1

Progressive-scan instead of half-frame blur

Mega pixel sensor and image processing inside camera with digital white balance generates sharp and true color images at every scale

2

Sun and backlight compensation

CMOS-sensor without autoiris, digital contrast enhancement and configurable exposure measurement zones guarantee optimal exposure control

3

Dual camera technology: 2-in-1

Two possible camera views with picture-in-picture technology or 180° panoramic view; one Dual-Fixdome camera with 2.5 megapixel is enough

4

Long-term, high-performance Terabyte recording included

Event detection and ring buffer recording by the camera itself allow recording of 40 smooth video streams on a single PC (1200 VGA images/s)

5

Simultaneous recording, event search and live viewing

Live video for multiple users, recording and event search simultaneously possible in seconds from anywhere in the world via network

6

Very low network load

Efficient MxPEG video codec, motion detection based recording and video buffering inside camera guarantee a very low network load

7

Bridging of recording during network failures

Internal camera ring buffer bridges network failures and bandwidth fluctuations of wireless links (WLAN/UMTS) for several minutes

8

Day & night maintenance free

Unique Day/Night camera technology without moving parts guarantees extreme light sensitivity and ensures long-term reliability

9

Audio and SIP telephony

Lip-synchronized audio (live & recording); each camera is a video IP telephone based on SIP standard with automatic alarm call and remote control

10

MxControlCenter included

Dual screen technology with building plans, free camera positioning, event search, image processing, lens distortion correction and PTZ support

Video-Management-
Software

1

Increased resolution reduces amount of cameras needed

1536-line, high-resolution sensors give a better overview and allow monitoring an entire room with just one camera from the corner

2

Reduced installation costs at any distance

Standard Ethernet connection enables the use of common network components such as fiber, copper and wireless (WLAN)

3

Intelligent recording technology reduces required storage

Decentralized recording technology in the camera software puts less strain on PCs and reduces the amount of storage PCs (DVRs) by 10 times

4

Event-controlled image rate minimizes storage costs

Event-driven, automatically adjusted recording frame rate based on event or sensor action reduces amount of data and storage costs

5

No additional power and no heating required

Anti-fogging without heating allows usage of standard PoE technology to power the system via network and saves costs of power cabling

6

Backup power requirement reduced by 8 times

Low power consumption, 3 Watt, enables year-round (no heating required) PoE with one centralized UPS from installation room via network

7

Robust and practically maintenance free

Fiberglass-reinforced composite housing with built-in cable protection and no mechanical moving parts (no autoiris) guarantees longevity

8

No software and no licence costs

Control and recording software is integrated in the camera and is free of charge; new functions are available via free software downloads

9

Unlimited scalability and high return of investment

While in use, more cameras and storage can be added at any time; image format, frame rate & recording parameters can be camera specific

10

Additional functions and other extras included

Audio support, lens, wall mount and weatherproof housing (-30° .. 60°C; -22° .. 140°F) are included; microphone & speaker available in certain models

Video-Management-
Software

High Performance Video Management

MOBOTIX, a solutions provider, presents the **MxControlCenter**, a video management system that can configure not only **MOBOTIX** cameras, but also IP and analog cameras from other vendors. The **MxControlCenter** offers a wide variety of functions that are either not present in conventional video management systems or only with considerable restrictions.

Thanks to the professional control center with fast live image display and user-friendly search function, you always have everything in sight, even in systems with many cameras. Relevant events are exported to AVI format.

The **MxControlCenter** also serves as site plan software. You can save different building plans in JPG image format. A specified camera can be immediately selected by clicking on the freely positioned camera symbol.

The integrated alarm management system makes it much easier to process events: you are presented with a detailed overview of the status of your system and reliably informed of any new events occurring. Alarm indications (visual or by audio signal) can be individually configured.

An efficient tool is needed for camera management, particularly if there are many IP cameras in the network. **MxControlCenter** also supports this. New cameras in the network are automatically detected and settings can be transferred to all cameras at the same time using the configuration tools, making software updates extremely easy.

Features Overview

- Professional full version included in every MOBOTIX camera
- No limitations on number of users or cameras, no license fees
- Remote configuration via IP or ISDN with alarm and change in layout
- Event search with time tracking over multiple cameras
- Image post-processing (contrast, zoom, lens distortion)
- Supports analog and digital PTZ cameras
- hierarchical structure of layouts + plans

Hemispheric Q24M

Description

MOBOTIX ultra-compact, weatherproof IP-Dome camera is so inconspicuous that many do not recognize it to be a camera. Thanks to its 360° allround view, the camera can monitor and record, event-driven, an entire room.

- Hemispherical allround view for complete room coverage
- Digital, continuous zooming and panning
- Robust and maintenance-free, without mechanically moving parts
- Event-controlled, complete room recording directly in the camera
- Alarm function, speaker and microphone integrated
- Discreet and inconspicuous design

Delivery Options

The camera is offered with a **Hemispheric 360°** lens (11 mm) or with a 90° lens (22 mm) both as day camera.

