Burwell Victor Over Ord 13-0 On Turkey Day

Chanticleers Lose Four Of Nine Games This Season; Blessing Hurt.

Burwell's light but speedy Longhorns passed to touchdowns in the first and third periods to defeat the Ord Chanticleers 13-0 at Burwell before a Thanksgiving day crowd estimated at 2,500.

Ord penetrated to the Burwell 2-yard line at one time but was unable to cross the goal line. The fast charging Burwell line, coupled with the speed of the backfield, sparked by Doug and Junior Anderson, plus the accurate passing of Tunnicliffe, earned the Burwell victory, first over Ord in 15 years.

Ord racked up eight first downs to four for Burwell. Yesterday's outcome left Ord with a record of four victories and five defeats for the 1946 season—one of the poorest since 1935. In the past 12 years the Chanticleers have received only 11 setbacks and have been tied 13 times.

Greatest disappointment of the game, from the standpoint of Coach Alex Cochran, was an injury suffered by Al Blessing, junior, center of the Ord basketball team, who was injured by torn ligaments in his foot on the play which converted for Burwell after the first touchdown.

Three other Chanticleers saw no action yesterday. They were "Big" Martin Piskorski, Jackie Koll, quarterback, and Billy Anderson, reserve center. Anderson, also one of the basketball standbys, fell Wednesday and fractured his arm at the elbow.

In 1916 he married Bonnie Florence Teasley, and the couple made their home first in Cotesfield and later at Dannevirke and at Ericson.

He is survived by his wife, an adopted daughter, Mrs. Marie Richmond of Palmer, and a brother, Akton Frederiksen of Billings, Mont. Burial was at the Ord City cemetery.

Joe Suchanek III; Neighbors Pick Corn

After a morning's work, the wagons were loaded and brought to the farmyard where the corn was unloaded into a crib. Photographer Ed Swopes took this air view from the Suchanek windmill.

"All the money in the world wouldn't buy the friends I have," commented Joe Suchanek Monday, to a Quiz reporter, as he watched his friends come into the house. Suchanek, who had been laid up with rheumatism, was unable to get his corn picked, so his neighbors decided to do the job for him.

There are forty acres of corn on the Suchanek farm, and the corn pickers say it will average fifteen bushels to an acre.

Those who helped pick the corn were Walt Douthitt, Leonard Ptacnik, Louis Zadina, Elmer Parkos, Anton Radil, Henry Desmul, William Moudry, J. M. Novotny, F. E. Bruha, John J. Hill, Jr., Edward Waldmann, Johnnie Valasek, Elmer Lukesh, Gerald Krikac, Steve Polak.

Matt Turak, Jr., Joe L. Dvorak, Edward Novak, Rudolph John, Joseph W. Holoun, Gerald Desmul, Harvey Krahulik and Vencel Bruha, Jr.

At noon, Mrs. Joe Sedlacek, Mrs. Henry Desmul, Mrs. Jake Chalupsky, Mrs. Joe Novotny, Mrs. John Ulrich and Mrs. Steve Polak helped Mrs. Suchanek prepare and serve dinner to the corn pickers.

On May 31, 1882, she was married to John Rybin. Mr. and Mrs. Rybin moved to a farm ten miles west of Ord, which was their home until July 20, 1914. At that time, they moved to a house in north Ord. Mr. Rybin died almost 19 years ago.

Mayor Cummins Asks Ord People To Conserve Fuel

Public Meetings Curtailed By Order; Express and Freight Service Cut.

5 Lb. Limit On All Christmas Boxes

Parcels Post Embargo Goes Into Effect Friday; Ord Coal Supply Short.

The nation-wide crisis caused by the soft coal strike was brought closer home Wednesday morning when Mayor M. B. Cummins issued a proclamation calling on Ord people to conserve fuel by every means possible and banning public meetings, except those of the utmost importance.

In many other ways Ord people were forced to realize the power that John L. Lewis has over their daily lives.

The Union Pacific announced discontinuance of regular train service to Ord and said that trains would be run on the Grand Island-Ord branch "only as tonnage trains accumulate." G. W. Finley, Ord station agent, said no train would be run Wednesday and he is uncertain about service the rest of the week.

An embargo on express and freight shipments has been proclaimed nationally, and Tuesday night the Post Office department announced an embargo on parcel post shipments, effective at midnight Thursday. Thereafter no parcel post packages weighing more than 5 lbs. can be accepted by any post office for shipment.

Ord is fortunate in many ways, however.

The Ord schools have sufficient coal in their bins to operate until January 15 unless weather is unduly severe, says Supt. C. C. Thompson. By that time it is hoped the strike will be over and coal will again be available. The Ord schools use about 250 tons yearly and have bin capacity for only half that amount.

Electricity for the city is produced by use of fuel oil, which in an emergency can be brought in by transport though it ordinarily comes by rail. City councilmen Tuesday evening discussed briefly ordering a brown-out but it was not deemed necessary in view of existing fuel oil supplies.

Ord coal dealers are rationing coal to 1-2 ton per order and delivering only to families who have less than a ten day supply on hand, in accordance with federal regulations. The supply available can be stretched to the first of the year by such methods, it is thought, and local coal dealers believe the strike will end before that time.

Hardest hit in a business way by the strike will be Ord firms that depend on transportation. Noll Seed Company will be unable to ship any more processed popcorn until the strike ends. Activities of the Quiz, which daily ships close to a ton of photoengravings and printing by parcels post, express and freight, will be hampered. But livestock should move to market in normal flow by truck and Ord stores, who depend on trucks for merchandise shipments, should not find their activities curtailed.

Ord people may be a bit chillier than usual but they won't freeze; some fresh food items that come from long distances may not arrive, but Ord people won't go hungry. But in a thousand ways the effect of the coal strike can already be felt here, and those effects will be more apparent the longer the strike lasts.

John Olsen Dies In Fremont; Was Ord Resident

Funeral services were held at the Christian church in Aurora for John Olsen, 86, who died Tuesday, Nov. 26, following a stroke at his home in Fremont. Mr. Olsen lived in Ord until about fifteen years ago. He is survived by four sons: George of Aurora, John of Lincoln, Ed of Peoria, Ill., and Frank of Oakland, Calif. Burial was in the Hampton cemetery.

Hungry corn pickers enjoy the best part of the day—the dinner. Left to right: Joe Holoun, Gary Krikac, Elmer Lukesh, Harvey Krahulik, Henry Desmul, Bill Moudry, Rudolph John, Leonard Ptacnik. With backs to camera are Elmer Parkos and Ed Waldmann.

Cooks who prepared the dinner watch little Anne Polak sample their food. Kneeling behind Anne is her mother, Mrs. Steve Polak. Standing, left to right: Mrs. Joe Sedlacek, Mrs. Henry Desmul, Mrs. Jake Chalupsky, Mrs. Joe Suchanek, Mrs. Joe Novotny and Mrs. John Ulrich.

\$1063 Raised By God's Acre Plan

Mira Valley Church Puts On Demonstration Of Faith.

Offering of gifts to the God's Acre Project highlighted a banquet held in the basement of the Mira Valley Evangelical church last Wednesday evening. This year's offering totaled \$1,063, and surpassed that received any previous year. Of this total, the W. M. S. raised \$200.08; the Junior League, \$29.95; the E. Y. F., \$233.50; and the men, \$599.47.

Over \$3,550 has been raised in the six years since the God's Acre project has been in effect in Mira Valley. Some men are giving an acre of corn, or the profit from certain livestock, while the women are contributing the proceeds from chickens or eggs for a certain day over a period of time. The money received is used for foreign relief and for local improvement projects.

Toastmaster for the banquet was Archie Geweke. Short talks were given on the word "Thanks" by Dan Cook, Helen Peterson, Kenneth Koelling, Margaret Cook, Golda Foth, Geraldine Koelling and Eugene Cook. A quartet composed of Mervin Hornick, Carolyn Foth, Marilyn Cook, and Edith Foth sang a selection.

Subscription Prices

Due to the steady advance in the cost of everything that goes into producing a newspaper, it is necessary to raise the yearly subscription price of The Quiz. Up to this time we have absorbed all five of the price increases in newsprint, not to mention increases in the cost of ink, type metal and labor.

Effective January 1, 1947

The price of The Quiz will be \$3.00 per year in Nebraska and \$3.50 elsewhere.

The present price of \$2.50 will remain in effect until the above date and renewals for not more than one year will be accepted until that date.

AN APPEAL TO FUEL USERS

We are faced with a severe fuel crisis, not only locally but nationwide. It is essential that every pound of coal be conserved — as it may be a long, long, time. Therefore I want to urge all residents of this area to conserve fuel in every way possible.

Your Cooperation Will Be Appreciated. M. B. Cummins, Mayor of Ord

Give Me A Wild Tie, Brother!

Some men long for the soothing touch
Of lavender, cream or mauve
But the ties I wear must possess the glare
Of a red hot kitchen stove.

The books I read, and the life I lead
Are sensible, sane and mild.
I just hate spats and wear clam hats
But I want my neckties wild.

Give me a wild tie, brother
One with a comic urge,
A tie that will swear, and rip and tear
When it sees my old-blue serge.

Some folks say that a man's cravat
Should only be seen, not heard.
But I want a tie that will make men cry,
And render their visions blurred.

I yearn, I long for a tie so strong
It will take two men to tie it
If such there be, show it to me,
Whatever the price, I'll buy it.

Give me a wild tie, brother
One with lots of sins;
A tie that will blaze, in a hectic haze
Down where the vest begins.

| 1/3 cup shortening | 1 tsp. vanilla |

Sift and measure flour; sift again with baking powder, salt and spices. Cream shortening, add sugar gradually and cream until light and fluffy. Add egg and beat until well blended. Add flour mixture alternately with milk, beating until smooth after each addition. Add dates, nut meats and flavoring. Fill 12 well-greased custard cups one-half full; place on cookie sheet and bake in a moderate oven (350° F.) 30 minutes or until done. Cool. Tie waxed paper over tops and store in cool, dry place until ready to use. To reheat place puddings on rack in kettle with tightly-fitting cover. Pour water to about 1-inch depth in bottom of kettle. Steam 25 to 40 minutes. Serve hot with hard sauce.

4. If You Need help or a favor, would you contact an out-of-town photographer?
5. Would You like to live in a town where a legitimate photographer could not exist due to out-of-town photographers?
6. Do You really believe hat you can have a quality portrait made by a coupon deal for \$2.00 which is less than average cost of materials going into said portrait, not considering time and labor? If said portrait is not satisfactory when received, what can you do about it?
7. The Greatest racket today in the U. S. is by traveling photographers offering every conceivable inducement to sell their wares — Leading you to believe they are giving you a bargain or even a picture free—Do you really believe a perfect stranger is going to GIVE You something of value?
8. Our Federal Government is stopping these rackets as fast as possible but to make it most effective we need the cooperation of all citizens, merchants, and Our Local Officials.

In order to help combat this injustice and give you a Quality portrait we will honor the itinerants' coupons the same day they are to take pictures. We will give you FOUR or more proofs and if you are not satisfied we will be in town for you to call on. Our work will be the best that we know how to give.

SOMEWHAT DIFFERENT

By John L. Ward

Martin Mrkwicka has been doing nicely in hunting coons (I don't mean colored men) on Mira Creek just east of North Loup. He has some good coon dogs, and so far this season he has killed five of them. The only trouble is that the fur market is rotten this winter. While furs are out of sight, nobody is paying much for furs.

the reason being, no doubt, that the processors have a supply of furs on hand which they want to get rid of before buying any new furs.

Speaking of coons reminds me of one I saw at Pearl Harbor, who looked a little different from anybody I ever saw in my life, or ever expect to see. In most ways he was no different from the average negro, and was a uniform dusky gray all over, visibly, at

least, except for one spot. Beginning in front of his left ear and extending down over his jaw to his neck was an irregular patch of what was undoubtedly white skin. I have seen spotted cattle and spotted hogs, but he was the first spotted human being I ever saw.

A North Loup man brought a ladder recently and took it home, where he left it leaning up against the side of the house, headed for

nowhere in particular. He noticed that the neighbors kept looking at the ladder as they went by, but after a few days they not only gazed, but most of them put on a wide grin. Wondering what was amiss he went outside and took a look at himself, and then he laughed also. Some kid had dipped his overshoe in mud and had made tracks leading from the top of the ladder up the side of the house to the roof, just as though someone had did it walking.

The general public should be highly pleased with the firm stand taken by President Truman in regard to the soft coal strike. With the political angle out of the picture, perhaps this labor situation can be settled as it should be. The president is now assured of the backing of the present congress, as well as the new congress when it convenes in January. Concerted action should result in definite laws in regard to labor, just as we now have definite laws controlling business and agriculture.

From this point of view it now looks as though we will have some sort of open shop law for the United States when congress convenes. Senator Wherry has stated that he will introduce an open shop bill, similar to that recently voted into the Nebraska constitution, and there is every reason to believe that it will pass. Whether he realizes it or not, John L. Lewis is developing a strong sentiment in congress and throughout the United States in favor of more stringent labor laws. The more difficult he becomes, the more certain it is that congress will pass strong regulatory measures controlling labor. We are not opposed to the privileges of labor, but labor should be held responsible for its acts, just the same as any other group is.

Well, I passed another milestone Thursday, this time the 64th. According to the present accepted system, I should be eligible for retirement in one more year. There is just one fly in the ointment. I have not been laying by social security payments long enough to entitle me to a regular monthly check, and, even if I had one coming, it would not be enough to warrant me quitting work. Furthermore, I am like most other men of my age, I don't want to quit work as long as there is something useful I can do. Fishing is all right, who would want to fish all the time?

When I was a young fellow and everybody had to depend on horses to do the work and to take them to and from places, I do not recall that anybody started a saddle club in this part of the state. The only clubs of the kind were in the cities, where saddle horses were kept for hire. But that was some time ago. Today the horse has entirely disappeared from many farms, and has been replaced by tractors. When people travel, they use the family car, or go by bus. In fact, the horse is becoming more or less of a rarity.

As a result, saddle clubs are springing up all over the country, and are proving very popular. As Mark Twain remarked: "The way to make a person covet a thing is to make it difficult to attain." However, the thing I cannot understand is that there should be so many incomplete horses in the country and why so many of them should get jobs as officers in the army and navy. All too frequently these creatures are elected to congress or to the state legislature, and when they get on the job, they don't even use good, common horse sense.

A lady was asked how her son was getting along in college and she replied: "He is getting ahead rapidly." There was more truth in her statement than she ever dreamed of. I have been wondering how it would be to send our legislators to Washington for a single term of eight years, and then retire them to the home of the feeble minded. Our present system sends them there for a short term, and immediately they begin laying plans to perpetuate themselves in office. If they knew that they could have eight years and no more they might work more for the benefit of the people who voted them into office.

Nurse (suspiciously): "What have you been doing, Miss Ellen?" Ellen: "Rover ate my dolly's slippers, so I punished him." Nurse: "How?" Ellen: "I went out to his kennel and drank his milk."

SOMEWHAT DIFFERENT

Martin Mrkvicka has been doing nicely in hunting coons (I don't mean colored men) on Mira Creek just east of North Loup. He has some good coon dogs, and so far this season he has killed five of them. The only trouble is that the fur market is rotten this winter. While furs are out of sight, nobody is paying much for furs.

the reason being, no doubt, that the processors have a supply of furs on hand which they want to get rid of before buying any new furs.

Speaking of coons reminds me of one I saw at Pearl Harbor, who looked a little different from anybody I ever saw in my life, or ever expect to see. In most ways he was no different from the average negro, and was a uniform dusky gray all over, visibly, at

least, except for one spot. Beginning in front of his left ear and extending down over his jaw to his neck was an irregular patch of what was undoubtedly white skin. I have seen spotted cattle and spotted hogs, but he was the first spotted human being I ever saw.

A North Loup man brought a ladder recently and took it home, where he left it leaning up against the side of the house, headed for

nowhere in particular. He noticed that the neighbors kept looking at the ladder as they went by, but after a few days they not only gazed, but most of them put on a wide grin. Wondering what was amiss he went outside and took a look at himself, and then he laughed also. Some kid had dipped his overshoe in mud and had made tracks leading from the top of the ladder up the side of the house to the roof, just as though someone had did it walking.

The general public should be highly pleased with the firm stand taken by President Truman in regard to the soft coal strike. With the political angle out of the picture, perhaps this labor situation can be settled as it should be. The president is now assured of the backing of the present congress, as well as the new congress when it convenes in January. Concerted action should result in definite laws in regard to labor, just as we now have definite laws controlling business and agriculture.

From this point of view it now looks as though we will have some sort of open shop law for the United States when congress convenes. Senator Wherry has stated that he will introduce an open shop bill, similar to that recently voted into the Nebraska constitution, and there is every reason to believe that it will pass. Whether he realizes it or not, John L. Lewis is developing a strong sentiment in congress and throughout the United States in favor of more stringent labor laws. The more difficult he becomes, the more certain it is that congress will pass strong regulatory measures controlling labor. We are not opposed to the privileges of labor, but labor should be held responsible for its acts, just the same as any other group is.

Well, I passed another milestone Thursday, this time the 64th. According to the present accepted system, I should be eligible for retirement in one more year. There is just one fly in the ointment. I have not been laying bi-social security payments long enough to entitle me to a regular monthly check, and even if I had one coming, it would not be enough to warrant me quitting work. Furthermore, I am like most other men of my age, I don't want to quit work as long as there is something useful I can do. Fishing is all right, who would want to fish all the time?

When I was a young fellow and everybody had to depend on horses to do the work and to take them to and from places, I do not recall that anybody started a saddle club in this part of the state. The only clubs of the kind were in the cities, where saddle horses were kept for hire. But that was some time ago. Today the horse has entirely disappeared from many farms, and has been replaced by tractors. When people travel, they use the family car, or go by bus. In fact, the horse is becoming more or less of a rarity.

As a result, saddle clubs are springing up all over the country, and are proving very popular. As Mark Twain remarked: "The way to make a person covet a thing is to make it difficult to attain." However, the thing I cannot understand is that there should be so many incomplete horses in the country and why so many of them should get jobs as officers in the army and navy. All too frequently these creatures are elected to congress or to the state legislature, and when they get on the job, they don't even use good, common horse sense.

A lady was asked how her son was getting along in college and she replied: "He is getting ahead rapidly." There was more truth in her statement than she ever dreamed of. I have been wondering how it would be to send our legislators to Washington for a single term of eight years, and then retire them to the home of the feeble minded. Our present system sends them there for a short term, and immediately they begin laying plans to perpetuate themselves in office. If they knew that they could have eight years and no more they might work more for the benefit of the people who voted them into office.

Nurse (suspiciously): "What have you been doing, Miss Ellen?"
Ellen: "Rover ate my dolly's slippers, so I punished him."
Nurse: "How?"
Ellen: "I went out to his kennel and drank his milk."

IN MEMORIAM

To the memory of our darling son and brother, Dale Dean Burson, who passed away Nov. 25, 1945.

