November 2017

Volume 4, Issue 10

November news...!

Hello, and welcome to our last edition for 2017!

As a busy couple of months and our year draws to a close we have some thanks to express...

Firstly to all our members & friends who made the effort to help out and contribute to our Spring Plant Expo, a heartfelt thank you to: Bill & Bee Barker, Ray Barnes, Joan & Peter Broughton, Dianne & Paul Carroll, Christine Cram, Ian Julian, Dawn McCormack, Pauline Maloney, Barbara Mau, Victoria Morris, Maureen Runge, Norbert Ryan, Brian & Lorraine Weir & Mike Williams. If I am unaware of, or have forgotten anyone please accept my humble apologies and feel free to let me know so your name can appear in print in our next issue :-).

An extra special thank you also to Dianne & Paul Carroll for their hospitality in offering their garden for a visit and end of year break up picnic barbeque (details below).

Our newsletter will return in 2018, on or close to the second Monday in February (February 19th).

Contributions both large and small are always enthusiastically welcomed. In particular, plant and garden images are incredibly helpful.

Please send contributions in by Monday February 5th. Email to: wattlegum@southernphone.com.au or post to PO Box 381 Pyalong Vic 3521.

Best wishes for the coming Christmas & holiday season. Hope to see you at our upcoming meeting or picnic. Cheers for now & happy holidays to all,

Jeanine :-)

BYO Picnic BBQ & Garden Visit: Saturday Nov 25th...

Dianne & Paul Carroll have generously offered their garden in Kilmore as venue for our last get together for 2017: A BYO Picnic Barbeque and Garden Visit.

Commencing 4pm on Saturday November 25th
39 Melrose Drive Kilmore.

A barbeque will be available to cook on and please bring your own food (meat, salad & desert to share etc.), drink, picnic accessories & eating equipment.

Come along and enjoy a relaxed end of year get together among like minded garden loving friends.

Mitchell Diary Dates..

- **MONDAY NOV 20th 7:30pm MEETING & AGM**
Guest Speaker: Peter Mitchell - Grasses
- **SATURDAY NOV 25th 4:00pm APS Mitchell Christmas BYO Picnic/BBQ & Garden Visit: The Garden of Dianne & Paul Carroll 39 Melrose Drive Kilmore**
- **MONDAY FEBRUARY 19th 2018 7:30pm MEETING**
Guest Speaker: To be advised
- **MONDAY MARCH 19th 7:30pm MEETING**
Guest Speaker: To be advised
- **MONDAY APRIL 16th, 2018 7:30pm MEETING**
Guest Speaker: Attila Kapitany - Boabs & Bottle Trees & their other Australian Relatives

A few pictures from Bill & Bee...

Bill Barker

The Dillwynia (below left) is a plant which has been on the property since we bought it, it was never planted. The large mint bush (*Prostanthera ovalifolia*) (pictured middle & right) was planted when we arrived before the house was built - about 15 years ago. We had to water it for a few years but now it has spawned a new one which has bloomed for the first time this year.

Dillwynia sp.

Prostanthera ovalifolia (Close up)

Prostanthera ovalifolia

**MEETINGS ARE HELD ON THE
3rd MONDAY OF THE MONTH
(February to November)
unless otherwise advised**

**Commencing 7:30 pm in the
John Taylor Room, Kilmore
Library, Sydney Street,
Kilmore Vic 3764**

Entry \$2.00 Gold Coin

Guest Speaker

Door Prizes

Plant Sales

Library (See Pauline)**

Supper & Chat

VISITORS VERY WELCOME

Members & Visitors are
encouraged to bring along
exhibits for our "Show & Tell"
Flower Specimen Table

Please label plants

November Meeting: Monday 20th 7:30pm...

Peter Mitchell will be joining us as guest speaker for our last evening meeting for 2017 to present on "Grasses". Peter has been a member of APS Mitchell for a good number of years and also has an extensive history both working and volunteering in the area of Conservation, Environment and Land Management. He is currently active on the committees of: BEAM

Mitchell Environment Group, Victorian Central Biolinks Alliance, Friends of Mt Piper, Broadford Land Management Group and has worked as an Extension Officer for the Department of Primary Industry.

Please bring along grass specimens (native & non-native) from your gardens or property for comparison and identification. Peter's presentation will be preceded by our usual short and sweet AGM (see page 9 for AGM information & nomination form).

October Meeting Report...

By Jeanine Petts

Around 13 or 14 members came along for what turned out to be a slightly more relaxed and casual October meeting. Technical difficulties with the evening's planned slide show provided more time than usual for us to chat and mingle ahead of the meeting.

Starting around half an hour later than anticipated, Ian welcomed every one and opened with a summary of our Spring Expo (for more details see Ian Julian's Expo Report on page 6).

