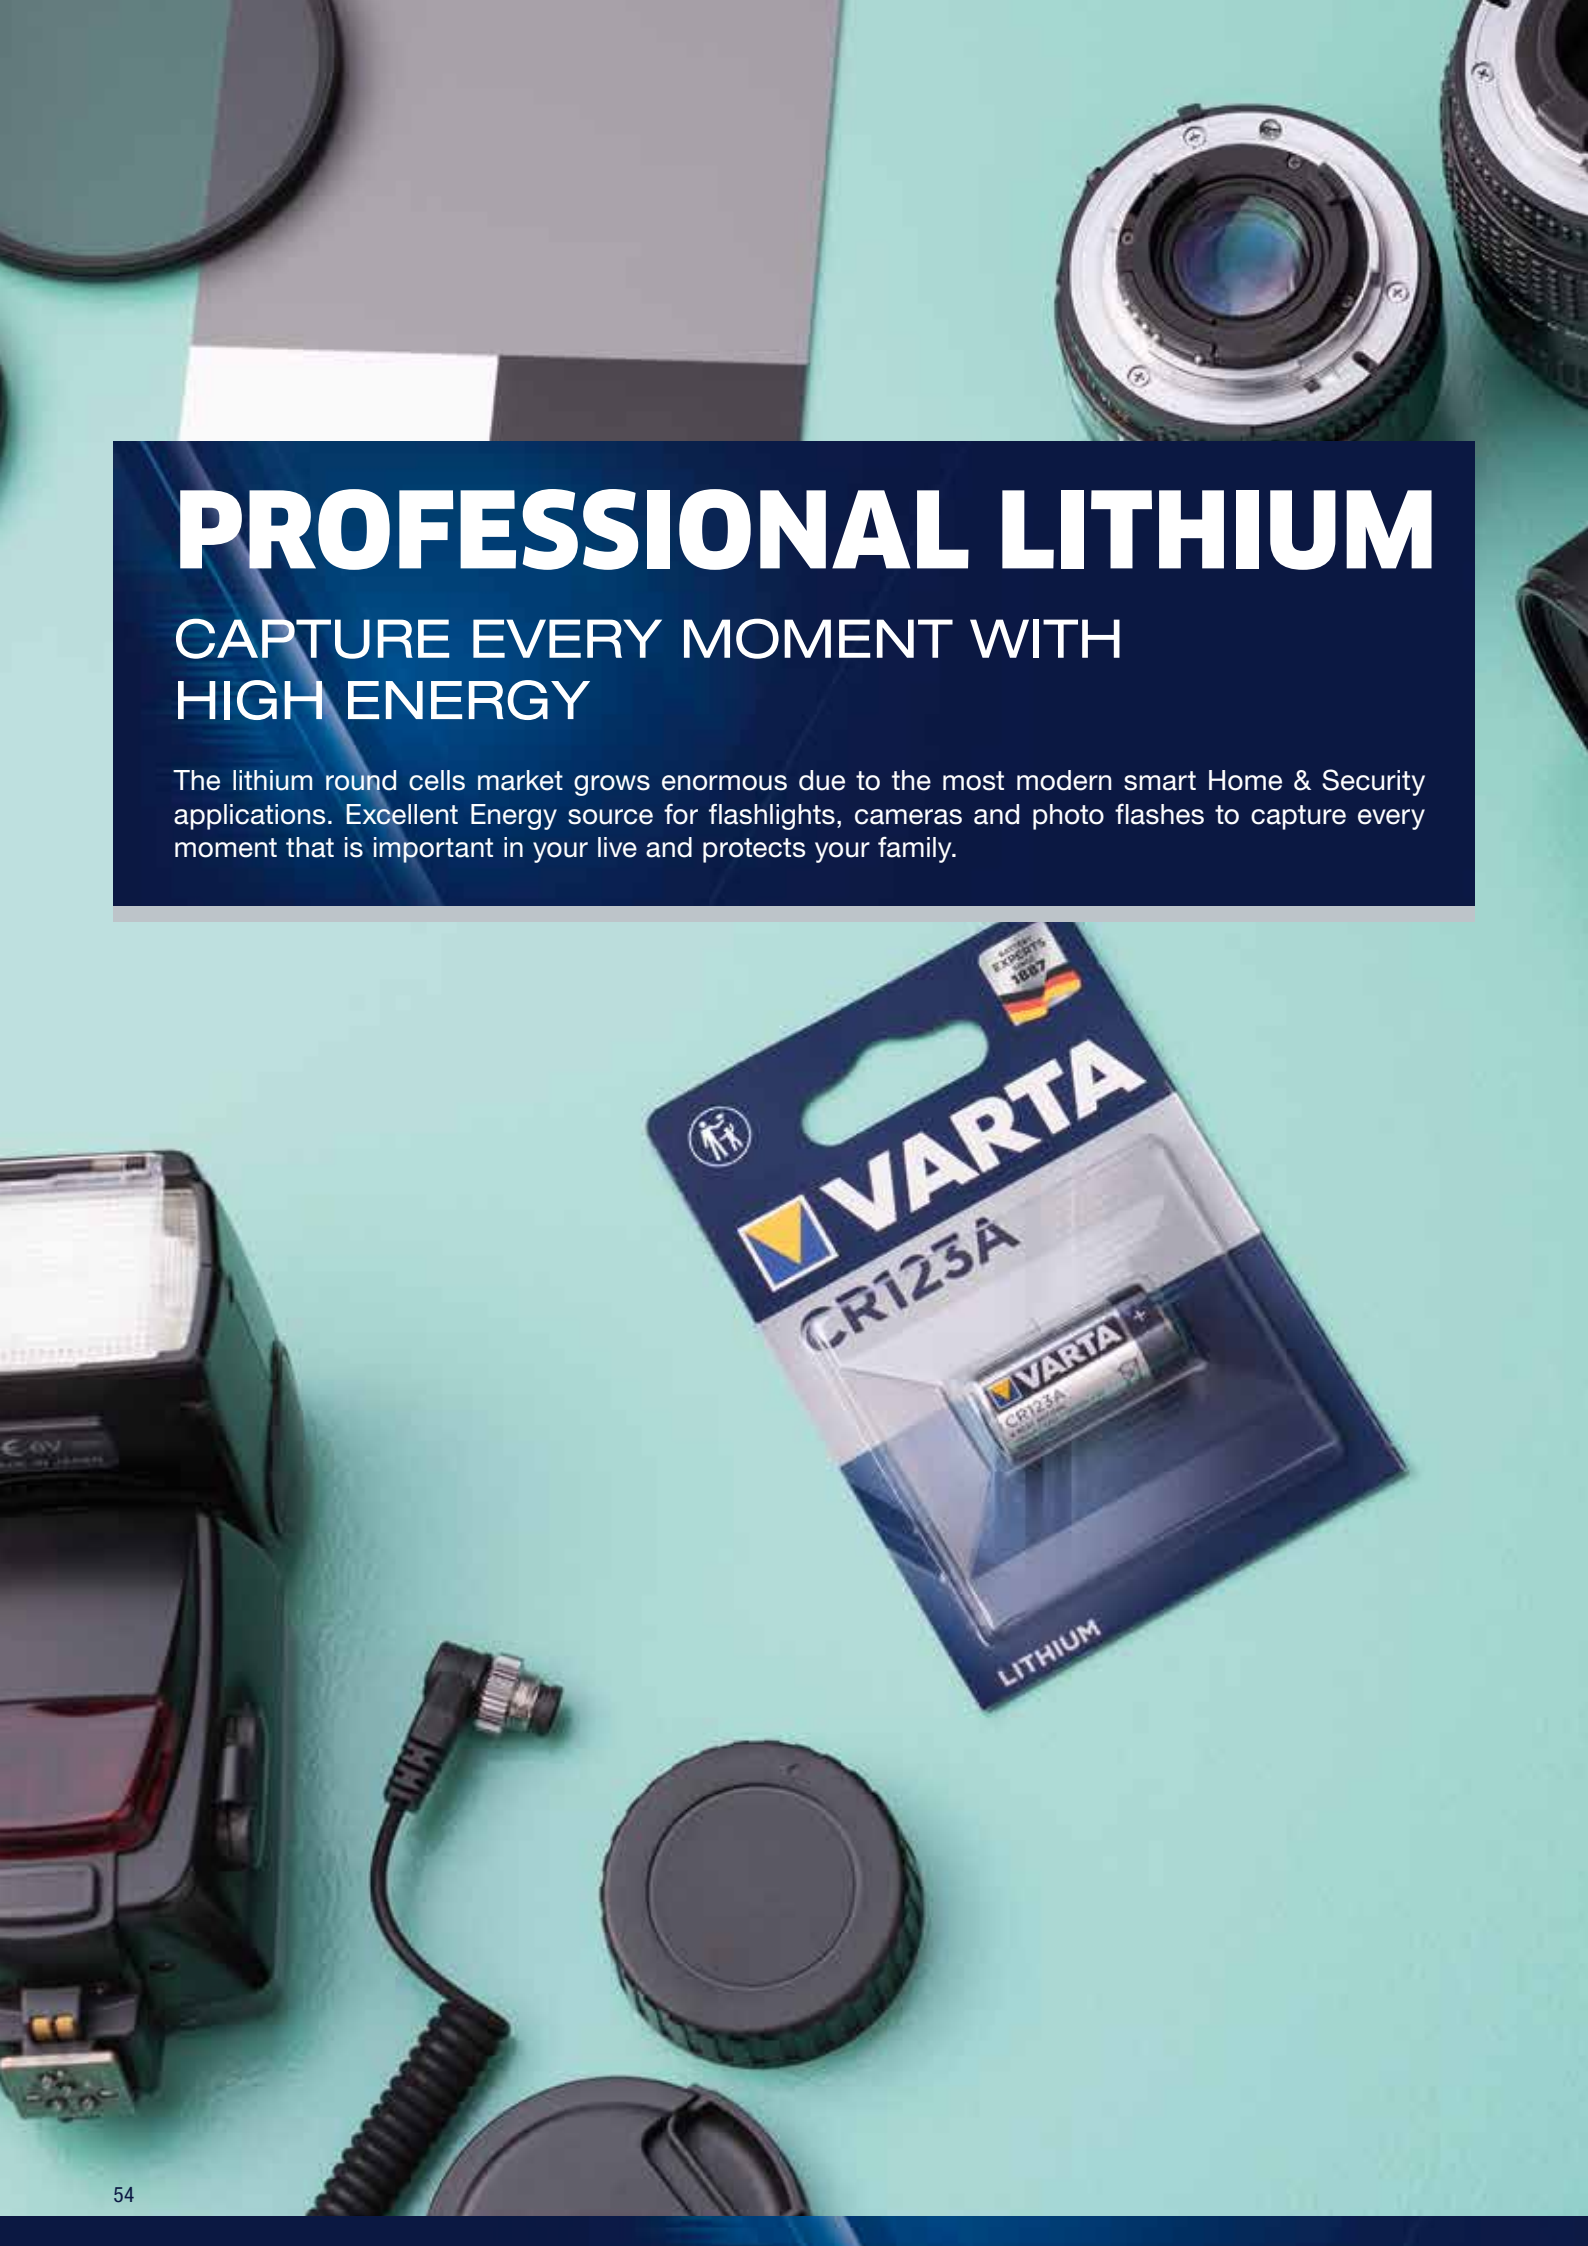
PROFESSIONAL LITHIUM

CAPTURE EVERY MOMENT WITH HIGH ENERGY

The lithium round cells market grows enormous due to the most modern smart Home & Security applications. Excellent Energy source for flashlights, cameras and photo flashes to capture every moment that is important in your live and protects your family.



1. For fast orientation: battery size
2. Bold indication of brand expertise*
3. Warning: Keep away from children
4. Best before date is indicated on the battery label
5. Overall alignment with VARTA design
6. For faster orientation: chemical system

VARTA Electronics supply reliable energy
to a wide range of small electronic devices e.g.:

- Digital Cameras
- Photoflash
- Smart Home & Security
- Smart Health

VARTA Professional Lithium Batteries come with excellent performance for the highest energy demands in cameras, flashes and the most modern Smart Applications. Find the right battery and blister size for multiple devices.

WITHSTANDS EXTREM TEMPERATURES

Batteries can operate in very wide scope of temperatures.

Available as:

Battery Size	Type	Voltage (V)	Electrochemical System	Typical Capacity (mAh)	Width (mm)	Height/Depth (mm)	Depth (mm)	Diameter (mm)	Weight (g)	IEC

WHY SHOULD A RETAILER LIST VARTA LIGHTS?

