**1 RC John Deere Tractor 8345R with control module (2,4 GHz)** Remote controlled John Deere Tractor 8345R with new remote control module and 2.4 GHz-radio technology. For operating the model, 5 batteries type AAA or rechargeable batteries are needed (not included). Proportional driving and steering function. Lighting at front and rear. Mechanical rear coupling. Connector socket for SIKUControl attachments. Model made from metal and plastic. Scale: 1:32. Suitable for children from ages 5+.

MCU688100000

**2 Radio-Control John Deere 8430T Tracked Tractor** Radio controlled die-cast tracked-model with 3 digital proportional functions, steering, drive, light, indicators and rear coupling. Set with design radio control module, midi-storage battery and main charger. Compatible with all other Siku farmer products. Scale: 1:32.

EU MCU676200000  
UK MCU676300000

**3 Control-Charger for Midi-accu** Battery charger for Siku Control midi battery.

EU MCU670900000  
UK MCU671000000

**4 Midi-accu for SIKU Control** Lithium-Polymer battery with 850 mAh capacity for SIKU Control Tractors (MCU676200000/MCU676300000 and MCU677200000/MCU677300000). Scale: 1:32.

MCU671100000

**5 SIKU Control 32 Twin Axled Trailer** A model faithful in appearance to the original. A tandem axled-trailer which enables the trough to be tipped to the rear electronically. Tipping function with top-quality, powerful servo-engine. These servos are well protected against rough use by special miniature safety couplings. Rear lights and indicators with LEDs. The trailer is connected to the tractor by means of a data-cable. Scale: 1:32.

MCU678000000

**6 SIKU Control 32 Twin Rotor Swather** Twin-rotor swather in scale 1:32 with precisely operating servomotor for lifting and lowering the swathing rotors. The rotors are rotated mechanically. The swather is connected to the tractor by means of a data cable. The existing Siku Control 32-remote control module is used to control the functions of the model. The rear lighting and indicators on the left and right side with LEDs round off the visual impact.

MCU678200000

**7 Reversible Plough** Reversible metal plough of Vogel & Noot. Suitable for all SIKU radio-control tractors. Comes with data cable to connect plough with tractor. Servo-driven rotary function. Scale: 1:32.

1:16

The product line **bworld** is a toy system which includes realistic figures and buildings. This opens up a multitude of new and imaginative ways for children to play and lets them unleash their fantasy and create their own play worlds. The figures have heads and limbs that can be moved in three dimensions as well as hands that can grip objects and hold on to vehicles. The diverse sets with the topics of farming and forestry as well as horse riding let the play worlds come alive. **bworld** is complemented by buildings which provide endless combination options due to a special connection system.
