Introduction

Always Ready to Give **100%**

100%PeakPower keeps you switched on and ready for any challenge. All of it. Because we know you always want to be at your best — 100% of the time. So get ready to experience the power of peak performance.

Batteries with staying **Power**

You consistently put in 100%. And your devices should be powered by batteries that do exactly the same. We've got Alkaline. We have rechargeables and chargers. Our batteries come in AAA, AA, C, D and 9V. If you need Lithium Button batteries, we have those, too.

Whatever you have in mind, make sure you choose a battery for when it really matters.

Take

100% PeakPower with you.
100% of the time.

Rechargeables: Lean and Green

The chances are you like to follow your heart time and time again. You need a battery that blows your mind without blowing the environment. Our rechargeables give you 100% confidence for

peak performance. Pick up AAA, AA, C, D or 9V. Charge them as often as you like. They'll keep you going for longer-guaranteed.

Last Longer than Alkaline batteries

Cost Saving & Environmentally Friendly

Stay Charged when Not in Use

Guarantee for 3 years base on charging every 10 days

100%PeakPower Rechargeable batteries are perfect for...

Battery operated toys, Beauty or skin-care devices, CD players, Electric shavers, Electric toothbrushes, Electronic games, Flashlights, MP3 players, Portable electronics, Remote control cars, Smoke detectors, Walkie-talkies, Wireless mouse and keyboard

- More staying power
- Saves you money and kind to the planet
- Holds power when you're not using them
- 3-year guarantee

Reasons to get Recharged

Planet Friendly

Over 90% of materials used can be recycled

Super Savings

Each battery can be recharged more than 100 times, saving money and the environment

Perfect for any Device

Use rechargeables in hi-tech, high-drain gadgets or day-to-day devices

Satisfaction, 100% of the time

Advanced materials and automated technologies bring you superior products

Guaranteed for 3 years

Enjoy powerful performance for three years, based on charging every 10 days

Real Staying Power

Even after a year of not being used, these batteries will hold 70% of their charge

Precharged, Ready to Go

Our Rechargeables are precharged so you can get in on the action immediately

Wild Conditions Welcome

Our Rechargeables still work in extreme weather, giving you the confidence you need

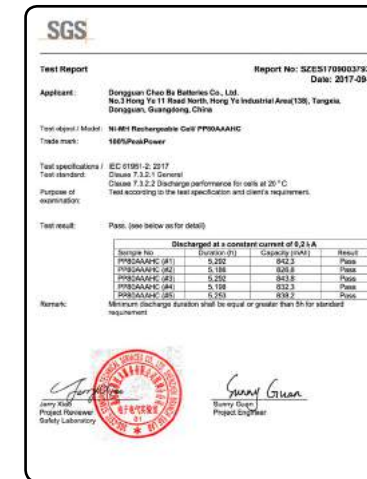

100% Reliable

Our rechargeables' capacity is certified by SGS for ultra-reliability

Extra Assurance and Certificates

AAA
 Battery's capacity is certified by SGS at all above **800mAh**

AA
 Battery's capacity is certified by SGS at all above **1300mAh/2300mAh**

C/D
 Battery's capacity is certified by SGS at all above **4000mAh**

9V
 Battery's capacity is certified by SGS at all above **200mAh**

Chargers: Double up

You are ready for any challenge, so your batteries should be, too. Our range of chargers are designed for our AAA or AA rechargeable batteries. They'll charge both sizes at the same time. And they'll do it fast. Get 100% of the power you need, as and when you need it.

Extra Safe

Light & Compact

Household & Travel use

PP420
4 Batteries

5-hour charge time

Speed, affordability and ultra convenience. Select a model that charges two or four batteries. Whichever you choose, you'll be back up to full power in a matter of hours.

- Available in GS, BS and US plugs
- Charge AA A and AA simultaneously
- LED indicators

PPU411
4 Batteries

8-hour charge time¹

Charge your batteries with complete peace of mind. The Safety Timer Protection² feature stops them overcharging, keeping them at 100% of their optimum charge level. Plug in your charger via USB to ensure you remain 100% ready for anything.

- Worldwide standard charging platform — USB
- Charge 4-8 AA and AAA simultaneously
- LED indicators

PPU811
8 Batteries

6-hour charge time¹

Get recharged the right way. Use the Hi/Lo battery capacity switch to change the charging time depending our battery capacity. The Safety Timer Protection² feature also prevents overcharging, keeping batteries at 100% of their optimum charge level. Plug in your charger via USB to ensure you have enough power when you are on the go.

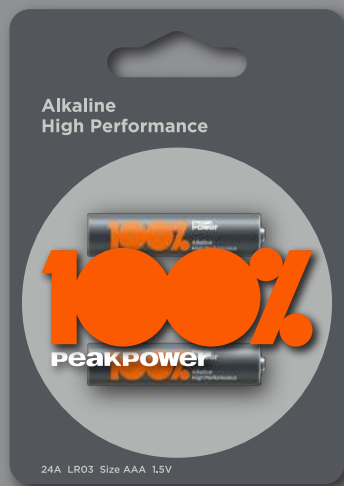

¹ Charge time depends on battery capacity

² The safety timer kicks at a specified time, regardless of charging status

Alkaline: Power and Durability

For sheer power, our Alkaline batteries offer peak performance for your day to day needs. They incorporate technology that gives your devices

the edge, 100% of the time, for a long time. Use our Alkaline batteries for high and mid-drain applications.
