# **Navigation Software**

## **Latest Map Guarantee**

### **Update Procedure**

23 October 2013

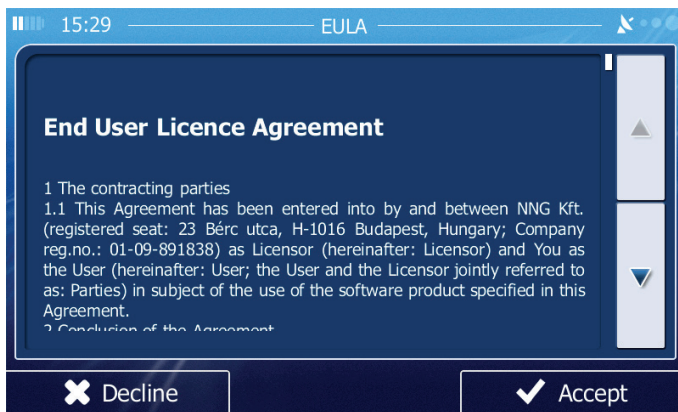

# **AUDIOVOX®**

---

You can update the maps free of charge within a period of 30 days after receiving the GPS signal the first time.

Please follow these steps:

1. Start your navigation system and accept the EULA.

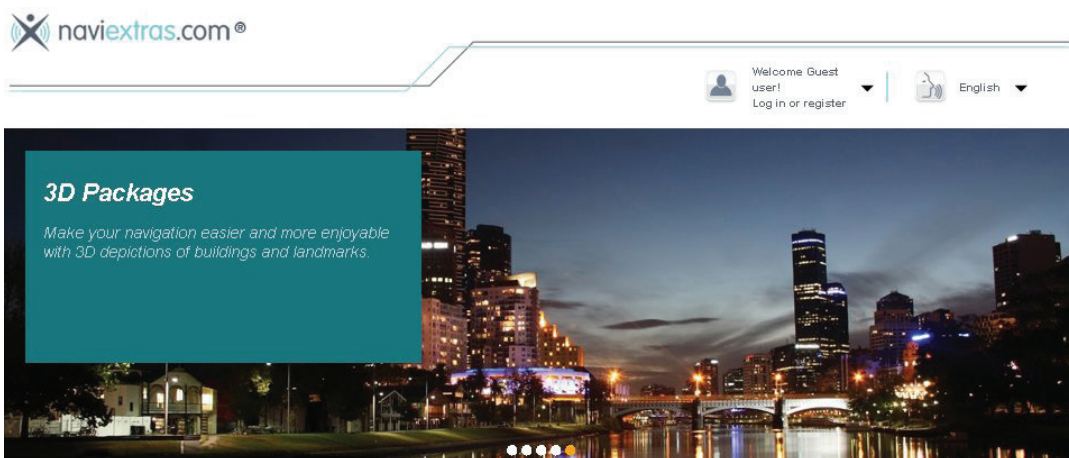

- Select the language and speaker used for voice guidance messages.
- Confirm the time format and unit settings.
- Later you can change them in Regional settings.
- Wait until you receive the first GPS Signal and turn off the navigation or the receiver.

2. Register at the website

Go to the website [www.naviextras.com](http://www.naviextras.com), create your own LOGIN, register at the website.

Press the option **Welcome Guest user !, Log in or register** and then press the tab **Register**.

Enter the brand name **Audiovox** and confirm the brand name.

Select your device from the Audiovox device list, press **CONTINUE** to proceed with the registration.

The screenshot shows the naviextras.com website interface. At the top left is the logo. On the right, there is a user status area: "Welcome Guest user! Log in or register" and a language dropdown set to "English". Below the logo, there is a section titled "UPDATES AND EXTRAS FOR YOUR" with a sub-section for "AUDIOVOX VME 9725 NAV". A central message box states: "You have successfully selected your device!" with a green checkmark. Below this, it says: "Your selected device is always visible in the top-left corner. Please note, that all your purchase will be bound to it!". A callout box points to the device image with the text "Your selected device will be shown here". On the left, there are three menu items: "Maps & more", "Redeem code or activate", and "Support, customer care". On the right, there is a "CONTINUE" button with a right-pointing arrow.

### 3. Create your Account

Enter your data and press **CREATE MY ACCOUNT**.

Save your Username and Password to create the login for the Toolbox software later.