Time speed on one year has passed. Since Death its gloom, its shadow cast. Within our home where all seemed bright. And took from us a shining light. We miss that light and ever will. His vacant place there's none to fill. Down here we mourn, but not in vain. For up in heaven we will meet again.

Mr. and Mrs. Ralph Burson and family.

CARD OF THANKS

I wish to take this means of thanking my neighbors and friends for their kindness in picking my corn, which I had been unable to do because of illness. Your kindness will never be forgotten.

Card of Thanks—

I wish to thank my relatives and friends who remembered me with flowers, gifts and cards during my stay in the hospital. I also wish to thank Dr. Miller and the nurses for the good care they have given me. Your kindness will never be forgotten.

Mrs. Anton Baran.

More Taverns Win Community Approval

More Nebraska beer retailers now recognize that their license privilege obligates them to do everything possible to make their tavern a real asset to the community.

They know for instance that it pays in both business volume and public good will to make their taverns as clean and wholesome as possible. They know that adequate lighting and ventilation are important; also modern toilet facilities, hot and cold running water, and a generally clean and attractive atmosphere.

More and more retailers show they are not satisfied to meet the minimum requirements of the state's sanitary laws, but are anxious to own and operate the kind of place that is a credit to themselves and their town.

The Nebraska Committee's self-regulation program has helped inspire this new and better attitude. Beer retailers in Nebraska are now learning it pays handsome dividends to operate in such a way that all the public can approve.

Chamber Group To Promote Water Use In This Area

Plans New Irrigation Projects For Loup Development.

Goals and duties of a North Loup river development committee, appointed last week by retiring president, Ed Vogeltanz of the Ord Chamber of Commerce, have been announced by the Chamber.

The group in general is charged with aiding in any way possible, the development of power and irrigation in Valley county and adjacent areas, and will follow survey reports of the Missouri basin development plan closely to see that this area receives proper allocation of funds and projects.

Specific projects as outlined by the Chamber included the irrigation of Mira Valley. Information available locally indicates that the Missouri Valley plan will call for irrigation of 6,700 acres in Mira Valley. The chamber group expects to study surveys of the area to extend this acreage as much as possible.

The chamber is also highly interested in irrigation possibilities in Geranium and Michigan precinct and is having a surveyor look over the area to make recommendations.

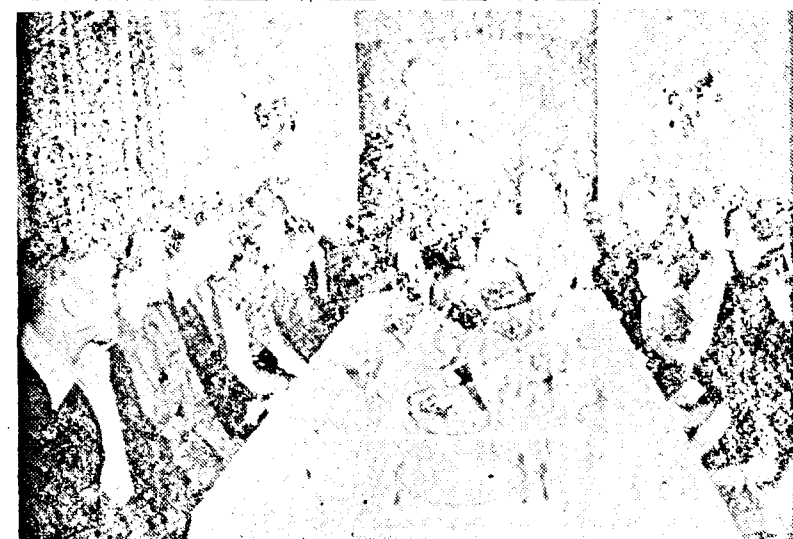

Senator Hugh Butler, who is slated to head the United States Senate committee on public lands is enthusiastic about possibilities of further irrigation development in this area, and has written Mr. Vogeltanz offering his support.

The proposed recreation lake at Fort Hartsuff will also receive committee attention, as will other feasible irrigation, water storage and recreation spots in this area.

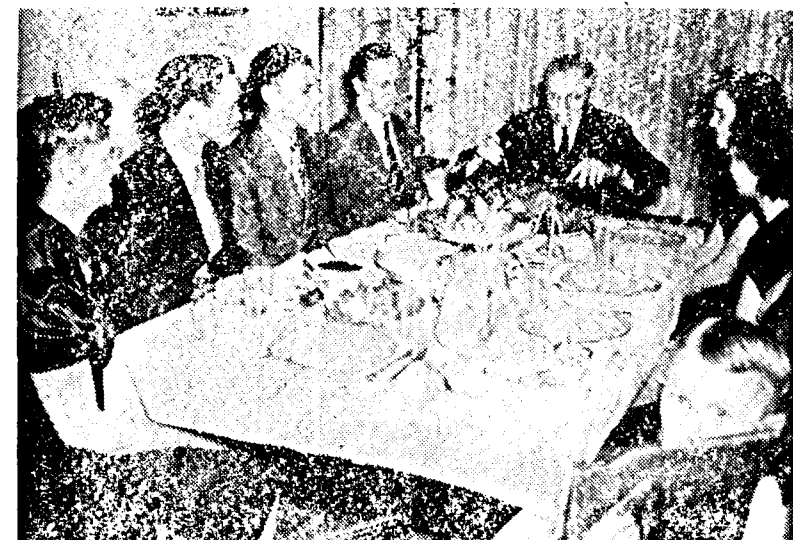

According to the Chamber committee, Missouri basin plans call for taking water from the North Loup near Burwell, bringing it down through Mira Valley, south of Ord, then into Davis creek. Two dams will be built on Davis creek, one nearly due south of Ord, and the other near the mouth, south of the chalk hills. It is expected that power generated at these two sites will tie in with the present REA project in Valley county and other REA projects in adjacent areas.

Committee members are E. S. Murray, Clark Weckbach, M. S. Dodd, Gary Bobst and Vogeltanz. The group plan to enlist the aid of similar committees from Burwell, North Loup, Scotia and Arcadia.

Mr. and Mrs. Edgar Farley of Table Rock are the parents of a baby daughter born in a Humboldt hospital Saturday. Mrs. Farley is the former Virginia Davis, daughter of Mr. and Mrs. Clarence Davis.

Turkey and the fixin's featured a Thanksgiving dinner at the Ed Gnaster home. Seated, left to right, are Dick, Mary Katherine, and Don O'Neill, Miss Katherine Clevenger, Jim Webster, J. L. Webster, Ed Gnaster, Mrs. Gnaster, Mrs. J. F. Webster, Judy Webster, Miss Monica Jean Gnaster, Mrs. J. L. Webster and Miss Marianne Gnaster.

For the first time in three years, the M. Biemond family was able to celebrate Thanksgiving together this year. Seated, left to right: Mrs. Biemond, Raymond Biemond, Kenneth Auckerman of Lincoln, Cork Biemond, Mr. Biemond, Miss Joan Biemond, Mrs. Martina Zulkoski and Richard Zulkoski.

Penney Stores Give Employees Big Bonus

Keith Lewis, manager of the local J. C. Penney store, announced this week that 10 employees of the Ord store will participate in a bonus recently authorized. Employees who have been with the company more than a year will receive two weeks' extra salary, and those with less than a year's service will receive proportionate awards.

Mr. Lewis stated that this was not a Christmas bonus, but an extra payment resulting from extra business and earnings. The company also has a thrift and profit-sharing plan for all employees into which is paid a share of company earnings.

State Corn Loan Rate Increased 15 Cents Bushel

New Loan Rates Range From \$1.05 to \$1.11 For Nebraska.

Nebraska corn loan rates for 1946-47 will average 15 cents higher a bushel than last year, R. L. Green, State Director of the Production and Marketing Administration, announced Thursday. The Valley County rate is \$1.07 published.

The new rates range for \$1.05 in Boone, Knox, Madison and Pierce counties to \$1.11 to \$1.12 in the Panhandle counties. Last year's figures were set at 90 to 97 cents, Mr. Green said.

The national corn loan rate announced November 18 by the United States Department of Agriculture averages \$1.15 a bushel. Nebraska's loan rate compares with Iowa's \$1.06 to \$1.12 a bushel, and \$1.05 to \$1.11 in South Dakota.

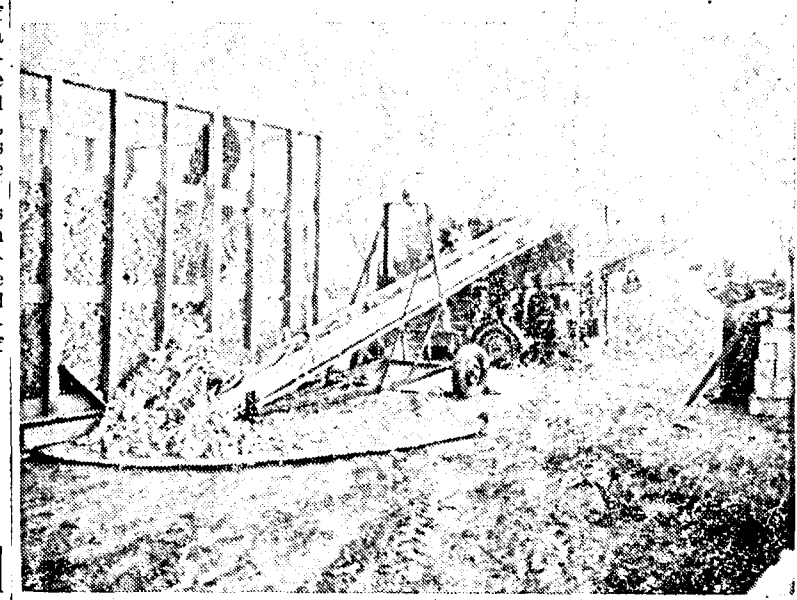

Local PMA offices will begin the program December 1 and end the loans July 31, 1947. The loans will be at 3 per cent interest and mature not later than September 1, 1947.

Eligibility for loans will be determined by the size of corn cribs and periodic moisture content. Crib widths must measure eight to ten feet, varying with counties.

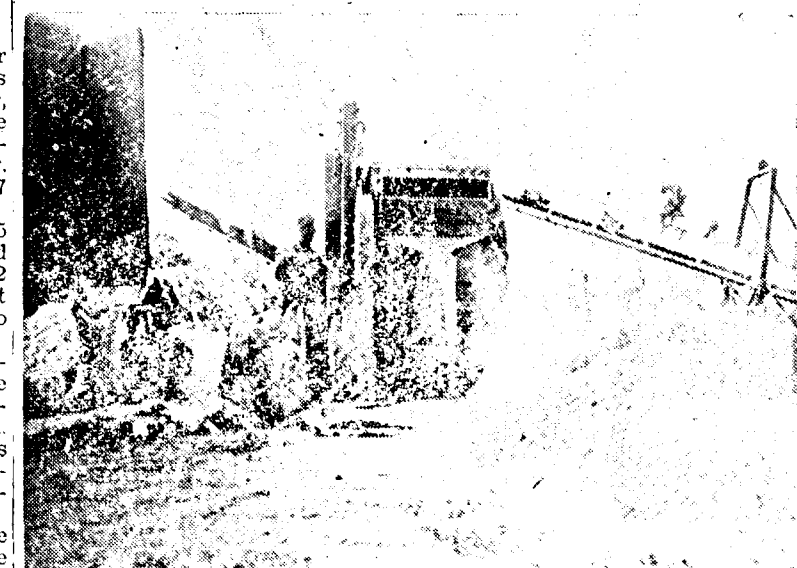

Ear corn with a maximum moisture content of 17 1/2 per cent for the recommended crib width will be eligible up to April 30, 1947, Mr. Green said. From May 1 to July 31, 1947, permissible moisture maximum is 15 per cent. A 20 1/2 per cent wetness will be allowed in the period December 1, 1946-March 1, 1947.

To be considered for a loan a farmer must have worked his land this year and have satisfactory storage facilities, Mr. Green said. The corn must have been grown in 1946.

Popcorn Processing Plant Is North Loup Industry

Machinery in operation at the Paramount Popcorn Processing plant in North Loup. Corn which has been drying until it attains a test of 14 per cent moisture is taken from the bin and put into the elevator.

The popcorn comes out of the machine which shells and cleans it, right into 100 pound sacks and is ready for shipment.

The Paramount Popcorn Processing Corporation is spreading North Loup's fame as "The Popcorn Center of the World", way out to sunny California. The corporation, owned by three Los Angeles business men who manage popcorn machines on the west coast, is one of North Loup's most thriving industries. It was established a little more than a year ago by general manager H. J. Kyle, of Los Angeles, who visited North Loup with the purpose of finding enough popcorn to supply west coast demands.

Farmers sell their popcorn directly to the processing plant. There it is tested for moisture, dried, and when it attains the proper moisture, which is around 14 per cent, it is shelled and cleaned, put into bags and shipped to California.

Last year, according to local manager Sheldon Van Horn, some 50,000 pounds of popcorn were shipped from North Loup. During the rush season, the plant ships around three hundred 100-pound bags of corn to the west coast.

This year, says Van Horn, the corn has been very slow in coming in, due to bad weather which delayed the corn picking. However, what corn has been received thus far is very good. Farmers around North Loup are averaging around a ton of popcorn to the acre. Popping tests of the 1946 crop conducted at the processing plant by Van Horn show that eight ounces of corn will fill a two-gallon pail when popped.

L. D. Rodgers Sells Heating, Sheet Metal Business to J. Nelson

Announcement was made this week of the sale of the Ord Heating and Sheet Metal Co., formerly owned by L. D. Rodgers, to Jay Nelson. Mr. Nelson had been an employee of Mr. Rodgers for some time.

The new owner will carry on in the same location, across the street from the city hall. Mr. Rodgers has not as yet announced his plans for the future, but indicated that he would remain in Ord until the end of the school term next spring.

Ord Boy Scout Paper Drive Is Nearing Goal

Farm and City Dwellers Urged To Contribute Paper.

Members of the Ord Boy Scout Troop are gradually drawing nearer the goal in their scrap paper drive which they have been conducting for the past several weeks, according to John Hannah, Scoutmaster.

In spite of bad weather and many conflicting activities the boys have stuck faithfully to their job and each week the bundles and bales in the Carson building grow a little higher.

Inasmuch as the Quaker Oats Company, who will buy the paper, is in desperate need of the carload of scrap, the boys are urging the people of Ord and surrounding territory to make every effort to see that their old papers, magazines, and other scrap paper are placed in the hands of the Scouts.

The pickup truck will make every effort to gather all bundles placed out on Thursday evenings. However, because of the darkness, bundles may be missed occasionally, and anyone having scrap paper to be picked up, regardless of amount is urged to contact Scoutmaster John Hannah or any of the Boy Scouts.

This week, the Scouts received 600 pounds of paper donated by the Merchants Bank of Constock. Scoutmaster Hannah is asking that farm folks, who might have collections of papers or magazines bring them to town.

60-Year Romance Ends In Marriage Of Aged Couple

A romance which began sixty years ago reached its climax last week in Gering when Emma J. Williams, 74, of Merrill, and C. T. Stocker, 78, were married at Gering. She was 16 and he was 20 when the romance began, near Blakesburg, Ia. They kept company for a few years, then saw each other less often, and finally the affair ended, apparently. Both married.

After the death of Mrs. Williams' husband, Mrs. Williams began writing to a half-sister of Mr. Stocker and inquired about him. At the sister's suggestion, he himself answered the correspondence, and the letters led to the marriage.

As Mr. Stocker put it, "We felt a need for each other."

Janus To Manage Valley Co. Noxious Weed District

Henry Janus has been appointed manager-operator of the Valley County Noxious Weed District.

The district is sending double folder cards to farmers. The farmers are asked to fill these out and send them back to the office by Jan. 1, 1947. For those who wish to sign the agreements for spraying noxious weeds, the office will be opened on Mondays and Fridays.

Christmas Shopping

"Look, Mama, this doll has real hair. That's what I want for Santa Claus," says Mary Ann Ptacnik, daughter of Mr. and Mrs. Leonard Ptacnik. Mary Ann was Christmas shopping with her mother when photographer Ed Swopes snapped the picture.

Two Thousand Children Ride Santa's Train

Fourteen Boxes Of Apples and Oranges Given Away During Afternoon.

Members of the Ord Chamber of Commerce are extremely pleased over the outcome of Santa Claus' visit to Ord last Wednesday, according to Chamber of Commerce secretary, John L. Andersen. Nearly two thousand children from Ord and surrounding towns packed the southwest corner of the square to get a look at the jolly old gentleman with whiskers and to take a ride on Santa's special train, the Yuletide Zephyr, while their parents stood on the sidelines and watched the fun.

Santa and members of the Ord fire department were kept busy handing oranges, apples and train

Part of the crowd of 2,700 persons who gathered to see Santa and his show. Chamber of Commerce officials estimate that of that crowd, 2,000 were children.

"Hey, what's the big idea of going away and leaving me with this old guy with the whiskers?" cries this Ord miss to her mother.

tickets to the youngsters. Andersen says that fourteen boxes of apples and oranges were handed out during the afternoon.

Many of the children were more interested in Santa's live reindeer than they were in his train. They were vehement in expressing their disappointment that the deer could not be taken out of the cages and hitched to the sleigh.

It is estimated that the appearance of Santa Claus and his special show drew a crowd of 2,700 from both the country and surrounding towns.

Scotia Theatre To Open Saturday, Dec. 14

Scotia's new theatre will open Saturday night, Dec. 14, according to present plans of the owner, J. V. Maddox. Maddox has converted the former Shadle building, which he purchased from H. G. Selk, for use as a theatre, and both the interior and the exterior of the building have been redecorated.

"Gosh, I haven't given it much thought before. Now that you ask me—let me see—what do I want for Christmas?" muses this youngster seated on Santa's lap.

Tickets for rides on the Yuletide Zephyr, handed out by Santa himself, fascinate these two youngsters who have already received their gifts of fruit.

Subscription Prices

Due to the steady advance in the cost of everything that goes into producing a newspaper, it is necessary to raise the yearly subscription price of The Quiz. Up to this time we have absorbed all five of the price increases in newsprint, not to mention increases in the cost of ink, type metal and labor. The saturation point has been reached and it is now impossible to continue at the present price level.

Effective January 1, 1947

The price of The Quiz will be \$3.00 per year in Nebraska and \$3.50 elsewhere. Single copy price will be 10 cents at the Quiz or newsstands.

The present price of \$2.50 will remain in effect until the above date and renewals for not more than one year will be accepted until that date.

College Merger Plan Suggested

A proposal to merge the University of Nebraska and the four teachers' colleges, the latter becoming colleges of the university, has been offered by Harold C. Prichard of Falls City, newly-elected member of the legislature from the first district.

"The university is overcrowded by veteran students, while the teachers' colleges are operating at about half capacity," the youthful lawmaker said. "Instead of going to a great deal of expense to expand the university plant, why not merge the two systems with the teachers' colleges becoming colleges of the university?"

