G-20Y SUMMIT 2015 COMMITTEES

I. ENERGY MARKETS COMMITTEE

Well-functioning energy markets and reliable supply are essential to every household and business and have a significant impact on the cost of living and of doing business. Emerging economies are expected to account for more than 90% of the growth in energy demand up to 2035. The Energy Markets Committee will consider:

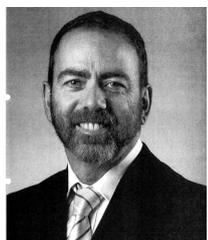

- Potential international efforts to improve the operation of global energy markets;
- Possible improvements regarding the cooperation between major producers and consumers;
- How work on energy efficiency could be advanced and become more transparent; and
- Renewable energy sources.

II. FOOD SECURITY COMMITTEE

Food security exists when all people, at all times, have physical, social and economic access to sufficient safe and nutritious food that meets their dietary needs and food preferences for an active and healthy life. The Food Security Committee will have three main pillars:

- (i) Strategies and measures to achieve that goal shall be discussed by the Food Security Committee including:
- How to balance future demand and supply sustainably with potential focus areas on increase farm of productivity, reduction of food waste, and influence diets;
 - How do we address price volatility for ag commodities with potential focus areas on volatility at the global and local level, correlation between energy and agricultural commodity prices;
 - End Hunger with potential focus areas on investments in agriculture, direct interventions, revitalize movements to end hunger;
 - Enable smallholders with potential focus areas on place of women, coops, technology; and
 - Enhance environmental sustainability of Agriculture with potential focus on soil and water conservation,

role of global food chain players, sustainability metrics.

- (ii) Promoting aquatic resources as a topic in the global debate on food-related issues and how companies, government agencies, and NGOs should and can apply creative and adaptive procedures that support efforts to sustain marine and freshwater resources.
- (iii) Providing input to the Food and Agricultural Organization of the United Nations on how to implement the Principles of Responsible Agricultural Investment developed and agreed upon by the UN Committee on World Food Security.

III. GLOBAL FINANCIAL INDUSTRY COMMITTEE (BANKING, INSURANCE ETC.)

In the aftermath of the global financial crisis, G20 member States have made considerable headway in global financial reforms aimed at preventing a repeat of the financial crisis but the work appears to be unfinished.

The Global Financial Industry (Sub)Committee(s) will discuss:

Priorities to initiate and complete banking-related financial reforms;

- Shadow Banking reforms and initiatives;
- Global payment markets systems and related challenges;
- Insurance reforms and regulatory challenges; and
- Impact of business transformation issues.

V. CREATING JOBS COMMITTEE

Unemployment and underemployment in many countries, particularly among young people, remains one of the key challenges confronting global economy and threaten growth and social cohesion. The Creating Jobs Committee will work on various issues covering the subject including:

- Labor market initiatives in particular regarding young people;
- How private enterprise can create right conditions for youth employment;
- Coping with structural unemployment;
- Talent development; and
- Female participation.

VI. DIGITAL INNOVATION AND TRANSFORMATION COMMITTEE

Digitalization appears to have an ongoing, partially revolutionary, impact on business strategies and processes. Digital transformation realigns technologies with business models creating new viable business offerings. At this stage digital connectivity however is just at the beginning and cloud computing, mobile technology, social media and data analytics will impact significantly business and private life. The Digital Innovation and Transformation Committee will discuss risks, challenges, opportunities and threats entailed with digitalization.

Franck Riboud
Keynote Speaker
Chairman of the Board of Directors
Danone
France

Franck RIBOUD is a graduate of the Ecole Polytechnique Fédérale de Lausanne.

He joined the Group in 1981, where he held successive positions through 1989 in management control, sales and marketing. After serving as Head of Sales at Heudebert, in September 1989 he was appointed to head up the department responsible for the integration and development of new companies in the Biscuits branch. In July 1990, he was appointed General Manager of Société des Eaux Minérales d'Evian.

In 1992, Franck RIBOUD became Head of the Group Development Department. The Group then launched its international diversification marked by increased development in Asia and Latin America and through

the creation of an Export Department.

In May 2, 1996, he became Chairman and Chief Executive Officer of Danone. On September 2, 2014, on the recommendation of Chairman and CEO Franck Riboud, Danone's Board of Directors voted to separate the functions of Chairman and CEO with Franck Riboud remaining as Chairman of the Board.

