PREVENT YELLOW FEVER

by using

MURRAY'S FLUID MAGNESIA The standard preventive against the perils of a

tropical climate, counteracting the effects of excessive heat and normalising the functions of the stomach, intestines, liver, and kidneys. Cures head-aches, acidity of the stomach, biliousness, gout and rheumatism in its less acute forms. Mixed with their milk, it prevents bowel-troubles with children. It is also a valuable relief for women enceinte. Pleasant and refreshing, it can be taken freely as a beverage, and s he only alkaline draught that forms no dangerous deposits in the stomach, intestines and bladder.

For this important contribution to medical science and practice, Her Britannic Majesty conferred the honor of knighthood upon its inventor, Sir James Murray, M. D. His signature, written with green ink, is found upon the label of every genuine bottle.

Price, in all pharmacies,

Rs. 18500 per bottle.

RIVER PLATE ITEMS.

- According to Montevideo telegrams, a blanco revolution is expected in that devoted country.

- It is reported that the Argentine agents in Europe have signally failed to raise a new loan, the guarantees being considered insufficient.

- It is stated that President Cuestas has called out four battalions of the Uruguayan national guard, placing them under commanders of his own choice.

- A Buenos Aires telegram of the 9th says the Argentine budget presents a deficit of eleven millions. It is a good time to purchase a £ 900,000 ironclad, surely!

-The Argentine budget for 1898, as presented by the committee, provides for expenditures of \$21,646,682.90 in gold and \$91,731,-498.79 in currency. The receipts are estimated at \$34,560,646 in gold and \$55,918,000 in currency.

- A Montevideo telegram of the 5th says that the British str. Freda had taken a cargo of arms at Buenos Aires for Rio Grande, consisting of ten cases of Remingtons, twenty cases of swords and two cases of accoutrements. The Brazilian consul at Montevideo had the merchandise landed and deposited there.

- A Buenos Aires telegram says that the Argentine government has ordered an ironclad in Europe, to be called the Belgrano, which will be of 12,000 tons and have a speed of 20 miles an hour. The contract cost is £900,000, and the ship is to be completed in fifteen months. For a country which has been unsuccessfully trying to borrow money in every capital of Europe, this is decidedly good.

-Five little boys were arrested in Montevideo one day last month for stealing six pears from a quinta. It was a great crime and a terrible lesson. Those little boys should have known better. The honest and wise thing to do is to first grow up, and then they can get into the custom-house, or into the numicipal government, or even into congress, where they can steal with impunity. Every one now knows that it is infinitely worse to steal six pears than it is to steal a hundred thousand

- So far locusts have not approached very near the city of Buenos Aires: but there are plenty of them in the province, even to the far south. Patagones and other places which we are wont to consider exempt from them, have been visited. The campaign against them goes on with a good deal of vigour; but very much depends on the composition of the local committees, which in some places are composed of active men, while in others they are of the wrong material, and almost nothing is done. It is not to be supposed that all this organization can be kept up without expense. The sum of \$4,000,000 was voted early in the year, but \$5,000,000 or an additional 1,000,000 has been applied for. The raising of this sum will necessitate the issuing of no smaller a sum than \$7,000,000 of government bonds, so that the ubiquitous locust will leave its mark on the national debt .- Review, Buenos Aires,

-The U. S. schooner yacht Negus, from New Haven, Conn., Capt. McClure, will arrive here next month bound for Klondyke. with 21 passengers, all men. She is one of the fastest boats in the schooner class in Yankee waters, and is expected to make Montevideo in 50 days out. Inside she is fitted up very handsomely, and last year won a \$1,000 prize as the best of her class. The passengers pay \$400 dollars each, and will be delivered with one year's provisions at Cook's Inlet. Medical services on board are also included. The Negus will then go into coast trade. The steamships City of Columbia, Ohio, Illinois. Indiana, Pennsylvania and Connemaugh, each 3,000 tons and first class, will all pass Montevideo in January and February, bound for the Alaska gold regions. They come with South American cargo generally, but all have good passenger lists. The first-named has 140 men and 50 women passengers. - Montevideo Times, Dec. 19.

- Everyone knows that this ironclad (Garibaldi) cost an absurdly large sum, although she is currently reported to have been cheap at the price, as saving us from a war with Chili. If Chili had only known the true facts of the case, she might perhaps have gone to war with a light heart; for so many things have gone wrong in the Garibaldi during her brief term of service that it is scarcely conceivable she should have lent much help during war. The other specimen of Italian naval architecture which weighs upon the treasury, the San Martin, ought to be ready soon : let us hope that the officers who took over the Garibaldi will see that the defects which have come to light in the older of the two ironclads are not repeated in the new one. There is every probability that the Garibaldi will have to go to Europe to be repaired. In any case, when repairs come to be made, even the most ordinary, they are not likely to be possible here, as we have not the necessary appliances and accommodation. - Review, Buenos Aires.

Travellers' Directory.

São Paulo:

Through express trains leave the Central station daily at 6 a. m. and 8:30 p. m.; returning leaves S. Paulo at 5 a. m. and 5 p. m.

From The Church Echo, for January. THE STRANGERS' HOSPITAL.

Among the many public institutions which the city of Rio de Janeiro possesses, one of the most useful and interesting is the Strangers' Hospital. It is a small hospital, and it has no endowment and no fixed income, but it has done good work during the few years since it was opened and has amply fulfilled the expectations reposed in it by its founders-the British and American residents of this city.

The first steps toward the creation of this hospital were taken in 1890, the subject having been frequently discussed in The Rio News and a meeting held to effect a preliminary organization. In 1891 subscriptions were opened and when a sufficient sum had been secured to guarantee success, a definite organization was effected, toward the close of the year, and a site was purchased. The whole of 1892 was spent in the work of reconstructing the edifice purchased and in improving the grounds, and on January 8th, 1893, the hospital was formally opened.

The primary object of the hospital is to provide treatment for the subscribers and their employés, principally with respect to yellow fever, but its doors are open to patients of all nationalities and for diseases of nearly every description. It is now provided with an isolated pavilion for vellow fever, so that no restrictions need be placed on the reception of other patients. The staff is composed of a highly successful and esteemed Brazilian physician, Dr. Raymundo Bandeira, and six English trained nurses. Thus far this staff has given the fullest satisfaction, and its skilled attendance upon the sick, especially those stricken with yellow fever, has not only greatly relieved their sufferings, but has led to a great diminution in the percentage of deaths. This result, it must be admitted, is ample compensation for all the sacrifices made in the creation of the Strangers' Hospital.

For so small a community and in view of the great business depression in Brazil during these years, the construction and maintenance of such an institution has involved no slight sacrifice, and its founders therefore deserve unstinted praise for their persistence and liberality. But the hospital is far from being self-sustaining, and it still needs much assistance. It should have an endowment, but this must wait upon the gratitude of those who have benefited from its skilful ministrations. But it has a debt to pay off, and some needed improvements to realize, and for these it must look to the generosity of patrons and friends. There is one recourse, however, which has not yet been thoroughly employed, and that is the personal interest of every subscriber in securing patronage. It is not enough for subscribers to give annual subscriptions; they and with accommodations for about 70 patients. | portions. They have provided an experienced physician, the hospital full, so that its revenue may be sufficient to meet all its current needs.

From the Diario Popular, S. Paulo, Jan. 4th. OPEN LETTERS TO THE DIRECTORY OF THE SOROCABANA-YTUANA.—RIO DE JANEIRO.

As there are no means of obtaining a reply to letters which concern the Sorocabana-Ytuana company, if addressed to the chiefs of which we have been driven.