"Schedules could be harmonized, transfers be made without loss of credit," he suggested. "Students could take some of their work at the various branches — Peru, Wayne, Kearney and Chadron — relieving the pressure at Lincoln."

Ellis Carson To Open Farm Store

Another new business enterprise will open in Ord about January 1, when Ellis Carson, owner and operator of Carson's Market

branches out into the farm supplies business.

Mr. Carson has leased the Duemey Garage building, one block west of his present location for the new store.

"Although we plan to have a general farm supply store, most of our merchandise will center around the dairy and poultry fields," Mr. Carson said. "We have secured the agency for Kohler electric plants, milkers, and other dairy equipment. In addition, we'll have poultry equipment such as brooders, feeders, etc."

"Our poultry and dairy feed departments will probably be centered at the new building, also our airplane sales agency."

Cooks Like Oregon

Springfield, Ore., Nov. 30, 1946

Dear Sir:
As I received a nice card from the Quiz the other day telling me in a nice way that if I wanted to get the home town scandal any longer I would have to send some more money, so I had better do it as I don't want to miss any of the papers.

How time flies, it doesn't seem like it has been 12 years since I left Ord but I guess it has been.

When I first came to Oregon I went to work in a saw mill but didn't like it too well, it is a good way to keep from getting old, as you have a chance not to live to be a ripe old age in that kind of work. The lumber industry is interesting to see the big trees come in and go into the mills and come out flooring, shiplap and siding. Most of the trees are hauled

Milk truck belonging to Ray Cook of Springfield, Ore., former Ord resident. Truck holds 105 ten gallon cans.

in to the mills on big trucks, some of them have to have special permits to go on the highways as the logs are larger than the law allows on the roads, the biggest one that we got in when I was in the mill was a Spruce that was 14 feet in diameter, but they aren't all that big.

When I quit the saw mill I went to work driving a milk truck for the Eugene Farmers Creamery, picking up milk from the farms and taking it in to the big plant in Eugene. We have 23 trucks on the road and cover the most of 4 counties. The milk is made into ice cream, cheese, butter and powdered milk. Then we sell milk to the smaller milk plants for them to bottle.

We like it very much here in Oregon, it doesn't get cold in the winter, the flowers bloom most of the winter, roses are still in bloom, and it doesn't get very hot in the summer. I think it got up to 94 this past summer, but that was the hottest it has been for years here.

We see a lot of Nebraska cars out here this winter, from all over the state.

I believe that Eugene and Springfield are two of the fastest growing towns in the west. The reason for this is that there are so many pay checks here. In Springfield alone there are about seven saw mills and two of them are large ones and use a lot of men. There are two shingle mills, a handle factory, two plants that load logs on the trains to go to the paper mills at Portland, several planing mills, and they are just finishing a big, new alcohol plant to make alcohol out of the waste wood and saw dust from the mills. Then there is a big plywood plant here that operates 24 hours a day and there are a lot of small plants that make windows, doors, etc. So you can see what makes the town grow.

An enclosing a picture of my milk truck, it holds 105 ten gallon cans. Thought it might be of interest to you.

Well, must come to a close for this time, wishing you all a Merry Christmas and a Happy New Year.

Rt. 1, Box 379,

TAX CUT IS CRITICIZED

The Republicans, who will control Congress during the next session, have advanced the idea of a general 20 percent cut in income taxes immediately. Many folks are looking forward to this reduction, but from some individuals there comes a considerable amount of criticism, some of which seems justifiable.

First of all, some politicians criticize the idea because they feel that now, while there is plenty of money available, is the proper time to collect taxes. The national debt is heavy, and paying it off is an obligation which must be met by tax payers. It is easier to pay while there is plenty of money available, they contend, and a tax reduction at this particular time does not seem advisable.

And there are others who contend that a cross-the-board 20 percent tax reduction would be unfair to the tax payers who are in the lower income bracket. Their reduction under the present system would be small, while the saving for the rich would be great. It would make more money for the wealthy and would save the man with average income very little. There is much truth in this contention.

It is suggested that if the government really wants to help the tax-burdened people of the nation, just all of these should be a greater exemption allowed on which no tax is levied. That is, the exemption should be raised to about \$3,000, these folks contend, and the tax should be graduated in such a way that the higher the

amount of profit, the greater should be the tax.

People with only average incomes, just about enough to live on, should be granted a higher exemption so that their tax burden will not be so great. The argument sounds reasonable. Every one should pay some tax, that is for sure, but those in the lower income bracket should be allowed enough as a remainder, to support their families in a decent and an honorable manner.—Sac City Sun.

SOMEWHAT DIFFERENT

By John L. Ward

Speaking of football, which is mostly over now, it may be of interest to remind you, in case you didn't know, that the coach of the McCook Bisons, who won the mythical title in Nebraska high school football circles, is one Russ Sautter, who grew up around Scotia, I understand. Not only that, but his team might not have landed on top had it not been for North Platte running interference for them and putting Grand Island out of the running. North Platte, by the way, is coached by one Roscoe Tolly. Ever hear of him? Of course that game didn't really count in the eastern half of the Big Ten, but that blow by Fremont finished the job for Jerry Lee's boys. Then they came back to knock Lincoln Central off the pinnacle, so Froid Sautter has a number of other teams to thank on this best of all Thanksgivings.

The afternoon before Thanksgiving members of the North Loup fire department trotted out the fire hose, hooked it up and proceeded to wash the ice, mud and snow off the paved block in the center of the village. It took a lot of hard work, but when they got done that night, they had the paving looking very clean and neat indeed. While the work was at its height along came a car, and deliberately drove over the hose. Anybody from Hastings should know better than that, but apparently they didn't.

The fire whistle blew about 10 p.m. the Tuesday night before Thanksgiving, and the North Loup boys responded promptly, getting the fire at the Fortis cafe out in short order. It was of special interest to me for it was the first time in my life that I ever went to a fire as a fireman. I tried to join in Ord and later at Burwell, but failed to make the grade. Here in North Loup the boys were glad to have me help out, so I will do my best.

Not everybody realizes just how handy a man the county judge is, so here is a list of some of his activities. First and foremost, he is a county judge, and one of the best. Second, when the Chamber of Commerce needed a secretary, they had quite a time finding a

"Hey, I think we're getting cheated out of some presents, if this guy comes around every Christmas," says Gale Boyce to his brother Dale. The twins, sons of Mr. and Mrs. Everett Boyce of North Loup, not only will celebrate their first Christmas this year, but will also celebrate their first birthday on Christmas Day.

man who suited their requirements, but finally decided John L. Andersen was the man best suited to the job. Third, the fellow who looks after the writing for the Oddfellows answers to the name of Andersen. Fourth, Andersen is secretary of the Ord Flying club. Fifth, the new Ord Riding club has chosen him for secretary. And, sixth, the Fort Hartsuff group has decided he is the best man to handle their correspondence. To John's credit may it be said that he enjoys the various jobs, and takes good care of all of them. To facilitate keeping his records straight, he has a separate desk in his office for every one of his secretaryships.

Listening to the announcer of the Kansas-Missouri game, the radio audience got more than the spectators at the stadium, laughs, that is. The way he got the teams and the various players mixed up kept the listeners in a constant muddle as to how it would come out. Once he stated that a Missouri man fumbled and Missouri recovered—so now it will be Kansas' ball on their own 25 yard line. Then again: "He carried the ball right through the center of the Kansas line for a big gain—"pause—"give him a yard—No, the referee puts the ball right down on the line of scrimmage!" After listening to a line of talk like this all the way through the most exciting game of the entire season, we are now in favor of an open season on football announcers. Of course, they can't all be Tom Brenneman's, but they could do as well as Mayor Cummins, Bert, that is.

Some of the early day birds are beginning to stage a comeback, for which the farmers should be duly grateful. I am referring especially to the quail, which were practically exterminated thirty or forty years ago. Then the game hogs would drive along the roads after a snow and find these birds huddled together for warmth. A shot into such a covey usually got nearly all of them. I recall one case where a so-called sportsman actually bragged about getting sixteen quail at one shot. Talk about shooting fish in a barrel! This type of shooting is even worse.

I have been around the country quite a bit this fall, and know that there are about a dozen coveys of quail, which, if left alone, would mean a lot of quail next year. I have talked with a lot of farmers and real sportsmen in town, and they are agreed that there should never be another open season on quail in Nebraska. If there ever is it will be practically forced on the state game commission by the hunters from the big cities, who are interested mainly in having something to shoot at on the wing, and who get as much kick out of the shooting as they do in bringing home the game.

Two Weekly Papers Cease Publication

Blair, Neb.—Two Washington county weekly newspapers suspended publication following their issues last week and announced that their subscription lists will be taken over by Blair's two weeklies.

Beginning next week, readers of the Calhoun Chronicle, published at Fort Calhoun, will receive the Blair Enterprise. Subscribers of the Herman, Neb., Record will be served by the Blair Pilot-Tribune. Newsprint shortages and rising costs were given as the reason for suspension.

The consolidations leave Washington county with three papers it once had seven.

Delay Work On Governor's Mansion

Construction of a new governor's mansion should be deferred until the work can be done "on a more efficient and economical basis and without competing so directly for labor and materials with private housing projects," a legislative council sub-committee reports.

The committee recommended that the \$100,000 appropriated two years ago for the mansion be re-appropriated during the coming session.

Immediate construction is not feasible, the report added, because of the shortage of labor and materials, and "even if the necessary labor and materials could be secured, and at a reasonable cost, there is some question as to whether the state should enter into direct competition with those who are attempting to provide badly needed homes for private citizens."

No. Loup Quintet Defeats Ashton On Home Floor

North Loup high school started the basketball season by soundly defeating two teams on the home court the past week.

Friday night found the North Loup attack much more polished and all members of the team were scoring in a 58 to 21 rout of Ashton. Redlon led his team mates with 28 points in the last game and 18 in the first.

The work of Dick Hutchins at guard was especially good the last game. Redlon's ball handling appears smoother than in previous years, which should help in making him one of this section's outstanding performers.

According to Coach Cook, although North Loup is playing less games than many schools, this year's schedule promises to be one of the toughest attempted in recent years.

While the Chanticleers first five looked good in their win it must be remembered that the competition was far removed from what the Chants will encounter as they fight their way through a tough schedule.

Swopes Takes Time From Xmas Rush To Get Pictures

Photographer Ed Swopes did more than his share in filling this week's edition of the Quiz with fine pictures.

Friday of this week the Chants meet the Hastings Tigers on the latter's court, and while they will be out to duplicate the victory of the 1945 Chanticleers over the Tigers, it appears, at the moment, that any such outcome would be a startling upset.

No Xmas Spirit Say Merchants: Buying Is Slow

Ord Buyers' Gift Lists Call For Practical Presents.

After battering her way through crowds of Christmas shoppers in one Ord clothing store Saturday afternoon, a Quiz reporter remarked to one of the clerks, "With all these people around here, the Christmas buying rush must be on."

The clerk's answer was, "You'd be surprised, but people just don't seem to be buying. All they're doing is looking around. Maybe it's because there isn't any snow on the ground, but they just don't seem to have the Christmas spirit."

There's one bright spot in the picture, however. Buyers aren't picking on inexpensive presents. Instead, they're buying better toys, clothes and general gifts.

Merchants are finding it difficult to keep hard-to-get items in stock for longer than one day. Last week, C. E. Rasmisel, who owns the Western Auto Supply store, received 17 tricycles in one shipment.

Buyers, on the other hand, are agreed upon one thing—EVERYTHING seems expensive this year. Shoppers from both Ord and the surrounding countryside say that although there is more of a selection this year than there was last year, most articles have doubled in cost.

Basketball, king of the winter sports, was given an auspicious welcome last Friday night, the fans being treated to four games.

Death Takes Gladys Krikac

Former Rural School Teacher Dies on Fortieth Birthday.

Funeral services conducted by Rev. Michael Szecezny of Sargent, were held at the Geranium Catholic church Saturday morning for Mrs. Charles Krikac, who died at an Ord hospital Tuesday afternoon on her fortieth birthday.

In the curtain raiser Rysavy led his mates in scoring with 10 points while Tolén dropped in four swishers for eight.

He has to go about a mile and a half to work but doesn't mind it as he walks most of the time. He hopes to stay for the summer to see the beautiful country in the summer time. School will close Friday, December 20, for a Christmas vacation and take up again the 30th, but will have one day for New Years. Last week it seemed likely a two or three weeks vacation might be necessary because of the coal situation, but the supply on hand is sufficient with the addition of another car load bought but not delivered.

Carol Drake's favorite Christmas cookies

A full cookie jar adds much to the enjoyment of the holiday season. These cookies will make pleasant snacking for droppers-in or for the family.

CHOCOLATE NUT COOKIES
This luscious mouthful is a cross between a cookie and a candy. The recipe uses no sugar.

- 3 one-oz. squares unsweetened chocolate
- 1 fifteen-oz. can sweetened condensed (not evaporated) milk
- 1 tsp. vanilla
- 1/2 cup chopped walnut meats
- Walnut halves

Melt chocolate over hot water; add condensed milk; stir until well blended; add vanilla. Stir in walnut meats; drop by 1/2-teaspoonfuls onto well-greased cookie sheet. Place walnut half on each cookie. Bake in moderate oven (350° F.) 10 to 12 minutes. Remove from cookie sheet to rack immediately. Makes about 5 dozen cookies.

HONEY HERMITS

Here's another sugarless cookie. Be sure to grease the cookie sheet well, for cookies containing honey tend to stick.

- 1/4 cups all-purpose flour
- 1/4 tsp. soda
- 1/2 tsp. salt
- 1/2 tsp. cinnamon
- 1/2 tsp. nutmeg
- 1 egg, well beaten
- 1/2 cup honey
- 1/2 cup melted shortening
- 1/2 cup chopped raisins
- 1/2 cup chopped nut meats

Sift flour and then measure into sifter with soda, salt, cinnamon and nutmeg. Combine the egg, honey, melted shortening, raisins and nut meats, beating well. Sift the flour and spices into the honey mixture, mixing well. Drop by teaspoonfuls onto well-greased cookie sheet. Bake in a moderate oven (375° F.) 12 to 15 minutes or until done. Makes 2 1/2 dozen cookies.

Vol. 64, No. 39

Local Direct Tax Increased Twenty Percent This Year

All Taxing Agencies Make Increase; Bonds To Remain Same.

When the first few Ord taxpayers found their way to the county treasurer's office to make their annual contributions to the cost of government, the fact that local taxes have increased 2.25 mills over a year ago began to hurt—right in the pocketbook.

The story is not only true in Ord—it is county wide. Every taxpayer in every precinct will pay more direct taxes this year, although the percentage of increase is higher in Ord than elsewhere.

State levies have increased from 3.44 mills to 4.14 mills. County levies more than doubled from 2.53 mills to 5.15 mills.

County valuations have risen too, from \$13,239,075. to \$13,345,290.

Bond Issues Low
An analysis of levies made by the Quiz shows that city bonds had little, if any effect on the total tax dollar in the county.

Here are comparative figures for Ord:

Agency	1944	1945	1946
State	3.06	3.44	4.14
Township	2.95	2.53	5.15
City	10.56	10.65	12.65
City Bonds	6.00	4.00	5.00
School District	19.29	19.87	22.00
School Bonds	4.82	5.10	4.84
TOTALS	48.65	47.53	66.78

Returns On 1946 Income Tax Are Due January 15

Farmers and Ranchers Must File; Alternatives Offered.

Individuals who realize at least two-thirds of their income from farming are reminded that they must make a report on their 1946 income to the U. S. Bureau of Internal Revenue by January 15, 1947.

Details of the procedure to be followed are as follows:
Farmers and ranchers have two possible alternatives in making their tax reports for 1946.

Secondly, farmers who still are owed money for some crops and aren't certain as to what their final income total will be can file a declaration and an estimate of the tax on January 15.

Manager Emil Babka hands dividend checks to three of the ten highest dividend receivers at the annual creamery meeting held at the Ord theatre Thursday.

Ord Loses To Hastings Five

Home Team to Meet Powerful Grand Island Group Here Friday Night.

Fighting against strong odds, the Ord Chanticleers lost a game to the Hastings Tigers on the Hastings floor Friday evening. Final score was 27 to 16.

The Tigers, with fifteen men at their disposal, alternated quintets by quarters without weakening their offensive or defensive strength.

During the first quarter, the Chants and the Tigers alternated in nosing, with Hastings getting the nod 10 to 8.

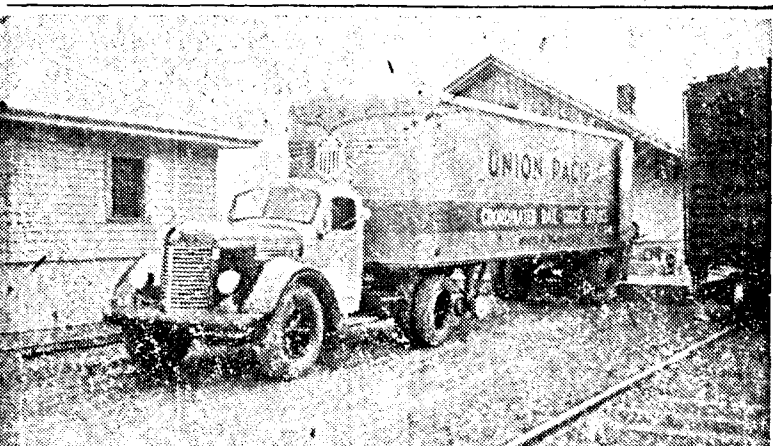

With fresh Tiger replacements taking over at this point, the weary Chanticleers were outscored 7 to 4 to lose the ball game by 11 points, the same margin by which the last year's Chants lost to the Hastings club.

Friday night of this week, the local quint meets the powerful Grand Island covers, recent victors over Lincoln Central, and state champs of last year.

Blessing To Play
Al Blessing, who has been out of action so far this season with a football injury, may be able to play at least part of the game and will add strength to the team's chances.

Officials for the Grand Island game will be Ken Carver and Morris Fisher both of Grand Island. The tip-off is scheduled for 8:15 and a curtain raiser between the fourth and fifth period gym classes will entertain those wishing to occupy their seats early.

—Among those attending a family dinner at the O. E. Collins home Sunday were Mr. and Mrs. Richard Barnhart of Sargent.

Teen Age Youths Caught Looting Arcadia Stores

Three Arcadia youths, Troy Woody, 17, Jack Ray, 15, and Delwin Sells, 14, who have been charged with looting of Arcadia business places and parked cars, were brought to Ord Monday morning by Sheriff Bob Hall and waived preliminary hearing.

The case will be heard at district court Thursday before district judge E. G. Kroeger.

License Tabs To Go On Sale After January 1

There will be no new license plates in Nebraska for 1947 because of the metal shortage, according to officials of the state motor vehicle division at Lincoln.

