EFSA European Species Championship (Breems)

Albufeira – Portugal
03rd to 05th September 2010

EFSA Portugal Chairman's welcome

On behalf of the Organizing Committee and the members of EFSA Portugal I would like to extend a big welcome to all in the EFSA Family who are considering visiting or indeed revisiting Albufeira.

EFSA Portugal has hosted many events from Marina de Albufeira. There are many species of Breems in the sea off Albufeira. The skippers are well equipped and experienced in Breems fishing and if ever you wanted to catch your personal best then I can recommended that Albufeira is the place to come.

EFSA Portugal is very pleased to have been awarded the European Species Championship for the first time. We are confident that this will be a great success and once again, on behalf of us all in EFSA Portugal we invite you to join us and compete for what is a truly fishes.

Please do bring your family and they too can enjoy all that Albufeira and the surrounding area has to offer (Algarve), they will be well looked after I am sure. There are lots of attractions within walking distance of Marina Albufeira.

I want to assure you that we in EFSA Portugal want you all to have a great few days with us and we will do everything we can to make your visit a memorable one.

1. The championship will be fished to the EFSA rules governing at the time of the championship unless otherwise stated.
2. The draw for the allocation of boats will take place daily on the boats, skippers in competition included.
3. Husband and wife or parent and child may apply to be drawn on the same boat when stated on the application form.
4. A fishing captain will be appointed for each boat in order to conduct the daily draw for boat places, observance of the rules of the Championship, start & finished times and transferring anglers scores to boat score-card.
5. The fishing areas each day will be directed by the Organising Committee.
6. If, in the opinion of the Organising Committee, the weather is unfit to allow the boats to reach the normal fishing grounds, it has the power to abandon the competition for the day or to limit the boats to a safe area. Their decision shall be final.
7. The Championship will be fished according a percentage system. The winner of the boat will get 100% with other anglers having their scores expressed as a % of the boat winner's bream fish weight.

Boat 1:

Boat winner	1 ^o Breams 5.000 kg = 100 %
	2 ^o Breams $\frac{3.700 \text{ kg} \times 100}{5.000 \text{ kg}} = 74 \%$
	3 ^o Breams $\frac{2.800 \text{ kg} \times 100}{5.000 \text{ kg}} = 56 \%$

Boat 2:

Boat winner	1 ^o Breams 8000 kg = 100 %
	2 ^o Breams $\frac{5.700 \text{ kg} \times 100}{8.000 \text{ kg}} = 71.25 \%$
	3 ^o Breams $\frac{4.150 \text{ kg} \times 100}{8.000 \text{ kg}} = 51.87 \%$

At the end of the Championship if a tie exists on percentage points the first decider will be based on total weight of Bream, if a tie still exists then the total number of Bream will prevail.

8. A list of fish sizes will be distributed to all competitors before the start of the Championship stating minimum sizes.
9. Only Breams will be accepted for weighing. All minimum sized fish can be taken ashore. Bream fish must be cleaned aboard.
10. Overhead casting is permitted. The terminal tackle must remain outside the boat at all times prior and during the cast, and all anglers must be made aware of the competitor's intention to cast. Only 1 rod is to be used at a time. Spare rods are allowed but without terminal tackle attached. Two hooks may be used.