Available Accessories

MX-Q24M-Vandal-ESPO

- Stainless steel vandalism housing incl. lens protection
- matt, polished

198 €

Details see page 49

MX-OPT-IC

- In-Ceiling set incl. mounting parts
- Easy mounting from front
- Suitable for hidden surveillance
- 150 mm installation standard

98 €

Details see page 48

MX-OPT-AP

- Consists of On-Wall Mount and mounting parts zur 10° geneigten Montage
- Also conforms to U.S. installation standards
- Reliably protects the cabling and allows integrating additional modules within the On-Wall Mount

98 €

Details see page 48

MX-OPT-WH

- Consists of Outdoor Wall Mount and mounting parts
- Covers RJ45 wall outlets
- Space for expansion modules (battery, 3g, WiFi, etc.)
- Easily mounted to poles using Pole Mount

98 €

Details see page 48

MX-ExtIO

- Microphone/speaker
- PIR sensor for motion detection, temperature sensor
- Integrated switch functions (2 x Input, 2 x Output)

198 €

Details see page 44

Internal Flash Recording

MOBOTIX camera + integrated 16 GB storage device

Internal flash recording enables **MOBOTIX** to integrate recording capacities directly in the camera, thus replacing the PC and digital video recorders (DVRs) previously required. This new feature adds a further benefit to the decentralised **MOBOTIX** concept: network load is reduced to a minimum as data no longer has to be transported via the network, even for long-term storage purposes. Mechanical moving parts, either in the camera itself or in the form of a fixed disk in the PC, are a thing of the past for the new **MOBOTIX** solution. Thus no time is wasted on the installation, configuration and maintenance of external devices - the camera becomes a stand-alone solution.

An **16 GB-memory** integrated in the camera ensures that image data is archived both reliably and permanently. As it is stored in the camera itself, even narrow-band networks cease to be a problem, as storage takes place at a high image rate ahead of the network "bottleneck". The network only has to be used if the recorded image material needs to be read out for research purposes. Moreover, images are recorded in purely digital fashion without the use of moving parts, rendering the maintenance of PC recorders or DVRs a thing of the past. The **MOBOTIX** "robust", "low-maintenance" and "weatherproof" quality criteria, plus the wide temperature range of -30 °C to +60 °C (-22°F to + 140°F), thus also apply to this enhancement.

The application fields for cameras with an integrated long-term storage system vary widely, ranging from the mobile sector via long-term documentation for building sites all the way to use in weekend homes, banks and post offices.

Internal flash recording is available for the Secure models of the camera series **M12**, **D12** and **M22**, as well as the **V12** vandalism-proof model. The medium is installed at the factory.

Available for SECURE-Models:

R16

M22M-SEC-D22-R16

Allround-Camera for indoor- and outdoor use. image resolution up to 3MEGA-Pixel, 2048 x 1536 pixels

from 998 €

Details see page 25

R16

M12D-SEC-DNight-D43N43-R16

Dual-Outdoor-Camera, highest Quality in color and best night sensitivity, image resolution up to 3MEGA-Pixel, 2048 x 1536 pixels

from 1498 €

Details see page 30

R16

D12Di-SEC-D43N43-R16

Dual-Dome-Camera, highest Quality in color and best night sensitivity, image resolution up to 3MEGA-Pixel, 2048 x 1536 pixels

from 1498 €

Details see pagee 35

R16

V12-SEC-D22D43-R16

Vandalism protected indoor camera, image resolution up to 3MEGA-Pixel, 2048 x 1536 pixels

from 2748 €

Details see page 40

DualNight M12D

High-quality network cameras for day-and-night use!

- Dual outdoor camera (IP 65) with brilliant image quality during the day and highest sensitivity at night thanks to two separate image sensors for color and B/W
- Ideal for challenging lighting conditions or IR lighting
- PIR sensor for motion detection in the dark
- Microphone and speaker with full audio functionality (VoIP and SIP telephony, including Video SIP)
- Integrated ISDN S0 connection (telephony, Internet)
- Integrated switch functions (1 x input, 1 x output), RS232
- Concealed cabling for RJ45 wall outlet

DualNight D12D

Universal Fixdome-network cameras for use in environments with elegant design requirements!

- Dual dome camera with brilliant image quality during the day and highest sensitivity at night thanks to two individual image sensors for color and B/W
- 180° panorama with 2,5 megapixels
- PIR sensor for motion detection in the dark
- Microphone and speaker with full audio functionality (VoIP and SIP telephony, including Video SIP)
- Integrated ISDN S0 connection (telephony, Internet)
- Integrated switch functions (1 x input, 1 x output), RS232
- Outdoor wall mount (IP65), space for expansion modules

Allround M22M

Highest image quality at the best price!

- Outdoor camera (IP65) with exchangeable lenses for indoor/outdoor use, available as Day or Night version
- Lenses available from Super Wide-Angle (90°) to tele (15°)
- Exposure time 1 lux at 1/60 sec; 0,05 lux at 1 sec
- Microphone and speaker with full audio functionality (VoIP and SIP telephony, including Video SIP)
- Universal wall/ceiling mount perfectly covers RJ45 outlet and conceals the cabling
- Flexible use due to replaceable lenses, removable lens cap
- Compact housing made of robust, fiberglass-reinforced composite

MonoDome D24M

Attractively-Priced, High-Resolution Dome camera!

- Outdoor dome camera (IP65) with exchangeable lenses and optional Vandalism-, On-Wall and In-Ceiling sets
- Lenses available from Super Wide-Angle (90°) to tele (15°)
- Exposure time 1 lux at 1/60 sec; 0,05 lux at 1 sec
- Vandalism set (optional) consists of stainless steel ring (polished, matt, powder-coated) and reinforced dome
- On-Wall set (optional) features concealed cabling and space for expansion modules (batteries, UMTS, WiFi, etc.)
- Outdoor wall mount (IP65) (optional) with space for expansion modules

LPF-Cameras: M12D-SEC-LPF

Description

MOBOTIX LPF models are cameras that are specially equipped in the factory for automatic number plate recognition (ANPR). The MOBOTIX LPF cameras have special optics that work with infrared light to provide optimal imaging conditions for automatic number plate recognition. The recognition comprises five steps: localizing the number plate in the image, determining the spatial position, normalization, segmenting the characters and, finally, character recognition.