Since 2009, he has served as the Chairman of the Steering Committee of the Danone Ecosystem Fund, and in December 2011 he was named member of the Steering Committee of the Livelihoods Fund.

Franck RIBOUD is a Board Member of Renault and Rolex.

Dr. Deborah J. Lucas
 After Lunch Keynote Speaker
 Director
 Sloan Distinguished Professor of Finance
 MIT Sloan School of Management
 USA

Deborah J. Lucas is the Sloan Distinguished Professor of Finance at the MIT Sloan School of Management, and the Director of the MIT Center for Finance and Policy. Her recent research has focused on the problem of measuring and accounting for the costs and risks of government financial obligations, and her more than 50 publications span a broad range of topics in finance and economics.

Prior to joining MIT in 2010, Dr. Lucas has held various appointments including assistant director at

the Congressional Budget Office from 2009-2011; Donald C. Clark Professor of Finance at Northwestern University's Kellogg School of Management from 1996-2009; chief economist at the Congressional Budget Office from 2000 to 2001; and senior economist at the President's Council of Economic Advisers from 1992 to 1993.

Dr. Lucas received her BA, MA, and a PhD in economics from the University of Chicago.

Dr. Christoph W. Frei
 Opening Panellist
 Energy Markets Committee
 Secretary General
 World Energy Council (WEC)
 UK

Born in Switzerland in 1969, Christoph Frei became WEC's youngest Secretary General in April 2009. Prior to joining WEC, Christoph was a member of the Executive Council of the World Economic Forum (WEF) and its Senior Director in charge of Energy (2001-2009). He is also an Adjunct Professor at EPFL (since 2006) and a member of WEF's Global Agenda Council on Energy Security (since 2009). Previously he held various positions as Research Fellow and Lecturer at Swiss Federal Technical Institutes in Zurich (ETHZ), Lausanne (EPFL) and Würenlingen (PSI).

Christoph received his PhD es sc. from EPFL (1997-2000). He holds a diploma in electrical engineering (ETHZ, 1989-1995) and masters in energy economics

& management (EPFL, 1995-1997), econometrics (University of Geneva, 1997-2000), and applied ethics (Ethics Centre, University of Zurich, 2001-2002).

His publications cover fields including energy scenarios, national energy policies and global energy governance, energy & water nexus, and urban innovation. He has published articles in many WEF and WEC media, with co-authors including Pulitzer Prize winner Daniel Yergin. In 2004, Newsweek published his article entitled Bottomline Decisions, Concerns about reliable supply will always trump the call for cleaner energy. His PhD thesis was awarded with the ABB Energy Research Award 2001.

Dr. Patrik Kolar
 Opening Panellist
 Food Security Committee Speaker
 Head of Unit Agri-food chain
 European Commission
 Belgium

Patrik Kolar is Head of the “Agri-food Chain” Unit at European Commission’s Directorate General for Research and Innovation (R&I) in Brussels since 2014. His Unit of 32 Staff members is responsible for strategic planning of EU R&I priorities in food security implemented through the Horizon 2020 EU Framework Programme (2014 – 2020) but also through public-public and public-private R&I partnerships. Agri-food chain Unit also directly manages around 200 7th Framework Programme and Horizon 2020 funded R&I projects with an overall EU financial contribution

of around 700 million EUR.

Before joining the “Agri-food Chain” Unit Mr. Kolar led Units for “Genomics and Systems Biology”, “Personalised Medicine” and “Food, Health and Wellbeing” in the same Directorate General during the period 2007 – 2013.

Mr. Kolar holds a B.S. and PhD degrees in chemistry from University of Ljubljana, Slovenia and was Alexander von Humboldt research fellow at the Technical University of Karlsruhe, Germany during 1997 – 1998.

Dr. Dirk Lubig
 Opening Panellist
 Global Financial Industry - Banking Subcommittee
 Managing Director, Group Strategy (AfK)
 Deutsche Bank AG
 Germany

Dr. Dirk Lubig is a Managing Director at Deutsche Bank in Group Strategy (AfK). Dirk is responsible for advising the bank’s senior management on defining and executing the Bank’s strategy. He leads a strategy team spread across Frankfurt, London, New York and Singapore. In his daily work in corporate strategy, he tackles the Bank’s response to global economic and

financial challenges. Before Dirk joined Deutsche Bank he was a Partner at Bain & Company. He was one of the youngest Partner’s in the German system. Dirk holds a MBA in Business Administration from the University of Cologne and has a PhD in Economics. His passion outside the bank is Kitesurfing, Skiing and Sailing.

