### REPRESENTING THE INTERESTS OF BUSINESS WITH GOVERNMENT

# Why Buy Local – Does it Matter?

With the ability to buy anything available at our fingertips, whether online, by phone, on TV, etc does shopping and buying local really make a difference? In a word, **YES!**

There are a myriad of reasons to consider your local merchants first whether buying routine purchases such as groceries or household items, buying for special occasions such as birthdays, anniversaries, Christmas, or for large infrequent purchases for your home or special interests.

Consider these factors – for \$100 spent in a local independent business, it creates an additional \$68 of local economic activity. If spent in a local chain store it creates an additional \$43 in local economic activity. **Spend it online, or in some way outside your local area and a big fat \$0 returns to the local economy.**

**HERE ARE 9 REASONS TO SPEND LOCALLY WITH SOME HUMOR INJECTED TO REMEMBER THEM:**

**Show Me the Money!** – Spending local keeps more dollars circulating within the local economy in the form of taxes, wages, donations, etc. As Oregon works to lower its unemployment rate and return to prosperity, you can help by where you spend your hard earned dollars.

**JOBS!** – It's a circle. Spend at a local business, it grows, hires more people, they spend locally, other business grows, hires more people, etc. Studies have shown that local small businesses are the backbone of employment in the U.S. economy. Grow Oregon jobs!

**Non-Profits PROFIT** – Local non-profits enjoy more support from local

JIM CLARK

Bridgeport Village has several local retailers to choose from in Tigard.

businesses than from those outside the community. So many of our non-profits meet vital needs for those in need in our communities, support the businesses that support them.

**Weird or Wonderful** – Buying local helps create the unique characteristics of the community you live in. We are all part of a community whether we realize it or not. Wouldn't you rather talk about that unique boutique store where you bought that cool gift, the great local farmer's market, the funky restaurant that you can walk to, the coffee shop that knows you, or the local hardware store that saved your schedule during a kitchen remodel when describing your community?

**It's GREEN** – Local businesses usually source more locally and are closer by. Decrease your footprint, limit your impact on the environment and save yourself some gas and time as well. Who couldn't use that when gas prices are pushing \$4/gallon and there never seems to be enough time.

**Who loves you baby?** – Numerous studies show that consumers experience much better customer service/care from local business since they live or die by their reputation, you as a result get a much higher standard of service.

**Home Sweet Home** – As they live and work local, local businesses invest

more in their community. Help stimulate local investment!

**Green Eggs & Ham** – Local merchants are more likely to stock what customers want and are interested in buying rather than trying to push the latest trend. Buy what YOU want, not what someone else thinks you should want.

**Live Long & Prosper** – Entrepreneurs and skilled workers are more attracted to invest and settle in communities that have one of a kind businesses and distinctive character rather than a more homogenous community.

So whatever resonates with you, think about it the next time you shop or buy. We are all in this together.

Information for this section was gathered from a variety of sources including the 350 Project, The Andersonville Study of Retail Economics and sustainableconnections.org. The Tigard Area Chamber of Commerce is a supporter of The 350 Project, [www.the350project.net](http://www.the350project.net)

## EDUCATION & SCHOOLS

The Tigard-Tualatin School District is the 8th largest school district in Oregon and the 5th largest in the Portland metropolitan area. It is large enough to provide a comprehensive academic program for our students and small enough to maintain close connections with our staff, students, parents and

community. The District includes two high schools, three middle schools, ten elementary schools and an alternative school program.

The district serves the communities of Durham, Metzger, King City and Bull Mountain as well as Tigard and Tualatin. They have kept pace with the steady growth of these communities over the last 30 years by opening new schools and expanding classroom facilities. Numerous special programs exist for gifted, special education, technology, alternative programs, music/arts, sports/athletics and kindergarten.

## DISTRICT GOALS

- Every student will achieve academic success.
- Highly qualified teachers, administrators and support staff will be recruited, retained and supported.
- The district will make decisions and take actions that maintain public trust.
- The school district environment will support student learning, positive behavior, staff collaboration and productivity.

