3 GENERAL SUPERVISION OF CEMETERY

3.1 GRAVE DIGGING

Management shall allow only approved contractors and/or employees of the Township to open and close all graves in the Cemetery for Interments, Inurnments and Disinterments.

3.2 MANAGEMENT SHALL CONTROL IMPROVEMENTS

Management shall have authority with respect to the planting, sodding, surveying and improvements within the Cemetery.

If any tree, shrub, or plant standing upon any lot, by means of its roots, branches or otherwise, is or becomes detrimental to adjacent lots or avenues, or if for any other reason its removal is deemed necessary, Management shall have the right to remove such tree, shrub, or plant, or any part thereof, or otherwise correct the condition existing as in their judgment seems best, and without notice to any interested party.

3.3 RECORDS OF CEMETERY

The files, papers, documents, reports, ledgers, maps, lot cards, correspondence, and other written records maintained by the Cemetery are the sole and exclusive property of the Township. 4 BURIALS AND REMOVALS

4.1 AUTHORIZATION REQUIRED

No Interment, Inurnment or Disinterment shall be made within the Cemetery unless a written burial (or removal) contract has been entered between Management and the legally authorized party desiring Interment, Inurnment or Disinterment.

4.2 PAYMENT

In every case all applicable cemetery charges shall be paid in advance or arrangements satisfactory to Management made concerning payment, including but not limited to, any other outstanding charges on that particular Space before Interment or Inurnment.

4.3 BURIAL OF MORE THAN ONE BODY

Not more than one body, or remains of more than one body shall be buried in one Interment Space, unless written permission is granted by Management. In the event the Cemetery elects to allow the Interment of more than one human remains in a particular Interment Space, there will be a separate fee for each Interment Service provided. A second Interment in one Space may be permitted when, in the discretion of the Management, the ground and existing burial circumstances of the Space are suitable, and when the second Interment is (i) an infant burial, (ii) stillborn births, (iii) an Inurnment, or (iv) Scattering of Ashes.

The scattering of cremated remains is permitted in the Cemetery after request is submitted to and approved by Management, cremation certificate presented, and payment of required fee. In all cases, scattering of cremated remains shall be done in the presence of Management.

Only cremated pet remains may be interred simultaneously with human remains or cremains.

4.4 CASKET CONTAINER STANDARDS

Remains for Interment shall be delivered to the Cemetery in a casket or container composed of rigid material such as wood, fiberglass, plastic or metal and shall be of such construction so as to, (1) assure protection to the health and safety of the Cemetery personnel, (2) provide proper covering for the remains and (3) meet moral codes for the respect and dignity of the deceased. The container shall include a full enclosing dome or top piece so constructed that in its closed position it completely shields the remains from view at all times, with a rigid bottom, and substantial enough not to bend under the weight of an adult human body. Management reserves the right to make exceptions for special conditions, oversized or overweight deceased persons, children, limbs or pathological tissues and other reasons determined by Management. All babies or stillborn births shall be in a retrievable container. Receptacles of biodegradable materials shall not be permitted.

4.5 OUTSIDE CONTAINER

All burials must be made in a two (2) piece concrete box or vault that is not hinged, and is of type, quality, and construction approved by Management. The use of wooden boxes and sectional boxes shall not be permitted.

Any funeral director (licensee) or his designated contractor approved by Management or the agent, servant, or employee of the funeral director may be authorized by Management to enter on any section, lot, or space for the purpose of installation of outside containers. To ensure compliance with these Rules and Regulations, the funeral director shall obtain explicit authorization from the Management for such purpose.

4.6 DISINTERMENT

No Disinterment or removal shall be made without the approval of Management and the request of the person(s) with legal authority to direct the same, or by court order prior to the time of removal. The Cemetery shall assume no liability for damage to any body, casket, outer burial receptacle, or urn in the Disinterment. When a Disinterment is to be made from one grave to another grave and an Outer Burial Container was not used for the original Interment, an Outer Burial Container meeting the Cemetery's current specifications must be furnished by the owner, authorized next of kin, or other authorized person directing Disinterment, for the new Interment.

