What is Top Config?

HP's Top Config is an online build-to-customer-order program which simplifies the configuration, quote and order processes, delivering exactly the PC the customer wants at a competitive price in a reduced time.

HP's channel partners benefit from suitable availability without requiring specific in-house resources and, at the same time, achieve a better margin. The program is expanding to include corporate notebooks and industry standard servers throughout FY05.

1) Through Top Config, HP's objective is to achieve direct-like agility and operational efficiency with the reach, convenience, services and personalization of the channel.

2) HP's Top Config program means customers get products configured to match their needs with the serviceability and reliability associated with using their trusted HP partners ? at a highly competitive price and with fast turnaround time.

3) Top Config is one of our key channel go-to-market drivers.

Whilst it boasts direct-like agility, all orders are through our channel partners. Top Config is a key differentiator HP and our partners can bring to customers.

The compact and affordable HP RP3 Retail System provides retailers of all sizes with reliability and connectivity features that help maximize operating cost efficiency.

HP RP3 Retail System Model 3100

Standard features

- Compact and flexible for a variety of environments**
 Maximize your operating cost efficiency with the affordable price point and compact form factor of the HP RP3 Retail System.
- Designed to stand up to everyday wear and tear**
 Choose the best type of storage for your environment; either a hard drive or a solid state drive for the durability of no moving parts.
- Environmentally responsible**
 Reduce cooling and energy costs with the energy-efficient ENERGY STAR® qualified and EPEAT® Gold registered design.
- Backed by HP**
 Ease transitions and reduce support costs with an extended product lifecycle stability plan for consistency in your install base.
- Audio:** Integrated high-definition audio with Realtek ALC221 codec with standard internal speaker
- Expansion slots note:** One slot used for either RP3 PCI or PCIe Riser Assembly
- Expansion slots:** 1 full-height PCI/PCIe
- Memory type:** DDR3 SDRAM
- Memory speed:** 1600 MHz
- Memory slots:** 1 SODIMM
- Memory maximum note:** Full availability of 4 GB or more of memory requires a 64-bit operating system. With Windows 32-bit operating systems, the amount of usable memory is dependent upon your configuration, so that above 3 GB all memory may not be available due to system resource requirements.
- Memory, maximum:** 8 GB
- Memory upgrade:** Upgradeable to 8 GB
- Network interface:** Integrated Broadcom BCM57788 Gigabit Ethernet Network Connection; HP WLAN 802.11 a/b/g/n PCIe wireless mini-card + Bluetooth (optional); HP WLAN 802.11 b/g/n PCIe wireless mini-card

Advanced features enable retailers to standardize on one system to run mission critical operations. Expandable and highly configurable for easy implementation into your existing ecosystem; choose operating systems, Intel® processors, storage, and memory.

HP rp5800 Retail System

Standard features

- High performance**

Available with a choice of operating systems, Intel® processors, mass storage, removable media, and memory the HP rp5800 has a flexible design that you can customize to fit your needs.

- Expandable and configurable**

With extra memory slots, multiple PCI Express (PCIe) slots, 3.5"/5.25" bays, and optional optical drives, the HP rp5800 POS System has a flexible design that you can customize to fit your retail environment.

- Stable and manageable**

Reliable, retail-hardened engineering helps reduce downtime and keep your store running smoothly. The ruggedized POS system and 40°C ambient temperature support extend longevity through your normal business activities.

- Works with your environment**

Keep it together with the HP Integration Tray designed to house the HP rp5800 POS System along with key peripherals in one integrated solution. Now there is a place for all your peripherals, a manageable workspace neatly contained.

Redefining reliability in hospitality, the HP RP7 Retail System, Model 7100 delivers an intuitive, comfortable user experience in a fanless, sealed chassis that's deployable in your most demanding settings.

HP RP7 Retail System Model 7100

Standard features

- Reliability you can trust**

A breathtaking exterior is just the beginning. We also packed the HP RP7, Model 7100 with durable, reliable technologies that optimize speed of service and enhance guest experiences.

