June 2017

Volume 4, Issue 5

June news...!

Hello, and welcome to our June edition!

Winter has only just arrived but already our group along with many others, are looking forward to spring. There are a number of events and plant sales scheduled over the coming months, so this issue contains quite a few pages covering upcoming event information. The Orchid Societies council of Victoria Inc. have mailed flyers for their next event and these will be available at our June meeting if anyone is interested.

Planning and organising is still underway for our own Spring Plant Expo and Sale and you will find information on page 7. A few participants have yet to confirm, so keep an eye on the coming newsletters for updates and changes.

Pauline has been hard at work sorting out our APS Mitchell Group lending library. Unfortunately one of our books is currently unaccounted for. If anyone thinks they might have one of our library books please see page 8 for full details.

Inside this issue:

June & General Meeting Information Pg 2

Memberships Pg 2

Science of Gardening course Pg 2

May Meeting Report Pg 3

Grevillea pterosperma Pg 6

Reminders, APS Vic Diary Dates etc... Pg 8

Committee & Contact Information Pg 8

Membership renewal Pg 13

A garden view from Maureen
Photo: Maureen Runge

Membership renewal time is also here, for full details see pages 2 and 13.

Our July edition will be issued on or close to the second Monday (July 10th).

Contributions both large and small are always enthusiastically welcomed and should be sent in by Monday July 3rd. Email contributions to: wattlegum@southernphone.com.au or post to PO Box 381 Pyalong Vic 3521.

Cheers to all, and hope to see you at a meeting sometime soon,

Jeanine :-)

Grevillea hookeriana subsp. apiculoba

Mitchell Diary Dates..

- **MONDAY JUNE 19th 7:30pm MEETING**
Guest Speaker: **Robert Bender - Batology: Bats, Flying Foxes & Sugar Gliders in relation to native vegetation & conservation**
- **MONDAY JULY 17th 7:30pm MEETING**
Guest Speaker: **Attila Kapitany - Native Succulents Books & Succulent Plants will be available for sale on the evening.**
- **SUNDAY AUG 27th: Wild Flower Hunt with Echuca Moama APS**
Details to be advised
- **MONDAY SEPT 18th 7:30pm MEETING**
Guest Speaker to be advised
- **SATURDAY OCT 14th APS Mitchell SPRING PLANT EXPO & SALE**
Kilmore Memorial Hall 14 Sydney St, Kilmore 9 am - 3 pm
- **MONDAY OCT 16th 7:30pm MEETING**
Guest Speaker to be advised

Science of Gardening course ...

From Neil Humphreys

Some of our members might be interested in this course (See link below)...

The "Science of Gardening" course is a free on-line course run by the University of Tasmania.

It takes approximately 4 months and incorporates lectures and selected videos from "Gardening Australia"

I found the course to be absolutely engrossing and the knowledge I gained was amazing even though it is not specifically aimed at natives.

I really do recommend Gardening Australia

Regards

Neil Humphreys

<http://www.utas.edu.au/science-engineering-technology/science-of-gardening>

MEETINGS ARE HELD ON THE
3rd MONDAY OF THE MONTH
(February to November)
unless otherwise advised

Commencing 7:30 pm in the
John Taylor Room,
Kilmore Library,
Sidney Street, Kilmore Vic
3764

Entry \$2.00 Gold Coin

Guest Speaker

Door Prizes

Plant Sales

Fertilizer Sales

(APS Mitchell Slow Release
fertiliser \$5.00 per 500g)

Use of the APS Mitchell free
Library (See Pauline)

Supper & Chat

VISITORS VERY WELCOME

Members & Visitors are
encouraged to bring along
exhibits for our "Show & Tell"
Flower Specimen Table

Please label plants

June Meeting: Monday 19th 7:30 pm...

By Ian Julian & J Petts

Robert Bender will be visiting to present on micro Bats and Sugar Gliders.

Robert has been President of the Friends of Wilson Reserve and Friends of Organ Pipes National Park (now past president), and has more than 20 years experience in flora restoration in these parks. He has also been an instigator and leader in efforts to conserve fauna using nesting boxes at both sites (all as a volunteer too!). He has worked alongside many research students as we have grappled with the question of what makes a good roost for a bat and how do we recreate habitat that has been lost through the felling of hollow-bearing trees? He is also currently the treasurer for the Australasian Bat Society. Following the presentation will be our usual door prize plant raffle and opportunity for "Show & Tell" Flower Specimen Table (remember to bring labelled specimens) concluding with supper and chat time.

Membership Renewal Due...

The end of the Financial year is fast approaching and so is the time for APS Mitchell membership renewal (Including ASP Vic membership renewal). A renewal/membership form is included with this newsletter and fees fall due on July 1 2017. Membership can be paid at a meeting, via post or direct debit - for further details see page 13.

For membership enquiries, information and forms and please contact Christine Cram

Ph: 5793 8270 or Email to the attention of the Membership Officer at:
aps.mitchell@gmail.com

Alternatively, membership information and forms can be found at the APS Mitchell website:

<http://www.apsmitchell.org.au/membership/>

May Meeting Report... Pre-winter photographic garden tour...