4.7 ERRORS MAY BE CORRECTED

Management reserves, and shall have, the right to correct any errors that may be made either (i) in making burials or removals, or (ii) in the description of Interment Rights, either by canceling such conveyance and substituting and conveying in lieu thereof other interment property, of equal value and similar location as far as possible, or as may be selected by Management, or by refunding the amount of money paid on the account of said purchase. In the event the error shall involve the burial of the remains for any person in such property, Management reserves, and shall have, the right to lawfully remove and bury the remains in such other property of equal value and similar location as may be substituted and conveyed in lieu thereof. Management shall also have the right to correct any errors made by placing an improper inscription, including an incorrect name and/or date, either on the memorial or on the container for cremated remains. The Cemetery shall have no liability as a result of any errors of the type described herein other than its obligation to take the remedial actions described.

4.8 IDENTITY

No outside container shall be installed without the explicit authorization from Management. Management assumes no duty to identify the remains of the deceased, and can give no assurance that the remains interred are that of the person shown on the Interment authorization executed and delivered to Management. Management relies upon the representation of the family, funeral director, or others making such statement of identity for Interment authorization, burial permits, or death certificates, and shall have no obligation to independently establish or verify the identity of the remains.

4.9 DELAYS IN INTERMENT

Management shall be in no way liable for any delay in the burial of a body where a protest to the burial has been made, or where the Rules and Regulations have not been complied with, or because of strikes, the elements, an act of God, common enemy, thieves, vandals, malicious mischief makers, explosions, unavoidable accidents, invasions, insurrections, riots, or order of any military or civil authority.

4.10 INTERMENT OF PETS

No pets shall be interred in the cemetery except as specified in Section 4.3.

4.11 CHANGE OF ADDRESS

It shall be the duty of the Owner to notify Management of any change in post office address. Notice sent by ordinary U.S. mail to an Interment Right Owner at the last address on file in the office of the Township shall be considered sufficient and proper legal notification.

4.12 OWNERSHIP INTEREST IN INTERMENT SPACE RIGHTS

Only the right to inter is conveyed. The Cemetery retains all other interest in the Space conveyed. All Interment Rights conveyed to the individuals are the sole and separate property of the Owner named in the instrument of conveyance.

4.13 PASSAGE OF RIGHTS UPON DEATH OF OWNER

Following death of the Owner of an Interment Right held in the sole name of that decedent, then (i) an unused Interment Right, or (ii) if all remains previously interred are lawfully removed, the vacated Interment Right passes in the following order:

- (a) to such person that the Owner has designated either by specific bequest/devise in his Will, or by a written and dated declaration filed and recorded in the office of the Cemetery;
- (b) To the heirs at law of the Owner.¹

The Cemetery is entitled to require proof of any such Will, relationship and/or right of descent satisfactory to the Cemetery, including but not limited to certified copies of legal documents and/or affidavits as prescribed in section 16 of the Illinois Cemetery Protection Act, 765 ILCS 835/16.

¹ SURVIVING SPOUSE'S RIGHTS: The surviving spouse (if any) of the Owner, has the Interment Right in such an unused or vacated Space. This right may be waived in writing, but is not transferable, and terminates with burial elsewhere or remarriage.

It is suggested that when Interment Rights are purchased by a husband and wife, to consider designating both spouses as joint tenant owners with right of survivorship in the records of purchase. This avoids the need to consider the passage of ownership following death of a single-named owner-spouse.

Where any Interment Right is held in the name of more than one person with the right of survivorship provided, then upon death of the first of the joint holders:

- (a) the Interment Right(s) pass to the surviving joint holder or holders;
- (b) Upon death of the last surviving joint holder, leaving an unused or vacated Space, the Interment Right(s) pass in the order set forth above.

When an Interment Space passes to heirs, then if there is more than one heir, each heir holds an interest in the Interment Right(s), and written authorization for Interment of remains shall be obtained from all surviving heirs holding such rights. The interest of heirs may pass in the manner described above, provided, however, that the spouse of an heir only has the right of interment in the manner described above if there are no other living heirs.

Except as may be necessary to gain access to other interment spaces within the Cemetery, persons within the Cemetery grounds shall use only the avenues, walkways and roads. All persons are strictly forbidden to break or injure any tree or shrub, or mar any landmark, marker or memorial or in any way deface the grounds of the Cemetery.