- Impressive everywhere you look**

Enhance your store image with the modern, space-saving design and contemporary aesthetics.

- Substance beyond style**

The HP RP7, Model 7100 is retail-hardened for use in environments up to an ambient 35°C. The steel chassis, on-board monitoring and alerts, and environmental and shock testing stand up to the long term wear and tear of retail environments.

- Versatility to meet your needs**

Versatile mounting configurations support wall or tabletop mounting so you can position the solution wherever you need it (wall mounting hardware sold separately).

- Audio:** Integrated high-definition audio with Realtek ALC261 codec, multi-streaming sound capabilities, SRS Premium Sound technology and dual internal speakers (standard)

- Display:** Choice of one associate-facing touchscreen display includes 15" Resistive (1024 x 768 resolution), 15" Projected Capacitive (1024 x 768 resolution), or 17" Projected Capacitive (1280 x 1024 resolution). Optional customer facing display includes HP RP7 VFD Display or the HP RP7 10.4-inch.

- Memory type:** DDR3 SDRAM

- Memory speed:** 1600 MHz

- Memory slots:** 1 SODIMM

- Memory maximum note:** Full availability of 4 GB or more of memory requires a 64-bit operating system. With Windows 32-bit operating systems, the amount of usable memory is dependent upon your configuration, so that above 3 GB all memory may not be available due to system resource requirements.

- Memory, maximum:** 8 GB

- Memory upgrade:** Upgradeable to 8 GB

- Network interface:** Integrated Broadcom BCM57788 Gigabit Ethernet Network Connection; HP WLAN 802.11 a/b/g/n 2x2 dual-band mini-PCIe wireless card with Bluetooth (optional); HP WLAN 802.11 b/g/n 1x1 mini-PCIe wireless card (optional)

- Ports:** 6 USB 2.0; 2 12V powered USB; 1 24V powered USB; 1 USB in lockable compartment; 1 RJ-12 (cash drawer); 2 RS-232 (powered); 1 parallel; 1 PS/2; 1 DVI-I; 1 RJ-45; 1 audio in; 1 audio out; 1 DC in; 1 DC out; 4 USB connectors (for select HP integrated peripherals)

HP recommends Windows.

NA	No warranty is provided for this product.						

1) Responses are based on local standard business days and working hours. Unless otherwise stated, all responses are measured from the time the Customer calls until HP has either established a mutually acceptable time for support to be performed, or HP has begun to provide On Site support or remote diagnostics. See paragraph 6 entitled "Response Times" for more terms and conditions about response times within HP travel zones.

3) Standard Bench warranty means repaired by HP or a HP dealer at its designated repair center.

4) Warranty service is limited to repair or replacement of defective Software media or materials only.

6) HP does not support products manufactured by another company and distributed by Hewlett-Packard. The original product manufacturer provides support. Software warranty services from HP are limited to replacement of defective Software media or materials. Customer should contact and/or register with the product manufacturer to receive any additional warranty and support coverage information that may be available.

14) Parts only warranty means HP will supply the Customer with a replacement part in exchange for a defective one. HP may, at its option, waive the requirement for the Customer to return the defective part.

16) The item is warranted against manufacturing defects in material or workmanship only.

31) Site preparation service included with installation.

36) Phone-In Assistance (PIA). Software telephone support provides access to HP technical resources for the period specified in the Product documentation commencing on the date of delivery to the original end-user. Examples may include: advice on proper installation, setting up Software configuration parameters, Software features, solutions to known problems, and information on the interpretation of Product technical documentation. See Product documentation for more details on what is and what is not included.

37) Call-To-Repair (CTR). CTR means the maximum number of hours from the time the call is received in the HP Response Center to the time HP determines that the hardware is repaired. See Product documentation for more details.

38) Retrieve/Repair/Return (RRR). In addition to the provisions of paragraph 2n) above, if HP is unable to resolve a hardware problem remotely in the U.S, Canada and Western Europe, HP will retrieve the Product via a courier, provide parts and labor to repair the Product, and then return the Product to you.