For complete details on the Tigard-Tualatin School District, visit [www.ttsd.k12.or.us](http://www.ttsd.k12.or.us)

# Living in Tigard – A place to call home

Tigard is a suburban community located just eight miles southwest of downtown Portland. Tigard strives to blend the amenities of a modern city with the friendliness and community spirit of a small town. The city is largely residential, but is also home to over 3,000 businesses with a significant mix of office space, industry, and commercial and retail businesses. Tigard's resident population is approximately 48,000, with a daytime population approaching 100,000.

Tigard has preserved its small town charm, but it faces big city demands for infrastructure. The convergence of Interstate 5 and highways 99W and 217 (statewide highways and freight routes) make Tigard a transportation hub for nearly all of Oregon. During an average day, one third of a million vehicles pass through Tigard along these thoroughfares on their way to countless destinations.

Tigard has a variety of family activities and amenities to meet any visitor or resident need or interest. See all the details in our feature rich Community and Visitor Guide section.

## HISTORY

Wilson and Polly Tigard settled in this area in the 1850s, and their Victorian-style house is now a community historic landmark. Arriving by wagon train the Tigard's staked out their 320-acre claim near Bull Mountain. Beginning with a log cabin and later a framed house, Wilson and Polly Tigard's sense of community began with the construction of the first general store, home of Tigardville's first telephone. Tigardville shortened its name to Tigard to avoid confusion with other towns as the railroad made Tigard a regular stop of travelers moving west. While the Tigard community is nearing 150 years in age, the city will celebrate 50 years of incorporation, this year making it one of Oregon's younger incorporated communities. As important as its history, Tigard is a community planning for its future. Local governments, school leaders, citizen

groups, business and individuals work hard to build upon Tigard's significant community attributes as the city enters the 21st century.

## SENIOR LIVING

Tigard is "Senior Friendly"! The Tigard Senior Center is a bustle of activities with clubs, classes, music, trips and more. The Center is also rich in civic programs noting that the lunch program for seniors serves more than 40,000 meals annually. The Meals on Wheels program also is available to those confined to their homes. A buddy program matches volunteers with homebound residents for lunch chats on a regular basis. Tigard is home to several 55+ and senior communities that offer golf, swimming and clubhouse activities to their residents. Incorporated King City is a community of more than 2,000 residents that includes its own nine-hole golf course, town hall, shopping center, convalescent center and lawn bowling rink.

## HEALTHCARE

Legacy Meridian Park Medical Center, a modern full-service facility, is located just five minutes from Tigard. Expanding areas such as the Family Birth Center and Community Health Information Center continue to meet the growing needs of the community. Providence St. Vincent Hospital is located just north of Tigard and also provides emergency medical services to our community. The newly opened Providence Newberg Medical Center in nearby Newberg, is one of six hospitals in the nation and the only Oregon hospital to be named a "2009 Best Place to Practice Award" – recognizing top performing hospitals that sustain the highest level of physician satisfaction. Newberg is a short 10-15 minute drive for those residents living in the southern parts of Tigard/King City.

In addition you'll find emergency care facilities, medical centers, dentists and eye clinics conveniently located in Tigard.

The Tigard Farmers Market's ongoing commitment is to bring fresh, locally produced fruits, vegetables, plants, food and crafts to the community; to support local farmers, and to provide a community gathering place.

You can locate the Tigard Farmers Market at 11831 SW Pacific Hwy (the corner of 99W and Garden Place) every Sunday from 9 a.m.—2:00 p.m. May through October. Reservations can be made up to one year in advance and facilities are available for use April through October. Reservations

In 2010, Washington County hosted more than 2.5 million visitors, who contributed \$500 million to our local economy. The Washington County Visitors Association does more than help attract visitors to our region. We help businesses—both near and far—find meeting and event space to fit their needs, provide visitor information material, and support our local tourism industry by hosting networking events, awarding tourism grants and much more.

Learn more about how we can work together to keep Washington County's tourism industry strong. Call us, **503.644.5555**, or visit us at [yourwaytoplay.com](http://yourwaytoplay.com) or [visitwashingtoncountyoregon.com](http://visitwashingtoncountyoregon.com).