The screenshot shows the naviextras.com website interface with the registration form open. The form is titled "Registration" and contains the following fields: Title, First name, Last name, Username, E-mail, Password, Confirm password, and Country (set to Germany). There is also a dropdown for "Preferred site language" set to "English" and a checkbox for "Subscribe to newsletter". A CAPTCHA image with the word "NEWS" is displayed. Below the CAPTCHA is a field for "Enter the verification code". A warning message in a yellow box states: "By proceeding, you accept the Site Usage & Privacy Terms." At the bottom right, there is a "CREATE MY ACCOUNT" button with a right-pointing arrow. A legend indicates that an asterisk (\*) denotes a "REQUIRED FIELD".

#### 4. Download the Naviextras Toolbox software

See **HAVE QUESTIONS OR NEED HELP?** on the right side of the website [www.naviextras.com](http://www.naviextras.com) and press **DOWNLOAD PC TOOL**.

The screenshot shows the naviextras.com website. At the top left is the logo. On the right, it says "Welcome Guest user! Log in or register". Below the logo, there are sections for "UPDATES AND EXTRAS FOR YOUR AUDIOVOX VME 9725 NAV" and "DOWNLOADS". The "DOWNLOADS" section features a product image of the "Naviextras Toolbox 3.18.0" software box. To the right of the box, it lists supported platforms: Windows XP, Windows 7, and Windows 8. A note states that the toolbox requires a minimum display resolution of 1024x768. Below this, a text box explains that the toolbox is a Windows utility for connecting navigation devices or GPS-capable PDAs to a PC, allowing for updates and content management. At the bottom of the download section is a prominent orange "DOWNLOAD" button.

#### 5. Press **DOWNLOAD** to start the download of the Toolbox.

#### 6. Install the Toolbox on your PC.

#### 7. **NAV103/NAV104:**

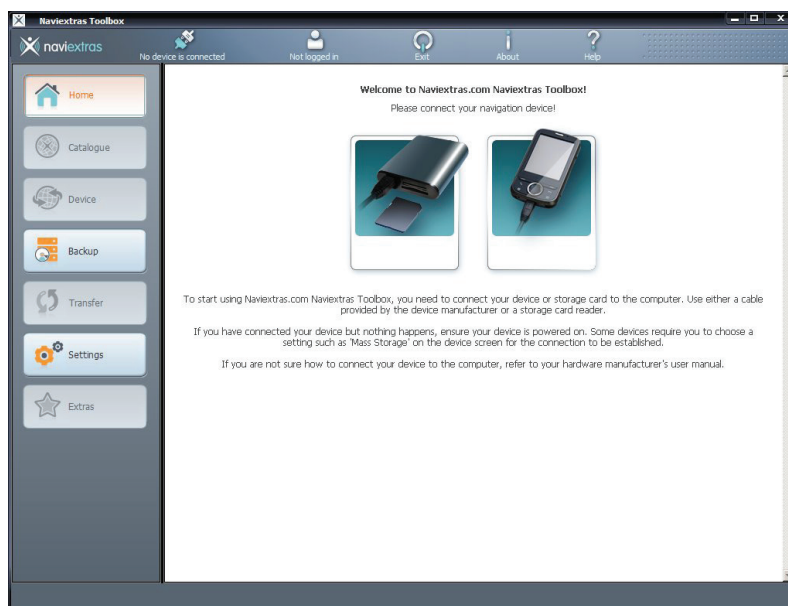

Insert the SD card into a USB/SD card adaptor.

**VME 9520 NAV / VME 9725 NAV / VME 9125 NAV:**

Insert the micro SD card into a USB/micro SD card adaptor

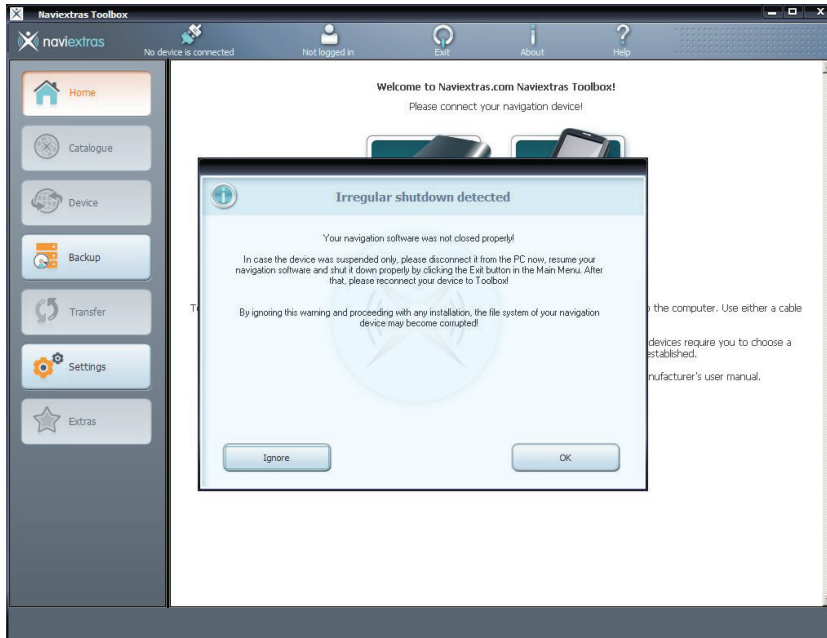

Connect the navigation card to the computer via the USB adaptor.