Mark Purdy

Linda Kromjong
 Opening/Closing Panellist
 Creating Jobs Committee
 Secretary General
 International Organization of Employers
 Switzerland

Linda Kromjong took up her post as Secretary-General of the International Organisation of Employers (IOE) in Geneva on 1 May 2015. The IOE is the largest network of the private sector in the world, with more than 150 business and employer organisation members. In the social and labour policy debate taking place in the International Labour Organization, across the UN and multilateral system, and in the G20 and other emerging processes, the IOE is the recognized global voice of business.

Prior to her role at the IOE, Linda Kromjong was Vice-President, Labor Relations International & Human

Rights for Deutsche Post DHL, the recognized world leader in logistics services. Linda started her career in the Hospitality Industry in the Netherlands and has many years' experience in senior positions in general management, HR, Labor Relations and Business & Human Rights.

Linda Kromjong is a Dutch national and completed Hotel Management School and Business Management studies in the Netherlands Amsterdam. Linda Kromjong serves on the Board of the UN Global Compact and the Global Apprenticeships Network (GAN).

Jonas Kjellstrand
 Opening Panellist
 Digital Innovation and Transformation Committee
 Strategy Officer
 SAS Institute
 USA

With more than 25 years' experience at the intersection of technology, society and business, Jonas Kjellstrand advises senior leaders on the interdependencies between these three areas and how to use them to develop their organizations. His global outlook and multi-industry experience enables him to think from many different perspectives on the issues facing society and business and to consult on the resulting opportunities. Taking a pragmatic, yet innovative approach, he counsels organizations on how to succeed in a world that is increasingly interconnected

and complex.

Prior to joining SAS Institute, Kjellstrand was a senior research analyst with Gartner and a fellow at Institute for the Future, a San Francisco/Silicon Valley-based research institute focusing on global trends and technology. He has also worked as a strategist in the financial services and insurance industries.

Kjellstrand was educated at the Stanford Graduate School of Business and holds an MBA from the Stockholm School of Economics.

Dr. Aldo Flores-Quiroga
 Closing Panellist
 Energy Markets Committee Speaker
 Secretary General
 International Energy Forum (IEF)
 Saudi Arabia

Aldo Flores-Quiroga is Secretary General of the IEF, the neutral facilitator of the global energy dialogue that engages Ministers and experts from 74 Member countries in addressing the world's key energy

challenges, and the promotion of energy security for all. Prior to his election he served in the Mexican government.

Prof. Mehdi Doroudi

Closing Panellist
Food Security Committee Speaker
Agriculture, Food and Wine/Fisheries and Aquaculture, Group Executive
Director Department of Primary Industries and Regions South Australia
Government of South Australia, Australia

Government of South Australia
Primary Industries and Regions SA

As Group Executive Director, Prof Doroudi has responsibility for leading and influencing the activities of PIRSA in the achievement of legislative, policy, management and development outcomes, and other initiatives such as research and development that will support the responsible and sustainable growth of agriculture, food, fisheries and aquaculture sectors in South Australia.

In his previous role, as Executive Director of Fisheries and Aquaculture, Prof Doroudi was responsible for sustainable management of the South Australian fisheries resources and also development of an internationally competitive aquaculture industry that

is market-driven and environmentally and socially responsible. From 2006 to 2009, Professor Doroudi held the position of Chief, Aquatic Sciences for the South Australian Research and Development Institute (SARDI), where he was responsible for providing clients with effective, innovative and coordinated services with an aquatic resource management focus.

Professor Doroudi completed his degree of Doctor of Veterinary Medicine at Tehran University and his PhD at the School of Marine Biology and Aquaculture, James Cook University. He also holds an affiliate professorial position with the University of Adelaide.

John Luijs

Closing Panellist
Global Demographic Developments Committee Speaker
Associate Director
The Boston Consulting Group
USA

THE BOSTON CONSULTING GROUP

John Luijs is an Associate Director at the Boston Consulting Group. John has been at BCG since 2003. He is part of BCGs global leadership team for Healthcare Payers and Providers. Within this practice he is the global topic leader for advanced analytics and medical cost management.