County Treasurer George Satterfield says that the tabs can be obtained at his office after Jan. 1. They are to be fastened in the upper right hand corner of the 1946 plate will substitute for licenses.

Owners of new cars which the manufacturer did not provide with brackets for attaching license plates in front are being cautioned by the motor vehicle division to correct this deficiency.

\$30,110.63 In Dividends Paid By Creamery

Fifty-Two Producers Receive Checks Of Over \$100.00.

The Ord Co-operative Creamery completed its twentieth and most successful year of operations Monday, Dec. 9, according to manager Emil Babka. In those twenty years, the creamery has paid \$29,588.87 in interest to its stockholders, \$245,673.71 in butterfat refunds, and \$20,422.58 in egg and poultry refunds, making a total of \$295,685.16.

At the creamery's annual stockholders' meeting held in the Ord Theatre Thursday afternoon, Babka reported that sales for 1946 totaled over \$177,000.00. Butter churned in 1946 totaled 161,492 pounds, making the largest butter production since 1933.

During Thursday's meeting refund and interest checks amounting to a total of \$30,110.63 were given out. This year 52 producers received checks of over \$100. Highest of these was Ben Maly, whose check totalled \$260.17. Other amounts received by the ten highest were Gust Foth, \$228.58; William Valasek, \$223.55; George Watts, \$221.25; Ray W. Peterson, \$184.82; Joe Wadas, \$173.64; McLain Brothers, \$170.76; Louis Florian, \$169.40; Steve Urbanski, \$166.40; and Charles Vancura, Jr., \$155.58.

Creamery stockholders re-elected Clarence Davis, Henry Zikmund and William Novosad to serve on a board of directors for three years. Other officers re-elected were P. E. Pocock, president; W. C. H. Noll, vice president; and Clarence Davis, Secretary-treasurer.

U. P. Installs Rail-Truck Service To Ord

Merchants Promised 24-Hour Delivery Service from Omaha.

Union Pacific rail-truck service which has been operating from Omaha to Kimball since last May was installed between Grand Island and the Ord and Loup City branches Thursday.

According to F. M. Purnell, who is the Union Pacific supervisor of station service, the new plan expedites movement of freight and makes service more flexible.

Normally, says Purnell, it takes three or four days for merchandise shipped from Omaha to reach Ord. With rail-truck service, the merchandise will be shipped from Omaha in the afternoon and will reach Ord at ten o'clock the next morning.

In addition to faster service, the new system will also release rail cars which are tied up in smaller branches for several days for use on the west coast, where they are badly needed.

Hudson Distributor Opened Here By Ted Amick, Elba
Ord will soon become the distribution point for Hudson cars in the surrounding eight county area, Ted R. Amick, Elba, Hudson distributor in this area, revealed Monday.

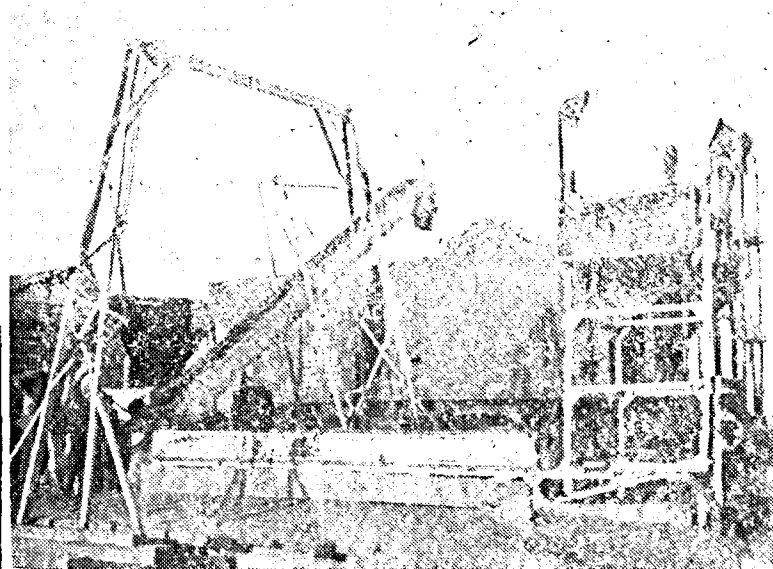

Mr. Amick has leased the buildings owned by Hugh Carson, just back of the City Hall, for five years, and will conduct his business from that site. He plans to move here from Elba just as soon as housing can be secured and other arrangements made.

Elmer Christoferson, Grand Island, is joining Mr. Amick in the venture here. Mr. Christoferson formerly operated an automobile body shop in Grand Island, has sub-leased a portion of Amick's building, and will move his equipment here.

Ord Boys Take Over From Mexicans In Beet Fields

Topping beets is back-breaking work says Jimmy Keller and Ernie Holt, who were two of the Ord boys who helped the Sinteks out when Mexican laborers left for a warmer climate.

Beets are dumped into the bin and then automatically loaded into the freight car ready for shipment to Grand Island.

Benny Sintek operates the mechanical picker which takes the beets from the ground and dumps them into the truck driven by his brother, Lyle.

At least one Valley county farmer is trying to do something about the shortage of sugar. He is Ben Sintek, who farms the Jim McCall place north of North Loup. When his neighbors became disgusted with government prices ruling beets and beet sugar and planted other crops, Sintek stuck to raising beets.

This year he planted 88 acres of beets, which, during the spring and summer were farmed by Mexican labor. Harvesting of the beets was scarcely under way, when the big snowstorm came, and Sintek's Mexican farm hands packed up and left for Texas.

With bad weather and the lack of labor, and one thing piling on top of another, the beets lay in the fields for almost a month before they could be dug.

Registration of Air Force Veterans Is Aided By Scouts

Recently, the Boy Scouts of America were called upon by General Carl Spaatz to aid in registering all former members of the army air forces. Because of the speed with which men were discharged from the air force, the home addresses of many were not obtained. Since the government wishes to have its files complete for the purpose of sending out information to ex-service men from time to time, the Boy Scouts have been asked to help get post cards into the hands of each ex-air force man.

The Ord Scout troop is cooperating in this project through the Civilian Air Patrol wing of Lincoln. Boxes of cards have been placed in the Ord Bakery, Ord Theatre, Postoffice and Legion club. Every air force veteran in Valley county is urged to obtain one of these postage-free cards, fill in the requested information, and drop in any mail box or post office.

Farm Prices Have Slipped in Past Month

Washington. — The Agriculture Department has reported that sharp price declines in cotton, corn and poultry lowered the general level of farm prices 3.7 percent during the month ending November 15.

At 263 percent of the 1909-14 average, the index of prices received by farmers was 10 points lower than a month earlier. However, the average was 58 points higher than a year ago.

Parity prices for farm products continued their advance in to new high ground as the result of a 2.4 percent increase in the index of prices paid, interest and taxes. Reflecting the decline of prices received by farmers and the increase in prices of things they buy, the parity ratio decreased 8.1 percent during the month, but at 124 it was seven points higher than a year ago.

Parity prices are theoretical standards set up by law for measuring the adequacy of actual prices from the standpoint of whether they are fair to producers and consumers.

With ceilings now removed from nearly all agriculture commodities, prices received by farmers are 84 per cent higher than at the time the United States entered the war and 29 per cent higher than on V-J Day.

Prices received by farmers and parity prices, respectively, for major commodities on November 15 included.

Fat Salvage Is Still Essential

According to government officials, the world-wide shortage of fats and oils—both of food fats and of fats for industrial purposes—promises to continue for some considerable period of time.

Industrial fats are required to make many of the peace time products which are presently in short supply. The largest single use of industrial fats is for soap making.

With increasing shipments of copra from the South Pacific, there are good prospects for improvement in the fats and oils situation in the months ahead. Today, however, federal authorities are asking housewives to help

the situation by continuing to save all their used fats after they have gotten the cooking goods from them. Meat dealers are also

urged to help by asking their customers to turn in their used fats promptly.

Do you think steel profits are big?

Recently in a nation-wide poll most people guessed that steel profits were about 20 cents on each dollar of sales. They said 10 cents would be about right.

Actually, for the past ten years steel company profits have averaged less than 5 cents on each dollar of sales.

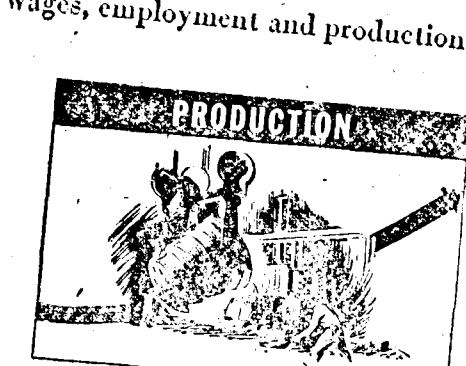

Although profits continue low, wages, employment and production are near record levels.

EMPLOYMENT

The number of wage earners is not far from the highest in peacetime steel history—20 per cent above the 1929 level.

PRODUCTION

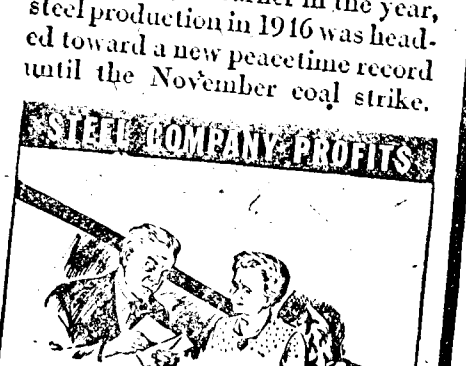

Despite strikes earlier in the year, steel production in 1916 was headed toward a new peacetime record until the November coal strike.

WAGES

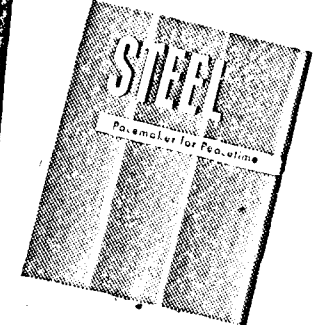

Weekly wages in steel industry in the third quarter of 1946 were 63% higher than in 1939.

STEEL COMPANY PROFITS

Average profit per dollar of sales in 1916 is lower than it was in most good prewar years.

THEY WILL GET ALONG

Many remarkable statements have been made since the results of the recent election became known, but none is more unusual than that made by J. William Fulbright, senator from Arkansas, who suggested on the day following the election that President Truman resign after appointing a republican as secretary of state, thus leaving the republicans unhampered by having a democrat in the White House.

The senator is apparently sincere in his suggestion, and the fact that he is a democrat himself makes it the more interesting. If his idea were carried out to the Nth degree, then Senator Fulbright should resign in favor of some republican, and thus give the republicans a bigger working majority in the new congress. In fact, why not have all the democrats resign, and make it a republican love feast.

There is one thing wrong with the idea. Somewhere he got the notion that people must all be of the same political faith in order to agree. It is not our democratic way of life for people in any walk of life to agree in all things. It is impossible to imagine any group of nearly five hundred men in America, regardless of politics, religion or race, getting together and agreeing on anything.

Right now two factions of the republican party are quarreling over the spoils, and these same men stood shoulder to shoulder before the November election. Nor are the democrats any different. It is true the New Dealers are in disrepute now, but there are still a number of them. Aligned against them are the Old Guard, the men who opposed the New Deal since the beginning.

It is true that neither Wilson and the republicans, nor Hoover and the democrats, got along well together. But these two examples established a precedent and a warning. With the mistakes of the past to guide them, it is not only possible, but even probable, that President Truman and the new congress may get together and do a lot for the good of the people who elected them.

It is a mistake to assume that a president and a congress of the same political complexion will get along well together. History has two startling examples of failure to agree. The first was when the republican congress of Abraham Lincoln came within one vote of impeaching his successor, Andrew Johnson, who was also a republican. They had everything their own way at the close of the war, and yet they couldn't agree on a reconstruction policy.

The other was that of Franklin D. Roosevelt and his democratic congress. For the greater part of his tenure of office, Roosevelt was at odds with congress over some measure of his cherished New Deal. In time he was given more powers than any president ever possessed before, but he had a hard fight to obtain those powers.

To obtain cooperation, there must be a strong desire on the part of both sides to cooperate. This was lacking in 1918, in 1930, and after 1932. The cooperative idea is uppermost now, and in many respects the congress and the president are already seeing eye to eye. When Truman got tough with John L. Lewis, congress, with a few exceptions, made haste to approve.

It may be a pipe dream, but it now looks as though the new congress and the president may get their coats off and put over more and better legislation than we have had for years. It is the one way that Truman can maintain his prestige as the head of the nation. Cooperation this coming year will assure him of the democratic nomination in 1948, and give him his best chance of being elected at that time. He has nothing to lose and much to gain.—J. L. W.

Most Taverns Do More Than Barely Keep Within the Law
Nebraska has one of the best liquor control laws in the nation. This law, together with rules adopted by the liquor control commission, clearly specifies the rights and duties of all beer licensees. Too many licensees once seemed mainly interested in knowing, "How far can I go and not get in trouble?" The situation steadily improves. Now most beer retailers are well informed on the liquor control laws and rules. They seek to obey every one—not simply because they fear penalties but because they know careful law observance is the surest way to win and hold public good will. This improvement in tavern operations can be partly credited to the Nebraska Committee's program of Self-Regulation. Eight years of this program has helped build in Nebraska one of the beer industry's most valued assets—a good name.

Ed. Belsky Justifies High Prices Of Nebraska Registered Herefords

Arcadia Basketball Results
 In the first round of the Loup Valley pre-season tournament, the Arcadia Huskies defeated the surprisingly strong Taylor Cowboys 31-28. The game was a thriller and closely contested all the way. Gene Moody, sharp shooting forward, paced the Huskie tossers with 25 points. Yokum and Hodgson led the cowboys 12 and 11 respectively. This was the first game of the season for the locals. Scotia defeated Sargent and Burwell defeated North Loup in other first round games. Arcadia defeated Scotia 37-21 in the semi-finals of the tournament to advance to the finals. The Huskies held the upper hand throughout, establishing a 14-3 lead at the first quarter which they never relinquished. Gene Moody bagged 28 points for the locals while Schumaker led the Scotia Tigers with 11. Gene Cox played fine defensively. Comstock defeated Burwell in the other semi-finals while Sargent beat Taylor in the consolation round. Comstock defeated Arcadia 21-16 to win the Loup Valley Conference pre-season tourney. Burwell defeated Scotia to win third place. Consolation bracket winner was North Loup over Sargent. The championship tussel was a hard fought game and at times quite rough. The Pirates went off to an early lead which they never relinquished although the locals tied the score at 14 all in the third quarter. Fisher paced the winners with 11 points. Higgins played outstanding defensive ball for the Pirates.

Valentine, Nebr.—Should the high prices being paid at sales of fine cattle be taken as a sign of inflation? Are producers of these top-flight animals getting too much money? Take it from one of Nebraska's leading producers of purebred cattle—the answer is "no". He is Ed. Belsky of Merriman, who started producing registered Herefords in 1906. In 1916 he helped organize the Northwest Nebraska Hereford Breeders' association. Belsky, more than anyone else, is responsible for the fact that Nebraska now has more registered Hereford cattle than any other state except Texas. The Cornhusker state's registered Hereford sales draw cattlemen from all over the nation. Principal reason for the high prices brought for fine cattle these days is the high cost of producing them, Belsky says. A number of purebred breeders contend their net profits are less than they were before the war, when sale prices didn't go so high. The cost of replacing herd bulls and higher taxes help boost the cost. Belsky claims that it now costs the average small operator an average of about \$500 to raise and fit a bull to two years old for sale—about double the prewar cost. But there are other aspects of Belsky's argument that prices are not too high. He cites the many years of work necessary to building up an organization to encourage production of fine cattle. Belsky points out that Nebraska registered Herefords now have a national reputation. Final proof of their standing came recently when the top bull of all breeds was sold by Jack Turner of the Silver Crest ranch at Fort Worth, Texas, last June.

Mrs. Fred Hunt and Dillard, Mrs. Paul Leighton and Miss Laurel Leighton of Loup City were Grand Island visitors Thursday. Ben Mason entertained the Mason Motor Co employees to a steak supper at the hotel parlors last Thursday night. Those present were: Ben Mason, Harold Elliot, Paul Leighton, Boyd Gregory, Louis Drake, Guy Lutz and Allen Woody. Mr. and Mrs. Percy Doe attended a meeting of Valley County 8 at 40 at North Loup Tuesday evening. A steak supper "Dutch Treat" at the cafe was followed by a business and social meeting at the home of Mr. and Mrs. Clarence Switzer. Kermit Erickson made a business trip to Grand Island Saturday. The Happy Hollow Aid met Tuesday, December 17, at the home of Mrs. Irene Paben. Mrs. George Olson of Loup City spent Tuesday evening and Wednesday at the home of Mrs. Vashli Hastings. Mr. and Mrs. Morris Riddle and daughter, Mr. and Mrs. Gene Hastings and Mrs. Vashli Hastings were Sunday visitors at the home of Mr. and Mrs. George Hastings in Ord.

for \$52,000. According to Sam P. McKelvie of Valentine, recently elected director of the American Hereford association, the bull came from Nebraska. This week's annual Northwest Nebraska Hereford association sale brought some high prices. The grand champion, shown by Hubert H. Forney, sold to C. G. Wilson & Son of Alliance for \$2,650. The reserve champion sold 10' \$1,000. Belsky admits owners of these two animals made money. However, he pointed out that the 107 bulls sold at the sale averaged \$450. If it costs \$500 to bring a bull to sale condition, as breeders of the fine cattle claim, some of them lost money on the sale.

Draft Holiday Is
Extended a Month

War department officials in
Washington have announced that
the draft holiday now in effect will
be extended through January.
However, Miss Jean Veleba, Val-

as yet her office has received no
official word of the extension.
Inductions have been suspended
since mid-October, when draft offi-
cials were notified that they need
not supply the quota for the last
half of the month.
The navy has not been using the
draft for many months, since vol-
unteers have met its requirements.

Sugar Allotment Increased
By New Stamp, Good
Until April 30.

A new consumer spare ration
stamp for five pounds of sugar will
be made valid on Jan. 1, 1947, and
will be good through April 30,
OPA officials have announced.
"It is anticipated," the an-
nouncement said, "that the second
consumer stamp for 1947, will be
made good before this stamp ex-
pires, thus increasing the present
consumer ration of five pounds of
sugar for each four months."
Secretary of Agriculture Clin-
ton Anderson says that barring
"unpredictable disasters," the quotas
of industrial users will be
increased next year by ten per
cent of the quantity they used in

Mrs. Mitchell Dies Friday

Services Held Monday For No. Loup Woman Who Died at Humboldt.