Battery Experts

With more than 130 years of expertise

VARTA offers reliable lights - for each family member and activity the perfect choice

Reliability and durability are the #1 criteria for flashlight purchase - and VARTA lights are perceived particularly reliable[1]

84%
of consumers expect batteries and flashlights to be placed next to each other[1]

VARTA own design lights you cannot get anywhere else

Safe and reliable products tested with renown testing institutes and claims following internatinal ANSI standards

Reliable lights in proven VARTA Quality - 3 years guaranteed

[1]VARTA Online Consumer Study, EU 2017, 2019

LIGHTS & BULBS

RELIABLE AND BRIGHT

Reliable portable lights with well though out features - for each family member and activity the right light.

1. 3 years VARTA guarantee
2. Bold indication of brand expertise*
3. Range name for easy identification
4. Clear and easy-to-understand icons to indicate the special features of the flashlights
5. Appealing images to support range position
6. Indication on light type code and classification according to value and performance
7. Touch and feel cut out
8. Comparable general performance features measured against ANSI:
   Beam range, lumen, runtime, LED

DIFFERENT LED TYPES

CREE LED — CREE LED

High Performance LED — High Performance LED

COB LED TECHNOLOGY — COB LED

LED — Standard LED

The VARTA Lights Assortment provides many different types of LEDs.
Ranging from standard LEDs and Multi LED up to premium high performance and COB LEDs.

NIGHT CUTTER

PREMIUM RECHARGEABLE FLASHLIGHT

The rechargeable Night Cutter flashlights have an elegant design and extraordinary beam range that virtually "cuts" the night. Features like e.g. the precision focus system, a low battery indicator light, hidden USB port and an emergency power bank function show how special these flashlights are.

NIGHT CUTTER F30R

Type 18901

- Rechargeable premium flashlight
- Including Micro-USB charging cable
- Integrated USB-IN, works with all Micro-USB cables
- Can be used as an emergency power bank due to the integrated USB-Out (2600mAh), e.g. to charge the mobile phone
- With device self discharge protection
- Blue charging indicator light and red low battery indicator at the back of the flashlight
- High-grade aluminium casing
- Water resistant (IPX4) and shock proof (2m drop test)
- 4 light levels (high, medium, low, strobe)
- Precision focus system
- Cree high performance LED
- With fixing clip
- Up to 500 charges
- Premium packaging

