

How to Supporting Datacenter with OCP Solution

ASUS Server Business Unit

George Lin

Date: Sep 19, 2014

About ASUS Server

Starting from 1995, ASUS endeavor ourselves providing various server solution to help customer build up best-in-class Server Solution.

ASUS Server Product Portfolio

Server/WorkStation MB

Workstation Boards

ATX, EEB & Half SSI Server Boards

Barebone/System

ESC Super Computer

1U Server 2U Storage Server 2U 4-Way Server

ESC700 G2 ESC2000 G2 ESC4000 G3

15" 1U Compact Server 5U Pedestal

Multi Node Server

ESC500 G2 ESC1000 G2

ASUS Focused Market

Data Center

IP Data Center, Cloud Computing, Data Warehousing

HPC

Academic Research

Research Laboratory

Industry : Oil & Gas

Industry : Automotive

Scientific

Financial Institution

Enterprise & Storage

Enterprise: CRM, ERP, Order/Financial Mgt.

Storage: Hot-data Oriented

SMB/SOHO

SMB: - File Server
- Printer Server
- Web Server
- Host Server
- Mail Server

SOHO: Workstation

What ASUS Good at...

Design & Build High Quality, High Performance Server **with Industrial Standards** for Datacenter & HPC Market

What's OCP Design Concept

**Reduce energy
Consumption and cost**

**Increase reliability and
choice in the marketplace**

OPEN
Compute Project

**Simplify operation and
maintenance**

<http://www.opencompute.org/assets/open-rack/Open-Compute-Project-Battery-Cabinet-v1.0-J-Draft-1c.pdf>

Performance, Efficient, Green

What Are Existing Datacenter Concern

Upgrade Existing Data Center

- How to Minimize Re-Layout of Existing Datacenter, Yet Benefit from New Tech
- How to Increase Computing Density at given space

Budget Constrains

- $TCO = \text{Acquisition Cost} + \text{Transportation} + \text{Operation} + \text{Maintain/Service}$

Commodity Design

- How to leverage Existing Eco System
- Commodity = Cost Effective

How to Resolve??

Great Appreciate to OCP & OCPT Extend and Adopt 19" Cabinet Standard → Then ASUS Solve Datacenter Problem Effectively

RS400-E8 Family – Ultra Short 1U DP

RS400-E8 Series

Short Depth

< 15"

- ✓ Compact & Space Saving
- ✓ Increase Density Per Cabinet
- ✓ Suitable to Fit in Telecom Cabinet

Front IO

- ✓ Easy to Use, Easy Access
- ✓ B2B, F2B

2 +1 Expansion

- ✓ OCP Mezzanine Card Support
- ✓ 2 Full Height PCI-E Card Space

OS Fast Boot

- ✓ M.2(NGFF)
- ✓ Internal USB Type A CONN

Serviceability

- ✓ Front Access Design
- ✓ Diagnostic Indicators/LEDs
- ✓ Visible Q-Code from outside
- ✓ Tool-less Rail Kit

OCP Mezzanine + 2 PCIe Expansion

■ Powerful I/O Expansibility

- ✓ 1 x OCP Mezzanine @ PCI Express Gen3 x8
- ✓ 2 x PCI Express Gen3 x8 Slots @ Fully Hight

1 x PCI Express Gen3
x8 Slots, FH, HL

OCP Mezzanine

1 x PCI Express Gen3 x8 Slots, FH

MCB-10G-2S

X520-2DAxOCP

ConnectX-EN

RS720Q-E8-RS12 – 2U 4 Nodes Server

RS720Q-E8 Series

Modular & Density

- ✓ Easy Maintain
- ✓ 2U 4 Nodes

2 Expansion per Node

- ✓ 2 PCIe Expansion Space

OS Fast Boot

- ✓ M.2(NGFF)
- ✓ Internal USB Type A CONN

Serviceability

- ✓ Front Access Design
- ✓ Diagnostic Indicators/LEDs
- ✓ Visible Port80 from outside
- ✓ Tool-less Rail Kit

RS720Q-E8-RS12 – 2U 4 Nodes Server

3 x 3.5" Hot-Swap HDD Bays per node

1 + 1 1620W 80 PLUS Platinum RPSU

1 x PCI-E x8 (Gen3 x8 link), Proprietary

1 x PCI-E x16 (Gen3 x16 link)