In August last I wrote to the chief of traffic, n Ytú, asking him for wagons to transport wood, and as I was not attended to I found Ytuana line.

This poor Brazil, which can export valuable woods, for the revenues of the states where we have them in abundance, and especially in this zone, and, according to the opinion of persons experienced in the business, that would fetch in Paris a franc a kilo (!), is meanwhile importing thousands and thousands of francs worth of woods from Sweden and Norway (north of Europe) only because of the bad will of the unfortunate management of the Sorocabana-Ytuana.

To prove this, the engineer of the railway and navigation inspection bureau, Dr. Carneiro, saw on the Ytuana a great number of cubic metres of woods awaiting conveyance.

Me in while this bad will, we may affirm, has not been shown towards the former owner of the Paineiras and Conchas saw-mills, because agement of the Sorocabana-Ytuana, and for a certainty has not lacked conveyance.

In the investigation which I had with the neither with the recourses nor through the mediation of this gentleman have I succeeded in obtaining wagons for their transportation!

To-day I have verified in the station of this city the existence of wagons Nos. 12, 216, 226, 230, 231, 314 and 391 with timbers coming from the Ytuana and other places.

By the way does the moveable tariff give the right to preferential freights, in a way that woods can be transported for persons who subject themselves to this extortion?

And to make the scandal greater, a manufacturer, recognizing the bad will of the Sorocabana-Ytuana in serving the public well, acquired private wagons; and these arrived and were loaded at Monte Mór on 23rd December and only left that station on 31st December, with an interval of 8 days !

Is this not a genuine abuse on the part of the chief of traffic of the Ytuana?

Is this not ample cause for the dismissal of an employé who does not know how to comply with his duties?

This never happened under the administration of Sr. Henrique Mullermeister, on the Ytuana section.

Perhaps this may have been the motive which caused his dismissal, after having rendered services to the Sorocabana company for 221/2 years.

Que aposentadoria bonita!

A. Almeida Q. Telles.

S. Paulo. 3rd January, 1898.

COFFEE NOTES

-The rains of the past week, which seem to have been general throughout this part of Brazil, have unquestionably done much good to the growing coffee crop. We are now awaiting news that mildew has destroyed all that was left of the said crop.

- A London telegram of the 5th says that a syndicate has been organized at Antwerp for the purpose of opening a Belgian house in Santos for the purpose of buying coffee of the planters direct and then selling it at retail in Europe for account of the said planters.

- In the northwest of Paraguay, says an Asuncion telegram of the 5th inst., near B.azil, a French company has succeeded inproducing coffee for exportation. It may be added that coffee has been produced in Paraguay in small quantities for a long time.

- A planter writes to the Jornal do Commercio that the coming coffee crop for Rio and Santos will not exceed 6,500,000 bags. He defies anyone to attempt to prove the contrary with information obtained from planters. The strength of his position is self-evident.

-The Diario Popular of São Paulo, of the Sth inst., says: "The report is current of the acquisition through a commercial firm of this city, and for account of an English syndicate, of some coffee plantations in S. Simão, S. Carlos do Pinhal and other municipalities of the west of S. Paulo.

-Reports which have been collected by the British Central Africa Gazette from various firms and planters engaged in coffee growing should make themselves familiar with all the in British Central Africa point to the continresources and advantages of the hospital and ued prosperity of the industry. It is estishould never miss an opportunity to recom- mated that for this year the crop will yield mend the sick to go there for treatment. This about 450 tons, and as every year new plantawill help to make the place popular and to tions are being opened up, and areas planted make it self-sustaining. They have provided in previous years are coming into bearing, one of the most attractive hospitals to be there is every prospect of the supply of coffee found anywhere, situated in lovely grounds, from Central Africa assuming very large pro-

- Prices of coffee, which have been steadily trained nurses, and all needed facilities for the dropping for many months showed a furcare of the sick. To make but limited use of ther decline in the speculative market yesall these is certainly mistaken policy. It terday, the November option being offered at should be the care of every subscriber to have | 5 cents and December delivery selling at 5.05 cents. The lowest record for the November delivery on the Exchange is 4.60 cents made on the 9th inst. The November quotation at that time, however, was abnormally low owing to the fact that the standard «differences» were considered too high and were discounted. Since then the differences have been reduced and the November quotation resumed a more normal quotation so that yesterday's price of 5.00 cents really indicates a lower level than 4.60 cents under the old differences. The traffic, nor of bringing them to attend to pro- December option, for instance, which may tests and requests, I have resolved to make perhaps afford a more reliable basis of comthem through the press and to send them for parison, sold on November 9th at 5.40 a 5.45 transcription to London and Paris, so that cents, while yesterday as stated above, it foreigners may have an idea of the state to dropped to 5.05 cents. -N. Y. Journal of Commerce, Nov. 24. -A correspondent of the Financial Times

has the following to say about coffee-growing on the Sandwich Islands :- " The latest boom myself obliged to close up my sawmill in São in Hawaii is coffee. There are many thousands Paulo, having in the meanwhile timber on the of acres, belonging mostly to the government, which will make good coffee land. To those who are careful men with money to invest, I commend the following figures, which are fairly accurate, though, of course, the actual return is much dependent upon the value of the land bought and the care with which it is cultivated. An estate of an hundred acres will cost \$1,000. The expenses of clearing, planting, building and working amount in the first year to \$7,000. The second year will cost the planter \$3,000, and he will then have 75 acres planted. The third year will cost \$5,000, and by this time his plants will be beginning to bear, and should produce about \$3.500. The fourth year the expenses will be \$6,220, but the sale of coffee has increased to \$10,800. The fifth year I put expenses down at \$7,500 and the return at \$15,300. The sixth year should cost \$8,820, and the sale of coffee that gentleman is not unknown to the man- has increased to \$18,000. The seventh year the expenses may rise to \$11,000, but the sale of coffee touches \$22,500, so that in seven years the balance to the credit of the plantaengineer Dr. Carneiro, I proved that I had tion is considerably over \$20,000. A man with timbers (madeiras) on the Ytuana; but then a capital of £5,000 could hardly fail to make a handsome income out of his coffee, moreover his living expenses, whilst the plantation was reaching maturity, would be very small indeed. An energetic fellow might make a small profit out of the first four years by planting pineapples and bananas, for which there is a ready sale.

NOTICE.

In view of the continued fall in exchange, which reduces the currency price of this paper to less than half its original rate, the local currency subscription rate will be increased to 40\$000, or 800 reis per copy, on and after 1st March next.

ONE of our morning contemporaries

affirmed on the 6th that the adjutantgeneral of the army has proposed to the minister of war a reduction in the effective strength of the army from 28,160 to 16,000 men. His justification of this proposal is that congress has made appropriations only for the smaller a thousand pounds. As these contributions number. Aside from all questions rela- are flowing in faster than the fall in exchange, tive to the legislative error of fixing the effective strength of the army at 28,000, and then providing for the maintenance of only 16,000, which may have been done designedly, it seems to us that the government now has a good opportunity to reduce the army, as the President recommended during the early days of the last congressional session, and that too without becoming involved in any controversy with the military party. Congress has failed to provide the necessary appropriations for the full several persons who were afterwards released force, and the executive therefore is by the police delegate. under no obligation to maintain such a force. It has been generally known that the effective strength of the army has all along been under twenty thousand, and the government could easily continue the force at its present strength, which may not exceed the sixteen thousand stipulated by the adjutant-general. There are always losses from sickness and expiration of enlistments, and if such vacancies are left unfilled the government can easily diminish the number. The principal reason why ing editor of the Rio Negro prepared in adthis should be done—and it is a reason which should appeal to military men as well as civilians-is that of lack of means. The treasury is now having great difficulty in meeting its engagements, and it is the duty of every patriotic citizen to help the government out of its difficulties. If a heavy expenditure can be materially reduced by cutting down the army, no one should raise a word of objection. On the contrary every one should welcome so easy a measure of economy. Let us hope, therefore, that the press of the country will voice the approval of every good citizen to the measure proposed by the adjutant-general.

