

Original HP Large Format

Printing Materials & Supplies

For Sign & Display Applications

The HP Large Format Printing System

The Complete Solution

HP large format printers, Original HP inks and printheads, and Original HP printing materials are designed to work together as a system to ensure uncompromising image quality, consistency, performance, durability, and value—with every print.

Original HP printing supplies

HP Latex, low-solvent, UV-curable, and solvent inks, as well as HP ink cartridges and printheads, are developed together with the printer and HP large format printing materials to provide high-quality, durable prints, consistent results, and reliable system performance. Original HP printing supplies feature intelligent technology, built into the ink cartridges, printheads, and the printer. These critical system components communicate interactively to provide automatic and continuous adjustments that optimize print quality and maximize printhead life. User-replaceable printheads enable easy, low-maintenance printing and can eliminate the down-time and expense of a service call. And the HP Planet Partners program provides easy, convenient return and recycling of some Original HP ink cartridges and printheads¹.

Why Original HP printing materials?

Original HP large format printing materials make use of advanced HP-engineered coatings to take the guesswork out of producing high-impact signage and displays. Designed together as a complete printing system, HP large format printers, Original HP Latex, low-solvent, UV-curable, and solvent printing supplies, and HP printing materials deliver exceptional quality and consistent results.

⁶⁰ Compatible only with the 60-inch (1524 mm) version of the HP Designjet L25500 Printer series.

¹ Visit www.hp.com/recycle to see how to participate and for HP Planet Partners program features and availability; program may not be available in your area. Where this program is not available, consult the Material Safety Data Sheet (MSDS) available at www.hp.com/go/ecodata to determine appropriate disposal.

² Requires roll-to-roll upgrade kit.

³ HP Large Format Media take-back program availability varies. Some recyclable HP papers can be recycled through commonly available recycling programs. Recycling programs may not exist in your area. See www.hp.com/recycle for details.

⁴ Requires purchase of 2-inch spindle for compatibility with the HP Designjet L25500 and L26500 Printer series.

⁵ Unprinted HP Heavy Textile Banner and HP Light Textile Display Banner are Oeko-Tex[®] certified according to Oeko-Tex[®] Standard 100, which is a globally uniform testing and certification system for textile raw materials, intermediate, and end products at all stages of production. Tested for emissions of volatile organic compounds and chemical residues such as pesticides, allergy-inducing dyestuffs, or tin-organic compounds.

Original HP Large Format Printing Materials

From trade show signage, exhibition graphics, point-of-purchase displays, and wall murals inside to banners, light boxes, event banners, and vehicle graphics outside, choose from a wide range of HP printing materials—designed together with Original HP inks to deliver high-quality, durable output.

Win the business of customers who are going green

The HP large format printing materials portfolio includes a wide variety of recyclable substrates¹ and a range of alternatives to PVC. HP recyclable media can be returned through the HP Large Format Media take-back program available in North America and Europe¹.

The HP Large Format Media take-back program—available in North America and Europe¹

For over 15 years, HP has made it easy to recycle HP ink cartridges, printers, and other technology products. As part of the HP Planet Partners program, this free and convenient return and recycling program makes it easy for you and your customers to return HP recyclable media¹. Simply pack up eligible printing materials. HP picks up the shipping expense and handles sorting and recycling.

This free recycling service is open to customers in North America and Europe¹.

The program allows you to return and recycle any of the following HP large format printing materials:

- HP HDPE Reinforced Banner
- HP Double-sided HDPE Reinforced Banner
- HP Everyday Matte Polypropylene²
- HP Backlit Polyester Film
- HP Heavy Textile Banner
- HP Light Textile Display Banner
- HP DuPont™ Tyvek® Banner

The following HP large format printing materials can be recycled through commonly available recycling programs:

- HP Photo-realistic Poster Paper
- HP White Satin Poster Paper
- HP Coated Paper
- HP Universal Coated Paper
- HP Universal Heavyweight Coated Paper
- HP Heavyweight Coated Paper
- HP Universal Bond Paper
- HP Super Heavyweight Plus Matte Paper

To learn how to participate, see www.hp.com/recycle

Offer reassurance for indoor prints with HP printing materials that are approved according to health-related environmental criteria^{3,4,5,6}

Do your customers expect evidence that your solution really does reduce the impact of printing on the environment? When you use approved HP solutions—including HP Latex Inks and HP large format printing materials—you can provide reassurance. With the Oeko-Tex® label, HP Heavy Textile Banner and HP Light Textile Display Banner, for indoor display, offer reassurance that emissions levels and chemical residues meet the criteria for Oeko-Tex® labeled products—products tested and certified from a human health perspective³. In addition, HP Latex Ink prints are GREENGUARD Children & Schools CertifiedSM⁴ on FSC®-certified HP PVC-free Wall Paper and can help building owners obtain LEED credits⁵. Prints also meet AgBB criteria⁶.