By Jeanine Petts

Monday May 15th found 14 members along with 2 guests arriving at the John Taylor Room for our evening meeting. Ian opened the meeting and began with some news and group information. It turned out we were actually one guest short. Ian had received a phone call from Neutrog that morning, advising our planned guest speaker had fallen ill and would be unable to attend. Moving on, there was further group news:

- A word from our treasurer – Memberships expire at the end of June and renewal fees for the 2017/2018 year will be \$47 for families & \$42 for singles.
- We have yet to hear from APS Echuca group regarding the proposed August excursion but hope to have more information by our June meeting.
- 2 sellers have confirmed they will be attending our October Expo & Plant Sale: Vaughn's & LaTrobe Indigenous Plant Nursery.
- A Neutrog presentation will be rescheduled, hopefully a little later this year.

On the previous Saturday, Ian had been listening to the ABC Radio gardening program where they made mention that winter was a time when gardens go to sleep. It occurred to Ian that this wasn't always the case, particularly in a native garden. So, in place of our guest speaker had taken photos around his garden that day, and put together a visual tour of his garden...

This current season has been good for *Correa* & *Grevillea* providing colour around the garden and out in the paddock the Tufted Bluebell *Wahlenbergia communis* is also flowering. The garden is alive with other life forms too:

White-browed Scrubwren

Blue Wren- The male has blue markings and the females (also called Jenny Wrens) are all brown.

Fungi

Echidna (short beaked)

Willy Wagtail

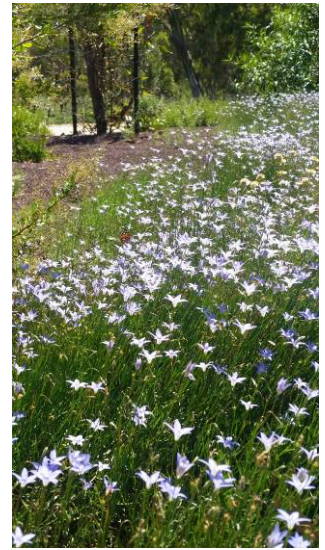

Yellow-faced Honeyeater

Grey Shrike-thrush

Horse Dung mushroom

Swamp Wallaby – A particular Swamp Wallaby had stayed very near the house for some time and had allowed Chris & Ian to get quite close to it. It was grey around the muzzle and turned out to be old and blind, which was why it could be easily approached. Ian vouched that although this wallaby was elderly it still had razor sharp teeth.

Plants currently giving interest around the garden were:

Wahlenbergia communis

(Continued on page 5)

May Meeting Report - Pre-winter photographic garden tour continued...

(Continued from page 4)

- Grevillea* "Robyn Gordon"
- Senna artemisioides* Desert Cassia
- Correa* "Dusky Bells"
- Correa baeuerlenii* Chef's Cap Correa
- Correa* "Portland Bell"
- Grevillea victoriae*
- Grevillea* "Red Claw"

With the photographic tour at an end Ian concluded by advising: Not everything in the garden goes to sleep in winter. Some plants flower throughout the year providing texture and colour. "Any questions on *Grevillea*, ask Brian".

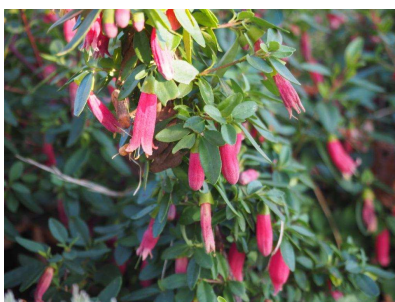

Among specimens brought in for the Flower Table were: A lovely range of *Grevillea* & *Correa*, Lilly Pilly *Syzygium sp.*, *Astartea* "Winter Pink", *Olearia sp.*, *Banksia marginata*, *Correa alba* & *Correa* "Little Cate"

Extra plants had been donated for the door prize raffle so six lucky members went home with their choice of: *Dodonea viscosa* (2), *Correa pulchella* "Baby Pink", *Acacia acinacea*, *Hakea petiolaris* & *Correa* "Win's Wonder".

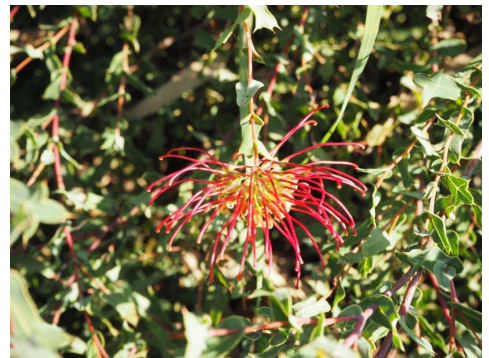

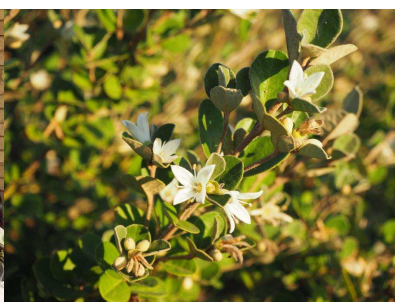

As always our evening rounded out with supper and a chat, which was a lovely opportunity to get to know new guests and catch up with other plant enthusiasts we had not seen for some time.