PROVINCIAL NOTES

- A man committed suicide in São Paulo on the 5th and left a note stating that alcohol was the cause.

-A new bishopric has been created from 110 parishes in Southern Minas, and it is said that Pouso Alegre has been designated as the bishop's residence.

—It is stated that the governor of Amazonas has suspended all the public works under construction. What ! has that goodly surplus been exhausted so soon?

- A letter to the Gazeta de Uberaba says that Capt. Carlos de Andrade, reputed mur-derer of Senator Paranhos, is in irons and is otherwise barbarously treated.

-We see by the Expositor Christão that the Baptists have opened a school at Bello Horizonte, Minas, under the direction of Misses Willcox and Stanger.

-The Diario Popular says that the two Italian journalists who recently fought a duel in São Paulo, are to be prosecuted. Their seconds are also to be prosecuted. — It is telegraphed from Pará that Gov. Paes de Carvalho will remain neutral in the

elections of March next. And why shouldn't he? It will be his duty to remain neutral. - It is announced that the Brazilian flotilla on the upper Paraguay is being transferred to Asuncion, Paraguay. It may be presumed

that this is because of the approaching election in Paraguay. —The São Paulo geographical and geological commission, which has been at work for some years under the able direction of Prof. O. A. Derby, has been reorganized for the current

year under its old staff. —It is stated that a new diocese embracing 110 parishes in S. Paulo and Minas Geraes with an aggregate population of 1,200.000, is to be established. The bishop, it is said, will

reside at Pouso Alegre. -The election in Sergipe appears to have been a decisive victory for the government. The lowest vote for any government candidate was 3,987, while the highest vote received by

an opposition candidate was 1,583. — A telegram from Goyaz of the 5th states that the federal party had won the election in the first, second, fourth and fifth circulos-the voting being 473 for the federal and 267 for the republican (government) tickets.

-Pools of red liquid are said to have been seen in several places after a rain on the 26th of November at Caxias, Maranhão. The journal from which this item is taken says that no one was able to account for the color of the liquid.

- General Carlos Telles has been appointed frontier commandant at Bage, Rio Grande do Sul. Let us hope he will at once restrain the criminal activity of the celebrated João Francisco. General Telles is hardly the man to countenance wholesale assassination.

-The Portuguese contributions in São Paulo for the purchase of an ironclad for Portugal, now reach thirty-nine contos, or a little over there is much hopefulness in the colony of finally attaining their object.

 Dr. Aureliano Barbosa, a Castilhista congressman, is said to have attacked Deputy Glycerio in a speech which he made at Uruguayana on the 6th inst. Is Castilhos still unable to forgive Glycerio for not giving him an opportunity to be defeated, or is he merely seeking to curry favor with the government?

-The police force at Santos has been giving considerable trouble lately, and has been substituted. The seldiers became insubordinate and refused to respect the authority of the local police officials. On the 6th a mounted policeman rode into a shop and arrested

-The .1mazonas Commercial notes, with a special commendation, the fact that Col Candido Marianno, who commanded the 1st battalion of Amazonas police at Canudos, had received 40,000\$ from the state government for unforeseen expenses and had returned a detailed account for only 14,4735, returning the cash balance of 25.527\$ to the state treasury. The Commercial thinks that such honesty merits special recognition, because it is so rare in these times.

- Newspaper enterprise is commendable, but est modus in rebus. Some time ago the governor of Amazonas was expected to arrive at Manáos on a certain day and the enterprisvance an article containing a detailed account of the important occurrence. The hour came, but not the man. The article, however, having acquired too much momentum to be stopped, duly appeared and was read with much interest, especially by persons who knew that the governor had not arrived.

 The municipality of Floriano Peixoto (!) Amazonas, is achieving fame. It has been giving away 50,000\$ to various favored individuals, and an official called a « superintendent » was voted a "gratification" of 20,000\$, a monthly salary of 1,500\$, and a contribution toward his expenses of 500\$ a month. Happy supe! And then the aldermen allowed themselves 8,000\$ for transporte (though we have no idea what that is) and a comfortable little salary of 100\$ a day for the first session, and 50\$ a day for other sessions. It sounds like the «accumulations» and double pay of 1893-94.

S. PAULO FACTS AND FANCIES. THE CALICO BALL.

The Cinderellas are over, the Bazaar is over, the Calico Ball is over, and there now only remains the German «kermesse»—I believe it is to be a «kermesse»—with its tableau vivant, the Sleeping Beauty, which, I hear, is to be accompanied by slow music behind a screen. Who is to be the Sleeping Beauty, and whether, or not, she, too, will be behind a screen, I have not been able to ascertain. At any rate, if the music be only half as slow as S. Paulo music usually is, the pace will suit even its most exacting admirers.

On Wednesday I sat up all night at our Ballo in Maschera. That it was a success—I mean the ball, not my sitting up, which was a failure—is proved by the fact that it only broke up half an hour before daylight.

There were about two hundred guests present, mostly in fancy dresses, some of which showed much taste and ingenuity. I venture to insinuate in the most delicate manner in the world, however—just to hint—that, next time, it would be better not to limit the choice of materials for the costumes in any way; or, at any rate, not to exclude or discourage the use of silks, satins, and velvets, gold, diamonds, pearls, rubies and ostrich feathers. It was simply this prohibition which prevented me—as it probably did many others—from coming out with all my best clothes on; and though the scene in the ball-room was full of life and color, there was a certain want of brilliancy, which was undoubtedly due to the scarcity of the richer materials and accessories above referred to.

It is not easy to get fancy dresses of any kind made in S. Paulo; but ladies say—whether in perfect sincerity, or not, I cannot tell—that calico is more expensive than silk or satin, because a dress made of it only serves for the night of the dance, and is useless afterwards; whereas one made of the latter materials can be cut up or used for other purposes, when it has served its turn. Still, as the judges say, I should like to hear counsel for the other side on this point.

There was no list of the characters assumed, except, indeed, one which appeared the day after the ball, and which the reporters of the Correio Paulistano seem to have made, as the Corporation of London did the wooden pavement, by laying their heads together. Miss Simon, of Santos, as "Night," won the ladies prize for the best dress. That for the gentlemen was awarded to Mr. Victor Nothmann, who appeared in a quaint and laughable rigout as a quack doctor, carrying a formidable looking battery of implements whose uses one hardly dared guess at, and distributing handbills in which he described himself as "especialista em lodas as molestias, e muito especialmente nas desconhecidas, e incuraveis."

For my own part I went as Father Time, with my sickle and hour glass all complete, and was much scandalised at the reception I got. Some of the ladies especially, whom I had been friendly with any time these thirty and forty years, pretended not to know me. Others asked me to dance, and taking me by the forelock jigged me all round the room, «like kidlings blithe and merry.» I was so angry with one old girl that I made a swipe at her with my sickle; but she merely shook a loose leg-lately belonging to a rabbit-under my nose, dabbed me in the eye with a powderpuff, and tripped away laughing like a young two-year-old. Yes, Time was "out of it " that night; but was very much "in it " next day, when it was Time to get up, and Time to face the breakfast-table!

