New From Elo

Elo X-Series All-in-One Touchcomputer

- Configurable performance designed for years of reliable service
- Modern style that works as good as it looks
- Embrace new forms of payment
- Engage shoppers with customer-facing displays
- 3 year warranty

Elo E-Series All-in-One Touchcomputer

- Award-winning industrial design
- Compact, ruggedized touchcomputer
- Customer-installable peripherals
- Intel Celeron Dual-Core

Why work with a leader?

Elo Touch Solutions, a pioneer in touchscreen technology, manufactures a complete line of touch solutions that simplify the interface between people and computers. Our solutions are designed for the demanding requirements of diverse markets and applications across the globe.

Leader in innovation and quality

As an inventor of touchscreen technology more than 40 years ago, we have been a pioneer ever since. Today, all our products are designed for touch and come in a wide variety of configurations and forms. Elo Touch Solutions products are state-of-the-art, with high-quality displays, stable, drift-free operation, consistent reliability and durability. And we pay attention to the tiniest details, so our customers consistently receive the best in engineering too.

Leader in touchscreen technology

Elo Touch Solutions is a leading global supplier of touch-enabled technology, products and industry solutions. The Elo portfolio encompasses the broadest selection of OEM touchscreen components, touchmonitors, and all-in-one touchcomputers for the demanding requirements of diverse markets, including gaming machines, hospitality systems, industrial automation, interactive kiosks, healthcare, office equipment, point of sale terminals, retail displays, and transportation applications.

Leader in service and support

Doing business with us is easy. Our sales and service teams, as well as our distribution partners, are organized to be fast, competent and close to you. Our teams and our partners' teams take care that there is a technical support center or an office nearby, with people who speak your language. And last, but not least, our customization department is dedicated to developing tailor-made solutions at your request.

- 40 years experience in the touchscreen industry
- Broadest offering of touch technologies for virtually any application
- Consistently reliable, accurate, and durable products
- Stable, drift-free operation; scratch-resistant
- Recognized durability and performance

- Wide variety of configurations and form factors for design flexibility
- First-class service and support with worldwide sales people, sales partners, technical support and warehouses
- Custom solutions for special requirements
- Worldwide agency approvals

An overview of our touch solutions

Components
- Touchscreens, touchscreen controllers and drivers
- Wide range of sizes from small to large
- Touchscreen technologies include:
  Acoustic Pulse Recognition, 5-Wire Resistive, Surface Acoustic Wave, Projected Capacitive, Capacitive, Infrared and technologies for handheld and mobile applications

Tablet
- 10" PCAP touchscreen
- Rugged and connected
- Windows / Intel architecture
- Integrated MSR, barcode reader, smart card reader
- Docking station

Desktop touchmonitors
- Wide range of sizes from 7" to 24"
- Entry-level, multi-function and healthcare models
- Standard and wide-screen formats
- Models with seamless zero-bezel design (uninterrupted surface area)
- Base can be reversed or removed for wall-mount
- Multifunction units with optional peripherals
- Choice of touchscreen technologies, single touch & multi-touch

Open-frame and wall-mount touchmonitors
- Wide range of sizes from 12" to 42"
- Multiple mounting options include rear-mount, VESA mount, panel-mount, front-mount and rack-mount
- Standard and wide-screen formats
- Integrated precision mini-bezel with watertight 0.5mm seal
- Compact and easy to integrate
- Choice of touchscreen technologies, single touch & multi-touch

All-in-One touchcomputers
- 15", 17", 19" and 22"; standard and wide-screen formats
- Space-saving models with computing functionality integrated in the footprint of a standard LCD monitor and models designed for POS and healthcare applications
- Models with seamless zero-bezel design (uninterrupted surface area)
- Field-installable peripherals such as magnetic stripe reader, customer display, finger print reader and barcode scanner
- Choice of touchscreen technologies, single touch & multi-touch

Interactive Digital Signage displays
- 32", 42", 55" and 70"
- Optional field-installable computer modules in various configurations
- Wall-mount, optional stand for desktop use
- Landscape or portrait orientation
- Pure-glass touchscreens for superior image quality
- Choice of touchscreen technologies, single touch & multi-touch

Turn opportunities into reality with our custom solutions

Standard touch solutions do not always address your specific needs. That's why Elo Touch Solutions has the capability to develop specialized touch solutions.