Although we missed out on the planned presentation from Neutrog, thanks to Ian's efforts, a relaxed & most enjoyable evening was had by all.

Plant Bio: *Grevillea pterosperma*...

By Jeanine Petts

Grevillea pterosperma

Family: Proteaceae

Pronunciation: *Grevillea*: grev-ILL-ee-uh *pterosperma*: ter-oh-SPER-muh

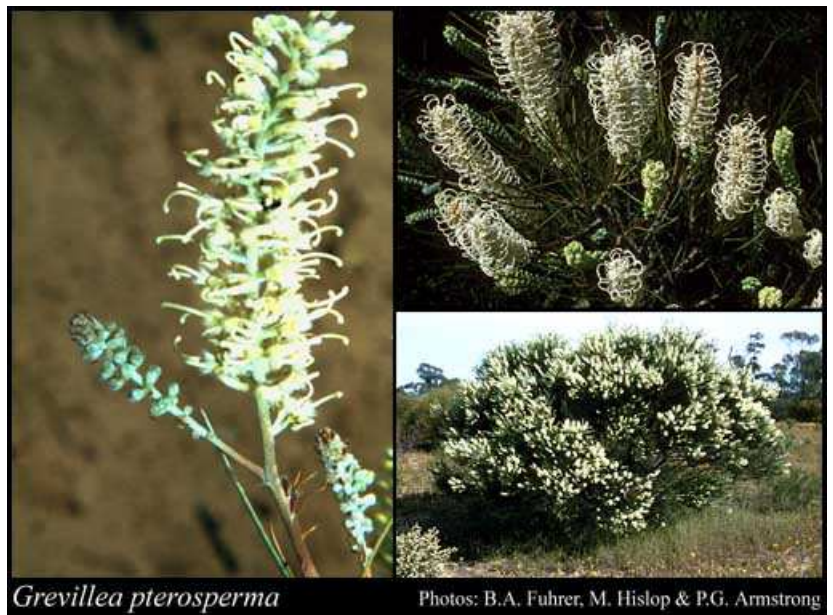

Derivation of name: The genus *Grevillea* was named for Charles Francis Greville, co-founder of the RHS in 1804. *pterosperma*: from the Greek words pteron (wing) and spermus (seed)

Common Name: Desert Grevillea or Desert Spider-flower

Grevillea pterosperma is an erect, branching shrub growing 2-4 meters high, which is found in all states except Queensland and Tasmania. Leathery alternating leaves can be simple, flat to linear of 7-18cm long, 0.5-2mm wide or sometimes lobed with 2-6 linear lobes. Spikes of white to cream spider flowers occur June – January with the main flush during September-November.

Coming from Mallee scrub areas, Sandhills, Sandplains and found growing in yellow or red sands it is very drought hardy and requires well drained soil and full sun. It is also moderately frost tolerant and both bird and butterfly attracting.

Propagation is by scarified seed or cuttings. *G. pterosperma* is one of a number of species which can be grown from seed without pre-treatment. However, pre-treatment will enhance and speed germination. There are a number of methods for scarifying *Grevillea* seed and the book *Growing Australian Native Plants from Seed* by Murray Ralph is an excellent reference regarding the variety of treatment options for these seeds (a copy is in the APS Mitchell Group Library and available for borrowing).

Correspondence to PO Box 149, Yea Victoria 3717

REGISTERED NO.:

CHARTERED MAY 1st, 1986

ABN 36 182 906 21

Dear Club President:

We are conducting our second annual garden Expo on 23rd / 24th September this year at the Yea Racecourse.

All manner of goods and services related to gardening will be on display and we are inviting members of your club to attend this spring event.

Our flyer advertising the event is attached for your reference. Closer to the time when entries are finalised I will contact you to advise you as to the categories represented so that your members will be aware of the features on display.

As you will note from the flyer we are inviting a range of gardening vendors to participate in order to provide potential visitors with a full range of gardening options and the opportunity to discover new ideas and products. Our research indicates that having an Expo at the start of spring offers a significant opportunity to establish your gardens for the coming growing season.

The Yea Racecourse provides an ideal venue and also provides ample capacity for free parking. We will have food vendors and will also provide free face painting for the children.

The township of Yea is also worth a visit with its award winning Tourism Centre (The Y Water Information Centre), many cafes and restaurants, award winning hotels, immediate access to the Great Victorian Rail Trail, first class accommodation and many other attractions.

Would it be possible for you to pass on this notice and flyer to your club members? We welcome your support and feel that this Expo is a worthwhile and interesting project for the Rotary Club of Yea and one that gardeners look forward to as an annual event.

Yours faithfully

A handwritten signature in blue ink, appearing to read "Pat Dewar".