5.9 PETS

No pets shall be permitted in the Cemetery. It is expected that sight-impaired individuals will make every effort to immediately clean-up after their Service Dog; however, the failure to do so shall not be deemed a violation of this Ordinance, unless such sight-impaired individual is accompanied by a non-impaired person. In such event, the person accompanying the sight-impaired person shall be liable under the provisions of this Section. Management is authorized to waive these requirements, at its discretion.

6.1 MEMORIALS

No lot owner shall erect or place, or cause to be erected or placed in the Cemetery, any Memorial until it is approved by Management, and all charges related to the Interment Space have been paid.

6.2 DEFINITIONS APPLICABLE TO MEMORIALS

“Base” is the bottom part of a two-piece headstone, the piece that sits under the die, but is above grade of the ground level.

“Die” is the main part of a two-piece headstone, and is situated on top of the base.

“Foundation” is the concrete ‘wash’ structure extending below ground and set flush with ground level grade, upon which a memorial is placed.

“Marker” is a type of memorial, and is defined at Section 1 above as a memorial of granite and/or bronze and/or bronze on granite or any other material approved by Management and placed level with the grade.

“Memorial” is defined at Section 1 above, as a marker, monument, vase, or name plate for the purpose of identification or in memory of the interred.

“Monument” is a type of memorial, and is defined at Section 1 above as a memorial of granite that extends above the surface of the lawn and has a wash, a base and die.

6.3 REGULATIONS ON MEMORIALS

- (a) Not more than two Memorials per Interment Space are allowed, with not more than one being an upright Memorial.
- (b) Upright Memorials. The Foundation for an upright Memorial on a single Interment Space shall be no wider than 40”. In a double Interment Space purchase, the total size for the Foundation of the upright Memorial shall not exceed 72” width. Memorials shall not span more than 2 Interment Spaces. The maximum height of any upright Memorial shall not exceed 48 inches from the ground surface. The above maximums, in conjunction with the Foundation requirements below, result in the following maximum size specifications:
 - Single Interment Space: Foundation 40” x 20”, with Memorial Base of 36” x 12”
 - Double Interment Space: Foundation 72” x 20”, with Memorial Base of 68” x 12”.

A Base is not required for a **Bevel, Hickey, Pillow** nor an above ground Lawn-Marker. However these styles must be no higher than 5 inches tall with not more than 2 inches lower on the front and mortared onto a 'wash/foundation'. (See Foundation Requirements)

- (c) Flat Memorials. If a second, flat/flush Memorial is installed in addition to an upright Memorial, it shall have a 'wash' and be placed near the center of the grave space in such method that the highest portion of the Memorial is flush with the surrounding soil and conforms to the slope of the surrounding soil, such that it is capable of "drive over" by maintenance equipment without damage. Any such secondary, flat/flush Memorial shall not exceed a size of 24" in width by 12" in vertical side length. A flat-style Memorial may also be utilized as the main Memorial on an Interment Space, in which case it need not be flush with the ground level and shall otherwise comply with the location and size requirements for upright Memorials.
- (d) All Memorials shall be installed evenly spaced from each lateral Interment Space line. All Memorials, (except for a second, flat/flush memorial as permitted hereinabove), shall be placed at the very head/top of each Interment Space. Memorials and their primary face for inscriptions shall be placed to face consistent with the other existing Memorials in that section.
- (e) Only granite or bronze Memorial materials may be used. The bottom of all Bases must be cut level and true. Bench Memorials must have and be attached to a Foundation with 'Wash.'
- (f) Foundation requirements: All Memorials must have a Foundation. Every Foundation must be at least 2 inches wider (on the sides) and 4 inches wider (on the front and back) than the part of the Memorial resting directly above or embedded in it. The Foundation shall not project above the surface of the ground. The Foundation shall have a minimum depth of 24 inches, and deeper for large Memorials as directed by Management. All Memorials shall be true and level on the Foundation, except for flat/flush Memorials, which must conform to the slope as provided above. All costs of installation and repair of Foundations shall be that of the person(s) causing installation.
- (g) Inscriptions: Should the Management determine that any symbol or inscription placed upon a Memorial is defamatory, offensive or injurious to the rights of other Interment Spaces or the proper decorum of the Cemetery, Management may notify the Owner of the Space, if living, or otherwise the person causing installation thereof, or otherwise the closest know relatives to correct such symbol or inscription within a reasonable time. Should such person(s) fail to correct the condition, Management may enter upon such Space and remove or cause removal.
- (h) Cemetery Right to Repair or Remove: Should a Memorial or Foundation become a safety hazard, broken or unsightly, Management reserves the right (but shall not