For the rest, I saw two men in semi-demmy milingtary uniforms, but with anchors on their buttons, evidently belonging to the famous corps of horse marines; a boy in blue, a heathen Chinee, a teetotaller on the rampage, and an escaped lunatic of the time of Queen

There was no lack of clowns—there seldom is in any assemblage of what we call Anglo-Saxons—and one or two played their parts amusingly. I saw, too, a cook, and a Mephistopheles; and I thought if the cook did cook as most cooks do, he would prove the more dangerous devil of the two! I saw a Cuban insurgent in a singlet, a pair of boots, and a straw hat; and a masher in a gorgeous tin helmet, and a long white smock, got up regardless of expense to represent a praça of the corpo de bombeiros » in the time of Cheops.

"corpo de bombeiros " in the time of Cheops."

There was a Scotch Highlander from the waist down—you remember the animal which was part monkey and part bare?—two bull-fighters from Pacaembú, who looked as if they would take a very small size in bulls, and a man who came out in a fancy embroidered "knight" dress, and he ought to have got a prize, too!

I feel a certain delicacy in saying anything about the ladies' costumes. As a young lady once remarked to me, talking of some of her Sunday school experiences, a you know it is so dreadfully embarrassing to have to explain what one doesn't understand! I do not know what French modiste the reporter of the Correio Paulislano may have studied under, but I must say I envy him the glib facility with which he sails away among—h'm!—among the clouds, in long strings of sentences like the following:

"Mlle. Telle. Le ciel. Cotte en voile blet, garnie d'ètoiles argentés; jupe en voile blanc; plumet à le tête, etc."

Even he does not know everything, however According to him one lady appeared as a she devil, while another represented an archange! I was under the impression that archangels at least were all "he's". Moreover I happen to have it on the archangel lady's authority that she meant herself for the "Queen of the Butterflies". Well, perhaps he is not so far out after all. I suppose an angel is only a sort of a glorified butterfly. Let us hope he was wrong about the other lady.

To my taste among the prettiest dresses were

Miss Krug, as a court lady 18th century.
Mrs. Moulinier, bergère,—robe en broderies,
garnie de dentelles crême, perruque et plumets—says the glib man, though whether such a
costume would be found handy for watching
sheep in seems doubtful.

Miss Tomkins, as Winter— so far as a spra of holly could turn Spring into Winter.

Mrs. George Krug as a Greek lady. Mrs. Colin Broad as Little Red Riding Hood. Well, one doesn't blame the Wolf.

Miss Madeley, as the Firmament.

A most ingenious and striking costume was that of Miss Pereira, who, appeared in a dress composed of strands of curled particolored paper, curiously woven together, with a tall conical hat of the same. But jam satis, that is to say no more jam for the present. I will only add that I think one of the most agreeable feature of this affair was the presence of so many Brazilian ladies and gentlemen who, by their tasteful dressing and personal graces, contributed greatly to enhance the brightness of the scene and promote the pleasure and success of the evening.

The supper was horrid. Probably other people have contented themselves with thinking this. But I make free to say it, « for though I am poor, I am not modest.»

I forgot to tell you that up to midnight everybody was masked. The effect was novel and delightful. Without fear of overdoing things in a complimentary sense, I can safely say I have never seen our Anglo-American colony look so handsome.

NICODEMUS DEWDROP.

S. Paulo 7th January, 1898.

RAILROAD NOTES

— It is said that the proposals for leasing various government railways in the north will be decided on or before the 15th.

—The Santa Cruz and Itaguahy tramway company has been fined 500\$ for not establishing the stations mentioned in the contract.

—Of the 24 Baldwin locomotives ordered in November by the director of the Central railway, 12 are said to be already on their way to Brazil.

— The state government of Pará has recently paid 138,400\$805 for 23 cars imported from the United States for the Bragança railway.

— A petiton signed by 800 residents of the suburbs through which the Central railway passes, has been addressed to the minister of industry asking for a reduction in fares on the suburban trains.

The government fiscalization of guaranteed railways is confided to 31 engineers, of whom 16 receive 6,000\$ per annum, 10 receive 7,000\$ per annum, and 5 receive 8,000\$ per annum. The aggregate of their salaries is 206,000\$.

— In the month of October the trains of the Sorocabana company carried 12,325 first-class passengers, 38,691 second-class passengers, 5.599 head of cattle and other animals, 512 tons of parcels and 21,962 tons of freight, including 6,314 tons of coffee. The receipts were 936,626\$580, against 630,200\$490 in October, 1896. The receipts for the half-year ended Dec. 31 are estimated at over 5,000,000\$£.

SHIPPING NOTES

—The naval division has been ordered to proceed to Ilha Grande for practice.

The departure of the str. Bièla for New York has been deferred until to-morrow.

 On Sunday a Spaniard named Sanches committed suicide in Rua Faro while maddened with drink.

-The position of the sunken monitor Javary has been marked with a red buoy. It is nearly in front of Fort Gragoata in 27 metres of

— The director of the mint claims to be minting a ton of nickel coins per day. He has just sent 60,000 in nickel to various northern states, and says he has 450,000 in nickel on hand

—For the present we shall archive all telegrams about the composition of the Italian squadron in these waters. It is now announced that the Giovanni Banzan is going to China, instead of coming here.

— The last steamer purchased by the minister of marine, the *Haipava*, formerly belonging to Messrs. Lage Irmãos, arrived in port yesterday. She is to be placed at the disposal of the « carta maritima » bureau.

—The naval medical commission appointed to report on the causes of the outbreak of beri-beri on the naval vessels stationed at Bahia, has reported, but the doctors, as usual, failed to agree. Would it not be good policy to appoint some trained investigators for this service.

—It will be remembered that the Jornal do Commercio of the 27th ult. announced the purchase of three Frigorifica steamers—the Jupiter, Mercurio and Marte, by the government, and that on the 31st the purchase was as explicitly denied. The other daily papers were equally contradictory in their statements. We now see by the Jornal do Brazil of the 6th that these three steamers are under repairs at the Ponte de Areia, and that they have been "acquired by the ministry of finance for that of marine."

LOCAL NOTES

-There was one death from yellow fever yesterday.

 Dr. Cyro de Azevedo has been appointed Brazilian minister to Berlin.

 Gen. Savaget has been appointed to the command of the 7th military district.

—It is stated that the municipal employés have not yet received their pay for November and December.

—We have received a communication from Pernambuco, but too late for this issue. It will appear in our next.

—The Republica, of Goyaz, predicts that at the March election Lauro Sodré will receive 330,000 votes and Campos Salles 300,000.

— The Gazeta da Tarde of the Sth says that there is no truth in the report about the reduction in the army. So much the worse for Brazil.

-Orders have been issued for bringing to Rio de Janeiro the furniture and archives of the Ceará military school, which is to be closed.

-It is stated that at the cabinet meeting held on Friday there was read the report of the chief of police on the murder of Marshal Bittencourt.

— The minister of foreign affairs has nominated Sr. Francisco Alves Vieira as Brazilian consul at London, and Manoel da Silva Pontes to the same post at Paris.

— The Y. M. C. A. of this city has moved into its new quarters in Rua da Quitanda, where a bazaar was held on the 6th in aid of the Hospital Evangelico Fluminense.

—It is announced that a new morning paper, to be called A Imprensa, will appear about the beginning of February, and that Dr. Ruy Barbosa will have editorial direction of it.

— Among the passengers arriving yesterday on the Lamport & Holt steamer Galileo was Mr. E. Seeger and wife. Mr. Seeger is the new American consul general at this port.

—It is said that the employés of the port health department on the steam launch Paula Candido have not received their pay for three months. This must be due to the negligence of some official.

-The Jornal do Commercio says that the debt of the municipality to the Central railway has been increased to 400,000\$. The debt is on account of the transportation of fresh beef from Santa Cruz.