Quad DP swappable computing nodes in 2U space

16 x DDR4 UDIMM/RDIMM

Dual Intel® Xeon® E5-2600 v3 processor

Cable-less design

M.2(NGFF) for Quick Boot

Maximize the Density in 42U Rack

IN ONE CABINET

84
x

or
21
x

84 computing nodes

168 CPU

1344 DDR4 DIMM

42T memory capacity

RS500-E8 Series

Efficiency

- ✓ Optimized Cooling Efficiency
- ✓ Platinum-level Power Efficiency

2+1 Expansion

- ✓ OCP like Mezzanine Card
- ✓ 2 Full Height PCI Card Space

OS Fast Boot

- ✓ M.2(NGFF)
- ✓ Internal USB Type A CONN

Serviceability

- ✓ Front Access Design
- ✓ Diagnostic Indicators/LEDs
- ✓ Visible Port80 from outside
- ✓ Tool-less Rail Kit

Modular Expandability

OCP Mezzanine:

- Model: MCB-10G-2S; MCB-10G-1T
ConnectX EN, X520-DAxOCP
- Support Model: RS400-E8, RS500-E8,
RS700-E8

MCB-10G-2S

MCB-10G-1T

ConnectX EN

X520-DAxOCP

Networking HBA:

- Model: PEM-FDR, PEB-10G Series
- Support List: Z10/Z9/P9/AMD Platforms

PEM-FDR*

PEB-10G/57840-2S

PEB-10G/57840-2T

PEB-10G/57811-1S

PEB-10G/57811-1T

Storage HBA:

- Model: PIKE II 3008/3108 Series
- Support List: Z10/Z9/P9/AMD Platforms

PIKE II 3008*

PIKE II 3108*

* Only compatible with ASUS Platform

How to Simplify Datacenter Management

ASWM Enterprise 3-Tier Management

Intuitive User Interface

Software Dispatch

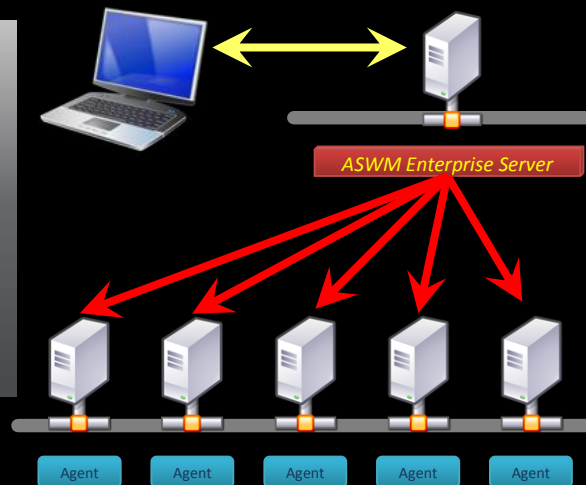

Hot fix, tools, etc.

Task Scheduler

shutdown, service, software dispatch

1 on Many Centralized Management

APP for Smart Phone & Tablet

Server OS Validated

 Windows Server 2012

Z10 OS Support List

ASUS Upgrade Solution for Rack Power

Easy
to
Own

19" Standard Rack

- ✓ Compatible with EIA-310D 19" Rack

Flexible Rack Base CONFIG

- ✓ Typical Rack Base Configuration

Simple Power Bank Module

- ✓ Easy to Install

Cost-Effect

- ✓ No Need
 - Proprietary Design
 - Re-layout Data Center
 - Air Transportation Fee

19" Open Rack Cabinet

- High Compatible with EIA-310D 19" Rack Mount Standard And Power
 - ✓ Eco System Mature for Long Time → Cabinet can be available at reasonable \$\$

Power Bank Enclosure

ASUS Server

19" Open Rack Cabinet

- CRPS Form Factor
- ✓ Standard Industry Design
- ✓ High Power Capacity

CRPS: 1600W/2000W(TBC)

- Standard 19" Rack, Storage, Server, Parts
- ✓ Compatible with Channel Server MB

19" 1U Server

19" 2U Server

Channel Server MB
(PR Series)

Easy Install, Fast Deployment

■ Easy Integration with 19" Cabinet

- ✓ Step 1
Install Exclusive Tool-less Rail Kit

- ✓ Step 2
Install Power Bank & Bus Bar

- ✓ Step 3
Install Server in Rack

Flexible Rack Configuration

■ Recommend Rack Base Configuration

Power Rack Compute Type
36 x 1U Computing Nodes

Power Rack Hybrid Type
18 x 2U Compute/Storage Nodes