The quality of the entire process depends on the quality of the results of each individual step. The MOBOTIX LPF cameras make a valuable contribution particularly in "localization" and "character segmentation". Reflecting surfaces stand out clearly from the rest of the background; contrast is very clear, thus producing clear outlines and making accurate definition of the letters possible. The cameras can be used around the clock and, when combined with an infrared emitter, deliver excellent results under all lighting conditions.

In addition to the sensor with the special optics, MOBOTIX LPF cameras are equipped with a B/W sensor (megapixel resolution of 1280x960 pixels), so that in addition to the image provided for analysis, an overview image of the scene exists that can be used for evidence (e.g. driver identification).

Q24Mi-Basic

Q24M Indoor (IP54, -20°C to +60°C, -22°F to +122°F)

Features

Resolution max.	Image Storage	Sensitivity	Power Supply	Internal audio	Interfaces
640 x 480	2 MB	1 lux	PoE (IEEE 802.3af)	-	Ethernet 10/100

Variations

Protection class	Operational area	Image sensors	Lens options day
IP54	Indoor	Mono	D11, D22

Features

Resolution

VGA 640x480, CMOS sensor **color**,
Sensitivity (color): 1 lux (t = 1/60 sec) / 0,05 lux (t = 1/1 sec),
Image formats: 640x480, 320x240, 160x120 pixels,
software panning/tilting via MxControlCenter/MxEasy

Lenses

L11 Hemispheric 11mm (360°Hx180°V; in 10m: 20,0m x 13,3 m) for hemispheric allround view
L22 super wide-angle 22 mm (90°Hx67°V; in 10m: 20,0m x 13,3 m)

Max. Frame Rate

16 fps VGA • 16 fps CIF

Interfaces

10/100 Ethernet (RJ45)

Sensors

Video motion detection, exposure windows

Features

Web server, FTP client, e-Mail, Multiview, recorder/player, softbuttons, IP Notify (send, receive) for external management systems, IP announcement, PDA web pages, MxPEG Live, logo generator, snapshot recording (10 pre-, 10 post-alarm images), video recording (16 fps VGA), video recording (events), video recording (scheduled); internal event- and time-controlled storage

Video Ring Buffer

2 MB internal image/event storage (approx. 100 images 320x240, high quality)

Optional Accessories

MOBOTIX PoE adapter (MX-NPA-PoE-Set-DE) - Power is only supplied using **PoE** (IEEE 802.3af)

Dimensions

Diameter: 160 x 50 mm

Standard Delivery

Housing made of high-resistance composites (PBT-PC), white, lens protection (transparent polycarbonate), manual, patch cable S/FTP 8-wire 50 cm

Warranty

12 months

Article Number	Details	EVP Euro
MX-Q24Mi-Basic-D11	Indoor- Hemispheric Kamera , incl. 1x Hemispheric 360° L11 day (color) (11mm)	598
MX-Q24Mi-Basic-D22	Indoor- Hemispheric Kamera , incl. 1x Super wide-angle L22 day (color) (22mm)	598

Q24M-Sec

Q24M In/Outdoor, weatherproof
(IP65, -30°C to +60°C, -22°F to +140°F)

Features

Resolution max.	Image Storage	Internal DVR	Sensitivity	Power Supply	Internal audio	Interfaces
2048 x 1536	64 MB	MicroSD, 32 GB	1 lux	PoE (IEEE 802.3af)	speaker / microphone	Ethernet 10/100, USB

Variations

Protection class	Operational area	Image sensors	Lens options day
IP65	Outdoor, Indoor	Mono	D11, D22

Features

Resolution

3MEGA, 2048x1536, CMOS sensor **color**

Sensitivity (color): 1 lux (t = 1/60 sec) / 0,05 lux (t = 1/1 sec),

Image formats: 2048x1536, 1280x960, 640x480, 320x240, 160x120 pixels, custom formats (e.g. 1000 x 400)

Zoom: Digital zoom 2x, 4x, 8x, variable up to 8x, camera software integrated panning/tilting

Lenses

L11 Hemispheric 11mm (360°Hx180°V; in 10m: 20,0m x 13,3 m) for hemispheric allround view,
L22 super wide-angle 22 mm (90°Hx67°V; in 10m: 20,0m x 13,3 m)

Max. Frame Rate

20 fps 3MEGA • 30 fps MEGA • 30 fps VGA • 30 fps TV-PAL • 30 fps CIF

Interfaces

10/100 Ethernet (RJ45), USB

Sensors

Video motion detection, exposure windows, microphone

Features

Web server, FTP client, e-Mail, Multiview, recorder/player, softbuttons; IP Notify (send, receive) for external management systems, integrated VoIP from/to browser, SIP video telephony and alarm messaging, IP announcement, PDA web pages, MxPEG Live, logo generator, snapshot recording (10 pre-, 10 post-alarm images), video audio recording (30 fps VGA), video audio recording (events), video audio recording (scheduled); event- and time-controlled storage: internal, via FTP on web server or **PC on the LAN** (Windows/Linux NFS/Mac); images are directly accessible, no FTP required (although possible)

Secure Model Extras: scheduled privacy zones, flexible event logic, Master/Slave arming

Video Ring Buffer

64 MB internal image/event storage (approx. 4.000 images 320x240, high quality);

Internal DVR

MicroSD slot (camera internal recording up to 32 GB, capacity approx. 1,000,000 images at VGA resolution or 300,000 images in Megapixel resolution or 150,000 images in 3MEGA resolution, good quality)

Optional Accessories

MOBOTIX PoE adapter (MX-NPA-PoE-Set-DE) - Power is only supplied using **PoE** (IEEE 802.3af)