-The cruiser Quinze de Novembro was fitted out with all dispatch and sent south on the 8th, her destination being one of the southern ports. She goes under the command of Capt. Belfort Vieira.

The Norddeutsche Algemeine Zeitung says that Germany has not entered China as a conqueror. Of course, we all knew that! There is quite another characterization for such an entry into another's property.

—Gen. Glycerio, in view of the apparent intention of naiy of his followers to vote for the government presidential candidate, has found it necessary to issue a circular advising them to vote for their own candidate.

— A St. Petersburg telegram of the 5th says that the Russian government has instructed its minister to this country to transfer his legation to Buenos Aires, because of the suppression of the Brazilian legation in Russia.

—The exceptionally large number of fires which have lately occurred in this city, is exciting comment. Formerly fires were very rare, except toward the end of bad years. Now they are becoming alarmingly frequent.

—The ex-minister of industry, Dr. Joaquim Murtinho, is certainly being well advertised. One of the latest journals to publish his portrait and give a biographical sketch of him, is the *Illustracion Sud-Americana* of Buenos Aires.

— The investigation at the 12th pretoria into the assassination of Col. Gentil de Castro was closed on the 7th inst., and the papers, together with the arguments of the lawyers for the defence, were sent to the president of the civil and criminal tribunal.

—The new quartermaster-general is about to devote his attention to a new plan of uniforms for the army. So frequently have these uniforms been changed, and so great an expense to they represent, that this a new plan a might very well be postponed.

—Dr. Lauro Sodré is reported to have been advised by friends to withdraw from the presidential contest. On being told that he would not get 50,000 votes he is said to have answered that he would remain in the field even if he does not get one thousand.

— According to a local observer, the average temperature in December was 24.8° C. (76.6 Fahr.), the maximum being 34.7 C. (94.5 Fahr.) and the minimum 18.8 C. (65.8 Fahr). The rainfall was 212 1/2 millimetres and there were 12 rainy days in the month.

—Deputy Glycerio has issued a manifesto to his party, advising its voters to contest the coming presidential election. This is good sense, certainly. We have no patience with citizens who stay at home because they have no certainty of winning an election.

—A drunken woman with a child of six months in her arms, attempted to cross the street in front of a tram car on Friday last, in Rua General Pedra, and the result was most disastrous. Both were badly injured, the child dying before it reached the hospital.

—Gen. Glycerio undesignedly pays a valuable tribute to the revolutionists of the 6th of September when he asserts that they are now ruling the country. A cause that can survive defeat and finally triumph must be composed of the best and strongest elements.

— The Gazeta de Noticias of Sunday says that Capt. Carlos Accioli, who is now in the Copacabana beri-beri hospital, will be tried by a military court whose members have already been appointed. Capt. Accioli is one of the persons arrested soon after the attempt on the President's life.

—It seems to us that Gen. Glycerio is unjust when he complains of the President for having separated from the jacobins. The President was obliged either to take this step or to completely stultify himself by abandoning all the best principles for which he had ever contended.

—On Tuesday night building No. 113, Rua de S. José was destroyed by fire, some of the adjoining buildings and their contents being more or less damaged. It is stated that after the arrival of the firemen the work of extinguishing the flames was delayed 40 minutes by want of water.

The police force of this city has been reorganized, and will comprise two battalions of infantry, with 25 officers and 878 men each, and one regiment of cavalry with 26 officers and 400 men. Besides these there will be 75 officers in service in addition to those attached to the two infantry battalions.

—Gen. Glycerio, in his last circular, says that President Prudente de Moraes has neutralised the work of Marshal Floriano Peixoto. Unfortunately there is too much of the latter's work that cannot be neutralised, and of this work President Prudente de Moraes and the whole country are forced to suffer the consequences.

—At the circus on Campo de S. Christovão on the night of the 3rd inst. there was a quarrel between a Spaniard and a sergeant of the army, the latter being shot by the former. This resulted in a row in which about 30 soldiers and a number of civilians took part. Several persons were wounded and the Spaniard was arrested.

- The Union of Valparaiso of 25th December publishes a New York Herald telegram of the following tenor:

*Rio de Janeiro, 23.—The summario against the soldier Mello, who attempted to kill the President of the republic, is closed, it being proved that there was no complot against the life of the President. **

—Notwithstanding the frequent and heavy rains of the past month, continued complaints are made in various parts of the city of a scarcity of water. The fault is not with Jupiter Pluvius, however, but with his all powerful representative on earth, the water guard. Possibly the "tips" have not been sufficiently large to produce water.

— On the 6th the President addressed a letter to the emperors of Russia and Austria, advising them that no provision having been made in the budget for diplomatic representation to those countries, he finds himself compelled to suspend said representation until such a time when the financial condition of the country will permit its renewal.

The pensions voted by congress for the widow and children of Marshal Bittencourt amount to 19,200\$ per annum. Besides, the family, we believe, is entitled to half-pay, and the public subscription will, it is estimated, amount to about 300,000\$. We are pleased to see that ample provision has thus been made for the family of this soldier who lost his life in doing his duty.

— The Joinal do Commercio affirms that General Mallet, adjutant-general of the army, has proposed to the minister of war that the effective strength of the arm y shall be reduced from 28,160 to 16,000 men, in view of the fact that congress made appropriations only for the smaller number. This is reasonable and timely and we hope to see it carried into effect. A reduction of 12,000 in the army will make a great difference in the expenditure,

-The National Museum was visited by 16,971 persons during the past year, of which 13,933 were adults and 3,038 were children.

-An old man, 70 years of age, a half pay major of the national guard and an ex-official of one of the public departments of the former province of Rio de Janeiro, tried to commit suicide on the 5th inst. by jumping from a ferry-boat in the middle of the bay. He was rescued, and was then taken to the S. João Baptista hospital in Nictheroy. He says he was led to so desperate an act because he is suffering from an incurable disease.

- In execution of the plan of reducing the army to 16,000 men the following reductions, it is stated, will be made in the strength of the various commands: - The battalions of infantry will be reduced from 425 to 241 enlisted men; the regiments of cavalry from 405 to 231; the regiments of field artillery from 402 to 229; the battalions of siege artillery from 329 to 187; the regiments of sappers and miners from 413 to 236; and the transportation corps from 278 to 158.

-The delay in the issue of The Church Echo this month was due to the printer. There were so many holidays and so many good things to think of that he really could not work as he should. Then came the smash up in the electric power house of the Bofanical Garden company, which stopped the printer's presses for a brief time, but it happened to be just the day set apart for *The Echo*. The number was so excellent, however, that no one cares to think unkindly either of the editor or the printer for a short delay.

-The postoffice is again giving cause for frequent complaints of the delay in delivering letters. A few days ago a commercial house complained of the retention of an important business letter, which by some strange chance went into the general delivery instead of to the firm's box, although the address was perfectly clear. Yesterday we had our turn. Our S. Paulo letter was mailed on Saturday, the envelope showing «8 Jan.» on the São Paulo postmark. It was received here on Sunday, for the Rio postmark says « 9 Jan. » It was not in our box Monday morning, nor at noon, and we received it only at 3:30 p. m. Another letter of ours-to show the zeal of the average postoffice clerk in enforcing the new regulation-was sent to the poste restante. If the postoffice would serve us as zealously as it seeks to squeeze revenue out of us, perhaps we might not complain, but to be taxed more and then have our letters delayed in this manner is enough to make a saint complain.

PUBLICATIONS RECEIVED.

