Q4 results

In the fourth quarter, the Winter Sports' high season dominates Amer Group's activities. Due to the earlier timing of deliveries compared to 2000, Atomic's net sales and operating profit were almost the same. During the period, Wilson's sales were affected by declining demand and the related caution of the trade in the USA, especially in October.

Highlights by business area

Wilson's net sales were similar to last year's, totalling EUR 705.4 million, a decrease of 2%. The total value of Wilson branded licensed products sold globally amounted to EUR 192 million.

The Racquet Sports Division's net sales and operating profit were similar to last year's. Operating profit totalled EUR 26.1 million (2000: EUR 26.6 million). Wilson retained its position as the leading brand in tennis equipment with a global market share of 33% in tennis racquets and 22% in tennis balls.

The Golf Division's performance was weak. Net sales decreased by 8%, and its operations were unprofitable with a loss of EUR 3.3 million compared to an operating profit of EUR 13.2 million in 2000. Wilson's club sales increased slightly, whilst both golf ball sales and profitability declined due to fierce competition. Wilson also lost some market share in golf balls.

The Team Sports Division improved its already strong market position in the USA. Net sales were up 5%. Bat sales grew by 20%. Operating profit was up 55% to a record of EUR 24.2 million.

The Winter Sports Division also had a record year with net sales increasing by 13%. Operating profit grew by 5% to a total of EUR 40.2 million, despite increased investment in R&D and branding. This good performance was boosted by increased sales and improved internal efficiency, such as the new logistics centre opened during the year. Alpine ski sales increased by 8%. Atomic is the second largest brand in alpine skis globally.

The Sports Instruments Division's net sales increased by 19%. Operating profit increased by 23% to EUR 10.1 million. The strongest growth was seen in wristop computers, with sales up 39%, and diving instruments, with sales growth of 25%. Suunto is the world's leading manufacturer of wristop computers, diving instruments and compasses.

Amer Tobacco's net sales increased by 9%. Operating profit increased by 3% to EUR 9.6 million. The company's share of the Finnish cigarette market remained strong at 75%. A total of EUR 415.1 million was paid in excise tax. Cigar sales increased significantly aided by the first full year contribution from the distribution agreement with Swedish Match. The company's cigar market share increased to 57%.

Changes in corporate structure

In March 2001, the Teletekno business was sold to a group of investment companies and the company's current management. Amer retained a 19% minority shareholding in the newly established company. In August, Konemuovi Oy was merged within Amer Group Plc.

Capital expenditure

The Group's gross capital expenditure totalled EUR 24.2 million (2000: EUR 57.2 million).

Wilson's capital expenditure amounted to EUR 8.2 million, mainly accounted for by production, logistics and data systems. Atomic's capital expenditure totalled EUR 10.4 million, of which approximately 50% related to the new R&D Centre, and to the new logistics centre which was completed during the year. Suunto's capital expenditure totalled EUR 2.8 million and Amer Tobacco's capital expenditure amounted to EUR 1.7 million.

Income from sales of real estate companies' shares and disposals of fixed assets totalled EUR 12.7 million.

Research and development

R&D expenditure amounted to EUR 22.8 million, representing 2.0% of Group net sales. Of this, EUR 14.6 million related to Wilson, EUR 4.0 million to Atomic and EUR 4.2 million to Suunto.

Finance

In March, all current individual domestic commercial paper programmes were replaced by one joint domestic paper programme of EUR 100 million. Due to its strong cash flow, Amer Group took no other significant funding actions during the financial year. The equity ratio stood at 50.7% (2000: 47.4%) at the 2001 year-end. Gear-

ing was 26% (2000:35%). The Group's year-end net debt totalled EUR 114.5 million (2000: EUR 154.6 million). The Group's financial position and liquidity remained good throughout the year.

On 7 March 2001, the AGM approved a proposal to authorise the Board of Directors to purchase and dispose of the Company's shares. The Board may also propose that the acquired shares be cancelled thereby decreasing the share capital. The authorisations are limited to 5% of the total number of shares in issue and votes thereon. The authorisations are valid until the 2002 AGM, although for a maximum period of one year from the date of the AGM at which they were approved.

In May, the Company's share capital was decreased by cancelling a total of 633,000 of its own shares held by the Company on the basis of the 2001 AGM resolution.

During the period January – March 2001 the Company acquired a total of 390,400 of its own shares and it acquired a total of 769,100 between April – December 2001, authorised by the 2000 AGM and the 2001 AGM, respectively. At the end of the year, the number of shares repurchased totalled 968,300, representing 4% of the Company's shares and votes. The repurchased shares have not had any significant impact on the breakdown of shareholdings and votes in the Company.

During the year, a total of 38,400 new Amer Group Plc shares were subscribed for on the basis of the 1998 A warrants. A total of 26,650 shares were subscribed for and paid up in November – December 2001; 20,700 of theses shares were registered on 30 January and 5,950 will be registered in February 2002. After the corresponding increases in the share capital, the Company's share capital may still increase by 784,950 new shares as a result of the 1998 warrant subscription.

In 2001, the 1998 warrants were entered into the Finnish automated book-entry securities system. On 25 June 2001, the A warrants were introduced to the main list of the Helsinki Exchanges, and the B warrants, whose subscription period started on 1 January 2002, were introduced and simultaneously combined with the A warrants as one security on 11 January 2002.

The Company's market capitalisation excluding the repurchased shares stood at EUR 682.9 million at the year-end.

The Board of Directors had no outstanding authorisations to issue shares at the year-end.

New marketing name

In line with its strategic goals, Amer Group launched a new marketing name, Amer Sports, combined with a new logo, to be used for corporate marketing and advertising purposes. The official name of the Company, Amer Group Plc, is unchanged. The objective of the new marketing name, along with our participation in the around the world yacht race, The Volvo Ocean Race, is to further strengthen the Company's commitment to sports equipment and to enhance the profile of the Group and its brands globally.

2002 prospects

The outlook for the sports equipment market in 2002 is cautiously optimistic. However, a large degree of uncertainty relating to general economic conditions remains.

In addition to the economic situation, demand for sports equipment is strongly affected by sports related issues, such as product innovations in the short term and the long term development of the number of participants in a specific sport.

Amer Group's operations are balanced by its wide portfolio of sports as well as by its geographic diversification.

During the current year, the tennis equipment market is expected to grow slightly. Like last year, 2002 will be a challenging one in our golf business. The global golf equipment market is expected to remain flat compared to last year, and competition will continue to be fierce. The market for team sports equipment is expected to remain flat or to decrease slightly. The positive trend is expected to continue in winter sports, while strong demand for Suunto's sports instruments is also likely to continue.

Amer Group's objective in 2002 is to deliver a strong performance against the market background outlined above.

Amer Group's target is to become the leading player in the global sporting goods equipment market. With this in mind, the Group continues to enhance its long term growth potential through increased investment in marketing and R&D. Amer Group is also focusing on the development of its Amer Sports distribution organisation in order to benefit more widely from its diversified portfolio of sports, a concept which has been well received by the trade. In addition to organic growth, acquisitions which meet the Group's strategic aims will be considered.

The Group's annual report will be published during the week 10. The interim report for the period January to March will be published on 7 May, for the period January to June on 6 August and for January to September on 5 November 2002.

The Company's Annual General Meeting will be held on Thursday, 21 March 2002 at 2:00pm at Amer Group Plc's headquarters in Helsinki.