Dimensions

Diameter: 160 x 50 mm

Standard Delivery

Housing made of high-resistance composites (PBT-PC), white, lens protection (transparent polycarbonate), manual, patch cable S/FTP 8-wire 50 cm, 4 GB MicroSD card

Warranty

12 months

D24M-Sec-Night

Outdoor weatherproof (IP65)
(-30°C to +60°C, -22°F to +140°F)

Features

Resolution max.	Image Storage	Sensitivity	Power Supply	Internal audio	Interfaces
1280 x 960	64 MB	0,1 lux	PoE (IEEE 802.3af)	-	Ethernet 10/100, USB

Variations

Protection class	Operational area	Image sensors	Standard lens	Lens options
IP65	Outdoor, Indoor	Mono	-	N22, N32, N43, N65, N135

available shortly

Features

Resolution

MEGA, 1280x960, CMOS sensor **black/white** (IR-sensitive),
Sensitivity: 0,1 lux (t = 1/60 sec) / 0,005 lux (t = 1/1 sec),
Image formats: 1280x960, 640x480, 320x240, 160x120 pixels, custom formats (e.g. 1000 x 400)
Zoom: Digital zoom 2x, 4x, 8x, variable up to 8x, software panning/tilting

Lenses

All lens options available!
L22 Super wide-angle 22 mm (90°Hx67°V; in 10m: 20,0m x 13,3 m);
L32 wide-angle 32 mm (60°Hx45°V, in 10m: 11,5m x 8,2m),
L43 wide-angle 43 mm (45°Hx34°V, in 10m: 8,2m x 6,1m),
L65 tele 65 mm (31°Hx23°V, in 10m: 5,5m x 4,0m),
L135 tele 135 mm (15°Hx11°V, in 10m: 2,6m x 1,9m)

Max. Frame Rate

30 fps MEGA • 30 fps VGA • 30 fps TV-PAL • 30 fps CIF

Interfaces

10/100 Ethernet (RJ45), USB master (for MX expansion modules, e. g. ExtIO)

Sensors

Video motion detection, exposure windows, microphone (ext.)

Features

Web server, FTP client, e-Mail, Multiview, recorder/player, softbuttons, IP Notify (send, receive) for external management systems, integrated VoIP from/to the browser, SIP video telephony and alarm messaging, IP announcement, PDA web pages, MxPEG Live, logo generator, snapshot recording (50 pre-, 50 post-alarm images), video audio recording (30 fps VGA), video audio recording (events), video audio recording (scheduled); event- and time-controlled storage: internal, via FTP on web server or **PC on the LAN** (Windows/Linux NFS/Mac); images are directly accessible, no FTP required (although possible);
Secure Model Extras: scheduled privacy zones, flexible event logic, Master/Slave arming

Video Ring Buffer

64 MB internal image/event storage (approx. 4.000 images 320x240, high quality);

Internal DVR

Up to 16 GB (MicroSD slot) SD Recording (approx. 600.000 images VGA, 200.000 images MEGA, high quality),

Optional Accessories

MOBOTIX PoE adapter (MX-NPA-PoE-Set-DE) - Power is only supplied using **PoE** (IEEE 802.3af)
Vandalism set consists of stainless steel ring and reinforced dome, **On-Wall set** features concealed cabling and space for extension modules, **In-Ceiling Set** for concealed installation in ceilings, **Outdoor wall mount** covers RJ45 wall outlets, with space for expansion modules, **Corner & Pole Mount**

Dimensions

Ø 160 mm x 85,5 mm

Standard Delivery

Weatherproof housing (IP65) made of fiberglass-reinforced composites (PBT-30GF), white metallic, manual, patch cable S/FTP 8-wire 50 cm (double shielded), Allen wrench, 4 GB MicroSD card

Warranty

12 months

Optional Accessories

External power supply (MX-NPA-Set) is only required if power is not supplied using **PoE**

Outdoor wall mount (fiberglass-reinforced composites PBT) covers up RJ45 outlet, IP65, stainless steel mounting supply, covers and dowels, polyurethane sealing for mounting to wall, ample room inside for extras (WiFi, etc.)

Dimensions

Diameter: 202 x 108 mm; Wall mount and weather protection (Outdoor models): 295 x 160 x 270 mm

Standard Delivery

Housing made of high-resistance composites (PBT-PC), white, shockproof polycarbonate dome (1 transparent) manual, patch cable S/FTP yellow 8-wire 50 cm (double-shielded)

Warranty

12 months

MX-D12Di-Sec-R16

Indoor **MEGA Dual Day/Night Internal Flash Recording, excl. camera modules, 150€ each**

1198

MX-D12-Module-D22 or N22

Camera module Day or **Night** incl. L22 Super wide-angle lens

150 each

MX-WH-Dome

Wall Mount (illustration p. 51)

148

MX-D12D-OPT-WHMH-Set

Pole Mount (MX-MH-Dome-ESWS) and Wall Mount (MX-WH-Dome) Set

198

MX-D12D-Vandal-ESMA

Vandalism set matt (illustration p. 50)

148

D12Di-Sec-R16-180°

Internal Flash Recording

D12 *without* Outdoor wall mount (IP54, -30°C to +60°C, -22°F to +140°F), with Outdoor wall mount, weatherproof (IP65, -30°C to +60°C, -22°F to +140°F)

Features

Resolution max.	Image Storage	Internal Flash Recording	Sensitivity	Power Supply	Internal audio	Interfaces
2560 x 960	64 MB	16 GB	1 lux 0,1 lux (Night)	PoE/NPA	Micro/Speaker	RS232, I/O, Audio, ISDN