¹ HP Large Format Media take-back program availability varies. Some recyclable HP papers can be recycled through commonly available recycling programs. Recycling programs may not exist in your area. See www.hp.com/recycle for details.

² Requires 2-inch spindle for compatibility with HP Designjet L25500 and L26500 Printer series.

³ Unprinted HP Heavy Textile Banner and HP Light Textile Display Banner are Oeko-Tex® certified according to Oeko-Tex® Standard 100, which is a globally uniform testing and certification system for textile raw materials, intermediate, and end products at all stages of production. Tested for emissions of volatile organic compounds and chemical residues such as pesticides, allergy-inducing dyestuffs, or tin-organic compounds.

⁴ HP PVC-free Wall Paper printed with HP Latex Inks is GREENGUARD Children & Schools CertifiedSM. See www.greenguard.org

⁵ To obtain US LEED credits based on FSC® certification, the builder must purchase HP PVC-free Wall Paper printed with HP Latex Inks from an FSC® Chain of Custody certified print service provider. To obtain LEED credits based on GREENGUARD Children & Schools Certification, HP PVC-free Wall Paper printed with HP Latex Inks must be part of a wall system in which all components are GREENGUARD Children & Schools Certified.

⁶ HP PVC-free Wall Paper printed with HP Latex Inks meets AgBB criteria for health-related evaluation of VOC emissions of indoor building products. See www.umweltbundesamt.de/produkte-e/bauprodukte/agbb.htm

The mark of responsible forestry

Digital Fine Art

HP Satin Canvas

HP Satin Canvas delivers brilliant color, fade resistance, and the distinctive touch of fine canvas, making it ideal for applications ranging from photo and fine art reproductions—where capturing the aesthetic quality of an artist’s original work is important—to banners and window displays.

Weight: **370 g/m²**

Thickness/caliper: **420 microns/16.5 mil**

HP Photo-realistic Poster Paper

HP Photo-realistic Poster Paper is a recyclable¹, highly versatile media that delivers vibrant, photo-realistic prints for a wide range of indoor graphic applications, such as posters, point-of-purchase displays, and decorations. An affordable alternative to photo media, HP Photo-realistic Poster Paper also offers easy post-print processing to simplify workflow and maximize productivity.

Weight: **205 g/m²**

Thickness/caliper: **206 microns/8.1 mil**

HP Super Heavyweight Plus Matte Paper²

Produce razor-sharp image quality and ripple-free prints—even under high ink densities—with this best-in-class graphics display paper that includes a barrier layer beneath a thick top coating and an ultra-white matte finish for a rich, distinctive look and feel. Compatible with the HP Designjet L25500 and L26500 Printer series using HP Latex Inks², this paper helps you achieve a new level of productivity by delivering broad application versatility, instant dry time, and excellent film laminate compatibility. And this paper can be recycled through commonly available recycling programs¹.

Weight: **210 g/m² (55 lbs)**

Thickness/caliper: **259 microns/10.2 mil**

HP Collector Satin Canvas²

Show your work at its best and reduce scrap. HP Collector Satin Canvas now offers a more consistent base fabric. Long-lasting museum-quality, satin-finish prints achieve vivid, accurate color reproduction with a smooth, even brighter white surface and improved color gamut ideal for fine art and photographs. You can stretch, fold, and mount this heavyweight, flexible material without cracking the image. And you can choose from a wide variety of compatible laminates.

Weight: **400 g/m²**

Thickness/caliper: **559 microns/22 mil**

Application needs:	Vibrant color/ fine detail	Canvas	Photo quality	Durable	Water resistant

POP Posters

HP White Satin Poster Paper

This multilayer recyclable¹ poster paper with a bright white satin finish produces richly detailed posters and water-resistant² prints and is qualified for billboard applications. Scratch-resistant prints keep the image intact when folding and achieve up to 6 months display permanence outdoors, unlaminated³.

