3. The Welcome screen will appear, click "OK".

Welcome		8
i	Welcome to the installer for TCF Fan Selector 10.0.00. It is strongly recommended that you exit all Windows programs before continuing with this installation. If you have any other programs running, please click Cancel, close the programs, and run this setup again. Otherwise, click OK to continue.	
	ОК	

4. Fan Selector 10 requires other applications that may or may not already be installed on your computer. The "Technology Required" window will appear, click "OK". If you already have Microsoft .NET installed the executable will skip to Installing SQL Server Express (step 1 under Fan Selector Installation).

Technolog	y Required	×
Â	Setup has detected that your Microsoft .NET run-time files are out o date. Click OK to install this technology now or Cancel to abort the setup.	f
	OK	:el

5. Microsoft .NET Framework 4.5 is required. It will take several minutes to download and install.

6. After the Microsoft .NET Framework 4.5 files are installed, your PC may require a reboot. Click "OK".

After your computer reboots then the installation may automatically start again with the FS10 install. If not, Double click the FS10Setup\_10.0.15xx.xxxx.exe from your computer.

# Fan Selector Installation