Funeral services were held Monday afternoon at the North Loup Methodist church for Mrs. Oliver H. Mitchell, who died at Humboldt Friday at the age of 84 years, four months and 13 days. Rev. Samuel Mitchell conducted the funeral services. The Hastings-

Pearson Mortuary had charge of arrangements. Pall bearers were Victor Cook, John Palser, Alfred Jorgensen, Louie Axthelm, Ernest Johnson and Howard Manchester. Burial was in the family plot in the Davis Creek cemetery. Sadie Headrick was born July 31, 1862, in Warren county, Iowa. On Jan. 19, 1887, she was united in marriage to Oliver H. Mitchell and came with him to Nebraska to make her home. The earlier part of her life was spent at Arlington and Fremont. In 1916, the family came to Valley county. Mrs. Mitchell was preceded in death by her husband and a son, Russell Eugene.

She leaves to mourn her passing three sons, Rev. C. E. Mitchell of Albion, Ralph Mitchell of Denver, Colo., and Lawrence Mitchell of Milford, Ia.; and three daughters, Hannah Mitchell of Fremont, Mrs. Albert Clutter of Humboldt, and Mrs. Ordie Billenwilliams of Colorado, Kans.

Attends Tax Meeting
John P. Misko of Ord spent Wednesday and Thursday in Grand Island where he attended an income tax instruction school given by the department of internal revenue to instruct income tax consultants in the intricacies of new tax laws.

Farm Income Is Double That Of 1940 Says Report

More than doubling their annual gross income in comparison with 1940, as reported by the U. S. Bureau of Census, Valley county farm families last year produced crops and livestock with the record value of more than \$1,480,000. This huge increase in farm revenue will undoubtedly result in heavy demand for general farm

improvements and for home remodeling when materials become more plentiful, according to a study completed recently.

Volume of home modernization throughout the country will be greatly stepped up as a result of the present rapid extension of electric service to rural areas, according to the study. Heaviest remodeling demand is anticipated for the installation of running water, bath rooms and improving kitchen layouts.

Also pointed out is the need for replacing much of the war weary machinery on the 1,101 farms listed for this county in the 1945 census figures.

Turkey Scramble Set For Saturday P. M.

Want a Christmas dinner free? Well, there will be a large number of Christmas dinners free in Ord Saturday afternoon, when an airplane chartered by the Ord Chamber of Commerce will fly over the business section and release a large number of turkeys.

Whoever is agile and lucky enough will get a free bird. Only rules in the turkey scramble is that no birds can be shot down, and biting, gouging, and mayhem among the scramblers is verboten.

According to John Anderson, Chamber secretary, the stunt has been tried before and the turkeys do a good job of flying when they are released from the plane. The event will take place about 2 o'clock.

Fort Hartsuff Appraisal Will Be Made Soon

Trustees Appoint Committee to Assist Park Association.

Plans of the newly organized Fort Hartsuff committee are progressing rapidly, according to Dr. Glen D. Auble, who is a member of the board of trustees, and it is believed that the park site may be appraised in a week or two, with a view to its purchase by the association.

At a meeting last week, trustees Auble, John Anderson and Mrs. Ben Rose of Burwell appointed C. J. Mortensen to serve as treasurer of the group.

Other committees appointed by the trustees were: Publicity: John Ward, Corwin Cummings, James Ollis, Charles Dunham and Honor Frease, Legislative: C. M. Davis, E. L. Vogelanz and Guy Laverly. Membership: Carol Mortensen; Mrs. Ben Nelson of North Loup; and Dr. Eldon Smith of Burwell. Financial: Clark Weckbach, Ed Armstrong, John Haskell, C. C. Thompson; B. W. Wagner, Mike Shonka, Charles Schulling and Henry Bredthauer, all of Burwell; Vern Anderson, L. J. Auble, Ed Swopes, all of Ord; Roy Hudson, Rev. Ehret and Ed Schudel all of North Loup; Leon Cienny of Elyria and Guy Fletcher of Taylor.

Judicial: Ben Rose of Burwell, Ralph Norman of Ord, and James Lawrence of Lincoln.

Historical: Thurman A. Smith of Taylor; Myra Barber of North Loup; Horace Davis of Lincoln; Edward Krikake of Cosmo; Carl Pecht of Loup City; Anna M. Cameron and Mrs. Gaylord Wallace, both of Burwell; and Manie Smith and Dr. George Gaid, both of Ord.

Memorials and relics: Evet Smith, H. T. Frazier, A. J. Auble, and B. C. Bouquet, all of Ord; Maude Goodenow, Meda Draver and Ed Cram, all of Burwell; Paul Mortensen of Cotesfield; W. T. Hutchings of North Loup; and A. E. Alder of Taylor.

A meeting of all committees will be called soon after Christmas to perfect general plans, according to Dr. Auble.

Last week, Dr. Auble received a letter from Congressman A. L. Miller, who is Nebraska's fourth district representative, commending Dr. Auble on his aggressive leadership in the cause of the restoration of Fort Hartsuff. Representative Miller has asked the Fort Hartsuff representatives to feel free to call on him any time they think that he will be able to help them.

Mercury Goes Down To 4 Above Zero on Wednesday Morning

Valley county residents got a taste of two weather extremes during the first three days of this week. Monday morning, according to official weather recorder Herace Travis, the mercury hovered above 22 degrees. By Tuesday morning, thermometer readings were down to eight degrees above zero.

The official temperature Wednesday morning, according to Travis, was four above, with the mercury scheduled to take another dive, according to weather forecasters.

To get the paper into the mails before Christmas and to permit Quiz employees to enjoy the Wednesday holiday, next week's Quiz will be printed earlier than usual. Nebraska U Coach Featured Speaker At Cosmo Banquet

200 Persons Attend Annual Banquet Sponsored By Cosmopolitans.

The annual football banquet, sponsored by the Cosmopolitan club, was held at the high school auditorium Wednesday evening with about 200 persons in attendance. The banquet is given each year in honor of the current football team.

Toastmaster for the evening was John Misko, who introduced the guest speaker, Line Coach Gomar Jones of the University of Nebraska, and other guests, Ord high school coach, Alex Cochran, Sr., junior high coaches Jesse Kovanda and Roland Beran, Hilding Pearson, and members of the University of Nebraska football team, Alex Cochran, Jr., Jack Evans and Carl Samuelson.

During the main speech of the evening, Gomar Jones told of the coming year's football schedule for the University of Nebraska and of the strength of the Nebraska team's opponents. He also spoke to members of Ord's football team, stressing the value of good sportsmanship and the example which the team sets for other boys in school.

Irrigators Ask For New Ruling on Water Rights

For a determination of what is "one acre foot" of water, the North and Middle Loup Public Power and irrigation districts are having a hearing before the department of roads and irrigation early next year. Official notice of the hearing is published in this week's Quiz.

According to M. S. Dodd, superintendent of the districts, present water allocations call for one foot for each acre. The district is asking that this be changed to one foot on each acre.

"The law now allows a maximum diversion of three feet of water at the headgates, but under agreements we now have, the statute is not clear as to whether we can use that much. Our objective in having the hearing is to get permission to use as much of the three feet as possible in order to get one foot on the land," Mr. Dodd stated.

"If we are limited to only one acre foot at the headgates, it will mean that less than six inches can be put on the land. As a general rule, two to three feet of headgate water are required to get one acre foot on the land, depending on weather conditions during the growing season. Losses are due to three main factors—seepage, evaporation and transpiration. Transpiration is the use of water by growing things along the banks such as weeds and trees."

Own Relatives, Not Friends, Picked Corn

Mrs. Ruth Haught, of North Loup, wants it made known that her own relatives and not "friends and neighbors" as stated in last week's North Loup department of the Quiz, helped in getting her corn out. Only friends who offered their help were Mr. and Mrs. Clifton Clark and Cecil VanHoozen, she says. Mrs. Clark and Mrs. Johnson cooked the meals.

Two New Employees Join Staff of Quiz

The Quiz staff has two new members this week—in the persons of Roy Steward, of Rockwell, Ia., and Kenneth Cummings, Ord. The former is a pressman and at present is being used on the night shift but later will take a regular place on the day shift. Cummings is a pressman-trainee.

Ideas for your Christmas dinner

If your Christmas dinner menu isn't quite complete and you're still looking for some ideas, here are several that may help you.

RIPE OLIVES BORDELAISE—For an unusual accompaniment to an opening course, or as a relish, try this different way with ripe olives. Be sure to serve them piping hot, for it enhances the flavor.

Place 2 cups ripe olives and olive liquid in a small saucepan. Add 1 to 2 tablespoons salad oil and 3 quartered buds of garlic. Let stand for several hours. Just before serving, bring to boiling point. Drain and serve hot. Serves 6.

BAKED ONIONS AND PEAS—If your turkey doesn't fill your oven, here's an excellent idea for a vegetable for your Christmas dinner. The flavor combination is a perfect one to go with turkey or chicken.

Wash and peel 1 pound of small dry onions; place in casserole and season with butter or margarine, salt, and pepper. Cover and bake in a moderately hot oven (400° F.) 35 minutes or until almost tender. Add 2 cups of cooked or canned peas. Cover and bake 5 minutes, or until peas are heated through. Serves 6.

HOT MINCEMEAT SUNDAY—If you are still wondering what to serve for dessert, then this quick and easy idea is just for you. Mix it the day before, then let it simmer during your dinner.

Mix together 1 cup mincemeat, 1/2 cup each of chopped nut meats and orange juice, and 1/2 cup each of dark corn syrup and brown sugar, firmly packed. Let stand overnight. Just before serving simmer gently 10 to 15 minutes. Serve hot over vanilla ice cream, allowing 1 to 2 tablespoons for each serving. Serves 6 to 8.

"Lend-A-Hand" Policy Of Valley County Farmers Who Pick Corn For Neighbors In Distress

Lend a hand to your neighbor who needs help, seems to be the motto of Valley county farmers who are taking time out from their busiest season of the year to taking over the work for their neighbors who have met with misfortune.

Last week, Valley county farmers exhibited the spirit of cooperation twice when husking bees were held at the Charles Krikac farm near Comstock and the Hugo Malottke farm near North Loup.

According to a California visitor, L. J. Thorne, the husking bee at the Krikac farm Wednesday was the largest he had ever witnessed, and the men who took part were quick to agree with him. Forty-three men, with sixteen teams and wagons, piled in the 90-acre corn field belonging to Krikac early Wednesday morning, and by noon, only about fifteen acres of corn remained to

be picked. When the day was done, 1300 bushels of corn filled the corn cribs on the farm, with most of the corn averaging between fifteen and 20 bushels to the acre.

Mr. Krikac told a Quiz reporter that one never knows how many friends he has until he needs them. "Words just can't express how I appreciate what these men are doing for me," he said.

Those who took part in the husking bee at the Krikac farm were Ed Waldmann, Lawrence Waldmann, Jerry Pesek, Rudolph Vodehnal, Henry Bruha, Ray Waldman, Joe Petska, Lumir Vodehnal, Carl Gilbert, Tom Waldmann, Henry Setlik, Joe Skolil, L. Tuesday, the Hugo Malottke farm near North Loup was the scene of another husking bee. Malottke, who was a patient in the Clinic hospital with an infected leg, had managed to get eighty acres of corn on his farm near Scotia picked, however, there still remained sixty acres on the farm near North Loup. Friends and neighbors took over for him, and by nightfall, all sixty acres were picked and cribbed.

Neighbors who helped Malottke out were D. E. Bussell, Arnold Malottke, Arthur Malottke, Frank McDermott, Herbert Bredthauer, Dean Fuss, Maynard L. Smith, Roy Bremer, Archie Roga, Ikey Babcock, Dale Mulligan, Grover Jorgensen, Greeley Gebhardt, Will McDermott, Lores

Husking Bee Held At Zulkoski Farm

A group of neighbors, relatives and friends gathered at the Enus Zulkoski farm home three miles northwest of Elyria and held a husking bee Wednesday. Mrs. Zulkoski was a patient at the Ord hospital, and friends helped out the family by picking their corn.

Those bringing wagons and teams were Lloyd Konkaleski, Edmund Zulkoski, John Iwanski, Raymond and Ralph Zulkoski, Ed Jablonski and Steve Dubas. Assisting were Charles Lech, Joe Konkaleski, Rollie, Bennie and John B. Zulkoski, and Fred Dubas.

Women who brought and prepared the meal were Mrs. J. B. Zulkoski, Mrs. Ed Jablonski, Mrs. Joe Konkaleski, Mrs. John Iwanski, Miss Irene Dubas and Miss Magdalen Jablonski.

There will be a Candlelighting Vesper Service, in the sanctuary of the church, at 7:30 p.m., on Christmas Eve. The Methodist Youth Fellowship, will be the choir, and will sing the carols, and read the scripture lessons. Intermediate-Junior girls will serve as ushers, and light the candles. Before the service closes each person present will have a lighted candle. For that reason we are urging parents to bring their children and sit together as family groups. There could be no finer way, to hear again the story of the Christ-Child's advent into the world.

Following the Vesper service, there will be a Christmas program, treat, tree, and Santa we hope.

Next Sunday, Dec. 22, Christmas Sunday:
Church school classes, for all ages.

Worship service, 11:00 a.m. Topic: "Christ Above All". Anthem by the choir.

The meaning and motif of Christmas will run through the entire worship service.

RHODES Ramblings

Cowboy: Getting your saddle on backward, aren't you. Dude: That's all you know about it, smarty. You don't even know which way I'm going.

Wherever you're going, make it a habit to stop at this busy little fixit shop for motor service. We don't sell gas, oil, tires or lubrication, but we can certainly tune your motor so you'll have to make less stops for gas and oil.

Not many women in the law business. Most of them prefer to lay it down rather than take it up.

Ed Swopes and Gene Barnett were coming in for a landing the other evening at dusk—Ed at the wheel as they swooped down gracefully over the runway. Ed: "Boy, that's one of the smoothest landings I ever made." Gene: "That's swell, Ed, but you're still 15 feet off the ground."

Chamber To Fight Any Attempt Loup Water Diversion

Diversion To Platte Opposed Until Own Needs Are Satisfied.

"The people of Ord, and every other resident of the Loup Valley will fight any attempt to divert water from this watershed into the Platte until our own needs are satisfied," E. S. Murray, member of the Ord Chamber of Commerce Loup River development committee stated today.

Murray, commenting on a statement made by C. Petrus Peterson before the Nebraska Reclamation Association at Minden, stated:

"Apparently it's just a question of whose ox is getting gored. The Platte valley people have been shouting for years in opposing diversion from the Platte to the Republican valley watershed. Now, it seems that they want Loup water to be sent to the Platte.

"Any diversion from the Loup must necessarily be held up until we have exhausted water uses in our valley. And there are many uses for it—undeveloped irrigation, such as the Chamber backed projects in Mira Valley, power, recreation, game conservation and anti-drought storage."

Seeks Public Support

"The Ord Chamber of Commerce is actively interested in developing this valley, and we know that we will have the support of every civic organization in the valley," he concluded.

At Minden, legislature speaker Peterson declared that "in any event, definite provision for use of water after leaving its own watershed needs to be established based on its most beneficial and economical use" in a speech on the state's water problems.

"Such provision will be found to be a condition precedent to approval of expenditures by federal agencies and if properly established will be found to be in the best interest of the state," he continued in an address prepared for delivery before the Nebraska Reclamation association, whose executive committee he heads.

Platte Water Short

Going back to the legislative fight four years ago on proposed diversion of Platte river water southward out of the watershed, Sen. Peterson said that where it was then a contest concerning the "very limited water in the Platte Valley" it now has become "a problem of finding a way to use surplus water of the Loup to solve the shortage in the Platte."

He listed three new requirements since the time two years ago when a legislative committee set forth a "few basic principles."

1. A definition of watershed.
2. A determination of the existence of surplus water in a watershed.
3. A determination of the most beneficial use to which such surplus water can effectively and economically be put.

Cites Pick-Sloan Plan

The senator pointed out that the Pick-Sloan plan for development of the Missouri valley, approved by the federal government, contemplates the use of a substantial amount of Loup river water in the Platte valley.

"So," he continued, "as this plan develops it becomes clear that those in the Platte valley who sought to perpetuate the state policy of prohibiting the use of water outside the watershed of the stream from which it was taken will be the chief beneficiaries of a state policy which will permit surplus water in one watershed to be used beyond the watershed.

"The water problem of the Platte valley below Kearney will not be adequately solved except by the use of surplus water from the Loup," Peterson declared.

Attorney Paul F. Good of Lincoln, a water rights authority, placed three fundamental principles before the meeting, as follows:

1. Use of water for irrigation must have preference over use of water for power. A corollary to this principle is that if the same water can be used for power and then for irrigation, its value is increased, and the greater value justifies a considerably greater expenditure.
2. Every drop of water must be made to do its full duty and any plan for water utilization which allows any usable water to escape—is to that extent defective, provided that the expenditure to make the use is economically sound.
3. Water should be used wherever that use can be made efficiently and economically, subject only to the principle that vested rights must not be disturbed and water must be distributed in accordance with priority of appropriation.

Shelves Bare After Saturday Shopping Spree

Motto of the Day for Buyers in Ord Saturday Was 'Everything Goes.'

Apparently Valley county residents haven't much faith in the old axiom "Do your Christmas shopping early." Three weeks ago when a Quiz reporter was making a survey on Christmas buying, Ord merchants, or rather, a majority of them, were bewailing the fact that Christmas buying was the slowest it had ever been.

Saturday afternoon and evening, footsore and weary merchants were willing to eat their words. All day long, Ord business firms had been packed with people, buying everything they could get their hands on. People swarmed into stores like locusts and left shelves bare. Some businessmen barely had time to swallow a few bites of supper and get back to the stores.

One Ord hardware merchant had unpacked a shipment of new goods which included silverware, fancy dishes, etc., before he went to supper. When he came back an hour later, everything had been sold. Neither price nor the quality of an object seemed to make much difference Saturday. There were names on Christmas lists and those persons had to be given gifts, so the shoppers bought. After watching his Christmas stock disappear as if by magic, one Ord merchant remarked, "Seems to me that there'll be very few empty stockings around here this Christmas."

Rumors of Losses By G. I. Team False Says Thompson

Superintendent C. C. Thompson of the Ord schools Saturday morning branded as "untrue" rumors circulating in the town that Grand Island team members had had their pockets rifled during the Ord-Grand Island basketball game last Friday evening.

After Thompson received word of the rumors, he called the Grand Island coach, Aubrey Givens, who denied that anything had been stolen from his boys. Givens says that Grand Island's policy concerning money and valuables is the same as Ord's. All money and valuables must be checked with the student manager preceding a game.

July 2, 3, 4 Set For Ord Opening Races

Fair Board Directors Plan to Build Underpass On Track.

Three-day opening races will be held on the race track at the Valley County Fair grounds July 2, 3 and 4, according to a decision reached by members of the Fair Association board of directors at a meeting at the city hall Thursday evening.

Before the races, Jay Aulsebrook says that the directors have approved the hard surfacing of the track. At present, plans are being discussed for the building of an underpass from the center of the track to the north side.

The directors also took up the subject of the sale of extra shares of stock in the Fair Association. They expressed their pleasure at the large number of shares that had been sold already. However, it was decided that special effort would be made to sell the remaining 25 shares.