John has led most of BCGs research on global aging, including the impact aging will have on economic

growth, capital markets, human resources and consumer behavior.

John has been involved in a number of publications related to health care and demographics, and is a regular speaker at international conventions on these topics.

John has a Master in Economics from Erasmus University Rotterdam.

Andreas Harting

Closing Panellist
Digital Innovation and Transformation Committee Speaker
Co-Founder and Managing Director
Deloitte Digital
USA

Andreas Harting is Co-Founder and Managing Director of Deloitte Digital GmbH since 2014, which is a leading enterprise in digital transformation and strategy

consulting, headquartered in Munich.

Mr. Harting has more than 20 years of consulting, operational & entrepreneurial experience. Prior to

Kearney Lab and operated in multiple marketing and consulting roles at BCG, BBDO and J&J. As an entrepreneur himself, he co-founded an award winning media startup.

Today, he also serves as Senior Advisor of Logibrand

GmbH and is Member of the Advisory Board of Wolff GmbH.

Mr. Harting holds a degree in Economics from the University of Hamburg, Germany, as well as, an European Masters in Management from ESCP Europe. Additionally, he is an alum of the Stanford Executive Program.

Giulia Baldi

Food Security Committee Speaker
Police and Programme Officer
The World Food Programme
Italy

Giulia Baldi is an Italian national, with a bachelor in Economics and Management of International Organizations from Bocconi University, Milan and a masters in Public Health (Epidemiology) from Columbia University, New York.

She started her career in 2002, when she worked on child survival-related programmes with UNICEF NY, at the Health Section. In 2004, she then moved to the Center for Global Health and Economic Development of Columbia University, NY where she worked as

Programme Coordinator on child and maternal health-related research. In 2005, she started working with the United Nations World Food Programme (WFP), where she has served in various duty stations as Programme as well as Nutrition Officer, in Peru (2005-2009), Afghanistan (2009-2011), Indonesia (2011-2013) and Rome (to date). She is currently a Programme and Policy Officer with the Nutrition Division in WFP headquarters in Rome.

Benjamin Florez

Food Security Committee Speaker
Programme Officer
The World Food Programme
Italy

Benjamín Flórez is a Spanish lawyer with a Master's degree in International Business Management from the Centre for Economic and Commercial Studies, Madrid. In 2008, he started working for the United Nations World Food Programme (WFP) in Lima, where he handled supply chain projects in close partnership with the government. In 2011, Benjamín was transferred to WFP headquarters in Rome to handle the partnerships and resource mobilization efforts with a portfolio of European governments. He helped developing innovative approaches such

as Twinning Partnerships and multi-year Strategic Partnership Agreements. In 2013, he was assigned to the Office of the WFP Deputy Executive Director and COO to work on strategic and cross-cutting issues. In 2015, he moved to New York to help coordinating the WFP engagement in key global processes, particularly the post-2015 Development Agenda. Prior to joining WFP, Benjamín served at the Spanish Embassy in Manila as Liaison Officer with the Asian Development Bank (ADB).

Dr. Dietmar Stoian
 Food Security Committee Speaker
 Principal Scientist
 Value Chains and Private Sector Engagement
 Bioversity International
 Italy

Dietmar Stoian is Principal Scientist, Value Chains and Private Sector Engagement of Bioversity International, which is a leading global research-for-development organization that advances international agricultural research for a food secure future. Mr. Stoian is overseeing more than 50 employees including the functions Planning, Implementation, Monitoring and Evaluation, Project Acquisition and Public Relations, and reports to Bioversity's Deputy Director General-Research.

Prior to joining Bioversity International in 2012, Mr. Stoian has held various executive positions, including

Director of the Center of Competitiveness of Ecoenterprises (CeCoEco) at the Tropical Agricultural Research and Higher Education Center (CATIE) in Turrialba, Costa Rica, an international center with a unique combination of science, graduate education and innovation for development. Mr. Stoian started his career in 1994 as an advisor to the World Bank-funded Community Forestry Development Program in Nepal.

Mr. Stoian holds an MSc degree in forest sciences (1993) and a PhD in forest economics (2000) from the University of Freiburg, Germany.