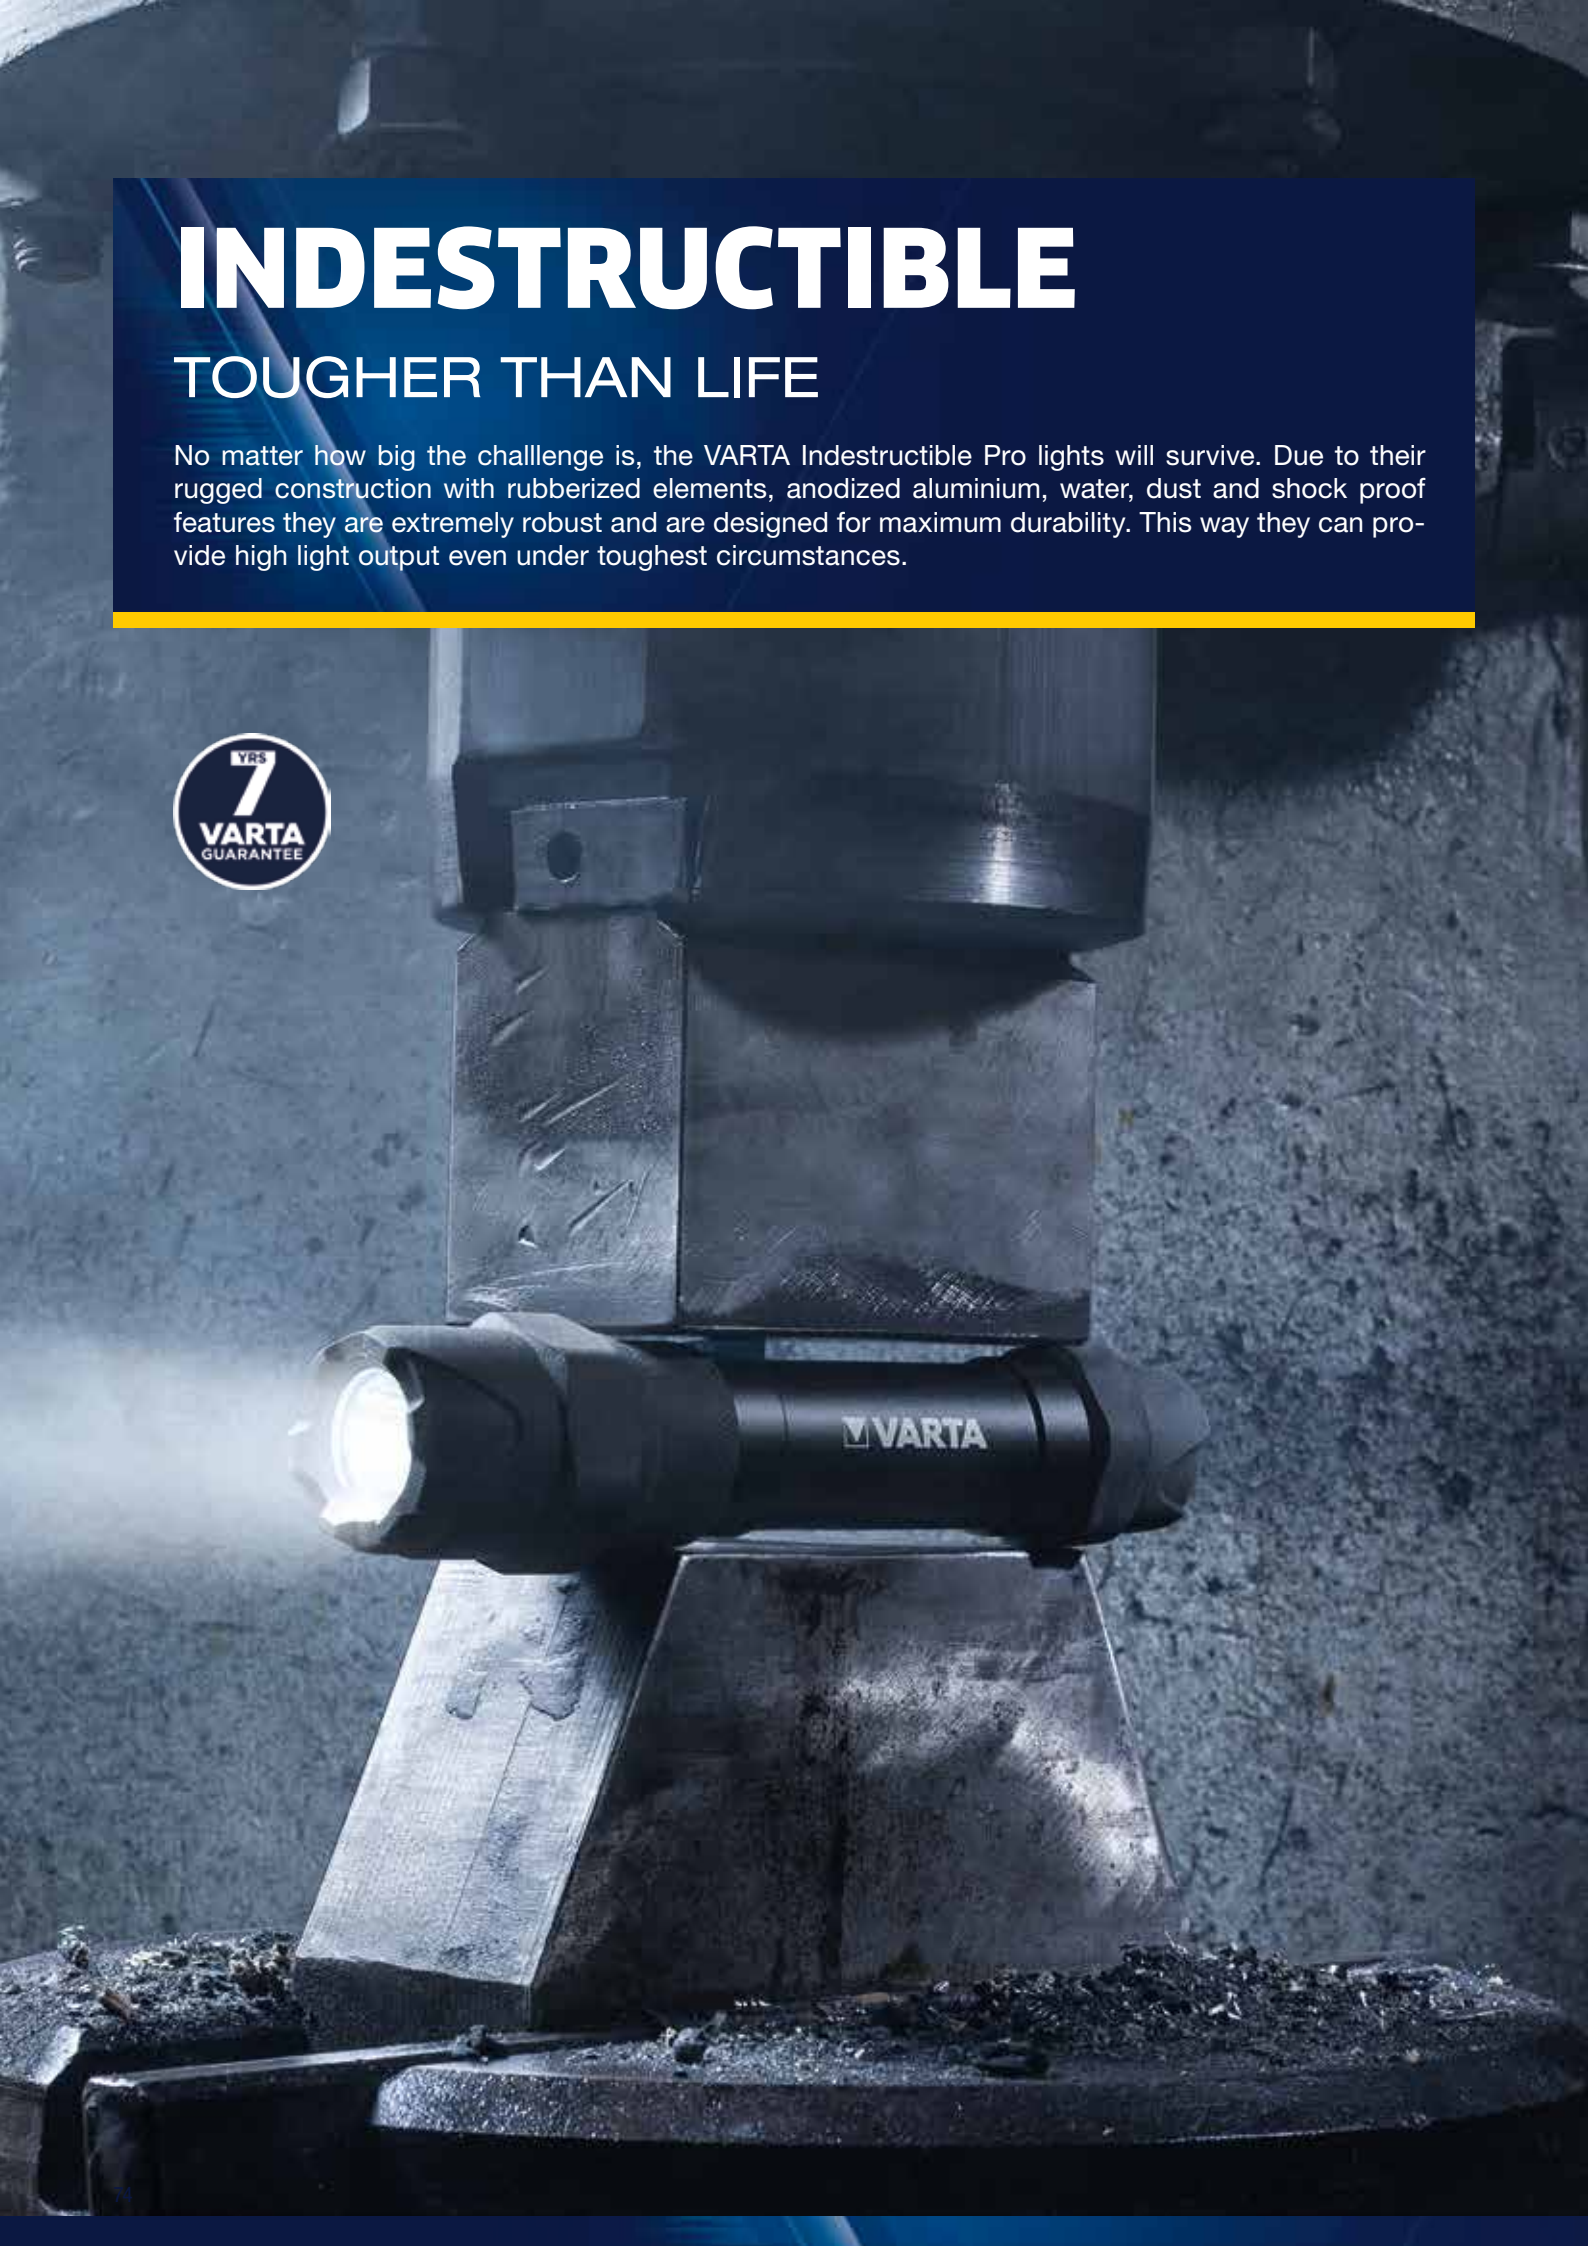
INDESTRUCTIBLE

TOUGHER THAN LIFE

No matter how big the challlenge is, the VARTA Indestructible Pro lights will survive. Due to their rugged construction with rubberized elements, anodized aluminium, water, dust and shock proof features they are extremely robust and are designed for maximum durability. This way they can provide high light output even under toughest circumstances.



INDESTRUCTIBLE F30 PRO

Type 18714

- Extremely robust (9m drop test) flashlight with a shock-absorbing rubberized head and end cap
- Anodized type II aluminium body
- Impact resistant lens and reflector
- Impact resistant rating IK08 (IEC 62262)
- Water and dust proof (IP67)
- Bright high performance LED
- 2 light levels: high and low

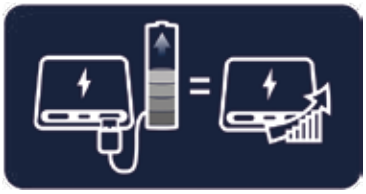
WHY SHOULD A RETAILER LIST VARTA PORTABLE POWER?

Battery Experts

With more than 130 years of expertise

There are over **2,5 billion smartphone users worldwide**[1]

VARTA Power Banks come in different capacity sizes for all consumers' requirements



The **energy demand is rising** constantly and thus the consumption of Power Banks[3]

Comprehensive Safety Concept with Advanced Safety Technology and UN38.3 compliance

The Global Power Bank market is growing and is estimated to be worth around 30 Billion USD by 2022[2]

Up to date technology with latest ports incorporated, e.g. USB Type C PD

[1]Statista, 2019: Number of smartphone users
[2]Allied Market Research, 2018: Power Bank Market
[3]Transparency Market Research, 2019: Power Bank Market

PORTABLE POWER

YOUR MOST COMPETENT ENERGY COMPANION YOU CAN RELY ON IN ANY SITUATION.

VARTA Portable Power keeps smartphones, tablets, MP3-Players, GPS and other key devices powered - anywhere and anytime.

1. Bold category and product claim
2. Product feature information
3. Comparable performance claims across tiers for product differentation
4. Clear labeling of capacity for better differentation
5. Bold indication of brand expertise*
6. Window for better product visibility

Up to 3 years guarantee

DESIGNED WITH ADVANCED SAFETY TECHNOLOGY

To ensure maximum safety to keep you and your mobile devices safe!

ADVANCED SAFETY TECHNOLOGY

Temperature Control
An internal NTC sensor interrupts the charging process at high temperatures.

Overcurrent Protection
The Power Banks' batteries are protected against overcurrent to avoid damage of the cells.