have the obligation) to repair and correct the condition, at the expense of the Owner. Management shall give a ten (10) day written notice of the necessity for such repair or correction to the Interment Right holder of record and the person(s) causing installation of the Memorial, if on record with the Cemetery. The notice shall be deemed given by depositing the same in the U.S. Mail with postage prepaid, addressed to such person(s) as shown on the records of the Cemetery. In the event the Cemetery's records do not contain a physical address for at least one of such person(s), notice shall be published in a local newspaper for not less than two consecutive publications. In the event that the repairs or corrections are not made within a reasonable length of time, Management may direct that the repairs or corrections be made, and/or the damaged parts be removed and disposed of, without liability on the part of the Cemetery. All expense of such work shall be charged against the Interment Right Owner of record in the form of a lien against any additional unused Space(s) held by such Owner, to be paid prior to any Interment within the remaining Space(s).

6.4 DAMAGE

While the Cemetery will exercise all possible care to protect lettering, carving or ornaments on any Memorial, other structure, or any Interment Space, Management, the Township and the Cemetery disclaim responsibility for any damage or injury thereto.

6.6 MEMORIAL INSTALLATION AND WORK

Any recognized monument dealer may be approved by Management to enter on any section, lot, or space for the purpose of installation or other work upon Memorials. The locating and setting of all Memorials shall be subject to the approval of Management.

Memorial installation, repair, maintenance and other work thereon requires experience and often times special equipment. No person, firm or corporation, other than recognized and approved monument dealers shall be permitted to install, repair, maintain, or perform other work on

Memorials in the Cemetery. While a funeral or Interment or Inurnment or Scattering is being conducted nearby, all work upon Memorials shall be suspended.

- (c) Management shall not be responsible for lost, misplaced, or broken flower vases, or any wreath, spray, floral decorations, plants, or decorations of any kind damaged by elements, thieves, vandals, or by other causes beyond control. Management reserves the right to regulate the method of decorating Internment Spaces so that a uniform beauty may be maintained.
- (d) The Cemetery shall have sole and exclusive authority with respect to the planning, sodding, surveying, and improvements on all portions of the Cemetery's grounds.

6.10 POTTED FLOWERS

Potted flowers are not permitted in the Cemetery at any time, except when contained in or on (i) a shepherd hook, or (ii) a vase permanently installed on the Marker or base.

6.11 CLEAN-UP PERIODS

- (a) Two times per year the Cemetery shall have a general clean-up when all out of season, worn and prohibited items are removed except (i) those appropriate to the upcoming season; and (ii) shepherd hook decorations permitted by these Rules.

Management will keep complete records of all Owners of Interment Rights, and Interments. Because the Cemetery is a governmental cemetery owned by the Township and its records are public, information about Owners and Interments shall be provided to those who inquire. Record

requests may be subject to an administrative fee, which may be charged from time to time by the Cemetery.

8.4 TRANSFER OF ASSIGNMENT

For the protection of lot owners of the Cemetery, and to prevent unauthorized transfers and interments, Management shall maintain complete records of the ownership of all Interment Rights in the Cemetery. Therefore, the following restrictions are necessary and mandatory concerning sales, transfers, and assignment of all Interment Spaces:

- (a) No person shall sell, transfer or assign any Interment Space or any interest therein without complying with this Rule, and all sales assignments and transfers contrary to the terms of this Rule are void and of no effect, and will not be recognized by Management.
- (b) Any person desiring to sell, transfer or assign any Interment Rights, or interest therein, shall convey, transfer and assign such Interment Right unto the Cemetery, and Management will, after checking its records or making such other investigation as it may deem necessary, issue to the person(s) to whom the Owner desires to sell, transfer or convey such Interment Right, or any interest therein, a Cemetery Contract Deed. The Cemetery shall make a reasonable charge for its services, which charge must be paid in advance.
- (c) Interment Rights shall be purchased solely for the purpose of personal or family interment or the interment of the person designated in the purchase agreement, and not for purposes of speculation. The price received for the sale of any lots or graves cannot exceed the current selling price of like property by the Cemetery.