With more than 40 years of experience and millions of touch solutions installed across the globe we can develop exactly what you're looking for.
All it takes is talking to us!

Working from your specifications, we can quickly develop unique products that integrate seamlessly into your system and environment. Our staff oversees all the details from prototyping through production.

With an in-house mechanical design and prototyping staff we design and build "proof-of-concept" models and even short-run production parts. And our in-house compliance engineering staff is knowledgeable in all agency issues.

## Some examples of our customization options:

- Different screen sizes and configurations
- Custom finishes and colors
- Private labeling
- Custom enclosures
- Sealing and shielding

- Special cabling
- Global agency certifications: UL, CSA, cUL, FCC, CE, CISPR, CTICK, VDE, and TÜV
- … or any other customization you need

A touchscreen technology for every application

Elo Touch Solutions has the widest portfolio of touchscreen technologies, each optimized for different operating characteristics and environments to suit your application requirements.

Technology

Acoustic Pulse Recognition (APR)

AccuTouch Five-wire resistive

CarrollTouch Infrared

IntelliTouch Surface acoustic wave

SecureTouch Anti-vandal surface acoustic wave

Benefits

- Optics and durability of pure glass
- Works with finger, glove, pen, credit card
- Resistant to water, dust, grease
- No wear-out mechanism
- Works even with scratches
- Zero-bezel design
- Small and large sizes

- Stable, drift-free operation
- Broad input flexibility
- Contamination resistance
- Accuracy in high-use applications
- Long product life
- Meets NEMA 4/4x/12 and IP 65 standards

- Low profile, high resolution
- No parallax
- High durability, vandal resistance, and safety
- Sealable from contaminants
- Operates in extreme environments

- Pure glass construction delivers the ultimate in image quality
- Stable, drift-free operation
- Continues to work even if scratched
- Sensitive touch response

- Tempered, heat or chemically strengthened glass
- High impact resistance (about 2.5 times stronger than IntelliTouch)
- Meets UL-60950 ball drop test
- Privacy filter option

Applications

- Restaurant and hospitality automation
- Point-of-Sale (POS) terminals
- Pharmacy automation
- Industrial automation
- Office automation
- Interactive digital signage
- Portable devices

- Point-of-Sale (POS) terminals
- Voting machines
- Industrial automation
- Medical equipment
- Office automation
- Retail automation
- Pharmacy automation

- Food processing
- Industrial automation
- Medical equipment
- In-vehicle and transportation
- Point-of-Sale (POS) terminals

- Kiosks
- Ticketing machines
- Gaming machines
- Light industrial
- Office automation
- Interactive digital signage

- ATMs
- Ticketing machines
- Kiosks

A touchscreen technology for every application

Technology

Surface capacitive

IntelliTouch Pro
projected capacitive
(PCAP)

Optical touch

Benefits

- Elo proprietary narrow Z-border for enhanced linearity
- Fast, sensitive touch response with excellent dragging performance
- Compatible with industry standard protocols including Elo SmartSet protocol

- Dual-touch
- Available in zero-bezel fully flat glass front surface
- No known wear-out mechanism
- Fast, accurate performance
- Works with gloves
- Easy care and cleaning, dust and liquid resistance

- Multi-touch response: up to 4 touches
- Superb transparency and color fidelity
- No wearing
- Works with any input device
- High resolution and accuracy

Applications

- Point-of-Sale (POS) terminals
- Gaming/Amusement
- Kiosks

- Retail & hospitality automation
- Point-of-Information (POI)
- Ticketing machines
- Office automation
- Kiosks

- Interactive digital signage
- Kiosks
- Self-service
- Education, museums
- Gaming machines

New From Elo

The Elo IntelliTouch® Curve Touchscreen Solution

Delivers full HD resolution and clear glass optical clarity using professional-grade components built for continuous use in public environments.

Nothing Like It!

- Pure-glass construction for excellent image clarity, resolution, and light transmission
- Sleek, modern design supporting touchscreens that curve towards the user or wrap around columns
- Single or two-touch interface
- Available in 32" and 42" screen sizes
- Compatible with Microsoft Windows 8.1 and certified for Microsoft Windows 7
- Patented IntelliTouch surface acoustic wave (SAW) touch technology