Most Successful Turkey Shoot Is Staged by Legion

Voted as one of the most successful ever staged in Ord was the turkey shoot sponsored by the American Legion Fidelity post number 38 at the fair grounds Sunday afternoon. The shoot began at 1:30 and continued until well after dark, as some 20 turkeys, 12 ducks and 10 geese were given away.

The Legion's entertainment committee, Maynard Behrends, Richard Rowbal and Ross Allen had charge of arrangements.

Citizenship Award Given Former Ordite

Hartington American Legion Post Presents Award To C. A. Carkoski.

A former Elyria man, C. A. Carkoski, who is now superintendent of schools at Hartington, was awarded the Outstanding Citizenship award by the Fourth Nebraska post of the American Legion at Hartington last week. Carkoski, son of Mr. and Mrs. John Carkoski, who now live in Ord, was graduated from the Ord high school, after which he attended the University of Nebraska, from which he was graduated in 1928.

The award was presented to Carkoski for his successful training of high school athletic teams, his organization of one of the outstanding Boy Scout troops in the state, his development of the Hartington high school to its present efficiency and high standing among the schools of the state, and for the time he has given to promote worthwhile civic projects for the benefit of Hartington young people.

The former Valley county resident has been in Hartington since 1929, when he took the position of athletic coach in the high school there. In 1934 he was made high school principal and in 1941 was given the position of superintendent of the Hartington high school. He has served as president of the Hartington Lion's club and is at present secretary of the Chamber of Commerce there, and leader of the local Boy Scout troop.

Airport To Be Memorial To Evelyn Sharp

Plans Call For a Formal Dedication of Field Next Summer.

Ord's new airport will be called the Evelyn Sharp Memorial field, according to present plans of the Chamber of Commerce's Mail, Transportation and Aviation committee. The committee made that decision after numerous Ord citizens had suggested that the field bear the name of Ord's first and most famous flier, Evelyn Sharp, who was killed three years ago in Pennsylvania, while she was piloting an army plane.

Airport manager Gene Barnett says that a formal dedication of the field will take place some time next summer. An air show is being planned for the dedication ceremony, and Chamber of Commerce officials are trying to get the nation's number one aviatrix, Jacqueline Cochran, to appear here during the ceremonies.

Members of the Mail, Transportation and Aviation committee are C. J. Mortensen, Gene Barnett, A. L. Hill, Howard Huff and George Finley.

North Loup Lions Are Active Club

Members of the North Loup Lions club have placed road signs on the highways leading to and from the town. Reports on the placement of the signs were given at the club's regular meeting Thursday evening at the Portis cafe by A. L. Willoughby, a member of the road sign committee. The signs were placed on the standards by Claude Barber and Paul Madsen and most of the erecting work was done by Clifford Goodrich.

Lions' club members also acted upon the application of Gilbert Carter, Union Pacific station agent. Clifford Goodrich, a member of district president Donald G. Bell's cabinet, made a report on a meeting recently held by the group.

Guest speaker for the evening was Clarence Davis of Ord. He presented an entertaining and instructive speech on the subject of community service.

Present for the first time at the meeting was Postmaster Frank Johnson, a new member. Bill Schudel, who attended as a guest of A. L. Willoughby, will become a member of the group at the first meeting in January.

Housing Shortage To Continue Says Builder Ray Bissell

A gloomy picture of the housing situation in 1947 was painted Thursday night at the Chamber of Commerce meeting by contractor Ray Bissell. Bissell told Chamber of Commerce members that, although lumber will be plentiful in 1947, prices will be so high that the average purchaser will be unable to afford to build.

He estimated that a typical six-room bungalow, which cost around \$4,000 or \$5,000 to build last year will go up to between \$7,000 and \$7,500.

Friday morning, William Sack of Sack's Lumber Yard told a Quiz reporter that the lumber yard had received three carloads of lumber during the past three weeks, and that it was the finest quality lumber received at anytime during the past year. Although the lumber costs a little more than it did before ceiling prices were taken off, Sack says that lumber trade experts believe that after lumber users begin buying, prices will go down to normal.

Chanticleers Lost Friday To Grand Island

Best Team To Play on Ord Floor in 7 Years, Says Cochrane.

Coach Alex Cochrane's Chanticleers dropped their second game of the basketball season to a powerful Grand Island team on the home floor Friday evening. Final score was 37 to 19 in favor of Coach Aubrey Givens' Grand Island team.

Neither the Grand Island nor the Ord team was playing its usual game. The Grand Island team had a little trouble getting started with the first quarter score reading 9 to 4.

At the half, the Grand Island team jumped into a 17 to 6 lead. Ord's basketekers were so closely guarded that they had very little chance to make their shots count. The Island teamsters took advantage of the third quarter to display the brilliance on the basketball floor which basketball experts say is championship playing. The third quarter ended 32 to 9.

During the fourth quarter, the Chants rallied to cut down the Grand Island lead by 37 to 19.

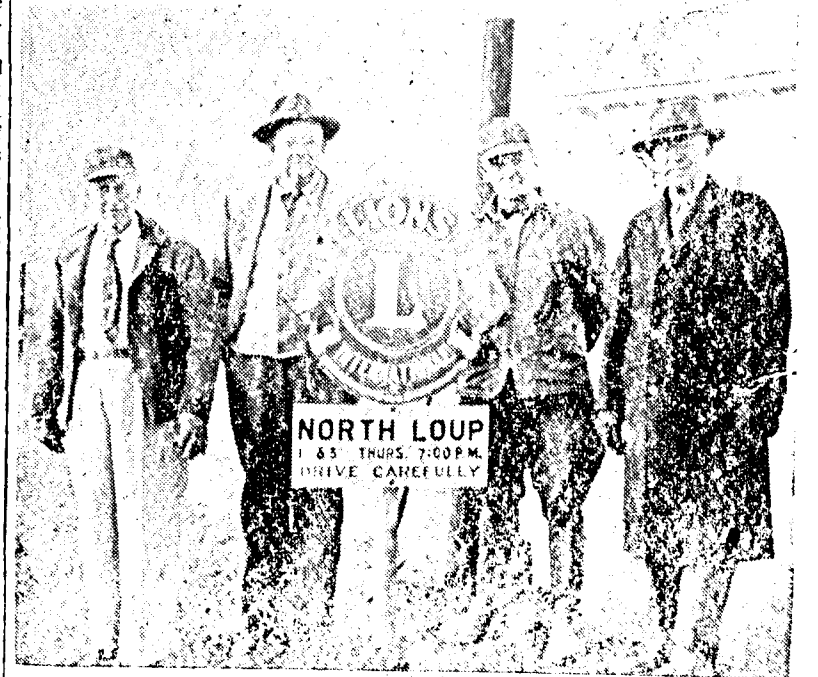

According to Coach Cochrane, the Grand Island team was the best team to play on the Ord floor in the seven years that he has been coaching at Ord.

High point man for Grand Island was Schafer with ten points, followed closely by Kniekrehm with eight, Toft with seven and Lucht with five. Ord's high point man was Toft, who scored six points on field goals. He was followed by Piskorski with four, Blessing with three, and Hannah, Dahlin and Laursen with two apiece.

Here are the Ord team standings:

C. Of C. Plans Active Program For Year, 1947

Committee Reports Given By Chairmen at Meeting Thursday.

The Ord Chamber of Commerce has an aggressive program filled with activities, designed to improve and publicize Ord, planned for the coming year, according to reports given by Chamber of Commerce committee chairmen at their regular meeting held at the Legion Club Thursday evening.

C. C. Dale, who is chairman of the Agriculture committee, said that present plans of his group call for another corn yield contest this winter. The committee also plans to sponsor the agriculture road show this spring and to encourage work in the 4-H clubs.

The committee on investigation of solicitors, composed of Stanley Absolon and John Misko, has been organized to give Ord merchants and residents some sort of insurance against out-of-town solicitors such as magazine salesmen. The Chamber of Commerce may issue a ruling that all solicitors who plan to come to Ord must notify the Chamber of Commerce two weeks in advance so that all credentials may be checked.

During the meeting, members of the North Loup River Development committee, E. S. Murray, Gary Bobst and E. L. Vogelanz told of their efforts to bring irrigation to more than twenty thousand acres of irrigable land in Mira Valley alone. At present, Emanuel Petska is surveying the land there, and the group hopes to be able to obtain funds under the Pick Sloan plan for Missouri River Development.

Other reports were given by Ralph Norman, F. V. Haught, Orin Kellison, John Haskell, A. L. Hill, George Finley, Gene Barnett, Clark Weckbach, Ed Swopes, Bruce Covey, L. B. Woods, Bill Steen and Marlin Taylor.

"Be Thou Well" On Christmas Day
 Among the happy customs of Christmas is that of drinking a wish for health and happiness to the assembled guests—the early name used was "wassail."
 The name "wassail" is a contraction of the middle English "waes hael," meaning "be thou well." Wassail was usually prepared in

a large wooden bowl. The base of the drink, which was cider, was placed in the bowl and other ingredients added for seasoning. It was then set on the hearth in front of a log fire and apples were tied above. As the apples began to roast, the juice dripped into the wooden bowl.
 Here is a recipe for wassail today:
 1 gallon cider, dash of grenadine, 6 egg whites, separated and whipped. Add allspice, cinnamon, crushed cloves to suit and one pint of milk or cream.

—Mr. and Mrs. L. A. Muncy will be hosts to Rev. and Mrs. Carl McConnell and family at dinner on Christmas day.

Wassail Bowl For Auld Lang Syne

The Wassail bowl goes around in Scotland—and elsewhere—at New Year's time.

The origin of the custom is really lost in antiquity; Saxon ancestors probably quaffed their ale from the polished skulls of defeated enemies, and the Rowena legend must be classified as "presumably fiction."

Rowena is reported to have offered her father's guest—Prince Vortigren—a bowl of wine with the salutation "Lord King, wass-hael," literally, "To Your Health." Draining the bowl with one draught, Vortigren fell in love with Rowena and they lived happily ever after.

Anyway, in time the bowl itself became an ornament of graceful design—decorated with branches of greenery which formed a canopy over the bowl. The mixture within was warm and included ale, sugar, spices, sweetened wine was added by hosts who could afford it, apples floated on top of the decoction, sometimes called "lamb's wool" or the "old man's beard." The poorer classes carried a bowl decorated with ribbons around the neighborhood, begging that it be filled, so they, too, might enjoy the Wassail.

The custom of making short calls on New Year's Day was in full swing throughout America about 1900. Newspapers carried columns of "at home" notices specifying the hours during which visitors would be received. A succession of "open houses" and punch bowls sometimes minimized the courtesy accorded to hostesses—receptions were often "crashed" by bibulous strangers; hence, the publicly announced "open house" custom has fallen into decline and, New Year's calls now being exchanged only by intimates, the Wassail bowl goes 'round in private.

Mistletoe Distinct As Yule Decoration

Mistletoe, that distinctive Christmas green so common in many parts of America, is usually thought of as merely good holiday decoration or as a creator of open season on ladies fair for otherwise bashful swains.

Mistletoe did not always hold this position in our lives. The Druids called it "all-heal," and thought it held many miraculous virtues. The Scandinavians dedicated it to their goddess of love, Friga. Probably this goddess of love is responsible for the custom of kissing under the mistletoe. The power to heal, to protect

against sickness, to perform magic deeds—all these and more are the qualities ascribed to this plant in legends, traditions and even in ancient histories and literature.

Mistletoe is a parasite, which infests branches of various trees of both hardwood and conifers, but mainly on hardwoods. One species is found exclusively, however, on conifers.

Among the Celts and others mistletoe which grew from the oak was considered to have peculiar magical virtues not possessed by that from any other trees. Some even considered it so rare as to be only cut with a gold knife.

Another old tradition is that the mistletoe supplied the wood for the holy cross, as previous to that time it was a forest tree but after the crucifixion was condemned to exist only as a dwarf parasite.

Mistletoe was taken over into the Christian tradition in due course and dedicated to the Christ Child. An old rhyme reads:

The mistletoe bough
 At our Christmas board
 Shall hang to the honor
 Of Christ our Lord.

A FARMER SPEAKS OF XMAS
My farmer's heart beats stronger, I am hopeful and unafraid, as we approach the holy festival of Christmas once again. No stranger, I, to God. For He and I are friends day by day throughout the year. But as Nature sleeps in all her majesty at Christmastide, it seems a fitting time to meditate and offer heart felt thanks to Him again.
God lives on my farm, as indeed, He lives on yours. His presence brings me joy and peace; He reassures me when my spirits sink from worry and despair. Should hail, should drouth, should war and man-made strife overtake me, I turn in humble supplication to my God.

He comforts me in soothing tones and tells me of my farm-born blessings by the score—until I am glad and proud that I am privileged to till the soil with Him.
He speaks to me in gentle voice of many tones. In spring, His voice is vibrant and alive with songs of joyful birds returned from far-off regions. The sweet, pure smell of new-turned earth; the gentle rains which help the germinating seeds to re-enact their awesome miracle of life; the brave, new shoots of growing things—all these speak the matchless wonder of His works.

The suns of summer, too, are but a voice of God. So also are the warm, clear nights when fire flies in myriad numbers keep a night-long watch over swiftly growing corn—and flash their signals back to tell you all is well. And then again His voice is that of lightning, as they streak from sky to earth, fix nitrogen which goes to feed our plants and thus to nourish beast and man.
In fall, our God sends to us messages of beauty as all Nature dons her gala robes to celebrate another harvest of good things. We are then blessed with fat pumpkins, squash—and saucy apples, too. We know the steady, rapid fall of golden ears of corn into our wagons—plucked from their stalks at wondrous speed by ingenious, never-tired fingers made of hardened steel.

And now with winter comes a blanket pure of newly fallen snow. It shelters well the sleeping plants and seeds; it fills the earth with moisture which is of value more than gold. And in the freezes and the thaws of winter-time our soil itself—the basis of all life—is broken into small granules without which process there could be no growth of plants, no human race on earth.
On farms, each night is silent; each is holy, too. Small wonder, then, that those of us who till

the soil are deeply reverent unto God and find a joy supreme in marking the anniversary of His birth. With hearts overflowing, let us join our neighbors near and far in mighty unison to swell the chant, "Glory be to God in the highest, and on earth peace, good will toward men."—Cedar County News.

Christmas Day

On Christmas Day we repeat the old familiar greeting that, each year, in some mystic way rings fresh and true—"Merry Christmas." Like such words as "hello" and "good-bye," there really isn't anything else to say that pulls at our heartstrings as do these old dear words. And so again we say:
Merry Christmas—to the littlest ones who skip downstairs in the gray dawn to explore their stockings and the wondrous tree and to look at Christmas with the special radiance of youth—who lend to the rest of us little glimmers of the real Christmas glamour.

Merry Christmas—to father who'll strain a point any day to give us all the things we want—who probably works much too hard and yet keeps younger and more alert because of the responsibility of a family and the competition of business—who makes the gesture of tut-tutting all the fuss and feathers yet beams with affection and excitement.
Merry Christmas—to mother who really calls the tune for the holidays and does the planning and pulling together—who flutters and bustles radiantly for weeks ahead and undoubtedly has the best and busiest time of all.

Merry Christmas to the butcher, the baker, the candlestick-maker, not to mention all those who sold us shoes and ships and sealing wax—for what would Christmas be without them? For through them we've all been able to share our own little prosperity in the most wholesome way of all—by spending it.
Merry Christmas to dear friends far and near who've sent us greetings and gifts—most especially do we cherish the greetings because even more than gifts they express the true spirit of Christmas.

Merry Christmas to the drop-pers-in who come with holiday cheer and friendship, who come to our parties or stop by to leave a glass of extra elegant jelly or an original privately invented relish.
Merry Christmas to myself, for that matter. But then we feel pretty sure that we'll have one for we've put so much work and excitement and loving getting ready into it. For of course we all get out of Christmas just about what we put in.

Greatest Stamps Of Entire World

Officials estimate at least 100,000 lives are saved each year—in America alone—by funds made available by the annual Christmas Seal campaign against tuberculosis.

In 1903, a Danish postal clerk—Einar Holboell, by name—conceived the idea of a voluntary tax on Christmas greeting cards which would benefit the underprivileged. Specifically, Holboell visualized establishment of a fund to build a hospital for tubercular children. The ministry granted Holboell permission to sell his seals at post offices and the Christmas Seal campaign was launched. In many countries, the seal campaign is conducted largely in co-operation with postal authorities and, in some instances, the seals are parts of special postage stamps.

The American Red Cross became interested in the project in 1907 and co-operated with National Tuberculosis Association. To strengthen the nation-wide campaign, the Red Cross and the Tuberculosis Association jointly conducted the sale of the seals and, until 1919, the emblem of the Red Cross appeared on the seal.

In 1919, the double-barred cross, international emblem and trademark of the warfare against tuberculosis, was embodied in the design of the seal. In 1920, the Red Cross wished to devote its energies to the annual Roll Call and arrangements were made whereby the sale of the tuberculosis Christmas Seal is conducted exclusively by the Tuberculosis Association.

Christmas Poem

The time draws near the birth of Christ.
The moon is hid; the night is still;
The Christmas bells from hill to hill
Answer each other in the mist.
Four voices of four hamlets round,
From far and near, on mead and moor,
Swell out and fall, as if a door
Were shut between me and the sound.
Each voice four changes on the wind
That now dilate, and now decrease,
Peace and good-will, good-will and peace,
Peace and good-will, to all mankind.
—Tennyson.

Real St. Nicholas Of 4th Century

St. Nicholas is popularly associated with Christmas and gift-giving presumably because once during his mortal existence he reportedly endowed three dowless maidens with three purses of gold.
Historically—as the Archbishop of Myra, Nicholas was a member of the council of Nicea. In 325 A. D., Constantine the Great called together the theologians of the Christian world in the first complete general council of the entire Christian church.

The council, assembled near Constantinople, and presided over by the still unbaptized Constantine, proclaimed the first exact definition of Christian teaching—as embodied in the Nicene Creed—and marked the beginning of Christianity as it is understood today.

Future Foretold By Drowsy Hens

Divinations were an important part of the Christmas festivities to Czarist Russia.
After a special family Christmas dinner, the girls of the household placed five piles of grain upon the kitchen floor: each pile was given a name, such as Hope, Ring, Money, Thread and Charcoal. A drowsy hen was fetched from the hen house and allowed to walk around the kitchen floor and choose a pile of grain.
Obviously the hen's choice of Money meant wealth; Ring foretold a wedding within a year; and Hope, promised the fulfillment of a wish or a long journey. If the sleepy chicken chose the grain designated as Thread, a life of toil was predicted for the marriageable maiden of the household; and Charcoal was considered an omen of death in the family.
Old songs were sung to accompany such goings-on, while the girls and women vied to devise complete stories based on the antics of the hen.

Star of Bethlehem Phenomenon of Age

The Star of Bethlehem has been the subject of extensive research and discussion.