Asmus Komm,
 Creating Jobs Committee Speaker
 Partner
 McKinsey & Company
 Germany

PRACTICAL INFORMATION

GENÈVE AÉROPORT (IATA: GVA, ICAO: LSGG)

Geneva International Airport formerly known as Cointrin Airport and officially as Genève Aéroport, is the international airport of Geneva, Switzerland. It is located 4 km (2.5 mi) northwest of the city centre and served 13,899,422 passengers and 192,944 aircraft movements in 2012. It is a hub for easyJet Switzerland and Darwin Airline as well as a focus city for Swiss International Air Lines including Swiss European Air Lines.

Its northern limit runs along the Swiss – French border and the airport can be accessed from both countries. The freight operations are also accessible from both countries, making Geneva a European Union freight hub although Switzerland is not a member of the EU. The airport is partially located within the commune of Meyrin and partially in the commune of Le Grand-Saconnex.

Flight information (arrival/departure)
Phone (CHF 1.19/minute from Switzerland):
+41(0)900 57 15 00

Web-site: www.gva.ch

Mobile app: GVApp www.gva.ch/GVApp

Address: Route de l'Aéroport 21, 1215 Le Grand-Saconnex, Switzerland

Terminal Opening Hours

Geneva airport has two passenger terminals, T1 and T2. Terminal 1, also known as Main terminal (M) is divided into 5 piers, A, B, C, D and F. All of the gates at Pier A, and some of the gates at Pier D, are Schengen gates. Passengers that board flights at those gates are not subject to passport checks. Gates at pier B, C, and some at pier D, are used for flights to destinations outside the Schengen area. Pier C is used primarily for widebody aircraft. Terminal 2 is used only for charter flights during the winter season. At all other times it is closed and handles no flights.

For security reasons the T1 terminal is closed from 00:00 am to 04:00 am.

The French Sector is closed from 23:00 pm to 04:30 am.

It is not allowed to stay inside during this time.

GETTING FROM THE AIRPORT TO THE HOTEL BY TRAIN

The airport offers connections to the Swiss and European rail network. The CFF airport railway station has direct access to the airport Check-in and Arrival levels. All trains stop at Geneva-Cornavin station (city centre).

Tickets can be purchased at the distributors in the train station (Swiss francs, euros or credit cards), at the station ticket wickets, at Ticket Shop CFF or – on landing in Geneva – in the baggage claim area (Arrivals level).

There are no direct trains from Geneva-Airport (GVA) to Evian-Les-Bain CGN station. But there is a combined route through Lausanne, it takes 1h 40 min to get to Evian-Les-Bain CGN station. The timetable is available on www.cff.ch

It takes 5 minutes by taxi to get from the train station to Hotel Royal Evian Resort and 10 minutes from the city centre.

GETTING FROM THE AIRPORT TO THE HOTEL BY TAXI

The distance between the Geneva Airport and the Hotel Royal Evian Resort is around 47 km

CURRENCY

The official currency of the French Republic is Euro (EUR).

The safest and easiest forms of money are traveler's

checks and credit cards. The cards most used are American Express, MasterCard and Visa.

Many banks in France have equipped their ATM machines with the CIRRUS or MAESTRO system. Many other French banks offer ATM machines for cash advances with your credit card. It is recommended to have a small amount of cash on hand upon arrival in Switzerland for immediate expenses, i.e. taxis, city transportation etc.

The VAT you pay on purchased goods in France is 20%. You may ask at the shops for your Global Refund Cheque and reclaim the VAT.

G-20Y ASSOCIATION

What makes *G-20Y* unique?

Capacity building
Impact
Reputation
Network

What do we stand for? *The G-20Y Association Vision*

The G-20Y Generation of young and successful business leaders cares about the prosperity of their immediate business environment as well as the development of their communities and countries. The G-20Y Vision is based on greater international cooperation, innovative ideas and mid- and long-term global economic prosperity.

- **Achieving greater international cooperation**

The recent world financial and economic crisis has revealed the need for greater international cooperation. Global challenges call for global responses. The effectiveness of these responses does not depend solely on the decisions made by the G-20 Heads of State, but also on international cooperation between powerful regions, businesses and communities. The G-20Y Generation has a key role to play in this respect. International cooperation is a second-nature for the G-20Y Generation, which grew up in a globalized world. Business leaders of the G-20Y Generation are instinctively convinced that the success of their businesses, and the solving of global challenges, can be achieved only through deeper international cooperation.

