## INDIANA STATE LAW CONCERNING USE OF PARTY LINES IN CASES OF EMERGENCY

A statute enacted by the 1955 Indiana Legislature makes it unlawful to misuse party line telephone service in cases of emergency. An emergency is defined in the law "as a situation in which property or human life is in jeopardy and the prompt summoning of aid is essential." The law, in part, reads as follows:

Section 2. It shall be unlawful for any person using a telephone on a party-line to refuse to yield such party-line, when requested to do so, to any person who wishes to place an emergency call from a telephone on such party-line. Any person who violates the provisions of this section shall be guilty of a misdemeanor and upon conviction shall be fined in any sum not exceeding twenty-five dollars to which may be added imprisonment in the county jail for any period not exceeding ten days.

Section 3. It shall be unlawful for any person to obtain the use of a telephone on a party-line by falsely alleging the existence of an emergency. Any person who violates the provisions of this section shall be guilty of a misdemeanor and upon conviction shall be fined in any sum not exceeding twenty-five dollars to which may be added imprisonment in the county jail for any period not exceeding ten days.

### RIGHT-OF-WAY

The Company shall not be required to furnish nor be held liable for failure to furnish service where for any reason it has been unable to secure or continue to use its public or private right-of-way over a direct route then deemed expedient by the Company.

### INTERRUPTION OF SERVICE

If the service is interrupted otherwise than by negligence or wilful act of the subscriber, the only liability of the Company shall be to abate charges during the period such interruption continues, after forty-eight hours (48) written notice thereof to the Company.

Subscribers are responsible for all charges for messages originating from or reversed to their telephones.

### DIRECTORY ERRORS

No liability whatsoever shall attach to or be assumed by the Company for any errors or omissions in the compiling, printing or distributing of its directories

Delphi, Indiana

# HOW TO USE A DIAL PHONE AT DELPHI

Look in this new directory for the number of the called party.

Lift the receiver and listen for the dial tone, a continuous buzzing. When you hear the dial tone you are ready to start dialing.

All telephone numbers consist of a prefix and five numerals.

LOwell 4-xxxx

To dial a telephone number, dial the five digits included in the telephone number.

## RINGING AND BUSY SIGNALS

After you have finished dialing, you should hear either the ringing signal (an intermittent buzzing sound) or the busy signal (a rapid buzz-buzz).

If the ringing signal is heard, it indicates that the called party is being rung. Allow a reasonable length of time for someone to answer at the called station. If you receive no answer, hang up and try later.

If you hear the busy signal, it means the called line is busy. Hang up and call later.

If you do not hear either of these signals within a few seconds, hang up the receiver for a brief interval; then lift it and listen for the dial tone, after hearing the dial tone, dial the complete number again.

## WHEN THROUGH TALKING

Hang up your receiver so your line will be disconnected and will be ready to receive or make other calls. If you wish to make other calls in succession, hang up your receiver for a few seconds after each call.

## PARTY LINE AND EXTENSION TELEPHONES

Efficient party-line service depends largely upon the consideration and courtesy which each subscriber gives to the other parties on his line.

When dialing on a party line or any line with an extension telephone, it is necessary to consider the possibility that someone else may be using the same line.

If you hear a conversation when the receiver is lifted, the line is being used. Replace the receiver and try again later.

If you hear "Dialing Clicks" when you lift the receiver, it means that someone else on your line is dialing a number. The lifting of your receiver has interfered with the dialing and it is a matter of common courtesy to inform him of it as soon as he has finished dialing. Then hang up the receiver and permit him to dial again.

If you are dialing and you hear another party lift his receiver before you have heard the ringing signal, inform him that the line is in use, and after he has replaced his receiver, replace your own for a few seconds, then remove it and dial again. If the other party lifts his receiver after you have heard his ringing signal, it will be necessary to redial the number again. Inform the other party that the line is in use.

## DIALING ANOTHER PARTY ON YOUR OWN LINE

When a "Party Line" subscriber dials the directory number of another party on the same line a revertive call tone is received. The revertive call tone is a distinctive high pitched tone which indicates to the calling party that this is a revertive call and he must dial his own line code number as listed inside the circle on the dial number plate. You then hear the high pitched tone again, after which you hang up the receiver, thus allowing both your telephone and the called telephone to ring. When the called party answers, the ringing will stop, which is the signal that your call is answered. You then lift up the receiver and proceed with the conversation.

## Classified Telephone Directory

The Classified Telephone Directory is published for the benefit and convenience of our subscribers. Each business subscriber is given one listing under one general classification without cost. Additional listings under other classifications may be obtained for a nominal charge. For Company accounting reasons only, such additional listings are identified in this section by a (\*) shown at the left of the extra listing telephone number.

The Telephone Company assumes no responsibility or liability for errors or omissions occurring in the Classified Telephone Directory. Errors or omissions will be corrected in the next issue.

The telephone company and the publishers of this directory assume no liability whatever for damages arising from errors or omissions in making up or printing this book. The utmost care is used, however, in listing all subscribers correctly.

The "Spirit of Service" is a tradition in the telephone business—a powerful force throughout the entire organization. It helps all employees realize how much telephone service means to everyone—how important it is to get every message through quickly. It inspires telephone workers in all kinds of jobs to devote themselves to making service satisfactory and pleasing to you in every way.
