## Dr. Harvey Wiley Commends the Northern Pacific Dining Car Service

Dr. Harvey W. Wiley, the well known chemist and pure food expert, is quoted in the *Post-Intelligencer* of Seattle, March 14, 1913, as saying:

“Pure food must be the foundation upon which the health of the nation is built, and you have one of the best illustrations of what can be done in feeding the people along the right lines with the right kind of food here in the Northwest in the dining service of the Northern Pacific Railway.

“The food served and its preparation should be a model for every railroad and hotel in America. It is superior to anything I have ever before found in a public eating place. Most of the food which they serve comes from their own model farms, and the way in which it is prepared should be copied by others who wish to serve the public food that is healthful. I travel a great deal and I am compelled to eat all kinds of food or go without, and it is a pleasure to praise when I find a cafe that makes every effort to serve healthful food, as is the case with this railroad and some of the hotels I have visited on this trip. All railroads of America should by all means copy the policy of the Northern Pacific.”

Good Morning!  
We Hope You Rested Well.

## A la Carte Breakfast Menu

### Fruits

ORANGES, 20C

GREAT BIG BAKED APPLE, 10C

ORANGE MARMALADE, 25C

ORANGE JUICE, GLASS, 20C

STEWED PRUNES, 20C

*Patrons not served to their satisfaction are requested to report the fact immediately to the Dining Car Conductor; any indifference or inattention on the part of any employee or unsatisfactory service, to*  
*A. M. Cleland, General Passenger Agent, St. Paul, Minnesota.*

On January 1, 1901  
the Northern Pacific Railway discontinued the annoyance to passengers occasioned by ambitious news agents, and since that time the daily newspapers published along our line are supplied to all our trains carrying dining cars. Our dining car conductors send a neatly uniformed waiter through the train between meal hours, and passengers may obtain papers at other times on application to the dining car conductor.

### Margaret Illington Bowes writes:

"At the end of a long season of almost constant traveling I cannot resist thanking you for the pleasure and comfort your most wonderful dining car service has given me. The splendid food, perfection of service, and that sense of individual attention one gets, is, I think, unique in railroad travel. I shall route my tours over the Northern Pacific wherever possible, for this, if for no other reason."

*Attention of our patrons is called to the change of time at Mandan, N. D., and Paradise, Mont., to one hour earlier going west and one hour later coming east at each point.*

## Cuisine Famously Good

The attention of our patrons is especially directed to our home-grown products obtained for several years from the Northern Pacific's Dairy and Poultry Farm at Kent, Wash.

A specialty is made of strictly fresh eggs, each of which is stamped and put up in cartons of a dozen each. They are dated so as to avoid the possibility of an old egg being used.

The same quality of milk-fed young chickens that are used for broiling purposes are also used exclusively as roasting chickens. These are killed only as wanted for supplying our dining cars.

We also make a specialty of raising young pork from which we make all the sausage in our own Meat Shop for our dining car service.

No cold storage stock of any kind is handled, thus assuring only the highest quality of all kinds of supplies.

We operate our own bakeries and meat shops in St. Paul and Seattle, where all our bread, cakes and pastry are made and where all meats are cut and wrapped in parchment paper ready for the range.

Unsalted creamery butter is not only served exclusively on the tables but also for all cooking purposes in the kitchen.

The well-known Pokegama Water which is bottled at the Springs at Detroit, Minnesota, is served with all meals.

Originators of the "Great Big Baked Potato," February 8, 1909,

"Hot Dishes for Cold Days" en Casserole, October, 1911,

"Great Big Baked Apple," October, 1914.

## A Hearty Invitation

is extended to all our dining car patrons to visit our new commissary in Seattle, located two blocks south of the King Street Passenger Station. It is one of the most modern and up-to-date institutions of its kind on the continent, built with sanitation as the most paramount object in view. Here are prepared in our sanitary bakeshop all the bread and pastry articles for our dining car service, baked in an Oil Burning Petersen Oven, so as to avoid the soot and dirt incident to coal firing, and insuring cleanliness to our bakeshop products. Our meat shop in this commissary, also, is a model of its kind, where cleanliness in the method of handling meats, poultry, etc., reigns supreme. The meat shop products are cooled through an automatic refrigeration plant of the most modern installation, always insuring a uniform temperature of a very low degree. The storeroom, where all supplies are issued to the cars, has also been built with a view to filling dining car requisitions in the most expeditious and cleanly manner.

A guide will cheerfully accompany our visitors and explain the workings of each department in detail.

It will give us pleasure to entertain you.

HAZEN J. TITUS  
Superintendent Dining Car Service