Weight: **136 g/m²**

Thickness/caliper: **165 microns/6.5 mil**

HP Photo-realistic Poster Paper

HP Photo-realistic Poster Paper is a recyclable¹, highly versatile media that delivers vibrant, photo-realistic prints for a wide range of indoor graphic applications, such as posters, point-of-purchase displays, and decorations. An affordable alternative to photo media, HP Photo-realistic Poster Paper also offers easy post-print processing to simplify workflow and maximize productivity.

Weight: **205 g/m²**

Thickness/caliper: **206 microns/8.1 mil**

HP Backlit Polyester Film

Create high-impact backlits with the sharp, vibrant color that commands attention. With a specially engineered porous coating, this polyester backlit film achieves superb ink adhesion to produce razor-sharp images. And this high-performance film helps you keep peak productivity. With a high-end polyester base and compatibility with HP Latex Inks, this film provides a sturdy construction and quick-dry performance to help you move quickly to lamination and display.

Weight: **285 g/m²**

Thickness/caliper: **220 microns/8.7 mil**

HP Durable Semi-gloss Display Film⁴

This opaque, white inkjet-compatible coated PET film eliminates the complicated process of applying back laminate to printouts, making POP displays quick and easy to produce, while reducing waste and production costs. Vivid, eye-catching prints are ideal for pop-up display and roll-up presentation systems for fairs, exhibitions, store promotions, and other indoor events.

Weight: **265 g/m²**

Thickness/caliper: **199 microns/7.8 mil**

HP Everyday Adhesive Matte Polypropylene⁴

Versatile and durable, this matte polypropylene film produces quality prints with excellent color vibrancy at an everyday price. Designed for both indoor and outdoor applications, this tear-resistant film enables easier handling and faster mounting and is ideal for long-lasting, eye-catching signs and displays.

Weight:
With Liner: 180 g/m²
Without Liner: 130 g/m²

Thickness/caliper:
With Liner: 215 microns/8.9 mil
Without Liner: 185 microns/7.3 mil

HP Coated Paper⁴ PEFC™ certified

Ideal for color-accurate everyday prints, working comps, and design proofs, this premium bright white paper offers excellent handleability enabling technical professionals to roll or stack time-sensitive documents as soon as they come off the printer. And to help you meet the environmental objectives of your company—and your clients—this PEFC™-certified paper supports responsible forest management worldwide and can be recycled through commonly available recycling programs.

Weight: 90 g/m² (24 lbs)

Thickness/caliper: 114 microns/4.5 mil

HP Universal Coated Paper⁴ FSC® certified

Meet your everyday printing needs and enjoy consistent, high-quality results with this economical matte coated paper. This paper is ideal for a variety of graphics and technical applications from presentations and indoor signs to posters that are frequently replaced and is designed with the environment in mind—this FSC®-certified paper supports the development of responsible forest management worldwide and can be recycled through commonly available recycling programs.

Weight: 95 g/m² (26 lbs)

Thickness/caliper: 124 microns/4.9 mil

HP Universal Heavyweight Coated Paper⁴ FSC® certified

Meet your everyday printing needs and enjoy consistent, high-quality results with this economical heavyweight matte coated paper. This paper is ideal for a variety of medium ink-density technical and graphics applications, including presentations, indoor signs, and posters that are frequently replaced and is designed with the environment in mind—this FSC®-certified paper supports the development of responsible forest management worldwide and can be recycled through commonly available recycling programs.

Weight: 120 g/m² (32 lbs)

Thickness/caliper: 155 microns/6.1 mil

HP Heavyweight Coated Paper⁴ PEFC™ certified

Ideal for rich, color-accurate and lasting professional prints, working comps, and design proofs. This premium heavyweight bright white matte paper makes brilliant, colorful, medium ink-density images that look crisp and smooth and is designed with the environment in mind—this PEFC™-certified paper supports responsible forest management worldwide and can be recycled through commonly available recycling programs.

Weight: 130 g/m² (35 lbs)

Thickness/caliper: 167 microns/6.6 mil

HP Universal Bond Paper⁴ FSC® certified

See crisp text resolution and high-color contrast prints ideal for POP, retail, and poster applications with this economical bond paper designed with the environment in mind. HP Universal Bond Paper is FSC®-certified, supporting the development of responsible forest management worldwide, and can be recycled through commonly available recycling programs.