Variations

Outdoor	Indoor	Mono	Dual	Lens options day	Lens options night
IP65 (incl wall mount)	IP54 (excl. wall mount)	X	X	2 x D22	2 x N22

Features

Resolution

2,5 MEGA 1280x960, CMOS sensor *color*, or **MEGA** 1280x960, CMOS sensor *B/W (IR-sensitive)*,

Sensitivity (color): 1 lux (t = 1/60 sec) / 0,05 lux (t = 1/1 sec),

Sensitivity (BW): 0,1 lux (t = 1/60 sec) / 0,005 lux (t = 1/1 sec),

Image formats: 2560x960, 1280x480, 640x240 pixels, custom formats (e.g. 1000 x 400)

Zoom: Digital zoom 2x, 4x, 8x, variable up to 8x, software panning/tilting

Lenses

2x L22 super wide-angle 22 mm (90°Hx67°V; in 10m: 20,0m x 13,3 m) for panorama

Camera modules and lenses are configured at the factory (panorama function)

Max. Frame Rate

15 fps VGA • 30 fps CIF • 5 fps MEGA, each in double image mode (panorama function)

Interfaces

10/100 Ethernet (RJ45), ISDN S0 (RJ45), RS232 (D Sub 15 HD socket), 1 x In, 1 x Out (galv. isolated from power supply)

Sensors

Video motion detection, exposure windows, PIR motion detector, microphone

Features

Web server, FTP client, e-Mail, ISDN PPP server/client, Multiview, recorder/player, softbuttons, RS232 data logger, RS232 Web terminal; IP Notify (send, receive) for external management systems, integrated VoIP from/ to browser, ISDN telephony, SIP video telephony and alarm messaging, IP announcement, PDA web pages, MxPEG Live, logo generator, snapshot recording (10 pre-, 10 post-alarm images), video audio recording (30 fps VGA), video audio recording (events), video audio recording (scheduled); event- and time-controlled storage: internal, via FTP on web server or **PC on the LAN** (Windows/Linux NFS/Mac); images are directly accessible, no FTP required (although possible)

Secure Model Extras: scheduled privacy zones, flexible event logic, Master/Slave arming

Video Ring Buffer

64 MB internal image/event storage (approx. 4.000 images 320x240, high quality);

Internal DVR

16 GB internal Flash Recording (approx. 600.000 images VGA, 200.000 images MEGA, high quality)

Optional Accessories

External power supply (MX-NPA-Set) is only required if power is not supplied using **PoE**

Outdoor wall mount (fiberglass-reinforced composites PBT) covers up RJ45 outlet, IP65, stainless steel mounting supply, covers and dowels, polyurethane sealing for mounting to wall, ample room inside for extras (WiFi, etc.)

Dimensions

Diameter: 202 x 108 mm; Wall mount and weather protection (Outdoor models): 295 x 160 x 270 mm

Standard Delivery

Housing made of high-resistance composites (PBT-PC), white, shockproof polycarbonate dome (1 transparent) manual, patch cable S/FTP yellow 8-wire 50 cm (double-shielded)

M22M-IT

Outdoor weatherproof (IP65)
(-30°C to +60°C, -22°F to +140°F)

Features

Resolution max.	Image Storage	Sensitivity	Power Supply	Internal audio	Interfaces
640 x 480	32 MByte	1 lux 0,1 lux (Night)	PoE/NPA	Micro/Speaker	USB

Variations

Outdoor	Indoor	Mono	Dual	Lens options
IP65	IP54	X	-	D22, D32, D43, D65, D135

Features

Resolution

VGA, 640x480, CMOS sensor **color**, or CMOS sensor **black/white** (IR-sensitive),
Sensitivity (color): 1 lux (t = 1/60 sec) / 0,05 lux (t = 1/1 sec),
Sensitivity (B/W): 0,1 lux (t = 1/60 sec) / 0,005 lux (t = 1/1 sec),
Image formats: 640x480, 320x240, 160x120 pixels
Zoom: Digital zoom 2x, 4x, 8x, variable up to 8x, software panning/tilting

Lenses

Factory Standard: L22 Super wide-angle 22 mm (90°Hx67°V; in 10m: 20,0m x 13,3 m);
All lens options available!
L32 wide-angle 32 mm (60°Hx45°V, in 10m: 11,5m x 8,2m),
L43 wide-angle 43 mm (45°Hx34°V, in 10m: 8,2m x 6,1m),
L65 tele 65 mm (31°Hx23°V, in 10m: 5,5m x 4,0m),
L135 tele 135 mm (15°Hx11°V, in 10m: 2,6m x 1,9m), available upon request for additional 60€ each.

Max. Frame Rate

30 fps VGA • 30 fps CIF

Interfaces

10/100 Ethernet (RJ45) , USB master (for MX expansion modules)

Sensors

Video motion detection, exposure windows, microphone

Features

Web server, FTP client, e-Mail, Multiview, recorder/player, softbuttons, IP Notify (send, receive), for external management system, SIP video telephony, IP announcement, PDA web pages, MxPEG Live, logo generator, snapshot recording (10 pre-, 10 post-alarm images), video audio recording (30 fps VGA), video audio recording (events), video audio recording (scheduled); event- and time-controlled storage: internal, via FTP on web server or **PC on the LAN** (Windows/Linux NFS/Mac); images are directly accessible, no FTP required (although possible)

Video Ring Buffer

32 MB internal image/event storage (approx. 2.000 images 320x240, high quality);

Optional Accessories

External power supply (MX-NPA-Set) is only required if power is not supplied using **PoE**

Dimensions

with SecureFlex in wall mount position: 137 x 150 x 200 mm (WxHxT)
with SecureFlex in ceiling mount position: 137 x 200 x 187 mm (WxHxT)

