## Keywords

### **Network providers**

“Provider” is the general term we use for doctors, hospitals, and other health care professionals and facilities that are licensed or certified by Medicare and by the state to provide health care services. We call them “network providers” when they accept our payment as payment in full, and in some cases to coordinate and provide covered services to members of our plan.

### **Evidence of Coverage (EOC)**

This document, along with your enrollment form and any other attachments, riders, or other optional coverage selected, explains your coverage, what we must do, your rights, and what you have to do as a member of our plan.

### **Primary Care Provider (PCP)**

Your primary care provider is the doctor you see first for most health problems. He or she also may talk with other doctors and health care providers about your care.

### **Covered services**

The general term we use to mean all of the health care services and supplies that are covered by our plan.

### **Referral**

A written or electronic order provided by your primary care provider that approves you to see a plan specialist or to obtain additional services. Referrals are not required for your plan.

### **Prior Authorization**

Approval in advance to get services or certain drugs that may or may not be on our formulary. Some in-network medical services are covered only if your doctor or other network provider gets “prior authorization” from our plan.

## Section 1 – Introduction

This directory provides a list of Keystone 65 Focus’ **network providers** and pharmacies. To get detailed information about your health care coverage, please see your **Evidence of Coverage (EOC)**. The network providers listed in this directory have agreed to provide your health care services. You do not need a referral from a physician for specialty care covered services.

### **How should you use this directory?**

You will have to choose one of our network providers listed in this directory to be your primary care provider (PCP).

If you do not select a PCP at the time of enrollment, we will automatically assign one to you. You will be prompted to choose or change your own PCP when you receive your member ID card.

### **How does a PCP work in an HMO-POS plan?**

You will have to choose plan providers that are part of the Keystone 65 Focus network to be your primary care provider (PCP). The term “PCP” will be used throughout this directory. Generally, you must get your health care services from your PCP. In some cases, such as an emergency, you may get covered services from out-of-network providers. When you become a member of Keystone 65 Focus, you must choose a network physician to be your PCP. Your PCP is a physician who meets state requirements and is trained to give you basic medical care.

Members have a choice of network specialists; however, members must receive routine laboratory care at the PCP’s designated site. Covered services that need prior authorization (approval in advance) are marked in the Benefits Chart in your *Evidence of Coverage*.

### **What is a Point-of-Service option?**

Keystone 65 Focus has a Point-of-Service (POS) option. “Point-of-Service” means you can use providers outside the plan’s network for most, but not all, covered services. Our plan will cover services from either in-network or out-of-network providers, if the services are covered benefits and are medically necessary. If you use an out-of-network provider, your share of the costs for your covered services may be higher. The only exceptions are emergencies, urgently needed care when the network is not available (generally, when you are out of the area), out-of-area dialysis, and in cases in which Keystone 65 Focus authorizes use of out-of-network providers.

## **How do you get care from a non-contracted provider?**

If a non-contracted provider submits a bill directly to you and asks you to pay for covered services you received from the non-contracted provider, you should not pay the bill. Instead, please submit the bill to Keystone 65 Focus for processing and determining your liability, if any.

It is best to ask a non-contracted provider to bill Keystone 65 Focus first, but if you already paid for the covered services, we will pay you for our share of the cost. If you get a bill for the services, you may send the bill to Keystone 65 Focus for payment. We will pay the non-contracted provider for our share of the bill and will let you know what, if anything, you must pay. You won't have to pay a non-contracted provider any more than what the non-contracted provider would have received from you if you had been covered under the Original Medicare plan.

## **What is the process for obtaining emergency services?**

You may get covered emergency medical care whenever you need it, anywhere in the world. If you have an emergency, we will talk with the doctors who are giving you emergency care to help manage and follow up on your care. The doctors who are giving you emergency care will decide when your condition is stable and the medical emergency is over. After the emergency is over, you are entitled to follow-up care to be sure your condition continues to be stable. Your follow-up care will be covered by our plan. If you get your follow-up care from out-of-network providers, you will pay the higher out-of-network cost-sharing.

Sometimes it can be hard to know if you have a medical emergency. For example, you might go in for emergency care — thinking that your health is in serious danger — and the doctor may say that it wasn't a medical emergency after all. If it turns out that it was not an emergency, as long as you reasonably thought your health was in serious danger, we will cover your care.

“Urgently needed care” is a non-emergency, unforeseen medical illness, injury, or condition that requires immediate medical care. Urgently needed care may be furnished by in-network providers or by out-of-network providers when network providers are temporarily unavailable or inaccessible. The condition could, for example, be an unforeseen flare-up of a known condition that you have.

When you are outside the service area and cannot get care from a network provider, our plan will cover urgently needed care that you get from any provider at the in-network cost-sharing amount. Our plan also covers urgently needed care outside of the United States and its territories at the same cost share as emergency care. Call the plan for details if traveling outside the United States. Please note that non-urgently needed care is not covered outside the United States. You must use network providers except in emergency or urgent care situations or for out-of-area renal dialysis or other services. If you obtain routine care from out-of-network providers, neither Medicare nor Keystone 65 Focus will be responsible for the costs.