We are indebted to Messrs. Spicer Brothers, Limited, of 19 New Bridge St., London, paper merchants, for a copy of Whitaker's Almanack

We are indebted to the agents of the Liverpool and Globe Insurance Co., Messrs. P. S. Nicolson & Co., for copies of their attractive calendars for 1898, together with a handsomely bound blotter for office use.

- We are indebted to Messrs. James Spicer & Sons, 50 Upper Thames St., London, E. C., paper merchants and manufacturers, for a very handsome and convenient calendar, blotter and memorandum pad combined. It is one of the most convenient accessories for an office desk that we have yet seen.

A Crise Financeira e sua Solução by Lourenço de Albuquerque. A republication; of the author's address before the Associação Commercial, a resumé of which was at the time published in the daily papers and widely copied. To this he has added timely suggestions in regard to the remedy for the financial crisis and some replies to the criticisms which have been made. The discussion is one which should be thoughtfully studied.

A Two Months Tour in the United States of North America; by Arthur S. H. Hitchings. Philadelphia: John C. Yorston & Co., 1897. This beautifully printed little monograph is simply a repository of the public utterances at various places in the United States of America by the author during the excursion given to the delegates to the opening of the Philadelphia museums. It is well worth perusal, for Mr. Hitchings was frank enough to speak

some very wholesome truths. The Agricultural Annual and Mark Lane Express Almanac for 1898 has just been issued from the office of this widely known journal. It contains, as in former years, a series of articles on topics of interest and profit to farmers, the contributors being experts in their different departments. Amongst the more notable will be found one entitled « Can the Empire Feed Itself ! " by Mr. C. Kains Jackson; « Malt and Manure, » by Mr. H. Stopes; and * Extended Stock Farming as a Remedy for Depression, " by Mr. J. Darby.

The editor (Mr. A. J. Stanton) contributes a
summary of "Agriculture in 1897, " which will
be read with interest, as setting out the principal events of the year. The Annual is well illustrated, and more profusely so than ever.

Business Notes

- The Banco União de S. Carlos is announcing a dividend of 25\$ per share.

- The government has authorized Naumann Gepp & Co., Limited, to transact business in

The municipal chamber of Porto Ferreira, S. Paulo, imposes a tax of 4,000\$ on business houses beyond the city limits.

-The prices of matches are being increased on account of the new taxes. The consumer must always stand the burden of these taxes,

-A Berlin telegram of the 5th announces the organization of an electric company for 6,743,815\$858, against 4,111,359\$873 in 1896. operation in Latin America. The first venture is to be in Buenos Aires.

- The Central railway administration re- 1,734,617\$. cently invited tenders for the supply of certain pieces of wood-work for repairs, but, although 101\$153 in the month of November last. In they were of the simplest description, no pro- the same month the state treasury received posals were made. It would be interesting to 1,320,057\$443, and paid out 1,318,750\$577. know the reason.

lars in regard to the purchase of the three Frigorifica steamers for 3,600,000\$, even to the documents, and then on the 6th stated that the President is opposed to the transaction and has refused to sanction it.

-The receipts of carne secca (dried beef) at this market in 1897 were 51,456,620 kilos. The shipments from Rio de Janeiro to other that vice. ports amounted to 7,903,440 kilos. The stock on Dec. 31 was 2,794,800 kilos, against 4,131,-040 kilos at that date in 1896.

- The receipts of the line of steamers, belonging to the Lloyd Brazileiro company, from Montevidéo to Corumbá and Cuyabá amounted, from December, 1896, to September, 1897, to \$44,917.71 in gold and 121,817\$206 in currency, and the expenses to \$98,702.69 and 94,816\$156 respectively.

- The representatives of various foreign insurance companies in São Paulo telegraphed down to this capital on the 5th, that the fiscal departments there had refused to register their policies, as required by the new law, alleging that no instructions had been received from the government.

-It would be a most praiseworthy service were some competent men to prepare a project for the definition and restriction of the taxing power, which could be presented for adoption in the next congress. The measure should clearly explain the powers of the general, state and municipal governments, so that there may be no further complaints of unjust taxa-

- It is said that a great number of applications have been made, especially from two public departments, for passes on the Central railway. This abuse is most vexatious and persistent. It would appear that every public official considers himself entitled to ride free on the railways and tramways, and not a few of them consider themselves exempt from paying their restaurant bills.

-A London telegram published in the Gazeta on Saturday last says that the com- for the month of December have been made mercial chamber of Washington has nominated Mr. Vincent Barrington to accompany the English trade commission to South America to study commercial relations with England, This is a curious mixture, surely. What has the «commercial chamber of Washington » to do with such a commission? Besides this Sir Vincent Barrington is an Englishman.

- In the division of profits in the match business the government, it must be confessed, has the lion's share. The factories sell the matches at from 54\$ to 57\$ per 100 dozen boxes, but of this sum that of 24\$, or nearly one-half, goes to the government. Out of the remainder the manufacturers must try to pay the salaries of their operatives and other expenses and make sufficient profit to pay a reasonable interest on the capital invested.

-The editor of the U. S. Consular Reports, makes a very considerable mistake in an item in the December number in regard to the commercial movement in S. Paulo. He quotes from an exchange that the 1896 imports were 220,000,000 milreis and the exports 280,000,000 milreis, and in doing so gives the equivalents in United States gold as \$120,120,000 and \$152,880,000. He evidently takes the Brazilian figures as gold, when they are in reality much depreciated currency,

-Why should public departments be privileged to close their doors two or three hours before the ordinary business closing hour. The postoffice treasury closes at 2 to 2:30 p. m., and this during the days when so many are seeking to pay box rents, is a source of great inconvenience. The custom-house closes at 3 p. m., and it is almost impossible to get anything attended to after 2:30 p. m. If the ordinary citizen must work until 4 p. m., why should not the public official do the same? Are we of different clay?

-The Santos inspector of customs has rendered the following decision in the case of the fraudulent dispatch of 90 cases of matches arrived on the Ger. str. Argentina: Two exdispatchers, Paulino Fernandes and Arthur Guimarães are fined 28,800\$, the importers, Picard Irmão & Co. are fined 30,800\$, corres-ponding to 47 cases sold, and the loss of 23 cases still in deposit, and Pires & Mattos, merchants who bought 20 cases, are fined 12,800\$, but with the right to recover from the importers. All these parties are prohibited admission to the custom-house. The 90 cases in question were worth 57,600\$, on which the duties were calculated at 30,720\$.

FINANCIAL NOTES

-Last year the Ceará custom-house yielded

The expenditures of the state of Maranhão during the current year are estimated at

-The Manáos custom-house received 600,-

-The expenditure of the state of Maranhão - On the 4th the Paiz gave all the particu- for 1898 is estimated at 1,734,617\$. The largest item in the budget is the cost of maintaining the police force, which is estimated at

-The national treasury received 2,533,377 \$480 last year from the lotteries drawn and negotiated in this capital. It can hardly be considered a satisfactory recompense for the demoralization, crime and misery caused by

-The receipts of the revenue office of the state of Rio de Janeiro in this city amounted last year to 10,860,327\$698, or 529,070\$698 more than the estimate. The export duty on coffee produced 10,305,801\$184,or nearly 96 %/0 of the whole sum. The export duty on sugar had been estimated to produce 150,000\$, but the sum actually collected was only 135,798\$711.

-In view of the returns so far made public it may be estimated that the decrease in customs receipts in 1897, compared with 1896, was at least 40,000,000\$. It is possible, however, that full returns may make a considerable alteration in the estimated decrease. To this decrease should be added the diminished value of the receipts, caused by depreciation of the currency.