Standard Delivery

Weatherproof housing (IP65) made of fiberglass-reinforced composites (PBT-30GF), white metallic, Polycarbonate lens cover, spare lens cover, manual, patch cable S/FTP white 8-wire 50 cm (double-shielded), Allen wrench, SecureFlex mount with concealed cabling covers RJ45 wall outlets, stainless steel mounting set

Secure Model Extras: scheduled privacy zones, flexible event logic, Master/Slave arming

Video Ring Buffer

64 MB internal image/event storage (approx.4.000 images 320x240, high quality)

Internal DVR

16 GB internal Flash Recording (approx. 600.000 images VGA, 200.000 images MEGA, high quality)

Optional Accessories

External power supply (MX-NPA-Set) is only required if power is not supplied using **PoE**

Dimensions

with SecureFlex in wall mount position: 137 x 150 x 200 mm (WxHxT)

with SecureFlex in ceiling mount position: 137 x 200 x 187 mm (WxHxT)

Standard Delivery

Weatherproof housing (IP65) made of fiberglass-reinforced composites (PBT-30GF), white metallic, Polycarbonate lens cover, spare lens cover, manual, patch cable S/FTP white 8-wire 50 cm (double-shielded), Allen wrench, SecureFlex mount with concealed cabling covers RJ45 wall outlets, stainless steel mounting set

Warranty

12 months

M12M-Web

Outdoor weatherproof (IP65)
(-30°C to +60°C, -22°F to +140°F)

Features

Resolution max.	Image Storage	Sensitivity	Power Supply	Internal audio	Interfaces
2048 x 1536	12 MByte	1 lux	PoE/NPA	Speaker	ISDN

Variations

Outdoor	Indoor	Mono	Dual	Lens options day
IP65	IP54	X	-	D43

Features

Resolution

3MEGA, 2048x1536, CMOS sensor **color**,

Sensitivity: 1 lux (t = 1/60 sec) / 0,05 lux (t = 1/1 sec),

Image formats: 2048x1536, 1280x960, 640x480, 320x240, 160x120 pixels, custom formats (e.g. 1000 x 400)

Lenses

L43 wide-angle (45° x 35°); f = 8 mm (equiv. ~43 mm on 35mm systems), in 10 m: ca. 8,2 m x 6,1 m

Max. Frame Rate

30 fps VGA • 30 fps CIF • 14 fps MEGA • 10 fps 3MEGA

Interfaces

10/100 Ethernet (RJ45), ISDN-S0 (RJ45)

Sensors

Video motion detection, exposure windows, PIR motion detector

Features

Web server, FTP client, e-Mail, ISDN PPP server/client, Multiview, recorder/player, softbuttons, PDA web pages, MxPEG Live, **logo generator**, **software zoom (2x, 4x)**, snapshot recording (3 pre-, 3 post-alarm images), Software installation is not necessary; event and/or scheduled recording: internal or via FTP on web server or on network connected PC (Windows/Linux NFS/Mac)

Video Ring Buffer

12 MB internal image/event storage (~750 images 320x240, high quality)

Optional Accessories

External power supply (MX-NPA-Set) is only required if power is not supplied using **PoE**

Dimensions

with SecureFlex in wall mount position: 137 x 150 x 200 mm (WxHxT)

with SecureFlex in ceiling mount position: 137 x 200 x 187 mm (WxHxT)

Standard Delivery

Weatherproof housing (IP65) made of fiberglass-reinforced composites (PBT-30GF), white metallic, manual, patch cable S/FTP white 8-wire 50 cm (double-shielded), Allen wrench

SecureFlex: robust wall/ceiling mount with turn/tilt mount and **concealed** cabling, covers RJ45 wall outlets ==> patented, **tamper-proof** concealed cabling

M12D-IT-DNIGHT

Outdoor weatherproof (IP65)
(-30°C to +60°C, -22°F to +140°F)

Features

Resolution max.	Image Storage	Sensitivity	Power Supply	Internal audio	Interfaces
640 x 480	32 MByte	1 lux 0,1 lux (Night)	PoE/NPA	Micro/Speaker	RS232, I/O, Audio, ISDN

Variations

Outdoor	Indoor	Mono	Dual	Lens options day	Lens options night
IP65	IP54	-	X	D43, D135	N43, N135

Features

Resolution

2 x VGA, 640x480, CMOS sensor **color**, and CMOS sensor **black/white** (IR-sensitive),
Sensitivity (color): 1 lux (t = 1/60 sec) / 0,05 lux (t = 1/1 sec),
Sensitivity (B/W): 0,1 lux (t = 1/60 sec) / 0,005 lux (t = 1/1 sec),
Image formats: 640x480, 320x240, 160x120 pixels
Zoom: Digital zoom 2x, 4x, 8x, variable up to 8x, software panning/tilting

Lenses

L43 wide-angle (45° x 35°); f = 8 mm (equiv. ~43 mm on 35mm systems); in 10 m: ca. 8,2 m x 6,1 m
L135 tele (15° x 11°); f = 25 mm (equiv. ~135 mm on 35mm systems); in 10 m: approx. 2,6 m x 1,9 m
DNight: automatic switching between color and BW sensors depending on illumination; no moving parts,
maintenance-free

Max. Frame Rate

30 fps VGA • 30 fps CIF

Interfaces

10/100 Ethernet (RJ45), ISDN S0 (RJ45), RS232 (D Sub 15 HD socket), 1 x In, 1 x Out (galv. isolated from power supply)