#### 8. The toolbox will read the content of the card and verify the content and recognize the software on your SD/micro SD card. You will see the name of the navigation device on the Toolbox main menu on the left upper and lower side.

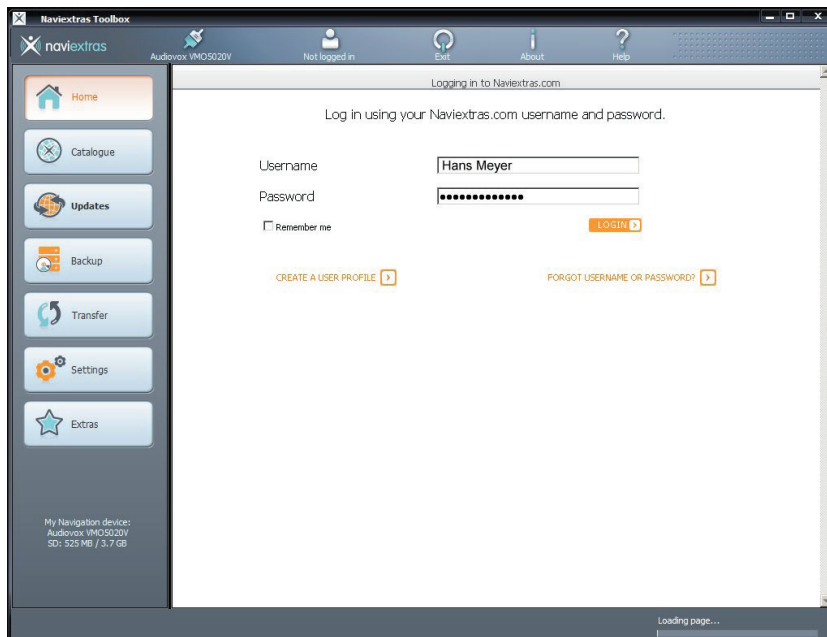

## 9. Error message Irregular shutdown detected

The message screen below appears if the navigation software has not been finalized. For the receivers like the VME 9520 NAV, VME 9725 NAV and the navigation box NAV104 it is not possible to shutdown the navigation software. In this case you have to press **IGNORE** to proceed with the update of the navigation software.

## 10. Login: enter your username and your password, confirm the data by pressing the **LOGIN** button.

11. The Toolbox will ask you to make a backup of your navigation software, press **Backup now!** and give the backup a name.

#### IMPORTANT NOTE:

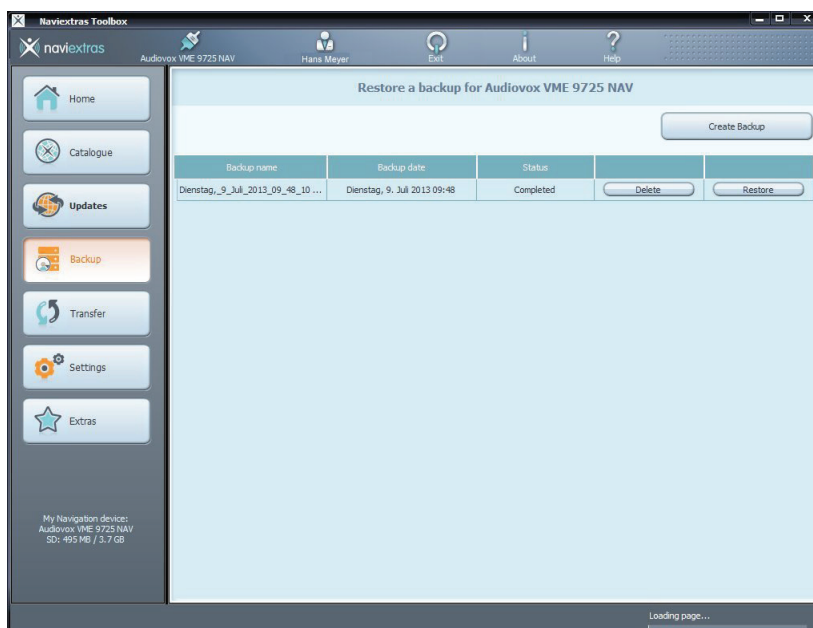

It is highly recommend to make a **BACKUP** of the SD card / Micro SD card **BEFORE** you download new maps !