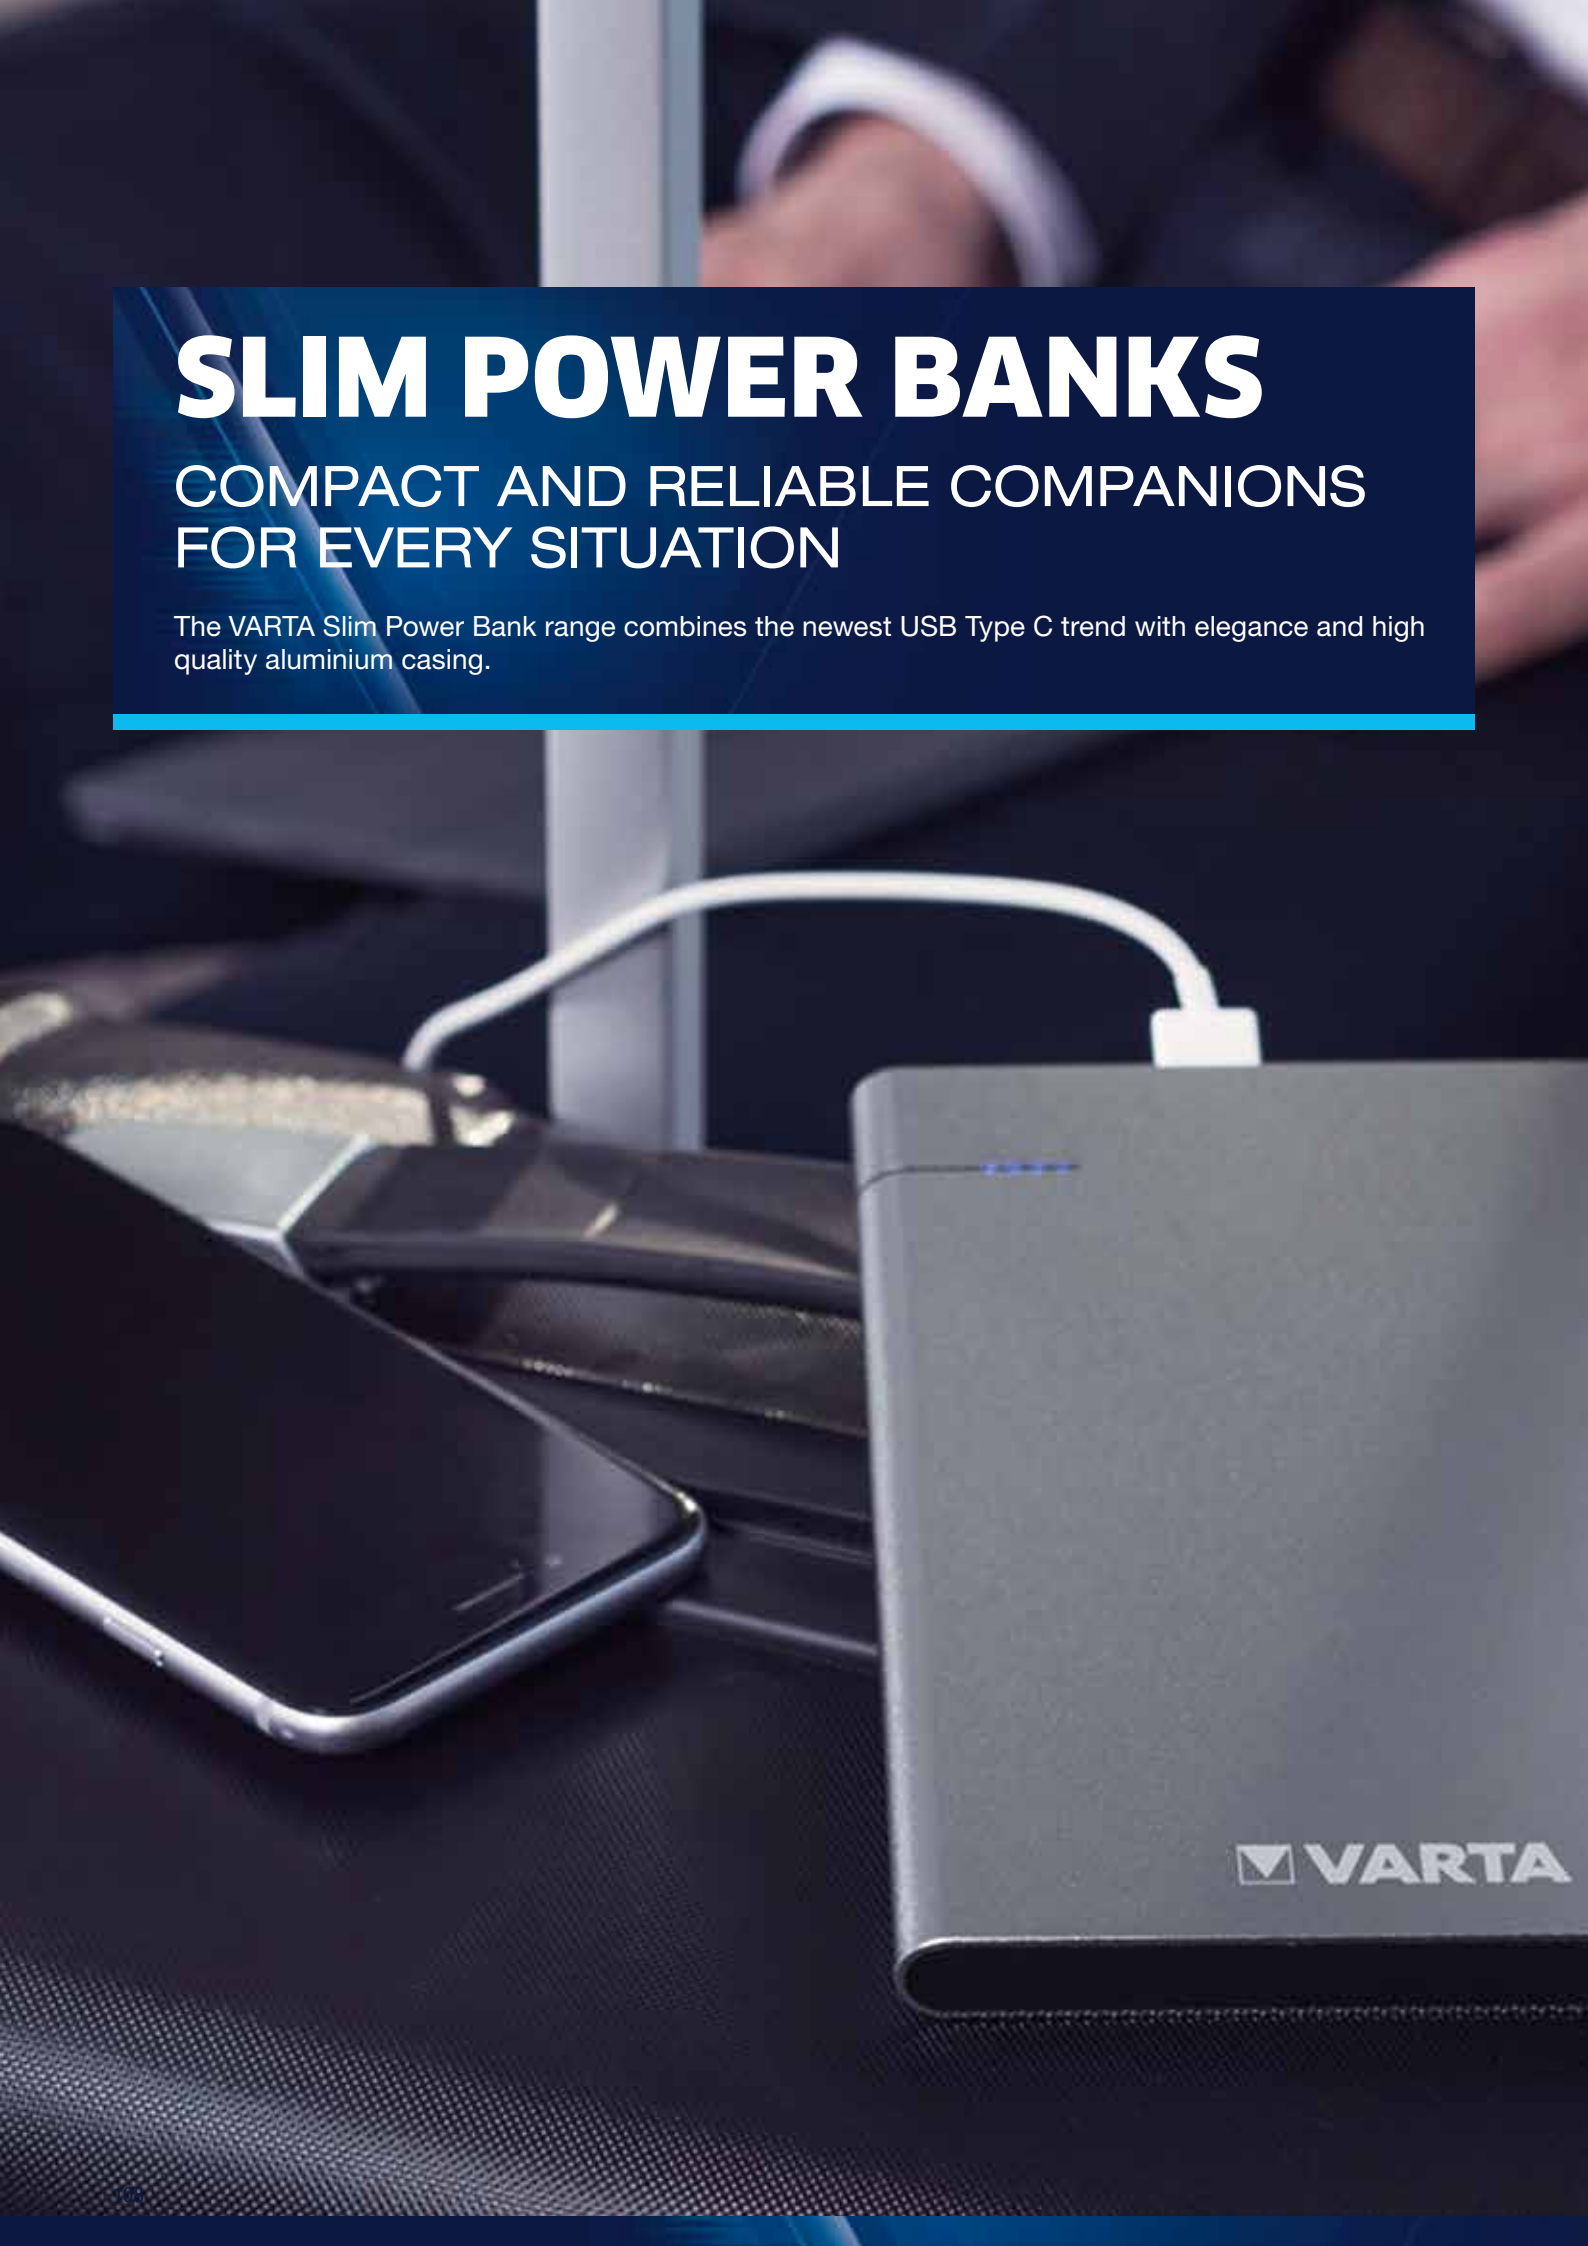
Overcharge Protection
The Power Banks' batteries are protected against overcharging to avoid cell damage or excessive aging.