-The Jornal do Brazil of the 6th says that the President and minister of finance have been occupying themselves with the fall in exchange, and that they are about to adopt measures in the matter which will soon be carried into effect. Naturally, those measures will be to reduce expenditures in order to avoid deficit, and to call in paper money in order to appreciate the currency.

-The following is a comparative statement of the revenue receipts at four custom-houses in the years 1896 and 1897:

| | 1896 | 1897 |
|------------------|---------------|--------------|
| Rio de Janeiro | 118,922,224\$ | 92,558,108\$ |
| Santos | 46,142,492\$ | 39,250,450 |
| Pará | 20,338,177\$ | 23,133,809 |
| Ceará | 4,111,360\$ | 6,743,815\$ |
| At these four cu | etom-houses | re collected |

over two-thirds of the customs receipts of - The following returns of customs receipts

1896 1897 Rio de Janeiro. 6.962,320\$183 9,008,193\$692 3,166,280\$2 65 Santos..... 3,591,183\$487 Pará..... 2,049,437\$942 1,543,366\$782 Parahyba..... 119,046\$854 118,740,700 483,636\$595 R. Uruguayana.... 31,116\$565 -Two local journals, apropos of the announcement that the government is about to adopt measures to check the fall in exchange, have promptly arisen to let us see how little they know about it. They point to the high dividends paid by the London and River Plate Bank and inform us that these are due to speculations in exchange. In view of the circumstance that the business of this bank is principally derived from the River Plate, and that it paid high dividends long before opening branches in Brazil, the denunciations of these papers are ridiculous.

EXCHANGE.

January 4.—The banks opened at 6 15/16—7, and some small amounts; were secured for a good money at the higher rate, but in the course of the day 6 15/16 was general, and for a time bank sterling was not readily obtainable even at this rate. At first the banks talked of 7:/32 for other sterling, but there was outside money at 7, and, after some trilling transactions at this latter quotation, rates declined until 6 15/16 was reported, with a bank according to some reports. Then bills appeared and the market hardened, the banks drawing at 6 15/16, but very

cautiously, and 6 31/32 was the best to be had for other bills, the close being steady, with other than bank sterling offering at 6 15/16, and money at 6 31/32 -7. There was a fair business reported at 6 15/16-7 for bank and at the same extremes for other ster-ling. On the street sovereigns were reported at 34\$950 and 20\$ gold pieces at 77\$111; the Bolsa closed with buyers of sovereigns at 34\$400 and sellers of gold at 390 %.

gold at 390 %.

January 5.—The official rate was 6 15/16 everywhere, and the market opened uncertain, with the banks unwilling drawers at 6 15/16, but making conditions when buying at 6 31/32, while «the street» seemed inclined to take everything offering at 6 15/16. Later it was difficult to obtain bank sterling at 6 15/16, and there seemed to be no bills outside at this rate, but in the afternoon, and without any appreciable increase in 'he supply of exchange here, rates hardened, with business in other paper at 6 31/2. At the close the banks were all furnishing bills vith comparative freedom at 6 15/16, and bid 7 for buils offering at 6 15/16, but there seemed to be some money at 6 31/32. The interruption of the service by cable with the Northern ports was supposed to have produced the uncertainty in the morning, as the receipts of better news from those markets was said to have stiffened rates in the late afternoon, the day's business comprising bank sterling at 6 15/16, and other bills at the extremes of 6 15/16—7. Sovereigns were reported on the street at 35500, and gold at 768923 per 208; the Bolsa closed with business done at 778250—778300, and sellers at 778500.

January 6.—Epiphany.

January 6 .- Epiphany.

January 7.—The banks opened at 6 7/8-6 15116 on London, but the higher rate was rather nominal, for there was no lack of money, outside the banks, at this quotation, and during the morning the market declined, until the official rate was not readily obtained, and business was reported in other sterling on the street at 7 29/32. No clue to the source of the money that alarmed the banks was obtainable by outsiders, but the weakness naturally produced a scarcity of bills, and during the afternoon everything scarcity of bills, and during the afternoon everything was very quiet, with bank sterling quoted at 6.7/s, and other bills at 6.29/32-6.15/16, the banks offering to buy at the last rate, and at these quotations the day closed, with the market about steady. There seemed to be very little movement during the day, the demand for bills evidently coming from some occult quarter. There were neither buyers, nor seilers of sovereigns at the Bolsa, and nothing was reported on the street; gold was sold at 386 °/o at the Bolsa, and at the close there were buyers at 3854 °/o, and sellers at 3854 °/o, and sellers at 3864 °/o. 3851/4 % and sellers at 3861/4 %.

January 8. - The official rate was 6 7/3 all day, and the January 8.—The official rate was 6 7/3 all day, and the market was extremely quiet, with the banks willing to draw freely at 6 7/8, and also furnishing bills at 6 29/32 but rather capriciously, and with buyers at 6 15/16 for other than bank sterling, with something done at 6 29/32 on the street. The holders of bills certainly seemed justified in *putting on airs, * while the market was so uncertain, but the recent decline in rates was attributed to the demand for dividend remittances, and if this be the correct diagnosis, the position is likely to change after the departure remittances, and if this be the correct diagnosis, the position is likely to change after the departure of the early mails for Europe. The small transactions reported were in bank sterling at 6 12/16—an official quotation—6 29/12, and in other sterling at 6 29/12—6 31/132, the last also an official quotation. Nothing was doing in sovereigns on the street, and the Bolsa closed without buyers or sellers; business was reported in 20\$ gold pieces at 77\$140 on the street, and there were sellers at 77\$750 at the Bolsa.

street, and there were sellers at 778750 at the Bolsa.

January 10.—The official rate was unchanged at 6.78, the market appearing fairly steady at opening, with bank sterling, in moderate sums and for « good money,» to be had at 6.26/32, and some other bills obtainable at 6.15/16. About mid-day, however, a change occurred, and for some time bank sterling was quoted at 6.13/16—6.27/32, with business in other paper at 6.25/32, and even 6.78 mentioned. But the attempt to break rates was a little too evident, and in the afternoon there was a reaction, bills coming out at 6.7/6, for which the banks bid 6.15/16, and these drawing again, with some caution at 6.7/8, the m ricet closed steady but very quiet. The small transactions reported in the course of the day comprised bank at 6.27(32—6.718, and other sterling at 6.718—6.15116. Gold was quoted on the street at 778500 per 208 and the Bolsa closed with buyers at 778400; nothing was reported in sovereigns.

MARKET REPORT.

Rio de Janeiro, 10th January, 1898

Exports.

Coffee .- Another very quiet week has passed and the sales reported, some 42,000 bags, have been almost entirely for Europe, American exporters showing great reserve. The market has been fairly steady, for shipments again exceed receipts and the new depreciation in the value of the currency naturally has some influence with dealers and factors, while there is also some mistrust that the indifference of American buyers is more assumed than real, although these point to the enormous visible supply with which the year opened, and the new «spurt» in the Santos receipts. In Rio it looks as if the supply was likely to continue moderate, but during the past week we have had virtually no coastwise receipts and a steamer is now about due. There is no lack of coffee in sight and though this is likely to steadily decrease during the next two, or three, months, we confess we see little hope for the improved values in gold, that a more moderate supply would justify.

An angry planter has recently attacked pretty much every body anent the coming crops, but an angry mans arguments are rarely valuable, although in the present case an inference may be deduced, which is that exporters have suspended purchases in the interior. The doubts regarding the Santos crop are unsettled, for planters and exporters are hopelessly at variance; one side alleging the uncontroverted fact that after a large, followed by a moderate, crop the trees require rest, the other insisting that the new plantations will amply provide against any decrease in the production of the old orchards.