Modern astronomers have considered several natural phenomenon theories without attaching too much weight to any such hypothesis.

Skeptics regard the whole thing as mere invention, colored with Oriental imagery, designed to honor Christ; and faith accepts the star as the supernatural phenomenon which proclaimed the birth of Jesus.

The first chapter of the gospel according to St. Matthew begins: "The book of the generation of Jesus Christ, the son of David, the son of Abraham..."

And confirming Bethlehem as the city of David, the angel of the Lord declared: "For unto you is born this day, in the city of David a SAVIOUR, which is CHRIST the Lord." St. Luke 2:11.

Considering tradition, which accepts that King David's shield formed a six-pointed star, the Star of Bethlehem appropriately "... stood over where the young Child was," St. Matthew 2:9.

Christmas Trees, Cribs and Ceppi

Christmas trees and cribs, with in respective spheres of influence, provide focal points for observances of the season.

Various legends claim to tell the story of the first Christmas tree; actually, evergreen decorations were so closely associated with pagan celebrations that they were banned by many ecclesiastics of the early church.

According to literature, the first Christmas tree was set up at Strasburg, Germany, in 1604; even then, the cry rose against heathen customs and, as late as 1851, the Rev. Henry Schwan was severely criticized for setting up a Christmas tree in his church in Cleveland, Ohio.

St. Francis of Assisi received special permission from the pope to present a tableau of the nativity scene. This first crib, set up at Greccio, Italy, in 1223, was an immediate sensation; the renaissance endowed the cribs with ornate pagantry and, modernly, the crib is to southern Europe and Catholic countries what the tree is to America and northern lands.

Eighteenth century Italians were fond of a fantastic decoration called the Ceppo. Pyramidal in construction, the Ceppi were made on a framework of lathes with transverse shelves rising to three or four stories, depending on the over-all size of the Ceppo.

The whole thing was covered with colored paper, tufts, tassels, fringes, tiny pine cones, and little flags; a manger scene was represented on the lowest shelf, while the upper ones were covered with small gifts, etc.; wax tapers were placed along the sides and a large gilt cone ornamented the top. Although the original designer probably never saw a Christmas tree, the Ceppo—aided by a little imagination—bridges the gap between Christmas cribs and trees.

Make us as philosophical as the fisherman,

Merry for exploring the world as the troubadour,

Ban Lifted On Two Pants Suits

The Office of Temporary Controls has lifted the four-year-old ban on manufacture of two-pants suits as well as the prohibition of vests for double-breasted suits.

The Civilian Production Administration division of OTC said that the restrictions, imposed in wartime are no longer necessary because of increased production of men's and boys' clothing.

The agency estimated that the restrictions, had resulted in the saving of approximately 10,200,000 yards of fabric, or enough material to make 3,000,000 suits or uniforms.

No Arcadia Items In Quiz This Week

Due to crowded Christmas mails, the usual weekly news letter from Arcadia, furnished by Mr. and Mrs. Gene Hastings did not arrive in time for publication in this week's Quiz.

County Treasurer Carroll Carter of Seattle, Wash., used to worry about dents in the car fenders, but now he worries about scars on the family airplane. When Mr. Carter met his wife and two teenage daughters on their return from a Florida flight he found several patches on his plane. Daughters Mary and Sue explained they had an argument with a gas pump in Wyoming, a forced landing in Idaho and an encounter with a bull in Florida.

Shoppers passing a West End grocery in Huntington, W. Va., felt they "discovered" a bonanza when they spotted nylon stockings, beef-steak, ham, soap flakes, jello, sliced bacon, shortening and a white shirt in the window. The proprietor told breathless customers he had only one of each scarce commodity, all borrowed, and they weren't for sale.

At Richmond, Calif., 3-year-old Wayne Glass watched wistfully as his older playmates climbed aboard a school bus and departed for school. When the next bus came along, he followed them. The lad was taken off a trans-continental bus at Vallejo, 20 miles away.

Wise Men Patron Saints of Travelers

The Three Kings of Cologne have become patron saints of travelers, and very appropriately, too, since the Wise Men traveled considerably even after their death.

Biblically we know very little about the Wise Men. Church tradition, based on the three specifically mentioned gifts, has established three Wise Men and identified them as Caspar, Melchior and Balthasar; the Kings of Tarsus, Arabia and Ethiopia, respectively.

their wealth among the poor, and went about preaching the doctrine of peace and repentance; all three seem to have suffered martyrdom in India at the same time.

In the fourth century Empress Helena, mother of Constantine, arranged for the transfer of their bodies to Constantinople.

When the Greek Emperor was overpowered by the first crusade in 1096, the holy remains were sent to Milan where they were enshrined until the latter part of the 12th century when Frederick Barbarossa ordered their removal to Cologne.

The Archbishop of Cologne adorned the relics with precious jewels and enshrined them within the Cologne Cathedral: in time, anything which touched the skulls of the Three Kings was considered as a charm against accidents, hence, the Wise Men became popular patron saints of travelers.

Jews Celebrate the Festival of Lights

To the Orthodox Jews, the Christmas period was the "Festival of Lights", called Hanukkah or Chanukah. Jewish history relates that 165 B. C. a large force of Maccabees met and vanquished an army of Syrians.

Judas Maccabees entered Jerusalem with his army and found it a place of desolation. He began the work of purification and on the 25th day of Kislev it was finished and a sacred light was lit.

In their destruction of the temple the sacred oil was practically exhausted, but they did find a jar which they judged would burn one day. It lasted eight days, therefore each year the Jews decree that the eight days previous to December 25 be celebrated.

Three Yule 'Firsts'

"Which came first?" are the two questions asked since time immemorial. These questions have baffled historians, challenged detectives, caused law students to burn the midnight oil—but most of all—have intrigued the public.

The earliest Christmas card on record, in the light of recent findings, appears to be that of W. M. Egley, dated 1842. Discovered in a mass of skating prints by the British museum, it is indisputably a Christmas card and seems to have been produced for general use.

Until the Egley card was discovered, the first known Christmas card was, for years, thought to have been the one designed by J. C. Horsley RA for Sir Henry Cole in London in 1846 who wanted a card to send to his friends at Christmas.

An eminent American authority on greeting cards and a relentless collector of early creations, E. D. Chase of Boston claims that he has found what he believes to be the "first" Christmas card—but until some scientific corroboration is forthcoming we must consider his discovery a "dark horse" in the running.

Candles Originally Symbols of Light, Joy

Since the beginning of time man has sought to prolong the day and dispel the terrors of darkness with watch-fires, torches, beacons, etc.

According to St. Jerome, candles are used by the church not so much as a means of dispelling conquering darkness, but rather as an expression of Christian joy.

Original Vitamin Factor In Worcester'shire, metheloa was thought to render cattle prolific and avert bad luck from the dairy herd.

'White Christmas' Modern Day Carol

Irving Berlin's "White Christmas" has definitely joined the procession of Christmas music! Let us hesitate to admit so recent a creation to the inner sanctum of cherished traditions, let's see just how old some of our Christmas favorites really are.

Denmark launched the annual Christmas Seal campaign against tuberculosis in 1904; Dickens' Christmas Carol was written in 1843; Samuel Clement Moore wrote The Night Before Christmas in 1822; W. C. Dobson, one of Queen Victoria's favorite artists, dispatched the first Christmas card in 1845, and, historically, the first Christmas tree was set up in 1604.

One can imagine the first Xmas carol—the "Gloria in Excelsis" of the angels. However of our popular Christmas carols today, Adeste Fideles is undoubtedly the oldest. Its origin is controversial; some say it was a graduate of the Cistercians, others date its composition variously—from 1250 to 1680. Even accepting 1680.

There's a lot of Christmas tied up in the confident expectancy of childhood and the nostalgic memories of grown-ups; so, "May your days be merry and bright And may all your Christmases be white."

Calif. Has Mile Long Ave. of Lighted Trees

The trees comprising the mile long Avenue of Christmas Trees in Altadena, Calif., are descendants of the Deciduous Cedars of India which grow upon the slopes of the Himalayas.

While traveling in India in 1882, Capt. Frederick J. Woodbury gathered the seeds which he planted later on his ranch in California. When the seedlings were about 2 feet tall, the captain's sons transplanted them to line the wire driveway leading to the ranch residence.

The once private driveway at the foot of the Sierra mountains is now a busy public thoroughfare and Captain Woodbury's seedlings, illuminated each year at Christmas, attract thousands of visitors annually.

Predict Weather on Christmas Day

It is said that the coming year's weather may be forecasted by cocking an eye at the sky during Christmas week. Here are a few of the beliefs; conflicting in many details:

If the sun shines through the apple tree on Christmas day, there will be a good crop the following year.

If ice will bear a man before Christmas, it will not bear a mouse afterwards.

Thunder and lightning Christmas week means much snow the balance of the winter.

Rain causes more damage than frost before than after Christmas. At Christmas if meadows are green, at Easter they will be covered with frost.

If windy Christmas day, trees will bear much fruit.

A wet Christmas means an empty granary and barrel.

A green Christmas makes a fat graveyard.

A warm Christmas means a cold Easter.

A green Christmas is followed by a white Easter.

New Schedule For Drivers' License Exams

The Nebraska department of roads and irrigation has released a new schedule of the state highway patrol's drivers' license examinations. Examinations will be given at the Valley county court house in Ord the first and third Thursday afternoons of every month. Examinations will not be given on legal holidays.

The schedule includes: Garfield—Second Friday afternoons.

Custer—Every Saturday afternoon.

Howard—Second and fourth Wednesday afternoons.

Loup—Second Friday mornings.

Wheeler—Fourth Friday afternoons.

So many Mountain Lake, Minn., residents enjoy "a good fire" that firemen protested to the village council that onlookers interfered with their work. The council ruled spectators must remain at least one block from the scene of a fire, or pay fines.

St. Lucy Honored Throughout Sweden

St. Lucy's Day, on December 3, inaugurates the Christmas season in Sweden.

On that day the prettiest girl in the household is chosen to impersonate Lucy; very early Christmas morning she will go through the house awakening the household and giving each person a cup or cooee or some sort of sweetened beverage. Her costume is traditionally a white dress with a red sash, and she wears a wire crown entwined with bilberry twigs—similar to the American cranberry—studded with nine candles.

Liturgically, St. Lucy was martyred about 300 A. D. The story goes that Lucy gave her dowry to the Christians—whose courage she admired—instead of turning it over to her fiance. The enraged young man informed against her and she was condemned to be burned at the stake; unharmed by the flames, she did not die until thrust through with a sword.

Lucy is commemorated somewhat diversely in Switzerland where she is the legendary wife of Father Christmas. Wearing a round cap over her long braids, a laced bodice and a silk apron, she marches around the village with Father Christmas and distributes gifts to the girls while he looks after the boys.

Karkantari's Fear Of Burned Leather

Christmas fires burn brightly in Greek households throughout the holiday season and Macedonians save their old shoes for the purpose of burning them at Christmas time since the odor of burning leather is said to be offensive to the Karkantari.

The Karkantari are mysterious creatures which wander about the rural communities of Greece between Christmas and Epiphany. Dreaded because their gremlin-like tricks make life generally miserable for everybody, the Karkantari are particularly fond of attacking and beating persons who are a bit drowsy after an unusually hearty meal.

Of course, the orthodox Greek priest effectively banishes the Karkantari when he comes around with his copper vessel of holy water and cross entwined with sprigs of basil. The priest dips the cross into the vessel and sprinkles each room with the holy water—after which the Karkantari are expected to disappear and not return until the following Christmas.

Letter To Santa

"I wrote a note to Santa Claus I thought it would be fun.

I said I'd like a lot of things Especially a gun.

But Father shook his head and said

That wise old Santa knew I'd shoot myself or someone else

And that would never do.

So then I wrote and asked him for

A sleigh with jingle bells,

An auto, and a train of cars,

And a pound of caramels.

But sister May she cried

Oh, don't ask for all those noisy toys

And Santa knows that candy Ain't good for little boys.

So then I wrote and asked him for

A music box to play

And a watch just like my father's To tell the time of day.

But brother Tom he laughed and said

Your brain must be askew,

Old Santa never brings such things

To little kids like you.

At first I felt discouraged

But now I'm not because

My mother says that no one knows

The mind of Santa Claus.

She says it's safe to let him bring

Whatever he thinks best,

And mother has, I truly think,

More sense than all the rest."

Mince Pies of Deep Christmas Tradition

No Christmas dinner would be complete without mince pie. While they have long been a part of our Christmas tradition, they originally had a deep symbolic significance.

Patterned after the manager in which Christ was born, they were oblong in shape. The crust, baked a golden brown, represented the gold brought by the Three Wise Men.

Peace, Good-Will

The time draws near the birth of Christ:

The moon is hid; the night is still;

The Christmas bells from hill to hill

Answer each other in the mist.

Four voices of four hamlets round,

From far and near, on mead and moor,

Swell out and fall, as if a door

Were shut between me and the sound.

Each voice four changes on the wind,

That now dilate, and now decrease,

Peace and good-will, good-will and peace,

Peace and good-will, to all mankind.

Tennyson.

Within two weeks the island was a hive of activity. The Germans were drilling the natives into an army, the Americans had opened a general store and automobile agency, the Australians had started a race track, the two Scots were financing the whole crowd, and the two Englishmen were still hanging around waiting to be introduced.—Montreal Star.

Sam McBee, 58, arrested in a Chicago subway station with a penny slot machine under his arm, needed a pretty big jackpot. He was fined 2,500 pennies on a charge of possessing a gambling device, despite the plea: "I haven't a piggy bank at home, and I was just planning on using this machine for one."

A merchant ship returning to Australia with a miscellaneous passenger list, including a few Germans, two Americans, two Australians, two Scots and two Englishmen reached a small island populated by dusky natives.

SOMEWHAT DIFFERENT

By John L. Ward

As I looked at the calendar on the wall this morning I was rather startled to note that it had one combination of bad luck days of which so many are afraid. Why they are, I do not know. No living person has ever died on Friday, the thirteenth. Now, if it happened to come also on the thirteenth month of the year, there might be cause for being fearful. But why should anybody be afraid of what might happen on Friday the thirteenth? Friday is the only day of the week dignified by the prefix "Good", and thirteen is a baker's dozen, nothing more. If a baker gives one more than he should, that should not be hard luck for anybody but the baker. So this time I tried every method that I could to meet with bad luck, but I guess I had all my bad luck last summer, when I fell, either into the creek or into the mud on sundry occasions. Here, on the day caution is urged, I found that nothing I could do seemed to tempt fate in the least. I crawled under the ladder leaning against the house; I went up town and hunted up a black cat I know, to try to get him to run across my path. But that cat was more superstitious than I am. I not

only could not get him to run across in front of me, but I couldn't even find him. Later I learned he was run over by a car that morning. That was bad luck for the cat. But what about the man who was driving the car that killed him? So far I have heard of no auto accident anywhere in this territory, but if he should have one, no doubt he will blame it on that black cat he hit. Yes, that morning I got my shirt inside out while dressing, and turned it right away. Result, no bad luck, although the act is guaranteed to drive your good luck away. Our next Friday the thirteenth comes in June.

The past week has not been so kind to a couple of my good pals, neither of whom I knew, but I have been their sincere admirer for many years. They are the epitome of what I have wished myself to be in the past, one a good columnist, the other an outstanding ball player. I believe the majority of the people feel about as I do about the loss of Damon Runyan and Walter Johnson, both of whom left us while still young men. Damon had the prospect of many good years ahead of him in his chosen profession. Walter

ended his professional career as the Big Train many years ago, but he will not soon be forgotten. Both men had many handicaps to overcome to reach the heights, but nothing stopped them from reaching their goals. Sickly when he was young, Johnson developed himself by using a diet largely of milk. Had he tried the diet used by his contemporary, Grover Alexander, the world would never have heard of him. Through being ever careful of his health, he grew into robust manhood, and kept himself that way for years by careful training. However, he could not keep off the Grim Reaper forever, and he died at a time when a lot of us are just beginning to enjoy life.

Once I bought a book called, "The Best of Damon Runyan". I do not know whether it really was his best or not, but it was good enough to suit me. It contains a series of his best known short stories, and is one well worth keeping. I expect to keep it along with Sherlock Holmes, Mark Twain, H. Rider Haggard, Anthony Hope, Robert Barr and George Barr McCutcheon. I am not telling you what kind of stories I like best, of course. Books by any of those authors have a fascination for me. Don't get me wrong, I did not say Conan Doyle. Except for his Sherlock Holmes stories, the Dictor is a very dry writer indeed.

BREAKFAST IN BED: Did you ever have the pleasure of lying in bed in the morning and having your breakfast brought to you, only to get up and go to work later on? It is one of life's little pleasures you should not miss. To make it the more enjoyable, you should have had a hard day's work the preceding day, and had your sleep interrupted in the night. Then, when the alarm clock starts its persistent clamor, and you wish you could have "five minutes more, only five minutes more", and the better half slips quietly out and starts to work, you wonder just how long you will dare to stay. Then, as you are dozing off to sleep, along comes the tray, and you get just a little glimpse of Heaven—for a tired man.

Now speaking, not from a political, but from a factual angle, that is what happens ever so often in this government of ours. The ins have their breakfast in bed, served up to them by the outs, for a varied number of years. After a while, the outs gather enough strength to vote themselves in, and it is up to the lie-in-beds to grab their breeches and start dressing. No use for a dressing gown then. They will have to go to work, so they might as well dress for the job. A lot of people will be getting out of bed early after the first of the year, and a lot more will have to give up the breakfast in bed idea two years from now. I can recall changes like this in 1892, 1896, 1912, 1920 and 1932, and we are looking forward to 1948. The republicans held on for the longest period of time, from 1860 to 1884 but that was during and after the Civil war. Since 1860 and including to 1948, the democrats have held the breakfast in bed jobs for 32 years and the republicans for 56 years.

Last week I met my old friend,

J. J. Waldmann, who is really younger than I am, and his neighbor, Morovich, I think was the name, who started out in life just a month ahead of the Quiz. I was agreeably surprised to learn that they both read and enjoyed my column. It is a pleasure to learn that honest men like them are willing to admit that they read my column. Now that we have been promised plenty of coal by the big John L., little John L. will try to keep this going all winter. I only hope that some day John L. Lewis will get into John L. Andersen's court. When that time comes I will volunteer to help the prosecuting attorney myself. Thass all.

P.S. — I got our marriage license on Friday the thirteenth, 1909, in August. We still manage to get along, which is more than some people can say.

A CHRISTMAS THOUGHT

● THESE ARE DAYS WHEN WE ARE ALL IN A BIG HURRY TO GET HOME, FOR THERE'S NO PLACE LIKE HOME WHEN THE CHRISTMAS WREATH IS GLOWING IN THE WINDOW. WE ARE DUE RIGHT NOW TO SAY OUR LITTLE PIECE—AN OLD REFRAIN, IT IS TRUE, BUT AS WARM AND HEARTFELT AS THE FIRST TIME WE EVER SAID IT—

Christmas is a wonderful time—because it reminds us that no matter how busy we are, no matter how great our responsibilities, we can always find time to be generous to and considerate of others. And therein lies our own greatest happiness.