The G-20Y Generation is also the first generation for which the participation of 20 countries in international decision making is normal, rather than a novel post-Cold War achievement. In a fast-changing world where the interests of all countries are intricately interconnected and inter-dependent, young business leaders are convinced that they share a common fate and therefore believe that the G-20 forum is the appropriate platform for effective international decision making.

- **Sharing our innovative ideas**

More than ever in a time of economic tension, innovative thinking is necessary. The contribution of the G-20Y Generation is crucial in this respect. The world faces many pressing challenges, such as: imperiled water and food supplies, environmental change and financial instability. At the same time, there are many opportunities for entrepreneurial growth and success. G-20Y Generation business leaders have been successful so far thanks to their innovative thinking. Their future successes rely on further innovation, and innovation can help to solve the challenges that the world is facing. As the first new-technology generation, whose thinking is naturally innovative, the G-20Y Generation is a valuable source of new ideas.

- **Putting long-term global economic prosperity on today's international agenda**

Sustainable solutions to the world's challenges are needed on a mid- and long-term basis. Sustainable mid- and long-term prosperity is not necessarily the most immediate concern of current world leaders. Their most pressing concern is to address today's short-term global economic challenges. Mid- and long-term prosperity is the mandate of the G-20Y Generation. It is our responsibility to put it on today's international agenda. The G-20Y Generation wishes to concentrate its efforts on producing, in the twenty-first century, an unprecedented period of sustainable worldwide economic growth.

What do we do? *The G-20Y Summits and Recommendations*

- **The G-20Y Summit: turning the G-20Y Vision into Recommendations**

The objective of the G-20Y Summit is the preparation by the business community of a set of recommendations relevant not only to itself but also to the larger civil society and of course to national and international policy decision makers.

While the G-20Y remains entirely independent from the G20, the annual recommendations are disseminated across the world and shared, in particular, with the Heads of States and organizations such as IMF, World Bank, UN, OECD, European Commission or Basel Committee on Banking Supervision, and other associations to which the output of the respective G-20Y Summit Committees might have an impact and relevance.

The G-20Y Summit participants are individuals in corporate executive leadership positions below the age of 50 years from the most prestigious leading companies in the world, G20 countries, and their sectors.

The impact of these most promising representatives from participating companies and their exclusive role determining recommendations ensure that, the G-20Y Summits not only add value to the business community's efforts in responding to the global social, economic, and financial challenges, but also serve as a unique capacity building platform for the selected executives to gather together in an exchange of ideas and best practices while building and enhancing personal and professional relationships.

- **The G-20Y Summit: exchanging best business practices and creating strong bonds**

While preparing the G-20Y Summit Recommendations during the Summit, delegates have the unique opportunity to meet, share views and perspectives and create strong bonds of business and friendship.

While coming from all of the G-20 countries and having diverse backgrounds, the G-20Y delegates are united by a common desire to enhance international cooperation, develop business innovation and secure future

economic prosperity.

Hence, the G-20Y Summit is not only a unique personal experience for each delegate, it also greatly contributes to the development of delegates' businesses. G-20Y Summits offer an unprecedented chance to exchange ideas on successful business practice, attracting investment, entering new markets and the ultimate goal of creating a more prosperous world.

During the G-20Y Summits, delegates also highly value the presentations of our guest speakers from the International Organizations and Leading international companies.

How are we organized? *The G-20Y Association Structure*

The G-20Y Summit initiatives are organized by the Swiss-based G-20Y Association ("G-20Y Summit International Organizing Committee" Association). Headquarter is based in Geneva.

The functions of the G-20Y Association are carried out by separate dedicated entities:

The Founder and President of the G-20Y Association provides the overall impetus for the organization and coordinates G-20Y Association's work in all of the G-20 countries. The President has authority to sign all G-20Y Association official documents.

The Advisory Board of the G-20Y Association is an advisory body to the President. It provides advice on strategic and operational matters and links G-20Y Association to leading international institutions, governments, and business. The Advisory Board actively participates in the creation of the agenda for each G-20Y Summit.

The Executive Committee of the G-20Y Association actively contributes to the organization, administration and promotion of the annual G-20Y Summit and other G-20Y Association activities. The Head of the Executive Committee is a full time employee who coordinates the daily work of the G-20Y Association's staff. The Executive Committee also gathers the G-20Y Summit's alumni, who contribute to the organization of the annual G-20Y Summit on a voluntary basis.