**Wait until the backup is completed.**

Audiovox Audio Produkte GmbH does not accept any liability for an erroneous update and as a consequence a damage of the SD card / micro SD card.

12. Backup is completed

The following screen appears when the backup is completed:

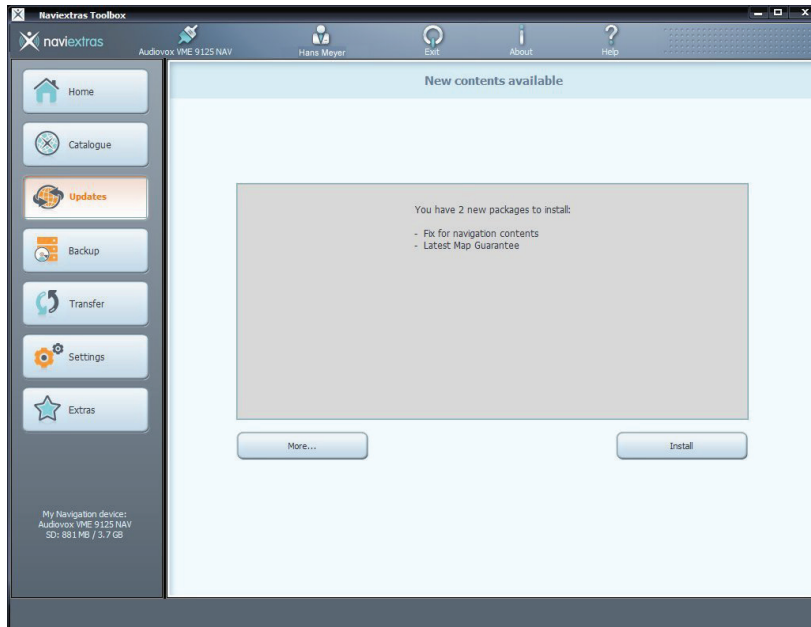

## 13. Updating the maps

### A) AUTOMATIC UPDATE (recommended)

Select **UPDATES** with the NAVIEXTRAS TOOLBOX.

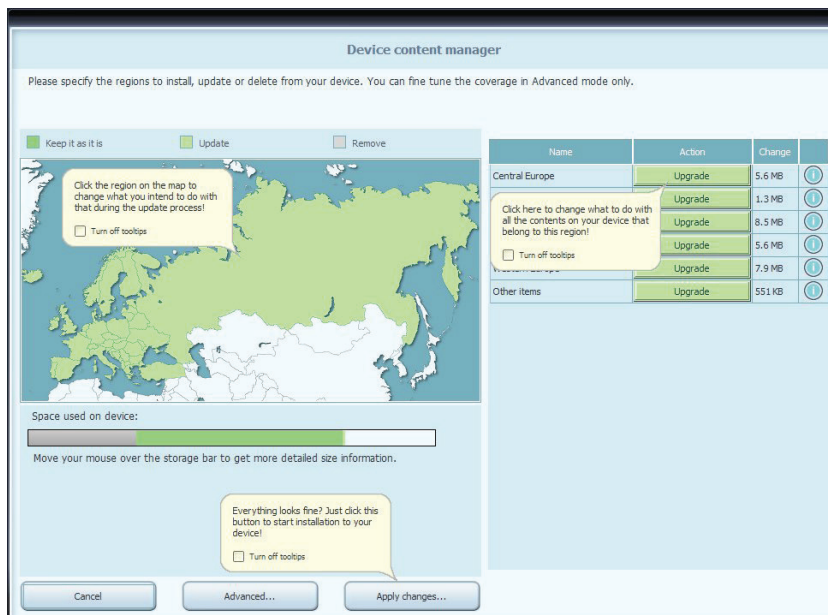

Press **Install** for an automatic update.

### B) MANUAL SELECTION OF THE UPDATES

To check the available updates, press **MORE** instead of **INSTALL**.

You will see a world map with the available updates.

14. Select the desired updates/countries with a check mark and select Apply changes.  
The toolbox will start to download the updated maps etc. that you marked before and save it on the SD card.
  
15. Press the **Exit** icon of the toolbox to exit the toolbox.

For further information concerning the LMG and the software update visit the website [www.naviextras.com](http://www.naviextras.com).
