FORTY-FIRST ANNUAL SPRING RHODODENDRON SHOW

photo Ron Mapes
plant Nolan Blansit 00-148

SATURDAY, APRIL 23, 2011 12 noon to 4:00 P.M.

Admission: no charge for the plant show

JENKINS ESTATE AT GRABHORN ROAD
NEAR 209TH & FARMINGTON ROAD
ALOHA, OREGON

Show entries accepted 7:30— 9:30 AM

Show Rules

1. Entries must have been in the exhibitor's garden for at least six months prior to the show and must have been cared for primarily by the exhibitor.
2. An exhibitor may enter a truss or spray of a single clone into any class for which it qualifies. Entry of a truss into one class does not preclude the entry of another truss of the same clone into a different class.
3. Only one truss or spray of a single clone may be exhibited in any one class. Duplicate entries will be disqualified.

An exhibitor may enter any number of entries in the same class provided they are different forms (*for example, one spray of each different form of R. augustinii may be entered in class 23.*)

4. Natural growing conditions for all plants. Plants of Boothii, Maddenia, and Vireya (species and hybrids) may be grown with protection.
5. Entries should be groomed before submission. Bloom preservatives are allowed in the water. Wetting and cleaning leaves is encouraged, but leaf and flower coating compounds are not allowed. Please remove unsightly duff (bud scales, pine or fir needles, dirt, and insects from leaves and stems.)
6. A spouse, significant other, or child shall be considered as one exhibitor unless they maintain separate gardens and refrain from a commingling of plants and plant care.
7. A Novice Exhibitor is someone who has never won a ribbon in any American Rhododendron Society show. They may also enter any other classes and are also encouraged to place an entry into the special Novice class (#54).
8. When a hybrid could go into two classes, use the seed parent to determine class.

SCORE POINTS FOR JUDGING A CUT TRUSS OR SPRAY

1. Truss at peak of condition and grooming, with regards to color, foliage, and substance 50 points
2. Form: Typical of variety 25 points
3. Size: The diameter of the individual flower and the number of flowers per truss should be typical of variety. (Up to 20% of not fully opened buds will be permitted in a truss or spray without prejudice.) 25 points

SCORE POINTS FOR JUDGING A POTTED PLANT

Potted plant size: not to exceed 2 feet width and 2 feet above the top of container.

PLANTS IN BLOOM

Condition, cultural perfection & grooming	25 points
Floriferousness, according to the variety and quality of bloom.	25 points
Form, substance, & texture	25 points
Distinction, rarity & educational value	25 points

PLANTS NOT IN BLOOM

Condition, cultural perfection & grooming	25points
Form, substance, & texture	25 points
Foliage;	35 points