Weight: 80 g/m² (21 lbs)

Thickness/caliper: 106 microns/4.2 mil

HP Super Heavyweight Plus Matte Paper⁴

Produce razor-sharp image quality and ripple-free prints—even under high ink densities—with this best-in-class graphics display paper that includes a barrier layer beneath a thick top coating and an ultra-white matte finish for a rich, distinctive look and feel. Compatible with the HP Designjet L25500 and L26500 Printer series using HP Latex Inks⁴, this paper helps you achieve a new level of productivity by delivering broad application versatility, instant dry time, and excellent film laminate compatibility. And this paper can be recycled through commonly available recycling programs.

Weight: 210 g/m² (55 lbs)

Thickness/caliper: 259 microns/10.2 mil

HP Everyday Matte Polypropylene, 2-pack⁴

Produce high-impact signs with this versatile, durable matte polypropylene film. This tear-resistant substrate is easy to use and handle, is ideal for both indoor and outdoor applications, and is recyclable through the HP Large Format Media take-back program¹.

Weight: 120 g/m²

Thickness/caliper: 204 microns/8 mil

Outdoor Event Banners

HP Durable Frontlit Scrim Banner

HP Durable Frontlit Scrim Banner is a 535 g/m² (16-ounce) PVC scrim banner that provides vivid color and high image definition for maximum impact. This exceptionally versatile media is ideal for long-lasting outdoor or indoor applications such as in-store displays, trade show and event displays, outdoor signage, and building murals.

Weight: 535 g/m² (16 oz)

Thickness/caliper: 450 microns/17.7 mil

HP HDPE Reinforced Banner

This tough, lightweight HP banner helps reduce the impact of printing on the environment. This lightweight 170 g/m² (5-ounce) material offers the strength of 440 g/m² (13-ounce) PVC scrim. With this combination, you can produce signage suited to the rough-and-ready demands of banner displays, and at the same time you can lower your transportation costs, and reduce your raw material consumption. Recyclable through the HP Large Format Media take-back program¹, and designed together with HP Latex Inks, this material helps you—and your customers—go green.

Weight: 170 g/m² (5 oz)

Thickness/caliper: 203 microns/8 mil

HP Double-sided HDPE Reinforced Banner

Offer your customers double impact—plus surprising cost and environmental benefits—with this compelling alternative to PVC scrim. At 200 g/m² (6 ounces), HP Double-sided HDPE Reinforced Banner offers the image quality, durability, and tear strength of standard 440 g/m² (13-ounce) vinyl. Optimized with HP Latex Inks and using unique HP media technology, you get an ideal solution for advertising on both sides. And it's recyclable¹.

Weight: 200 g/m² (6 oz)

Thickness/caliper: 243 microns/9.6 mil

HP DuPont™ Tyvek® Banner

HP DuPont™ Tyvek® Banner is a highly versatile, lightweight, recyclable¹ media that delivers brilliant, high-quality banners for outdoor² and indoor applications. Water resistance testing by HP Image Permanence Lab on a wide range of media, including HP media; water resistance is comparable to eco- and low-solvent inks when printed on water-resistant substrates. Water resistance testing follows ISO 18935 method. Results may vary based on specific media performance. For more information, see www.hp.com/go/supplies/printpermanence

³⁾ HP HDPE Reinforced Banner can only be welded with heat, print-to-print and back-to-back.

⁴⁾ With HP Latex Inks. Water resistance testing by HP Image Permanence Lab on a wide range of media, including HP media; water resistance is comparable to eco- and low-solvent inks when printed on water-resistant substrates. Water resistance testing follows ISO 18935 method. Results may vary based on specific media performance. For more information, see www.hp.com/go/supplies/printpermanence

⁵⁾ HP image permanence and scratch, smudge, and water resistance estimates by HP Image Permanence Lab on a range of media including HP printing materials. See www.hp.com/go/supplies/printpermanence

Vehicle Graphics Wraps

HP Air Release Adhesive Gloss Cast Vinyl

This competitively priced, high-performance white cast vinyl with a permanent adhesive is ideal for high-impact long-term applications on curved and flat surfaces, like vehicle wraps. This substrate offers a gloss finish and an opaque permanent adhesive. When used with HP Clear Gloss Cast Overlaminate, this solution comes with an HP Performance Warranty that covers image performance, durability, and clean removal for up to 5 years (see www.hp.com/go/HPMediaWarranties)¹.

Weight:
With Liner: 260 g/m²
Without Liner: 100 g/m²

Thickness/caliper:
With Liner: 242 microns/9.5 mil
Without Liner: 51 microns/2 mil

Application needs:	Vibrant color/ fine detail	Durable	Flexible	Strong adhesion	Clean removal	Stretchable	Opaque