Input-Overvoltage Protection
An overvoltage detector protects the Power Banks' input against overvoltage from external power sources.

Deep Discharge Protection
The protection against deep-discharging of the batteries avoids cell damage and increases the batteries' longevity.

Short Circuit Protection
The Power Bank is short circuit proof due to a resettable safety fuse.

*The trustworthy brand with more than 130 years of expertise



SLIM POWER BANKS

COMPACT AND RELIABLE COMPANIONS FOR EVERY SITUATION

The VARTA Slim Power Bank range combines the newest USB Type C trend with elegance and high quality aluminium casing.

CHARGING SOLUTION ACCESSORIES

CLEVER ALLROUNDERS FOR EVERY SITUATION!

Enjoy ultimate convenience with our clever and functional VARTA Charging Solutions. The useful features provide flexibility and comfort whether for your family at home or maximum independence on the go.

FAST WIRELESS CHARGER

Type 57912

- Allows fast charging*
- Easy to use: drop and charge
- Attachable stand to enable 3 positioning options: device can be charged horizontally or vertically in an upright position or lying in a flat position
- Unlimited usage of the device while charging it
- Dual coil technology
- Input 5V/min. 2000 mA and Output 5W
- Input 9V/min. 2000mA and Output 10W
- Anti-slip stand and rubber feet
- LED charging indication
- Incl. 75cm speed charging Micro USB cable to power the Wireless Charger

NEW available October 2019

*By using QC 3.0 (or higher) adapter and speed charging cable

Details Page 215

WALL CHARGER

Type 57958

- Compact and powerful charger provides 5.4A total output (27W)
- Features two USB 2.4A ports (shared power) and one USB Type C 3.0A port to charge 3 devices simultaneously
- Technology trend: USB Type C output for speed charging (3.0A)
- Global voltage - worldwide use (100 - 240V)
- Appealing timeless and modern design

Details Page 215

HOME CHARGING STATION

Type 57901

- Convenient charging station using advanced features
- Ability to charge up to 5 smartphones or tablets at the same time
- 5 charging ports for maximum compatibility: 1x USB Type C and 4x USB
- 50W and 10A for an optimized and maximum charging speed
- Various slot sizes allow convenient charging of different devices
- Handy cable organizer to store cables when not in use
- Including 2x 20cm Micro USB charging cables
- Including 1.6m EU AC power cable

Details Page 215

POWER BANK 2600

Type 57959

UP TO 100% PHONE CHARGE PER CHARGE*

- Power booster: up to 100% phone charge[1]
- Compact and lightweight: fits in every pocket
- Meets today's taste: evergreen black & white
- Always ready: 50cm charging Micro USB cable included
- With comfortable hook: for easy carrying
- Blue LED charge & discharge indication
- Trendy items to refresh the shelf offer

Available in 2 different colours:

black white

BATTERY TESTER

Type	LCD Digital Battery Tester
Order-No. / consumer unit	00891 101 401
Garnished with	2x V13GA
Batteries / consumer unit	1
Width (mm) Blister	80
Height (mm) Blister	195
Depth (mm) Blister	25
Weight (g) Blister	68
Minimum pieces / shipment unit	8
Mastercarton	8
EAN/GTIN/ consumer unit	4008496680641

- Practical and user-friendly battery tester
- Checks all important battery sizes of primary, rechargeables and button cells
- Results are readable on LCD display
- Power supply via 2 button cells (LR44)

TOGETHER FOR A BETTER FUTURE – VARTA HELPS

As the European market's leader for household batteries in the consumer segment, our role also involves responsibility. Responsibility for our employees, our customers and our environment. As an internationally active company, it goes without saying that we think and act across national boundaries. Last year we launched VARTA Helps, a cross-border campaign that supports various social-aid organizations around the world.