In brief: 5 native plant growers, the Kilmore Art Society, APS Victoria Book Sales, Kilmore Mitre 10 and Birdlife Australia participated as stall holders on the day. The \$500 Community Grant from Bendigo Bank covered hall hire and advertising costs for the Expo. 203 visitors came through the door which was a marked increase on last year's visitor numbers. Janet Hand from Birdlife Australia emailed in some feedback saying it is very obvious to her that the people in our area are very interested in their birds and gardens. "They are happy to stop and chat as opposed to Melbourne people who put their heads down and walk past thinking I am trying to flog something". Janet was thinking of retiring from coming along to our Expo in the future but in light of such interesting conversations on the day this year, may well reconsider.

Mike Williams also emailed providing a list of all the named specimens we had on display (list follows at the end of this report). Other feed back we received from various people was that the layout was more open and eye catching this year and it was suggested from one of the growers that we run a Q & A "Ask and Expert" session at future Expos.

With the computer slide show glitches mostly worked out, the rest of the evening was given over to viewing images from the Expo floral displays. The images were courtesy of Gary Van Arkidie who generously provided photographic services at the Expo and along with Gary we have Norbert Ryan to thank for organising Gary's participation.

2017 Expo plant list:

- Acacia acinacea*
- Acacia aculeatissima*

Expo 2017 Report...

By Ian Julian

The \$500 community grant from Bendigo Community Bank helped make the 2017 Plant Expo and sale the most successful in recent years.

With 203 entries this was a 50% increase on the 2016 expo. 169 of these being Mitchell Shire residents 51% of these from Kilmore, 18% from Wallan and 16% Seymour/Tallarook. Other visitors came from Qld, Wollert, St. Kilda, Reservoir, Geelong, Benalla, Echuca, Bacchus Marsh, Macedon Ranges and Doncaster.

There were 9 happy door prize recipients (entrant numbers previously selected at random) and the Raffle was won by Marj from Tallarook, who was delighted with the Standard Grevillea.

Again books were very popular with 23 sold to a value of \$530.

The flower displays were very impressive with many people providing a very wide range, Mike Williams from Yarra Yarra APS saying that it was the largest range of Grevillea he had seen at any show. The growers were very happy with sales, all indicating that they would return next year -

Thank you to all the growers:

Joan & Peter Broughton (Ironstone Park), Russell Wait, The Plant Hut, Vaughan's Australian Plants and Weiryi (Brian & Lorraine Weir).

The expo saw the addition of Kilmore Mitre 10 selling gardening goods and we thank them for their support. There were some people disappointed that LaTrobe Indigenous Nursery were a late withdrawal due to unforeseen circumstances.

Although we did not sign up any new members 9 people were added to the email newsletter list.

APS Mitchell would like thank everyone involved in making the expo a success, Gary Van Arkidie for taking the photos and a very special thanks to Mike Williams for his assistance and expertise.

Also, record the date for next year: Saturday October 13, 2018 where we hope to be bigger and better.

Plant Bio: *Banksia coccinea*...

By Jeanine Petts

Banksia Coccinea

Family: Proteaceae – The Protea family

Pronunciation: *Banksia*: BANGK-see-a *coccinea*: kok-SIN-ee-uh

Derivation of name:

The genus *Banksia* was named for Sir Joseph Banks, 19th century botanist and President of the Royal Society, *coccinea* is from the Latin word *coccineus*, meaning Scarlet.

Common Name: Scarlet Banksia, Waratah Banksia or Albany Banksia and known to the Noongar peoples as Waddib.

Banksia coccinea is a variable erect shrub to small tree which can grow from 1 to 8 meters high but usually averages around 4 meters. Probably one of the most spectacular *Banksia* species, it is found naturally along the south west coast of Western Australia growing in sandy soils among shrubland, heath or open woodland. Leaves are thick, ovate-oblong with toothed margins, are darker green on the upper surface with a pale underside, new growth is sometimes an attractive pink to silvery blue-grey. Highly ornamental scarlet to orange prominent flower spikes can grow to an 8cm diameter by 8cm high and occur from June to January with a peak flowering during spring.

It requires perfect drainage and can be difficult to grow in the eastern states as it is prone to root rot and does not tolerate humid wet summers or clay soils. However, once established it is hardy to drought and will tolerate frosts to -4°C. A *Banksia* that is best grown in sandy, very well drained soil in full sun to partial shade. The flowers are grown for the cut flower trade in a number of countries and attract insects along with a variety of insect and nectar feeding birds. The plants can be pruned for a bushier shrub and to produce more flowers.

Propagation is from seed which will usually germinate within 2-8 weeks when in a temperature range between 15-25°C. Seed is sown directly in pots (1-2 per pot) and care may be needed with watering as *Banksia* seedlings can be susceptible to damping off.