Sensors

Video motion detection, exposure windows, PIR motion detector, microphone

Features

Web server, FTP client, e-Mail, ISDN PPP server/client, MultiView, recorder/player, softbuttons, RS232 data logger, RS232 Web terminal; IP Notify (send, receive), for external management systems, ISDN telephony, SIP video telephony and alarm messaging, IP announcement, PDA web pages, MxPEG Live, logo generator, snapshot recording (10 pre-, 10 post-alarm images), video audio recording (30 fps VGA), video audio recording (events), video audio recording (scheduled); event- and time-controlled storage: internal, via FTP on web server or **PC on the LAN** (Windows/Linux NFS/Mac); images are directly accessible, no FTP required (although possible)

Video Ring Buffer

32 MB internal image/event storage (approx. 2.000 images 320x240, high quality)

Internal DVR

Internal DVR 16 GB SD Recording (approx. 600.000 images VGA, 200.000 images MEGA, high quality)

Optional Accessories

External power supply (MX-NPA-Set) is only required if power is not supplied using **PoE**

Dimensions

with SecureFlex in wall mount position: 137 x 150 x 200 mm (WxHxT)

Features

Resolution

3MEGA, 2048x1536, CMOS sensor *color*, **MEGA** 1280x960, CMOS sensor *B/W (IR-sensitive)*, sensitivity (color): 1 lux (t = 1/60 sec) / 0,05 lux (t = 1/1 sec), sensitivity (BW): 0,1 lux (t = 1/60 sec) / 0,005 lux (t = 1/1 sec), Image formats: 2048x1536, 1280x960, 640x480, 320x240, 160x120 pixels, custom formats (e.g. 1000 x 400)
Zoom: Digital zoom 2x, 4x, 8x, variable up to 8x, software panning/tilting

Lenses

L22 Super wide-angle 22 mm (90°Hx67°V; in 10m: 20,0m x 13,3 m),
L43 wide-angle 43 mm (45°Hx34°V, in 10m: 8,2m x 6,1m)

Max. Frame Rate

30 fps VGA • 30 fps CIF • 14 fps MEGA • 10 fps 3MEGA

Interfaces

10/100 Ethernet (RJ45), ISDN S0 (RJ45), RS232 (D Sub 15 HD socket), 1 x In, 1 x Out (galv. isolated)*

Sensors

Video motion detection, exposure windows, PIR motion detector, microphone

Features

Web server, FTP client, e-Mail, ISDN PPP server/client, Multiview, recorder/player, softbuttons, RS232 data logger, RS232 Web terminal; IP Notify (send, receive) for external management systems, integrated VoIP from/to browser, ISDN telephony, SIP video telephony and alarm messaging, IP announcement, PDA web pages, MxPEG Live, logo generator, snapshot recording (10 pre-, 10 post-alarm images), video audio recording (30 fps VGA), video audio recording (events), video audio recording (scheduled); event- and time-controlled storage: internal, via FTP on web server or **PC on the LAN** (Windows/Linux NFS/Mac); images are directly accessible, no FTP required (although possible)

Secure Model Extras: scheduled privacy zones, flexible event logic, Master/Slave arming

Video Ring Buffer

64 MB internal image/event storage (approx. 4.000 images 320x240, high quality);

Internal DVR

16 GB internal Flash Recording (approx. 600.000 images VGA, 200.000 images MEGA, high quality)

Dimensions

248 x 185 x 153 mm (BxHxT)

Standard Delivery

Vandalism-protected stainless steel housing (3 mm), gray, manual, Allen wrench, stainless steel screws with dowels, patch cable S/FTP yellow 8-wire 3 m (double-shielded), incl. power supply

Warranty

12 months

* Upon request

MX-V12D-Sec-D22D43-R16

Indoor MEGA Internal Flash Recording, vandalism-protected camera for corner mounting, incl. power supply, incl. 2 lenses (make sure to specify the lens types and positions)

2848

MX-V12M-Sec-D22-R16

Indoor MEGA Internal Flash Recording, vandalism-protected camera for corner mounting, incl. power supply, incl. 1 lens (make sure to specify the lens type and position)

2748

Any lens combination with L22 and L43 for left/right/bottom sensors possible (total max. 2 lenses)!

ExtIO-Module

Outdoor weatherproof
(IP65, -30°C to +60°C, -22°F to +140°F)

Features

Power Supply	Output contacts	Input contacts	Internal audio
USB / PoE	8 - 50V~	8 - 50V~	Speaker/Micro

Variations

Outdoor	Einsatzbereich
IP65	Outdoor, Indoor

Features

Interfaces

10BaseT-Ethernet (RJ45), serial interface, USB, terminal strip with 4 contacts for connecting external devices

Sensors

PIR, Temperature, IR-remote sensor, dawn sensor

Features

Connection and controlling of external devices (e.g. lights) as well as sensors, audio sources and loudspeakers is possible. Camera is connected and power supplied via mini USB interface and in the future also via Ethernet (software update).