On the 3rd lust, some 10,000 bags were sold, on the basis of about 12\$000-12\$200 per arroba for No 7, with brokers quoting at 12\$200-12\$400, and on the following day the sales were estimated at about 15,000 bags, with the market considered steady at 12\$200, and with brokers' quotations at 12\$000-12\$200. During the remaining three working days of the week only some 17,000 bags have been sold, with American ideas unknown, although there was a report that a hint of 11\$500 met no response on the part of sellers. This morning the over firm, and as exchange is quoted at

Santos has been quiet. On the 3rd «good average» was quoted at \$5050 per 10 kilos, which was advanced to \$5000 on the following day, but on the 5th, eve of a holiday, the market closed nominal, with \$\$800 quoted on the 9th and on Saturday \$\$600 was quoted with the close quiet. Receipts during the week were 111,723 bags, against \$7,804 bags for the preceding week; sales only 25,000 bags; shipments 10,000 bags for the United States and 152,000 bags for Europe and stocks on Saturday evening were estimated to be about \$12,000 turday evening were estimated to be about \$12,000

Imports.

Everything seems to have continued quiet, and with one or two exceptions receipts of all articles are trifling. The weakness in exchange, however, appears to have kept dealers' prices fairly steady. Flour is lower again, with dealers still reducing their stocks, although they must be realizing at under cost. A cargo of codfish is in, and prices are unchanged, and we have received no lard, nor pork. Three cargoes, over 100,000 bags, of Rangoon rice have arrived, but as yet dealers have made no changes in prices. A large cargo of Pitch pine, four months at sea, and a cargo of Swedish to a soan and candle factory have come in; the markets are all nominally unchanged with White pine firm. There have been no receipts of kerosene, turpentine, rosin, nor cement. No Indian corn has arrived and good grain is quoted higher, but there is still a large quantity of doubtful stock on hand. Exchange has decline 1 to 6 % d. for bank sterling, with business said to have been done at 6 13/16. The new depreciation is rather disheartening for importers, who have ordered goods under the influence of the new tariff, but the banks must have their own reasons.

Flour.-The only receipts have been 1,000 bags, or 500 brls, per Asiatic Prince from the River Plate, The market is still reported quiet, but dealers seem to have delivered about 5,000 brls, foreign during the week, at prices, however, that probably do not cover cost. Stocks are now estimated to be about 10,000 brls of which 4,000 American in first hands, and quotations are lower 15000 per brl. all around, viz :

| Trieste | | nominal. |

| River Pl | ate | 44 000-45 000 |
| Local M | ills | 45 000-47 000 |

Codfish .- The Union brought 2,782 tubs from Paspebiac. The usual retail movement continues, but we hear of no changes in quotations, viz. 50500-54500 for Gaspe, and 45500-48500 for Halifax, tubs, with Norwegian cases at 405000-505000.

Lard.—Receipts nil. Dealers have advanced quotations to 760-7 o rs. per lb. for American, with native unchanged at 1\$300-1\$400 per kilogramme.

Pork .- There have been no receipts. Retailers now quote American at 1\$460-1\$500, and native at 950-1\$500, per kilogramme.

Rice.—The supply has been large, viz: 27,358 bags per Glanivor, 58,749 per Lauriston and 31,180 per Maelgievu, from Rangoon, but dealers continue last quotations of 225500-245000, per bag for Indian and 25\$000-32\$000 for native

Pitch Pine.—The Macedon brought 1.104.007 feet from Sabine Pass. The market is nominally unchanged at \$05000—\$15000 per doz.

White Pine .- Receipts nil and the market firm at

Spruce Pine .- There is nothing new.

Swedish Pine. - Receipts 1,121 doz. per Ilma. from Wisby to a soap and candle factory. The market is nominally unchanged at 42\$000-44\$000 per doz. for red and 835000-855000 for white deals.

Kerosene.—Receipts nil and we hear of no changes in last quotations of \$500 per case for American and \$500 for local refined.

Turpentine,-Last quotations of 1\$080-1\$100 per kilogramme may be continued, and there have been

Rosin.-Receipts nil, and we hear of no changes in dealers' quotations, viz: 25\$000-30\$000 per brl., according to quality.

Cement. — We may continue last quotations of 16\$000—20\$000 per brl. for British, 12\$500—17\$000 for Belgian and German and 18\$000—22\$000 for French.

Indian Corn.—There have been no receipts from the River Plate, and sound grain from this quarter is quoted at 95000—3500 per bag. Native corn is still retailing at 85800-105000 per bag.

Bran.—The local mills are lower again at 4\$700—4\$800 per bag, and no foreign has come in.

Hay-The Asiatic Prince brought 9,676 bales from Rosario. Last quotations of 160-180 rs. per kilogramme, according to quality, are unchanged.

Coal .- Receipts since our last report have been 4.254 tons per Bellaisla, from Cardiff 3.754 * White Cross do 1,921 * Arcadia, from Ardrossan Mary, from Glasgow 2.144 * Prince Louis, from Leith.

All to dealers or companies,

Rum.—The receipts coastwise have been 375 pipes' 25 brls. Dealers have made no changes in their quo

SEA SICKNESS

26 cases were treated on boards s "Olin-da" by Dr. Ernani Pinto with Tinture of Ne-ctandra and of these, 22 cases were completely cured, and the remaining four be-

The illustrious naval surgeon Dr. Henrique Mangeon says that "during voyages on men of war I have had occasion to use Tinture of Nectandra Amara of Mr., Antero Leivas against sen sickness and always with excellent results.

Numberless testimonials of travellers justify the results obtained by these distin-guished physicians, with the Tinture and pills of the Nectandra Amara against sea-

In order to facilitate the use of this medicine a propectus accompanies each bottle written in the Portuguese, English and French languages.

N. B. The Nectandra Amara pills are for-mulated with the same doses of the Nectandra, in order that they may be sent by post all over the world with the least possible delay to supply the want of the Wine, Elixir and Tinture of Nectandra Amara, which are liquid and cannot, therefore, be transported by the same rapid and sure

For sea sickness, nausea in pregnancy, impoverishment of blood, weakness of the legs and convalescency after long and sirious illness, the pills should be ground and disolved in a small glass of Port wine in order that they may be taken as a figuid to insure a prompt action; it is also to facilitate for adults and children who cannot take dry pills, and in this case they can be di-solved in pure water if no wine is to be

Persons who have no connections here and who may desire to have these most useful palls can obtain them by applying direct to the proprietsr who undertakes to remail orders by registered post to any part of Brazil, or abroad for the small sum of 25300 per box, 125600 for 6 and 20\$800 for 12 boxes.

NECTANDRA AMARA The discovery of this wonderful product

of the Brazilian flora has furnished a powerful and efficacious remedy not only for sea-sickness, but also for the nausea felt in pregnancy and that which results from the motion of the train on railways, as well as for such diseases of the stomach and bowels as require a good tonic, carminative, diuretic or requistor for promoting menstruation.

The «Nectandra Amara Pills» are prepared with all scientific precautions for their perfect preservation and are put up in strong boxes, so that they may be forwarded by post in filling orders from all parts of the world. They are accompanied with printed directions in three languages -Portuguese, English and French-so that their therapeutic effects and the manner of taking them may be readily understood.

All orders addressed to the manufacturer, accompanied by the money and the postoffice address of the applicant, will be promptly filled and the pills will beforwarded, registered by post, at the following rates: - Per single box, 25800; per half dozen boxes, 12\$600; per dozen boxes

Address of manufacturer:-Joaquim Bueno de Miranda, Rua de S. Pedro, N. 72, 1.º andar, Rio de Janeiro, Brazil.
