

A300

Fingerprint Time & Attendance System

A300 TIMECLOCK

Bio-Office A300 is our Basic Edition Employee Time and Attendance system designed for small businesses with up to 100 employees. With the Anviz Biometric state-of-the-art fingerprint authentication technology you can track your employee's time and attendance with the touch of a finger. Biometric fingerprint authentication is the most accurate way to collect employee time and attendance information. The Bio-Office A300 verifies an employees identity based on the characteristics of their fingerprint. State of the art technological advances in biometrics have now made this surprisingly affordable and popular. The Anviz Biometric fingerprint reading sensor scans any fingerprint in under 1 second; this in turn will make clocking in and out

much faster for your employees and at the same time saving your company time and money by paying your employees for the exact time they work.

Your company will also reduce costly payroll and data entry errors caused by the old time card system. A large easy to read LCD screen displays the current time and the in/out punch indications for each employee.

THE A300 IS IDEAL FOR :

Small & Large
Businesses

Medical Offices

Retail Stores

Restaurants &
Bakeries

Schools

...and many
more!

- 1 Year Warranty

EMPLOYEE TIME & ATTENDANCE SOFTWARE

The Bio-Office® Employee Time and Attendance system is designed to automate employee time and attendance. The Bio-Office intuitive, easy to use interface will dramatically reduce the number of hours required to process employee time and attendance and automatically calculate total worked hours including overtime, vacation, sick days and holidays. With the click of a button you can import employee data and create many informative time and attendance reports, Bio-Office employee time and attendance software exports employee attendance seamlessly into QuickBooks®, ADP®, Paychex®, and to most major payroll provider's applications, reports can also be exported in Microsoft Excel®, Microsoft Word® or Text (csv) format.
