

AquaFlora Nurseries

AquaFlora Nurseries & Micropropagation is a wholesale aquarium plant nursery located in the Fraser Valley of British Columbia, Canada.

We produce all the plants we sell on site.

Our plants are all grown submersed, resulting in no foliage loss during acclimation to customers' aquaria. Virtually all our competitors grow their plants hydroponically in greenhouses, and their plants will often 'melt' and rot after several days underwater.

Our plants will not melt.

In our 5,000 square foot facility, we create thousands of healthy, beautiful, pest-free plants.

Micropropagation

Tiny cuttings, called explants, are removed from donor plants and systematically treated to remove all microorganisms. The result is 100% sterile plant material from which we generate superior quality plants for sale. Each explant is placed into nutrient media, which promotes rapid growth and division. After several weeks of growth, we transfer these new plants into water tanks to simulate standard aquarium conditions.

The several advantages of micropropagation:

- Plants are completely free of disease-causing bacteria and fungi, as well as snails, nematodes, and other pests, ensuring the highest standards of health.
- Uniformity of plant size and quality is assured.
- All species of plants are available year round.
- Using micropropagation, we produce a wide range of species, and so none of our plants are wild-collected.

Group A \$9.50 per pot

Free shipping and Handling

Alternanthera reineckii
'Pink' (roseaefolia)

Alternanthera reineckii
'Purple' (lilacina)

Ammannia ssp. 'Bonsai'

Bacopa australis

Bacopa caroliniana

Bacopa monnieri

Bacopa myriophylloides

Ceratopteris thalictroides

Crinum thaianum

Cryptocoryne crispatula

var. *balansae*

Cryptocoryne parva

Cryptocoryne wendtii 'Mi Oya'

Cryptocoryne wendtii 'Tropica'

Didiplis diandra (*Peplis diandra*)

Echinodorus bleheri

Echinodorus cordifolius
'Tropica Marble Queen'

Echinodorus parviflorus

Egeria densa

Eleocharis montevidensis

Eleocharis parvula

Eleocharis vivipara

Eriocaulon ssp.

Glossostigma elatinoides

Hemianthus callitrichoides

Heteranthera zosterifolia

Hydrocotyle sibthorpioides (maritima)

Hydrocotyle verticillata

Hygrophila difformis

Hygrophila corymbosa 'Compact'

Hygrophila corymbosa 'Angustifolia'

Hygrophila corymbosa
'Siamensis 53B'

Hygrophila difformis

Hygrophila polysperma

Hygrophila polysperma 'Ceylon'

Hygrophila polysperma 'Rosanervig'

Hygrophila ssp. 'Pantanal Wavy'

Lilaeopsis brasiliensis

Lilaeopsis macloviana

Lilaeopsis mauritiana

Limnophila sessiliflora

Ludwigia arcuata

Ludwigia glandulosa

Ludwigia repens

Ludwigia repens 'Rubin'

Micranthemum umbrosum

Microsorium pteropus 'Narrow'

Microsorium pteropus 'Undulata'

Myriophyllum aquaticum

Myriophyllum

mattogrossense

Myriophyllum tuberculatum

Nesaea crassicaulis

Pogostemon helferi

Pogostemon stellata (Eusteralis)

Potamogeton crispus

Ranalisma rostrata

Rotala rotundifolia

Rotala sp. 'Nanjenshan' (Mayaca)

Rotala ssp. 'Colourata'

Rotala wallichii

Ordering

We've made ordering as easy as possible. Due to our wholesale nature, we sell boxes of 50 pots, so when placing an order, please either have multiples of 50 or we can fill the remaining space with a selection of plants. Orders can be placed online, by phone, or by fax. Our online system has realtime, up-to-the second inventory, whereas phone and fax will have a limited amount of delay.

We add new species of plants all the time; this list is not comprehensive. Our website has a complete and up-to-date list. If you would like a printed version, please phone and we will send the current price list by fax.

Group B \$13.50 per pot Free shipping and Handling

Ammannia gracilis
Echinodorus 'Red Flame'
Tonina ssp. 'Belem'
Echinodorus 'Ozelot'
Tonina ssp. 'Manaus'

Group C \$18.50 per pot Free shipping and Handling

Anubias barteri var. angustifolia
(lanceolata)
Anubias barteri var. barteri
Anubias barteri var. nana 'Petite'

Shipping and Handling

All orders receive free shipping and handling - no extra charges are applied at all, with the exception of GST. We include the shipping in our price because it saves you from trying to locate the best deal and carrier. It also protects you from price swings in carrier rates.

We guarantee that our plants arrive alive and disease-free. We package and ship on the same day, and use next day and second day services for delivery. Cardboard protected, recyclable and reusable Styrofoam boxes ensure our plants arrive in perfect condition.

If there is a problem, simply call us within 24 hours of receiving the plants. If they aren't in perfect condition, we will either replace or credit back the full amount of the damaged plants (i.e. if 4 pots that cost \$2.50 each are damaged, you will receive \$10). We may require digital photos to verify damage.

Please visit our website to see all guarantee information.

The Lonely Fish Blog

Started by Tim Burton (AquaFlora's owner and founder) as a way to help fellow hobbyists everywhere, the Lonely Fish publishes information and articles on a wide range of aquarium-inspired topics. The benefits for retail pet stores quickly became obvious.

At the Lonely Fish, you can find out about aquatic plants, as well as concise scientific experiments illuminating the best types of fertilizer, lighting theory, substrates - learn more than the manufacturers are willing to say about the safety and effectiveness of their products.

Constantly updated with new and useful information, the Lonely Fish promises to be an essential source for hobbyists and retailers alike.