Signal inputs (galvanically separated):

Signal Input 1: 8-50 V~

Signal Input 2: 8-50 V~

Signal outputs (potential-free):

Signal Output 1: 50 V~

Signal Output 2: 50 V~

Compatibility

Compatible to M12, D12, M22 and D22 camera series, (except basic models) via USB
Compatible to M12, D12, M22, D22, Q22 camera series, (except basic models) via Network

Dimensions

(DxH) 160 x 45 mm

Standard Delivery

Weatherproof housing made of fiberglass-reinforced composites (PBT-30GF), manual, allen wrench, stainless steel screws with dowels

Accessories

All D22 accessories compatible (see page 45)

Warranty

12 months

Article Number	Details	EVP Euro

Resolution

MEGA 1280x960, CMOS-sensor **Black/White** (including LPF special filter, infrared lights required)
MEGA 1280x960, CMOS-Sensor **Black/White** (IR-sensitive),
 Sensitivity: 1 lux (t = 1/60 sec) / 0,05 lux (t = 1/1 sec),
 image formats: 2048x1536, 1280x960, 640x480, 320x240, 160x120 pixels, custom formats (e.g. 1000 x 400)
Zoom: Digital zoom 2x, 4x, 8x, variable up to 8x, software panning/tilting

Lenses

Fixed lens combinations (see model listing)
L22 super wide-angle (90° x 67°); f = 4 mm (equiv. ~22 mm on 35mm systems); in 10m: 20,0m x 13,3 m
L43 wide-angle (45° x 35°); f = 8 mm (equiv. ~43 mm on 35mm systems), in 10 m: ca. 8,3 m x 6,2 m
L135 tele (15° x 11°); f = 25 mm (equiv. ~135 mm on 35mm systems); in 10 m: ca. 2,7 m x 2,0 m
 No mechanical moving parts: **maintenance-free**

Max. Frame Rate

30 fps VGA • 30 fps CIF • 14 fps MEGA

Interfaces

10/100 Ethernet (RJ45), ISDN S0 (RJ45), RS232 (D Sub 15 HD socket), 1 x In, 1 x Out (galv. isolated from power supply)

Sensors

Video motion detection, exposure windows, PIR motion detector, microphone

Features

Web server, FTP client, e-Mail, ISDN PPP server/client, Multiview, recorder/player, softbuttons, RS232 data logger, RS232 Web terminal; IP Notify (send, receive) for external management systems, integrated VoIP from/to browser, ISDN telephony, SIP video telephony and alarm messaging, IP announcement, PDA web pages, MxPEG Live, logo generator, snapshot recording (50 pre-, 50 post-alarm images), video audio recording (30 fps VGA), Video audio recording (events), Video audio recording (scheduled), event- and time-controlled storage: internal, via FTP on web server or **PC on the LAN** (Windows/Linux NFS/Mac); images are directly accessible, no FTP required (although possible)

Video Ring Buffer

64 MB internal image/event storage (approx. 4.000 images 320x240, high quality)

Internal DVR

Internal DVR 16 GB SD Recording (approx. 600.000 images VGA, 200.000 images MEGA, high quality)

Optional Accessories
(p. 47)

External power supply (MX-NPA-Set) is only required if power is not supplied using **PoE**

Dimensions

with SecureFlex in wall mount position: 137 x 150 x 200 mm (WxHxT)
 with SecureFlex in ceiling mount position: 137 x 200 x 187 mm (WxHxT)

Standard Delivery

Weatherproof housing (IP65) made of fiberglass-reinforced composites (PBT-30GF), white metallic, manual, patch cable S/FTP white 8-wire 50 cm (double-shielded), Allen wrench
SecureFlex: robust wall/ceiling mount with turn/tilt mount and **concealed** cabling, covers RJ45 wall outlets ==> patented, **tamper-proof** concealed cabling

Notes

Q24 camera models

- The Q24 camera models can be ordered with L11 or L22 lens.

D24 camera models

- The lenses in D24 camera models can be replaced on site. The lenses are locked into position using retaining rings. The L22 lens in the IT models is set at the factory. The quality is also inspected so that generally no further focusing is required on site.
- All lenses can be used in the D24 camera models.

M22 camera models

- The lenses in M22 camera models can be replaced on site. The lenses are locked into position using retaining rings. The L22 lens in the IT models is set at the factory. The quality is also inspected so that generally no further focusing is required on site.
- All lenses can be used in the M22 camera models.

M12 camera models

- The lenses in the M12 camera models are set and locked into position at the factory (not the L135), meaning that they are adjusted to their optimum focus for the lifetime of the cameras. This provides the advantage that the camera is more robust, particularly in regard to vibrations and shocks (resistance to wind, mast movement).
- Subsequent replacement of the lens (**L43/L135**) by MOBOTIX costs **200 EUR net (300 EUR for both lenses)**. These prices include the lens and the cost of replacement.

D12 camera models

- The lenses in D12 camera models can be replaced on site. The lenses are locked into position using retaining rings.
- All lenses can be used in the D12 camera models.

L11 Hemispheric 360°:

90° Super wide-angle (90° x 67°); f= 4 mm (equiv. to approx. 22mm on 35mm systems); in 10 m: approx. 20.0 m x 13.3

L22 Super wide-angle lens (Day/Night):

90° Super wide-angle (90° x 67°); f= 4 mm (equiv. to approx. 22mm on 35mm systems); in 10 m: approx. 20.0 m x 13.3 m ==> very little distortion and practically no shading; excellent resolution, also in zoom operation

L32 Wide-angle lens (Day/Night):

60° wide-angle (60° x 45°); f = 6 mm (equiv. to approx. 32mm on 35mm systems),
in 10 m: approx. 11,5 m x 8,21 m

L43 Wide-angle lens (Day/Night):

45° wide-angle (45° x 35°); f = 8 mm (equiv. to approx. 43mm on 35mm systems),
in 10 m: approx. 8,2 m x 6,1 m

L65 Tele lens (Day/Night):

31° wide-angle (31° x 23°); f = 12 mm (equiv. to approx. 65mm on 35mm systems), in 10 m: approx. 5,5 m x 4,0 m

L135 Tele lens (Day/Night):

15° Tele (15° x 11°); f = 25 mm (equiv. to approx. 135mm on 35mm systems); in 10 m: approx. 2,6 m x 1,9 m

Note: The IR filters for the color sensors are NOT installed in the lens, but instead in the lens mount of the camera.