New Freight Rates Effective January 1

Freight rate increases for rail and water carriers of nearly one billion dollars a year were authorized Friday by the Interstate Commerce Commission.

It also permitted the railroads to make permanent a 10 per cent hike in passenger fares granted on February 10, 1942. This increase was scheduled to expire six months after the legal termination

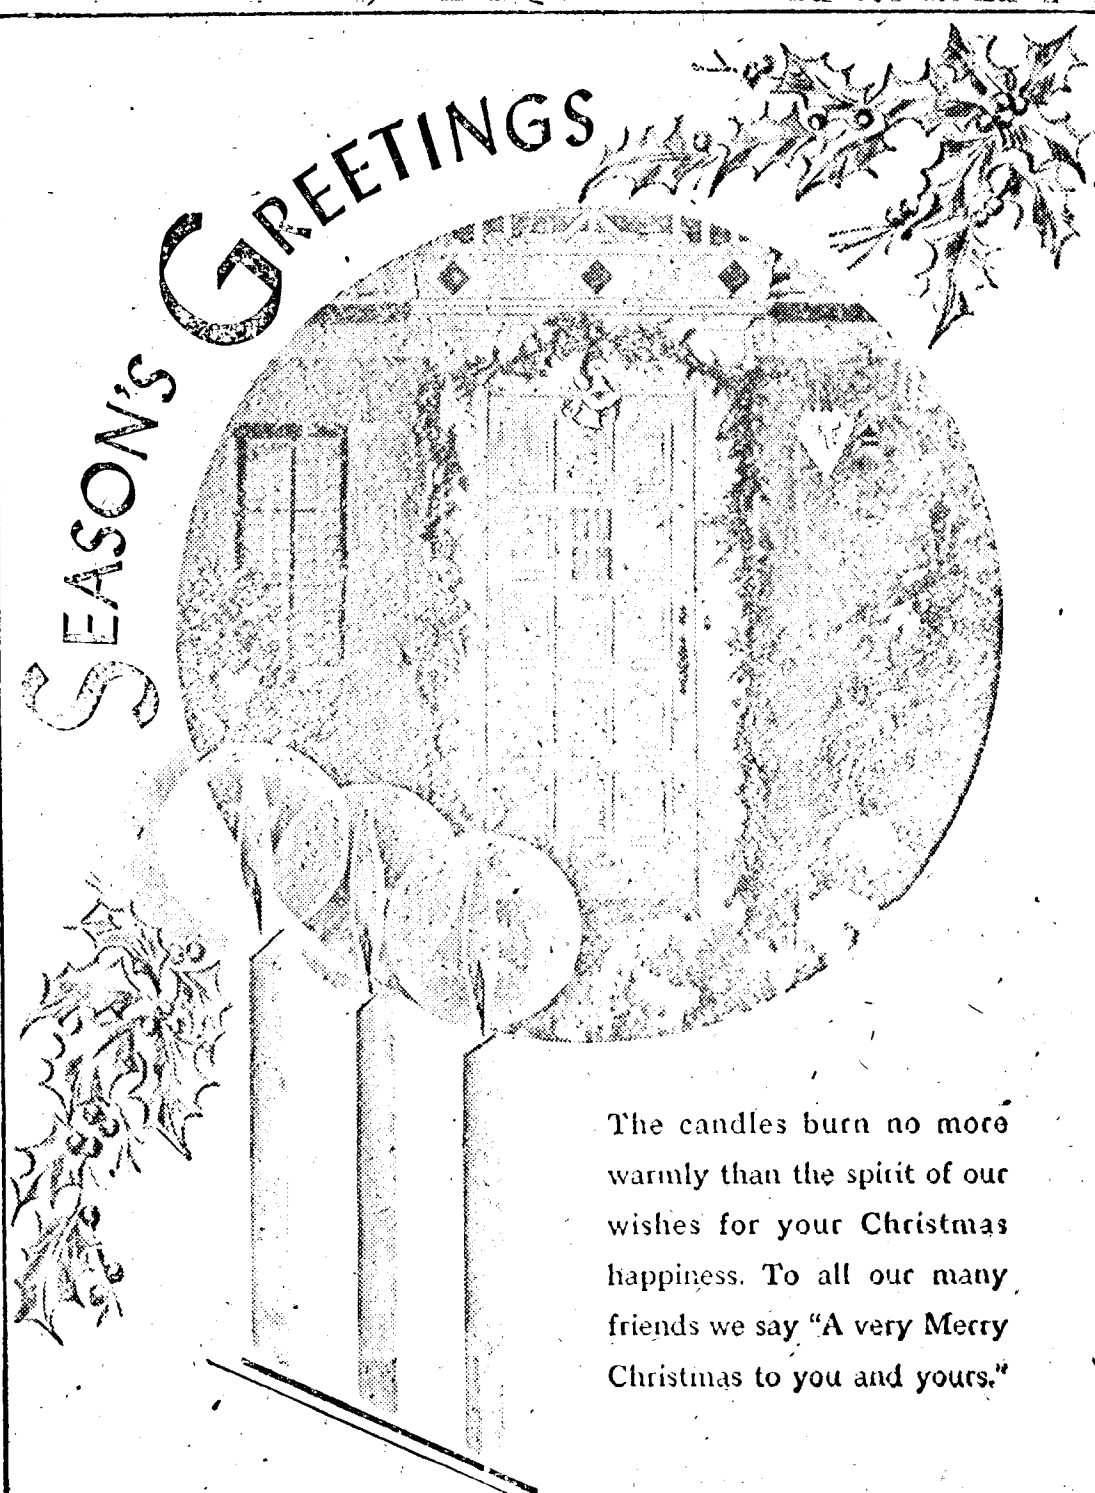

of the war.

The average over-all freight rate boost amounts to about 17.6 per cent. For the eastern carriers the aggregate increase will approximate 17.9 per cent of the basic rates, compared with 17.4 per cent for the remainder of the country.

The new rates go into effect on January 1, 1947. They compare with an average 19.6 per cent rate hike requested by the class one railroads on all traffic.

A 20% rate increase was put in to effect this week by Railway Express Agency. Minimum express shipment now will cost 65c.

A wealthy man, intent on matrimony, told his friend one day that he was 60 years old, and asked: "Would it be better if I told a young lady whom I'd like to marry that I'm only 50?" Said the friend: "Your chances would be better if you'd tell her you were 75."

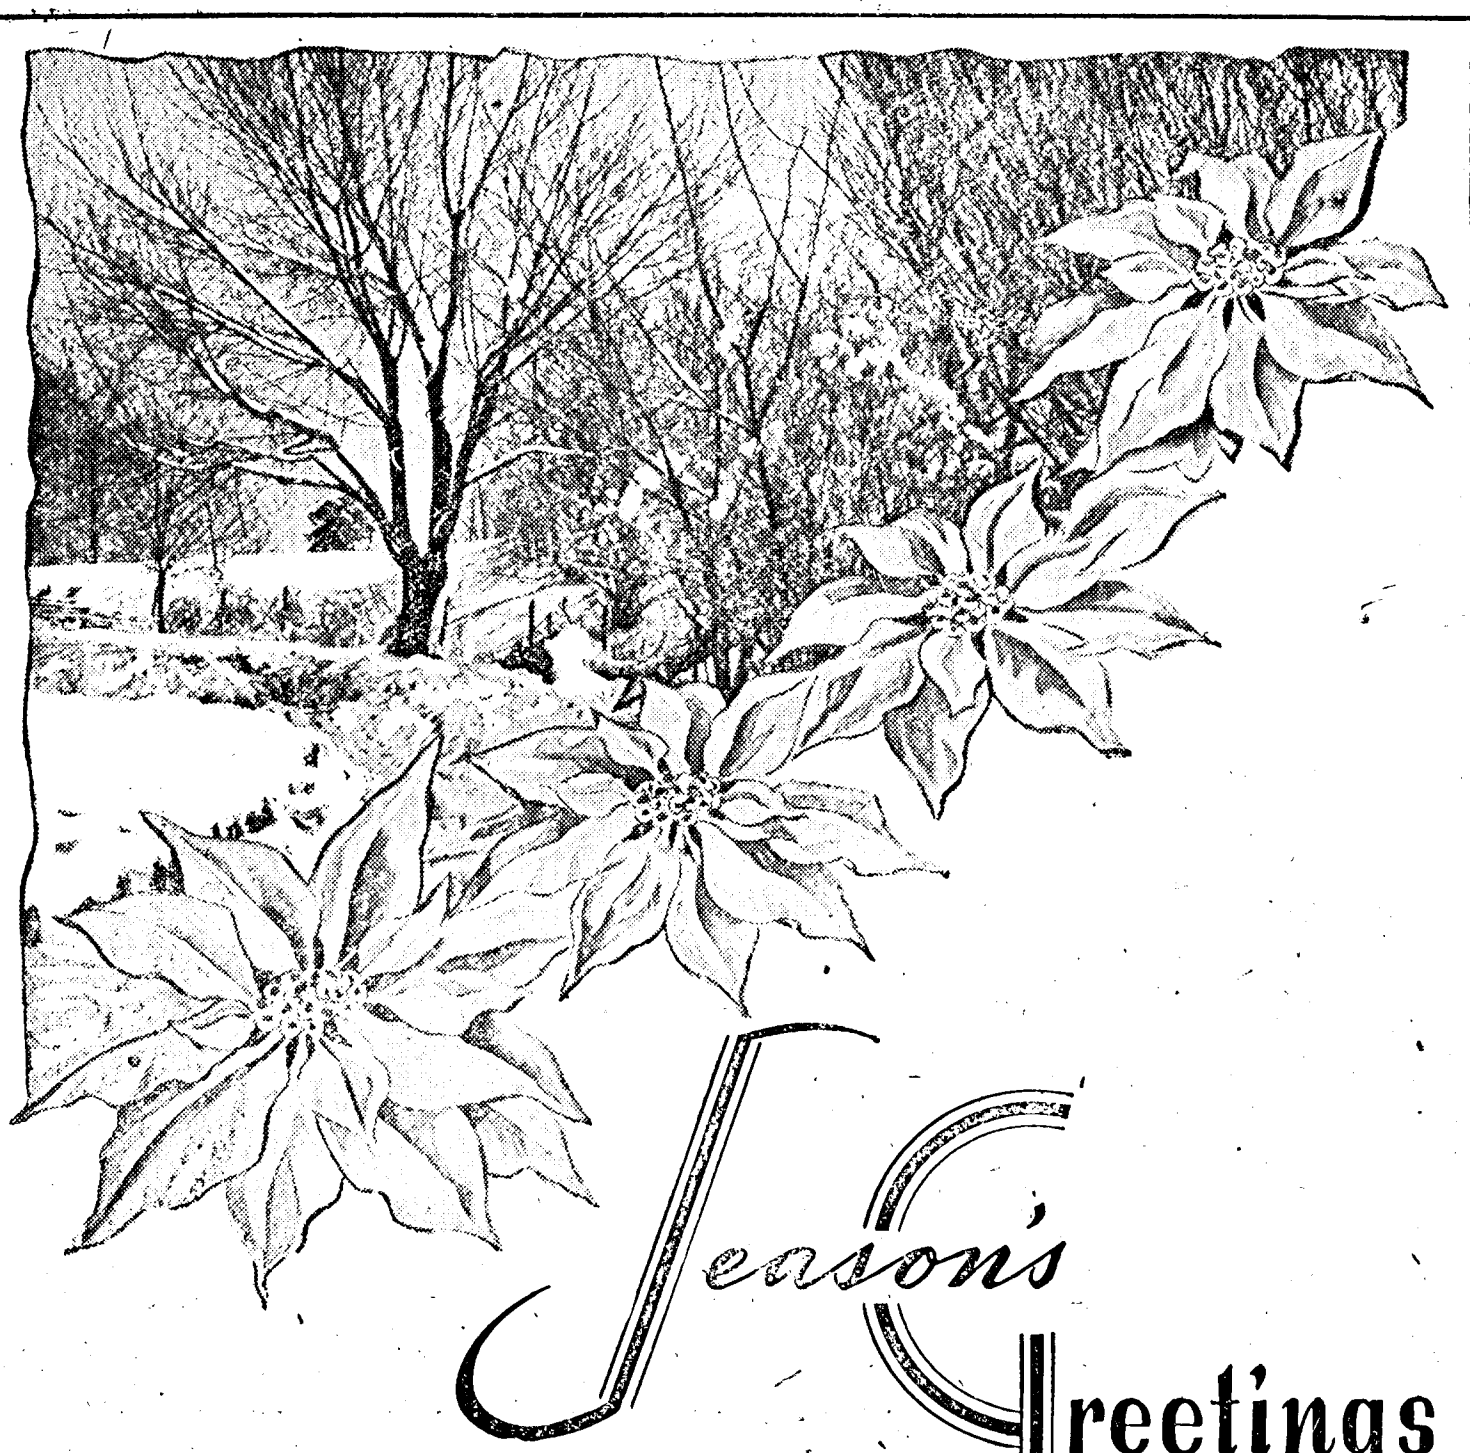

The candles burn no more warmly than the spirit of our wishes for your Christmas happiness. To all our many friends we say "A very Merry Christmas to you and yours."

Joy to the World
Christmas

- Christmas is not all tinsel and tissue or colored lights and merriment. It has a deeper significance, rooted in the long gone past, which sets it high above all other holidays of the year.
- It is our hope that this blessed season will bring to your home not only the festive joys of Yuletide but that deep inner peace which is essentially a part of Christmas.

Road Needs to Get The Farmer Out Of The Mud

Scott Says It Would Take Sixty Thousand Miles of Roads.

To get Nebraska farmers "out of the mud" would require construction of 60,000 to 70,000 miles of road in addition to the 10,000 miles already improved by the counties and the state, Wardner Scott, state engineer, declared in an address prepared for the convention of county commissioners and supervisors in Omaha.

Scott declared that "no one recognizes the need for improvement of purely local roads more than the highway department, but we do feel that until the principal secondary routes are improved the local roads should be the problem of the local road officials."

"Surely it is only economy to build those roads which serve the greatest number of people first," he asserted.

"This brings us," the state engineer continued, "to the much discussed problem of standards for secondary roads. It has been stated that the standards have been set by the materials men. I wish here and now to correct that statement and to definitely place the responsibility for the standards applicable to construction of roads on the secondary system. The standards were formulated by a committee of the American Association of State Highway Officials . . . which consists of those officials in responsible charge of highway construction at the state level throughout the United States and included the (federal) public roads administration."

"Nebraska was one of the states that voted for acceptance of these standards," Scott added.

It would be "a mistake," he declared, to build a single mile of the 15,000 mile state primary and secondary system "without regard to sound engineering practices commensurate with the potential traffic the road would be called to carry."

"The 15,000-mile system, if and when improved, will handle 80 percent of the vehicle miles traveled in the state outside corporate limits of cities and villages.

"We should not build roads today suitable only for traffic tomorrow . . . we must build for the future, or soon we will be overburdened with maintenance costs beyond our ability to cope with, and if these roads are not maintained, the farmer will not be out of the mud for long," the engineer observed.

Drainage, steepness of grade and safety are factors which must be considered in designing a road, he explained.

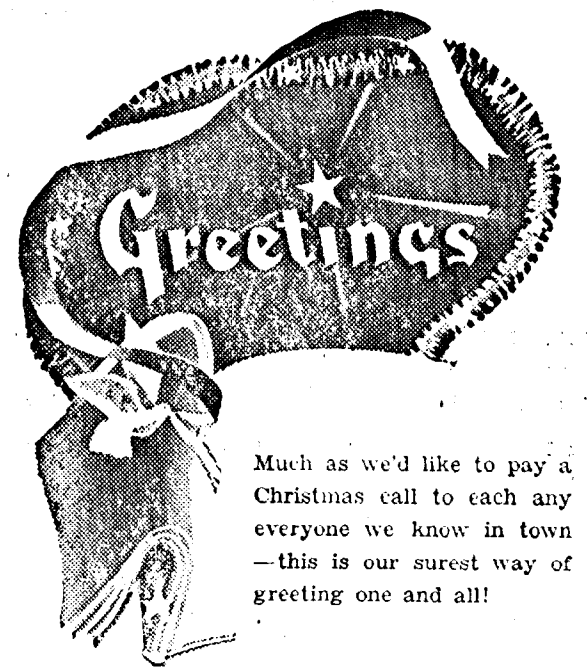

"The 1946 road building program fell short of expectations because of materials and equipment shortages," Scott said.

Earlier, it was disclosed that the Nebraska Association of County Treasurers has approved a check-up system of collection of delinquent taxes which would make sheriffs liable for the taxes if they fail to make a report within

four months after they receive the accounts.

Ord Truckers Will Protest the Permit Granted Railroad

A preliminary hearing on the temporary permission granted by the State Railway Commission to Nielsen and Peterson Transfer Co., of Grand Island to contract with the Union Pacific for rail-truck service to Ord will be held some time within the next week, according to Jack Romans.

Nielsen and Petersen obtained their permission to operate between Ord and Grand Island during the coal strike, when the Union Pacific was faced with the necessity of taking off the trains on this line due to the shortage of coal. The coal strike, however, ended several days before the truck service went into operation.

Now Nielsen and Petersen are asking the State Railway Commission to give them permission to continue their service until a permanent hearing can be held.

Ord truckers and grain dealers plan to protest the granting of such permission to the Grand Island firm. According to several grain dealers, there is a severe shortage of box cars in this locality now when it is necessary to ship the grain out immediately. It is possible to ship grain by truck. However, Bob Noll says that farmers would have to pay from four to eight cents a bushel more for having their grain shipped by truck.

On the other hand, Ord trucking companies feel that if the Union Pacific wants to insist on rail-truck service, the contract should be given to truckers from this vicinity.

Romans, who holds a license for hauling general freight from the State Railway Commission in this region would lose the value of his license if Nielsen and Peterson were allowed to operate their rail-truck service without a license.

WE adults can learn much from our children—learn how to celebrate Christmas well. Let us turn back the clock this Christmas season of 1946 and get out of Christmas all the joys that children know when they hang their stockings up.

All together now for a big, glorious Christmas, topped off with our best wishes to all of you.

Greetings

This Is Our First Christmas With You

When we ventured into post war business in this town, we knew just a handful of people. But in a very short time we have gotten to know everyone and to really feel this community is "Home." That's all the reason we need to feel merry this Christmas, while we sincerely wish you the season's joy.

The Season's best to our friends

How well we remember those old Fashioned Christmas dinners—father at one end of the table; mother at the other end, and the children in between, wondering if father would ever get done carving the turkey. And what mince pies!

Wouldn't you like a Christmas like that this year of 1946? We hope that your Christmas is as much like that as the changing times will permit, and that all the joys of the old days will abound.