## **What is the service area for Keystone 65 Focus?**

The counties in our service area are Bucks, Chester, Delaware, Montgomery, and Philadelphia counties in Pennsylvania.

## **Original Medicare**

Original Medicare is offered by the government, and not a private health plan like Medicare Advantage plans and prescription drug plans. Under Original Medicare, Medicare services are covered by paying doctors, hospitals, and other health care providers payment amounts established by Congress. You can see any doctor, hospital, or other health care provider that accepts Medicare. You must pay the deductible. Medicare pays its share of the Medicare-approved amount, and you pay your share. Original Medicare has two parts: Part A (Hospital Insurance) and Part B (Medical Insurance) and is available everywhere in the United States.

## **Emergency**

A medical emergency is when you, or any other prudent layperson with an average knowledge of health and medicine, believe that you have medical symptoms that require immediate medical attention to prevent loss of life, loss of a limb, or loss of function of a limb. The medical symptoms may be an illness, injury, severe pain, or a medical condition that is quickly getting worse.

## **Emergency care**

Covered services that are:

1. Rendered by a provider qualified to furnish emergency services
2. Needed to treat, evaluate, or stabilize an emergency medical condition

## **Urgently needed services**

Urgently needed services are care provided to treat a non-emergency, unforeseen medical illness, injury, or condition that requires immediate medical care. Urgently needed services may be furnished by network providers or by out-of-network providers when network providers are temporarily unavailable or inaccessible.

### **Out-of-network provider**

A provider or facility with which we have not arranged to coordinate or provide covered services to members of our plan. Out-of-network providers are not employed, owned, or operated by our plan or are not under contract to deliver covered services to you.

### **Service area**

A geographic area where a health plan accepts members if it limits membership based on where people live. For plans that limit which doctors and hospitals you may use, it's also generally the area where you can get routine (non-emergency) services. The plan may disenroll you if you permanently move out of the plan's service area.

### **Member Help Team**

A department within our plan responsible for answering questions about health plan coverage, including, but not limited to, enrollment, billing, benefits, and claims. Please review the first page of this document, the back of your member ID card, or see Chapter 2 in the *Evidence of Coverage* for information about how to contact the Member Help Team.

### **How do you find Keystone 65 Focus providers that service your area?**

This directory contains a list of PCPs, specialists, and pharmacies in the Keystone 65 Focus network in alphabetical order by county and then by city. You should use the Table of Contents to locate the type of provider you are looking for. Please call the provider's office to see if the provider is accepting new patients. Be sure to ask the provider if they participate in the Keystone 65 Focus plan.

### **How do you find a pharmacy?**

This directory provides a list of Keystone 65 Focus network pharmacies. To get a complete description of your prescription coverage, including how to fill your prescriptions, please review the *Evidence of Coverage* and formulary.

We call the pharmacies on this list our "network pharmacies" because we have made arrangements with them to provide prescription drugs to plan members. In most cases, your prescriptions are covered under Keystone 65 Focus only if they are filled at a network pharmacy or through our mail-order pharmacy service. Once you go to one pharmacy, you are not required to continue going to the same pharmacy to fill your prescription, but can switch to any other of our network pharmacies. We will fill prescriptions at non-network pharmacies under certain circumstances as described in your *Evidence of Coverage*.

All network pharmacies may not be listed in this directory. Pharmacies may have been added or removed from the list after this directory was printed. This means the pharmacies listed here may no longer be in our network, or there may be newer pharmacies in our network that are not listed. This list is current as of **October 2022**. For the most current list, please contact us. Our contact information appears on the front and back cover pages.

You can go to all the pharmacies on this list, but your costs for some drugs may be less at pharmacies in this list that offer preferred cost-sharing. We have marked these pharmacies with **P** to distinguish them from other pharmacies in our network that offer standard cost-sharing.

You can get prescription drugs shipped to your home through our network mail-order delivery program. For more information, please contact us or see the mail-order section of this *Provider/Pharmacy Directory*.

### **Where do you go if you have questions?**

If you have questions about any of the above, or require assistance in selecting a PCP, please call our Member Help Team at **1-800-645-3965**; TTY/TDD users should call **711**. You can also visit **ibxmedicare.com**.

A PCMH is intended to provide more personalized, coordinated, effective, and efficient care. This directory identifies the primary care practices in the Keystone 65 Focus network that are recognized by NCQA as a PCMH. You may visit the NCQA website at [ncqa.org](http://ncqa.org) to learn more about these recognition programs. PCMH practices are identified by an asterisk next to their office address as Patient-Centered Medical Home accreditation.

Patient-Centered Medical Home recognition is subject to change.