VARTA works together with these people-focused organizations to assure a better future. We would like to expand our commitment this year and to focus especially on sustainability issues, responsible use of resources, and long-term preservation of our environment. We do align our actions with our obligation towards nature and aim to give back to society in our everyday work.

Helping together

VARTA Consumer Batteries and its European subsidiaries support various charitable organizations with diverse orientations. In line with our brand promise "In service for you," we work together with you to ensure a better future for families. Because only those who take action can make real changes happen. Whether it is about education, psychological and medical support or promoting athletics, and whether in developing countries or regionally anchored, "VARTA Helps" provides funds to guarantee support and help make children's dreams come true. Beyond this, we also hope our activities will attract additional attention to each of our partner organizations so even more people can make active contributions and join together to help others.

One step further

We are continuing to expand our commitment this year. And we are further strengthening our dedication to nature and the environment. Together with one of our partner organizations, we want to set an example against environmental pollution by supporting World Oceans Day on June 8th. “The Ocean Project” organization initiated this special day in 2002 and has organized it annually ever since.

Last year, 140 countries around the world participated in over 2,000 events ranging from beach cleanups to benefit concerts and environmental conferences. In addition, we would like to support various nature- and animal-protection organizations in their work on a national and international level. For a more sustainable future and a more conscious approach to our planet.

Making a difference together

As a leading battery manufacturer with products “made in Germany,” it is our responsibility to create a sustainable environment and to protect the weakest members of our society. It is our goal to create a world in which our children can live and grow up carefree – a world which cherishes nature’s diversity and which protects all living beings. Together for a better future – In service for you.

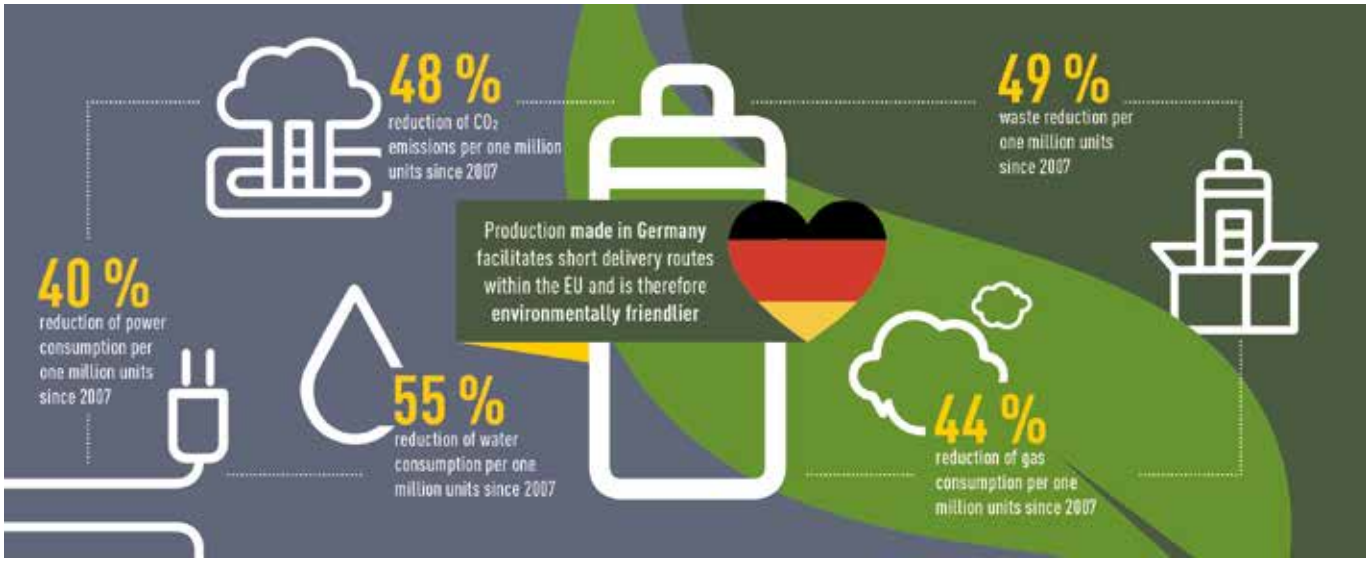
RESPONSIBILITY FOR PEOPLE AND THE ENVIRONMENT

At VARTA Consumer Batteries, sustainable social, ecological and economic action has always been inseparably linked to our 130-year corporate culture. Only in this way could we become who we are today: market leader in household batteries, producing approximately 1.7 billion alkaline batteries each year.

As a market leader and supplier of innovative, high-quality products, we are keenly aware of our responsibility to people and the environment. With our commitment to Germany as a production location and our manufacturing plant in Dischingen, we focus on environmentally friendly and resource-saving production, as well as on the quality and safety of all our products.



Figures for the production site in Dischingen

Responsible production

We are always working to further develop our products. Enhancing the performance of our batteries not only improves user experience and boosts customer satisfaction, but also conserves resources. We have already achieved significant reductions in the use of resources in the manufacturing of our alkaline batteries. We have reduced our consumption of gas, electricity and water per produced battery by approximately one half since 2007.

Thanks to ongoing optimization of all production processes, we have halved the amount of waste produced per battery – and 92% of the remaining waste is recycled. Our VARTA Alkaline batteries themselves are recyclable because they contain neither mercury nor cadmium nor lead. They can be reused as components in steel or road asphalt. We also offer our battery packaging made from at least 80% recycled material.

PLUS X AWARD
2018 achieved for:
High Quality
Ecology

Imaginative products made of innovative and recycled materials: Eco Charger made of bioplastic and RECHARGE ACCU Recycled

Environmental Awareness

To raise awareness about the importance of environmental protection, we inform and support our employees and our suppliers in all relevant topics. Compliance with the VARTA guidelines applies not only to our production onsite, but also to our contractual partners around the globe. With our sustainability program, we are constantly working to integrate environmental aspects into processes, production and products.

Other focal points are social commitment and the expansion of our sustainability management system. As an internationally active company, we want to continue to fulfill our responsibility for people and the environment and to serve as a shining example for future generations.
